FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

How To Cite This Publication: Use the volume number and the page number. Example: 50 FR 12345.

Title 3—

The President

Proclamation 5319 of April 15, 1985

Loyalty Day, 1985

By the President of the United States of America

A Proclamation

Providence has favored our land, with its abundant resources and industrious people, and the years of adversity in our history have been few. Yet even during the dark hours, the times of conflict or economic hardship, Americans have demonstrated their unwavering devotion to the noble ideals upon which this country was founded. Our faith in the principles of freedom, justice, and opportunity has sustained us. We have prevailed over every challenge and our success shines as a beacon of hope for the world, an enduring reminder that adherence to the fundamental values of liberty will overcome any obstacle.

Today these values are enjoying renewed allegiance in America and elsewhere; the advantages of our democratic way of life are winning the United States new admiration and respect around the world.

Americans' loyalty to their Nation is especially inspiring because it is freely given by a free people. Nations that seek to compel the love or fidelity of their citizens without tolerance for their unalienable rights are inherently unstable and frequently dangerous to others. Now that the windows of communication and commerce are bringing nations into increasingly close relationships, the truths our forefathers found self-evident are becoming apparent to all: the future belongs to the free—to peoples who are free to work, to assemble, to vote, to travel and to emigrate, to print and to speak, and to worship as they choose.

Today, in this time of peace and prosperity at home, it is fitting that we reflect upon the venerable ideals that symbolize the American spirit. By remaining loyal to these ideals, we will be worthy of the trust a generous God has reposed in us. For this purpose, the Congress, by joint resolution approved July 18, 1958 (72 Stat. 369, 36 U.S.C. 162), has designated May 1 of each year as Loyalty Day, a day to renew our commitment to this grand republic and its democratic institutions.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim May 1, 1985, as Loyalty Day and call upon all Americans and patriotic, civic, and educational organizations to observe that day with appropriate ceremonies. I also call upon all government officials to display the flag of the United States on all government buildings and grounds on that day.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of April, in the year of our Lord nineteen hundred and eighty-five, and of the Independence of the United States of America the two hundred and ninth.

Ronald Reagan

Presidential Documents

Proclamation 5320 of April 15, 1985

Law Day, U.S.A., 1985

By the President of the United States of America

A Proclamation

May 1, 1985, is Law Day, U.S.A. This year's Law Day theme, "Liberty and Justice for All," reaffirms the principles upon which our Republic was founded. The guarantee of liberty and the right to seek justice emerged through law: through the Declaration of Independence, the Constitution, and the Bill of Rights. As Americans, we continue to preserve these principles through our lawmaking and judicial systems.

Each time we recite the Pledge of Allegiance, we renew our commitment to providing the benefits of liberty and the reality of justice for all.

These principles have served and continue to serve as an inspiration to everyone in this great Nation, because they represent a promise, an ideal, and an opportunity. It is the promise of liberty and justice for all that has brought millions of immigrants to American shores. It is the ideal of liberty and justice for all that has guided our government in making and enforcing our laws. It is the opportunity for liberty and justice for all that has inspired Americans from all walks of life to participate in and give life to our unique form of government.

The fact that we continue to strive to be one Nation, under God, with liberty and justice for all, is a tribute to the memory of the millions of Americans who, throughout our history, have been willing to die to secure or preserve these ideals. The great patriot Patrick Henry's impassioned plea, "Give me liberty or give me death," continues to symbolize today the fervor with which Americans treasure these freedoms.

Law Day is an important opportunity for all Americans to improve their understanding and appreciation of the contribution law makes to the preservation of liberty and justice. I urge all Americans to join with me in renewing our dedication to those principles for which so many Americans have sacrificed their lives.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim Wednesday, May 1, 1985, as Law Day, U.S.A. I urge the people of the United States to use this occasion to renew their commitment to the rule of law and to reaffirm our dedication to the partnership of law and liberty. I also urge the legal profession, schools, civic, service, and fraternal organizations, public bodies, libraries, the courts, the communications media, business, the clergy, and all interested individuals and organizations to join in efforts to focus attention on the need for the rule of law. I also call upon all public officials to display the flag of the United States on all government buildings open on Law Day, May 1, 1985.

IN WITNESS WHEREOF, I have hereunto set my hand this 15th day of April, in the year of our Lord nineteen hundred and eighty-five, and of the Independence of the United States of America the two hundred and ninth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 50, No. 75
Thursday, April 18, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 930

Programs for Specific Positions and Examination (Miscellaneous)

AGENCY: Office of Personnel Management.

ACTION: Final regulations.

SUMMARY: The Office of Personnel Management (OPM) is issuing regulations that implement Pub. L. 98–224, signed March 2, 1984. This law amended section 3323(b) of Title 5, United States Code, to permit the temporary reemployment of retired Administrative Law Judges (ALJs) under regulations promulgated by OPM. These final rules will help agencies deal with temporary, irregular workloads for ALJs.

EFFECTIVE DATE: May 20, 1985.

FOR FURTHER INFORMATION CONTACT: Craig B. Pettibone, Assistant Director for Administrative Law Judges, (202) 632–5677.

SUPPLEMENTARY INFORMATION: In the October 31, 1984, **Federal Register**, OPM proposed to add a new § 930.216 to Subpart B, Part 930, Title 5 of the Code of Federal Regulations, to permit the temporary reemployment of retired ALJs to conduct formal administrative hearing proceedings in accordance with 5 U.S.C. 556 through 557. Interested parties were given until November 30, 1984, to submit written comments concerning this proposal.

Nineteen written comments and a few telephone comments were received by OPM. The Senior Judges Committee of the National Conference of Administrative Law Judges, Judicial Administration Division, American Bar Association, submitted a most comprehensive set of comments and met with OPM staff to discuss them. Eleven retired ALJs submitted comments that generally paralleled the comments of the Senior Judges Committee. Five agency chief ALJs and one agency personnel director submitted comments. In addition, a former director of the Office of Administrative Law Judges in the old U.S. Civil Service Commission submitted comments.

The commenters generally supported the promulgation of regulations permitting the reemployment of retired ALJs. However, they raised six issues that are listed and discussed below.

1. *Should retired ALJs apply directly to agencies for reemployment or apply first to OPM for referral to agencies?* Several commenters took the position that applicants for reemployment as retired ALJs should be required to apply first to OPM rather than directly to the employing agency as proposed by OPM under 5 CFR 930.216(b). They argued that such a procedure was necessary to give the public the assurance required by the Administrative Procedure Act (APA) that an agency would not be selecting a particular ALJ to hear a particular case or influence the outcome of an assigned case in any way. They also argued that requiring agencies to assign cases in general rotation as OPM had proposed was not a sufficient assurance to the public that an impartial retired ALJ would be appointed in the first place. Therefore, they argued that OPM should provide an application procedure that paralleled that required by the APA for applicants for regular ALJ positions. In other words, applicants should first apply to OPM for reemployment, and OPM should then provide employing agencies in reponse to their request lists of applicants who meet their qualification requirements. In response to the comments received, OPM has modified the proposed regulations so that the final regulations provide that retired ALJs who are interested in reemployment should first notify OPM in writing. OPM will compile a list of such retired ALJs and will refer lists of qualified retired ALJs to agencies that request them. The names of retired ALJs referred from OPM's master list will be rotated to the extent practicable.

2. *Should retired ALJs be required to reestablish their qualifications in accord with OPM Examination Announcement No. 318 for ALJs?* A number of commenters interpreted OPM's proposed regulations as if they would have required retired ALJs to reestablish their qualifications by retaking the ALJ examination. OPM did not and does not anticipate requiring ALJs to retake the ALJ examination to qualify for reemployment. OPM simply proposed to require that the retired ALJs who wanted to become reemployed would have to demonstrate that they had established eligibility in accordance with the qualification and examination requirements of OPM Examination Announcement No. 318 for ALJs. This Announcement was first published in 1963, but was revised in 1984. Retired ALJs having already passed the requirements of this examination announcement would not have to retake it. They would simply have to show that since retirement they continued to meet the one qualification requirement set out in the examination announcement that relates to current status rather than past achievement. Specifically, they would have to show that they continue to be duly licensed to practice law under the laws of a state, the District of Columbia, the Commonwealth of Puerto Rico, or any territorial court established under the Constitution. This is the same eligibility requirement placed on former ALJs who seek to be reinstated under 5 CFR 930.207. Such an eligibility requirement is a straightforward assurance to the public that retired ALJs have met the same eligibility requirements as regularly employed ALJs and have maintained proficiency in their legal knowledge, skills, and abilities. Accordingly, OPM is keeping this requirement in the rules for reemployment of retired ALJs.

3. *Should reemployment for the period of time necessary to conduct and complete one or more specified cases be limited to cases "assigned but not completed before retirement"?* Some commenters questioned why § 930.216(f)(2) of OPM's proposed regulations would have limited reemployment for the period of time necessary to conduct and complete one or more specified cases "assigned but not completed before retirement." They pointed out that such a limitation was not included in the statutory language of 5 U.S.C. 3323(b), as amended. They also added that an agency might wish from time to time to reemploy a retired ALJ indefinitely for assignment to a particular new case rather than for a particular period of time for assignment

to cases in normal rotation as permitted under § 930.216(f)(1). OPM had included the limitation because it had proposed that retired ALJs apply for reemployment directly to the employing agencies and that the employing agencies recommend to OPM a specific retired ALJ from reemployment. If the agencies were to be given such freedom to pick their own retired ALJs, they could not also be permitted to pick a particular case for assignment to them without violating the APA requirement that an agency not pick a particular ALJ for a particular case, and assign all cases in rotation to the extent practicable. However, in view of the revision of the final regulations to provide for retired ALJs to apply for reemployment by first notifying OPM, and for OPM to forward a list of qualified retired ALJs to agencies in response to their requests for reemploying unnamed retired ALJs, OPM has deleted this limitation from the final regulations.

4. *Is the language of § 930.216(h) (§ 930.216(g) in the proposed regulations) concerning the assignment of cases to reemployed ALJs either to hear a case(s) assigned but not completed before retirement, or to hear cases in normal rotation to the extent practicable, permissive or mandatory?* A few commenters expressed concern that the use of the word "shall" in this subsection of the regulations would have imposed an obligation on an agency to automatically reemploy a retired ALJ to complete a case that was asssigned but not completed before retirement. This concern was raised in the context of 5 U.S.C. 554(d) that requires in part "The employee who presides at the reception of evidence pursuant to section 556 of this title shall make the recommended decision or initial decision required by section 557 of this title, unless he becomes unavailable to the agency." OPM believes that this concern can be eliminated by changing the word "shall" to "may" as it has done in the final regulations. Also, OPM is not aware of anything in the legislative history of 5 U.S.C. 3323(b) that would suggest that an agency would be obligated to reemploy a retired ALJ to finish an uncompleted case. Such reemployment to complete an uncompleted case is a matter of agency discretion. Further, we assume that most agencies will continue to try to have their ALJs complete assigned cases before retirement, and that cases assigned but not completed before retirement will generally arise infrequently in connection with the remand of cases from a higher appellate body after an ALJ has retired.

5. *What happens if a retired ALJ reemployed for a particular period of time to hear an agency's cases in normal rotation finds during such period of time that the services of the additional ALJ are no longer required to handle pending workloads?* One agency asked whether, in such a situation, an agency could terminate the reemployment without proposing removal in an on the record hearing before the Merit Systems Protection Board under 5 U.S.C. 7521. Such a question should arise rarely, if at all, if the agency's request to reemploy a retired ALJ was fully and properly justified. Also, in accordance with the change made in the final regulations under issue 3 above, such a situation could be avoided by an agency if the agency simply reemploys a retired ALJ to hear a specific case or cases for such period of time as it takes to complete them. However, if the situation did arise, the agency could ask OPM to approve a reduction in the period of reemployment. And, if such a request is approved, the period of reemployment could be terminated when the need for the reemployed ALJ's services end.

6. *How is the pay to be set for the retired ALJ who is reemployed?* Several commenters interpreted proposed § 930.216(j) as if it would have limited the pay for a retired ALJ to the highest dollar rate of pay received as an ALJ before retirement. This was not the intent of the regulations. The final regulation has been clarified to make it understood that the retired ALJ will be paid by the employing agency at "the current rate of pay for the grade at which the duties to be performed have been classified and at a step of that grade that is nearest (when rounded up) to the highest previous grade and step attained as an Administrative Law Judge before retirement." For example, retired GS–16 ALJs would be reinstated in GS–16 ALJ positions at the highest step of the GS–16 grade level they had previously attained as ALJs before retirement. And, they would be paid at that step of the GS–16 grade level at current salary rates. Similarly, GS–15 ALJs would be reinstated in GS–15 ALJ positions at the highest step of the GS–15 grade level they had previously attained as ALJs before retirement. And, they would be paid at that step of the GS–15 grade level at current salary rates. Also, retired GS–16 ALJs would be reinstated in GS–15 ALJ positions at that step of the GS–15 grade level that is nearest (when rounded up) to the highest step of the GS–16 ALJ position attained before they retired. Likewise, they would be paid at current salary rates for that step at the GS–15 grade level. However, an amount equal to the annuity allocable to the period of actual employment will be deducted from his or her pay and deposited in the Treasury of the United States to the credit of the Civil Service Retirement and Disability Fund.

E.O. 12291 Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it only affects Federal employees.

List of Subjects in 5 CFR Part 930

Administrative practice and procedure, Government employees, Motor vehicles.

Office of Personnel Management.

Donald J. Devine,

Director.

Accordingly, OPM amends 5 CFR Part 930 as follows:

PART 930—PROGRAMS FOR SPECIFIC POSITIONS AND EXAMINATIONS (MISCELLANEOUS)

Subpart B—Appointment, Pay and Removal of Administrative Law Judges

1. The authority for Subpart B reads as follows:

(5 U.S.C. 1305, 3105, 3344, 5335, 5372, 7521, unless otherwise noted)

2. Section 930.216 is added to read as follows:

§ 930.216 Temporary Reemployment: Senior Administrative Law Judges.

(a) Subject to the requirements and limitations of this section, an annuitant, as defined by section 8331 of Title 5, United States Code, receiving an annuity from the Civil Service Retirement and Disability Fund (1) who has served with absolute status as an administrative law judge under section 3105 of that Title; and (2) who has met current qualification and examination requirements set forth in OPM Examination Announcement No. 318 (including the requirement to maintain a current license to practice law under the laws of a state, the District of Columbia, the Commonwealth of Puerto Rico, or any territorial court established under the Constitution), may be temporarily

reemployed as an administrative law judge by an agency that has temporary, irregular workload requirements for conducting proceedings in accordance with sections 556 and 557 of that title. Such retired administrative law judges who are so reemployed will be known as senior administrative law judges.

(b) Retired administrative law judges who meet the requirements of paragraph (a) of this section and who are available for temporary reemployment must notify OPM in writing of their availability, giving their full name, address, telephone number, name of the agencies where the person served as an ALJ, and jurisdictions in which they are currently licensed to practice law. OPM will maintain a master list of such retired administrative law judges for use in responding to agency requests for such judges.

(c) An agency that wishes to temporarily reemploy administrative law judges must submit a written request to OPM. The request shall—

(1) Identify the statutory authority under which the administrative law judge is expected to conduct proceedings;

(2) Demonstrate that the agency is occasionally or temporarily understaffed;

(3) Specify the tour of duty, location, period of time, or particular case(s), for the requested reemployment; and

(4) Describe any special qualifications desired in the retired administrative law judge that it wishes to reemploy, such as experience in a particular field, agency, or substantive area of law.

(d) OPM will approve agency requests for temporary reemployment of retired administrative law judges for a specified period or periods provided:

(1) The requesting agency fully justifies that it requires the use of an administrative law judge and that it is occasionally or temporarily understaffed; and

(2) No other administrative law judge with the appropriate qualifications is available through OPM under § 930.213 of this subpart to perform the occasional or temporary work for which reemployment is requested.

(e) Upon approval of an agency request to reemploy a retired administrative law judge, OPM will select from its master list of retired administrative law judges, in rotation to the extent practicable, those retired judges who it determines meet agency requirements. OPM will then provide a list of such individuals to the requesting agency and the agency must then select from that list a retired administrative law judge for reemployment.

(f) Reemployment of retired administrative law judges is subject to investigation of suitability in accordance with §§ 731.201 through 731.303 of this chapter. It is also subject to conflict of interest and security investigation requirements by the appointing agency.

(g) Reemployment as senior administrative law judges will be for either (1) a specified period not to exceed 1 year; or (2) such periods as may be necessary for the reemployed administrative law judge to conduct and complete the hearing of one or more specified cases and issue decisions therein. Upon agency request, OPM may either reduce or extend such period of reemployment, as necessary, to coincide with changing staffing requirements.

(h) An agency may assign its senior administrative law judges to either (1) hear one or more specific cases; or (2) hear, in normal rotation to the extent practicable, a number of cases on its docket and issue decisions therein.

(i) Hours of duty, administrative support services, and travel reimbursement for senior administrative law judges will be determined by the employing agency in accordance with the same rules and procedures that are generally applicable to employees.

(j) A senior administrative law judge serves subject to the same limitations on performance appraisal and removal as any other administrative law judge employed under this subpart and section 3105 of title 5, United States Code. An agency will not rate the performance of a senior administrative law judge. Actions may not be taken against senior administrative law judges during the period of reemployment, except for good cause established and determined by the Merit Systems Protection Board after opportunity for a hearing on the record before the Board as provided in §§ 1201.131 through 1201.136 of this Title.

(k) A senior administrative law judge will be paid by the employing agency the current rate of pay for the grade at which the duties to be performed have been classified and at a step of that grade that is nearest (when rounded up) to the highest previous grade and step attained as an administrative law judge before retirement. However, an amount equal to the annuity allocatable to the period of actual employment will be deducted from his or her pay and deposited in the Treasury of the United States to the credit of the Civil Service Retirement and Disability Fund.

BILLING CODE 6325-01-M

MERIT SYSTEMS PROTECTION BOARD

5 CFR Part 1201

Practice and Procedure; Realignment of Regional Offices

AGENCY: Merit Systems Protection Board.

ACTION: Final rule.

SUMMARY: The Merit Systems Protection Board announces realignment of the geographical areas of its regional offices. The realignment affects regions covering territory located primarily west of the Mississippi River.

EFFECTIVE DATE: May 1, 1985.

FOR FURTHER INFORMATION CONTACT: Michael Doheny, (202) 653-7980.

SUPPLEMENTARY INFORMATION: The Merit Systems Protection Board has realigned the geographical jurisdiction of six of its regional offices: Atlanta, Dallas, Denver, St. Louis, San Francisco and Seattle. The realignment is designed to enable the Board to be more responsive to the needs of appellant and agency clients. It takes advantage of the demonstrated capacity of three small regional offices to handle a greater amount of territory than is currently assigned to them, and it provides for a better balanced caseload among all of the regions. It is also fully consistent with the government-wide effort to streamline federal regional structures for the purpose of cost-effectiveness and efficiency in operations. Agencies are required to provide employees, against whom an action appealable to the Board has been taken, notice of their appeal rights and the correct address of the MSPB regional office to which their appeals should be sent. Accordingly, agencies and other interested parties should carefully review the boundary changes in Appendix II.

List of Subjects in 5 CFR Part 1201

Government employees, Administrative practice and procedures, Civil rights.

PART 1201—[AMENDED]

Accordingly, Appendix II to 5 CFR Part 1201 is revised to read as follows:

Appendix II to Part 1201—Appropriate Regional Office for Filing Appeals

All submissions shall be addressed to the Regional Director, Merit Systems Protection Board, at the below-listed addresses, according to geographic region of the employing agency.

Address of Appropriate Regional Office and Area Where Agency is Located:

1. Atlantic Regional Office, 1776 Peachtree Street, NE, Atlanta, Georgia 30309 (Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina).

2. Boston Regional Office, 150 Causeway Street, Room 1122, Boston, Massachusetts 02114 (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont).

3. Chicago Regional Office, 230 South Dearborn Street, 31st Floor, Chicago, Illinois 60604 (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin).

4. Dallas Regional Office, 1100 Commerce Street, Room 6F20, Dallas, Texas 75242 (Arkansas, Louisiana, Oklahoma, Texas, Swan Island).

5. Denver Regional Office, 730 Simms Street, Room 301, Golden, Colorado 80401 (Arizona, Colorado, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, South Dakota, Utah, Wyoming).

6. New York Regional Office, 26 Federal Plaza, Room 2341, New York, New York 10278 (New Jersey, New York, Puerto Rico, Virgin Islands).

7. Philadelphia Regional Office, U.S. Customhouse, Room 501, Second and Chestnut Street, Philadelphia, Pennsylvania 19106 (Camden County (New Jersey), Delaware, Maryland, Pennsylvania, Virginia, West Virginia).

8. St. Louis Regional Office, 1520 Market Street, Room 1740, St. Louis, Missouri 63103–2692 (Iowa, Kentucky, Missouri, Tennessee).

9. San Francisco Regional Office, 525 Market Street, Room 2800, San Francisco, California 94105 (California).

10. Seattle Regional Office, 915 Second Street, Room 1840, Seattle, Washington 98174 (Alaska, Hawaii, Idaho, Oregon, Washington, Pacific overseas).

11. Washington Regional Office, 5203 Leesburg Pike, Suite 1109, Falls Church, Virginia 22041 (Washington, D.C. Metropolitan Area, all overseas areas not otherwise covered).

For the Board.

Dated: April 15, 1985.

Herbert E. Ellingwood,

Chairman.

BILLING CODE 7400-01-M

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 78

[Docket No. 85-032]

Brucellosis in Cattle; State and Area Classifications

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule.

SUMMARY: This document amends the regulations governing the interstate movement of cattle because of brucellosis by changing the classification of the State of Tennessee from Class B to Class A. This action is necessary because it has been determined that this State meets the standards for Class A status. The effect of this action is to relieve certain restrictions on the interstate movement of cattle from the State of Tennessee.

DATES: Effective date of the interim rule is April 18, 1985. Written comments must be received on or before June 17, 1985.

ADDRESSES: Written comments should be submitted to Thomas O. Gessel, Director, Regulatory Coordination Staff, APHIS, USDA, Room 728, Federal Building, Hyattsville, MD 20782. Written comments may be inspected at Room 728 of the Federal Building between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. Thomas J. Holt, Cattle Diseases Staff, VS, APHIS, USDA, Room 817, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301–436–8711.

SUPPLEMENTARY INFORMATION:

Background

The brucellosis regulations (contained in 9 CFR Part 78 and referred to below as the regulations) provide a system for classifying States or portions of States according to the rate of brucella infection present and the general effectiveness of a brucellosis control and eradication program. The classifications are Class Free, Class A, Class B, and Class C. States or Areas which do not meet the minimum standards for Class C are required to be placed under Federal quarantine. This document changes the classification of the State of Tennessee from Class B to Class A.

The brucellosis Class Free classification is based on a finding of no know brucellosis in cattle for the period of 12 months preceding classification as Class Free. The Class C classification is for States or Areas with the highest rate of brucellosis, with Classes A and B in between. Restrictions on the movement of cattle are more stringent for movements from Class A States or Areas compared to movements from Free States or Areas, and are more stringent for movements from Class B States or Areas compared to movements from Class A States or Areas, and so on. The restrictions include testing for movement of certain cattle from other than Class Free States or Areas.

The basic standard for the different classifications of States or Areas concern maintenance of: (1) A State or Area-wide accumulated 12 consecutive month herd infection rate not to exceed a stated level; (2) a Market Cattle Indentification (MCI) reactor prevalence rate not to exceed a stated rate (this concerns the testing of cattle at auction markets, stockyards, and slaughtering establishments); (3) a surveillance system which includes a testing program for dairy herds and slaughtering establishments, and provisions for identifying and monitoring herds at high risk of infection, including herds adjacent to infected herds and herds from which infected animals have been sold or received under approved action plans; and (4) minimum procedural standards for administering the program.

Prior to the effective date of this document, the State of Tennessee was classified as a Class B State. It had been necessary to classify this State as Class B rather than Class A because of the herd infection rate and the MCI reactor prevalence rate. To attain and maintain Class A status, A State or Area must, among other things, maintain an accumulated 12-month herd infection rate for brucellosis not to exceed 2.5 herds per 1,000 (0.25 percent) if the State has more than 10,000 herds, and the adjusted MCI prevalence rate for such 12 month period must not exceed one reactor per 1,000 cattle tested (0.10 percent). A review of brucellosis program records establishes that the brucellosis classification of the State of Tennessee, which has approximately 77,000 herds of cattle, should be changed to Class A since this State now meets the criteria for classification as Class A.

Executive Order and Regulatory Flexibility Act

This rule is issued in conformance with Executive Order 12291 and has been determined to be not a major rule. Based on information compiled by the Department, it has been determined that this rule will not have a significant

effect on the economy; will not cause a major increase in costs of prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not have any significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

Cattle moved interstate are moved for slaughter, for use as breeding stock, or for feeding. Changing the status of the State of Tennessee reduces certain testing and other requirements on the interstate movement of these cattle. Cattle from Certified Brucellosis-Free Herds moving interstate are not affected by the change in status. It has been determined that the change in brucellosis status made by this document will not affect marketing patterns and will not have a significant economic impact on those persons affected by this document.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Emergency Action

Dr. John K. Atwell, Deputy Administrator of the Animal and Plant Health Inspection Service for Veterinary Services, has determined that an emergency situation exists which warrants publication of this interim rule without prior opportunity for public comment. Immediate action is warranted in order to delete unnecessary restrictions on the interstate movement of certain cattle from the State of Tennessee.

Further, pursuant to the administrative procedure provisions in 5 U.S.C. 533, it is found upon good cause that prior notice and other public procedures with respect to this interim rule are impracticable and contrary to the public interest, and good cause is found for making this interim rule effective less than 30 days after publication of this document in the **Federal Register.** Comments have been solicited for 60 days after publication of this document. A document discussing comments received and any amendments required will be published in the **Federal Register.**

List of Subjects in 9 CFR Part 78

Animal diseases, Cattle, Hogs, Quarantine, Transportation, Brucellosis.

Accordingly, 9 CFR Part 78 is amended as follows:

PART 78—BRUCELLOSIS

§ 78.20 [Amended]

1. Section 78.20(b) is amended by adding "Tennessee," immediately before "Virginia".

2. In § 78.20(c), ", Tennessee" is removed and "and" is added immediately before "Oklahoma".

Authority: 21 U.S.C. 111–113, 114a–1, 115, 120, 121, 125, 134b, 134f; 7 CFR 2.17, 2.51, and 371.2(d).

Done at Washington, D.C., this 15th day of April 1985.

J. K. Atwell,

Deputy Administrator, Veterinary Services.

BILLING CODE 3410–34–M

SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

Small Business Size Standards; Size Standard for Commercial Fishing Industry

AGENCY: Small Business Administration.

ACTION: Interim emergency final rule.

SUMMARY: SBA is establishing an interim emergency size standard for the commercial fishing industry of $2 million for application to El Nino Economic Injury Disaster Loans for the period between June 1982 and December 1983. This size standard is necessary because SBA had no standard for this industry in effect at the time of the disaster. It is intended to clarify the size eligibility question for fishing firms applying for disaster loan assistance.

DATES: Effective April 18, 1985. The amendment applies to the period between June 1982 and December 1983. Comments must be received by May 20, 1985.

ADDRESSES: Address all comments to: Andrew A. Canellas, Director, Size Standards Staff, Small Business Administration, 1441 L Street, NW., Room 500, Washington, D.C. 20416.

FOR FURTHER INFORMATION CONTACT: Bernard Kulik, (202) 653–6879, Deputy Associate Administrator for Disaster Assistance.

SUPPLEMENTARY INFORMATION: On October 12, 1984, the President signed Pub. L. 98–473, which authorized SBA to make Economic Injury Disaster Loans (EIDL) to small businesses suffering financial injury as a result of Pacific Ocean conditions commonly known as "El Nino" occurring between June 1982 and December 1983. The SBA regulation to implement this law appeared in the **Federal Register** on January 4, 1985 (50 FR 704). By law, the loans are limited to small businesses and are administered by SBA's Disaster Assistance Division.

The size standard to be applied in the case of EIDLs is the one in effect at the time of the disaster. Since March 12, 1984, SBA has had a size standard for the fishing industry of $2 million. Prior to that time, a size standard for fishing industry did not exist.

SBA believes that the present $2 million standard should be retroactively applied for 1982–83. The makeup of the fishing industry was substantially the same in 1982–83, compared to 1984, so that the $2 million size standard can be appropriately used.

As part of a general revision of all size standards, SBA proposed in 1982 and 1983 a size standard of 25 employees for this industry which is roughly equivalent to the present $2 million standard. SBA received no adverse public comments to these two proposals.

The fishing industry is a competitive one, with low average firm size and investment requirements. While there are few data on the structure of this industry, these characteristics normally suggest a low size standard.

Thus, in order to carry out the intent of Congress in enacting Pub. L. 98–473, the $2 million size standard for the fishing industry is being put into effect on a retroactive basis to cover the time period of the "El Nino" disaster, and thereafter. Pursuant to the authority of 5 U.S.C. 553(b)(B), the regulation is being promulgated as a final rule. Due to the urgent nature of the disaster assistance contemplated by Pub. L. 98–473, SBA has determined that it is necessary to quickly establish this size standard to facilitate the efficient operation of the disaster program and to carry out the intent of Congress. Publishing a proposed rule and providing an opportunity to comment thereon before it can be promulgated in final form would delay the necessary assistance to disaster victims, and thus, would be contrary to the public interest. However, SBA intends to accept public comments on this interim emergency rule and will review them in reviewing the existent size standard for the commercial fishing industry.

SBA has determined that this regulation is a nonmajor rule as defined by Executive Order 12291. The intent of this action is to define the universe of

commercial fishing businesses eligible for EIDLs under the authority granted by Pub. L. 98–473. In FY 1984, SBA made a total of $85 million of EIDL loans in all industries at an average loan size of $77,000. The maximum loan size permitted is $500,000. For these reasons, the economic impact of this rule will be far less than $100 million. In addition, this regulation is not likely to result in a major increase in costs or prices or have a significant adverse effect on the United States economy.

SBA certifies pursuant to section 608 of the Regulatory Flexibility Act, 5 U.S.C. 608, that this interim final rule is being published pursuant to an emergency for the reasons indicated above, and that SBA is therefore waiving the requirements of section 603 of the Regulatory Flexibility Act. SBA will publish a final regulatory analysis of its final size standard in compliance with section 604 of the Regulatory Flexibility Act, when that final size standard is published. SBA also certifies that this regulation contains no reporting or recordkeeping requirements which are subject to the Paperwork Reduction Act, 44 U.S.C. Chapter 35.

List of Subjects in 13 CFR Part 121

Administrative practice and procedure, Government procurement, Government property, Grant programs—business, Loan programs—business, Reporting and recordkeeping requirements, Small business.

PART 121—[AMENDED]

Accordingly, pursuant to the authority contained in section 3(a) and 5(b)(6) of the Small Business Act, 15 U.S.C. 632(a) and 634(b)(6), SBA amends Part 121 of 13 CFR as follows:

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. C–2856]

The American Academy of Orthopaedic Surgeons; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

SUMMARY: In response to a petition filed by the American Academy of Orthopaedic Surgeons ("AAOS"), this Order reopens the matter in docket C–2856, and modifies the consent order entered against AAOS on December 14, 1976, by deleting Paragraph II(B) of the Order which bars the organization from advising in favor of or against any relative value scale developed by third parties, and inserting a provision identical to one contained in FTC's Order in *Michigan State Medical Society* (Michigan State), Docket No. 9129, 101 F.T.C. 191, to permit AAOS more freedom to discuss reimbursement issues with third-party payers and governmental entities. The Commission noted that it had recently modified a similar order entered against the American College of Obstetricians and Gynecologists ("ACOG"), Docket No. C–2855, after finding that benefits derived from the order's restriction on ACOG's ability to discuss relative value scales with third-party payers and governmental entities were outweighed by the resulting injury to ACOG and the public, and that this finding was also applicable to AAOS. Accordingly, the Commission reopened the proceeding and modified the AAOS order in the same manner as it had modified the ACOG order, and in conformity with the Commission's decision in *Michigan State.*

DATES: Consent order issued December 14, 1976, Modifying Order issued March 29, 1985.

FOR FURTHER INFORMATION CONTACT: L–301–1, Elliot Feinberg, Washington, D.C. 20580, (202) 634–4604.

Before Federal Trade Commission

[Docket No. C–2856]

Commissioners: James C. Miller III, Chairman, Patricia P. Bailey, George W. Douglas, Terry Calvani, Mary L. Azcuenaga.

In the matter of the American Academy of Orthopaedic Surgeons, a corporation.

Order Reopening and Modifying Final Order

By petition filed November 19, 1984, the American Academy of Orthopaedic Surgeons ("AAOS") asked the Commission to reopen and modify the Commission order in Docket No. C–2856 entered by consent against AAOS on December 14, 1976 ("Order"). AAOS requested that the Commission modify the Order by (a) deleting Paragraph II(B) of the Order, which prohibits AAOS from advising in favor of or against any relative value scale developed by third parties (except that AAOS is permitted to provide historical data), and (b) inserting a provision identical to a provision contained in the Commission's Order in *Michigan State Medical Society,* Docket No. 9129, 101 F.T.C. 191 (1983) (*"Michigan State"*) that would allow AAOS more freedom to discuss issues relating to reimbursement with third-party payers and governmental entities. AAOS's petition was placed on the public record and no comments were received.

Upon consideration of AAOS's petition and other relevant information, the Commission finds that the public interest would be served by deleting Paragraph II(B) of the Order and by inserting the relevant provision contained in the order in *Michigan State.* The Commission's order against the American College of Obstetricians and Gynecologists ("ACOG") in Docket No. C–2855 is similar to the *AAOS* order, and the Commission recently reopened and modified the *ACOG* order, finding that its restriction on ACOG's ability to discuss relative value scales with third-party payers and governmental entities had caused injury to ACOG and the public that outweighed any benefit that might be derived from the restriction. AAOS's petition is based on ACOG's petition and the Commission has determined that its finding in ACOG is applicable to AAOS. Accordingly, the Commission has modified the *AAOS* order in the same manner as it modified the *ACOG* order. The modification is also consistent with the Commission's decision in *Michigan State.*

The Order continues to prohibit AAOS from developing and circulating its own relative value guide for use by its members. In addition, although the

Order no longer will prohibit AAOS from discussing relative value scales with governmental entities and third-party payers, serious antitrust concerns would arise were AAOS to negotiate or attempt to negotiate an agreement with any such party or engage in any type of coercive activity to effect such an agreement.

Accordingly, it is ordered, that this matter be, and it hereby is, reopened and that the Order in Docket No. C–2856 be modified (1) to delete Paragraph II(B) and to redesignate Paragraphs II(C) and II(D) of the Order Paragraph II(B) and II(C) respectively; (2) to renumber Paragraphs III, IV and V of the Order Paragraphs IV, V and VI respectively; and (3) to insert the following:

It is further ordered that this order shall not be construed to prevent AAOS from:

A. Exercising rights permitted under the First Amendment to the United States Constitution to petition any federal or state government, executive agency, or legislative body concerning legislation, rules or procedures, or to participate in any federal or state administrative or judicial proceeding.

B. Providing information or views, on its own behalf or on behalf of its members, to third-party payers concerning any issue, including reimbursement.

By direction of the Commission.

Issued: March 29, 1985.

Emily H. Rock,

Secretary.

[Docket No. 6156]

Luria Brothers and Co., Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Set aside order.

SUMMARY: In response to a petition filed by Luria Brothers and Company, Inc. (Luria), the Commission, on February 1, 1985, reopened the proceedings in Docket 6156 and set aside the Order issued February 13, 1963, 62 F.T.C. 243, as it applies to Luria, on ground that it no longer served any procompetitive purpose and may impede the company's ability to compete effectively for the business of scrap consumers that desire exclusive supply arrangements. However, the Commission determined that such action would only provide partial relief as long as the corresponding prohibitions against scrap purchasers in Paragraph 2(a) remained in effect, and issued to respondent mills still in operation, orders to show cause why the proceedings in Docket 6156 should not be reopened to set aside Paragraph 2(a), which prohibited the mills from purchasing scrap exclusively from Luria and giving the firm preferential treatment as a broker or supplier of iron and steel scrap. Having received no objections to the proposed action, the Commission reopened the proceedings and set aside Paragraph 2(a) of the 1963 order, holding that in view of its set aside order as it applied to Luria, setting aside Paragraph 2(a) of the order is in the public interest.

DATES: Order issued February 13, 1963; Order Setting Aside Paragraph 2(a) issued March 28, 1985.

FOR FURTHER INFORMATION CONTACT: L/303–1, Elliot Feinberg, Washington, D.C. 20580. (202) 634–4604.

SUPPLEMENTARY INFORMATION: In the Matter of Luria Brothers and Company, Inc., et al. Codification appearing at 28 FR 2231 is deleted.

(Sec 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 45, 18)

Before Federal Trade Commission

[Docket No. 6156]

Order Setting Aside Paragraph 2(a) of the Order Issued February 13, 1963

Commissioners: James C. Miller III, Chairman, Patricia P. Bailey, George W. Douglas, Terry Calvani, Mary L. Azcuenage.

In the Matter of Luria Brothers and Company, Inc., et al.

In response to a petition filed by Luria Brothers and Company, Inc. ("Luria"), the Federal Trade Commission on February 1, 1985, reopened the proceedings in Docket No. 6156 and set aside the order as it applied to respondent Luria. In so doing, the Commission concluded that the order no longer serves any procompetitive purpose and that it may impede unnecessarily Luria's ability to compete effectively for the business of scrap consumers that desire exclusive supply arrangements. However, the Commission believes that setting aside the order as to Luria alone would provide only partial relief as long as order Paragraph 2(a)'s corresponding prohibitions against scrap purchasers remain in effect. Paragraph 2(a) prohibits the respondent mills from purchasing all or almost all of any plant's requirements of scrap iron and steel from Luria, and from giving Luria preferential status or favored treatment as a broker or supplier of iron and steel scrap.

On February 1, 1985, the Commission, pursuant to § 3.72 of its Rules of Practice and Procedure, 16 CFR 3.72, issued to the respondent mills still in operation[1] orders to show cause why the proceedings in Docket No. 6156 should not be reopened to set aside Paragraph 2(a) of the order. Respondent mills were provided an opportunity to object to the proposed action, and having failed to do so, are now deemed to have consented to such action. In view of the Commission's set aside of the order as it applied to Luria, the Commission believes that the set aside of Paragraph 2(a) of the order, barring the respondent mills from using Luria as their exclusive scrap broker or supplier, is in the public interest.

Accordingly, it is hereby ordered that this matter be, and it hereby is, reopened and that Paragraph 2(a) of the order shall be set aside as of the effective date of this order.

By the Commission. Commissioner Bailey concurs in result.

Issued: March 28, 1985.

Emily H. Rock,

Secretary.

17 CFR Part 140

Procedures Regarding the Disclosure of Information and the Testimony of Present or Former Commission Members and Employees in Response to Subpoenas or Other Demands of a Court; Corrections

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules; corrections.

SUMMARY: This document corrects the revision of § 140.735–9 of Part 140 of the Commission's regulations regarding disclosure of information and the

[1] The Commission issued show cause orders to the following respondent mills: Bethlehem Steel Corporation; United States Steel Corporation; Phoenix Steel Corporation; Empire-Detroit Steel Division, Cyclops Corporation; ITT Grinnell Corporation; Standard Steel Division, Titanium Metals Corporation; McLouth Steel Corporation; Edgewater Corporation; Bucyrus-Erie Company; Weirton Steel Corporation; CF & I Steel Corporation and National Steel Corporation. Respondent mill formerly known as the Granite City Steel Company is now a division of the National Steel Corporation.

testimony of present or former Commission officials and employees in response to subpoenas or other demands of the court by restoring certain footnotes to the text of the rule as published in the **Federal Register** on March 20, 1985.

EFFECTIVE DATE: These corrections shall become effective on April 19, 1985 (the same effective date of the revised regulation previously published in the **Federal Register** on March 20, 1985).

FOR FURTHER INFORMATION CONTACT: Whitney Adams, Deputy General Counsel, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, (202) 254–9880.

SUPPLEMENTARY INFORMATION: On March 20, 1985, the Commodity Futures Trading Commission published notice of the adoption of a new Part 144 of its regulations establishing procedures regarding the disclosure of information and the testimony of present or former Commission officials and employees in response to subpoenas or other demands of a court. 50 FR 11149. At the same time, the Commission also published notice of certain revisions of Section 140.735–9 of Part 140 in conformity with the regulations set forth in the new Part 144. *Id.* at 11150–11151. Through oversight, however, the text of revised regulation § 140.735–9 omitted three footnotes that had been included in the text of the rule prior to its revisión. Because the omission of these footnotes was not intended, the Commission publishes this notice restoring the footnotes to the text. With the exception of footnote 16, which is modified to conform with new Part 144 of the regulations, the text of the footnotes remains the same as those currently published in Title 17 of the *Code of Federal Regulations* (1984). Accordingly, because these corrections are not substantive but rather correct certain inadvertent omissions, the Commission has determined to make these corrections effective concurrent with the effective date of the revisions of § 140.735–9 of Part 140.

List of Subjects in 17 CFR Part 140

Authority delegations (Government agencies), Conflicts of interest, Organization and functions (Government agencies).

PART 140—[AMENDED]

Accordingly, pursuant to its authority under 5 U.S.C. 301; 7 U.S.C. 4a(j) and 12a(5) the Commission hereby adopts corrections to the revised § 140.735–9 of Part 140 as follows:

§ 140.735–9 [Amended]

1. On page 11151, in the first column, line 10, the sentence ending in the word "release" should be followed by footnote reference "15." and the text of footnote 15 is added to read as follows:

[15] Attention is directed to section 9(e) of the Commodity Exchange Act, which provides that it shall be a felony punishable by a fine of not more than $100,000 or imprisonment for not more than five years, or both, together with the costs of prosecution—(1) for any Commissioner or any employee or agent thereof who, by virtue of his employment or position, acquires information which may affect or tend to affect the price of any commodity futures or commodity and which information has not been promptly made public, to impart such information with intent to assist another person, directly or indirectly, to participate in any transaction in commodity futures, any transaction in an actual commodity, or in any transaction of the character of or which is commonly known to the trade as an option, privilege, indemnity, bid, offer, put, call, advance guaranty, or decline guaranty, or in any transaction for the delivery of any commodity under a standardized contract commonly known to the trade as a margin account, margin contract, leverage account, or leverage contract, or under any contract or other arrangement that the Commission determines to serve the same function or is marketed in the same manner as such standardized contract, and (2) for any person to acquire such information from any Commissioner or any employee or agent thereof and to use such information in any of the foregoing transactions.

2. On page 11151, in the first column, line 27, the sentence ending in the word "regulations" should be followed by footnote reference "16," and the text of footnote 16, which has been modified to conform with new Part 144 of the Commission's regulations, is added to read as follows:

[16] No employee shall disclose such information unless directed to do so by the Commission.

3. On page 11151, in the first column, line 38, the sentence ending in the word "interest" should be followed by footnote reference "17," and the text of footnote 17 is added to read as follows:

[17] The prohibitions regarding confidential or nonpublic information stated above are intended to cover the matters addressed in sections 8 and 9(e) of the Act as well as nonpublic information under the Freedom of Information Act, 5 U.S.C. 552, the rules of the Commission thereunder, 17 CFR Part 145, and the Privacy Act, 5 U.S.C. 552a, the rules of the Commission thereunder, 17 CFR Part 146, and cases where, apart from specific prohibitions in any statute or rule, the disclosure or use of such information would be unethical.

Issued in Washington, D.C. on April 12, 1985, by the Commission.

Jean A. Webb,

Secretary of the Commission.

[T.D. 85–71]

Customs Regulations Amendment Relating to Payment of Tonnage Tax and Light Money

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations to provide that the control number which appears on Customs Form 5104 be written on Customs Form 1002 by Customs as proof of payment when tonnage taxes and light money are paid to Customs by the master of a vessel. This amendment modifies a recently published document which required that both of these forms be submitted to Customs by the master upon each entry of the vessel during the tonnage year. Only the Customs Form 1002 will now be required to be presented. This cross-referenced form will establish the date of commencement of the tonnage year and insure against overpayment. This change is part of Customs continuing efforts to develop a system to improve control over its collection process.

EFFECTIVE DATE: April 18, 1985.

FOR FURTHER INFORMATION CONTACT:

Operational Aspects: Robert Hamilton, Office of Financial Management and Program Analysis, (202–566–2596) and Thomas Davis, Office of Inspection and Control (202–566–5354).

Legal Aspects: Donald Reusch, Carriers, Drawback and Bonds Division (202–566–5706); Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229.

SUPPLEMENTARY INFORMATION:

Background

Generally, unless exempted, the U.S. imposes regular and special tonnage taxes, and a duty of a specified amount per ton, known as "light money," on all foreign vessels which enter U.S ports (46 U.S.C. 121, 128). Section 4.23, Customs Regulations (19 CFR 4.23), formerly

provided that upon each payment of tonnage tax or light money, the district director shall give to the master of the vessel a certificate on Customs Form 1002. This certificate constituted the official evidence of payment and was to be presented by the vessel master upon each entry during the tonnage year to establish the date of commencement of the tonnage year and to insure against overpayment.

As part of its continuing efforts to develop a system to improve control over its collection process, by T.D. 84–232, published in the **Federal Register** on November 23, 1984 (49 FR 46118), effective December 24, 1984, § 4.23 was amended to require that in addition to the Customs Form 1002, a cash receipt (Customs Form 5104) must also be provided by Customs as proof of payment when tonnage taxes and light money are paid by the master of a vessel. This additional form was to have provided further protection for the payer vessel while aiding Customs in safeguarding monies collected.

However, the maritime community has expressed strong opposition to this amendment. They have stated that the original cash receipt (CF 5104) must be sent to the shipowner for reimbursement purposes and therefore would not be available for presentation to Customs. They urged Customs to explore alternatives which would be acceptable to all parties concerned.

After a review of the matter, it has been determined that the alternative with the least amount of impact on all parties concerned is to require Customs officers to cross-reference the CF 5104 control number on the CF 1002. Only the CF 1002 would then be submitted to Customs by the vessel master. This will insure that the vessel master has obtained a cash receipt and will eliminate the requirement that both the CF 5104 and CF 1002 be submitted. This minor change will fulfill Customs objectives of providing further protection for the payer vessel and aid in safeguarding monies collected. Accordingly, § 4.23, will be further amended to reflect this change.

Executive Order 12291

It has been determined that this amendment is not a "major rule" within the criteria provided in section 1(b) of E.O. 12291, and therefore no regulatory impact analysis is required.

Regulatory Flexibility Act

Pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), it is certified that, if adopted, the proposed amendments will not have a significant economic impact on a substantial number of small entities. Accordingly, they are not subject to the regulatory analysis or other requirements of 5 U.S.C. 603 and 604.

Drafting Information

The principal author of this document was Glen E. Vereb, Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Inapplicability of Public Notice and Delayed Effective Date Requirements

Because this amendment merely implements a procedural protection requirement for the benefit of the master of the vessel who paid the tonnage taxes and light money, and because it removes a recently imposed burden on the public and imposes no additional duties or responsibilities, it has been determined that good cause exists for dispensing with notice and public procedure pursuant to 5 U.S.C. 553(b)(B). Further, for the same reasons, good cause exists for dispensing with a delayed effective date under 5 U.S.C. 553(d)(3).

Customs duties and inspection, Imports, Vessels.

Amendment to the Regulations

Part 4, Customs Regulations (19 CFR Part 4), is amended as set forth below:

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Section 4.23 is revised to read as follows:

§ 4.23 Certificate of payment and cash receipt.

Upon each payment of tonnage tax or light money, the master of the vessel shall be given a certificate on Customs Form 1002 on which the control number of the cash receipt (Customs Form 5104) upon which payment was recorded shall be written. This certificate shall constitute the official evidence of such payment and shall be presented upon each entry during the tonnage year to establish the date of commencement of the tonnage year and to insure against overpayment. In the absence of the certificate, evidence of payment of tonnage tax shall be obtained from the district director to whom the payment was made.

(R.S. 251, as amended, secs. 2, 3, 23 Stat.118, as amended, 119, as amended, sec. 624, 46 Stat. 759, sec. 101, 76 Stat. 72; (5 U.S.C. 301, 19 U.S.C. 66, 1202, 1624, 46 U.S.C. 2, 3, Gen. Hdnote 11, Tariff Schedules of the United States))

William von Raab,

Commissioner of Customs.

Approved: March 29, 1985.

BILLING CODE 4820-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 179

[Docket No. 84F–0287]

Irradiation in the Production, Processing, and Handling of Food

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the regulations that permit gamma radiation treatment of food by expanding the specific list of dried spices and vegetable seasonings to include additional herbs, spices, and vegetable seasonings, and blends of these seasonings. This action responds to a petition filed by Radiation Technology, Inc.

DATES: Effective April 18, 1985. Objections by May 20, 1985.

ADDRESS: Written objections to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Clyde A. Takeguchi, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION:

Introduction

In a notice published in the **Federal Register** of September 26, 1984 (49 FR 37851), FDA announced that a petition (FAP 4M3812) had been filed by Radiation Technology, Inc., Lake Denmark Rd., Rockaway, NJ 07866, proposing that the food additive regulations be amended to provide for the safe use of a cobalt-60 or cesium-137 source of gamma radiation to control insect and microbial infestation in certain dried herbs, dried spices, and dried vegetable seasonings at doses not to exceed 10 kiloGray (kGy) (1 megarad,

Mrad). The petitioner specifically sought authorization to irradiate spice blends, many of which contain sodium chloride.

Background

In the Federal Register of July 5, 1983 (48 FR 30613), FDA issued a final rule amending § 179.22 *Gamma radiation for the treatment of food* (21 CFR 179.22) to provide for the use of a source of gamma radiation to control microbial contamination in several specifically named dried spices and dried vegetable seasonings at doses not to exceed 10 kGy (1 Mrad).

During the 30-day objection period, FDA received five submissions: Two from spice companies, two from trade associations, and one from a radiation equipment manufacturer. These submissions are addressed in a notice published elsewhere in this issue of the Federal Register.

FDA is also conducting a separate rulemaking proceeding on food irradiation that will deal comprehensively with all the issues attendant to such a process. In the Federal Register of February 14, 1984 (49 FR 5714), FDA issued a proposed rule that would establish:

1. General provisions for good food irradiation practice;

2. Specific conditions of use for specific radiation sources to inhibit growth and maturation of fresh fruits and vegetables and to control insect infestation of food at doses not to exceed 1 kGy, and to control microorganisms on the previously regulated dried spices and dried vegetable seasonings at doses not to exceed 30 kGy; and

3. Labeling requirements for nonretail containers to bear the statement "Treated with ionizing radiation—do not irradiate again."

The agency has received over 4,500 comments in response to the proposed rule. FDA will respond to all comments filed in response to the proposal, including those on spices as a minor food class, in the final regulation on food irradiation. In that document, FDA will also respond to the comments filed in response to the July 5, 1983 final rule.

In the Federal Register of June 19, 1984 (49 FR 24968), FDA published an amendment to the July 5, 1983 final rule to permit the use of sources of gamma radiation to control insect infestation in addition to microbial contamination of the same spices and vegetable seasonings.

FDA has evaluated information submitted by the petitioner, as well as information already in FDA's files, and concludes that the proposed use of gamma radiation is safe and that the regulations should be amended as set forth below.

In evaluating the petition, the agency considered whether data on the effects in mice of consuming irradiated chicken from a U.S. Department of Agriculture-sponsored study conducted by Raltech were relevant to this petition. Citing this study, comments claimed that mice fed irradiated chicken were found to show a significant increase in testicular tumors.

FDA has referred this study to the National Toxicology Program (NTP) Board of Scientific Counselors for peer review. Nonetheless, the agency believes that the U.S. Department of Agriculture-sponsored study, even if it shows adverse effects, is not relevant to the narrow issue of the safety of irradiating dry herbs, spices, and vegetable seasonings. The study is of particular concern, however, because it raises the possibility that certain radiolytic products produced in the chicken as a result of irradiation might be carcinogenic.

The food and water composition of chicken is totally different from dried herbs, spices, and seasonings. Chicken contains high levels of moisture while dry spices contain negligible amounts of water. Moisture has a significant effect on radiation chemistry. Chicken is a high-protein food while herbs, spices, and seasonings have essentially no nutrients. Thus, the radiolytic products formed in these vastly different foods would be different. Furthermore, irradiation parameters of dose, temperature, and atmosphere used in the irradiated chicken study are different from those used for spices and seasonings.

After it has reviewed the NTP findings, the agency will fully address those results as well as all implications of the U.S. Department of agriculture-sponsored study in the final regulation on irradiated foods.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 179

Food additives, Food packaging, Irradiation of food.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 179 is amended in § 179.22 in the table in paragraph (b) by removing the item "Garlic powder; Onion powder; Spices, dried * * *" and by alphabetically inserting a new item, to read as follows:

PART 179—IRRADIATION IN THE PRODUCTION, PROCESSING, AND HANDLING OF FOOD

§ 179.22 Gamma radiation for the treatment of food.

* * * * *

(b) * * *

Food for irradiation	Limitations	Use
The following dried herbs, spices, and vegetable seasonings: Allspice; anise; basil; bay leaves; caraway seed; caraway, black (black cumin); cardamon; celery seed; chamomile; chervil; chives; cinnamon; cloves; coriander; cumin seed; dill seed; dill weed; fennel seed; fenugreek; garlic powder; ginger; grains of paradise (melegueta pepper); horseradish; mace; marjoram; mustard seed; mustard flour; nutmeg; onion powder; orange petals; oregano; paprika; parsley; pepper, black; pepper, white; pepper, red; peppermint; poppy seed; rosemary; saffron; sage; savory; sesame seed; spearmint; star aniseed; tarragon; thyme; turmeric. Blends of the substances listed above may contain sodium chloride as a minor component.	Absorbed dose: Not to exceed 10 kiloGray (kGy) (1 megarad, Mrad).	Control of insects and/or microorganisms.

* * * * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before May 20, 1985, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with

particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a wavier of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation is effective April 18, 1985.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Dated: April 12, 1985.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160–01–M

---

21 CFR Part 179

[Docket No. 80F–0368]

Irradiation in the Production, Processing, and Handling of Food; Response to Submissions

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; final rule-related.

SUMMARY: The Food and Drug Administration (FDA) is responding to submissions filed in response to a rule that provided for the additional use of a source of gamma radiation to control microbial contamination in dried spices and vegetable seasonings.

FOR FURTHER INFORMATION CONTACT: Clyde A. Takeguchi, Center for Food Safety and Applied Nutrition (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of October 17, 1980 (45 FR 69044), FDA announced that a food additive petition (FAP OM3516) had been filed by Radiation Technology, Inc., Lake Denmark Rd., Rockaway, NJ 07866, proposing that § 179.22 *Gamma radiation for the treatment of food* (21 CFR 179.22) be amended to provide for the safe use of a cobalt-60 or a cesium-137 source of gamma radiation to reduce or control microbial contamination in spices, natural flavorings, and dehydrated vegetable seasonings by irradiating those foods at doses up to 10 kiloGary (1 megarad, Mrad).

In the **Federal Register** of July 5, 1983 (48 FR 30613), FDA issued a final rule amending § 179.22 to provide for the additional use of a source of gamma radiation to control microbial contamination in those dried spices and vegetable seasonings. The final rule provided a 30-day period for the filing of objections and requests for a hearing.

FDA received five submissions in response to that final rule: two from spice companies, two from trade associations, and one from a radiation equipment manufacturer. All submissions were generally supportive of the regulation and none requested a hearing.

One of the submissions specifically stated that it was not an objection, and FDA does not believe that any of the submissions constitutes a valid objection for the following reasons. All the submissions supported the final regulation; they did not specify with particularity any provision of the regulation to which they objected, as required by 21 CFR 12.22(a)(3). Rather, the submissions argued that the agency should expand the regulation; for example, to include additional spices, higher doses, or a different source of radiation. Such arguments are not relevant to the petition under consideration here. However, FDA is also conducting a general rulemaking on food irradiation that will deal comprehensively with all the issues raised in the submissions.

In the **Federal Register** of February 14, 1984 (49 FR 5714), FDA published a proposed regulation that would permit the use of low doses of radiation to control insects in food and to prevent the growth and maturation of fresh fruits and vegetables, and to increase the maximum permitted dose for dried spices and vegetable seasonings. The submissions in response to the July 5, 1983 regulation (48 FR 36013) raise issues that are currently under consideration in the general rulemaking initiated on February 14, 1984. Accordingly, these submissions will be treated as comments on the 1984 proposal, and FDA will respond to those comments in the preamble to the final regulation on food irradiation.

One of the submissions on the 1983 regulation questioned the need for labeling of retail packages, as required by 21 CFR 179.22 and 179.24 since 1966 (July 13, 1966; 31 FR 9491). A resolution of the labeling question is not appropriate in the context of the 1983 rulemaking discussed here, because, as stated earlier, the petition (FAP OM 3516) did not request that the labeling requirements be amended. However, FDA's February 14, 1984 proposed rule discussed the labeling issue and requested further comments on the appropriateness and usefulness of specific labeling approaches, as well as on the general labeling issue. FDA will consider this submission and other comments on the labeling issue in its final regulation on food irradiation.

This notice simply discusses submissions in response to the July 5, 1983 final rule. Because no proper objections or requests for a hearing were submitted, the effective date of the final regulation (July 5, 1983) is unaffected by this notice.

Dated: April 12, 1985.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 85–9454 Filed 4–17–85; 8:45 am]

BILLING CODE 4160–01–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 301

[T.D. 8020]

Procedure and Administration; Tax Shelter Registration

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to tax shelter registration. These regulations affect tax shelter organizers required to register tax shelters under section 6111. The changes made by these regulations are necessary because revised instructions to Form 8264, Application for Registration of a Tax Shelter, were issued on November 19, 1984.

DATE: These temporary regulations are effective April 18, 1985.

FOR FURTHER INFORMATION CONTACT: Cynthia L. Clark of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202–566–3828, not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

These amendments modify Treasury Decision 7964, published in the **Federal Register** for August 15, 1984 (49 FR 32712). T.D. 7964 provided regulations under section 6111 as enacted by the Tax Reform Act of 1984 (Pub. L. 98–369, 98 Stat. 678). In addition, the text of T.D. 7964 served as the text of proposed regulations cross referenced in the Notice of Proposed Rulemaking in the Proposed Rules section of the **Federal Register** for August 15, 1984 (49 FR 32728).

Section 301.6111–2T as added by T.D. 7964 provided supplemental questions and answers relating to instructions to Form 8264, Application for Registration of a Tax Shelter. On November 19, 1984, the Internal Revenue Service issued revised instructions to Form 8264, incorporating the substance of § 301.6111–2T. Because of the revised instructions, § 301.6111–2T is no longer necessary. Accordingly, these amendments remove § 301.6111–2T. The temporary regulations as amended by this document will remain in effect until superseded by additional temporary regulations or by final regulations on this subject.

Executive Order 12291; Regulatory Flexibility Act

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. A general notice of proposed rulemaking is not required for temporary regulations. Accordingly, the temporary regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Drafting Information

The principal author of these regulations is Cynthia L. Clark of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participate in developing the regulations on matters of both substance and style.

Administrative practice and procedure, Bankruptcy, Courts, Crime, Employment taxes, Estate taxes, Excise taxes, Gift taxes, Income taxes, Investigations, Law enforcement, Penalties, Statistics, Taxes, Disclosure of information, Filing requirements.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR Part 301 is amended as follows:

PART 301—[AMENDED]

§ 301.6111–2T [Removed]

26 CFR Part 301 is amended by removing § 301.6111–2T.

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

This Treasury decision is issued under the authority contained in section 6111 and 7805 of the Internal Revenue Code of 1954 (98 Stat. 678, 26 U.S.C. 6111; 68A Stat. 917, 26 U.S.C. 7805).

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

Approved: March 27, 1985.

Ronald A. Pearlman,

Assistant Secretary of the Treasury.

BILLING CODE 4830–01–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD3 84–74]

Regatta; Empire State Regatta, Albany, NY

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: Special Local Regulations are being adopted for the Empire State Regatta being sponsored by the Capital Rowing Club, Inc. of New Scotland, New York. This event will be held on June 8–9, 1985 between the hours of 9:00 a.m. and 6:00 p.m. daily. This regulation is needed to provide for the safety of participants and spectators on navigable waters during the event.

EFFECTIVE DATE: This regulation becomes effective on June 7, 1985 at 6:00 a.m. and terminates on June 10, 1985 at 6:00 a.m.

FOR FURTHER INFORMATION CONTACT: Lt. D. R. Cilley, (212) 668–7974.

SUPPLEMENTARY INFORMATION: On December 13, 1984 the Coast Guard published a notice of proposed rulemaking in the **Federal Register** for this regulation (49 FR 48574). Interested persons were requested to submit comments and one comment was received.

Drafting Information

The drafters of this regulation are Lt. D.R. Cilley, Project Officer, Boating Safety Office, and Ms. MaryAnn Arisman, Project Attorney, Third Coast Guard District Legal Office.

Discussion of Regulations

The Empire State Regatta is sponsored by the Capital Rowing Club, Inc. of New Scotland, New York on behalf of the United States Rowing Association. This special crew racing event will serve as the 1985 Northeast Regional Championships. The races will be held on a 2000-meter course on the Hudson River in Albany, New York. Approximately 250 crew shells, ranging in size from 26 to 68 feet in length will race in heats throughout the day from 9:00 a.m. to 6:00 p.m. on both days. The race course will consist of 6 lanes marked by 7 rows of buoys anchored to the bottom of the river. Small fluorescent buoys will be set in the river on June 7, 1985 and will be removed during the evening of June 9, 1985. Several of these buoys will be lighted so as to mark the corners of the race course. The sponsor shall provide several vessels which will assist the Coast Guard Patrol Commander in controlling the event and spectator craft. The sponsor will provide vessels to patrol the north, south and western edge of the race course. The sponsor will also provide vessels to escort spectator/transiting vessels through the race course area. The Coast Guard intends to restrict vessel movement within this section of the Hudson River during this event to provide for the safety of the participants and spectators on navigable waters. Vessels less than 20 meters in length will be allowed to transit the regulated area under escort at no wake speeds at specified intervals (approximately every 2 hours) throughout each race day as directed by the Coast Guard Patrol Commander. At all other times during the effective period the sponsor will provide patrol vessels to escort vessels less than 20 meters in length along the eastern edge of the Hudson River through the regulated area at frequent intervals so as to not inconvenience transiting vessels. Larger vessels will not be allowed to pass through the regulated area at any time during the effective period unless in an emergency and authorized by the Coast Guard Patrol Commander. The Coast Guard Captain of the Port of New York has contacted

numerous commercial/oil facilities along the Hudson River, north of the regulated area, asking their cooperation in scheduling any vessel transits so as not to interfere with this event. Mariners are urged to use extreme caution when transiting the regulated area. The Coast Guard will issue a safety voice broadcast and this regulation will be published in the Local Notice to Mariners to advise the general public and commercial users on the Hudson River of the event.

Discussion of Comments

Interested parties were encouraged to comment on the proposed regulation. One comment was received. The sponsor of this event made several suggestions concerning the method by which vessels would be escorted through the regulated area. The sponsor suggested that vessels be required to transit the regulated area under escort at all times during the effective period. This change should not adversely impact the vessels that would normally be passing through this section of the river. It is being made so as to avoid incidents which might cause injury or damage to the transiting vessels, their occupants and the race course buoy system. The sponsor had previously agreed to provide vessels to escort other vessels through the regulated area during scheduled breaks between heats of the crew races. The sponsor will now provide this service while the buoy system is being set up, taken down and after each day of races. Vessels headed for or departing the Albany Yacht Club will also be required to transit the regulated area under escort. The sponsor will provide a contact person at the yacht club who will arrange for an escort patrol vessel. All vessels will be escorted along the eastern shore of the Hudson River. Tension cables will run from the race course to the north, south and west. The lack of cables to the east will allow transiting vessels to use the entire amount of charted depth of water to safely navigate their vessels through the regulated area. The sponsor has assured the Coast Guard that they will provide enough patrol vessels to ensure transiting vessels will not be unduly delayed while waiting for escort through the regulated area.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. This event will draw a large spectator crowd along the shores of the Hudson River which should compensate certain area merchants for the inconvenience of having navigation restricted. Smaller craft will be allowed to transit the regulated area under escort at specified times throughout the effective period. A phone survey of commercial facilities who rely on the river to move their product indicates that there is not a lot of traffic which would be inconvenienced by this closure of the river. Only 7 commercial vessels passed through this portion of the river during a 7-day period in early June, 1984. Since the impact of this regulation is expected to be minimal, the Coast Guard certifies that it will not have a significant economic impact on a substantial number of small entities.

Marine safety, Navigation (water).

Final Regulation

PART 100—[AMENDED]

In consideration of the foregoing, Part 100 of Title 33, Code of Federal Regulations is amended by adding a temporary § 100.35–313 to read as follows:

§ 100.35–313 Empire State Regatta, Albany, New York.

(a) *Effective Dates:* This regulation will be effective from 6:00 a.m. on June 7, 1985 to 6:00 a.m. on June 10, 1985.

(b) *Regulated Area:* That section of the Hudson River between the Route I–90 Interchange Bridge on the north and the northern end of Culver Dike on the south.

(c) *Special Local Regulations:* (1) The regulated area shall be intermittently closed to all vessel traffic from 6:00 a.m. June 7, 1985 to 6:00 a.m. June 10, 1985 except as specified below or as directed by the Coast Guard Patrol Commander.

(2) Vessels greater than 20 meters in length shall not transit the regulated area at any time during the effective period unless directed by the Coast Guard Patrol Commander.

(3) Vessels less than 20 meters in length may transit the regulated area under escort as specified in paragraphs (4)–(6) of this section. Unless otherwise directed by the Coast Guard Patrol Commander transiting vessels shall at all times: Proceed at no wake speeds, remain clear of the race course areas as marked by the sponsor-provided buoys, not interfere with races or any shells in the area, make no stops and keep to the eastern edge of the Hudson River.

(4) From 9:00 a.m. to 6:00 p.m. on both June 8 and 9, 1985 vessels permitted to transit shall be escorted by a sponsor provided patrol vessel at specified intervals (approximately every 2 hours) or as directed by the Coast Guard Patrol Commander.

(5) At times other than those specified in paragraph (4), vessels permitted to transit shall also do so under the escort of a sponsor provided patrol vessel. The sponsor shall ensure that these vessels are escorted through the regulated areas as expeditiously as possible.

(6) During the effective period vessels approaching or departing the Albany Yacht Club shall be escorted through this portion of the regulated area. Escort shall be arranged by contacting the sponsor's representative at the yacht club.

(7) No person or vessel shall anchor or remain in the regulated area during the effective period unless participating in the event or authorized by Coast Guard patrol personnel.

(8) All persons and vessels shall comply with the instructions of U.S. Coast Guard patrol personnel. Upon hearing five or more blasts from a U.S. Coast Guard vessel, the operator of a vessel shall stop immediately and proceed as directed. U.S. Coast Guard patrol personnel include commissioned, warrant and petty officers of the Coast Guard. Members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation and other applicable laws.

(9) For any violation of this regulation, the following maximum penalties are authorized by law:

(i) $500 for any person in charge of the navigation of a vessel.

(ii) $500 for the owner of a vessel actually on board.

(iii) $250 for any other person.

(iv) Suspension or revocation of a license for a licensed officer.

(33 U.S.C. 1233; 49 U.S.C. 108(b); 49 CFR 1.46(b) and 33 CFR 100.35)

Dated: April 9, 1985.

P.A. Welling,

Captain, U.S. Coast Guard, Acting Commander, Third Coast Guard District.

BILLING CODE 4910-14-M

---

33 CFR Part 165

[COTP Louisville, Ky., Regulation 85–10]

Safety Zone Regulations; Louisville, KY

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone for the Ohio River mile 603.5 to 604.4. The zone is needed to protect all vessels and spectators observing the Kentucky Derby Festival from a safety hazard associated with launching of fireworks from a barge. Entry into this zone is prohibited unless authorized by the Captain of the Port.

EFFECTIVE DATES: This regulation becomes effective at 8:30 p.m. on 28 April 1985. It terminates at 11:30 p.m. on 28 April 1985. Times given are local time.

FOR FURTHER INFORMATION CONTACT: LTJG Tunstall at (502) 582–5194.

SUPPLEMENTARY INFORMATION: A notice of proposed rule making was not published for this regulation and it is being made effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to prevent possible damage to the vessels involved.

Drafting Information

The drafters of this regulation are LTJG Tunstall (502) 582–5194, Project Officer for the Captain of the Port, and LT Kilroy, Project Attorney, Second Coast Guard District Legal Office.

Discussion of Regulation

The event requiring this regulation will begin at 9:00 p.m. and end at 11:00, 28 April 1985. A display of fireworks will be launched from a tow/barge combination located at mile 604.0, Ohio River. The river closure is needed to protect river traffic and spectators.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

PART 165—[AMENDED]

In consideration of the foregoing, Part 165 of Title 33, Code of Federal Regulations, is amended by adding a new 33 CFR 165.T0206 to read as follows:

§ 165.T0206 Safety Zone: All waters of the Ohio River from mile 603.5 to 604.4.

(a) *Location.* The following area is a safety zone: All waters of the Ohio River from mile 603.5 to 604.4.

(b) *Regulations:*

(1) In accordance with the general regulations in § 165.23 of this part, entry into this zone is prohibited, unless authorized by the Captain of the Port.

(2) The Captain of the Port's representative may be contacted on VHF radio channel 16 during the race.

(33 U.S.C. 1225 and 1231; 49 CFR 1.46; 33 CFR 160.5)

Dated: April 9, 1985.

L.J. Beach, LCDR,

Alternate Captain of the Port, Louisville, Kentucky.

[FR Doc. 85–9368 Filed 4–17–85; 8:45 am]

BILLING CODE 4910–14–M

33 CFR Part 165

[COTP San Diego Regulation 85–05]

Safety Zone Regulations; San Clemente Island, CA, Pacific Ocean

AGENCY: Coast Guard, DOT.

ACTION: Emergency rule.

SUMMARY: The Coast Guard is establishing a safety zone in the vicinity of West Cove, San Clemente Island, California. This safety zone is being established at the request of the United States Navy and is needed to protect an underwater cable array in that location from damage due to vessels anchoring in this location. Vessels may transit this zone without restriction, but are prohibited from anchoring in this zone.

EFFECTIVE DATES: This regulation becomes effective on April 18, 1985. It terminates on August 16, 1985.

FOR FURTHER INFORMATION CONTACT: LT Steven P. Mojonnier, USCG, c/o U.S. Coast Guard Captain of the Port, 2710 N. Harbor Drive, San Diego, CA 92101, telephone (619) 293–5860.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking (NPRM) was not published for this regulation and it is being made effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to prevent damage to the underwater cable array.

Drafting Information

The drafters of this regulation are LT Steven P. Mojonnier, project officer for the Captain of the Port, and LT Catherine McNally, project attorney, Eleventh Coast Guard District Legal Office.

Discussion of Regulation

In September 1984, the U.S. Navy established an underwater cable array in West Cove, San Clemente Island. This cable array is highly susceptible to damage from vessels anchoring in the area. Since the cable array was established, the operator of the cable array has had difficulty controlling vessels anchoring in the area. The U.S. Navy has requested that the U.S. Army Corps of Engineers establish a restricted area in this location, under the authority of section 1, Title 33, United States Code (U.S.C.) to protect the cable array. This rulemaking will take at least 4 months to accomplish. In the meantime, the U.S. Navy has requested that the Captain of the Port of San Diego establish a temporary safety zone in this location, under the authority of Title 33, Code of Federal Regulations, Part 165, to protect the cable array until the restricted area can be established. Vessels may transit this area without restriction, but are prohibited from anchoring in the zone unless authorized by the Captain of the Port or the operator of the cable array, Commander, Anti-Submarine Warfare Wing, U.S. Pacific Fleet, San Diego, California.

It is anticipated that this regulation will have no significant impact on vessel operators in the area of San Clemente Island. Sufficient alternate anchorage areas are available to accommodate the vessels now anchoring in this area. These alternate areas are as close to shore and as convenient to use as the area of this zone.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

PART 165—[AMENDED]

Regulation

In consideration of the foregoing, Part 165 of Title 33, Code of Federal Regulations, is amended by adding a new § 165.T1181 to read as follows:

§ 165.T1181 Safety Zone: San Clemente Island, California, Pacific Ocean.

(a) *Location:* The waters within the following boundaries are a safety zone:

Starting at a point on the shore of San Clemente Island at West Cove in position 33°00'52" N, 118°36'18" W, for a point of beginning thence southwesterly to 32°59'30" N, 118°37'30" W; thence southerly to 32°58'30" N, 118°36'40" W; thence northeasterly to 33°00'40" N; 118°35'27" W; thence generally westerly along the shore of San Clemente Island to the point of beginning.

(b) *Special Regulations:*

(1) All vessels may transit or navigate within the safety zone.

(2) No vessel may anchor within the safety zone without the permission of

the Captain of the Port or Commander, Anti-Submarine Warfare Wing, U.S. Pacific Fleet.

(33 U.S.C. 1225 and 1231; 49 CFR 1.46; 33 CFR 160.5)

Dated: April 5, 1985.

E.A. Harmes,

Commander, U.S. Coast Guard, Captain of the Port, San Diego, California.

BILLING CODE 4910-14-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[KY-024; A-4-FRL-2821-1]

Approval and Promulgation of Implementation Plans, Kentucky; Variances for Volatile Organic Compound Sources

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA is today approving variances for two dry cleaning establishments in Mitchell and Cold Springs, Kentucky. The variances will allow the two dry cleaners to continue to emit at current uncontrolled levels. The revisions will not interfere with the "Reasonable Further Progress" toward attainment of the ozone standard in this area. The revisions are supported by economic considerations. This action was proposed in the **Federal Register** on October 12, 1984, and no comments were received.

DATE: This action is effective May 20, 1985.

ADDRESSES: Copies of the materials submitted by the State may be examined during normal business hours at the following locations:

Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460

Kentucky Department for Environmental Protection, Fort Boone Plaza, Building 2, 18 Reilly Road, Frankfort, Kentucky 40601

Air Management Branch, EPA, Region IV, 345 Courtland Street NE., Atlanta, Georgia 30365

Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C. 20005.

FOR FURTHER INFORMATION CONTACT: Cheryl Espy, Environmental Protection Agency, Region IV Air Management Branch, 345 Courtland Street NE., Atlanta, Georgia 30365, telephone 404/881-3016 (FTS: 257-3016).

SUPPLEMENTARY INFORMATION: The Commonwealth of Kentucky adopted Volatile Organic Compound Regulations as part of their ozone State Implementation Plan on June 5, 1979. Regulations 401 KAR 59:240 and 61:160 provide for the control of volatile organic compound emissions from perchloroethylene dry cleaning systems. Variance provisions contained in these regulations allow for sources, on a case-by-case basis, to be excused from complying with the established emission limits contained in the regulation. These requests must be supported by adequate technical information due to technological or economic circumstances. The following variances were granted based upon economic hardship in complying with Reasonably Available Control Technology (RACT). RACT is defined as the lowest emission limit that a particular source is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility.

Jiffy The Cleaners of Ft. Mitchell, Kentucky, a perchloroethylene dry cleaning plant, applied for a technical variance with the Kentucky Division of Air Pollution Control on April 27, 1983. A preliminary determination was made to grant the variance. A public hearing was held on August 17, 1983, and no comments were received. Under the provisions of Regulation 401 KAR 59:240, New Perchloroethylene Dry Cleaning Systems, Jiffy the Cleaners requested and received an economic variance from the Kentucky Division of Air Pollution Control. Kentucky submitted to EPA this proposed revision of the State Implementation Plan on August 12, 1984.

The Kentucky Division of Air Pollution Control based its economic evaluation on the method of analysis as set forth in the applicable Control Techniques Guideline (CTG) document (EPA-450/2-78-050). This particular document is related to the control of volatile organic compounds (VOC), specifically perchloroethylene, from all dry cleaning systems which use this solvent. The average cost for controls in the CTG was adjusted to reflect 1981 cost and was $448.00 per ton. Source control was then calculated based on the CTG, and cost calculations indicated the source would be required to spend $1,052.00 per ton to control. Thus, a more than two to one cost differential would have been incurred by the source to comply with the CTG. Further, the total emissions of VOC resulting from this variance will be 1.75 tons/year (TPY) uncontrolled emissions compared to 0.875 TPY, had this variance not been granted.

Hiland Cleaners applied for an economic variance for an existing perchloroethylene dry cleaning facility. The Kentucky Division of Air Pollution Control made a preliminary determination to grant the variance. A public hearing was held and no comments were made. The final determination of the Division was to approve an economic variance as provided for in section 7 of Regulation 401 KAR 61.160, Existing Perchloroethylene Dry Cleaning Systems. The economic variance allows for a maximum annual usage of perchloroethylene not to exceed 118 gal/yr. (0.80 tons/yr). Total emissions of VOC from this action will be 0.8 tons/yr uncontrolled compared to 0.4 had this variance not been granted. Furthermore, it was determined that the cost ($3,567.28/controlled ton of VOC's) was found to be beyond the range of reasonable available control technology cost.

It is the opinion of the Kentucky Division of Air Pollution Control that Jiffy The Cleaners and Hiland Cleaners are small and insignificant to the overall VOC control strategy in the northern Kentucky ozone nonattainment area. EPA agrees.

These variances were submitted to EPA as State Implementation Plan revisions on April 25, 1984. EPA proposed to approve them on October 12, 1984 (49 FR 40052); no comments were received.

Final Action

EPA agrees that application of the presumptive norm in the CTG is not appropriate for these two facilities. Therefore, EPA is today giving full approval to the State's variances for Jiffy The Cleaners and Hiland Cleaners. This action is effective May 20, 1985.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by 60 days from today. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

The Office of Management and Budget has exempted this rule from the requirement of section 3 of Executive Order 12291.

Incorporation by reference of the Kentucky State Implementation Plan was approved by the Director of the Federal Register on July 1, 1982.

40 CFR Part 52

[Region II Docket No. 52; A-2-FRL-2821-4]

Approval and Promulgation of Implementation Plans; Revision to the Commonwealth of Puerto Rico Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This notice announces the Environmental Protection Agency approval under the provisions of the Clean Air Act of a revision to the Commonwealth of Puerto Rico Implementation Plan concerning a visible emissions variance for two emission units at the Sun Oil Company's plant located at Yabucoa. The variance raises the visible emissions limit as regulated under Commonwealth Rule 403, "Visible Emission," from 20 percent to 45 percent opacity for the "crude" unit, and from 20 percent opacity to 35 percent opacity for the "hot oil/final lube" unit.

EFFECTIVE DATE: This action will be effective June 17, 1985, unless notice is received by May 20, 1985, that someone wishes to submit adverse or critical comments.

ADDRESSES: All comments should be addressed to: Christopher J. Daggett, Regional Administrator, Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10278.

Copies of the SIP revision are available at the following addresses for inspection during normal business hours:

Environmental Protection Agency, Region II Office, Air Programs Branch, Room 1005, 26 Federal Plaza, New York, New York 10278

Environmental Protection Agency, Public Information Reference Unit, 401 M Street SW., Washington, D.C. 20460

The Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C. 20408

Environmental Qualify Board, 204 Del Parque Street, Santurce, Puerto Rico 00910.

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, Environmental Protection Agency, Room 1005, 26 Federal Plaza, New York, New York 10278, (212) 264-2517.

SUPPLEMENTARY INFORMATION: On September 6, 1983, the Environmental Protection Agency (EPA) received from Puerto Rico a proposed revision to the Commonwealth's Implementation Plan. The Commonwealth requested that EPA approve a visible emissions variance which it issued to the Sun Oil Company plant located in Yabucoa under the provisions of Rule 301, "Variances Authorized," of its "Regulation for the Control of Atmospheric Pollution." The effect of this variance is to establish a maximum opacity limit of 45 percent for the crude unit at this plant and 35 percent for the hot oil/final lube unit.

Stack test data submitted in support of this variance showed that the 0.3 pounds of particulate matter per million British thermal units of heat input (lb/10^6 BTU) emissions limit contained in the Commonwealth's Regulation (Rule 406) would be met with these revised opacity limits. However, because of the nature of the Puerto Rico Implementation Plan, EPA determined that additional information in the form of an air quality impact anaylsis was needed. This was because, at these revised opacity limits, emissions were in excess of the amounts assumed in the air quality attainment demonstration for particulate matter which EPA approved on November 3, 1980 (45 FR 72655). In this dispersion modeling demonstration a particulate matter emissions rate of 0.08 grains per dry standard cubic foot (g/scf) was assumed to be approximately equivalent to the 20 percent opacity requirement of Rule 403, Section A.1, Rule 117 requires that if two emission limitations apply to a source, the more stringent of the two would be the controlling limit. In this case the 20 percent opacity (or 0.08 g/scf) is the more stringent and thus the controlling limit.

EPA notified the Puerto Rico Environmental Quality Board of the need for the additional analysis on December 30, 1983. In response, on April 5, 1984 a document entitled "Yabucoa Sun Oil Company Petition for Variance from Rule 403 of the RCAP, amended version" was submitted.

EPA has determined that the crude unit at the Yabucoa Sun Oil facility will meet a 0.08 g/scf emissions limitation at the proposed 45 percent opacity limit. However, this emissions limitation would be exceeded by the hot oil/final lube unit at the requested opacity of 35 percent. In this latter case, the applicant performed, and EPA verified, an air quality dispersion analysis which demonstrated that the two units would not cause or contribute to any air quality violations if the requested revised opacity limits were approved. On these bases EPA is today approving the requested opacity variances for the crude and hot oil/final lube units. In addition, to these revised limitations the source will still remain subject to the opacity limit of Rule 403(A)(2), which allows a 60 percent opacity for a period or periods of no more than four minutes in any 30 minute interval. It should be noted that the Sun Oil Yabucoa plant is located in an area of Puerto Rico classified under section 107(d) of the Clean Air Act as attainment for all pollutants.

This notice is issued as required by section 110 of the Clean Air Act, as amended. The Administrator's decision regarding the approval of this plan revision is based on its meeting the requirements of section 110 of the Clean Air Act and 40 CFR Part 51.

EPA is approving this SIP revision request without prior proposal because it is viewed as noncontroversial and no adverse comments are anticipated. The public should be advised that this action will be effective 60 days from the date of this **Federal Register** notice. However, if notice is received within 30 days that someone wishes to submit adverse or critical comments, this action will be withdrawn and two subsequent notices will be published before the effective date. One notice will withdraw the final action and the other will begin a new rulemaking by announcing a proposal of the action and establishing a comment period.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit within 60 days of today. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

Under 5 U.S.C. 605(b), the Regional Administrator certifies that this SIP approval will not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

List of Subjects in 40 CFR Part 52

Intergovernmental relations, Air pollution control agency, Particulate matter, Incorporation by reference.

(Secs. 110 and 301, Clean Air Act, as amended (42 U.S.C. 7410 and 7601))

Note.—Incorporation by Reference of the Implementation Plan for the Commonwealth of Puerto Rico was approved by the Director of the Federal Register on July 1, 1982.

Dated: April 12, 1985.

Lee M. Thomas,

Administrator, Environmental Protection Agency.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Title 40, Chapter I, Subchapter C, Part 52, Code of Federal Regulations, is amended as follows:

Subpart BBB—Puerto Rico

1. Section 52.2720 is amended by adding new paragraph (c)(33) as follows:

§ 52.2720 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(33) Revision submitted by the Puerto Rico Environmental Quality Board on September 6, 1983, which grants a visible emissions variance from Commonwealth Rule 403, "Visible Emissions," from 20 percent to 45 percent for the crude unit and from 20 percent to 35 percent for the hot oil/final lube unit located at the Yabucoa Sun Oil Company's plant in Yabucoa.

[A-10-FRL-2820-9]

Approval and Promulgation of State Implementation Plans; Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA today approves amendments to the Oregon Department of Environmental Quality (ODEQ) rules for municipal incinerators and open field burning as revisions to the Oregon State Implementation Plan (SIP). These amended rules were submitted on January 16, 1984, and March 14, 1984, by ODEQ, after adequate opportunity for public, private and industry input.

EFFECTIVE DATE: June 17, 1985.

ADDRESSES: Copies of materials submitted to EPA may be examined during normal business hours at the following locations:

Public Information Reference Unit, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460

Air Programs Branch (10A-84-5), Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101

State of Oregon, Department of Environmental Quality, 522 SW. Fifth, Yeon Building, Portland, Oregon 97207

Copy of the State's submittal may be examined at: The Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: David C. Bray, Air Programs Branch, M/S 532, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, Telephone (206) 442-4253 (FTS) 399-4253.

SUPPLEMENTARY INFORMATION:

I. Plan Revisions

On January 16, 1984, ODEQ submitted amendments to its rules for refuse burning equipment (OAR 340-21-005, 025 and 027), which revise the emission limits applicable to small to medium-size municipal waste incinerators in the coastal areas of Oregon. These amendments relax emission limits for incinerators with capacities between 2.4 and 50 tons per day and tighten emission limits for incinerators with capacities greater than 50 tons per day. These new emission limits are consistent with the current actual emissions of the affected incinerators. On May 23, 1984, ODEQ submitted modeling results demonstrating that, under worst-case assumptions, the new allowable emission limits would not result in violations of the National Ambient Air Quality Standard or Prevention of Significant Deterioration increments for total suspended particulates (TSP). EPA is therefore approving the amended rules.

On March 14, 1984, ODEQ submitted amendments to its rules for open field burning in the Willamette Valley (OAR 340-26-001 through 045). These amendments completely restructure and revise the existing rules. However, the revisions are strictly procedural, and do not affect the amount of acreage allowed to be burned or the controls embodied in the EPA-approved smoke management plan.

EPA proposed the changes for approval on January 8, 1985 (50 FR 975). Therefore, EPA is approving the amended rules.

II. Summary of Action

EPA has determined that the amended rules satisfy the requirements of the Act and is therefore proposing to approve the following as revisions to the Oregon SIP:

(1) Amended emission limitations for municipal waste incinerators in the coastal areas of Oregon, specifically: The addition of new definitions OAR 340-21-005 (1) and (4); an amendment to OAR 340-21-025(2)(b); and the addition of new emission limitations in OAR 340-21-027; and

(2) Amended rules for open field burning in the Willamette Valley, specifically: The addition of new sections 340-26-001 "Introduction," 340-26-003 "Policy," 340-26-031 "Burning by Public Agencies (Training Fires)," 340-26-035 "Experimental Burning," 340-26-040 "Emergency Burning, Cessation," and 340-26-045 "Approved Alternative Methods of Burning (Propane Flaming); revisions to sections 340-26-005 "Definitions," 340-26-013 "Acreage Limitations, Allocations," 340-25-015 "Daily Burning Authorization Criteria," 340-26-025 "Civil Penalties," and 340-26-030 "Tax Credits for Approved Alternative Methods and Approved Alternative Facilities; "the deletion of the existing section 340-26-010 "General Provisions" and replacing it with a new section 340-26-010 "General Requirements;" the deletion of the existing section 340-26-012 "Registration and Authorization of Acreage to be Open Burned" and replacing it with a new section 340-26-012 "Registration, Permits, Fees, and Records;" and the deletion of sections 340-26-011 "Certified Alternative to Open Field Burning," and 340-26-020 "Winter Burning Season Regulations."

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 17, 1985. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2) of the Act.)

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

(Secs. 110(a) and 301(a) of the Clean Air Act (42 U.S.C. 7410(a) and 7601(a)))

Dated: April 12, 1985.

Lee M. Thomas,

Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Oregon was approved by the Director of the Federal Register on July 1, 1982.

PART 52—[AMENDED]

Part 52 of Chapter I, Title 40 Code of Federal Regulations is amended as follows:

Subpart MM—Oregon

1. In § 52.1970, paragraph (c)(69) is added as set forth below:

§ 52.1970 Identification of plan.

* * * * *

(c) * * *

(69) Amendments to the Refuse Burning Equipment Limitations rules, specifically OAR 340-21-005 (1) and (4), OAR 340-21-025(2)(b), and OAR 340-21-027, were submitted by the State Department of Environmental Quality on January 16, 1984; and amendments to the Open Field Burning rules, specifically, the addition of new sections 340-21-001, 340-26-003, 340-26-031, 340-26-035, 340-26-040 and 340-21-045, revisions to sections 340-26-005, 340-26-013, 340-26-015, 340-26-010 and replacing it with a new section 340-26-010, the deletion of the existing section 340-26-011 and 340-26-020, were submitted by the State Department of Environmental Quality on March 14, 1984.

BILLING CODE 6560-50-M

40 CFR Part 60

[A-7-FRL-2821-9]

Standards for Performance for New Stationary Sources (NSPS); Delegation of Authority to the State of Nebraska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of delegation of authority.

SUMMARY: This notice announces an extension of a previously-issued delegation of authority for the implementation and enforcement of the federal Standards of Performance for New Stationary Source (NSPS) regulation, 40 CFR Part 60. The action which involved EPA and the State of Nebraska added seventeen (17) NSPS source categories to the Nebraska/NSPS delegation of authority. Except for Kraft pulp mills, the delegation now addresses all source categories for which federal NSPS have been promulgated by the agency through June 1, 1984.

EFFECTIVE DATE: April 18, 1985.

ADDRESS: All requests, reports, applications, submittals and such other communications which are required to be submitted under 40 CFR Part 60 (including the notifications required to be submitted under Subpart A of the regulation) for affected facilities in Nebraska should be sent to the Nebraska Department of Environmental Control (NDEC), P.O. Box 94877, State House Station, Lincoln, Nebraska 68509. A copy of all Subpart A related notifications must also be sent to the attention of the Director, Air and Toxics Division, U.S. EPA, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Charles W. Whitmore, Chief, Air Compliance Section, Air Branch, U.S. EPA, Region VII, at the above address (816/374-6525 or FTS: 758-6525).

SUPPLEMENTARY INFORMATION: Section 111(c) of the Clean Air Act allows the Administrator of the Environmental Protection Agency (i.e., EPA or the agency) to delegate to any state government authority to implement and enforce the standards of performance promulgated by the agency under 40 CFR Part 60. When a delegation is issued, the agency retains concurrent authority to implement and enforce the delegated standards. The delegation basically shifts the primary responsibility for implementation and enforcement of the standards from the agency to the state government.

On August 7, 1984, the agency and the State of Nebraska entered into a delegation of authority agreement whereby the State of Nebraska will automatically receive authority to implement and enforce federal standards of performance against affected facilities in Nebraska upon the adoption of the standards by the state government (see 50 FR 933).

Prior to August 7, 1984, Nebraska was delegated authority to implement and enforce the standards for 29 source categories in various delegation and extension of authority actions. These previous delegation and extension of authority actions were not affected by the action described below.

On January 11, 1985, the State of Nebraska revised Chapter 6 of the Nebraska Air Pollution Control Rules and Regulations to incorporate, by reference, seventeen (17) additional standards of performance promulgated by the agency. The NDEC subsequently informed the agency of the above action in a letter dated January 16, 1985.

The agency acknowledged the adoption and the corresponding delegation of authority actions in a letter to the NDEC on February 1, 1985. The delegation occurred under the terms of the above-mentioned August 7, 1984, automatic delegation of authority agreement.

Interested individuals are informed that, as of January 11, 1985, the State of Nebraska has EPA's authorization to implement and enforce the federally-established standards of performance for the following additional seventeen (17) source categories:

NSPS:

- Subpart CC—Glass Manufacturing Plants;
- Subpart EE—Surface Coating of Metal Furniture;
- Subpart KK—Lead Acid Battery Manufacturing Plants;
- Subpart LL—Metalic Mineral Processing Plants;
- Subpart MM—Automobile and Light-Duty Truck Surface Coating Operations;
- Subpart NN—Phosphate Rock Plants;
- Subpart PP—Ammonium Sulfate Manufacture;
- Subpart QQ—Graphic Arts Industry: Publication Rotogravure Printing;
- Subpart RR—Pressure Sensitive Tape and Label Surface Coating Operations;
- Subpart SS—Industrial Surface Coating: Large Appliances;
- Subpart TT—Metal Coil Surface Coating;
- Subpart UU—Asphalt Processing and Asphalt Roofing Manufacture;
- Subpart VV—Equipment Leaks of VOC in the Synthetic Organic Chemical Manufacturing Industry;
- Subpart WW—Beverage Can Surface Coating Industry;
- Subpart XX—Bulk Gasoline Terminals;
- Subpart GGG—Equipment Leaks of VOC in Petroleum Refineries; and,

Subpart HHH—Synthetic Fiber Production Facilities.

Effective immediately, all reports, correspondence, and such other communications that are required to be submitted under the NSPS regulation for facilities in Nebraska affected by the amended delegation of authority should be sent to the Nebraska Department of Environmental Control at the above address rather than to the EPA Region VII office, *except* as noted below.

A copy of each notification required to be submitted under 40 CFR Part 60, Subpart A, must *also* be sent to the attention of the Director, Air and Toxics Division, U.S. EPA Region VII, at the above address.

Each document and letter mentioned in this notice is available for public inspection at the EPA regional office.

This notice is issued under the authority of section 111 of the Clean Air Act, as amended (42 U.S.C. 7411).

Dated: March 29, 1985.

William Rice,

Acting Regional Administrator.

[FR Doc. 85-9420 Filed 4-17-85; 8:45 am]

BILLING CODE 6560-50-M

40 CFR Parts 60 and 61

[A-7-FRL-2821-8]

Standards of Performance for New Stationary Sources (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPS); Changes of Address

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: The EPA is today amending 40 CFR 60.4 and 40 CFR 61.04 to reflect changes of address.

EFFECTIVE DATE: April 18, 1985.

FOR FURTHER INFORMATION CONTACT: Charles W. Whitmore, Chief, Air Compliance Section, Air Branch, EPA, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101 (816/374-6525 or FTS: 758-6525).

SUPPLEMENTARY INFORMATION: Sections 40 CFR 60.4 and 61.04, respectively, set forth the EPA regional offices and state agencies to which all requests, reports, applications, submittals, and other communications must be sent by owners and/or operators of facilities (or activities) affected by the federal Standards of Performance for New Stationary Sources (NSPS) or the National Emission Standards for Hazardous Air Pollutants (NESHAPS) regulations. The information given in 40 CFR 60.4 and 61.04 must be changed to reflect a change of address of the EPA, Region VII, office and a change of title of Iowa's air pollution control department.

The Administrator finds good cause for foregoing prior public notices of the amendments and for making this rulemaking effective immediately in that the amendments are an administrative change and not one of substantive content. No additional burdens are imposed upon the parties affected by the amendments.

This rulemaking is effective immediately and is issued under the authority of section 111 and section 112 of the Clean Air Act, as amended, 42 U.S.C. 7411 and 7412.

Dated: March 25, 1985.

Morris Kay,

Regional Administrator.

Parts 60 and 61 of Chapter I, Title 40 of the Code of Federal Regulations are amended as follows:

PART 60—[AMENDED]

1. In § 60.4, the address of Region VII in paragraph (a) and the entry for the State of Iowa in paragraph (b)(Q) are amended to read as follows:

§ 60.4 Address.

(a) * * *

Region VII (Iowa, Kansas, Missouri, Nebraska), Director, Air and Toxics Division, U.S. Environmental Protection Agency, 726 Minnesota Avenue, Kansas City, Kansas 66101.

(b) * * *

(Q) *State of Iowa:* Iowa Department of Water, Air and Waste Management, Henry A. Wallace Building, 900 East Grand, Des Moines, Iowa 50319.

* * * * *

PART 61—[AMENDED]

1. In § 61.04, the address of Region VII in paragraph (a) and the entry for the State of Iowa in paragraph (b)(Q) are amended to read as follows:

§ 61.04 Address.

(a) * * *

Region VII (Iowa, Kansas, Missouri, Nebraska), Director, Air and Toxics Division, U.S. Environmental Protection Agency, 726 Minnesota Avenue, Kansas City, Kansas 66101.

(b) * * *

(Q) *State of Iowa:* Iowa Department of Water, Air and Waste Management, Henry A. Wallace Building, 900 East Grand, Des Moines, Iowa 50319.

* * * * *

50 CFR Part 611

[Docket No. 41276-4176]

Foreign Fishing

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice to respecify fishery specifications.

SUMMARY: NOAA issues this notice to respecify joint venture processing (JVP) amounts in the foreign fishing regulations for the Hake Fishery of the Northwest Atlantic Preliminary Management Plan (PMP). The JVPs are specified for Georges Bank and Southern New England silver hake, and red hake on Georges Bank. The intended effect of the new specifications is to allow processing of joint venture applications for 1985.

EFFECTIVE DATE: April 18, 1985.

FOR FURTHER INFORMATION CONTACT: Peter D. Colosi, Jr., 617-281-3600, ext. 272.

SUPPLEMENTARY INFORMATION: NOAA published a notice of initial specifications on January 4, 1985 (50 FR 468), to present the optimum yield (OY),

domestic annual harvest (DAH), domestic annual processing (DAP), joint venture processing (JVP), reserve, and total allowable level of foreign fishing (TALFF) for all foreign fisheries, including the hake fisheries conducted under the Northwest Atlantic PMP. These specifications were current as of January 1, 1985.

NMFS has received joint venture applications involving the Atlantic hakes and has reviewed the data. It reaffirms that the DAPs presented for all hakes except red hake in Northwest Atlantic areas 1–4 (Southern New England) are appropriate to satisfy the domestic processing sector, includiing projected activity in 1985 by newly operating catcher/processor vessels. Based on this review, NMFS respecifies appropriate amounts of JVP for Georges Bank and Southern New England silver hake, and transfers the reserve of red hake in NW Atlantic Area 5 to DAH and JVP. These respecifications do not modify the DAPs.

A separate notice is being issued to reassess the DAP for the Southern New England red hake stock under procedures of § 611.51(b).

The table published at 50 FR 468 (January 4, 1985) is revised as follows:

Species	Species code	AREAS	OY or TAC	DAH	DAP	JVP	Reserve	TALFF
1. NW Atlantic Ocean Fisheries								
A. Hake fisheries:								
Hake, Silver	104	NW Atlantic 1–4	30,000	20,600	5,600	15,000	0	9,400
		NW Atlantic 5	13,000	9,000	2,000	7,000	0	4,000
Hake, Red	105	NW Atlantic 5	6,000	3,500	500	3,000	0	2,500

BILLING CODE 3510-22-M

---

50 CFR Part 672

[Docket No. 40302–21]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of modification of closure of sablefish fishery.

SUMMARY: Following the March 18, 1985, closure of the Southeast Outside District and the East Yakutat District of the Eastern Regulatory Area of the Gulf of Alaska to further sablefish fishing, the Director, Alaska Region, NMFS (Regional Director), has determined that the fishery did not fully harvest the amounts of sablefish available. The Secretary of Commerce therefore is modifying the closure notice by reopening this fishery for five days beginning at noon, April 16, 1985. This temporary reopening is necessary to allow full utilization of the sablefish resource. It is intended as a conservation and management measure to optimize the returns to the fishing industry.

DATE: This notice is effective from noon Alaska Daylight Time (A.D.T.), April 16, 1985, until noon A.D.T., April 21, 1985.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg, (Fishery Management Biologist, NMFS), 907–586–7230.

SUPPLEMENTARY INFORMATION: In accordance with § 672.20(b), the Regional Director issued a notice under § 672.22(a) prohibiting further fishing for sablefish in the Southeast Outside and East Yakutat Districts from noon, March 18, 1985, until midnight December 31, 1985 (50 FR 11368, March 21, 1985). The Regional Director took that action based on estimates of sablefish catches that had already been landed and sablefish that were projected to have been caught but not yet landed. From these estimates, the Regional Director calculated that a harvest near the upper end of the OY ranges of 470–1,435 mt and 850–1,135 mt, for the Southeast Outside and East Yakutat Districts, respectively, would be achieved on March 18, 1985.

Comments on that action were invited until April 2, 1985. Although no written comments were received, considerable interest was expressed by representatives of the fishing industry that the sablefish fishery should be reopened if information were submitted that indicated a shortfall in the harvest.

Following the closure, final catches were tabulated and catches per unit of effort (CPUE) were analyzed. The total 1985 catch in the Southeast Outside and East Yakutat Districts is now known to be 2,058 mt. This amount is smaller than the total 1984 catch of about 2,692 mt. The 1985 CPUE, calculated after the closure, is 0.67 pounds per hook. In 1984, the CPUE was about 0.62 pounds per hook during a similar period. The Regional Director has thus determined that the current size of the sablefish stock is at least as large as it was in 1984 when a much larger harvest occurred. Therefore, he has decided that an additional harvest should be allowed to fully utilize the sablefish resource.

In light of this information, and in accordance with § 672.22(b)(4)(iv), the Regional Director is modifying the notice of closure by reopening the sablefish fishery at noon A.D.T., April 16, 1985, until noon A.D.T., April 21, 1985, at which time the previously advertised closure will take effect until midnight, December 31, 1985.

This temporary reopening will be effective after this notice is filed for public inspection with the Office of the Federal Register and after it has been publicized for 48 hours through procedures of the Alaska Department of Fish and Game.

Other matters

Conservation and management of sablefish in the Southeast Outside and East Yakutat Districts will be adversely affected unless this action takes effect promptly. The agency therefore finds for good cause that advance opportunity for public comment on this notice is contrary to the public interest and that its effective date should not be delayed.

This action is taken under § 672.22(a)(3)(ii) and (b)(4)(iv) and complies with Executive Order 12291. It is not subject to the requirements of the Regulatory Flexibility Act. It does not contain any collection of information

request, as defined in the Paperwork Reduction Act.

Proposed Rules

Federal Register
Vol. 50, No. 75
Thursday, April 18, 1985

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Parts 870, 871, 872, and 873

Basic Life Insurance, Standard Optional Life Insurance, Additional Optional Life Insurance and Family Optional Life Insurance

AGENCY: Office of Personnel Management.

ACTION: Proposed rulemaking.

SUMMARY: The Office of Personnel Management (OPM) proposes a further reduction in the premiums for Basic coverage effective the first pay period beginning on or after August 1, 1985. OPM is also proposing to amend its regulations to permit an open enrollment period from June 1 through July 1, 1985, during which time employees otherwise eligible to participate in the Federal Employees' Group Life Insurance (FEGLI) Program will have an opportunity to add to their existing coverages or to enroll in the Program if they have previously waived all coverage.

DATE: Comments must be received on or before May 20, 1985.

ADDRESS: Written comments may be sent to Jean M. Barber, Assistant Director for Pay and Benefits Policy, Compensation Group, Office of Personnel Management, P.O. Box 57, Washington, D.C. 20044, or delivered to OPM, Room 4351, 1900 E Street, NW., Washington, D.C. 20415.

FOR FURTHER INFORMATION CONTACT: John Ray, (202) 254–7052.

SUPPLEMENTARY INFORMATION: We have monitored the experience of the FEGLI Program carefully since the substantial revisions to the Program brought about by Pub. L. 96–427, enacted on October 10, 1980. Based upon our review of the rates and claims experience from early 1981 through the end of 1983, we were able to reduce premiums for practically all levels of coverage effective in May 1984. More recently, we have incorporated fiscal year 1984's mortality and financial experience into the continuing analysis of the FEGLI rates and have found that the premiums for Basic coverage can be reduced still further. Therefore, we are reducing the rates for the Basic insurance coverage by approximately 9%, from $.22 per $1,000 of coverage to $.20 per $1,000 of coverage effective the first pay period beginning on or after August 1, 1985. Since no open enrollment period has been conducted since March 1981 and our most recent review of the FEGLI Program indicates that claims experience has more than sustained the new rates introduced in 1984, we believe employees should be given an opportunity to review their insurance needs and, if needed, either add to their existing coverages or enroll in FEGLI if they have previously waived all coverage.

We will not require a positive reenrollment of all FEGLI eligibles as we did during the March 1981 open enrollment period. Only those employees who wish to change their participation status or their levels of coverage will have to complete an election form. Previous waivers or declinations of coverage will not be canceled unless the employee submits a new election. Elections filed during the open enrollment period will become effective at the beginning of the first pay period which begins on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for at least 32 hours. Part-time employees will need to have been in a pay and duty status for one-half of the regularly-scheduled tour of duty indicated on their current SF's 50 for newly-elected coverage to become effective. This 1 month minimum waiting period between the date of the election and the effective date of coverage coupled with a strengthening of the length of time an employee must be in a pay and duty status before coverage can attach should provide an ample safeguard to the Program from adverse selection.

Detailed guidance will be provided agencies and employing offices in Federal Personnel Manual letters and bulletins concerning the reduction in the premium rates for Basic coverage, the open enrollment material which must be provided all eligible employees, and the shipping and distribution schedules.

OPM has determined that, in view of the need to commence decision-making on the proposal in June 1985, a 30-day comment period is appropriate. It will accord an adequate period of time for interested parties to comment on this proposal.

E.O. 12291, Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that these regulations will not have a significant economic impact on a substantial number of small entities because they would affect only Federal employees.

List of Subjects

5 CFR Part 870

Administrative practice and procedure, Government employees, Life insurance.

5 CFR Part 871

Administrative practice and procedure, Government employees, Life insurance.

5 CFR Part 872

Administrative practice and procedure, Government employees, Life insurance.

5 CFR Part 873

Administrative practice and procedure, Government employees, Life insurance.

Office of Personnel Management.

Loretta Cornelius,

Acting Director.

For the reasons set forth in the preamble, OPM is amending Parts 870, 871, 872, and 873 of Title 5 of the Code of Federal Regulations as follows:

1. The authority citation for Parts 870, 871, 872, and 873 continues to read as follows:

Authority: 5 U.S.C. 8716, unless otherwise noted.

PART 870—BASIC LIFE INSURANCE

2. In § 870.203, a new paragraph (d) is added to read as follows:

§ 870.203 Effective dates of insurance coverage.

* * * * *

(d) An open enrollment election of basic life insurance filed during the period from June 1 through July 1, 1985, is effective on the first day of the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for at least 32 hours. A part-time employee will need to have been in a pay and duty status for one-half of the regularly-scheduled tour of duty indicated on his or her current Standard Form 50 for newly-elected coverage to become effective. An employee who has no regularly-scheduled tour of duty or who is employed on an intermittent basis will have to have been in a pay and duty status for one-half of the hours customarily worked before newly-elected coverage can become effective. For the purpose of this subsection, employing offices can determine the number of hours customarily worked by averaging the number of hours worked in the calendar year quarter ending June 30, 1985.

3. In § 870.204, a new paragraph (g) is added to read as follows:

§ 870.204 Cancellation of waiver of insurance coverage.

* * * * *

(g)(1) An open enrollment period will be held from June 1 through July 1, 1985, during which time employees otherwise eligible for coverage may cancel their existing waivers of coverage by affirmatively electing to be insured on a form designated by OPM.

(2) An employing office may make a determination, within 6 months after the June 1 through July 1, 1985 open enrollment period, that an employee was unable, for cause beyond his or her control, to cancel his or her then existing waiver of coverage by affirmatively electing to be insured during the 1985 open enrollment period. The employee shall be permitted to submit an affirmative election of coverage within 31 days after he or she is advised of that determination. Basic life insurance coverage in that case is retroactive to the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for a sufficient length of time, as specified in § 870.203(d), to acquire coverage. Failure on the part of the employee to file an election within the 31 days prescribed in this paragraph shall be deemed a waiver of all coverage.

4. In § 870.401, paragraphs (a), (b) and (f)(1) are revised to read as follows:

§ 870.401 Withholdings and contributions.

(a) Effective August 1, 1985, during each pay period in which an insured employee is in pay status for any part of the period, $0.20 for each $1,000 of the employee's BIA shall be withheld from the biweekly pay of the employee. The amount withheld from the pay of an employee who is paid on other than a biweekly basis is determined at a proportionate rate, adjusted to the nearest one-tenth of one cent.

(b) The amount withheld from the pay of an insured employee whose annual pay is paid during a period shorter than 52 workweeks is the sum obtained by converting the biweekly rate of $0.20 for each $1,000 of the employee's BIA to an annual rate and prorating the annual rate over the number of installments of pay regularly paid during the year.

* * * * *

(f)(1) Except as provided under paragraph (g) of this section, an insured person who elects continued basic life insurance coverage during receipt of annuity or compensation payments as provided under § 870.601(c)(2) or § 870.701(c)(2) (maximum reduction of 75 percent after age 65) shall have withheld from his or her payments basic life insurance withholdings at the monthly rate (for annuitants) of $0.433 for each $1,000 of the BIA or at the weekly rate (for compensationers) of $0.10 for each $1,000 of the BIA.

* * * * *

PART 871—STANDARD OPTIONAL LIFE INSURANCE

5. In § 871.203, a new paragraph (c) is added to read as follows:

§ 871.203 Effective date of insurance.

* * * * *

(c) An open enrollment election of standard optional insurance filed during the period from June 1 through July 1, 1985, is effective on the first day of the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for at least 32 hours. A part-time employee will need to have been in a pay and duty status for one-half of the regularly scheduled tour of duty indicated on his or her current Standard Form 50 for newly-elected coverage to become effective. An employee who has no regularly-scheduled tour of duty or who is employed on an intermittent basis will have to have been in a pay and duty status for one-half of the hours customarily worked before newly-elected coverage can become effective. For the purpose of this subsection, employing offices can determine the number of hours customarily worked by averaging the number of hours worked in the calendar year quarter ending June 30, 1985.

6. In § 871.205, a new paragraph (g) is added to read as follows:

§ 871.205 Cancellation of declination.

* * * * *

(g)(1) An open enrollment period will be held form June 1 through July 1, 1985, during which time employees otherwise eligible for coverage may cancel their existing declinations of coverage by affirmatively electing to be insured on a form designated by OPM.

(2) An employing office may make a determination, within 6 months after the June 1 through July 1, 1985 open enrollment period, that an employee was unable, for cause beyond his or her control, to cancel his or her then existing declination of coverage by affirmatively electing to be insured during the 1985 open enrollment period. The employee shall be permitted to submit an affirmative election of coverage within 31 days after he or she is advised of that determination. Standard optional insurance coverage in that case is retroactive to the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for a sufficient length of time, as specified in § 871.203(c) to acquire coverage. Failure on the part of the employee to file an election within the 31 days prescribed in this paragraph shall be deemed a declination of standard optional insurance.

* * * * *

PART 872—ADDITIONAL OPTIONAL LIFE INSURANCE

7. In § 872.203, a new paragraph (c) is added to read as follows:

§ 872.203 Effective date of insurance.

* * * * *

(c) An open enrollment election of additional optional insurance filed during the period from June 1 through July 1, 1985, is effective on the first day of the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for at least 32 hours. A part-time employee will need to have been in a pay and duty status for one-half of the regularly-scheduled tour of duty indicated on his or her current Standard Form 50 for newly-elected coverage to become effective. An employee who has no regularly-scheduled tour of duty or who is employed on an intermittent

basis will have to have been in a pay and duty status for one-half of the hours customarily worked before newly-elected coverage can become effective. For the purpose of this subsection, employing offices can determine the number of hours customarily worked by averaging the number of hours worked in the calendar year quarter ending June 30, 1985.

8. In § 872.205, paragraph (d) is added to read as follows:

* * * * *

§ 872.205 Cancellation of declination.

(d)(1) An open enrollment period will be held form June 1 through July 1, 1985, during which time employees otherwise eligible for coverage may cancel their existing declinations of coverage by affirmatively electing to be insured on a form designated by OPM.

(2) An employing office may make a determination, within 6 months after the June 1 through July 1, 1985 open enrollment period, that an employee was unable, for cause beyond his or her control, to cancel his or her then existing declination of coverage by affirmatively electing to be insured during the 1985 open enrollment period. The employee shall be permitted to submit an affirmative election of coverage within 31 days after he or she is advised of that determination. Additional optional insurance coverage in that case is retroactive to the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for a sufficient length of time, as specified in § 872.203(c) to acquire coverage. Failure on the part of the employee to file within the 31 days prescribed in this paragraph shall be deemed a declination of additional optional insurance.

PART 873—FAMILY OPTIONAL LIFE INSURANCE

9. In § 873.203, a new paragraph (c) is added to read as follows:

§ 873.203 Effective d. te of insurance.

* * * * *

(c) An open enrollment election of family optional insurance filed during the period from June 1 through July 1, 1985, is effective on the first day of the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for at least 32 hours. A part-time employee will need to have been in a pay and duty status for one-half of the regularly-scheduled tour of duty indicated on his or her current Standard Form 50 for newly-elected coverage to become effective. An employee who has no regularly-scheduled tour of duty or who is employed on an intermittent basis will have to have been in a pay and duty status for one-half of the hours customarily worked before newly-elected coverage can become effective. For the purpose of this subsection, employing offices can determine the number of hours customarily worked by averaging the number of hours worked in the calendar year quarter ending June 30, 1985.

10. In § 873.205, paragraph (e) is added to read as follows:

§ 873.205 Cancellation of declination.

* * * * *

(e)(1) An open enrollment period will be held from June 1 through July 1, 1985, during which time employees otherwise eligible for coverage may cancel their existing declinations of coverage by affirmativley electing to be insured on a form designated by OPM.

(2) An employing office may make a determination, within 6 months after the June 1 through July 1, 1985 open enrollment period, that an employee was unable, for cause beyond his or her control, to cancel his or her then existing declination of coverage by affirmatively electing to be insured during the 1985 open enrollment period. The employee shall be permitted to submit an affirmative election of coverage within 31 days after he or she is advised of that determination. Family optional insurance coverage in that case is retroactive to the first pay period beginning on or after August 1, 1985, which immediately follows a pay period during which the employee was in a pay and duty status for a sufficient length of time, as specified in § 873.203(c) to acquire coverage. Failure on the part of the employee to file an election within the 31 days prescribed in this paragraph shall be deemed a declination of family optional insurance.

BILLING CODE 6325-01-M

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Parts 915 and 944

Avocados Grown in South Florida and Imported Avocados; Proposed Grade and Container Marking Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule invites written comments on a proposal to increase the minimum grade requirement applicable to domestic shipments of Florida avocados and imports of avocados to U.S. No. 2 from U.S. No. 3. The proposal would also modify Florida avocado container marking requirements. The proposed action is designed to promote orderly marketing conditions for avocados in the interest of producers and consumers.

DATES: Comments due by May 3, 1985. Proposed effective date: May 13, 1985.

ADDRESS: Comments should be sent to: Docket Clerk, F&V, AMS, Room 2069-S, U.S. Department of Agriculture, Washington, D.C. 20250. Two copies of all written material shall be submitted, and they will be made available for public inspection at the office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202-447-5975.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under Secretary's memorandum 1512-1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities.

The proposed Florida avocado requirements are issued under the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposed grade and container marking requirements applicable to Florida avocado shipments were unanimously recommended by the Avocado Administrative Committee which is established under the marketing order.

The proposal would require fresh shipments of Florida avocados, except those handled within the production area, to grade U.S. No. 2. The current minimum grade requirement (U.S. No. 3) specified in § 915.329 (49 FR 21697, 36359) expires April 30, 1985. Current maturity requirements in § 915.329 as to weight and diameter expire on April 30, 1985, and consideration as to future requirements will be addressed later in a separate document.

Fresh shipments of Florida avocados have remained fairly constant in recent years. During the five-year period 1979–80 through 1983–84 annual fresh shipments averaged 1,093,200 bushels. However, during this period there has been a steady decline in the season average price at the packinghouse level. Industry sources attribute this price decline to the variation in the quality of avocados offered to consumers and the general perception with the trade that Florida avocados are poor quality fruit. The current U.S. No. 3 grade requirement allows shipment of avocados which are seriously damaged, and which generally have a very poor appearance. The proposed increase in the minimum quality requirements is designed to assure shipment of avocados which are fairly well formed, clean, fairly well colored, and well trimmed, and free from serious damage caused by bruises, cuts or other skin breaks, pulled stems, russeting or similar discoloration, scars, scab; sunburn, sunscald, sprayburn and other defects. Avocados possessing the characteristics of U.S. No. 2 or better fruit are preferred by the trade and consumers.

It is estimated that 85–90 percent of the 1985–86 Florida avocado crop will meet the proposed grade requirement. Fruit which fails to grade U.S. No. 2 may be handled within the production area or utilized in processed products, such as guacamole. In addition, the marketing order exempts from quality and other requirements individual shipments not exceeding 55 pounds of avocados.

The proposal would also modify container marking requirements in § 915.306 to require the marking of the grade of the fruit in letters and numbers at least 1¼ inch in height on the top and on 2 sides of the container lid. The proposal would also delete a current provision authorizing the marking of containers with a registered label, brand, or trademark registered with the committee as an alternative to marking the grade of the fruit on the container. The committee reports that the prosposed modification of the current container marking requirements is needed to enable the trade to more readily discern the grade of the fruit packed in the containers. The currently permitted alternative method of marking containers with a label, brand or trademark has caused confusion in the trade on the relationship between the numerous packing labels used by handlers and the quality of the fruit represented by a particular label.

Under the proposal, the changes in the Florida grade and container marking requirements would be made by amending § 915.306. Current requirements in § 915.306 pertaining to standard pack and lot stamping would continue in effect, but would be revised for clarity.

The proposed avocado import requirements are issued under section 8e (7 U.S.C. 608e–1) of the act. Section 8e of the act requires that when certain domestically produced commodities, including avocados, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements. Under the proposal, a new § 944.28 would be issued establishing a minimum grade of U.S. No. 2 for imported avocados. The current minimum grade of U.S. No. 3 for imported avocados expires April 30, 1985.

It is found that this proposed rule relative to Florida and imported avocados would tend to effectuate the declared policy of the act.

The proposed grade regulation would continue in effect from marketing season to marketing season indefinitely unless modified, suspended, or terminated by the Secretary upon recommendation and information submitted by the committee or other information available to the Secretary. Heretofore, grade regulations issued under the marketing order were made effective for a single marketing season. The proposed issuance of a grade regulation which would continue in effect from marketing season to marketing season reflects the fact that grade regulations change infrequently from season to season and it is believed unnecessary to issue them for only a single season. In addition, the proposed action could result in a reduction in operational costs to the committee and the government. Although the proposed regulation would be effective for an indefinite period, the committee would continue to meet prior to and during each season to consider recommendations for modification, suspension, or termination of the regulation. Prior to making any such recommendations, the committee would submit to the Secretary a marketing policy for the season including an analysis of supply and demand factors having a bearing on the marketing of the crop. Committee meetings are open to the public and interested persons may express their views at these meetings. The Department will evaluate committee recommendations and information submitted by the committee, and other available information, and determine whether modification, suspension, or termination of the regulations on shipments of Florida avocados would tend to effectuate the declared policy of the act.

List of Subjects

7 CFR Part 915

Marketing agreements and orders, Avocados, Florida.

7 CFR Part 944

Food grades and standards, Imports, Avocados.

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Under the proposal, § 915.306 would be revised to read as follows:

§ 915.306 Florida Avocado Grade, Pack, and Container Marking Regulation.

(a) On and after May 13, 1985, no handler shall handle any variety of avocados grown in the production area, except for avocados handled within the production area in containers other than those authorized in § 915.305, unless:

(1) Such avocados grade at least U.S. No. 2.

(2) Such avocados are packed in containers in accordance with standard pack.

(3) Such avocados are in containers marked with the grade of the fruit in letters and numbers at least 1¼ inch in height on the top and 2 sides of the lid of the container.

(4) Such avocados are in containers marked with the Federal-State Inspection Service lot stamp number.

(b) The provisions of paragraphs (a)(2), (a)(3), and (a)(4) of this section shall not apply to individual packages of avocados weighing 4 pounds or less, net weight, in master containers.

(c) Terms pertaining to grades and standard pack mean that the same as those defined n the United States Standards for Florida Avocados (7 CFR 51.3050–51.3069).

PART 944—FRUITS; IMPORT REGULATIONS

Unde the proposal a new § 944.28 would be added to read as follows:

§ 944.28 Avocado Import Regulation 36.

(a) Pursuant to section 8e of the act and Part 944—Fruits; Import Regulations, the importation into the United States of any avocados is prohibited on and after May 13, 1985, unless such avocados grade at least U.S. No. 2, as such grade is defined in the United States Standards for Florida Avocados (7 CFR 51.3050–51.3069). Such grade requirement is the same as that specified in § 915.306 for avocados

grown in South Florida under M.O. 915 (7 CFR Part 915).

(b) The Federal or Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is designated as the governmental inspection service for certifying the grade, size, quality, and maturity of avocados that are imported into the United States. Inspection by the Federal or Federal-State Inspection Service with evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of avocados, is required on all imports. The inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51) and in accordance with the regulation designating inspection services and procedure for obtaining inspection and certification (7 CFR 944.400).

(c) The term "importation" means release from custody of the United States Customs Service.

(d) Any person may import up to 55 pounds of avocados exempt from the requirements specified in this section.

(e) Any lot or portion thereof which fails to meet the import requirements prior to or after reconditoning may be exported or disposed of under the supervision of the Federal or Federal-State Inspection Service with the costs of certifying the disposal of such lot borne by the importer.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 15, 1985.

Thomas R. Clark,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

---

7 CFR Part 1032

[Docket No. AO–313–A33]

Milk in the Southern Illinois Marketing Area; Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of public hearing on proposed rulemaking.

SUMMARY: The hearing is being held to consider a proposal by six cooperative associations to amend the Southern Illinois milk marketing order. The proposal would establish under that order for plants in the St. Louis, Missouri, metropolitan area the same Class I price that applied at such plants under the former St. Louis-Ozarks order. The latter order was terminated on April 1, 1985. Proponents have requested expedited action on the price issue so as to continue to attract an adequate supply of milk to the St. Louis area.

DATE: The hearing will convene at 9:00 a.m., local time, on April 30, 1985.

ADDRESS: The hearing will be held at Henry VIII Inn and Lodge, 4690 N. Lindbergh, Bridgeton, Missouri (St. Louis Co.) 63044.

FOR FURTHER INFORMATION CONTACT: John F. Borovies, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–2089.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Notice is hereby given of a public hearing to be held at Henry VIII Inn and Lodge, 4690 N. Lindbergh, Bridgeton, Missouri 63044, beginning at 9:00 a.m., local time, on April 30, 1985, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Southern Illinois marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR 900.12(d)) with respect to Proposal No. 1.

Actions under the Federal milk order program are subject to the "Regulatory Flexibility Act (Pub. L. 96–354). This act seeks to ensure that, within the statutory authority of a program, the regulatory and information requirements are tailored to the size and nature of small businesses. For the purpose of the Federal order program, a small business will be considered as one which is independently owned and operated and which is not dominant in its field of operation. Most parties subject to a milk order are considered as a small business. Accordingly, interested parties are invited to present evidence on the probable regulatory and informational impact of the hearing proposals on small businesses. Also, parties may suggest modifications of these proposals for the purpose of tailoring their applicability to small businesses.

List of Subjects in 7 CFR Part 1032

Milk marketing orders, Milk, Dairy products.

The authority citation for Part 1032 continues to read as follows:

Authority: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

PART 1032—[AMENDED]

The proposed amendments, as set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Associated Milk Producers, Inc.; Land·O' Lakes; Mid-America Dairymen, Inc.; Midwest Dairymen, Inc.; Prairie Farms Dairy, Inc., and Wisconsin Dairies:

Proposal No. 1

Revise § 1032.52(a) (1) and (3) to read as follows:

§ 1032.52 Plant location adjustments for handlers.

(a) * * *

(1) At a plant in the southern zone; the city of St. Louis; Missouri; the Missouri counties of Jefferson, St. Charles and St. Louis, and the Illinois counties of Madison (except Alton township), Monroe and St. Clair; plus 7 cents.

(2) * * *

(3) At a plant outside the marketing area and the area specified in paragraph (a)(1) of this section, minus 15 cents if such plant is 100 or more miles from the city or village limits of Alton, Robinson, or Vandalia, Illinois, whichever is nearest, and minus an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 110 miles: *Provided*, That the adjustment at a plant outside the marketing area and in the State of Illinois south of the northernmost boundaries of the Illinois counties of Adams and Schuyler and at a plant in the Indiana counties of Fountain, Parke, Vermillion, and Warren shall be the same as for a pool plant located in the northern zone; and

* * * * *

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 2

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing, and incorporate the March 21, 1985, equivalent price determination in § 1032.50(a) as a technical, nonsubstantive, modification to the order.

Copies of this notice of hearing and the order may be procured from the Market Administrator, Donald R. Nicholson, P.O. Box 1485, Maryland Heights, Missouri 63043, or from the Hearing Clerk, Room, 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250, or may be inspected there.

Copies of the transcript of testimony taken at the hearing will not be available for distribution through the Hearing Clerk's Office. If you wish to purchase a copy, arrangements may be made with the reporter at the hearing.

From the time that a hearing notice is issued and until the issuance of a final decision in a proceeding, Department employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex parte basis with any person having an interest in the proceeding. For this particular proceeding, the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture
Office of the Administrator, Agricultural Marketing Service
Office of the General Counsel
Dairy Division, Agricultural Marketing Service (Washington Office only)
Office of the Market Administrator, Southern Illinois Marketing Area

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Signed at Washington, D.C., on April 12 1985.

William T. Manley,

Deputy Administrator, Marketing Programs.

BILLING CODE 3410-02-M

Office of the Secretary

7 CFR Part 3015

Competition in the Awarding of Grants and Cooperative Agreements to Further Research, Extension, and Teaching Programs

AGENCY: Department of Agriculture, USDA.

ACTION: Proposed rule.

SUMMARY: This rule would amend 7 CFR part 3015, Subpart Q, by adding a new section to implement Secretary's Memorandum (SM) 5000-2, "Competition in the Awarding of Contracts, Grants, and Cooperative Agreements to Further Research, Extension, and Teaching Programs," dated August 13, 1984. SM 5000-2 sets forth the Department's policy regarding competition in the awarding of grants and cooperative agreements to further research, extension, or teaching programs in the food and agricultural sciences. This rule proposes to establish Departmentwide standards for carrying out the objective of USDA to support competition in the award of its grant and cooperative agreement activities.

DATE: Comments on this proposed rulemaking must be received on or before June 17, 1985.

ADDRESS: Interested persons should submit comments to Ms. Lyn Zimmerman, Office of Finance and Management, Financial Management Division, 201 14th Street SW., Room 2117-B, Auditors Building, Washington, D.C. 20250. (Telephone (202) 382-1553). Comments will be available for inspection at the above address from 8:30 a.m. to 5:00 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Ms. Lyn Zimmerman, Supervisory Program Analyst, Office of Finance and Management, USDA, Room 2117-B, Auditors Building, 201 14th Street SW., Washington, D.C. 20250. (Telephone (202) 382-1553).

SUPPLEMENTARY INFORMATION:

Classification

Executive Order 12291

This proposed rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and John E. Carson, Director, Office of Finance and Management, has determined that this rule is "not major." The rule will not have an annual effect on the economy of $100 million or more, nor is it likely to result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. Because this rule will not affect the business community, it will not result in significant adverse effects on competition employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3507), any reporting and recordkeeping provisions in this proposed rule will be submitted to the Office of Management and Budget (OMB) and would not be effective until OMB has approved them.

Regulatory Analysis

Although this rule may directly affect recipients of Federal assistance awards administered by the Department of Agriculture, it has been determined that this rule will not involve a substantial or major impact on the Nation's economy or large numbers of individuals or businesses. There will be no major increase in costs or prices to consumers, individuals, industries, Federal, State or local government agencies, or geographical regions. Additionally, John E. Carson, Director, Office of Finance and Management has certified that it will not have a significant economic impact on a substantial number of small entities; as defined in the Regulatory Flexibility Act, Pub. L. 96-354 (5 U.S.C. 601).

Background

Section 1472 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3318), confers general authority upon the Secretary of Agriculture to enter into contracts, grants, and cooperative agreements to further research, extension, or teaching Policy Act of 1977, it further authorizes the Secretary to enter into these contracts, grants, and cooperative agreements without competition.

Consequently, section 1472 allows an exception to the provisions of 31 U.S.C. 6301-6308, formerly the Federal Grant and Cooperative Agreement Act of 1977, which encourages competition in making grants and cooperative agreements. However, the Secretary has exercised discretion in this area by issuing policy which restricts an agency's authority to award grants and cooperative agreements without competition. The Secretary's policy provides that competition, to the maximum extent practicable, shall be sought in the award of USDA grants and cooperative agreements. To ensure the benefits of competition, the use of the authority granted by section 1472 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, amended, to enter into grants and cooperative agreements to further research, extension, or teaching programs in the food and agricultural sciences, without regard to any requirements for

competition, shall be limited to those instances where it can be determined that a noncompetitive award is in the best interest of the Government and necessary to the accomplishment of the research, extension, or teaching program. Therefore, USDA discretionary grants and cooperative agreements shall be entered into only after competition unless the awarding official makes a determination in writing that competition is not deemed appropriate for the particular transaction.

Matters on Which Comments Are Invited

Since there are no Governmentwide standards on competition in making grant and cooperative agreement awards, comments and suggestions for the effective implementation of this policy on competition are requested from the public. Specifically, USDA invites comments on:

—The manner in which policy is expressed in this proposed rule.
—Specific policies and areas which should be expanded upon under this proposal.
—Standards to be used in a competitive award process and factors to be considered in determining the appropriateness of competition for particular transactions.
—Whether this policy should apply to all discretionary grants or cooperative agreements or only to those made to further research, extension, or teaching programs in the food and agricultural sciences.

List of Subjects in 7 CFR Part 3015

Grant programs—agriculture, Intergovernmental relations.

Issued at Washington, D.C. April 11, 1985.

John J. Franke, Jr.,
Assistant Secretary for Administration.

John R. Block,
Secretary of Agriculture.

PART 3015—[AMENDED]

Accordingly, USDA proposes to amend Subpart Q of 7 CFR Part 3015 as follows:

1. The authority citation for part 3015 reads as follows:

Authority: 5 U.S.C. 301.

2. A new paragraph (d) is added to § 3015.150 as follows:

Subpart Q—Application for Federal Assistance

§ 3015.150 Scope and applicability.

* * * * *

(d) This subpart also prescribes standards for competition to be used by USDA agencies in awarding discretionary cooperative agreements and grants to further research, extension, or teaching programs in the food and agricultural sciences.

3. A new § 3015.158 is added as follows:

§ 3015.158 Competition for research, extension and teaching programs.

(a) *Standards for competiton.* Except as provided in paragraph (d) of this section, awarding agencies shall enter into grants and cooperative agreements to further research, extension, or teaching programs only after competiton. An awarding agency's competitive award process shall adhere to the following standards:

(1) Potential applicants must be invited to submit proposals through publications such as the **Federal Register**, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance or any other appropriate means of solicitation. In so doing, agencies should consider the widest possible dissemination of project solicitations in order to reach the highest number of potential applicants.

(2) Proposals are to be evaluated objectively by independent reviewers in accordance with written criteria set forth by the awarding agency. Reviewers should make written comments, as appropriate, on each application. Independent reviewers may be from the private sector, another agency, or within the awarding agency, as long as they do not include anyone who has approval authority for the applications being reviewed or anyone who might appear to have a conflict of interest in the role of reviewer of applications. A conflict of interest might arise when the reviewer or the reviewer's immediate family members have been associated with the applicant or applicant organization within the past five years as an owner, partner, officer, director, employee, or consultant; has any financial interest in the applicant or applicant organization; or is negotiating or has any arrangement concerning prospective employment.

(3) Unsolicited applications shall be competed under the project solicitation it comes closest to fitting. When this is not feasible, the application should be submitted to an ad hoc independent review group for evaluation under criteria established by the awarding agency. Ad hoc reviewers will be determined to be independent in accordance with paragraph (a)(2) of this section. If, after evaluation, a noncompetitive award would be appropriate under the criteria of this section, an award may be made without competition. Otherwise, the solicitation should be returned to the applicant.

(b) *Project solicitations.* A project solicitation by the awarding agency shall include or reference the following as appropriate:

(1) A description of the eligible activities which the awarding agency proposes to support and the program priorities;

(2) Eligible applicants;

(3) The dates and amounts of funds expected to be available for awards;

(4) Evaluation criteria and weights, if appropriate, assigned to each;

(5) Methods for evaluating and ranking applications;

(6) Name and address where proposals should be mailed and submission deadline(s);

(7) Any required forms and how to obtain them;

(8) Applicable cost principles and administrative requirements;

(9) Type of funding instrument intended to be used (grant or cooperative agreement); and

(10) The *Catalog of Federal Domestic Assistance* number and title.

(c) *Approval of applications.* The final decision to award is at the discretion of the awarding/approving official in each agency. The awarding/approving official shall consider the ranking, and comments and recommendations from the independent review group, and any other pertinent information before deciding which applications to approve and their order of approval. Any appeals by applicants regarding the award decision should be handled by the grantor in accordance with the grantor's existing appeal procedures or good administrative practice and sound business judgment.

(d) *Exception.* The awarding official may make a determination in writing that competition is not deemed appropriate for the particular transaction. Such determinations shall be limited to transactions where it can be demonstrated that a noncompetitive award is in the best interest of the Government and necessary to the accomplishment of a research, extension, or teaching program. Reasons for considering a noncompetitive award include, but are not necessarily limited to the following:

(1) Nonmonetary awards of property or services;

(2) Awards of less than $50,000;

(3) Awards to fund continuing work already started under a previous award;

(4) Awards which cannot be delayed due to an emergency or a substantial danger to health or safety;

(5) Awards when it is impracticable to secure competition; or

(6) Awards to fund unique and innovative unsoliciated applications.

BILLING CODE 3410-01-M

Food Safety and Inspection Service

9 CFR Parts 318 and 381

[Docket No. 80-009 P]

Accredited Laboratory Program

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the Federal meat and poultry products inspection regulations to establish standards and procedures for the accreditation of non-Federal analytical chemistry laboratories that analyze official meat and poultry samples for (1) specific chemical residues or classes of chemical residues, and (2) moisture, protein, fat and salt content. The Agency anticipates that this action would increase the number of non-Federal analytical laboratories available to perform analyses, and consequently, would result in more timely analyses of official meat and poultry samples. A rule to establish an Accredited Laboratory Program was previously proposed. After consideration of comments submitted on that proposed rule, provisions have been added to the proposal concerning additional compliance procedures, including a probationary period for accredited laboratories out of compliance with the performance requirements of the rule and criteria to suspend or revoke accreditation; additional requirements for reapplying for accreditation; and statistical provisions for evaluating laboratory performance. Since these additions are substantial, the rule is being reproposed for additional comments. Comments are being solicited on the added provisions. Comments already submitted on the first proposal need not be resubmitted and will be addressed in the preamble of the final rule. However, additional comments on any part of this proposal can be submitted and will be considered.

DATES: Comments must be received on or before June 17, 1985.

ADDRESSES: Written comments to Regulations Office, ATTN: Annie Johnson, FSIS Hearing Clerk, Room 2637, South Agriculture building, Washington, DC 20250. Oral comments as provided under the Poultry Products Inspection Act should be directed to Mr. Barth, (202) 447-5850. (See also "Comments" under **SUPPLEMENTARY INFORMATION.**)

FOR FURTHER INFORMATION CONTACT: Mr. H. James Barth, Staff Officer, Chemistry Division, Science Program, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447-5850.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This action has been reviewed under USDA procedures established in Secretary's Memorandum 1512-1 to implement Executive Order 12291. The Food Safety and Inspection Service has determined that this proposed rule is not a "major rule" under the Executive Order. It will not result in an annual effect on the economy of $100 million or more. There will be no major increase in costs or proves for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, nor will there be a significant adverse effect on competition, employment, investment, productivity, small entities, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The publication of this proposed rule should stimulate interest on the part of non-Federal analytical laboratories to participate in a cooperative laboratory program with the Federal Government because of certain advantages to industry. For example, private laboratories could normally supply test results more quickly than FSIS laboratories because of their proximity to plants requiring their services. The decreased turnaround time saves the plants money because they do not have to hold suspect product as long as would be required if FSIS laboratories conducted the testing. Additionally, the Accredited Laboratory Program should save the government money by reducing the number of tests USDA must perform.

Effect on Small Entities

The Administrator, Food Safety and Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities, as defined by the Regulatory Flexibility Act, Pub. L. 96-354 (5 U.S.C. 601). Under the proposal, plants would have more options with regard to required laboratory analyses of product and could exercise the most expedient alternative. The ability to obtain more rapid test results would allow for quicker disposition of held suspect product, to the financial advantage of the plant involved.

Although a number of small plants and private laboratories would be affected by this proposal, there would be no significant economic impact. Participation in the program would be strictly voluntary. The principal effect of the proposal would be to offer cost-saving alternatives for laboratory testing.

Comments

Interested persons are invited to submit written comments concerning this proposal. Comments must be sent in duplicate to the Regulations Office and should bear a reference to the docket number located in the heading of this document. Any person desiring opportunity for an oral presentation of views should make such request to Mr. Barth so that arrangements may be made for the presentation. A transcript shall be made of all comments presented orally. Comments submitted pursuant to this document will be made available for public inspection in the Regulations Office between 9:00 a.m. and 4:00 p.m., Monday through Friday.

Background

In order to assure compliance with departmental regulations promulgated under the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (21 U.S.C. 451 *et seq.*), samples of meat and poultry products are periodically tested to determine protein, moisture, fat, and salt content. Residue analyses are also conducted.

Upon the finding of noncompliance, FSIS is required to take appropriate action against the processor of the noncompliant product. Depending upon the type of product and the severity of the noncompliance, such action may range from product reprocessing to litigation proceedings. Due to the critical nature of such testing, it is necessary for FSIS laboratories to maintain a high degree of integrity.

Prior to 1962, samples were principally analyzed by FSIS laboratories. However, in response to the meat and poultry industry's need for more rapid analytical results on official test samples, the Certified Laboratory Program for non-Federal chemistry laboratories was initiated in that year. In 1971, a "recognized status" for residue analysis was initiated for non-Federal chemistry laboratories when FSIS laboratory capacity was exceeded during a major polychlorinated biphenyl

contamination problem in poultry. Since then, "recognized status" has been extended to additional non-Federal laboratories for testing of other pesticide and drug residues in both meat and poultry and of nitrosamines in meat products.

A processor whose sample is to be analyzed generally has the option of using either an FSIS laboratory or a certified or recognized laboratory. The cost of FSIS analysis is borne by the government, while the cost of non-Federal analysis is borne by the processor. Due to the limited number of FSIS laboratories and their heavy workload, many processors prefer to use the non-Federal laboratories either for convenience of location or to obtain test results more quickly. Some non-Federal laboratories are separate entities while others are located in and owned by official establishments.

In order to become a certified or recognized laboratory, the non-Federal laboratory must meet certain standards required by FSIS. In addition, as alternatives to FSIS laboratories, non-Federal laboratories are expected to maintain the same degree of integrity as required of FSIS laboratories.

On November 7, 1980, the Food Safety and Inspection Service (FSIS), formerly the Food Safety and Quality Service, published a proposed rule in the **Federal Register** (45 FR 73947) to amend the Federal meat and poultry products inspection regulations. The Agency proposed: (1) To establish standards for the analytical chemical procedures to be performed on official meat and poultry samples by non-Federal chemistry laboratories, and (2) to consolidate standards and procedures formerly established under the Certified Laboratory Program and the Recognized Laboratory Program into one program, the Accredited Laboratory Program (ALP). On February 3, 1981, FSIS published a notice (46 FR 10500) reopening the comment period for an additional 30 days. This action was taken at the request of the American Meat Institute.

As a result of the comments received a number of changes have been made to the proposal. The rule is being reproposed primarily because of the addition of three new concepts. These are: statistical provisions concerning allowable differences in analytical results between laboratories; additional compliance procedures, including probation for accredited laboratories out of compliance with the performance requirements of the rule and criteria to suspend or revoke accreditation; and additional requirements for reapplying for accreditation. In addition, six major areas have been reconsidered:

(1) Education and experience requirements for laboratory supervisors;

(2) The time period allowed for check sample analyses and the frequency of check samples;

(3) The requirement that the laboratory provide at the time of application for accreditation, the name of the meat or poultry establishment that will be using its services;

(4) The time-period and requirements for reapplication after the withdrawal of accreditation;

(5) The method of payment for accredited laboratory use; and

(6) Proper identification of chemical residues.

The Proposal

The current proposal, like the earlier one, seeks to amend the Federal meat and poultry products inspection regulations by establishing standards for analytical chemical procedures performed by non-Federal laboratories, and to consolidate standards and procedures established under the Certified Laboratory and Recognized Laboratory Programs. The concepts which have been added since the original proposal was published are described below.

1. Statistical Provisions

A laboratory accredited to perform official food chemistry or chemical residue analysis must provide reliable and consistent analytical services. The following discussion presents the conceptual framework for the development of the statistical procedures for evaluating laboratory performance set forth in this rule. Specific statistical derivations, formulas, and examples are provided in the technical addendum to the rule, which can be obtained from the Regulations Office, FSIS, USDA, Room 2641 South Building, Washington DC, 20250.

a. Laboratory Performance. A laboratory cannot be expected to obtain identical results from the analysis of two homogeneous samples, regardless of its analytical capability. This within-laboratory variability is a function of differing analyst techniques, instrument variability, temperature fluctuation, variation inherent in analytical methods and sample preparation, and other conditions within the laboratory. This same laboratory cannot be expected to duplicate the analytical results obtained from a second laboratory of equivalent analytical capability. The causes of this latter discrepancy are very similar to those mentioned above but are points of differences between laboratories, rather than within a single laboratory. The statistical procedures for evaluating laboratory performance contained in this rule use laboratory comparison data to distinguish between laboratories whose analytical capability falls within acceptable limits and those laboratories whose analytical capability is substandard.

b. Performance Characteristics. The following performance characteristics collectively provide a reliable description of a laboratory's analytical capability: [1]

(i) Systematic Laboratory Difference. A comparison of a laboratory's analytical results with a second laboratory's results from homogeneous samples may show that, on the average, one of the laboratories obtains numerically greater results (or numerically smaller results) than the other. This consistent directional difference is referred to as a laboratory effect, or a systematic laboratory difference.

(ii) Variability. A laboratory experiences random fluctuations in its processes that cause its analytical results to deviate from a true value. This non-systematic laboratory variability reflects the overall level of precision at which the laboratory is performing.

(iii) Pattern of Large Discrepancies. A laboratory may have an acceptable systematic laboratory difference and variability, yet may periodically experience instances of undesirable performance (i.e., isolated results having high variability). Such instances might go undetected with the two characteristics already discussed because these are measuring average performance. Consequently, a "large discrepancy measure" is included in the assessment process to monitor the frequency and magnitude of individual large differences that may occur in the comparison of two laboratories.

Measures of the three characteristics presented above are used to assess the capability of laboratories performing official food chemistry analyses. Measures of the same characteristics are also used in the assessment of laboratories performing chemical residue analyses, but the nature of these analytical procedures requires the additional assessment considerations described below.

(iv) Analytical Recovery. The ability of a laboratory to recover a reasonable fraction of the substance in question is an important performance indicator.

[1] These characteristics replace the concepts of major and minor deviations presented in the original proposal.

Two types of analytical recovery are monitored.

(a) *Quality Control (QC) Recovery:* the comparison of a laboratory's unadjusted analytical value of a quality control standard to the fortification level of the standard. This recovery provides immediate feedback to the analyst indicating whether the analytical process is in control.

(b) *Quality Assurance (QA) Recovery:* the comparison of a laboratory's unadjusted analytical value of a check sample residue to the residue level fortified by a second laboratory that prepared the sample. This recovery provides an assessment of a laboratory's ability to recover an acceptable portion of a chemical residue when the fortification level is unknown to the laboratory.

(v) Proper Identification of Chemical Residues. A laboratory is required to identify every chemical residue in a sample that is detected at a level equal to or greater than the associated minimum reportable level by every FSIS laboratory analyzing the sample. Failure to do so will be considered a misidentification. In addition, reporting the presence of a residue that is not reported by any of the FSIS laboratories analyzing the sample will also be considered a misidentification.

c. Establishing Acceptable Levels of Performance. Standards of performance for the characteristics discussed above have been developed so as to reflect the analytical capabilities observed in laboratories considered to be performing acceptable—FSIS laboratories and laboratories under contract to the Agency. Check sample results obtained through several years of controlled quality assurance programs among these laboratories were used to develop a standard statistical distribution of laboratory comparison data. Acceptable levels of performance are derived from this distribution in accordance with the following Operating Characteristics:

(i) Initial Accreditation. A laboratory performing at or above the minimally acceptable level has at least a 95 percent chance of accreditation. A laboratory performing at a substantially lower level has a correspondingly lower chance of accreditation.

(ii) Maintaining Accreditation. A laboratory performing at only a marginal level has a 50 percent chance of being put on probationary status (see "Definitions") or losing accreditation after at least 30 of its official sample results have been evaluated.[2] A laboratory performing at a substantially higher level has a correspondingly lower chance of being put on probationary status or losing accreditation within the same period, and the converse is true of a laboratory performing at a substantially lower level. Once on probation, the laboratory will be given an opportunity to demonstrate acceptable performance before its accreditation is removed.

d. Evaluation Procedures. Each laboratory that applies for accreditation (hereafter referred to as the "applying laboratory") is required to analyze a set of check sample as identical as possible to samples analyzed by an FSIS laboratory. Standardizing constants are used to transform the observed differences between the laboratories into measures called "standardized differences". This adjustment accounts for differing levels of variability that may be associated with product type, analyte, or level of analyte for food chemistry analytical procedures, and with residue type for chemical residue analytical procedures.

The standardized differences are used to evaluate the applying laboratory's performance capability as follows: [3]

(i) The average of the standardized differences provides an estimate of systematic laboratory's difference.

(ii) The standard deviation of the standardized differences provides an estimate of variability.

(iii) The average of the large discrepancy measures provides an estimate of the severity of periodic occurrences of high variability.

If any one of these estimates exceeds the acceptable level established for that particular performance characteristic, the laboratory's analytical capability is not considered acceptable for granting accreditation. The laboratory will be allowed a second chance to demonstrate acceptable analytical capability through analysis of another set of check samples.

Laboratories applying for accreditation to perform chemical residue analysis must also meet the minimum acceptable levels of quality assurance and quality control recoveries, and must have no residue misidentifications in the set of initial accreditation check samples.

Each laboratory that receives accreditation (hereafter referred to as the "accredited laboratory") will have a percentage of its official samples split and analyzed by an assigned FSIS laboratory.[4] Comparisons of the resulting matched analytical results are used to monitor the ongoing performance of the laboratory. These data will be supplemented by accreditation maintenance check samples supplied periodically by FSIS to each laboratory. (Laboratories accredited to perform food chemistry analysis will receive these check samples only if an insufficient number of split samples are available to evaluate the laboratory.)

This ongoing evaluation of the accredited laboratory involves observing results from the laboratory's analytical processes over time. A laboratory's performance is likely to fluctuate because of random and possibly systematic changes in equipment, analytical procedures, environment, etc. In contrast to applying laboratories which are evaluated through one large set of check samples analyzed in a relatively short period of time (i.e., several days), the data for evaluation of an accredited laboratory's performance are provided through the periodic selection of small numbers of samples over long periods of time. Therefore, although the characteristics used to describe the ongoing performance of an accredited laboratory are the same as in initial accreditation (i.e., systematic laboratory difference, variability, and pattern of large discrepancies), a statistical method sensitive to trends is now required to evaluate performance.

A simple and convenient statistical procedure called cumulative summation, or CUSUM, is able to track the behavior of an accredited laboratory's analytical performance over time. This technique does not directly measure a laboratory's systematic laboratory difference, variability, or pattern of large discrepancies. It is a control procedure designed to "signal", or identify, when a laboratory's performance becomes unacceptable. Charts of CUSUM values can serve as diagnostic indicators to detect trends or high levels of variability occurring in a laboratory.

The four CUSUM procedures described below are used to monitor the ongoing analytical performance of an accredited laboratory. Each CUSUM is based on the standardized differences between the accredited laboratory's

[2] The time period to obtain 30 analytical results for the more active laboratories is expected to be approximately 6 months

[3] An analytical result reported by a laboratory applying for accreditation to perform chemical residue analysis will only be used in the statistical evaluation of the laboratory if the average of the matching results from all FSIS laboratories analyzing the sample indicate that the residue is present at a level equal to or greater than the minimum proficiency level for that residue.

[4] This percentage depends on the volume of official samples analyzed by the accredited laboratory and on the laboratory's performance history.

results and the matching results of the assigned FSIS laboratory on split or check samples.[5]

These CUSUMs collectively provide an overall picture of a laboratory's analytical capability, with no one CUSUM exclusively tracking any single performance characteristic. (In other words, although each CUSUM is oriented to react to trends in one specific evaluation component as indicated by its name, trends in a combination of such components could cause a CUSUM to "signal".)

(i) Positive Systematic Laboratory Difference CUSUM. Monitors how consistently an accredited laboratory gets numerically greater results than an assigned FSIS laboratory.

(ii) Negative Systematic Laboratory Difference CUSUM. Monitors how consistently an accredited laboratory gets numerically smaller results than an assigned FSIS laboratory.

(iii) Variability CUSUM. Monitors the average "total discrepancy" (i.e., the combination of random fluctuations and systematic differences) between an accredited laboratory's results and those of an assigned FSIS laboratory.

(vi) Individual Large Discrepancy CUSUM. Monitors the magnitude and frequency of large differences between the results of an accredited laboratory and those of an assigned FSIS laboratory.

If any one of these CUSUMs reaches a level exceeding that considered acceptable, there is sufficient evidence that the laboratory is not maintaining a level of performance adequate for the reliable analysis of official samples. The laboratory will be either put on probationary status or lose its accreditation, depending on its performance history (see probation section).

Laboratories accredited for the analysis of chemical residues must also maintain the minimum acceptable levels of quality assurance and quality control recoveries, and all proper identification requirements.

e. Quality Control/Quality Assurance procedures. A laboratory that has met the established analytical requirements for accreditation must actively participate in maintaining its acceptable performance. Frequent sample analyses alone are not sufficient to ensure reliable analytical results; the laboratory must continuously monitor and control its own within-laboratory variability. The implementation of a well-organized and systematic quality control plan to provide periodic checks on analyst performance, precision of instrumentation, sample preparation, critical points in standard preparation, recovery levels, and other sources of analytical variability is crucial to the laboratory's ability to maintain an acceptable performance level. Therefore, an accredited laboratory will be required to maintain laboratory quality control records for the three most recent years that samples have been analyzed under the Accredited Laboratory Program. These records will include the determination of all quality control recoveries associated with the analysis of official samples, and must be made available for review upon request by a duly authorized representative of the Secretary.

In addition, FSIS routinely conducts a quality assurance check sample program among its own laboratories and the laboratories with which it contracts. This program is designed to ensure that the level of performance that will be required of applying and accredited laboratories is being met and generally exceeded by those laboratories used as the standards of comparison in the evaluation process.

2. Compliance Provisions

The concept of a probationary status has been added to the original proposal by the Administrator. If a laboratory's results fail to meet the specific statistical requirements defined in this rule, the laboratory will either be (1) put on probationary status if at least one year has passd since the end of a previous probation, or (2) have its accreditation revoked if less than one year has passed since the end of a previous probation. A laboratory in a probationary status will be required to analyze a set of check samples similar to those sent for initial accreditation. If the laboratory's results from the analysis demonstrate acceptable performance, the laboratory will be removed from probationary status and allowed to analyze official samples again. If the analysis is not deemed satisfactory, the laboratory's accreditation will be revoked. During the probationary period a laboratory may not analyze any official samples.

FSIS laboratories have a similar procedure that puts an analyst on probation, rather than the entire laboratory. This practice is because the Federal Meat Inspection Act and the Poultry Products Inspection Act necessitate that Federal laboratories be available to analyze official samples at all times. Consequently, restrictions are placed on individual FSIS analysts, rather than the entire facility. Analysts failing to satisfy ongoing acceptance criteria are restricted from performing official sample analysis and have to requalify on samples similar to initial accreditation check samples.

In addition to the concept of probation, other compliance-related provisions deemed necessary by the Administrator are now included. To maintain accreditation, laboratories must provide any duly authorized representative of the Secretary access during ordinary business hours to the laboratory premises to examine and copy records required by regulation to be maintained.

Criteria for suspension and revocation of accreditation have been added to the original proposal. The accreditation of a laboratory shall be suspended if the operator or owner of the laboratory or any responsibly connected individual or entity is indicated or if charges on an information are brought against the operator or owner, responsibly connected individual or entity concerning any felony or any violation of law based upon acquiring, handling, or distributing of unwholesome, misbranded, or deceptively packaged food, or upon fraud in connection with transactions in food, or based upon a false statement to any governmental entity, or based upon the offering, giving, or receiving of a bribe or unlawful gratuity. The suspension will continue pending the outcome of the criminal charges in any federal district court or State court.

If the operator or owner of the laboratory, or any responsibly connected individual or entity is convicted of any crime in any Federal or State court of any violation of any law, based upon acquiring, handling, or distributing or unwholesome, misbranded or deceptively packaged food, or upon fraud in connection with transaction in food, or based upon a false statement to any governmental entity, or based upon the offering, giving or receiving, of a bribe or unlawful gratuity, accreditation shall be revoked regardless of any appeal of the conviction pending before any court.

The determination and order of the Administrator with respect to any refusal, suspension, or revocation of accreditation shall be final and conclusive.

3. Reapplication Provisions

Another requirement has been added concerning reapplication for

[5] An analytical result reported by a laboratory accredited to perform chemical residue analysis will only be used in the statistical evaluation of the laboratory if the average of the results from all laboratories analyzing the sample indicates that the residue is present at a level equal to or greater than the minimum proficiency level associated with the residue.

accreditation. When reapplying for accreditation, the applicant must forward to the Agency all written documentation concerning the specific corrective efforts that have been made.

As a result of public comments received on the original Accredited Laboratory Program proposal, several elements of the proposed rule have been reconsidered. Since the rule is now being reproposed and is essentially a new proposal, analysis of the comments received on the original proposal and on the present proposal will be reserved for inclusion in the preamble of a final rule, when one is published. The areas reconsidered since publication of the original proposal are as follows:

a. Education and Experience. FSIS recognizes that it is the final responsibility of laboratory management to select and document the competency of their personnel. The Agency also recognizes that the degree of analytical complexity of methods is greater for specific chemical residue analyses than it is for food chemistry analyses, and that experience with specific types of analytical procedures is an important factor in determining the ability of a laboratory or an analyst to provide precise and accurate results. The Agency believes that the requirements as stated in this rule must be consistent with those for FSIS laboratory personnel because accredited laboratories will be analyzing samples in lieu of FSIS laboratories. This may result in the accredited laboratory personnel occasionally being required to submit affidavits or provide testimony on analyses conducted in the laboratory.

In view of this, the Agency has decided to modify this portion of the rule. This requirement has been changed to provide that a laboratory supervisor may have either a bachelor's degree in chemistry, food science, food technology, or a related field. The requirement that the degree be from an ACS approved institution has been dropped. Additionally, for specific chemical residue analysis, the number of years of required experience at or below the part per million level of detection has been reduced to 3 years. FSIS personnel in FSIS laboratories must also meet these requirements.

b. Check Sample Analysis. Reporting Period and Frequency. The time requirement for reporting the results of check sample analyses has been revised from 1 week to 3 weeks. This should allow sufficient time to accommodate scheduling adjustments that might be necessary for equipment failure, fluctuating work-load assignments, etc. In addition, this would still allow the Agency to evaluate the laboratories on a timely basis. In terms of accreditation maintenance, the total number of check samples in a year which will be required cannot be specified for all types of analyses. The requirements differ depending upon the type and difficulties of chemical analysis under consideration and whether accreditation is for specific chemical residues or for moisture, protein, fat and salt.

c. Requirement that the Name of a Meat or Poultry Establishment that Will be Using its Services be Given Prior to Accreditation. Maintaining this requirement would automatically preclude many qualified laboratories, such as State laboratories and those with no contractural relationship with meat and poultry establishments, from participating in the Accredited Laboratory Program. Accordingly, this requirement has been deleted.

d. Time Allowed for Reapplication after Revocation of Accreditation. The rule has been modified by changing the waiting period for reapplication from 1 year to 6 months in most instances. There is also a new requirement that reapplying laboratories must forward to the Agency all written documentation concerning the specific corrective efforts made.

e. Payment for Official Sample Analysis. An establishment's use of an accredited laboratory is voluntary. Any establishment that wishes to avoid payment of fees has available the option of using FSIS laboratories. This service provided by FSIS is necessitated by the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the Federal Poultry Products Inspection Act (21 U.S.C. 451 *et seq.*). The Agency believes the establishment of fees between the laboratory and the client should be mutually agreeable.

f. Identification of Chemical Residues. The proposed rule includes the criterion to require the correct identification of chemical residues. This criterion is now more prominently placed than in the original proposal.

Proposed Rule

Therefore, it is proposed that Parts 318 and 381 (9 CFR Parts 318 and 381) be revised by adding two new §§ 318.20 and 318.153. These new sections would set forth the standards to evaluate laboratory performance, and procedures used to obtain and maintain accreditation. Additionally, the rule would establish criteria for the probation, suspension, or revocation of accreditation, and the requirements for reapplying for accreditation.

List of Subjects

9 CFR Part 318

Accredited laboratory program, Meat inspection, Incorporation by reference., Recordkeeping and reporting requirements.

9 CFR Part 381

Accredited laboratory program, Poultry products inspection, Incorporation by reference, Recordkeeping and reporting requirements.

PART 318—[AMENDED]

1. The authority citation for Part 318 reads as follows:

Authority: 34 Stat. 1260, 81 Stat. 584, as amended (21 U.S.C. 601 *et seq.*); 72 Stat. 862, 92 Stat. 1069, as amended (7 U.S.C. 1901 *et seq.*); 76 Stat. 663 (7 U.S.C. 450 *et seq.*).

2. Section 318.21 is added to read as follows:

§ 318.21 Accreditation of chemistry laboratories.

(a) *Definitions:*

Accredited Laboratory—A non-Federal analytical laboratory that has met the requirements for accreditation specified in this section and hence, at an establishment's discretion, may be used in lieu of an FSIS laboratory for analyzing official regulatory samples. Payment for the analysis of official samples is to be made by the establishment using the accredited laboratory.

Accredited Laboratory Coordinator—The FSIS official responsible for coordinating all activities concerning laboratory accreditation.

AOAC Methods—Methods of chemical analysis accepted by the Association of Official Analytical Chemists (AOAC) and published in the "Official Methods of Analysis of the Association of Official Analytical Chemists." This publication is incorporated by reference and approved by the Director, Office of the Federal Register on _____.[1]

Chemical Residue Misidentification—See "Correct Chemical Residue Indentification" definition.

Coefficient of Variation (CV)—The standard deviation of a distribution of analytical values multipled by 100, and divided by the mean of those values.

Comparison Mean—The average of the results obtained by all accredited

[1] Copies of this publication are on file with the Director, Office of the Federal Register, and may be purchased from the Association of Official Analytical Chemists, 1111 N. 19th Street, Suite 210, Arlington, Virginia 22209.

and FSIS laboratories performing an analysis upon homogeneous samples of material.

Correct Chemical Residue Identification—A laboratory is required to identify correctly every chemical residue in a sample that is detected at a level equal to or greater than the associated minimum reportable level by all FSIS laboratories analyzing the sample. Failure to do so will be considered a misidentification. In addition, reporting the presence of a residue that is not reported by any FSIS laboratory analyzing the sample will also be considered a misidentification.

CUSUM—A class of statistical control procedures that assesses whether or not a process is "in control". Each CUSUM value is constructed by accumulating incremental values obtained from observed results of the process, and then determined to either exceed or fall within acceptable limits for that process. The four CUSUM procedures are:

—Positive Systematic Laboratory Difference CUSUM—monitors how consistently an accredited laboratory gets numerically greater results than an assigned FSIS laboratory.
—Negative Systematic Laboratory Difference CUSUM—monitors how consistently an accredited laboratory gets numerically smaller results than an assigned FSIS laboratory.
—Variability CUSUM—monitors the average "total discrepancy" (i.e., the combination of random fluctuations and systematic differences) between an accredited laboratory's results and those of an assigned FSIS laboratory.
—Individual Large Discrepancy DUSUM—monitors the magnitude and frequency of large differences between the results of an accredited laboratory and those of an assigned FSIS laboratory.

Individual Large Deviation—An analytical result from a non-Federal laboratory that differs from the sample comparison mean by more than would be expected assuming normal laboratory variability.

Initial Accreditation Check Sample—A sample prepared and sent by an FSIS laboratory to a non-Federal laboratory to ascertain if the non-Federal laboratory's analytical capability meets the standards for granting accreditation.

Interlaboratory Accreditation Maintenance Check Sample—A sample prepared and sent by an FSIS laboratory to an accredited laboratory to assist in determining if acceptable levels of analytical capability are being maintained by the accredited laboratory. Laboratories accredited to perform food chemistry analysis will receive a check sample only if an insufficient number of split samples are available to evaluate the laboratory.

Large Deviation Measure—A measure that quantifies an unacceptably large difference between a non-Federal laboratory's analytical result and the sample comparison mean.

Minimum Proficiency Level—The minimum level of a residue at which an analytical result will be used to assess a laboratory's quantification capability. This level is the smallest concentration for which the average CV for reproducibility (i.e., combined within and between laboratory variability) does not exceed 20 percent. (See Table 2.)

Official sample—A sample selected in accordance with FSIS procedures and submitted for regulatory purposes to a designated laboratory.

Probation—The period commencing with official notification to an accredited laboratory that its check or split sample results no longer satisfy the performance requirements specified in this rule, and ending with official notification that accreditation is either fully restored or suspended or removed.

QA (Quality Assurance) Recovery—The ratio of a laboratory's unadjusted analytical value of a check sample residue to the residue level fortified by the FSIS laboratory that prepared the sample, multiplied by 100. (See Table 2.)

QC (Quality Control) Recovery—The ratio of a laboratory's unadjusted analytical value of a quality control standard to the fortification level of the standard, multiplied by 100. (See Table 2.)

Responsibly Connected—Any individual who or entity which is a partner, officer, director, manager, or owner of 10 per centum or more of the voting stock of the applicant or recipient of accreditation or an employee in a managerial or executive capacity or any employee who conducts or supervises the chemical analysis of FSIS official samples.

Split Sample—An official sample divided into duplicate portions, one portion to be analyzed by an accredited laboratory (for official regulatory purposes) and the other portion by an FSIS laboratory (for comparison purposes).

Standardized Difference—

(1) Food Chemistry—A non-Federal laboratory's analytical result minus the matching FSIS laboratory's result from a split or check sample, divided by the appropriate standardizing value. (See Table 1.)

(2) Chemical Residues—A non-Federal laboratory's analytical result minus the comparison mean from a split or check sample, divided by the product of the comparison mean and the appropriate standardizing value. (See Table 2.)

Standardizing Value—A number used to transform the result of a computation to a unitless measure.

Systematic Laboratory Difference—A comparison of one laboratory's results with another laboratory's results on homogenous samples that shows, on the average, a consistent directional difference. A laboratory that is reporting, on the average, numerically greater results than a comparison laboratory has a positive systematic laboratory difference and, conversely, numerically smaller results on the average indicate a negative systematic difference.

Variability—Random fluctuations in a laboratory's processes that cause it analytical results to deviate from a true value.

TABLE 1.—STANDARDIZING VALUES FOR FOOD CHEMISTRY

[By product class and analyte]

Product class	Analyte			
	Moisture	Protein[1]	Fat[1]	Salt
Cured pork	0.90	0.069	0.13	0.18
Canned hams	0.65	0.069	0.16	0.18
Pork sausages	0.65	0.069	0.09	0.18
Ground beef	1.00	0.069	0.15	0.18
Sausages (other than pork)	1.00	0.069	0.12	0.18
Franks	0.65	0.069	0.10	0.18
Bologna	0.90	0.069	0.10	0.18
Salami, etc.[2]	0.65	0.069	0.11	0.18
Other[3]	0.80	0.069	0.11	0.18

[1] To obtain the standardizing value for a sample, the appropriate entry in this column is multiplied by $X^{0.44}$, where X is the comparison mean of the sample.

[2] Product class consists of hard salami, corn beef, and beef tongues.

[3] All products that cannot be classified into one of the previous categories are placed in this class. These include bacon, brisket, and jerky products.

TABLE 2.—MINIMUM PROFICIENCY LEVELS, PERCENT EXPECTED RECOVERIES (QC AND QA), AND STANDARDIZING VALUES FOR CHEMICAL RESIDUES

Class of residues	Minimum proficiency level	Percent expected recovery (QC and QA)	Standardizing value [3]	
			For maintenance check sample computations	For split sample computations
Chlorinated hydrocarbons (ppm):[1]				
Aldrin	0.10	80–110	0.20	0.28
Benzene				
Hexachloride	0.10	80–110	0.20	0.28
Chlordane	0.30	80–110	0.20	0.28
Dieldrin	0.10	80–110	0.20	0.28
DDT	0.15	80–110	0.20	0.28
DDE	0.10	80–110	0.20	0.28
TDE	0.15	80–110	0.20	0.28
Endrin	0.10	80–110	0.20	0.28
Heptachlor	0.10	80–110	0.20	0.28
Heptachlor epoxide	0.10	80–110	0.20	0.28
Lindane	0.10	80–110	0.20	0.28
Methoxychlor	0.50	80–110	0.20	0.28
Toxaphene	1.00	80–110	0.20	0.28
Polychlorinated biphenyls	0.50	75–110	0.20	0.28
Hexachlorobenzene	0.10	80–110	0.20	0.28
Mirex	0.10	80–110	0.20	0.28
Nonachlor	0.15	80–110	0.20	0.28
Polybrominated biphenyls (ppm)[4]	0.15	80–110	0.20	0.28
Arsenic (ppm)[2]	0.20	90–105	0.25	0.35
Sulfa drugs (ppm)[2]	0.08	70–120	0.25	0.35
Ipronidaxole (ppb)[2]	2	60–90	0.20	0.28
Nitrosamine (ppb)[2]	5	70–110	0.25	0.35

[1] Laboratory statistics are computed over all results (excluding PCB results), and for specific chemical residues.
[2] Laboratory statistics are only computed for specific chemical residues.
[3] The standardizing value for all initial accreditation and probationary check sample computations is 0.15

(b) *Laboratories accredited for analysis of protein, moisture, fat, and salt content of meat and meat products.*

(1) *Applying for accreditation.*[2] Application for accreditation shall be made in writing by the owner or operator of the non-Federal analytical laboratory and sent to the Accredited Laboratory Coordinator, Chemistry Division, Science Program, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250. A laboratory whose accreditation has been refused or revoked under the circumstances described in paragraph (d)(1), (d)(2), (g)(1) or (g)(2) of this section may reapply for accreditation no sooner than 6 months after the effective date of that action, and must provide written documentation specifying what corrections were made. The applying laboratory will bear all costs associated with its application process.

(2) *Criteria for obtaining accreditation.* Non-Federal analytical laboratories may be accredited for the analyses of moisture, protein, fat, and salt content of meat and meat food products. Accreditation will be given only if the applying laboratory successfully satisfies the requirements presented below, for all 4 analytes. This accreditation authorizes official FSIS acceptance of the analytical test results provided by these laboratories on official samples. To obtain FSIS accreditation for moisture, protein, fat, and salt analyses, a non-Federal analytical laboratory must:

(i) Be supervised by a person holding, as a minimum, a bachelor's degree in either chemistry, food science, food technology, or a related field and having 1 year's experience in food chemistry, or equivalent qualifications, as determined by the Administrator.

(ii) Demonstrate acceptable levels of systematic laboratory difference, variability, and individual large deviations in the analyses of moisture, protein, fat and salt content using AOAC methods. An applying laboratory will successfully demonstrate these capabilities if its moisture, protein, fat, and salt results from a 36 check sample accreditation study each satisfy the criteria presented below.[3] If the laboratory's analysis of an analyte (or analytes) from the first set of 30 check samples does not meet these criteria for obtaining accreditation, a second set of 36 samples will be provided to the applying laboratory to be analyzed for only those analyte(s) that has unacceptable results initially. If the results of the second set of samples do not meet the criteria, an additional set of accreditation check samples (which must be analyzed for all 4 analytes) will not be provided for at least a 6 month period, commencing from the date on which the analytical results of the second set of samples were postmarked to FSIS.

(A) *Systematic Laboratory Difference:* The absolute value of the average standardized difference must not exceed 0.73 minus the product of 0.17 and the standard deviation of the standardized differences.

(B) *Variability:* The estimated standard deviation of the standardized differences must not exceed 1.15.

(C) *Individual Large Deviations:* One hundred times the average of the large deviation measures of the individual samples must be less than 5.0.[4]

(iii) Allow inspection of the laboratory by FSIS officials prior to the determination of granting accredited status.

(3) *Criteria for maintaining accreditation.* To maintain accreditation for moisture, protein, fat, and salt analyses, a non-Federal analytical laboratory must:

(i) Report analytical results of the moisture, protein, fat, and salt content of official samples, weekly, on designated forms to the Accredited Laboratory Coordinator, Chemistry Division, Science, FSIS.

(ii) Maintain laboratory quality control records for the most recent 3 years that samples have been analyzed under this Program.

(iii) Maintain complete records of the receipt, analysis, and disposition of official samples for the most recent 3 years that samples have been analyzed under this Program.

(iv) Maintain a standards book, which is a permanently bound book with sequentially numbered pages, containing all readings and calculations for standardization of solutions, determination of recoveries, and calibration of instruments. All entries are to be dated and signed within 2 working days by the analyst and his/her supervisor. The standards book is to be retained for a period of 3 years after the last entry is made.

(v) Analyze interlaboratory acceditation maintenance check samples and return the results to FSIS

[2] Laboratories designated by FSIS as "certified" prior to the effective date of this regulation will automatically become accredited laboratories for their current type of analysis without complying with paragraphs (b)(1) and (b)(2) of this section. However, all other requirements of this section shall be applicable to such laboratories. If at a later date, however, the laboratory has its accreditation revoked, it must comply with paragraphs (b)(1) and (b)(2) of this section.

[3] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[4] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5, and a measure equal to $1-(2.5/d)^4$ otherwise.

within 3 weeks of sample receipt. This must be done whenever requested by FSIS and at no cost to FSIS.

(vi) Inform the Accredited Laboratory Coordinator, Chemistry Division, Science, FSIS, by certified or registered mail, within 30 days, when there is any change in the laboratory's ownership, officers, directors, supervisory personnel, or other responsibly connected individual or entity.

(vii) Permit any duly authorized representative of the Secretary to perform both announced and unannounced on-site laboratory reviews of facilities and records during normal business hours.

(viii) Use official AOAC methods [5] on official and check samples.

(ix) Demonstrate that acceptable levels of systematic laboratory difference, variability, and individual large deviations are being maintained in the analyses of moisture, protein, fat, and salt content. An accredited laboratory will successfully demonstrate the maintenance of these capabilities if its moisture, protein, fat, and salt results from split samples and interlaboratory accreditation maintenance check samples each satisfy the criteria presented below.[6]

(A) Systematic Laboratory Difference:

(*1*) Positive systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–P. This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample.

The CUSUM increment is set equal to:

2.0, if the standardized difference is greater than 2.4,

−2.0, if the standardized difference is less than −1.6,

or

the standardized difference minus 0.4, if the standardized difference lies between −1.6 and 2.4, inclusive.

(*ii*) Compute the new CUSUM–P value.

The new CUSUM–P value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–P value. If this computation yields a value smaller than 0, the new CUSUM–P value is set equal to 0. (CUSUM–P values are initialized at zero; that is, the CUSUM–P value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–P value.

The new CUSUM–P value must not exceed 5.2.

(*2*) Negative systematic laboratory difference:

The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–N. This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

−2.0, if the standardized difference is greater than 1.6,

2.0, if the standardized difference is less than −2.4,

or

the standardized difference plus 0.4, if the standardized difference lies between −2.4 and 1.6, inclusive.

(*ii*) Compute the new CUSUM–N value. The new CUSUM–N value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–N value. If this computation yields a value smaller than 0, the new CUSUM–N value is set equal to 0. (CUSUM–N values are initialized at zero; that is, the CUSUM–N value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–N value. The new CUSUM–N value must not exceed 5.2.

(*B*) Variability: The absolute value of the standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–V. This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the larger of −0.4 and the absolute value of the standardized difference minus 0.9. If this computation yields a value larger than 1.6, the increment is set equal to 1.6.

(*2*) Compute the new CUSUM–V value. The new CUSUM–V value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–V value. If this computation yields a value less than 0, the new CUSUM–V is set equal to 0. (CUSUM–V values are initialized at zero; that is, the CUSUM–V value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–V value. The new CUSUM–V value must not exceed 4.3.

(C) Large Deviations: The large deviation measure of the accredited laboratory's result for each split sample or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–D.[4] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the value of the large deviation measure minus 0.025.

(*2*) Compute the new CUSUM–D value. The new CUSUM–D value is obtained by adding algebraically, the CUSUM increment to the last previously computed CUSUM–D value. If this computation yields a values less that 0, the new CUSUM–D value is set equal to 0. (CUSUM–D values are initialized at zero; that is, the CUSUM–D value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–D value. The new CUSUM–D value must not exceed 1.0.

(x) Meet the following requirements if placed on probation pursuant to paragraph (e) of this section:

(A) Send all official samples that have not been analyzed as of the date of written notification of probation to a specified FSIS laboratory by certified mail or private carrier. Mailing expenses will be paid by FSIS.

(B) Analyze a set of check samples similar to those used for initial accreditation, and submit the analytical results to FSIS within 3 weeks of receipt of the samples.

(C) Satisfy criteria described in paragraph (b)(2)(ii) of this section on the above mentioned check samples.

(xi) Expeditiously report analytical results of official samples in accordance with the instructions of the Accredited Laboratory Coordinator. The Federal inspector at any establishment may assign the analysis of official samples to an FSIS laboratory if, in his/her view, there are delays in receiving test results on official samples from an accredited laboratory.

(c) *Laboratories accredited for analysis of a class of chemical residues in meat and meat food products.*—(1)

---

[5] Copies of the "Official Methods of Analysis of the Association of Official Analytical Chemists" are on file with the Director, Office of the Federal Register, and may be purchased from the AOAC, 1111 N. 19th Street, Suite 210, Arlington, VA 22209.

[6] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

Applying for accreditation.[7] Application for accreditation shall be made in writing by the owner or operator of the non-Federal analytical laboratory and sent to the Accreditated Laboratory Coordinator, Chemistry Division, Science, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250. A laboratory whose accreditation has been refused or withdrawn under the circumstances described in paragraph (d)(1), (d)(2), (g)(1) or (g)(2) of this section may reapply for accreditation no sooner than 6 months after the effective date of that action, and must provide written documentation specifying what corrections were made. The applying laboratory will bear all costs associated with its application process.

(2) *Criteria for obtaining accreditation.*—Non-Federal analytical laboratories may be accredited for the analysis of a class of chemical residues in meat and meat food products. Accreditation will be given only if the applying laboratory successfully satisfies the requirements presented below. This accreditation authorizes official FSIS acceptance of the analytical test results provided by these laboratories on official samples. To obtain FSIS accreditation for the analysis of a class of chemical residues, a non-Federal analytical laboratory must:

(i) Be supervised by a person holding, as a minimum, a bachelor's degree in either chemistry, food science, food technology, or a related field and having 3 years' experience determining analytes at or below part per million levels in analytical chemistry, or equivalent qualifications, as determined by the Administrator.

(ii) Demonstrate acceptable levels of systematic laboratory difference, variability, individual large deviations, recoveries, and proper identification in the analysis of the class of chemical residues for which application was made, using FSIS approved procedures. An applying laboratory will successfully demonstrate these capabilities if its analytical results for each specific chemical residue provided in a check sample accreditation study containing a minimum of 14 samples satisfy the criteria presented below.[8] In addition, if the laboratory is requesting accreditation for the analysis of chlorinated hydrocarbons, all analytical results for the residue class must collectively satisfy the criteria. (Conformance to criteria (A), (B), (C), and (D) will only be determined when 6 or more analytical results with associated comparison means at or above the minimum proficiency level are available.) If the results of the first set of samples do not meet these criteria for obtaining accreditation, a second set of at least 14 samples will be provided to the applying laboratory. If the results of the second set of samples do not meet the criteria, an additional set of accreditation check samples will not be provided for a 6 month period, commencing from the date on which the analytical results of the second set of samples were postmarked to FSIS.

(A) *Systematic Laboratory Difference:* The absolute value of the average standardized difference must not exceed 1.67 (2.00 if there are less than 12 analytical results) minus the product of 0.29 and the standard deviation of the standardized differences.

(B) *Variability:*. The standard deviation of the standardized differences must not exceed a computed tolerance. This tolerance is a function of the number of analytical results used in the computation of the standard deviation, and of the amount of variability associated with the results from the participating FSIS laboratories.

(C) *Individual Large Deviations.* One hundred times the average of the large deviation measures of the individual analytical results must be less than 5.0.[9]

(D) *QA Recovery:* The average of the QA recoveries of the individual analytical results must lie within the range given in Table 2 under the column entitled "Percent Expected Recovery."

(E) *QC Recovery:* All QC recoveries must lie within the range given in Table 2 under "Percent Expected Recovery." Supporting documentation must be made available to FSIS upon request.

(F) *Correct Identification:* There must be correct identification of all chemical residues in all samples.

(iii) Allow inspection of the laboratory by FSIS officials prior to the determination of granting accredited status.

(3) *Criteria for maintaining accreditation.* To maintain accreditation for analysis of a class of chemical residues, a non-Federal analytical labortory must:

(i) Report analytical chemical residue results from official samples, weekly, on designated forms to the Accredited Laboratory Coordinator, Chemistry Division, Science, FSIS.

(ii) Maintain laboratory quality control records for the most recent 3 years that samples have been analyzed under this Program.

(iii) Maintain complete records of the receipt, analysis, and disposition of official samples for the most recent 3 years that samples have been analyzed under the Program.

(iv) Maintain a standards book, which is a permanently bound book with sequentially numbered pages, containing all readings and calculations for standardization of solutions, determination of recoveries, and calibration of instruments. All entries are to be dated and signed within 2 working days by the analyst and his/her supervisor. The standards book is to be retained for a period of 3 years after the last entry is made.

(v) Analyze interlaboratory accreditation maintenance check samples and return the results to FSIS within 3 weeks of sample receipt. This must be done whenever requested by FSIS and at no cost to FSIS.

(vi) Inform the Accredited Laboratory Coordinator, Chemistry Division, Science Program, FSIS, by certified or registered mail, within 30 days when there is any change in the laboratory's ownership, officers, directors, supervisory personnel, or any other responsibly connected individual or entity.

(vii) Permit any duly authorized representative of the Secretary to perform both announced and unannounced on-site laboratory reviews of facilities and records during normal business hours.

(viii) Use analytical procedures designated and approved by FSIS.

(ix) Demonstrate that acceptable levels of systematic laboratory difference, variability, and individual large deviations are being maintained in the analysis of official samples, in the chemical residue class for which accreditation was granted. A laboratory will successfully demonstrate the maintenance of these capabilities if its analytical results for each specific chemical residue found in split samples satisfy the criteria presented

---

[7] Laboratories designated by FSIS as "recognized" prior to the effective date of this regulation will automatically become accredited laboratories for their current type of analysis without complying with paragraphs (c)(1) and (c)(2) of this section. However, all other requirements of this section shall be applicable to such laboratories. If at a later date, however, the laboratory has its accreditation revoked, it must comply with paragraphs (c)(1) and (c)(2) of this section.

[8] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[9] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5 and a measure equal $1-(2.5/d)^4$ otherwise.

below.[10] [11] In addition, if the laboratory is accredited for the analysis of chlorinated hydrocarbons, all analytical results for the residue class must collectively satisfy the criteria.

(A) *Systematic Laboratory Difference:*

(*1*) Positive systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample is used to determine a CUSUM value, designated as CUSUM–P.[12] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

2.0, if the standardized difference is greater than 2.5,
−2.0, if the standardized difference is less than −1.5,

or

the standardized difference minus 0.5, if the standardized difference lies between −1.5 and 2.5, inclusive.

(*ii*) Compute the new CUSUM–P value. The new CUSUM–P value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–P value. If this computation yields a value smaller than 0, the new CUSUM–P value is set equal to 0. [CUSUM–P values are initialized at zero; that is, the CUSUM–P value associated with the first sample is set equal to the CUSUM increment for that sample.]

(*iii*) Evaluate the new CUSUM–P value. The new CUSUM–P value must not exceed 4.8.

(*2*) Negative systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample is used to determine a CUSUM value, designated as CUSUM–N.[13] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

−2.0, if the standardized difference is greater than 1.5,
2.0, if the standardized difference is less than −2.5,

or

the standardized difference plus 0.5 , if the standardized difference lies between −2.5 and 1.5, inclusive.

(*ii*) Compute the new CUSUM–N value. The new CUSUM–N value is obtained by adding, algebraically, the CUMSUM increment to the last previously computed CUSUM–N value. If this computation yields a value smaller than 0, the new CUSUM–N value is set equal to 0. (CUSUM–N values are initialized at zero; that is, the CUSUM–N value associated with the first sample is set equal to the CUSUM increment for that sample).

(*iii*) Evaluate the new CUSUM–N value. The new CUSUM–N value must not exceed 4.8.

(B) Variability: The absolute value of the standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample is used to determine a CUSUM value, designated as CUSUM–V.[14] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the larger of −0.4 and the absolute value of the standardized difference minus 0.9. If this computation yields a value larger than 1.6, the increment is set equal to 1.6.

(*2*) Compute the new CUSUM–V value.The new CUSUM–V value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–V value. If this computation yields a value less than 0, the new CUSUM–V value is set equal to 0. (CUSUM–V values are initialized at zero; that is, the CUSUM–V value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–V value. The new CUSUM–V value must not exceed 4.3.

(C) Large Deviations: The large deviation measure of the accredited laboratory's result for each split sample is used to determine a CUSUM value, designated as CUSUM–D.[15] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the large deviation measure minus 0.025.

(*2*) Compute the new CUSUM–D value. The new CUSUM–D is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–D value. If this computation yields a value less than 0, the new CUSUM–D value is set equal to 0. (CUSUM–D values are initialized at zero; that is, the CUSUM–D value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–D value. The new CUSUM–D value must not exceed 1.0.

(x) Meet the following requirements if placed on probation pursuant to paragraph (e) of this section:

(A) Send all official samples that have not been analyzed as of the date of written notification of probation to a specified FSIS laboratory by certified mail or private carrier. Mailing expenses will be paid by FSIS.

(B) Analyze a set of check samples similar to those used for initial accreditation, and submit analytical results to FSIS within 3 weeks of receipt of the samples.

(C) Satisfy criteria described in paragraph (c)(2)(ii) of this section on the above mentioned check samples.

(xi) Expeditiously report analytical results of official samples in accordance with the instructions of the Accredited Laboratory Coordinator. The Federal inspector at any establishment may assign the analysis of official samples to an FSIS laboratory if, in his/her view, there are delays in receiving test results on official samples from an accredited laboratory.

(xii) Every QC recovery associated with reporting of official samples must be within the appropriate range given in Table 2 under "Percent Expected Recovery." Supporting documentation must be made available to FSIS upon request.

(xiii) Demonstrate that acceptable levels of systematic laboratory difference, variability, individual large deviations, recoveries, and proper

---

[10] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[11] An analytical result will only be used in the statistical evaluation of the laboratory if the associated comparison mean is equal to or greater than the minimum proficiency level for the residue.

[12] When determining compliance with this criterion for all chlorinated hydrocarbon results in a sample collectively, the following statistical procedure must be followed to account for the correlation of analytical results within a sample: The average of the standardized differences of the analytical results within the sample, divided by a constant, is used in place of a single standardized difference to determine the CUSUM–P (or CUSUM–N) value for the sample. The constant is a function of the number of analytical results used to compute the average standardized difference.

[13] See footnote 12.

[14] When determining compliance with this criterion for all chlorinated hydrocarbon results in a sample collectively, the following statistical procedure must be followed to account for the correlation of analytical results within a sample: The square root of the sum of the within sample variance and the average standardized difference of the sample, divided by a constant, is used in place of the absolute value of the standardized difference to determine the CUSUM–V value for the sample. The constant is a function of the number of analytical results used to compute the average standardized difference.

[15] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5, and a measure equal to $1-(2.5/d)^4$ otherwise.

identification are being maintained in the analysis of interlaboratory accreditation maintenance check samples, in the chemical residue class for which accreditation was granted. A laboratory will successfully demonstrate the maintenance of these capabilities if its analytical results for each specific chemical residue found in interlaboratory accreditation maintenance check samples satisfy the criteria presented below. In addition, if the laboratory is accredited for the analysis of chlorinated hydrocarbons, all analytical results for the residue class must collectively satisfy the criteria.

(A) *Systematic Laboratory Difference.*

(*1*) Positive systematic laboratory difference: The standardized difference between the accredited laboratory's result and the comparison mean for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–P.[16] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

2.0, if the standardized difference is greater than 2.5,

−2.0, if the standardized difference is greater than −1.5,

or

the standardized difference minus 0.5, if the standardized difference lies between −1.5 and 2.5, inclusive.

(*ii*) Compute the new CUSUM–P value. The new CUSUM–P value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–P value. If this computation yields a value small than 0, the new CUSUM–P value is set equal to 0. (CUSUM–P values are initialized at zero; that is, the CUSUM–P value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–P value. The new CUSUM–P value must not exceed 4.8.

(*2*) Negative systematic laboratory difference: The standardized difference between the accredited laboratory's result and the comparison mean for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–N.[17] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

−2.0, if the standardized difference is greater than 1.5,

2.0, if the standardized difference is less than −2.5,

or

the standardized difference plus 0.5, if the standardized difference lies between −2.5 and 1.5, inclusive.

(*ii*) Compute the new CUSUM–N value. The new CUSUM–N value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–N value. If this computation yields a value smaller than 0, the new CUSUM–N value is set equal to 0. (CUSUM–N values are initialized at zero; that is, the CUSUM–N value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–N value. The new CUSUM–N value must not exceed 4.8.

(B) Variability: The absolute value of the standardized difference between the accredited laboratory's result and the comparison mean for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–V.[18] This value is computed and evaluated as follows:

(1) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the larger of −0.4 and the absolute value of the standardized difference minus 0.9. If this computation yields a value larger than 1.6, the increment is set equal to 1.6.

(2) Compute the new CUSUM–V value. The new CUSUM–V value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–V value. If this computation yields a value less than 0, the new CUSUM–V value is set equal to 0. (CUSUM–V values are initialized at zero; that is, the CUSUM–V value associated with the first sample is set equal to the CUSUM increment for that sample.)

(3) Evaluate the new CUSUM–V value. The new CUSUM–V value must not exceed 4.3.

(C) Large Deviations: The large deviation measure of the accredited laboratory's result for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–D.[19] This value is computed and evaluated as follows:

(1) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the value of the large deviation measure minus 0.025.

(*2*) Compute the new CUSUM–D value. The new CUSUM–D is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–D value. If this computation yields a value less than 0, the new CUSUM–D value is set equal to 0. (CUSUM–D values are initialized at zero; that is, the CUSUM–D value associated with the first sample is set equal to the CUSUM increment for that sample.)

(3) Evaluate the new CUSUM–D value. The new CUSUM–D value must not exceed 1.0.

(D) Each QC Recovery is within the range given in Table 2 under "Percent Expected Recovery". Supporting documentation must be made available to FSIS upon request.

(E) Not more than 1 residue misidentification in any 2 consecutive check samples.

(F) Not more than 2 residue misidentifications in any 8 consecutive check samples.

(d) *Refusal of accreditation.* Upon a determination by the Administrator, a laboratory shall be refused accreditation for the following reasons:

(1) A laboratory shall be refused accreditation for moisture, protein, fat, and salt analysis for failure to meet the requirements of paragraph (b)(1) or (b)(2) of this section.

(2) A laboratory shall be refused accreditation for chemical residue analysis for failure to meet the requirements of paragraph (c)(1) or (c)(2) of this section.

(3) A laboratory shall be refused subsequent accreditation for failure to return to an FSIS laboratory, by certified mail or private carrier, all official samples which have not been analyzed as of the notification of a loss of accreditation.

(4) A laboratory shall be refused accreditation if the applicant or any individual or entity responsibly connected with the applicant has been convicted of or is under indictment or if charges on an information have been brought against the applicant or responsibly connected individual or entity in any Federal or State court

[16] *See* footnote 12.

[17] *See* footnote 12.

[18] *See* Footnote 14.

[19] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5, and a measure equal to $1-(2.5/d)^4$ otherwise.

concerning the following violations of law:

(i) Any felony.

(ii) Any misdemeanor based upon acquiring, handling, or distributing of unwholesome, misbranded, or deceptively packaged food or upon fraud in connection with transactions in food.

(iii) Any misdemeanor based upon a false statement to any governmental agency.

(iv) Any misdemeanor based upon the offering, giving or receiving of a bribe or unlawful gratuity.

(e) *Probation of accreditation.* Upon a determination by the Administrator, a laboratory shall be placed on probation for the following reasons:

(1) If the laboratory fails to complete more than one interlaboratory accreditation maintenance check sample analysis within 12 consecutive months as required by paragraphs (b)(3)(v) and (c)(3)(v) of this section.

(2) If the laboratory fails to meet any of the criteria set forth in paragraphs (b)(3)(v) and (b)(3)(ix) and (c)(3)(v) and (c)(3)(ix) of this section.

(f) *Suspension of Accreditation.* The accreditation of a laboratory shall be suspended if the laboratory or any individual or entity responsibly connected with the laboratory is indicted or if charges on an information have been brought against the laboratory or responsibly connected individual or entity in any Federal or State court concerning any of the following violations of law:

(1) Any felony.

(2) Any misdemeanor based upon acquiring, handling or distributing of unwholesome, misbranded, or deceptively packaged food or upon fraud in connection with transactions in food.

(3) Any misdemeanor based upon a false statement to any governmental agency.

(4) Any misdemeanor based upon the offering, giving or receiving of a bribe or unlawful gratuity.

(g) *Revocation of Accreditation.* The accreditation of a laboratory shall be revoked for the following reasons:

(1) An accredited laboratory which is only acredited to perform analysis under paragraph (b) of this section shall have its acreditation revoked for failure to meet any of the requirements of paragraph (b)(3). IF the recipient laboratory fails to meet any of the criteria set forth in paragraphs (b)(3)(v) and (b)(3)(ix), and if more than one year has passed since the end of any previous probationary period, the accredited laboratory will be placed on probation in lieu of having its accreditation revoked.

(2) An accredited laboratory which is only accredited to perform analysis under paragraph (c) of this section shall have its accreditation revoked for failure to meet the requirements of paragraph (c)(3) of this section. If the recipient laboratory fails to meet any of the criteria set forth in paragaphs (c)(3)(v), (c)(3)(ix), and (c)(3)(xiii) of this section, and if more than one year has passed since the end of any previous probationary period, the laboratory will be placed on probation in lieu of having its accreditation revoked.

(3) An accredited laboratory shall have its accreditation revoked if the Administrator determines that the laboratory or any responsibly connected individual or any agent or employee has:

(i) Altered any official sample or analytical finding, or,

(ii) Substituted an analytical result from a non-accredited laboratory for its own.

(4) An accredited laboratory shall have its accreditation revoked if the laboratory or any individual or entity responsibly connected with the laboratory is convicted in a Federal or State court of any of the following violations of law:

(i) Any felony.

(ii) Any misdemeanor based upon acquiring, handling, or distributing of unwholesome, misbranded, or deceptively packaged food or upon fraud in connection with transactions in food.

(iii) Any misdemeanor based upon a false statement to any governmental agency.

(iv) Any misdemeanor based upon the offering, giving or receiving of a bribe or unlawful gratuity.

unwholesome, mislabeled, or deceptively packaged food or upon fraud in connection with transactions in food or based upon a false statement to any governmental entity.

(h) *Notification and Hearings.* Accreditation of any laboratory shall be refused, suspended, or revoked under the conditions previously described herein. The owner or operator of the laboratory shall be sent written notice of the refusal, suspension, or revocation of accreditation by the Administrator. In such cases, the laboratory owner or operator will be provided an opportunity to present, withn 30 days of the date of the notification, a statement challenging the merits or validity of such action and to request an oral hearing with respect to the denial, suspension, or revocation decision. An oral hearing shall be granted if there is any dispute of material fact joined in such responsive statement. The proceeding shall thereafter be conducted in accordance with the applicable rules of practice which shall be adopted for the proceeding. Any such refusal, suspension, or revocation shall be effective upon the notification and shall continue in effect until final determination of the matter by the Administrator.

[Recordkeeping requirements under this section approved by the Office of Management and Budget under OMB control numbers (0583-0015)

PART 381—[AMENDED]

3. The authority citation for Part 381 reads as follows:

Authority: 34 Stat. 1260, 79 Stat. 903, as amended, 81 Stat. 584, 84 Stat. 91, 21 U.S.C. 71 *et seq.*, 601 *et seq.*

4. Section 381.153 is added to read as follows:

§ 318.153 Accreditation of Chemistry Laboratories.

(a) *Definitions:*

Accredited Laboratory—A non-Federal analytical laboratory that has met the requirements for accreditation specified in this section and hence, at an establishment's discretion, may be used in lieu of an FSIS laboratory for analyzing official regulatory samples. Payment for the analysis of official samples is to be made by the establishment using the accredited Laboratory.

*Accredited Laboratory Coordinator.*The FSIS official responsible for coordinating all activities concerning laboratory accreditation.

AOAC Methods—Methods of chemical analysis accepted by the Association of Official Analytical Chemists (AOAC) and published in the "Official Methods of Analysis of the Association of Official Analytical Chemists." This publication is incorporated by reference and approved by the Director, Office of the Federal Register on _____.[7]

Chemical Residue Misidentification—See "Correct Chemical Residue Indentification" definition.

Coefficient of Variation (CV)—The standard deviation of a distribution of analytical values multipled by 100, and divided by the mean of those values.

---

[7]Copies of this publication are on file with the Director, Office of the Federal Register, and may be purchased from the Association of Official Analytical Chemists, 1111 N. 19th Street, Suite 210, Arlington, Virginia.

Comparison Mean—The average of the results obtained by all accredited and FSIS laboratories performing an analysis upon homogeneous samples of material.

Correct Chemical Residue Identification—A laboratory is required to identify correctly every chemical residue in a sample that is detected at a level equal to or greater than the associated minimum reportable level by all FSIS laboratories analyzing the sample. Failure to do so will be considered a misidentification. In addition, reporting the presence of a residue that is not reported by any FSIS laboratory analyzing the sample will also be considered a misidentification.

CUSUM—A class of statistical control procedures that assesses whether or not a process is "in control". Each CUSUM value is constructed by accumulating incremental values obtained from observed results of the process, and then determined to either exceed or fall within acceptable limits for that process. The four CUSUM procedures are:

—Postive Systematic Laboratory Difference, CUSUM—monitors how consistently an accredited laboratory gets numerically greater results than an assigned FSIS laboratory.

—Negative Systematic Laboratory Difference CUSUM—monitors how consistently an accredited laboratory gets numerically smaller results than an assigned FSIS laboratory.

—Variability CUSUM—monitors the average "total discrepancy" (i.e., the combination of random fluctuations and systematic differences) between an accredited laboratory's results and those of an assigned FSIS laboratory.

—Individual Large Discrepancy CUSUM—monitors the magnitude and frequency of large differences between the results of an accredited laboratory and those of an assigned FISI laboratory.

Individual Large Deviation—An analytical result from a non-Federal laboratory that differs from the sample comparison mean by more than would be expected assuming normal laboratory variability.

Initial Accreditation Check Sample—A sample prepared and sent by an FSIS laboratory to a non-Federal laboratory to ascertain if the non-Federal laboratory's analytical capability meets the standards for granting accreditation.

Interlaboratory Accreditation Maintenance Check Sample—A sample prepared and sent by an FSIS laboratory to an accredited laboratory to assist in determining if acceptable levels of analytical capability are being maintained by the accredited laboratory. Laboratories accredited to perform food chemistry analysis will receive a check sample only if an insufficient number of split samples are available to evaluate the laboratory.

Large Deviation Measure—A measure that quantifies an unacceptably large difference between a non-Federal laboratory's analytical result and the sample comparison mean.

Minimum Proficiency Level—The minimum level of a residue at which an analytical result will be used to assess a laboratory's quantification capability. This level is the smallest concentration for which the average CV for reproducibility (i.e., combined within and between laboratory variability) does not exceed 20 percent. (See Table 2.)

Official sample—A sample selected in accordance with FSIS procedures and submitted for regulatory purposes to a designated laboratory.

Probation—The period commencing with official notification to an accredited laboratory that its check or split sample results no longer satisfy the performance requirements specified in this rule, and ending with official notification that accreditation is either fully restored or removed.

QA (Quality Assurance) Recovery—The ratio of a laboratory's unadjusted analytical value of a check sample residue to the residue level fortified by the FSIS laboratory that prepared the sample, multiplied by 100. (See Table 2.)

QC (Quality Control) Recovery—The ratio of a laboratory's unadjusted analytical value of a quality control standard to the fortification level of the standard, multiplied by 100. (See Table 2.)

Responsibly Connected—Any individual who or entity which is a partner, officer, director, manager, or owner of 10 per centum or more of the voting stock of the applicant or recipient of accreditation or an employee in a managerial or executive capacity or any employee who conducts or supervises the chemical analysis of FSIS official samples.

Split Sample—An official sample divided into duplicate portions, one portion to be analyzed by an accredited laboratory (for official regulatory purposes) and the other portion by an FSIS laboratory (for comparison purposes).

Standardized Difference—(1) Food Chemistry—A non-Federal laboratory's analytical result minus the matching FSIS laboratory's result from a split or check sample, divided by the appropriate standardizing value. (See Table 1.)

(2) Chemical Residues—A non-Federal laboratory's analytical result minus the comparison mean from a split or check sample, divided by the product of the comparison mean and the appropriate standardizing value. (See Table 2.)

Standardizing Value—A number used to transform the result of a computation to a unitless measure.

Systematic Laboratory Difference—A comparison of one laboratory's analytical results with another laboratory's results on homogeneous samples that shows, on the average, a consistent directional difference. A laboratory that is reporting, on the average, numerically greater results than a comparison laboratory has a positive systematic laboratory difference and, conversely, numerically smaller results on the average indicate a negative systematic difference.

Variability—Random fluctuations in a laboratory's processes that cause its analytical results to deviate from a true value.

TABLE 1.—STANDARDIZING VALUES FOR FOOD CHEMISTRY

Analtye			
Moisture	Protein [1]	Fat [1]	Salt
0.80	0.069	0.12	0.18

[1] To obtain the standardizing value for a sample, the appropriate entry in this column is multiplied by $X^{0.85}$, where X is the comparison mean of the sample

TABLE 2.—MINIMUM PROFICIENCY LEVELS, PERCENT EXPECTED RECOVERIES (QC AND QA), AND STANDARDIZING VALUES FOR CHEMICAL RESIDUES

Class of residues	Minimum proficiency level	Percent expected recovery (QC and QA)	Standardizing value [1]	
			For maintenance check sample computations	For split sample computations
Chlorinated hydrocarbons (ppm) [1]				
Aldrin	0.10	80–110	0.20	0.28
Benzene				
Hexachlonde	0.10	80–110	0.20	0.28
Chlordane	0.30	80–110	0.20	0.28

DDT	0.15	80–110	0.20	0.28
DDE	0.10	80–110	0.20	0.28
TDE	0.15	80–110	0.20	0.28
Endnn	0.10	80–110	0.20	0.28

TABLE 2.—MINIMUM PROFICIENCY LEVELS, PERCENT EXPECTED RECOVERIES (QC AND QA), AND STANDARDIZING VALUES FOR CHEMICAL RESIDUES—Continued

Class of residues	Minimum proficiency level	Percent expected recovery (QC and QA)	Standardizing value [3]	
			For maintenance check sample computations	For split sample computations
Heptachlor	0.10	80–110	0.20	0.28
Heptachlor epoxide	0.10	80–110	0.20	0.28
Lindane	0.10	80–110	0.20	0.28
Methoxychlor	0.50	80–110	0.20	0.28
Toxaphene	1.00	80–110	0.20	0.28
Polychlorinated biphenyls	0.50	75–110	0.20	0.28
Hexachlorobenzene	0.10	80–110	0.20	0.28
Mirex	0.10	80–110	0.20	0.28
Nonachlor	0.15	80–110	0.20	0.28
Polybrominated biphenyls (ppm) [2]	0.15	80–110	0.20	0.28
Arsenic (ppm) [2]	0.20	90–105	0.25	0.35
Sulfa drugs (ppm) [2]	0.08	70–120	0.25	0.35
Ipronidazole (ppb) [2]	2	60–90	0.20	0.28
Nitrosamine (ppb) [2]	5	70–110	0.25	0.35

[1] Laboratory statistics are computed over all results (excluding PCB results), and for specific chemical residues.
[2] Laboratory statistics are only computed for specific chemical residues.
[3] The standardizing value for all initial accreditation and probationary check sample computations is 0.15.

(b) *Laboratories accredited for analysis of protein, moisture, fat, and salt content of meat and meat products.*—(1) *Applying for accreditation.*[2] Application for accreditation shall be made in writing by the owner or operator of the non-Federal analytical laboratory and sent to the Accredited Laboratory Coordinator, Chemistry Division, Science Program, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250. A laboratory whose accreditation has been refused or revoked under the circumstances described in paragraphs (d)(1), (d)(2), (g)(1) or (g)(2) of this section may reapply for accreditation no sooner than 6 months after the effective date of that action, and must provide written documentation specifying what corrections were made. The applying laboratory will bear all costs associated with its application process.

(2) *Criteria for obtaining accreditation.* Non-Federal analytical laboratories may be accredited for the analyses of moisture, protein, fat, and salt content of poultry and poultry products. Accreditation will be given only if the applying laboratory successfully satisfies the requirements presented below, for all 4 analytes. This accreditation authorizes official FSIS acceptance of the analytical test results provided by these laboratories on official samples. To obtain FSIS accreditation for moisture, protein, fat, and salt analyses, a non-Federal analytical laboratory must:

(i) Be supervised by a person holding, as a minimum, a bachelor's degree in either chemistry, food science, food technology, or a related field and having 1 year's experience in food chemistry, or equivalent qualifications, as determined by the Administrator.

(ii) Demonstrate acceptable levels of systematic laboratory difference, variability, and individual large deviations in the analyses of moisture, protein, fat and salt content using AOAC methods. An applying laboratory will successfully demonstrate these capabilities if its moisture, protein, fat, and salt results from a 36 check sample accreditation study each satisfy the criteria presented below.[3] If the laboratory's analysis of an analyte (or analytes) from the first set of 36 check samples does not meet these criteria for obtaining accreditation, a second set of 36 samples will be provided to the applying laboratory to be analyzed for only those analyte(s) that had unacceptable results initially. If the results of the second set of samples do not meet the criteria, an additional set of accreditation check samples (which must be analyzed for all 4 analytes) will not be provided for at least a 6 month period, commencing from the date on which the analytical results of the second set of samples were postmarked to FSIS.

(A) Systematic Laboratory Difference: The absolute value of the average standardized difference must not exceed 0.73 minus the product of 0.17 and the standard deviation of the standardized differences.

(B) Variability: The estimated standard deviation of the standardized differences must not exceed 1.15.

(C) Individual Large Deviations: One hundred times the average of the large deviation measures of the individual samples must be less than 5.0.[4]

(iii) Allow inspection of the laboratory by FSIS officials prior to the determination of granting accredited status.

(3) *Criteria for maintaining accreditation.* To maintain accreditation for moisture, protein, fat, and salt analyses, a non-Federal analytical laboratory must:

(i) Report analytical results of the moisture, protein, fat, and salt content of official samples, weekly, on designated forms to the Accredited Laboratory Coordinator, Chemistry Division, Science, FSIS.

(ii) Maintain laboratory quality control records for the most recent 3 years that samples have been analyzed under this Program.

(iii) Maintain complete records of the receipt, analysis, and disposition of official samples for the most recent 3 years that samples have been analyzed under this Program.

(iv) Maintain a standard book, which is a permanently bound book with sequentially numbered pages, containing all readings and calculations for standardization of solutions, determination of recoveries, and calibration of instruments. All entries are to be dated and signed within 2 working days by the analyst and his/her supervisor. The standards book is to be retained for a period of 3 years after the last entry is made.

(v) Analyze interlaboratory accreditation maintenance check samples and return the results to FSIS within 3 weeks of sample receipt. This must be done whenever requested by FSIS and at no cost to FSIS.

(vi) Inform the Accredited Laboratory Coordinator, Chemistry Division, Science, FSIS, by certified or registered mail, within 30 days when there is any change in the laboratory's ownership, officers, directors, supervisory personnel, or other responsibly connected individual or entity.

(vii) Permit any duly authorized representative of the Secretary to

[2] Laboratories designated by FSIS as "certified" prior to the effective date of this regulation will automatically become accredited laboratories for their current type of analysis without complying with paragraphs (b)(1) and (b)(2) of this section. However, all other requirements of this section shall be applicable to such laboratories. If at a later date, however, the laboratory has its accreditation revoked, it must comply with paragraphs (b)(1) and (b)(2) of this section.

[3] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[4] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5, and a measure equal to $1-(2.5/d)^4$ otherwise.

perform both announced and unannounced on-site laboratory reviews of facilities and records during normal business hours.

(viii) Use official AOAC methods [5] on official and check samples.

(ix) Demonstrate that acceptable levels of systematic laboratory difference, variability, and individual large deviations are being maintained in the analyses of moisture, protein, fat, and salt content. An accredited laboratory will successfully demonstrate the maintenance of these capabilities if its moisture, protein, fat, and salt results from split samples and interlaboratory accreditation maintenance check samples each satisfy the criteria presented below.[6]

(A) Systematic Laboratory Difference:

(*1*) Positive systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–P. This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

2.0, if the standardized difference is greater than 2.4,

−2.0, if the standardized difference is less than −1.6,

or

the standardized difference minus 0.4, if the standardized difference lies between −1.6 and 2.4, inclusive.

(*ii*) Compute the new CUSUM–P value. The new CUSUP–P value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–P value. If this computation yields a value smaller than 0, the new CUSUM–P value is set equal to 0. (CUSUM–P values are initialized at zero; that is, the CUSUM–P value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–P value. The new CUSUM–P value must not exceed 5.2.

(*2*) Negative systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–N. This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

−2.0, if the standardized difference is greater than 1.6,

2.0, if the standardized difference is less than −2.4,

or

the standardized difference plus 0.4, if the standardized difference lies between −2.4 and 1.6, inclusive.

(*ii*) Compute the new CUSUM–N value. The new CUSUM–N value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–N value. If this computation yields a value smaller than 0, the new CUSUM–N value is set equal to 0. (CUSUM–N values are initialized at zero; that is, the CUSUM–N value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–N value. The new CUSUM–N value must not exceed 5.2.

(*B*) Variability: The absolute value of the standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–V. This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the larger of −0.4 and the absolute value of the standardized difference minus 0.9. If this computation yields a value larger than 1.6, the increment is set equal to 1.6.

(*2*) Compute the new CUSUM–V value. The new CUSUM–V value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–V value. If this computation yields a value less than 0, the new CUSUM–V value is set equal to 0. (CUSUM–V values are initialized at zero; that is, the CUSUM–V value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–V value. The new CUSUM–V value must not exceed 4.3.

(*C*) Large Deviations: The large deviation measure of the accredited laboratory's result for each split sample or interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–D.[6] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the value of the large deviation measure minus 0.025.

(*2*) Compute the new CUSUM–D value. The new CUSUM–D value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–D value. If this computation yields a value less that 0, the new CUSUM–D value is set equal to 0. (CUSUM–D values are initialized at zero; that is, the CUSUM–D value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–D value. The new CUSUM–D value must not exceed 1.0.

(x) Meet the following requirements if placed on probation pursuant to paragraph (e) of this section:

(A) Send all official samples that have not been analyzed as of the date of written notification of probation to a specified FSIS laboratory by certified mail or private carrier. Mailing expenses will be paid by FSIS.

(B) Analyze a set of check samples similar to those used for initial accreditation, and submit the analytical results to FSIS within 3 weeks of receipt of the samples.

(C) Satisfy criteria described in paragraph (b)(2)(ii) of this section on the above mentioned check samples.

(xi) Expeditiously report analytical results of official samples in accordance with the instructions of the Accredited Laboratory Coordinator. The Federal inspector at any establishment may assign the analysis of official samples to an FSIS laboratory if, in his/her view, there are delays in receiving test results on official samples from an accredited laboratory.

(c) *Laboratories accredited for analysis of a class of chemical residues in meat and meat food products.*

(1) *Applying for accreditation.*[7] Application for accreditation shall be make in writing by the owner or operator of the non-Federal analytical laboratory and sent to the Accredited Laboratory Coordinator, Chemistry Division, Science, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250. A

[5] Copies of the "Official Methods of Analysis of the Association of Official Analytical Chemists" are on file with the Director, Office of the Federal Register, and may be purchased from the AOAC, 1111 N. 19th Street, Suite 210, Arlington, VA 22209.

[6] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[7] Laboratories designated by FSIS as "recognized" prior to the effective date of this regulation will automatically become accredited laboratories for their current type of analysis without complying with paragraphs (c)(1), and (c)(2) of this section. However, all other requirements of this section shall be applicable to such laboratories. If at a later date, however, the laboratory has its accreditation revoked, it must comply with paragraphs (c)(1) and (c)(2) of this section.

laboratory whose accreditation has been refused or withdrawn under the circumstances described in paragraph (d)(1), (d)(2), (g)(1) or (g)(2) of this section may reapply for accreditation no sooner than 6 months after the effective date of that action, and must provide written documentation specifying what corrections were made. The applying laboratory will bear all costs associated with its application process.

(2) *Criteria for obtaining accreditation.* Non-Federal analytical laboratories may be accredited for the analysis of a class of chemical residues in poultry and poultry products. Accreditation will be given only if the applying laboratory successfully satisfies the requirements presented below. This accreditation authorizes official FSIS acceptance of the analytical test results provided by these laboratories on official samples. To obtain FSIS accreditation for the analysis of a class of chemical residues, a non-Federal analytical laboratory must:

(i) By supervised by a person holding, as a minimum, a bachelor's degree in either chemistry, food science, food technology, or a related field and having 3 years' experience determining analytes at or below part per million levels in analytical chemistry, or equivalent qualifications, as determined by the Administrator.

(ii) Demonstrate acceptable levels of systematic laboratory difference, variability, individual large deviations, recoveries, and proper identification in the analysis of the class of chemical residues for which application was made, using FSIS approved procedures. An applying laboratory will successfully demonstrate these capabilities if its analytical results for each specific chemical residue provided in a check sample accreditation study containing a minimum of 14 samples satisfy the criteria presented below.[8] In addition, if the laboratory is requesting accreditation for the analysis of chlorinated hydrocarbons, all analytical results for the residue class must collectively satisfy the criteria. (Conformance to criteria (A), (B), (C), and (D) will only be determined when 6 or more analytical results with associated comparison means at or above the minimum proficiency level are available.) If the results of the first set of samples do not meet these criteria for obtaining accreditation, a second set of at least 14 samples will be provided to the applying laboratory. If the results of the second set of samples do not meet the criteria, an additional set of accreditation check samples will not be provided for a 6 month period, commencing from the date on which the analytical results of the second set of samples were postmarket to FSIS.

(A) *Systematic Laboratory Difference:* The absolute value of the average standardized difference must not exceed 1.67 (2.00 if there are less than 12 analytical results) minus the product of 0.29 and the standard deviation of the standardized differences.

(B) *Variability:* The standard deviation of the standardized differences must not exceed a computed tolerance. This tolerance is a function of the number of analytical results used in the computation of the standard deviation, and of the amount of variability associated with the results from the participating FSIS laboratories.

(C) *Individual Large Deviations:* One hundred times the average of the large deviation measures of the individual analytical results must be less than 5.0.[9]

(D) *QA Recovery:* The average of the QA recoveries of the individual analytical results must lie within the range given in Table 2 under the column entitled "Percent Expected Recovery."

(E) *QC Recovery:* All QC recoveries must lie within the range given in Table 2 under "Percent Expected Recovery." Supporting documentation must be made available to FSIS upon request.

(F) *Correct Identification:* There must be correct identification of all chemical residues in all samples.

(iii) Allow inspection of the laboratory by FSIS officials prior to the determination of granting accredited status.

(3) *Criteria for maintaining accreditation.* To maintain accreditation for analysis of a class of chemical residues, a non-Federal analytical laboratory must:

(i) Report analytical chemical residue results from official samples, weekly on designated forms to the Accredited Laboratory Coordinator, Chemistry Division, Science, FSIS.

(ii) Maintain laboratory quality control records for the most recent 3 years that samples have been analyzed under this Program.

(iii) Maintain complete records of the receipt, analysis, and disposition of official samples for the most recent 3 years that samples have been analyzed under the Program.

(iv) Maintain a standards book, which is a permanently bound book with sequentially numbered pages, containing all readings and calculations for standardization of solutions, determination of recoveries, and calibration of instruments. All entries are to be dated and signed within 2 working days by the analyst and his/her supervisor. The standards book is to be retained for a period of 3 years after the last entry is made.

(v) Analyze interlaboratory accreditation maintenance check samples and return the results to FSIS within 3 weeks of sample receipt. This must be done whenever requested by FSIS and at no cost to FSIS.

(vi) Inform the Accredited Laboratory Coordinator, Chemistry Division, Science Program, FSIS, by certified or registered mail, within 30 days when there is any change in the laboratory's ownership, officers, directors, supervisory personel, or any other responsibly connected individual or entity.

(vii) Permit any duly authorized representative of the Secretary to perform both announced and unannounced on-site laboratory reviews of facilities and records during normal business hours.

(viii) Use analytical procedures designated and approved by FSIS.

(ix) Demonstrate that acceptable levels of systematic laboratory difference, variability, and individual large deviations are being maintained in the analysis of official samples, in the chemical residue class for which accreditation was granted. A laboratory will successfully demonstrate the maintenance of these capabilities if its analytical results for each specific chemical residue found in split samples satisfy the criteria presented below.[10] [11] In addition, if the laboratory is accredited for the analysis of chlorinated hydrocarbons, all analytical results for the residue class must collectively satisfy the criteria.

(A) Systematic Laboratory Difference:

(*1*) Positive systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample is used to determine a CUSUM value, designated as CUSUM-

[8] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[9] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5, and a measure equal to $1-(2.5/d)^4$ otherwise.

[10] All statistical computations are rounded to the nearest tenth, except where otherwise noted.

[11] An analytical result will only be used in the statistical evaluation of the laboratory if the associated comparison mean is equal to or greater than the minimum proficiency level for the residue.

P.[12] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

2.0, if the standardized difference is greater than 2.5, −2.0, if the standardized difference is less than −1.5,

or

the standardized difference minus 0.5, if the standardized difference lies between −1.5 and 2.5, inclusive.

(*ii*) Compute the new CUSUM-P value. The new CUSUM-P value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM-P value. If this computation yields a value smaller than 0, the new CUSUM-P value is set equal to 0. (CUSUM-P values are initialized at zero; that is, the CUSUM-P value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM-P value. The new CUSUM-P value must not exceed 4.8.

(*2*) Negative systematic laboratory difference: The standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample is used to determine a CUSUM value, designated as CUSUM-N.[13] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

− 2.0, if the standardized difference is greater than 1.5,

2.0, if the standardized difference is less than −2.5,

or

the standardized difference plus 0.5, if the standardized difference lies between −2.5 and 1.5, inclusive.

(*ii*) Compute the new CUSUM-N value. The new CUSUM-N value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM-N value. If this computation yields a value smaller than 0, the new CUSUM-N value is set equal to 0. (CUSUM-N values are initialized at zero; that is, the CUSUM-N value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM-N value. The new CUSUM-N value must not exceed 4.8.

(B) Variability: The absolute value of the standardized difference between the accredited laboratory's result and that of the FSIS laboratory for each split sample is used to determine a CUSUM value, designated as CUSUM-V.[14] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the larger of −0.4 and the absolute value of the standardized difference minus 0.9. If this computation yields a value larger than 1.6, the increment is set equal to 1.6.

(*2*) Compute the new CUSUM-V value. The new CUSUM-V value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM-V value. If this computation yields a value less than 0, the new CUSUM-V value is set equal to 0. (CUSUM-V values are initialized at zero; that is, the CUSUM-V value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM-V value. The new CUSUM-V value must not exceed 4.3.

(C) Large Deviations: The large deviation measure of the accredited laboratory's result for each split sample is used to determine a CUSUM value, designated as CUSUM-D.[15] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the large deviation measure minus 0.025.

(*2*) Compute the new CUSUM-D value. The new CUSUM-D is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM-D value. If this computation yields a value less than 0, the new CUSUM-D value is set equal to 0. (CUSUM-D values are initialized at zero; that is, the CUSUM-D value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM-D value. The new CUSUM-D value must not exceed 1.0.

(x) Meet the following requirements if placed on probation pursuant to paragraph (e) of this section:

(A) Send all official samples that have not been analyzed as of the date of written notification of probation to a specified FSIS Science Laboratory by certified mail or private carrier. Mailing expenses will be paid by FSIS.

(B) Analyze a set of check samples similar to those used for initial accreditation, and submit analytical results to FSIS within 3 weeks of receipt of the samples.

(C) Satisfy criteria described in paragraph (c)(2)(ii) of this section on the above mentioned check samples.

(xi) Expeditiously report analytical results of official samples in accordance with the instructions of the Accredited Laboratory Coordinator. The Federal inspector at any establishment may assign the analysis of official samples to an FSIS laboratory if, in his/her view, there are delays in receiving test results on official samples from an accredited laboratory.

(xii) Every QC recovery associated with reporting of official samples must be within the appropriate range given in Table 2 under "Percent Expected Recovery." Supporting documentation must be made available to FSIS upon request.

(xiii) Demonstrate that acceptable levels of systematic laboratory difference, variability, individual large deviations, recoveries, and proper identification are being maintained in the analysis of interlaboratory accreditation maintenance check samples, in the chemical residue class for which accreditation was granted. A laboratory will successfully demonstrate the maintenance of these capabilities if its analytical results for each specific chemical residue found in interlaboratory accreditation maintenance check samples satisfy the criteria presented below. In addition, if the laboratory is accredited for the analysis of chlorinated hydrocarbons, all analytical results for the residue class must collectively satisfy the criteria.

(A) *Systematic Laboratory Difference.*

(*1*) Positive systematic laboratory difference: The standardized difference between the accredited laboratory's result and the comparison means for each interlaboratory accreditation

---

[12] When determining compliance with this criterion for all chlorinated hydrocarbon results in a sample collectively, the following statistical procedure must be followed to account for the correlation of analytical results within a sample: The average of the standardized differences of the analytical results within the sample, divided by a constant, is used in place of a single standardized difference to determine the CUSUM-P (or CUSUM-N) value for the sample. The constant is a function of the number of analytical results used to compute the average standardized difference.

[13] *See* footnote 12.

[14] When determining compliance with this criterion for all chlorinated hydrocarbon results in a sample collectively, the following statistical procedure must be followed to account for the correlation of analytical results within a sample: The square root of the sum of the within sample variance and the average standardized difference of the sample, divided by a constant, is used in place of the absolute value of the standardized difference to determine the CUSUM-V value for the sample. The constant is a function of the number of analytical results used to compute the average standardized difference.

[15] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, (d), is less than 2.5, and a measure equal to $1-(2.5/d)^4$ otherwise.

maintenance check sample is used to determine a CUSUM value, designated as CUSUM–P.[16] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

2.0, if the standardized difference is greater than 2.5,
−2.0, if the standardized difference is less than −1.5.

or

the standardized difference minus 0.5, if the standardized difference lies between −1.5 and 2.5, inclusive.

(*ii*) Compute the new CUSUM–P value. The new CUSUM–P value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–P value. If this computation yields a value smaller than 0, the new CUSUM–P value is set equal to 0. (CUSUM–P values are initiated at zero; that is the CUSUM–P value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–P value. The new CUSUM–P value must not exceed 4.8.

(*2*) Negative systematic laboratory difference: The standardized difference between the accredited laboratory's result and the comparison mean for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–N.[17] This value is computed and evaluated as follows:

(*i*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to:

−2.0, if the standardized difference is greater than 1.5,
2.0, if the standardized difference is less than −2.5,

or

the standardized difference plus 0.5, if the standardized difference lies between −2.5 and 1.5, inclusive.

(*ii*) Compute the new CUSUM–N value. The new CUSUM–N value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–N value. If this computation yields a value smaller than 0, the new CUSUM–N value is set equal to 0. (CUSUM–N values are initialized at zero; that is, the CUSUM–N value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*iii*) Evaluate the new CUSUM–N value. The new CUSUM–N value must not exceed 4.8.

[16] *See* footnote 12.
[17] *See* footnote 12.

(B) *Variability:* The absolute value of the standardized difference between the accredited laboratory's result and the comparison mean for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–V.[18] This value is computed and evaluated as follows:

(1) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the larger of −0.4 and the absolute value of the standardized difference minus 0.9. If this computation yields a value larger than 1.6, the increment is set equal to 1.6.

(2) Compute the new CUSUM–V value. The new CUSUM–V value is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–V value. If this computation yields a value less than 0, the new CUSUM–V value is set equal to 0. (CUSUM–V values are initialized at zero; that is, the CUSUM–V value associated with the first sample is set equal to the CUSUM increment for that sample.)

(3) Evaluate the new CUSUM–V value. The new CUSUM–V value must not exceed 4.3

(C) *Large Deviations:* The large deviation measure of the accredited laboratory's result for each interlaboratory accreditation maintenance check sample is used to determine a CUSUM value, designated as CUSUM–D.[19] This value is computed and evaluated as follows:

(*1*) Determine the CUSUM increment for the sample. The CUSUM increment is set equal to the value of the large deviation measure minus 0.025.

(*2*) Compute the new CUSUM–D value. The new CUSUM–D is obtained by adding, algebraically, the CUSUM increment to the last previously computed CUSUM–D value. If this computation yields a value less than 0, the new CUSUM–D value is set equal to 0. (CUSUM–D values are initialized at zero; that is, the CUSUM–D value associated with the first sample is set equal to the CUSUM increment for that sample.)

(*3*) Evaluate the new CUSUM–D value. The new CUSUM–D value must not exceed 1.0.

(D) Each QC Recovery is within the range given in Table 2 under "Percent Expected Recovery". Supporting documentation must be made available to FSIS upon request.

(E) Not more than 1 residue misidentification in any 2 consecutive check samples.

(F) Not more than 2 misidentifications in any 8 consecutive check samples.

(d) *Refusal of accreditation.* Upon a determination by the Administrator, a laboratory will be refused accreditation for the following reasons:

(1) a laboratory shall be refused accreditation for moisture, protein, fat, and salt analysis for failure to meet the requirements of paragraph (b)(1) or (b)(2) of this section.

(2) A laboratory shall be refused accreditation for chemical residue analysis for failure to meet the requirement of paragraph (c)(1) or (c)(2) of this section.

(3) A laboratory shall be refused subsequent accreditation for failure to return to an FSIS laboratory, by certified mail or private carrier, all official samples which have not been analyzed as of the notification of a loss of accreditation.

(4) A laboratory shall be refused accreditation if the applicant or any individual or entity responsibly connected with the applicant has been convicted of or is under indictment or if charges on an information have been brought against the applicant or responsibly connected individual or entity in any Federal or State court concerning the following violations of law:

(i) Any felony.

(ii) Any misdemeanor based upon acquiring, handling, or distributing of unwholesome, misbranded, or deceptively packaged food or upon fraud in connection with transactions in food.

(iii) Any misdemeanor based upon a false statement to any governmental agency.

(iv) Any misdemeanor based upon the offering, giving or receiving of a bribe or unlawful gratuity.

(e) *Probation of accreditation.* Upon a determination by the Administrator, a laboratory shall be placed on probation for the following reasons:

(1) If the laboratory fails to complete more than one interlaboratory accreditation maintenance check sample analysis within 12 consecutive months as required by paragraphs (b)(3)(v) and (c)(3)(v) of this section, unless written permission is granted by the Administrator to exceed the time limit.

(2) If the laboratory fails to meet any of the criteria set forth in paragraphs

[18] *See* footnote 11.
[19] A result will have a large deviation measure equal to zero when the absolute value of the result's standardized difference, |d|, is less than 2.5, and a measure equal to 1 − (2.5/|d|)² otherwise.

(b)(3)(v) and (b)(3)(ix) and (c)(3)(v) and (c)(3)(ix) of this section.

(f) *Suspension of Accreditation.* The accreditation of a laboratory shall be suspended if the laboratory or any individual or entity responsibly connected with the laboratory is indicted or if charges on an information have been brought against the laboratory or responsibly connected individual or entity in any Federal or State court concerning any of the following violations of law:

(1) Any felony.

(2) Any misdemeanor based upon acquiring, handling or distributing of unwholesome, misbranded, or deceptively packaged food or upon fraud in connection with transactions in food.

(3) Any misdemeanor based upon a false statement to any governmental agency.

(4) Any misdemeanor based upon the offering, giving or receiving of a bribe or unlawful gratuity.

(g) *Revocation of Accreditation.* The accreditation of a laboratory shall be revoked for the following reasons:

(1) An accredited laboratory which is only accredited to perform analysis under paragraph (b) of this section shall have its accreditation revoked for failure to meet any of the requirements of paragraph (b)(3). If the recipient laboratory fails to meet any of the criteria set forth in paragraph (b)(3)(v) and (b)(3)(ix), and if more than one year has passed since the end of any previous probationary period, the accredited laboratory will be placed on probation in lieu of having its accreditation revoked.

(2) An accredited laboratory which is only accredited to perform analysis under paragraph (c) of this section shall have its accreditation revoked for failure to meet the requirements of paragraph (c)(3) of this section. If the recipient laboratory fails to meet any of the criteria set forth in paragraphs (c)(3)(v), (c)(3)(ix), and (c)(3)(xiii) of this section, and if more than one year has passed since the end of any previous probationary period, the laboratory will be placed on probation in lieu of having its accrediation revoked.

(3) An accredited laboratory shall have its accreditation revoked if the Administrator determines that the laboratory or any responsibly connected individual or any agent or employee has:

(i) Altered any official sample or analytical finding, or,

(ii) Substituted an analytical result from a non-accredited laboratory for its own.

(4) An accredited laboratory shall have its accreditation revoked if the laboratory or any individual or entity responsibly connected with the laboratory is convicted in a Federal or State court of any of the following violations of law:

(i) Any felony.

(ii) Any misdemeanor based upon acquiring, handling, or distributing of unwholesome, misbranded, or deceptively packaged food or upon fraud in connection with transactions in food.

(iii) Any misdemeanor based upon a false statement to any governmental agency.

(iv) Any misdemeanor based upon the offering, giving or receiving of a bribe or unlawful gratuity.

(h) *Notification and Hearings.* Accreditation of any laboratory shall be refused, suspended, or revoked under the conditions previously described herein. The owner or operator of the laboratory shall be sent written notice of the refusal, suspension, or revocation of accreditation by the Administrator. In such cases, the laboratory owner or operator will be provided an opportunity to present, within 30 days of the date of the notification, a statement challenging the merits of validity of such action and to request an oral hearing with respect to the denial, suspension, or revocation decision. An oral hearing shall be granted if there is any dispute of material fact joined in such responsive statement. The proceeding shall thereafter be conducted in accordance with the applicable rules of practice which shall be adopted for the proceeding. Any such refusal, suspension, or revocation shall be effective upon the notification and shall continue in effect until final determination of the matter by the Administrator.

(Recordkeeping requirements under this section approved by the Office of Management and Budget under OMB control number 0583–0015)

Done at Washington, DC, on April 12, 1985.

BILLING CODE 3410–DM–M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 352

Nondiscrimination on the Basis of Handicap

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed regulation implements the spirit of section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of handicap, as it applies to programs or activities conducted by various Executive agencies. Although the Federal Deposit Insurance Corporation ("FDIC") does not believe that Congress contemplated coverage of non-appropriated, independent regulatory agencies such as the FDIC, it has chosen to promulgate this proposed regulation to ensure that, to the extent practicable, handicapped persons are provided with equal access to FDIC programs and activities.

DATE: To be assured of consideration, comments must be in writing and must be received on or before June 17, 1985. Comments should refer to specific sections in the regulation.

ADDRESS: Send comments to Hoyle L. Robinson, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, D.C. 20429. Comments may be hand delivered to Room 6108 between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: M. Jane Williamson, Attorney, Legal Division (202/389–4151), or Thomas W. Louden, Jr., Assistant to the Associate Director, Division of Accounting and Corporate Services (202/389–4251), Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, D.C. 20429.

SUPPLEMENTARY INFORMATION:

Analysis of Selected Provisions

Section 352.2 Application

The proposed regulation would apply to all programs or activities conducted by the FDIC to the extent that they are available to members of the general public. A list of these programs and activities appears in section 352.2 of this regulation. Section 352.2 also confirms that this regulation is applicable only to the listed programs and activities of the FDIC, and does not apply to financial institutions insured and/or regulated by the FDIC or to FDIC-assisted programs. On this basis, and in accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), the Board of Directors hereby certifies that the proposed rule will not have a significant economic impact on a substantial number of small entities.

Section 352.3 Definitions

Paragraph (b) "Complete complaint." The definition of "complete complaint" enables the FDIC to determine the beginning of its obligation to investigate a complaint (*see* § 352.10(b)).

Paragraph (c) "Facility." The definition of "facility" is similar to that in the existing section 504 regulations

for federally assisted (as opposed to federally conducted) programs, 28 CFR 41.3(f), except that the term "or personal property" and the phrase "or interest in such property" have been deleted. The phrase "which must be accessible to ensure participation in the FDIC programs and activities listed in § 352.2" has been added to clarify the term's coverage. The term "facility" is used in § 352.7.

Paragraph (d) "handicapped person." The definition of "handicapped person" is similar to the definition appearing in the section 504 regulation for federally assisted programs (28 CFR 41.31), differing only in minor word changes.

Paragraph (e) "Qualified handicapped person." The definition of "qualified handicapped person" is a revised version of the definition appearing in the section 504 regulation for federally assisted programs (28 CFR 41.32).

This definition deviates from existing regulations for federally assisted programs because of intervening court decisions. Paragraph (1) defines "qualified handicapped person" with regard to any program, such as employment, under which a person is required to perform services or to achieve a level of accomplishment. The definition reflects the decision of the Supreme Court in *Southeastern Community College* v. *Davis*, 442 U.S. 397 (1979), which held that a handicapped person who could not achieve the purpose of a program without modifications that would result in a fundamental alteration of its nature was not a "qualified handicapped person" within the meaning of section 504. The Court went on to state that section 504 does not require modifications that would result in "undue financial and administrative burdens". *Id.* at 412. Since *Davis*, circuit courts have applied this limitation upon a showing that only one of the two "undue burdens" would be created as a result of the modification sought to be imposed under section 504. *See, e.g., Dopico* v. *Goldschmidt*, 687 F.2d 644 (2d Cir. 1982); *American Public Transit Association* v. *Lewis*, 655 F.2d 1272 (D.C. Cir. 1981).

The proposed regulation incorporates the Court's language in the definition of "qualified handicapped person" in order to make clear that such a person must be able to participate in the program offered by the FDIC. The FDIC is required to make modifications in order to enable a handicapped individual to participate, but is not required to offer a program of a fundamentally different nature or to make modifications which would result in undue financial or administrative burdens. Although the revised definition allows exclusion of some handicapped people from some programs, it requires that a handicapped person who is capable of achieving the purpose of the program must be accommodated, provided that the modifications do not fundamentally alter the nature of the program or result in undue financial or administrative burdens.

Paragraph (f) "Reasonable accommodations." The definition of "reasonable accommodations" also incorporates the standards articulated by the Supreme Court in *Southeastern Community College* v. *Davis*, 422 U.S. 397 (1979). Examples of reasonable accommodations include modification of work equipment, relocation of sevices and modified work schedules. No exhaustive list of "reasonable accommodations" is possible, as determination of those accommodations needed by handicapped employees or participants in FDIC programs or activities must generally be made on a case-by-case basis.

Paragraph (g) "Section 504." This definition clarifies that, as used in this regulation, "section 504" does not refer to that portion of 29 U.S.C. 794 addressing programs and activities receiving federal financial assistance.

Section 352.4 Self-evaluation.

This section would require the FDIC to conduct a self-evaluation of its program implementing the spirit of section 504 within one year of the effective date of this regulation. A similar self-evaluation requirement is present in the existing section 504 regulation for programs or activities receiving federal financial assistance (28 CFR 41.5(b)(2)).

Section 352.5 General Requirements.

Section 352.5 states general principles which serve as the analytical foundation for the remaining sections of the regulation. Whenever the FDIC has violated a provision in any of the subsequent sections, it has also violated one of the general principles found in § 352.5. When there is no applicable subsequent provision, the general prohibition stated in this section would apply.

Paragraph (a) restates the nondiscrimination goals of section 504, and prohibits the FDIC from refusing to provide a handicapped person with an equal opportunity to participate in or benefit from its program simply because the person is handicapped. Such exclusionary practices often result from the use of irrebuttable presumptions that absolutely exclude certain classes of disabled persons (*e.g.*, epileptics, vision-impaired or hearing-impaired persons, persons with heart ailments) from participation in programs or activities without regard to an individual's actual ability to participate. Use of an irrebuttable presumption is permissible only when in all cases a physical condition by its very nature would prevent an individual from meeting the essential eligibility requirements for participation in the activity in question.

Section 504, however, prohibits more than just the most obvious denials of equal treatment. It is not enough to admit persons in wheelchairs to a program it the facilities in which the program is conducted are inaccessible. Paragraph (b), therefore, requires that the FDIC make all reasonable accommodations which are necessary to ensure that qualified handicapped individuals are provided with an equal opportunity to benefit from services provided by the FDIC. The later sections on program accessibility (§§ 352.7—352.8) and communications (§ 352.9) are specific applications of this principle.

Section 352.6 Employment.

Section 352.6 prohibits discrimination on the basis of handicap in employment by the FDIC. This regulation is in accord with a recent decision of the United States Court of Appeals for the Fifth Circuit which holds that, despite the resulting overlap of coverage with section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), Congress intended section 504 to cover the employment practices of federal agencies. The Court also held that in order to give effect to both section 504 and section 501, the administrative procedures of section 501 must be followed in processing section 504 complaints. *Prewitt* v. *United States Postal Service*, 662 F.2d 292 (5th Cir. 1981).

Consistent with that decision, this section provides that the standards, requirements, and procedures of section 501 of the Rehabilitation Act, as established in regulations of the Equal Employment Opportunity Commission (EEOC) at 29 CFR Part 1613, shall be those applicable to employment in the FDIC. In addition to this section, § 352.10(b) of this regulation specified that the FDIC will continue to use the existing EEOC procedures to resolve allegations of employment discrimination.

Section 352.7 Program Accessibility: Existing Facilities.

This regulation adopts the program accessibility concept found in the existing section 504 regulation for programs or activities receiving federal financial assistance (28 CFR 41.56–41.58), with certain modifications. The regulation makes clear that the FDIC is not required to make each of its existing facilities accessible (§ 352.7(a)(1)). However, § 352.7, unlike 28 CFR 41.56–41.57, places explicit limits on the

FDIC's obligation to ensure program accessibility (§ 352.7(a)(2)).

Paragraph (a)(2) generally codifies recent case law that defines the scope of the FDIC's obligation to ensure program accessibility. The provisions of this paragraph, like those found in §§ 352.3(f)(1) and (2), and 352.9(e), are based on the Supreme Court's holding in *Southeastern Community College* v. *Davis*, 442 U.S. 397 (1979), and the decisions of lower courts following the *Davis* opinion.

Paragraph (a)(2), however, does not establish an absolute defense; it does not relieve the FDIC of all obligations to handicapped persons. Although the FDIC is not required to take actions that would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens, it nevertheless must take other feasible steps, if any, to ensure that handicapped persons receive the benefits and services of the aforementioned programs or activities.

Section 352.8 Program Accessibility: New Construction and Alterations.

Section 352.8 incorporates the standards articulated by the Supreme Court in *Southeastern Community College* v. *Davis*, 442 U.S. 397(1979). It requires the FDIC to make accessible the buildings in which the programs and activities set forth in § 352.2 are conducted, if such buildings are newly constructed or substantially altered for the use of the FDIC, except to the extent that providing such accessibility would result in changes in the fundamental nature of an FDIC program or activity or in undue financial or administrative burdens. To the extent that FDIC facilities are not subject to § 352.8, they will be subject to the requirements of § 352.7.

Section 352.9 Communications.

Section 352.9 requires the FDIC to provide an opportunity for handicapped persons to request the auxiliary aids of their choice. This expressed choice, when reasonable, shall be considered by the FDIC. Section 352.9(e) limits the obligation of the FDIC to ensure effective communication in accordance with *Davis* and the circuit court opinions interpreting in (*see supra*, comments to § 352.2(f)). Unless not required by § 352.9(e), the FDIC shall provide auxiliary aids at no cost to the handicapped person.

In some circumstances, written materials may be sufficient to permit effective communication with a hearing-impaired person. If, however, a hearing-impaired applicant or participant is not skilled in spoken or written language, for example, a sign language interpreter may be appropriate. For vision-impaired persons, effective communication might be achieved by several means, including readers and audio recordings.

Auxiliary aids must be afforded where necessary to ensure effective communication with vision-impaired and hearing-impaired persons involved in hearings conducted by the FDIC. If sign language interpreters are necessary, the FDIC may require that it be given reasonable notice prior to the proceeding of the need for an interpreter. Moreover, the FDIC need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature except for FDIC-related purposes. For example, the FDIC need not provide eye glasses or hearing aids to applicants or participants in its programs. Similarly, the regulation does not require the FDIC to provide wheelchairs to persons with mobility impairments.

Section 352.10 Compliance Procedures.

Paragraph (a) specifies that paragraphs (c) through (k) of this section establish the procedures for processing complaints other than employment complaints. Paragraph (b) provides that the FDIC will process employment complaints according to procedures established in existing regulations of the EEOC (29 CFR Part 1613) pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

List of Subjects in 12 CFR Part 352

Blind, Civil rights, Equal employment opportunity, Federal buildings and facilities, Handicapped.

It is proposed that title 12 of the Code of Federal Regulations be amended by adding Part 352 as follows:

PART 352—NONDISCRIMINATION ON THE BASIS OF HANDICAP

Sec.
352.1 Purpose.
352.2 Application.
352.3 Definitions.
352.4 Self-evaluation.
352.5 General requirements.
352.6 Employment.
352.7 Program accessibility: Existing facilities.
352.8 Program accessibility: New construction and alterations.
352.9 Communications.
352.10 Compliance procedures.

Authority: 12 U.S.C. 1819.

§ 352.1 Purpose.

The purpose of this part is to implement the spirit of section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended section 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by various Executive agencies. Although the Federal Deposit Insurance Corporation ("FDIC") does not believe that Congress contemplated coverage of non-appropriated, independent regulatory agencies such as the FDIC, it has chosen to promulgate this proposed regulation to ensure that, to the extent practicable, handicapped persons are provided with equal access to FDIC programs and activities.

§ 352.2 Application.

The majority of the FDIC's programs and activities do not involve the direct provision of benefits and services to, or participation by, members of the public. Members of the public are generally able to avail themselves of the following FDIC programs and activities:

(a) Attending open board meetings;

(b) Making inquiries or filing complaints at the FDIC Office of Congressional Affairs and Corporate Communications;

(c) Using the FDIC library in Washington, D.C.;

(d) Visiting an insured bank at which they conducted business (or an alternative liquidation site selected by the FDIC) and which has become insolvent, or been purchased by another bank under FDIC supervision, for the purpose of:

(1) Collecting FDIC checks for the insured amount of their deposits previously held in such bank; and/or

(2) Discussing with FDIC representatives the repayment of debts which they previously owed to such bank, prior to its failure or purchase by another bank under FDIC supervision;

(e) Seeking employment with the FDIC;

(f) Conducting regular banking business at a Deposit Insurance National Bank formed by the FDIC pursuant to the authority in 12 U.S.C. 1821(h).

The foregoing constitute the "programs and activities" of the FDIC for purposes of this regulation. This regulation does not apply to financial institutions insured and/or regulated by the FDIC or to FDIC-assisted programs.

§ 352.3 Definitions.

For purposes of this part, the term—

(a) "Auxiliary aids" means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of,

the FDIC programs or activities set forth in § 352.2.

(b) "Complete complaint" means a written statement that contains the complainant's name and address and describes the FDIC's actions in sufficient detail to inform the FDIC of the nature and date of the alleged violation of these regulations. It shall be signed by the complainant or by someone authorized to do so on his or her behalf.

(c) "Facility" means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or other real property which must be accessible to ensure participation in the FDIC programs and activities set forth in § 352.2.

(d) "Handicapped person" means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment. As used in this definition, the phrase:

(1) "Physical or mental impairment" includes—

(i) A physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one of more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary ; hemic and lymphatic; skin; and endocrine; or

(ii) A mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

(2) "Major life activities" includes functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

(3) "Has a record of such an impairment" means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) "Is regarded as having an impairment" means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the FDIC as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or

(iii) Has none of the impairments defined in paragraph (d)(1) of this definition but is treated by the FDIC as having such an impairment.

(e) "Qualified handicapped person" means—

(1) With respect to any FDIC program or activity under which a person is required to perform services or to achieve a level of accomplishment, such as employment, a handicapped person who meets the essential eligibility requirements and who can perform the tasks required by the position without modifications in the program or activity that would result in a fundamental alteration in its nature or in undue financial or administrative burdens; and

(2) With respect to any other program or activity, a handicapped person who meets the essential eligibility requirements for participation in, or receipt of benefits from, that program or activity and whose participation would not require modifications in the program or activity that would result in a fundamental alteration in its nature or in undue financial or administrative burdens.

(f) "Reasonable accommodations" are those accommodations which can be made by the FDIC to ensure that a qualified handicapped individual is provided with an equal opportunity to participate in the programs or activities set forth in § 352.2 of these regulations, and which would not require modifications in the program or activity that would result in a fundamental alteration in its nature or in undue financial or administrative burdens.

(g) "Section 504" means section 504 of the rehabilitation Act of 1973 (Pub. L. 93–112, 87 Stat. 394 (29 U.S.C. 794)), as amended by the Rehabilitation Act Amendments of 1974 (Pub. L 93–516, 88 Stat. 1617), and the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 (Pub. L. 95–602, 92 Stat. 2955). As used in this regulation, section 504 shall be applied only to the programs and activities conducted by the FDIC as set forth in § 352.2 of this regulation.

§ 352.4 Self-evaluation.

Within one year of the effective date of this regulation, the FDIC shall conduct, with the assistance of interested persons, including designated handicapped persons, or organizations representing handicapped persons, expressing an interest in participating, a self-evaluation of its program implementing the spirit of section 504. Comments on the program made by such persons or organizations, while not binding on the FDIC for adoption, will be received and considered as part of the FDIC's self-evaluation process.

§ 352.5 General requirements.

(a) No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under the programs and activities conducted by the FDIC and set forth in § 352.2 this regulation.

(b) The FDIC, in providing any services under the programs and activities set forth in § 352.2 of this part, shall make all reasonable accommodations which are necessary to ensure that qualified handicapped persons are provided with an equal opportunity to benefit from such services.

§ 352.6 Employment.

No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the FDIC. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established in 29 CFR Part 1613, shall apply to employment in the FDIC.

§ 352.7 Program accessibility: Existing facilities.

(a) *General.* The FDIC shall operate each of the programs or activities set forth in § 352.2 of this part so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—

(1) Necessarily require the FDIC to make each of its existing facilities accessible to and usable by handicapped persons; or

(2) Require the FDIC to take any action that would result in a fundamental alteration in the nature of a program or activity or in undue financial or administrative burdens. If an action would result in such an alteration or such burdens, the FDIC shall take other feasible actions, if any, that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) *Methods.* The FDIC may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities or any other methods that result in making its programs or activities readily accessible

to and usable by handicapped persons. The FDIC is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section.

(c) *Time period for compliance.* The FDIC shall comply with the obligations established under this section within sixty days of the effective date of this part except that where structural changes in facilities are undertaken, such changes shall be made within three years of the effective date of this part, but in any event as expeditiously as possible.

(d) *Transition plan.* In the event that structural changes to existing facilities will be undertaken to achieve program accessibility, the FDIC shall develop, within six months of the effective date of this part, a transition plan setting forth the steps necessary to complete such changes. The plan shall be developed after consultation with representatives of the General Services Administration and the Architectural and Transportation Barriers Compliance Board. The plan shall—

(1) Identify physical obstacles in the FDIC's facilities that limit the accessibility of its programs or activities to handicapped persons;

(2) Describe the methods that will be used to make the facilities accessible;

(3) Specify the proposed schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify proposed steps that will be taken during each year of the transition period;

(4) Indicate the official responsible for implementation of the plan; and

(5) Identify the persons or groups with whose assistance the plan was prepared.

§ 352.8 Program accessibility: New construction and alterations.

Each building or part of a building in which the programs or activities set forth in § 352.2 of this part will be carried on, and which is newly constructed or substantially altered by, on behalf of, or for the use of the FDIC shall be designed, constructed or altered so as to be readily accessible to, and usable by, handicapped persons. This paragraph does not require the FDIC to take any action that would result in a fundamental alteration in the nature of a program or activity or in undue financial or administrative burdens. If an action would result in such an alteration or such burdens, the FDIC shall take other feasible actions, if any, that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

§ 352.9 Communications.

(a) The FDIC shall take appropriate steps to ensure effective communication with applicants for, and participants in, the FDIC programs and activities set forth in § 352.2.

(1) The FDIC shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, the FDIC programs or activities set forth in § 352.2 of this part.

(i) In determining what type of auxiliary aid is necessary, the FDIC shall consider any reasonable requests of the handicapped person.

(ii) The FDIC need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature except for FDIC-related purposes.

(2) Where the FDIC communicates with hearing impaired applicants and beneficiaries by telephone, telecommunications devices for deaf persons (TDDs) or equally effective telecommunication systems shall be used.

(b) The FDIC shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities. Interested persons may obtain such information by calling, writing or visiting the FDIC Office of Congressional Affairs and Corporate Communications, located at 550 17th Street, N.W., Washington, D.C. 20429. The Office of Congressional Affairs and Corporate Communications telephone number is (202) 389–4221 (Voice), or 389–4473 (District of Columbia area) and (800) 424–5488 (all others) (TDD).

(c) The FDIC shall provide information at a primary entrance to each of its accessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) The FDIC shall take appropriate steps to provide handicapped persons, upon request, with information regarding their rights under this regulation.

(e) This section does not require the FDIC to take any action that would result in a fundamental alteration in the nature of a program or activity or in undue financial or administrative burdens. If an action required to comply with this section would result in such an alteration or such burdens, the FDIC shall take other feasible actions, if any, that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§ 352.10 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in the FDIC programs or activities set forth in § 352.2 of this part.

(b) The FDIC shall process complaints alleging employment discrimination on the basis of handicap according to the procedures established in 29 CFR Part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The Chairman of the FDIC shall designate an official to be responsible for coordinating implementation of this section.

(d) The FDIC shall accept and investigate all complete complaints over which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The FDIC may extend this time period for good cause.

(e) If the FDIC receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complainant to the appropriate government entity.

(f) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the FDIC shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings regarding the alleged violations;

(2) A description of a remedy for each violation found; and

(3) A notice of the right to appeal.

(g) Appeals of the findings or remedies must be filed by the complainant within 90 days of receipt from the FDIC of the letter required by § 352.10(f). The FDIC may extend this time for good cause.

(h) Timely appeals shall be accepted and processed by the Chairman of the FDIC or designee.

(i) The Chairman of the FDIC or designee shall notify the complainant of the results of the appeal within 90 days of the receipt of the request. If the Chairman of the FDIC or designee determines that additional information is needed from the complainant, he or she shall have 60 days from the date of

receipt of the additional information to make a determination on the appeal.

(j) The FDIC may delegate its authority for conducting complaint investigations to other federal agencies, except that the authority for making the final determination may not be delegated.

By order of the Board of Directors, 8th day of April, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to extend until July 1, 1986, the effective date for compliance with the food labeling regulations requiring declaration of sodium content as part of the nutrition label. The current effective date for all affected products initially introduced or initially delivered for introduction into interstate commerce is July 1, 1985. FDA is proposing this extension to minimize economic burdens on certain manufacturers through loss of label inventories and to avoid expenditures of considerable agency resources.

DATES: Comments by May 20, 1985. The proposed extended effective date for compliance with the sodium labeling regulation is July 1, 1986.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: F. Edward Scarbrough, Center for Food Safety and Applied Nutrition (HFF-204), Food and Drug Administration, 200 C St. SW, Washington, DC 20204, 202-245-3117.

SUPPLEMENTARY INFORMATION: In the Federal Register of April 18, 1984 (49 FR 15510), FDA amended the food labeling regulations (21 CFR 101.9(c)) to require that sodium content of foods be included in nutrition labeling information whenever nutrition labeling appears on food labels. Although the sodium labeling regulation also provided for proper use of certain descriptive terms about sodium and salt content of foods as well as for voluntary disclosure of potassium content information, the only mandatory aspect of the final rule was the inclusion of sodium content information in nutrition labeling in situations where nutrition labeling is required. The effective date for compliance is July 1, 1985, for all affected products initially introduced or initially delivered for introduction into interstate commerce on or after that date.

FDA addressed a number of comments in the preamble to the final regulation regarding the requirement that sodium content be a part of nutrition labeling. The agency responded to these comments by stating that the mandatory inclusion of sodium content information would not pose any significant hardship on those manufacturers who currently use nutrition labeling. At the same time, FDA indicated its interest in minimizing any unique burdens that may be placed on sectors of the food industry as a result of good-faith attempts to comply with the sodium labeling regulation. The agency expressed its willingness to consider as an alternative an extension of the effective date for compliance with the regulation on a case-by-case basis if information was submitted which reasonably demonstrated a need for and anticipated cost savings of adopting such action.

Subsequent to the publication of the final regulation, FDA received from a national trade organization representing the soft drink industry a petition for reconsideration raising a number of issues including a proposal for an alternative sodium disclosure for soft drinks and other products consisting largely of water. Although FDA has indicated that an exemption from sodium labeling requirements will not be granted to the soft drink industry, the agency has been willing to work further with the industry in resolving problems related to establishing sodium values to be declared on the labels of soft drinks.

FDA is currently evaluating the merits of the issues raised in the petition for reconsideration and intends to respond to that petition in the near future. Because the precise requirements for sodium disclosure on labels of soft drinks technically remained uncertain pending a response from FDA, NSDA has argued that there is not enough lead time remaining for bottlers to order new labels and still meet the July 1, 1985, deadline. The agency is aware that the soft drink industry requires a lead time on the order of 9 months to effect label changes. Consequently, FDA issued a letter on November 8, 1984, stating FDA's intent to extend, for the soft drink industry, the effective date for compliance with the sodium labeling regulations until July 1, 1986.

FDA has received a number of additional requests for extensions of the effective date for compliance with the sodium labeling regulation for labels of slow-moving items which will not be depleted by the July 1, 1985, deadline. Several of these requests documented that significant costs would be incurred if existing labels have to be destroyed before use. A majority of these requests have adequately demonstrated that steps have been taken to ensure that the labels of higher-volume items will be in compliance with the regulation before July 1, 1985. Additionally, the majority of those requesting an extension are already committed to providing sodium labeling on their labels with the next orders of labels. Although FDA had previously announced that requests for extensions would be considered on a case-by-case basis (as opposed to proposing a blanket extension of the effective date), it has since become apparent that this approach is no longer feasible. In view of the large number of requests already received, FDA anticipates that the number of labels that would ultimately be submittd for review is very large. Reviewing these labels and the supporting data to determine whether an extension is justified in each case would adversely affect the allocation of resources within the agency.

Because of this adverse impact on the agency's resources and because the information presented to the agency would indicate a potential increase in cost to consumers if manufacturers are unable to use the existing inventories on slow-moving products, the agency is proposing to extend the previously announced effective date for compliance with the mandatory provision of the sodium labeling regulation (requiring that sodium content be declared as a part of the nutrition label) for a period of 1 year until July 1, 1986. This delay would enable all affected manufacturers to effect any necessary label changes to comply with the labeling requirements of the final rule. The agency is stating, however, that it expects manufacturers who requested an extension of the effective date to move forward by

bringing their labels into compliance as soon as possible but no later than July 1, 1986.

Data obtained from the most recent "Food Label and Package Survey" and from a recent field survey conducted by FDA to monitor the prevalence of sodium information currently on food labels indicate that an extension such as that being proposed would produce only a marginal, short-term reduction in the projected availability of sodium labeled food. FDA believes that the circumstances above would not support an extension of the effective date beyond the proposed additional 1 year period, and industry is strongly encouraged to comply with the previous deadline of July 1, 1985, whenever possible.

FDA is proposing to extend the effective date of the sodium regulation by notice and comment rulemaking to accord with the Administrative Procedure Act and recent case law which has held that an extension of a regulation's effective date is the type of agency action that is ordinarily subject to the notice and comment procedure. *Council of Southern Mountains, Inc.* v. *Donovan*, 653 F.2d 573, 580 (D.C. Cir. 1981). *National Resources Defense Council, Inc.* v. *E.P.A.*, 683 F.2d 752 (3d Cir. 1982). This proposed extension would be consistent with alternative provisions previously considered in the agency's regulatory flexibility analysis to minimize the economic impact on small businesses while still accomplishing the stated objectives of the sodium labeling regulation.

Food labeling, Misbranding, Nutrition labeling, Warning statements.

PART 101—FOOD LABELING

§ 101.9 [Amended]

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403, 701(a), 52 Stat. 1040–1042 as amended 1047–1048 as amended, 1055 (21 U.S.C. 321(n), 343, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that the effective date of paragraph (c)(8)(i) of § 101.9 *Nutrition labeling of foods* be extended until July 1, 1986.

Interested persons may, on or before May 20, 1985, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 15, 1985.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD 3-85-05]

Regatta; O.P.A. Classic, Barnegat Bay, NJ

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rule making.

SUMMARY: The Coast Guard is considering a proposal to establish Special Local Regulations for the Annual Offshore Performance Association (O.P.A.) Classic. The purpose of this regulation is to provide for the safety of participants and spectators on navigable waters during this powerboat race event.

DATES: Comments must be received on or before June 3, 1985.

ADDRESSES: Comments should be mailed to Commander (b), Third Coast Guard District, Governors Island, New York, NY 10004. The comments will be available for inspection and copying at the Boating Safety Office, Building 110, Governors Island, New York, NY. Normal office hours are between 8:00 a.m. and 4:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Lt. D.R. Cilley, (212) 668–7974.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rule making by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD3 85–05) and the specific section of the proposal to which their comments apply, and give reasons for each comment. Receipt of comments will be acknowledged if a stamped, self-addressed postcard or envelope is enclosed. The rules may be changed in light of comments received. All comments received before the expiration of the comments period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Information

The drafters of this notice are Lt. D.R. Cilley, Project Officer, Boating Safety Office, and Ms. MaryAnn Arisman, Project Attorney, Third Coast Guard District Legal Office.

Discussion of Proposed Regulations

The Annual O.P.A. Classic is a powerboat race sponsored by the Offshore Performance Association held on Barnegat Bay, New Jersey. This event is traditionally held each year on the second Saturday in June. Because of the annual nature of this event the Coast Guard proposes to promulgate a permanent amendment to Part 100 of Title 33, U.S. Code of Federal Regulations and thereafter provide the public with full and adequate notice of this annual powerboat race by publication in the Third District Local Notice to Mariners. There will be one (1), 4 lap, 60 miles National Powerboat Association (N.P.B.A.) sanctioned race. The course has been laid out so that there should be little or no interference with vessel traffic in the Intercoastal Waterway (I.C.W.). The sponsor is providing in excess of 40 patrol vessels in conjunction with Coast Guard and local resources to patrol this event. In order to provide for the safety of life and property, the Coast Guard will restrict vessel movement in the race course area and will establish spectator anchorages for the spectator fleet. Mariners are urged to use extreme caution when transiting the area due to the large number of spectator craft, and should adhere closely to the charted I.C.W.

Economic Assessment and Certification

This proposed regulation is considered to be non major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. This event will draw a large number of spectator craft into the area for the duration of the race. This should have a favorable impact on commercial facilities providing services to the spectators. This area is used primarily by recreational boaters; any impact on commercial traffic in the area will be negligible.

Since the impact of this regulation is expected to be minimal, the Coast Guard certifies that it will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water).

Proposed Regulation

PART 100—[AMENDED]

In consideration of the foregoing, the Coast Guard proposes to amend Part 100 of Title 33, Code of Federal Regulations by adding § 100.301 to read as follows:

§ 100.301 O.P.A. Classic, Barnegat Bay, N.J.

(a) *Regulated Area:* Barnegat Bay, New Jersey in the area bounded on the north by 39 degrees 55 minutes north latitude, and on the south by 39 degrees 48 minutes north latitude, the Intercoastal Waterway (I.C.W.) on the west and Island Beach on the east.

(b) *Effective Period:* This regulation will be effective from 10:00 a.m. to 3:00 p.m. on June 15, 1985 and thereafter annually on the second Saturday in June or as published in the Third District Local Notice to Marines.

(c) *Special Local Regulations:* (1) Marines shall use extreme caution when transiting the regulated area and shall adhere closely to the charted I.C.W.

(2) All persons or vessels not registered with sponsor as participants or not part of the regatta patrol are considered spectators. Spectator vessels must be at anchor within the designated spectator area or moored to a waterfront facility in a way that will not interfere with mariners transiting the I.C.W. in Barnegat Bay.

(3) The spectator fleet shall be held behind special race course buoys provided by the sponsor in the following areas:

(i) Between the race course and Island Beach State Park in the area north of Tices Shoal.

(ii) Between the race course and the I.C.W. in the area from Holly Park to Forked River.

(4) No spectator or press boats shall be allowed out onto or across the race course without Coast Guard escort.

(5) The sponsor of the race shall anchor race committee boats at each of the five (5) turns. Checkpoints shall be positioned so that race participants will pass no closer to the I.C.W. than 200 feet. Special markers shall be provided by the sponsor to separate the course from the I.C.W.

(6) All persons and vessels shall comply with the instructions of U.S. Coast Guard patrol personnel. Upon hearing five or more blasts from a U.S. Coast Guard vessel, the operator of a vessel shall stop immediately and proceed as directed. U.S. Coast Guard patrol personnel include commissioned, warrant and petty officers of the Coast Guard. Members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation and other applicable laws.

(7) For any violation of this regulation, the following maximum penalties are authorized by law:

(i) $500 for any person in charge of the navigation of a vessel.

(ii) $500 for the owner of a vessel actually on board.

(iii) $250 for any other person.

(iv) Suspensions or revocation of a license for a licensed officer.

(33 U.S.C. 1233; 49 U.S.C. 108; 49 CFR 1.46(b) and 33 CFR 100.35)

Dated: April 9, 1985.

P.A. Welling,

Captain, U.S. Coast Guard, Acting Commander, Third Coast Guard District.

BILLING CODE 4910-14-M

---

33 CFR Part 110

[CGD9-85-01]

Anchorage Grounds; Chicago Harbor, IL

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is considering a proposal to establish two new commercial vessel anchorages and disestablish one existing commercial vessel anchorage in Chicago Harbor. The existing anchorage known as "Anchorage F, Filtration Plan Slip" conflicts with plans for a large recreational vessel marina. The effect of this rule will be accommodation of the marina development and continued availability of anchorage areas suitable for lakegoing barge tows without anchors.

DATES: Comments must be received on or before June 3, 1985.

ADDRESSES: Comments should be mailed to Commander, Ninth Coast Guard District, Marine Port Environmental Safety Branch, 1240 E. 9th St., Cleveland, OH 44199. The comments and other materials referenced in this notice will be available for inspection and copying at Commander, Ninth Coast Guard District, Marine Port and Environmental Safety Branch, 1240 E. 9th St., Cleveland, OH 44199. Normal office hours are between 7:30 a.m. and 5:00 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Ensign G.H. Burns, Marine Port and Environmental Safety Branch, Ninth Coast Guard District. Telephone number (216) 522-3919.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD9-85-01) and the specific section of the proposal to which their comments apply, and give reasons for each comments. Receipt of comments will be acknowledged if a stamped self-addressed postcard or envelope is enclosed. The regulations may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Information

The drafters of this notice are Ensign G.H. Burns, project officer, Marine Port and Environmenal Safety Branch, and Lieutenant Raymond A. Pelletier, project attorney, Ninth Coast Guard District Legal Office.

Discussion of Proposed Regulations

The Coast Guard published an Advance Notice of Proposed Rulemaking on April 22, 1983 (48 FR 19183) (the "ANPRM") requesting comments on the need for changes to the present special anchorage areas and anchorage grounds in Chicago and Calument Harbors, IL. This proposed action relates only to the anchorage known as "Anchorage F, Filtration Plant Slip" and two proposed commercial anchorages in Chicago Harbor. Revision of any other anchorage grounds in Chicago Harbor, IL. will be the subject of separate Notices of Proposed Rulemaking.

Two comments were received in response to the ANPRM. One commenter, the Illinois River Carriers Association, opposed any changes to Chicago Harbor anchorages. They particularly opposed the loss of Anchorage F, since it is considered the only assured mooring space of their tows awaiting fair weather or a change of towboats. Traditional practice is to moor along the Main Branch of the

Chicago River. Urban development adjacent to this mooring area will preclude its future use. The other commenter, Navy Pier Marina, Inc. (a not-for-profit-organization), is interested in establishing a large recreational vessel marina next to Anchorage F. The Coast Guard had previously objected to this developer's permit application filed with the U.S. Army Corps of Engineers. The reason for this objection was the incompatibility of the commercial vessel anchorage and the private vessel marina. Their close proximity would create many navigation conflicts between large and small vessels in a very restricted channel. Navy Pier Marina, Inc. requested either relocation or disestablishment of Anchorage F to facilitate development of the marina.

The Captain of the Port Chicago, through individual and joint meeting with both commenters, has identified a mutually agreeable alternative to Anchorage F. The establishment of two new anchorages adjacent to the lakeside approach walls of the Chicago Harbor Lock will result in 112,000 square feet of new anchorage grounds. This is a net reduction of only 8,000 square feet compared to Anchorage F. The new anchorages will be more convenient to normal barge transit routes and will offer flexibility for weather-protected moorings. The area of the new Anchorage D, Chicago Harbor Lock South, has proven satisfactory in recent mooring use by barge tows. The area of the new Anchorage E, Chicago Harbor Lock North, has not experienced commercial vessel use, but was recently sounded adjacent to the guidewall. The minimum depth observed was 25 feet. The potential for barge inflicted damage to the lock's outer guidewalls requires that pile clusters be installed as anchorage buffers. The marina developer has informally agreed to provide these fixtures, and has requested a permit from the U.S. Army Corps of Engineers to do so. Concern for the security of moored vessels in the new anchorages necessitates including a towing vessel operator surveillance requirement. One hour permissible breaks in towing vessel attendance are believed sufficient to effect routine logistics.

"Development of Navy Pier Marina is not a certainty. Marina developer investment in the pile clusters for Anchorages D and E is dependent upon the marina project going forward. The Coast Guard intends to implement a final rule for disestablishing Anchorage F and establishing Anchorages D and E only after an absolute commitment for establishment of the associated protective pile clusters is obtained."

Economic Assessment and Certification

These proposed regulations are considered to be nonsignificant in accordance with DOT policies and procedures for simplification, Analysis, and Review of Regulations (DOT Order 2100.5). Its economic impact is expected to be minimal since the proposed action simply relocates an existing anchorage. The new locations will provide a slight transit time advantage to the marine towing industry. The cost of establishing the protective pile clusters for each anchorage will be borne by the commercial marina interests benefiting from this relocation. The marine towing industry's cost of compliance with the continual surveillance requirement will be negligible. Anchorages D and E will be utilized as temporary mooring areas for towing vessels and tows during inclement weather or while awaiting a change of towing vessels. These towing vessels are normally manned while moored and would provide the surveillance required by the rule. This corresponds with current practice and the inclusion of this requirement in the rule will insure a rapid response to breakaways which might damage the adjacent lock structure or passing vessels. Preliminary discussions with industry personnel confirm that the formal surveillance requirement will not impose significant additional costs. Based upon this assessment it is certified in accordance with section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605(b)) that this regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, the regulation has been reviewed in accordance with Executive Order 12291 of February 17, 1981, on Federal Regulation and has been determined not to be a major rule under the terms of that order.

Proposed Regulations

PART 110—[AMENDED]

In consideration of the foregoing, the Coast Guard proposes to amend Part 110 of Title 33, Code of Federal Regulations, by removing § 110.205(a)(6), adding §§ 110.205(a)(4) and (a)(5), and revising § 110.205(b)(7) to read as follows:

§ 110.205 [Amended]

(a) * * *

(4) Anchorage D, Chicago Harbor Lock South. Beginning at a point 35.5 feet South (16 feet South of the South face of the Southeast guidewall) and 28.0 feet West of the SE Guide Wall Light; thence Westerly and parallel to the guidewall 800 feet to a point that is 16 feet South of the South face of the Southeast guidewall; thence Southerly 80 feet to a point that is 96 feet South of the South face of the Southeast guidewall; thence Northerly 80 feet to the point of beginning.

(5) Anchorage E, Chicago Harbor Lock North. Beginning at a point 156.75 feet North (16 feet North of the North face of the Northeast guidewall) and 590 feet West of the SE Guidewall Light; thence Westerly and parallel to the guidewall 600 feet to a point that is 16 feet North of the North face of the Northeast guidewall; thence Northerly 80 Feet to a point that is 96 feet North of the North face of the Northeast guidewall; thence Easterly 600 feet to a point that is North of the North face of the Northeast guidewall; thence Southerly 80 feet to the point of beginning.

. . . . . .

(b) * * *

(7) No vessel may use anchorages A, B, D, and E except commercial vessels operated for profit. No person may place floats or buoys for making moorings or anchors in place in anchorages A and B. No person may placed fixed mooring piles or stakes in anchorages A and B. (Mooring facilities are available adjacent to the lakeside guidewalls of the Chicago Harbor Lock in anchorages D and E.) All vessels using anchorages D and E shall moor against pile clusters adjacent to the respective anchorage. Any time barges are moored in Anchorage D or E, a manned towing vessel shall be present in one of these anchorages. Exceptions to this surveillance requirement are allowable for periods not to exceed one hour.

(33 U.S.C. 471; 49 U.S.C. 1655(g)(1); 49 CFR 1.46; and 33 CFR 1.05–1(g))

Dated: March 18, 1985.

A.M. Danielsen,

Rear Admiral, U.S. Coast Guard, Commander, Ninth Coast Guard District.

BILLING CODE 4910-14-M

---

33 CFR Part 117

[CGD5-84-07]

Drawbridge Operation Regulations; Beaufort Channel, NC

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the North Carolina Department of Transportation,

Division of Highways, the Coast Guard is considering amending the regulations that govern the operation of the drawbridge across Beaufort Channel, mile 0.1, at Beaufort, North Carolina. The request is for hourly openings for pleasure craft during the boating season. This proposal is being made in an effort to alleviate highway traffic congestion in the vicinity of the drawbridge. Approval of this request would reduce the number of draw openings and probably still provide for the reasonable needs of navigation.

DATE: Comments must be received by June 3, 1985.

ADDRESS: Comments should be mailed to Commander (oan), 5th Coast Guard District, 431 Crawford Street, Portsmouth, Virginia, 23705–5000. The comments received will be available for inspection and copying at the above address. Room 609, between 8 a.m. and 4 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Wayne J. Creed, Bridge Administrator, Telephone (804) 398–6227.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data, or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal. Persons desiring acknowledgement that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Commander, Fifth Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulation may be changed in light of comments received.

Drafting Information

The drafter of this notice is W.J. Creed, project officer, and Lieutenant Eglee W. Perez-Rodriguez is the project attorney.

Discussion of Proposed Rule

The North Carolina Division of Highways made the request to open the bridge on the hour from 7 a.m. to 7 p.m. because of highway traffic congestion in the vicinity of the bridge.

A survey of the marine related businessess in the area indicated that the proposed bridge schedule would not be opposed by these entities. In view of this, it is reasonable to assume that approval of the request is in the public interest.

Economic Assessment and Certification

This proposed regulation is considered to be non-major under Executive Order 12291 on Federal Regulation and non-significant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. This conclusion is based on the fact that the proposed regulation will have no effect on commercial navigation, or on any industries that depend on waterborne transportation. Since the economic impact of this proposal is expected to be so minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 117

Bridges.

Proposed Regulation

In consideration of the foregoing, the Coast Guard proposes to amend Part 117 of Title 33, Code of Federal Regulations, by adding § 117.822 to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.822 Beaufort Channel.

From May 1 to October 31, the U.S. 70 drawbridge at Beaufort, North Carolina shall open on the hour from 7 a.m. to 7 p.m. for the passage of pleasure craft. To accommodate approaching pleasure craft, the hourly opening may be delayed up to 10 minutes past the hour. Only pleasure boats are affected by this schedule and the standard rules apply to the operation of this bridge.

(33 U.S.C. 499; 49 CFR 1.46(c)(5); 33 CFR 1.05–1(g)(3))

Dated: April 2, 1985.

James C. Irwin,

Rear Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

[FR Doc. 85–9360 Filed 4–17–85; 8:45 am]

BILLING CODE 4910–14–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[OPP–30071B; FRL–2820–5]

Child-Resistant Packaging of Pesticides; Hearing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: The Office of Pesticide Programs of the EPA will hold a public hearing under the provisions of section 21(b) and 25(c) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) to obtain additional information on child-resistant packaging (CRP) of pesticide products. The Agency has under consideration two proposed rules concerning CRP, and wishes to obtain additional information that may not have been submitted in response to the proposals that were published in the **Federal Register**.

DATE: The hearing will take place on Wednesday, May 15, 1985, beginning at 9 a.m. and ending by 2:30 p.m.

ADDRESS: The hearing will be held in: Rm. 1112, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

FOR FURTHER INFORMATION CONTACT:

By mail: Jean M. Frane, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460.

Office location and phone number: Rm. 1114, CM #2, 1921 Jefferson Davis Highway, Arlington, VA, (703–557–0592).

SUPPLEMENTARY INFORMATION: EPA issued a proposal in the **Federal Register** of January 4, 1984 (49 FR 423), to revise its CRP regulations for pesticide products by addition of a size exemption for certain products in large packages. Subsequently, the Agency issued a comprehensive proposal to revise its registration regulations, including those for CRP, contained in 40 CFR Part 162, which was published in the **Federal Register** of September 26, 1984 (49 FR 37916). The Agency is now considering the written comments received on both proposals and intends to issue a single final rule for CRP, consolidating the two proposals.

The Agency has decided to conduct an informal public hearing to obtain further comment that may be useful to the Agency in concluding its rulemaking proceedings for CRP.

The hearing will be limited to comment on child-resistant packaging of pesticides.

Members of the public and interested persons are invited to participate in the hearing. The hearing will be conducted before a panel convened to assist in Agency deliberations. Persons interested in speaking at the hearing should contact Jean Frane at the address or telephone number listed above no later than May 10, 1985. Comments will be limited to 10 minutes per speaker. If more speakers than time permits request to be heard, speakers may be limited to

less than 10 minutes. If time permits after scheduled speakers, persons not scheduled to speak will be heard. The hearing will be recorded and transcribed, and a copy of the transcription will be placed in the public comment file for each rulemaking. Written comments (other than transcripts of a speaker's remarks) will not be accepted. The hearing will end promptly at 2:30 p.m.

All comments will be considered by the Agency before promulgation of its final rule on CRP.

Dated: April 10, 1985.

Steven Schatzow,

Director, Office of Pesticide Programs.

Designation of Areas for Air Quality Planning Purposes; Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This proposed rulemaking would designate Grants Pass, Oregon, as a nonattainment area for carbon monoxide. This proposal is based on measured violations of the ambient air quality standard for carbon monoxide between 1981–1984 in the downtown area. Upon approval, the Department of Environmental Quality, in conjunction with the local and county governments, will develop a carbon monoxide control plan for the area.

DATE: Comments must be postmarked on or before May 20, 1985.

Comments should be addressed to: Laurie M. Kral, Air Programs Branch, M/S 532, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101

ADDRESSES: Copies of the materials submitted to EPA may be examined during normal business hours at:

Air Programs Branch, (10A-85-7), Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101

State of Oregon, Department of Environmental Quality, 522 S.W. Fifth, Yeon Building, Portland, Oregon 97207

FOR FURTHER INFORMATION CONTACT: Loren C. McPhillips, Air Programs Branch, M/S 532, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, Telephone No. (206) 442-4233, (FTS) 399-4233

SUPPLEMENTARY INFORMATION:

I. Background

Under the federal Clean Air Act states may designate areas as nonattainment for carbon monoxide (CO) levels if air quality monitoring shows that CO levels do not meet federal standards.

In response to a request by a local citizen's group, the Department of Environmental Quality (DEQ) expanded its air monitoring activities in the Grants Pass area in 1979. Initial studies identified a potential CO air quality problem in 1981; subsequent special studies during 1982–1984 have confirmed that CO concentrations in Grants Pass have exceeded, and are expected to continue to exceed, the state and federal ambient air quality standards.

The CO standard for an 8-hour average is 100 milligrams per cubic meter (mg/m^3). From the monitoring data taken from the location at Sixth and G Streets, it was found that between 1981–1983, the annual number of days above the Standard for CO levels ranged from 13 days to 38 days, and the CO levels for the second highest day ranged from 12.9 mg/m^3 to 14.9 mg/m^3.

The DEQ submitted its request for redesignation along with proposed boundaries for the nonattainment area on December 10, 1984. Based on this SIP revision, DEQ has devised a schedule for development of the CO control strategy and its submittal to EPA. The schedule currently calls for the SIP to be submitted to EPA by May 1986, consistent with the EPA's policy for newly designated nonattainment areas contained in the Guidance Document for Correction of Part D SIP's for Nonattainment Areas, January 27, 1984.

II. Proposed Action

In accordance with DEQ's request, EPA is proposing today to approve the State's designation of the following area in the Grants Pass central business district as a nonattainment area: beginning at the intersection of B Street and Fifth Street, extending easterly along B Street to Eighth Street; thence southerly along Eighth Street to the Rogue River; thence westerly along the river to Fifth Street; thence northerly along Fifth Street to the starting point.

Interested parties are invited to comment on all aspects of this proposed approval of the Oregon SIP revision. Comments should be submitted in triplicate, to the address listed in the front of this Notice. Public comments postmarked by May 20, 1985 will be considered in any final action EPA takes on this proposal.

Under 5 U.S.C. 605(b), the Administrator has certified that redesignations do not have a significant economic impact on a substantial number of small entities (46 FR 8709).

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

[GSAR Notice No. 5-88]

Application of Thresholds to Contracts With Options

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice invites written comments on a proposed change to the General Services Administration Acquisition Regulation (GSAR) Chapter 5, which will provide clarification on determining the contract value when applying the thresholds for cost and pricing data, field pricing support, and equal employment opportunity preaward clearances to contracts with options. Sections 515.804-2, 515.805-5, and 522.805 would be revised to provide that when determining the contract amount for purposes of applying the thresholds at FAR 15.804-2, 15.801-5 and 22.805(a), the value of the contract plus any priced options shall be considered. The intended effect is to improve the regulatory coverage and provide for uniform application of the referenced FAR provisions by GSA contracting activities.

DATE: Comments are due in writing not later than May 20, 1985.

ADDRESS: Requests for a copy of the proposal and comments should be addressed to Ms. Lena M. Ustad, Office of GSA Acquisition Policy and Regulations, 18th and F Sts., NW., Room 4027, Washington, D.C. 20405.

FOR FURTHER INFORMATION CONTACT: Ms. Shirley Scott, Office of GSA Acquisition Policy and Regulations, (202) 523-2782.

SUPPLEMENTARY INFORMATION:

Impact

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempt certain agency procurement regulations from Executive Order 12291. The exemption applies to this proposed rule. The General Services Administration (GSA) certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The proposed regulation only clarifies the application of an existing requirement of the Federal Acquisition Regulation. Accordingly, no regulatory flexibility analysis has been prepared. The rule does not contain information collection requirements which require the approval of OMB under 44 U.S.C. 3501 et seq.

50 CFR Part 611

[Docket No. 31222-248]

Foreign Fishing

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of hake preliminary reassessment.

SUMMARY: NOAA issues this notice to reassess the domestic annual processing (DAP) amount found in the foreign fishing rule for the Hake Fishery of the Northwest Atlantic Preliminary Fishery Management Plan (PMP), and requests comments for 15 days. The DAP has been reassessed, and a joint venture processing (JVP) amount is specified for red hake in the NW Atlantic 1–4 (Southern New England) area. The intended effect of this action is to allow NMFS to process joint venture applications in 1985.

DATE: Comments must be submitted on or before May 3, 1985.

ADDRESSES: Send comments to Peter Colosi, National Marine Fisheries Services, Northeast Regional Office, 14 Elm Street, Gloucester, Massachusetts 01930. Mark the outside of the envelope "Comments on Hake Specifications".

FOR FURTHER INFORMATION PLEASE CONTACT: Peter Colosi, 617-281-3600, ext. 272.

SUPPLEMENTARY INFORMATION: Foreign fishing regulations that govern the Atlantic hakes PMP contain procedures at § 611.51(b) to reassess DAP. If a joint venture fishing application is received for an amount of hake which exceeds the JVP specified in the annual fishing year initial specifications, the Secretary will reassess DAP to determine whether additional JVP can be made available. In making the reassessment, the Secretary will consult with the appropriate fishery management councils, and consider those factors listed at § 611.51(b)(ii) to assess the current and projected U.S. harvesting and processing performance. The preliminary reasssessment will be published in the **Federal Register** and a public comment period of 15 days will be provided.

The Secretary has received a joint venture request for 6,000 metric tons (mt) of Southern New England red hake. The request exceeds the current specified JVP specification of zero (o) mt. Therefore, the Secretary has conducted a reassessment of DAP as discussed above.

The PMP specifies a 13,000 mt DAH and DAP for Southern New England red hake. However, the actual red hake catch from this are has been at low levels in recent years, avaraging only 1,300 mt during 1981–1984. This level of performance is a reasonable reflection of the past and present DAP. This implies that a substantial amount of DAP for red hake may be made available for red hake JVP.

The Secretary expects that the 1981–1984 trend will continue in 1985. Catches from traditional hake harvesters are expected to be comparable to last year's level of 1,300 mt. In addition, four new domestic catcher/processor vessels in operation this year have indicated no directed effort toward red hake, although very small amounts of by-catch may occur.

Given the current and projected situation, the Secretary therefore respecifies the Northwest Atlantic 1–4 area DAP to 7,000 mt. This allows 6,000 mt of red hake for JVP, as indicated in the table below. There is no increase in the estimated domestic annual harvest.

PRELIMINARY REASSESSMENT OF RED HAKE IN THE NW ATLANTIC 1-4 AREA FOR THE 1985 ANNUAL FISHING YEAR

Specification [1]	Initial amount (mt)	Reassessed amount (mt)
OY or TAC	16,000	.....
DAH	13,000	.....
DAP	13,000	7,000
JVP	0	6,000
Reserve	0	.....
TALFF	2,500	.....

[1] Optimum yield or total allowable catch (OY or TAC), domestic annual harvest (DAH), domestic annual processing (DAP), joint venture processing (JVP), total allowable levels of foreign fishing (TALFF)

BILLING CODE 6116–01–M

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Mississippi Forest Resource Development Program; Determination of Primary Purpose of Program Payments for Consideration as Excludable From Income

AGENCY: Office of the Secretary, USDA.

ACTION: Notice of determination.

SUMMARY: The Secretary of Agriculture has determined that payments made to landowners under the Mississippi Forest Resource Development Program are made primarily for purposes of improving forests. This determination, which is made in accordance with section 126 of the Internal Revenue Code of 1954, as amended, and the provisions of 7 CFR Part 14, permits recipients of these payments to exclude some or all of them from gross income for Federal income tax purposes of certain other conditions are met.

FOR FURTHER INFORMATION CONTACT: Frederick A. Dorrell, Director, Cooperative Forestry, Forest Service, USDA, P.O. Box 2417, Washington, DC 20013, (703) 235–2212.

SUPPLEMENTARY INFORMATION: Section 126 of the Internal Revenue Code of 1954, as added by the Revenue Act of 1978 and amended by the Technical Corrections Act of 1979, provides that certain payments made under State programs may be eligible for exclusion from gross income if certain determinations are made. The Secretary of Agriculture must determine whether payments made under a State program, as described in section 126(a)(10), are "made primarily for the purpose of conserving soil and water resources, protecting or restoring the environment, improving forests, or providing a habitat for wildlife." In making this determination, the Secretary of Agriculture must evaluate each program according to criteria set forth in 7 CFR Part 14.

One such program, the Forest Resource Development Program, is carried out by the State of Mississippi under the Forest Resource Development Act of 1974 (Miss. Code 1972 §§ 49–19–201 to 227). The program provides technical and financial assistance to nonindustrial private forest landowners to ensure that Mississippi continues to develop its forest economy. The program is administered by the State Forestry Commission through the State Forester. An eligible entity is a private individual, group, association or corporation which owns lands suitable for forestry purposes. Private corporations which manufacture products or provide public utility services are not eligible for assistance. Agencies of the State and any political subdivisions thereof which own land also qualify for assistance.

Cost-share payments are made to landowners for the satisfactory installation of approved practices for establishing and improving a stand of trees for timber and game management purposes. Approved practices are tree planting, seeding, timber stand improvement, prescribed burning, site preparation, and systematic planting of hardwood trees for wildlife.

The authorizing legislation, regulations, and operating procedures for the Forest Resource Development Program of the State of Mississippi have been carefully examined using the criteria set forth in 7 CFR Part 14. The Department has concluded that the payments made under this forestry cost-share program are made to provide financial assistance to agricultural landowners in carrying out forest improvement practices. A "Record of Decision, Mississippi Forest Resource Development Program: Primary Purpose Determination for Federal Tax Purposes" has been prepared and is available upon request from Cooperative Forestry, Forest Service. Requests may be sent to the address listed above.

Determination

It is hereby determined in accordance with section 126(b)(1) of the Internal Revenue Code of 1954, as amended, and 7 CFR Part 14 that all cost-share payments made after September 30, 1979, for forestry conservation practices under the Mississippi Forest Resource Development Program as authorized by the Forest Resource Development Act of 1974 are made primarily for the purpose of improving forests.

Signed at Washington, DC, on April 2, 1985.

John R. Block,
Secretary of Agriculture.

[FR Doc. 85–9294 Filed 4–17–85; 8:45 am]
BILLING CODE 3410–01–M

California Forest Improvement Program; Determination of Primary Purpose of Program Payments for Consideration as Excludable From Income Under Section 126 of the Internal Revenue Code of 1954, as Amended

AGENCY: Office of the Secretary, USDA.

ACTION: Notice of determination.

SUMMARY: The Secretary of Agriculture has determined that payments made to landowners under the California Forest Improvement Program (CFIP) after September 30, 1979, are made primarily for the purpose of improving forests. This determination, which is made in accordance with section 126 of the Internal Revenue Code of 1954, as amended, and the provisions of 7 CFR Part 14, permits recipients of these payments to exclude some or all of them from gross income for Federal income tax purposes if certain other conditions are met.

FOR FURTHER INFORMATION CONTACT: Frederick A. Dorrell, Director, Cooperative Forestry, Forest Service,

USDA, P.O. Box 2417, Washington, DC 20013, (703) 235–2212.

SUPPLEMENTARY INFORMATION: Section 126 of the Internal Revenue Code of 1954, as added by the Revenue Act of 1978 and amended by the Technical Corrections Act of 1979, provides that certain payments made under State programs may be eligible for exclusion from gross income if certain determinations are made. The Secretary of Agriculture must determine whether payments made under a State program, as described in section 126(a)(10), are "made primarily for the purpose of conserving soil and water resources, protecting or restoring the environment, improving forests, or providing a habitat for wildlife." In making this determination, the Secretary of Agriculture must evaluate each program according to criteria set forth in 7 CFR Part 14.

One such program carried out by the State of California is the California Forest Improvement Program which is authorized by the California Forest Improvement Act of 1978 (Cal. Pub. Res. Code sections 4790 *et seq.*(West)). The program provides technical and financial assistance to private landowners to encourage them to upgrade the management of their forest land resources to ensure adequate future high quality timber supplies. The Director of the California Department of Forestry administers the program subject to the review of program regulations and guidelines by the State Board of Forestry.

Any private individual, group, association, or cooporation owning not more than 5,000 acres of forest land in the State is eligible for cost-share assistance under the CFIP. Land located in a Timberland Preserve Zone (TPZ) automatically qualifies for CFIP. TPZ in the State of California was authorized by the Forest Taxation Reform Act of 1976 aimed at retaining prime commercial forest land in timber production. On these lands, the growing and harvesting of timber is recognized as the highest and best use. The owner of land not zoned TPZ must agree with the State of California to maintain the forest resource improvements applied under CFIP a minimum of 10 years. This obligation shall be binding upon the new owner if there is a change in the ownership of the land. Work required on recently harvested lands subject to the 'Z' berg-Nejedly Forest Practice Act of 1973 is not eligible under the CFIP. The 'Z'berg-Nejedly Act established minimum stocking standards which must be attained by the landowner within five years after harvest on private lands logged subsequent to 1974. Since this statute already requires the landowner to satisfactorily restock lands on which harvesting has occurred, assistance under the CFIP is not applied on these lands following a harvest cut.

Cost-share payments are made to eligible landowners and other entities for satisfactory installation of approved forest resource improvement practices. These practices are categorized as follows: (1) Development of long-term forest management plans, (2) site preparation, (3) planting, (4) stand improvement, (5) forest land conservation measures, (6) fish and wildlife habitat improvement, and (7) needed followup work on these practices.

The authorizing legislation, regulations, and operating procedures for the CFIP have been carefully examined by agencies of the United States Department of Agriculture using the criteria set forth in 7 CFR Part 14. The Department has concluded that the cost-share payments made under this forestry cost-share program are made to provide financial assistance to agricultural landowners in carrying out practices which will improve forests. A "Record of Decision, California Forest Improvement Act of 1978 Program: Primary Purpose Determination for Federal Tax Purposes" has been prepared and is available upon request from Cooperative Forestry, Forest Service. Requests may be sent to the address listed above.

Determination

Therefore, it has been determined in accordance with section 126(b)(1) of the Internal Revenue Code of 1954, as amended, and 7 CFR Part 14 that all cost-share payments made to individuals after September 30, 1979, for conservation practices under the California Forest Improvement Program are made primarily for the purpose of improving forests.

Signed at Washington, DC, on April 2, 1985.
Dated:

John R. Block,

Secretary of Agriculture.

BILLING CODE 3410–01–M

Agricultural Stabilization and Conservation Service

Determinations of a National Wheat Marketing Quota and Acreage Allotment for the 1986/87 Marketing Year and the Conducting of a Producer Referendum

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Notice of determinations of a national wheat marketing quota and acreage allotment for the 1986/87 marketing year and the conducting of a producer Referendum.

SUMMARY: The purpose of this notice is to proclaim that a national wheat marketing quota of 1955 million bushels and a national acreage allotment of 54.0 million acres shall be in effect for the 1986/87 (1986-crop) marketing year. Also, a referendum of farmers to determine whether they favor or oppose marketing quotas will be conducted by August 1, 1985. These determinations are made in accordance with sections 301(b)(8)(B), 301(b)(10)(A), 301(b)(16)(A), 332 (a) and (b), 333 and 336 of the Agricultural Adjustment Act of 1938, as amended (hereinafter referred to as the "1938 Act").

EFFECTIVE DATE: April 15, 1985.

ADDRESS: Everett Rank, Administrator, Agricultural Stabilization and Conservation Service (ASCS), USDA, Room 3086 South Building, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT: Bruce R. Weber, Agricultural Marketing Specialist, Commodity Analysis Division, USDA-ASCS, Room 3738 South Building, P.O. Box 2415, Washington, D.C. 20013 or call (202) 447–4146. The Final Regulatory Impact Analysis describing the information considered in developing this notice of determination is available on request from the above-named individual.

SUPPLEMENTARY INFORMATION: This notice has been reviewed under USDA procedures established in accordance with Executive Order 12291 and Departmental Regulation No. 1512–1 and has been designated as "not major". It was designated "not major" because it will not result in: (1) An Annual effect on the economy of $100 million or more; (2) major increases in costs or prices for consumers, individual industries, Federal, State or local Government agencies, or geographic regions; or (3) significant adverse impacts on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign based enterprises in doemstic or export markets.

The title and number of the federal assistance program to which this notice applies are: Title-Wheat Production Stabilization; Number 10.058 as found in the catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this notice since the

Agricultural Stabilization and Conservation Service is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of these determinations.

It has been determined by an environmental evaluation that this action will have no signficant impact on the quality of the human environment. Therefore, neither an environmental assessment nor an Environmental Impact Statement is needed. This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR Part 3015, Subpart V, published at 48 FR 29115 (June 24, 1983).

This notice sets forth determinations with respect to the following issues which are briefly described.

1. *Projected National Yield.* Section 301(b)(8)(B) of the 1938 Act provides that the projected national yield as applied to any crop of wheat shall be determined on the basis of the national yield per harvested acre of the commodity during each of the five years immediately preceding the year in which such projected national yield is determined, adjusted for abnormal weather conditions affecting such yield, for trends in yields and for any significant changes in production practices.

2. *Normal Supply.* Section 301(b)(10)(A) of the 1938 Act provides that the normal supply of wheat for any marketing year shall be (i) the estimated domestic consumption of the commodity for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus (ii) the estimated exports of the commodity for the marketing year for which normal supply is being determined, plus (iii) an allowance for carryover. The allowance for wheat carryover shall be 20 percent of the sum of the consumption and exports used in computing normal supply.

3. *Total Supply.* Section 301(b)(10)(A) of the 1938 Act provides that the total supply of wheat for any marketing year shall be the carryover of wheat for that marketing year, plus the estimated production of wheat in the United States during the calendar year in which the marketing year begins and the estimated imports of wheat into the United States during that marketing year.

4. *Proclamation of Supplies and Marketing Quotas.* Section 332(a) of the 1938 Act provides that whenever prior to April 15 in any calendar year the Secretary determines that the total supply of wheat in the marketing year beginning in the next succeeding calendar year will, in the absence of a marketing quota program, likely be excessive, the Secretary shall proclaim that a national marketing quota for wheat shall be in effect for that marketing year and for either the following marketing year or the following two marketing years, if the Secretary determines and declares in such proclamation that a two- and three-year marketing quota program is necessary to effectuate the policy of the 1938 Act.

Section 332(b) provides that if a national marketing quota for wheat has been proclaimed for any marketing year, the Secretary shall determine and proclaim the amount of the national marketing quota for such marketing year not earlier than January 1 or later than April 15 of the calendar year preceding the year in which such marketing year begins. The amount of the national marketing quota for wheat for any marketing year shall be an amount of wheat which the Secretary estimates (i) will be utilized during such marketing year for human consumption in the United States as food, food products, and beverages, composed wholly or partly of wheat, (ii) will be utilized during such marketing year in the United States for seed, (iii) will be exported either in the form of wheat or products thereof, and (iv) will be utilized during such marketing year in the United States as livestock (including poultry) feed, less (A) an amount of wheat equal to the estimated imports of wheat into the United States during such marketing year and, (B) if the stocks of wheat owned by the Commodity Credit Corporation are determined by the Secretary to be excessive, an amount of wheat determined by the Secretary to be a desirable reduction in such marketing year in such stocks to achieve the policy of the 1938 Act. However, if the Secretary determines that the total stocks of wheat in the Nation are insufficient to assure an adequate carryover for next succeeding marketing year, the national marketing quota otherwise determined shall be increased by the amount the Secretary determines to be necessary to assure an adequate carryover. Notwithstanding the foregoing, the national marketing quota for wheat for any marketing year shall be not less than one billion bushels.

Section 332(c) provides that if, after the proclamation of a national marketing quota for wheat for any marketing year, the Secretary has reason to believe that, because of a national emergency or because of material increase in the demand for wheat, the national marketing quota should be terminated or the amount thereof increased, the Secretary shall cause an immediate investigation to be made to determine whether such action is necessary in order to meet such emergency or increase in the demand for wheat. If, on the basis of such investigation, the Secretary finds that such action is necessary, the Secretary shall immediately proclaim such finding and the amount of any such increase found to be necessary and thereupon such national marketing quota shall be so increased or terminated. In case any national marketing quota is increased under section 332(c), the Secretary shall provide for such increase by increasing acreage allotments established under the provisions of the 1938 Act by a uniform percentage.

5. *Proclamation of National Acreage Allotment.* Section 333 of the 1938 Act provides that the Secretary shall proclaim a national acreage allotment for each crop of wheat. The amount of the national acreage allotment for any crop of wheat shall be the number of acres which the Secretary determines on the basis of the projected national yield and expected underplantings (i.e., acreage other than that which is not harvested because of program incentives) of farm acreage allotments will produce an amount of wheat equal to the national marketing quota for wheat for the marketing year for such crop, or, if a national marketing quota was not proclaimed, the quota which would have been determined if one had been proclaimed.

6. *Commercial Area.* Section 334a of the 1938 Act provides that if the acreage allotment for any State for any crop of wheat is twenty-five thousand acres or less, the Secretary, in order to promote efficient administration of the 1938 Act and the Agricultural Act of 1949, may designate that State as outside the commercial wheat-producing area for the marketing year for such crop. If that State is so designated, acreage allotments for such crop and marketing quotas for the marketing year shall not be applicable to any farm in that State. Acreage allotments in any State shall not be increased by reason of such designation.

7. *Referendum.* Section 336 of the 1938 Act provides that if a national marketing quota for wheat for one, two or three marketing years is proclaimed, the Secretary shall, not later than August 1 of the calendar year in which such national marketing quota is proclaimed, conduct a referendum, by secret ballot, of farmers to determine whether they favor or oppose marketing quotas for the

marketing year or years for which proclaimed. Any producer who has a farm acreage allotment shall be eligible to vote in any referendum held in accordance with the provisions of section 336. The Secretary shall proclaim the results of any referendum which is held within thirty days after the date of the referendum. If the Secretary determines that more than one-third of the farmers voting in the referendum voted against marketing quotas, the Secretary shall proclaim that marketing quotas will not be in effect with respect to the crop of wheat produced for harvest in the calendar year following the calendar year in which the referendum is held. If the Secretary determines that two-thirds or more of the farmers voting in a referendum approve marketing quotas for a period of two or three marketing years, no referendum shall be held for the subsequent year or years of such period.

Section 332 of the 1938 Act requires the Secretary to proclaim whether or not marketing quotas will be in effect for the 1986/87 (1986-crop) wheat marketing year by April 15, 1985. Other required determinations relating to the proclamation of marketing quotas are also being made. In accordance with the above described provisions, the Secretary has made the following determinations with respect to the 1986/87 wheat marketing year.

Determinations

1. *Determination of Total and Normal Supply.* In accordance with Sections 301(b)(8)(B) and 301(b)(16)(A) of the 1938 Act, it is hereby determined that total wheat supplies for the 1986/87 marketing year (MY) will exceed normal supplies for such year and, therefore, supplies of wheat will be excessive in the absence of a marketing quota. This determination is based on the following:

Item	Million bushels
A. *Total Supply:*	
(1) Carryover, June 1, 1986	1,691
(2) Estimated production (1986 crop)	2,770
(3) Estimated imports (1986/87 MY)	5
(4) Total Supply	4,466
B *Normal Supply:*	
(1) (Estimated domestic consumption (1985/86 MY).	
a. Food	650
b. Feed	300
c. Seed	105
(2) Estimated exports (1986/87 MY)	1,250
(3) Allowance for carryover (equal to 20 percent of item 1 plus 2)	461
(4) Total normal supply	2,766
C Estimated excess supply. (Item A(4) minus B(4))	1,700

2. *Proclamation of National Marketing Quota.* In accordance with section 332 of the 1938 Act, it is hereby determined that the amount of the national marketing quota for the 1986/87 wheat marketing year shall be 1955 million bushels. It is further determined that a two- or three-year marketing quota program is not necessary to effectuate the policy of the 1938 Act. The quota proclamation is based upon the following:

Item	Million bushels
A Estimated utilization for 1986/87 MY	
(1) Domestic human consumption	660
(2) Seed	100
(3) Feed	250
(4) Exports	1,250
(5) Total utilization	2,260
B Less estimated imports	5
C. Decrease in excessive CCC stocks [1]	300
D. Increase in total stocks to assure an adequate carryover [2]	0
E National marketing quota	1,955

[1] CCC carryover stocks on June 1, 1986 are estimated at about 800 million bushels. The Food Security Wheat Reserve accounts for 147 million bushels. The remaining 653 million bushels would be available for disaster reserve and food aid commitments as needed. An adequate CCC stock level, including the Food Security Reserve, is considered to be about 500 million bushels. Therefore, 300 million bushels is determined to be a desirable reduction in CCC stocks to achieve the policy of the 1938 Act.

[2] Carryover stocks on June 1, 1986 are estimated to be about 1,690 million bushels, a level considered excessive. Therefore, no increase in total stocks is necessary to assure an adequate carryover.

3. *Determination of Projected National Yield.* In accordance with section 301(b)(8)(B) of the 1938 Act, it is hereby determined that the projected national yield for the 1986 crop of wheat shall be 37.3 bushels per acre. This determination is based upon the following:

Item	Bushels/acre
A. Average harvested yield-Corp years 1980-84	36.3
B. Abnormal weather adjustment [1]	0.0
C. Trend adjustment [2]	+1.0
D Adjustment for changes in production practices	0.0
E Projected National Yield	37.3

[1] Weather adjustment consideration: 1980-84 average yield times .8 and 1.25. If any annual yield is below the .8 computation or above the 1.25 computation, the computed yield is substituted. Based on this formula, no adjustments were necessary.

[2] Based upon a 10-year (1975-84) simple time series regression analysis.

4. *Proclamation of National Acreage Allotment.* In accordance with section 333 of the 1938 Act, it is hereby determined that the national acreage allotment for the 1986-crop of wheat shall be 54.0 million acres. This determination is based upon the following:

Item	Amount
A. National marketing quota (million bushels)	1955
B Divided by projected national average yield (bu/ac)	37.3
C. Preliminary national acreage allotment (mil. ac.)	52.4
D. Plus expected underplantings (mil. ac.) [1]	1.6
E Proclaimed national acreage allotment (mil. ac.)	54.0

[1] Based on a comparison of 1984 harvested acreage plus conservation use acreage for each State to the preliminary apportionment of the State acreage allotment.

5. *Determination of Commercial Area.* In accordance with section 334a of the 1938 Act, it is hereby determined that all States will be considered as commercial wheat-producing areas for the 1986/87 marketing years.

6. *Referendum.* In accordance with section 336 of the 1938 Act, it is hereby determined that a referendum will be conducted before August 1, 1985 of farmers to determine whether they favor or oppose marketing quotas for 1986/87 marketing years.

The type of referendum (polling place or mail ballot) and other detailed program provisions will be announced later. A notice of proposed determinations seeking public comments on these various program determinations will be published at a later date.

Authority: Sec. 301(b), 332, 333, 334a and 336, 52 Stat. 38, as amended, 53, as amended, 76 Stat. 620, 52 Stat. 55, as amended (7 U.S.C. 1301(b), 1332, 1333, 1334b and 1336).

Signed at Washington, D.C. on April 15, 1985.

John R. Block,

Secretary.

BILLING CODE 3410-05-M

Soil Conservation Service

Supplement to Bayou Plaquemine Brule Watershed, Louisiana

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Supplement to Bayou Plaquemine Brule Watershed, Acadia and St. Landry Parishes, Louisiana.

FOR FURTHER INFORMATION CONTACT: Harry S. Rucker, State Conservationist, Soil Conservation Service, 3737 Government Street, Alexandria, Louisiana 71302, telephone (318) 473-7751.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates tha the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Harry S. Rucker, State Conservationist, has determined that the

preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for flood prevention and drainage for cropland. The planned works of improvement include 49.5 miles of project channel with appurtenant structures and associated land treatment.

Supplement to Bayou Plaquemine Brule Watershed, Louisiana Notice of a Finding of No Significant Impact

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Harry S. Rucker.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Dated: April 11, 1985.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program. Office of Management and Budget Circular A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable)

Harry S. Rucker,

State Conservationist.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 300]

Resolution and Order Approving the Application of the County of Onondaga, New York, for a Special-Purpose Subzone in Cortland County, New York, Adjacent to the Syracuse Customs Port of Entry

Resolution And Order

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter, hereby orders:

After consideration of the application of the County of Onondaga, New York, grantee of Foreign-Trade Zone 90, filed with the Foreign-Trade Zone Board (the Board) on February 1, 1985, requesting special-purpose subzone status for the typewriter manufacturing plant of SCM Corporation's Smith-Corona operation, located in Cortland County, New York, adjacent to the Syracuse Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

The Secretary of Commerce, as Chairman and Executive Office of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

Grant of Authority To Establish a Foreign-Trade Subzone in Cortland County, New York

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes", as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Board's regulations (15 CFR 400.304) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and where a significant public benefit will result;

Whereas, the County of Onondaga, New York, grantee of Foreign-Trade Zone No. 90, has made application (filed February 1, 1985, Docket No. 3-85, 50 FR 5653) in due and proper form to the Board for authority to establish a special-purpose subzone at the typewriter manufacturing plant of SMC Corporations's Smith-Corona operation is Cortland County, New York, adjacent to the Syracuse Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and,

Whereas, the Board has found that the requirements of the Act and the Board's regulations are satisfied;

Now therefore, in accordance with the application filed February 1, 1985, the Board hereby authorizes the establishment of a subzone at SMC Corporation's Smith-Corona typewriter plant in Cortland County, designated on the records of the Board as Foreign-Trade Subzone No. 90A at the location mentioned above and more particularly described on the maps and drawings accompanying the application, said grant of authority being subject to the provisions and restrictions of the Act and the Regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Activation of the subzone shall be commenced within a reasonable time from the date of issuance of the grant, and prior thereto, any necessary permits shall be obtained from Federal, State, and municipal authorities.

Officers and employees of the United States shall have free and unrestricted access to and throughout the foreign-trade subzone in the performance of their official duties.

The grant shall not be construed to relieve responsible parties from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said subzone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer or his delegate at Washington, D.C. this 4th day of April 1985, pursuant to Order of the Board.

Foreign-Trade Zones Board.

William T. Archey,

Acting Assistant Secretary of Commerce for Trade Administration Chairman, Committee of Alternates.

BILLING CODE 3510-05-M

International Trade Administration

Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles; Harvard University et al.

Correction

In FR Doc 85-6768 appearing on page 14276 in the issue of Thursday, April 11, 1985, made the following correction: In the second column, in the fifth complete paragraph, in the first line, "Docket No. 83-026" should read "Docket No. 84-026".

BILLING CODE 1505-01-M

[A-588-401]

Antidumping Duty Order; Calcium Hypochlorite From Japan

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: The United States Department of Commerce (the Department) and the United States International Trade Commission (the ITC) have determined that calcium hypochlorite from Japan is being sold at less than fair value and that sales of this product are materially injuring a United States industry. Therefore, based on these findings, all unliquidated entries, or warehouse withdrawals, for consumption of this product made on or after October 9, 1984, the date on which the Department published its preliminary determination of sales at less than fair value in the **Federal Register**, will be liable for the possible assessment of antidumping duties. Further a cash deposit of estimated antidumping duties must be made on all such entries, and withdrawals from warehouse, for consumption made on or after the date of publication of this antidumping duty order in the **Federal Register**.

SUPPLEMENTARY INFORMATION: The merchandise covered by this investigation is calcium hypochlorite, currently provided for in item 418.2200 of the *Tariff Schedules of the United States (Annotated).*

In accordance with section 733 of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673b), on October 9, 1984, the Department published its preliminary determination that there was reason to believe or suspect that calcium hypochlorite from Japan was being sold at less than fair value. On February 27, 1985, the Department published its final determination that these imports were being sold at less than fair value.

On April 8, 1985, in accordance with section 735(d) of the Act (19 U.S.C. 1673d(d)), the ITC notified the Department that imports of calcium hypochlorite are materially injuring a United States industry.

Therefore, in accordance with sections 736 and 751 of the Act (19 U.S.C. 1673e and 1675), the Department directs United States Customs officers to assess, upon further advice by the administering authority pursuant to section 736(a)(1) of the Act (19 U.S.C. 1673e(a)(1)), antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all entries of calcium hypochlorite from Japan.

These antidumping duties will be assessed on all unliquidated entries of such merchandise entered, or withdrawn from warehouse, for consumption on or after October 9, 1984, the date on which the Department published its "Preliminary Determination of Sales At Less Than Fair Value" Notice in the **Federal Register.**

On and after the date of publication of this notice, United States Customs officers must require, at the same time as importers would normally deposit estimated customs duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as noted below:

Manufacturers, producers and exporters	Identification No	Weighted average margin (percent)
Nissan Denka Co., Ltd	A-588-401-001	0.9
Nippon Soda Co., Ltd	A-588-401-002	20.01
All other manufacturers, producers and exporters	A-588-401-003	12.29

This determination constitutes an antidumping order with respect to calcium hypochlorite from Japan pursuant to section 736 of the Act (19 U.S.C. 1673e) and § 353.48 of the Commerce Regulations (19 CFR 353.48). We have deleted from the Commerce Regulations, Annex 1 of 19 CFR Part 353, which listed antidumping findings and orders currently in effect. Instead, interested parties may contact the Office of Information Services, Import Administration, for copies of the updated list of orders currently in effect.

This notice is published in accordance with section 736 of the Act (19 U.S.C. 1673e) and § 353.48 of the Commerce Regulations (19 CFR 353.48).

Alan F. Holmer,

Deputy Assistant Secretary for Import Administration.

April 13, 1985.

BILLING CODE 3510-DS-M

National Bureau of Standards

[Docket No. 40454-5010]

Approval of Federal Information Processing Standard 111, Storage Module Interfaces (With Extensions of Enhanced Storage Module Interfaces)

AGENCY: National Bureau of Standards, Commerce.

ACTION: The purpose of this notice is to announce that the Secretary of Commerce (Secretary) has approved a new standards, which will be published as FIPS Publication 111.

SUMMARY: The Storage Module Drive (SMD) interface is a widely used device level interface between magnetic disk drives and their controllers. This new standard adopts American National Standard X3.91M-1982, Enhanced Storage Module Interfaces.

The document which was presented to the Secretary, is part of the public record and is available for inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 6628, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW., Washington, DC 20230.

This standard may be used as an alternative to FIPS 60-2, I/O Channel Interface, plus either FIPS 63-1, Operational Specifications for Variable Block Rotating Mass Storage Subsystems, or FIPS 97, Operational Specifications for Fixed Block Rotating Mass Storage Subsystems, when these standards would otherwise be required. When FIPS 111 is employed, FIPS 60-2 need not be used. Although the I/O channel is a computer to controller interface, and the SMD is a controller to device interface, the use of either one facilitates two important Federal needs: (1) Competitive procurement of generic disk drives or subsystems available from multiple vendors, and (2) enhancement of reutilization opportunities for surplus equipment (computers which use either the I/O Channel interface or the Storage Module Drive interface are widespread in the Federal inventory).

Although SMD disks are used in some large mainframe or superminicomputer systems where FIPS 60-2 applies, their primary use is in minicomputer systems where FIPS 60 does not apply. Consideration for Federal use of FIPS 111 is recommended with all minicomputer systems, since significant savings can frequently be achieved through the use of generic, multiple sourced drives.

The approved standard contains two portions: (1) An announcement portion which provides information concerning the applicability, implementation, and maintenance of the standard, and (2) a specifications portion which deals with the technical requirements of the standard. Only the announcement portion of the standard is provided in this notice.

In general, rigorous verification of all SMD products offered to the Government will be neither necessary

nor practical. However, procuring agencies may elect to require that correct operation of all interfaces conforming to FIPS 111 be verified through demonstration or other means acceptable to the Government prior to acceptance of all applicable equipment. In special cases, NBS may assist agencies to evaluate conformance to the SMD interface.

ADDRESS: Interested parties may purchase copies of this standard, including the technical specifications portion, from the National Technical Information Service (NTIS). Specific ordering information from NTIS for this set out in the Where to Obtain Copies Section of the announcement portion of the standard.

FOR FURTHER INFORMATION CONTACT: Mr. William E. Burr, Center for Computer Systems Engineering, Institute for Computer Sciences and Technology, National Bureau of Standards, Gaithersburg, MD 20899, (301) 921–3723.

Dated: April 12, 1985.

Ernest Ambler,

Director.

Federal Information Processing Standards Publication 111

(Date)

Announcing the Standard for Storage Module Interfaces

(With Extensions for Enhanced Storage Module Interfaces)

Federal Information Processing Standards Publications are issued by the National Bureau of Standards pursuant to section 111(f)(2) of the Federal Property and Administrative Services Act of 1949, as amended, Public Law 89–306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973) and Part 6 of Title 15 Code of Federal Regulations (CFR).

Name of Standard. Storage Module Interfaces (with extensions for enhanced storage module interfaces) (FIPS PUB 111).

Category of Standard. Hardware Standard, Interface.

Explanation: The Storage Module Drive (SMD) interface is an interface between a disk device and its controller which is widely used in disk subsystems that are employed with small to medium sized computer systems. (By contrast, the FIPS 60 type interface employed in large systems defines the interconnection between a peripheral controller and the I/O channel of a central processing unit.) These smaller sized computer systems are generally excluded from the provisions of FIPS 60, 61, 63, and 97. An American National Standard (ANS) for the SMD interface, entitled Storage Module Interfaces, has been approved by the American National Standards Institute as X3.91M–1982. Since the approval of this standard, a number of new SMD magnetic disk products have been introduced which use recording rates and storage densities much higher than were available when the standard was developed. Since the SMD interface is a device level interface, these newer storage products, with greatly improved capacities and performance, cannot conform to all the provisions of X3.91M–1982. However, with the extensions and modifications specified in the FIPS, higher performance products as well as the older SMD products which do conform to X3.91M–1982, may be competitively procured. These newer products, often referred to as Enhanced SMD disk drives, have recording rates of between 15 and 24 Mbits/s. While SMD drives have been traditionally used with minicomputers, many of the newer high performance drives are suitable for use with larger main frame computer systems. A very large and competitive marketplace exists for SMD and enhanced SMD drives and controllers with numerous suppliers. Federal users may therefore wish to employ SMD or Enhanced SMD type drives in main frame computer applications where FIPS 60 type interfaces have previously been required, and may, in some cases, realize significant savings by doing so. In other cases, where FIPS 60 has not been required, significant savings may still be realized.

The Government's intent in employing this standard prescribing the Storage Module Interfaces Standard is to reduce the cost of satisfying its data processing requirements through increasing its available alternative sources of supply for computer systems components at the time of initial system acquisition, as well as in system replacement and augmentation and in system component replacement. This standard is also expected to lead to improved reutilization of system components. When acquiring ADP systems and system components, Federal agencies may cite this standard as an alternative to specifying FIPS 60. Consideration should also be given to specifying this standard as the interface to be employed for connecting storage module devices as a part of the ADP systems, where FIPS 60 does not apply.

Approving Authority. Secretary of Commerce.

Maintenance Agency. Department of Commerce, National Bureau of Standards (Institute for Computer Sciences and Technology).

Cross Index. American National Standard X3.91M–1982, Enhanced Storage Module Interfaces.

Applicability. This standard addresses connection of a disk drive to controller as part of an ADP system. For acquisition of magnetic disk drives or magnetic disk subsystems, this standard may be cited as an alternative to specifying the FIPS 60 channel level interface and FIPS 61, plus either FIPS 63 or FIPS 97 for those instances when FIPS 60 would otherwise be applicable. If FIPS 60 does not apply, consideration of this standard is recommended.

A procuring agency may require vendors to verify that the interface on their products conforms to this standard. In special cases, NBS may assist agencies in evaluating conformance to the SMD interface.

Specifications. Affixed. The standard shall be specified by ANSI X3.91M–1982, sections 1 through 5. Section 6, Interface Extensions, of ANSI X3.91M–1982 shall not be considered a part of this standard.

In addition, to permit the use of new higher performance and capacity "enhanced" drives than were contemplated in X3.91M–1982, the following extensions and modifications to X3.91M–1982 shall apply:

(a) Many new products exceed the maximum cylinder address space of 1024 cylinders. Such products may utilize either of two modes of extending addressing:

(1) While TAG is asserted, BUS 7 shall signify 2^{10} cylinders, BUS 8 shall signify 2^{11} cylinders and BUS 9 shall signify 2^{12} cylinders, or

(2) TAG 4 shall signify 2^{10} cylinders, while TAG 1 is asserted.

(b) Drives which exceed a transfer rate of 10 Mbits/s need not observe the minimum setup and hold times specified in Figures 20 and 21, titled READ CLOCK and READ DATA, and WRITE CLOCK and WRITE DATA respectively, since these minimums are fundamentally inconsistent with higher transfer rates.

(c) To allow for higher performance drives, the minimum timing requirements of 5.8.3 HEAD SET to READ GATE, 5.8.4 WRITE GATE to READ GATE, 5.10.3 HEAD SET to READ ADDRESS MARK and 5.10.4 WRITE GATE to READ ADDRESS MARK need not be observed.

(d) To allow for higher performance drives, the 500 ns minimum timing requirements of 5.9.4 READ GATE to WRITE GATE need not be observed.

(e) A number of new products provide diagnostic status information which is not contemplated in X3.91M–1982.

Drives may employ UNIT READY, ON CYLINDER, SEEK ERROR, FAULT, WRITE PROTECT, ADDRESS MARK, SECTOR MARK, all sourced by the drive, for additional status reporting when SELECT, and various other signals are asserted by the controller.

Note that these changes do not restrict the use of older, "unenhanced" SMD drives. A revision of ANS X3.91M is in progress. When it is published, it is anticipated that this Federal Information Processing Standard will be revised to adopt the revised ANS.

Implementation. The provisions of this standard are effective 30 days after the date of publication of the announcement portion of the approved standard in the **Federal Register.**

All equipment which is within the scope of the Applicability provision of FIPS 60, and which is ordered on or after the effective date of this SMD standard, or procurement actions for which solicitation documents have not been issued by that date, must conform to the provisions of this SMD standard or to FIPS 60 plus associated power control and operational specifications standards, or to any other permitted alternative to FIPS 60, unless a waiver has been granted in accordance with the procedure described elsewhere in this publication.

Regulations concerning the specific use of this standard in Federal procurement will be issued by the General Services Administration to be a part of the Federal Information Resources Management Regulations.

This standard shall be reviewed by NBS within three years after its date of issue, taking into account technological trends and other factors, to determine whether the standard should be affirmed, revised, or withdrawn.

Waivers. Since this standard is an alternative to FIPS 60, plus associated power control and operational specification standards, waiver procedures for this standard shall be as designated in FIPS 60. Waivers of this standard are not required where FIPS 60 does not apply. Any waiver of FIPS 60 also is a waiver of this standard.

Where to Obtain Copies. Copies of this publication are for sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161. (Sale of the included specifications document is by arrangement with the American National Standards Institute.) When ordering, refer to Federal Information Processing Standards Publication 111 (FIPSPUB111), and title. Payment may be made by check, money order, purchase order, credit card, or deposit account.

BILLING CODE 3510-13-M

National Oceanic and Atmospheric Administration

Marine Mammals; Application for Permit: Dr. John D. Hall

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531–1544), and the National Marine Fisheries Service regulations governing endangered fish and wildlife permits (50 CFR Parts 217–222).

1. Applicant:
   a. Name: Dr. John D. Hall (P75C).
   b. Address: 8410 Owen Circle, Anchorage, Alaska 99502.
2. Type of Permit: Scientific Research.
3. Name and Number of Marine Mammals: An unspecified number of Pacific white-sided dolphins (Lagenorhynchus obliquidens), Dall's porpoise (Phocoenoides dalli), harbor porpoise (Phocoena phocoena), killer whales (Orcinus orca), minke whales (Balaenoptera acutorostrata), fin whales (Balaenoptera physalus), and humpback whales (Megaptera novaeangliae) may be encountered and incidentally harassed while conducting observational and photographic activities.
4. Location of activity: Gulf of Alaska.
5. Period of Activity: Three (3) years.

Concurrent with the publication of this notice in the **Federal Register,** the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.,
Regional Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

Dated: April 12, 1985.

William G. Gordon,

Assistant Administrator for Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Marine Mammals; Application for Permit: Dr. Howard E. Winn

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531–1544), and the National Marine Fisheries Service regulations governing endangered fish and wildlife permits (50 CFR Parts 217–222).

1. Applicant:
   a. Name: Dr. Howard E. Winn (P12F), Graduate School of Oceanography.
   b. Address: University of Rhode Island, Kingston, Rhode Island 02881.
2. Type of Permit: Scientific Research.
3. Name and Number of Marine Mammals: All cetacean species from Florida to Nova Scotia and humpback whales *(Megaptera novaeangliae)* worldwide.
4. Type of Take: Harassment.
5. Location of Activity:
6. Period of Activity: 4 years.

Concurrent with the publication of this notice in the **Federal Register,** the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of

such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.

National Technical Information Service

Notice of Intent To Grant Exclusive Patent License

The National Technical Information Service (NTIS), U.S. Department of Commerce, intends to grant to Oncogen, having a place of business in Seattle, Washington, an exclusive right to manufacture, use, and sell products embodied on the invention entitled "Tumor Growth Inhibitory Factor," U.S. Patent Application SN 6–602,520. The patent rights in this invention will be assigned to the United States of America, as represented by the Secretary of Commerce.

The proposed exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 41 CFR 101–4.1. The proposed license may be granted unless, within sixty days from the day of this published Notice, NTIS receives written evidence and argument which establishes that the grant of the proposed license would not serve the public interest.

Inquiries, comments and other materials relating to the proposed license must be submitted to the Office of Government Invention and Patents, NTIS, Box 1423, Springfield, VA 22151.

Douglas J. Campion,

Office of Federal Patent Licensing, U.S. Department of Commerce, National Technical Information Service.

BILLING CODE 3510–04–M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1985; Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to Procurement List 1985 a service to be provided by workshops for the blind and other severely handicapped.

EFFECTIVE DATE: April 18, 1985.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: C.W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: On November 26, 1984, the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (49 FR 46458) of proposed addition to Procurement List 1985, October 19, 1984 (49 FR 41195).

Addition

After consideration of the relevant matter presented, the Committee has determined that the service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat. 77 and 41 CFR 51–2.6.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered were:

a. The action will not result in any additional reporting, recordkeeping or other compliance requirements.

b. The action will not have a serious economic impact on any contractors for the service listed.

c. The action will result in authorizing small entities to provide the service procured by the Government.

Accordingly, the following service is hereby added to Procurement List 1985:

SIC 7369

Commissary Shelf Stocking and Custodial Service, Randolph Air Force Base, Texas

C.W. Fletcher,

Executive Director.

BILLING CODE 6820–33–M

Procurement List 1985; Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to Procurement List 1985 a commodity to be produced by and a service to be provided by workshops for the blind and other severely handicapped.

Comments must be received on or before: May 22, 1985.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite

1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: C.W. Fletcher, (703) 557–1145

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77 and 41 CFR 51–2.6. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

Additions

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodity and service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity and service to Procurement List 1985, October 1984 (49 FR 41195):

Class 7670

Microfiche, Subject Headings and Name Authorities: 7670–00–NSH–0001
(Requirements for Library of Congress only)

SIC 7349

Janitorial/Custodial, Naval Resale and Support Office, Fort Wadsworth, Staten Island New York

C.W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

COMMODITY FUTURES TRADING COMMISSION

Chicago Board of Trade Zero Coupon Treasury Bond Futures Contract

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity futures contract.

SUMMARY: The Chicago Board of Trade ("CBT") has applied for designation as a contract market in the Zero Coupon Treasury Bond. The Commodity Futures Trading Commission ("Commission") has determined that the terms and conditions of the proposed futures contract are of major economic significance and that, accordingly, making available the proposed contract for public inspection and comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before June 17, 1985.

ADDRESS: Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Reference should be made to the CBT Zero Coupon Treasury Bond futures contract.

FOR FURTHER INFORMATION CONTACT: Naomi Jaffe, Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, (202) 254–7227.

A copy of the terms and conditions of the proposed CBT Zero Coupon Treasury Bond futures contract will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the CBT in support of its application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1984)), except to the extent that they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the terms and conditions of the proposed futures contract, or with respect to other materials submitted by the CBT in support of its application, should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, by June 17, 1985.

Issued in Washington, D.C. on April 12, 1985.

Jean A. Webb,

Secretary to the Commission.

BILLING CODE 6351-01-M

New York Cotton Exchange European Currency Unit Futures Contract

AGENCY: Commidity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity futures contract.

SUMMARY: The New York Cotton Exchange ("NYCE") has applied for designation as a contract market in the European Currency Unit ("ECU"). The Commodity Futures Trading Commission ("Commission") has determined that the terms and conditions of the proposed futures contract are of major economic significance and that, accordingly, making available the proposed contract for public inspection and comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before June 17, 1985.

ADDRESS: Interested persons should submit their views and comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581. Reference should be made to the NYCE ECU futures contract.

FOR FURTHER INFORMATION CONTACT: Naomi Jaffe, Division of Economic Analysis, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, (202) 254–7227.

A copy of the terms and conditions of the proposed NYCE ECU futures contract will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the NYCE in support of its application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1984)), except to the extent that they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the terms and conditions of the proposed futures contract, or with respect to other materials submitted by the NYCE in support of its application, should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, by [sixty (60) days after publication].

Issued in Washington, D.C., on April 12, 1985.

Jean A. Webb,

Secretary to the Commission.

BILLING CODE 1505-01-M

DEPARTMENT OF ENERGY

Procurement and Assistance Management Directorate; Restricted Eligibility for Grant Award; United Nations Institute for Training and Research

AGENCY: Department of Energy (DOE).

ACTION: Notice of Restricted Eligibility for Grant Award.

SUMMARY: DOE announces that it plans to award a grant in the amount of $50,000 in partial support of the United Nations Institute for Training and Research. Pursuant to § 600.7(b) of the DOE Financial Assistance Rules, 10 CFR Part 600, DOE has determined that eligibility for this grant award shall be limited to the United Nations Institute for Training and Research.

Procurement Request Number: 01-85FE60683.000.

Project Scope: The United Nations Institute for Training and Research

(UNITAR) is hosting a conference on "Heavy Crude and Tar Sands" which will take place in Long Beach, California, from July 22, 1985, to July 31, 1985.

The Conference will discuss the latest world developments in the exploration for and production of heavy crude and tar sands.

The DOE is vitally interested in the potential of heavy crude and tar sands to help meet the energy demands of the future and to encourage exploration and production of such energy, and has determined that this award to the United Nations Institute for Training and Research (UNITAR) on a restricted eligibility basis is appropriate.

FOR FURTHER INFORMATION CONTACT: Shirley Jones/James Beiriger, MA–452.1, U.S. Department of Energy, Office of Procurement Operations, 1000 Independence Avenue SW., Washington, DC 20585.

Issued in Washington, D.C., on April 10, 1985.

Ben Goldman,

Director, Contract Operations Division "A," Office of Procurement Operations.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket Nos. ER85–415–000, et al.]

American Electric Power Service Corp. et al.; Electric Rate and Corporate Regulation Filings

April 15, 1985.

Take notice that the following filings have been made with the Commission:

1. American Electric Power Service Corporation

[Docket No. ER85–415–000]

Take notice that on April 5, 1985, American Electric Power Service Corporation (AEP) tendered for filing on behalf of its affiliate Ohio Power Company (OPCO), which is an AEP operating subsidiary, Supplement No. 15 dated February 1, 1985 to the Interconnection Agreement dated January 1, 1952 between OPCO and the Ohio Edison Company (Edison). The Commission has previously designated the 1952 Agreement as OPCO's Rate Schedule FERC No. 25 and Edison's Rate Schedule FERC No. 9.

AEP states that Supplement No. 15 revises the Interchange Power Service Schedule to include provisions for Non-Displacement power and energy transactions between the parties and provides for an increase in the transmission demand rate for Short Term Power and OPCO is the supplying party to $0.46 per kilowatt per week and to $0.092 per kilowatt per day.

AEP further states for Non-Displacement power and energy, contained in this Supplement are the same as those between OPCO and other interconnected electric utility systems, which have been accepted for filing by the Commission. In addition, the proposed transmission demand rates for Short Term Power are the same as those between AEP and other interconnected electric utility systems which have been accepted for filing by the Commission. AEP requests an effective date of April 15, 1985, which will allow AEP to offer similar services at similar rates to electric utility systems interconnected with AEP affiliated operating subsidiaries as established in previous AEP filings, and therefore requests waiver of this Commission's notice requirements.

Copies of this filing were served upon the Public Utilities Commission of Ohio.

Comment date: April 30, 1985, in accordance with Standard Paragraph E at the end of this notice.

2. Kansas Power and Light Company

[Docket No. ER85–417–000]

Take notice that on April 5, 1985, Kansas Power and Light Company (KP&L) tendered for filing a new Rate Schedule for Service Schedule I for Participation Power under the Interconnection Agreement dated June 1, 1980, between KP&L and the Sunflower Electric Cooperative, Inc. (Sunflower). KP&L states that its new rate schedule is to maintain existing rates for participation power from Jeffrey Energy Center Unit No. 3 and to delete existing references to participation power from Unit No. 2.

KP&L further states that the proposed tariff changes arise from the load requirements for Sunflower now being served from Jeffrey Unit No. 3 instead of from Units No. 2 and No. 3 all as provided for by the Electric Interconnection Agreement between KP&L and Sunflower.

KP&L requests an effective date of June 1, 1985, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon Sunflower Electric Cooperative, Inc. and the State Corporation Commission of the State of Kansas.

Comment date: April 30, 1985, in accordance with Standard Paragraph E at the end of this notice.

3. Public Service Company of Colorado

[Docket No. ER85–416–000]

Take notice that on April 5, 1985, Public Service Company of Colorado (Public Service) in its Contract for Interconnection and Transmission Service (Contract) with the United States Department of Energy, Western Area Power Administration (WAPA). Public Service states that the proposed change is a revised Exhibit A to Public Service's Contract with WAPA, dated May 9, 1962, on file with the Commission under Companys FERC Rate Schedule No. 7.

Public Service states that the revised Exhibit A is to establish the maximum kilowatt demand level for transmission service for calendar year 1988 and also to revise the maximum demand for calendar year 1985, 1986 and 1987.

Public Service requests an effective date of December 5, 1984, and therefore requests waiver of the Commission's notice requirements.

According to Public Service copies of this filing were served upon all parties to the Agreement and affected commissions.

Comment date: April 30, 1985, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–9391 Filed 4–17–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. G–13758–004, et al.]

Conoco Inc. et al.; Applications for Abandonment of Service

April 12, 1985.

Take notice that each of the Applicants listed herein has filed an

application or petition pursuant to section 7 of the Natural Gas Act for authorization to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 30, 1985, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary

[1] Expiration of leases.
[2] Production from the T. C. Blodgett Unit No. 1 Well is declining. The well will not produce sufficient quantities against the current operating pressure, and neither Buyer nor Seller can economically justify the installation of compression equipment.
[3] Leases released to lessors effective 3-13-85
[4] OCS Lease No. G-1478 covering the NE/4 and S/2 of Block 83, East Cameron Area, Offshore Louisiana expired of its own terms effective 4-4-80
[5] Contract expired, well unable to produce into purchaser's high pressure line without compression. It is not economical to compress gas
[6] Low volume of gas.
[7] To release approximately 72% of the gas from the wells for direct sales to Koch Hydrocarbon Company for a period of (24) months from the effective date of authorization of abandonment. The proposed abandonment and resulting direct sale to Koch will not have any financial or supply impact on WBI ratepayers, because WBI currently is not taking the volumes for which abandonment is sought as a result of gas industry supply/demand imbalances and WBI's system requirements.
[8] The well watered out.
[9] Depletion
[10] Non Commercial Production.
[11] Current gas production is from a formation deeper than existing dedication to NGPL, and is purchased by Transok, Inc. Tom Brown, Inc. desires to commingle available gas production from a more shallow zone, which is dedicated to NGPL, with that deeper formation currently dedicated to Transok, Inc. NGPL has verbally advised their intent to intervene in support herein.
[12] Expiration of Tenneco's contract dated 2-3-65 with Westmore, by its own terms on 2-3-85
[13] Well has been plugged and abandoned. Oil and Gas Lease has expired by its own terms.
[14] Lease covered by original contract dated 8-1-61, as amended, is not covered by the rollover contract dated 8-25-81 and was cancelled in January 1981
[15] Production has ceased, the well has been plugged and abandoned and all leases terminated. Applicant no longer owns an interest in the acreage.
[16] Gulf's interest in the Diamond Field, Plaquemines Parish, Louisiana has been assigned to B. R. Eubanks
[17] The sale of gas covered by the contract dated 9-25-69, as amended, between Gulf and United ceased July 1974, leases expired, surrendered to State of Texas, cancelled and last producing well plugged and abandoned. Gulf no longer owns an interest in the acreage covered by the contract
[18] To release gas for irrigation fuel
[19] Assignment of oil, gas, and mineral lease to Panstar Oil & Gas, Inc
[20] By assignment of oil, gas, and mineral lease, dated 11-26-84, to be effective 8-1-84, Mobil Producing Texas & New Mexico Inc. assigned to J. C. Daniels Energy certain lease and assignment.
[21] Assignment and Bill of Sale to Cities Service Oil & Gas Corporation
[22] Partial Assignment and Bill of Sale to Kaiser-Francis Oil Co
[23] Assignment and Bill of Sale to WTG Exploration, Inc
[24] The reservoir pressure has decreased to the point that the well can no longer produce against the line pressure. Both parties have agreed to release the subject well from the commitment under the sales contract. Union Texas Petroleum has agreed to purchase the release gas for processing in their Chaney Dell Plant
[25] Partial Assignment and Bill of Sale to R. A. Miller Energy, Inc. of Sun's interest in Arkansas Valley Farms
[26] All Sun's leasehold rights released. Depletion of gas reserves.
[27] Partial Assignment and Bill of Sale to McCoy Petroleum Corporation
[28] Southeastern Gas Company hereby seeks release of approximately 100 Mcf annually from its 11-17-42 contract with Columbia Gas Transmission Corporation, in order to continue furnishing gas to the existing consumers
[29] Southeastern Gas Company hereby seeks release of approximately 700 Mcf annually from its 3-26-29 contract with Columbia Gas Transmission Corporation, in order to continue furnishing gas to the existing customers.
[30] Southeastern Gas Company hereby seeks release of approximately 100 Mcf annually from its 9-11-29 contract with Columbia Gas Transmission Corporation, in order to continue furnishing gas to the existing consumers
[31] Southeastern Gas Company hereby seeks release of approximately 200 Mcf annually from its 9-20-32 contract with Kentucky-West Virginia Gas Company, in order to continue furnishing gas to the existing consumers.
[32] Southeastern Gas Company hereby seeks release of approximately 100 Mcf annually from its 10-29-40 contract with Kentucky-West Virginia Gas Company, in order to continue furnishing gas to the existing consumers
[33] Southeastern Gas Company hereby seeks release of approximately 100 Mcf annually from its 11-30-29 contract with Kentucky-West Virginia Gas Company, in order to continue furnishing gas to the existing consumers
[34] Southeastern Gas Company hereby seeks release of approximately 13,800 annually from its 11-18-31 contract with Columbia Gas Transmission Corporation, in order to continue furnishing gas to the existing consumers
[35] Phillips Petroleum Company as assignor assigned to Sun Exploration and Production Company and Tenneco Oil Company, as assignees, its interest in those leases located in Sec. 34-10N-23W, Johnson County, Arkansas.
[36] Wells have been plugged and abandoned and deliveries ceased January 1981.
[37] Well watered out
[38] The well has been shut in for an indeterminable amount of time because of the purchaser not wanting the gas. Another purchaser has been found to take the gas.
[39] The well is depleted. Well was depleted by compressor installation to less than 50 psig wellhead pressure. There is no other gas producing zones in the well. The well needs to be plugged and abandoned to meet BLM lease requirements.
Filing Code: A—Initial Service, B—Abandonment, C—Amendment to add acreage, D—Amendment to delete acreage, E—Total Succession, F—Partial Succession

BILLING CODE 6717-01-M

[Docket No. CP74-314-014, et al.]

El Paso Natural Gas Co., et al.; Offer of Settlement, Applications for Certificates of Public Convenience and Necessity and Requests for Authority To Abandon Service and Facilities

April 12, 1985.

In the matter of:	Docket No.
El Paso Natural Gas Co.	CP74-314-014
Sun Exploration and Production Co., et al.	CI77-526-004
El Paso Natural Gas Co.	CI83-356-004
Tenneco Oil Co.	CI84-49-003
Conoco Inc.	CI84-51-003

Take notice that pursuant to Rule 602 of the Commission's Rules of Practice and Procedure, 18 CFR 385.602, on April 8, 1985, El Paso Natural Gas Company (El Paso), Tenneco Oil Company (Tenneco Oil), and Conoco Inc. (Conoco) filed a Joint Offer of Settlement and Request for Approval of Stipulations and Agreements (Joint Offer) in the above-referenced proceedings that would resolve all matters in dispute between El Paso, its customers, interested state Commissions and Commission Staff on the one hand, and Tenneco Oil and Conoco on the other, in the above-referenced dockets and/or related to Tenneco Oil and/or Conoco's ownership of interests in specified gas lease agreements. The instant Joint Offer supplants and supersedes the Offer of Settlement filed on May 18, 1984 in Docket No. CP74-314-009.

The Joint Offer involves gas lease agreements (GLA's) covering properties in the San Juan Basin of New Mexico to which El Paso and Tenneco Oil and Conoco are parties. Incorporated in the Stipulation of Settlement and Agreement and included within the Joint Offer are

applications for certificates of public convenience and necessity, requests for authority to abandon service and facilities, and agreements on El Paso's pricing of certain company owned production in the San Juan Basin, all as more fully described in the Joint Offer, stipulations, applications and requests on file herein.

The Joint Offer submitted by the parties provides for the transfer of the lease rights originally conveyed under the subject GLA's from El Paso to Tenneco Oil and Conoco to be effective on the effective date of the certificates and approvals requested as part of the Joint Offer. In order to effectuate the transfer of lease rights that are subject to FERC jurisdiction, El Paso requests any and all requisite approvals to effect that transfer, and terminate operations, as specified in the Joint Offer.

The Joint Offer includes contracts for sales of gas from the GLA properties by Tenneco Oil to El Paso and Conoco to El Paso that are the subject of the applications for certificates of public convenience and necessity submitted in Docket Nos. CI84–49 and CI84–51, respectively. The contracts provide, in terms more specifically detailed in the submittals incorporated within the Joint Offer, for sales of gas to El Paso at the applicable maximum scheduled prices, with a base price for the gas not qualifying for a higher maximum lawful price of the Section 104 replacement contract rate, as that term is defined at 18 CFR 2.56(a)(5), as such price has been and shall be adjusted and escalated from time to time.

The Joint Offer also provides for the amendment of all contracts for the sale of gas in the San Juan Basin in New Mexico and Colorado by and between El Paso and Tenneco Oil and El Paso and Conoco in order to allow Tenneco Oil and Conoco to process all gas sold thereunder. Applications for any necessary amendments to existing section 7(c) certificates and rate schedules are filed as a part of the Joint Offer.

The Joint Offer further provides for the construction of a new cryogenic plant to be built, owned and operated by Tenneco Oil and Conoco. El Paso has applied for authority, to the extent necessary, to cease certain compression and gas processing operations at its Blanco gas processing plant in the San Juan Basin upon the completion of the cryogenic facility and for authority under section 7(c) of the Natural Gas Act to construct and operate any facilities necessary to interconnect with the new cryogenic extraction plant.

Also included within the Joint Offer are applications by El Paso for permission, consistent with the terms of gas transportation agreements that are appendices to the Stipulation of Settlement and Agreement, to transport for Tenneco Oil and Conoco pursuant to the terms thereof, gas released or removed from their gas sales contracts.

Included within the Joint Offer is a Supplemental Stipulation under which El Paso has agreed to certain pricing limitations on its company owned production in the San Juan Basin for the term thereof, subject to certain express to such production, and the construction of the new cryogenic processing plant in the San Juan Basin for the processing of that gas subject to the Settlement.

If approved, the Joint Offer, with attachments, subject to the conditions and reservations contained therein, would resolve all matters arising out of Tenneco Oil and Conoco's ownership of an interest in the subject GLA's, or their receipt of overriding royalties thereunder, and out of El Paso's ownership and operation of the leases covered thereby, including its payment to Tenneco Oil and Conoco of overriding royalties pursuant to the subject GLA's. Accordingly, all pending or future claims as to Tenneco Oil and/or Conoco arising out of or pertaining thereto would be dismissed with prejudice and/or permanently foreclosed, including any issues currently pending as to them in El Paso's PGA proceedings.

Any person desiring to file comments on any aspect of the Joint Offer, including any participant in any of the above-referenced proceedings, shall, within twenty (20) days of April 8, 1985 file such comments with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with the requirements of 18 CFR 385.602(f)(2). Any reply comments should be filed within fifteen (15) days thereafter.

All comments filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings herein. Persons wishing to become parties to the proceedings involving the referenced applications and requests or to participate as a party in any hearing thereon must file petitions to intervene in accordance with 18 CFR 385.214 or 385.211 of the Commission's rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. ER85–301–000]

Massachusetts Refusetech, Inc.; Order Accepting Rates for Filing, Granting Requests for Waivers and Authorization, Terminating Docket and Delegating Authority

Issued April 15, 1985.

Before Commissioners: Raymond J. O'Connor, Chairman; Georgiana Sheldon, A. G. Sousa, Oliver G. Richard III and Charles G. Stalon.

On February 14, 1985, Massachusetts Refusetech, Inc. (MRI) tendered for filing an executed agreement applicable to sales of energy from a solid waste refuse-to-energy facility located in North Andover, Massachusetts, to New England Power Company (NEP).[1] By order dated December 22, 1983, 25 FERC ¶ 61,406, the Commission granted MRI's request for certification of the facility as a qualifying small power production facility.[2] The facility is scheduled to become operational in June of 1985. The proposed rates are intended to take effect when sales of electric energy from the facility first occur. MRI requests waiver of the 120-day advance filing limitation to the extent necessary to permit the agreement to become effective upon initiation of service. MRI also requests waiver of the Commission's regulations regarding cost of service documentation, accounting practices, reporting requirements, annual charges, property dispositions and consolidations, securities issuances or assumptions of liability, and the holding of interlocking directorate positions.

Notice of the filing was published in the **Federal Register**,[3] with comments due on or befoe March 7, 1985. No protests or motions to intervene have been received.

Discussion

Initially, we note that MRI's requested waivers of our filing requirements are identical to those granted by the Commission's orders in *Resources Recovery (Dade County), Inc.*, 18 FERC ¶ 61,243 (1982) and 20 FERC ¶ 61,138 (1982). Consistent with those orders, we shall grant these requested waivers and necessary authorizations, subject to the same conditions as specified in the August 3, 1982 order in *Resource Recovery*, 20 FERC at 61,304.

---

[1] Designated as: *Massachusetts Refusetech, Inc.* Rate Schedule FERC No. 1.

[2] However, since the capacity of the facility will exceed 80 megawatts, it is not eligible for exemption from the requirements of the Federal Power Act.

[3] 50 FR 8655 (1985).

Based on our review of MRI's filing, we find that the proposed rates will not produce excessive revenues. Further, in light of the fact that the proposed rate schedule is predicated on construction of a new facility [4] and given the concurrence of NEP as evidenced by its execution of the tendered agreement, we find good cause to grant waiver of the 120-day advance filing limitation to the extent necessary. Accordingly, we shall accept MRI's submittal for filing without suspension or a hearing, to become effective upon commencement of service.

Finally we shall delegate authority to the Director of the Office of Electric Power Regulation, to take action on uncontested future filings relating to qualifying small power production facilities with capacity between 30 and 80 megawatts, including action consistent with this order on requests for waiver of our regulations and related authorizations under the Federal Power Act.

The Commission Orders

(A) MRI's requests for waivers of the Commission's filing requirements are hereby granted, along with the authorizations and subject to the same conditions provided for in the August 3, 1982 order in *Resources Recovery*, 20 FERC ¶61,138 (1982).

(B) MRI's request for waiver of the 120-day advance filing limitation is hereby granted for good cause shown.

(C) MRI's submittal is hereby accepted for filing to become effective upon commencement of service, without suspension or a hearing. MRI shall notify the Commisson within fifteen (15) days after the date on which service commences.

(D) Authority to take action on future filings relating to noncontested nonexempt qualifying small power production facilities, including action on requests for waivers of the Commission's regulations under the Federal Power Act and related authorizations, consistent with this order, is hereby delegated to the Director of the Office of Electric Power Regulation.

(E) Docket No. ER85–301–000 is hereby terminated.

(F) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85–9396 Filed 4–17–85; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. ID–2159–001]

Thomas O. Lind; Application

April 10, 1985.

Take notice that on March 26, 1985, Thomas O. Lind (applicant) filed and application pursuant to section 305(b) of the Federal Power Act to hold the following positions:

Vice President, Louisiana Power & Light Company

Vice President, New Orleans Public Service Inc.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before April 26, 1985. Protests will be considered by the Commission in determining the appropriation action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Office of Hearnings and Appeals

Issuance of Decisions and Orders; Week of March 11 through March 15, 1985

During the week of March 11 through March 15, 1985, the decisions and orders summarized below were issued with respect to applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Remedial Order

Dorchester Gas Corp., 3/11/85, HRO-0045

Dorchester Gas Corp. objected to a Proposed Remedial Order (PRO) that the Economic Regulatory Administration issued to the firm on March 19, 1982. In the PRO, the ERA found that during the period November 1, 1974 through August 1979, Dorchester improperly reported the tier classification of certain of its crude oil receipts to the Entitlements Program. The PRO concluded that Dorchester should be required to make restitution by refunding to the DOE $54, 174,234.96, plus interest. Dorchester claimed that the firm correctly reported its crude oil receipts based upon its "pooling" method of accounting for crude oil certifications. In the analysis of the case, the DOE found that Dorchester did violate the DOE regulations since its "pooling" practices resulted in the firm miscertifying substantial volumes of crude oil. As a result, the DOE determined that Dorchester should be required to disgorge the excessive benefits that it received.

Hudson Oil Co., Inc., Hudson Refining Co., Inc., 3/15/85, HRO-0043

Hudson Oil Co., Inc. (Hudson Oil) objected to a Proposed Remedial Order (PRO) which the Economic Regulatory Administration (ERA) issued to the firm on March 23, 1982, and which was amended by the Office of Hearings and Appeals (OHA) on May 6, 1983. In the PRO the ERA found that Hudson Oil violated the DOE refiner price regulations by including its previously acquired retailer bank of unrecouped increased product costs in calculating its prices as a refiner. Hudson Oil argued that the Acquired Entity Rule permitted the use of the firm's retailer bank after its refinery acquisition.

In response to the OHA's August 27, 1984 Decision joining Hudson Refining Co., Inc. (Hudson Refining) as a respondent to the PRO, Hudson Oil contested its inclusion in the PRO proceeding on the ground that Hudson Refining was the sole proper respondent to the PRO. Hudson Refining contended that as a bankrupt entity it could not be held liable for previous violations that it, or its parent, may have committed.

In considering the firms' Statements of Objections, the DOE found that absent exception relief a firm could not use a bank acquired under one set of regulations when calculating prices under a different set of regulations. The DOE also found that the overcharge amount should be reduced to reflect the ERA's prosecutorial discretion in applying 10 CFR 212.83(g) to offset overrecoveries with subsequent underrecoveries. The DOE determinined, however, that overrecoveries could only be carried forward for one month, and not throughout the entire controlled period as Hudson Oil claimed. In addition, the DOE found that the amount of the retailer bank at issue that ERA had excluded from the firms' costs was improperly calculated and that, as a result, the amount of overcharges alleged in the PRO was overstated.

With respect to the liability issue, the DOE found that a firm is not relieved of liability in a PRO proceeding by entering bankruptcy, and also found that both firms had a demonstrated involvement in the overcharges. The DOE therefore concluded that Hudson Oil and Hudson Refining were properly joined as parties in the PRO proceeding. Accordingly, the Doe determined that the PRO should be issued as a final Remedial Order which certain modifications pertaining to the overcharge calculations and method of restitution.

Request for Exception

Ball Tire & Gas, Inc., 3/11/85, HEE-0109

Ball Tire & Gas, Inc. filed an Application for Exception in which the firm sought to be relieved from the requirement to file Form EIA-782B, "Reseller/Retailers' Monthly Petroleum Product Sales Report." In considering the request, The DOE found that the firm would not suffer an inordinate burden in fulfilling its reporting requirement. Accordingly, exception relief was denied.

Commonwealth Oil Refining Co., Inc., 3/12/85, DEE-1022

Commonwealth Oil Refining Co., Inc. (Corco) filed an Application for Exception from several provisions of the DOE Entitlements Program. In the Application, Corco requested a $36 million dollar increase in the firm's entitlement sales obligation or, alternatively, that it be granted a loan or a line of credit of $36 million through the Entitlements Program. In support of its request, Corco argued that it had lost $15 million as a result of the mechanics of the Entitlements Program, which entailed a two-month lag between the month in which entitlements were earned and the month in which a firm's entitlements sales obligation was realizable. Corco also argued that it was entitled to retroactive relief equal to revenues it would have received had the naphtha entitlements program (*see* 10 CFR 211.67(d)(5)) been made retroactive to January 1977. Furthermore, Corco claimed that it was adversely affected by the following provisions: (a) 10 CFR 211.67(d)(4), which reduced the volume of a refiner's crude oil runs to stills attributable to the production of residual fuel oil sold in the East Coast market, (b) DOE regulations (39 FR 17764 (May 20, 1974)) requiring that resellers affiliated with major oil companies compute

the passthrough of their increased product costs on a nationwide basis, and (c) 10 CFR 211.67(d)(5)(ii), which did not permit Puerto Rican refiners to include in their runs to stills volumes of imported naphtha used to produce petrochemicals for export.

In considering the request, the DOE determined that Corco had failed to identify any specific DOE regulation that had caused the firm to experience economic hardship or which uniquely and adversely affected the firm. In particular, the DOE determined that Corco was not competitively disadvantaged compared to mainland petrochemical producers by the provisions of 10 CFR 211.67(d)(5)(ii). Accordingly, Corco's request for exception relief was denied in its entirety.

Motions for Discovery

Gulf Oil Corporation; Economic Regulatory Administration, 3/11/85, BRH-0211, BRD-0211, BRD-0072, HRZ-0228

The Gulf Oil Corporation filed a Motion for Discovery in connection with its Statement of Objections to a Proposed Remedial Order issued to the firm by the Economic Regulatory Administration on November 3, 1979. In that Motion, Gulf sought to compel the ERA to answer numerous interrogatories and release documents that were identified in those interrogatories. Discovery was denied because many of the interrogatories had already been answered by the ERA or were moot, and because the firm did not adequately support its requests for contemporaneous construction discovery or administrative record discovery. Gulf's request for evidentiary hearing was denied because the firm did not specify any genuine issue that could be resolved by an evidentiary hearing. ERA filed a Motion for Discovery in which it sought information concerning Gulf's passthrough costs at refiner-operated retail stations. That Motion was unopposed by Gulf and was granted. ERA also filed a Motion to Amend in which it sought to change the violation period alleged in the PRO, and, correspondingly, the period for which information was sought in its discovery motion. If granted, the alleged violation period would have been September 1, 1974 through December 1980. The motion was granted in part and the violation period of the PRO and the period for which discovery was sought was amended to be September 1, 1974 through November 1, 1980.

Lone Star Oil & Chemical Co., Michael A. McAlister, 3/11/85, HRD-0185, HRH-0185

On October 11, 1984, Lone Star Oil and Chemical Company and Michael A. McAlister (referred to collectively as Lone Star) submitted a Motion for Discovery and a Motion for Evidentiary Hearing in connection with a Proposed Remedial Order which was issued to the firm. The Motion for Discovery included requests for the production of documents, for answers to interrogatories, and for taking of the deposition of the DOE auditor primarily responsible for the PRO. Assuming the granting of discovery, the Motion for Evidentiary Hearing sought to introduce testimony relevant to disputed isaues and to present the testimony of DOE employees regarding the contemporaneous constructions of the layering regulation.

The DOE concluded that both Lone Star's Motion for Discovery and its Motion for Evidentiary Hearing should be denied. However, the DOE afforded Lone Star the opportunity to submit written evidence, to the extent that such evidence relates to the factual issue of the functions and services provided by Lone Star in the transactions at issue in the PRO.

This Decision and Order discussed the general unwillingness on the part of the Office of Hearings and Appeals (OHA) to grant discovery relating to legal rather than factual issues or disputes and its general unwillingness to grant administrative record and contemporaneous construction discovery unless the regulatory language at issue is extraordinarily confused. It further reiterated OHA's finding that there is no such confusion and ambiguity surrounding the layering rule.

Supplemental Order

Young Refining Corporation, 3/12/85, BYX-0198

The DOE in this Decision and Order reviewed exception relief that Young Refining Corporation received under the DOE Crude Oil Entitlements Program for the period April 1980 through January 1981. The DOE determined that Young received excessive exception relief of $2,936,491 for that period. The DOE also summarized outstanding entitlements exception orders issued toYoung, and determined as Young's final position under the Entitlements Program that the firm has a net entitlements purchase obligation of $3,714,044. The DOE ordered that this net obligation be satisfied in accordance with the policies enunciated by the DOE in its January 9, 1985 Notice.

Implementation of Special Refund Procedures

Bayou State Oil Corporation, 3/11/85, HEF-0202

The DOE issued a Decision and Order setting for the procedures to be used in filing applications for refund with respect to the settlement funds obtained under a consent order with Bayou State Oil Corporation and Ida Gasoline, Inc. The funds plus accrued interest should be available to customers who purchased covered petroleum products from Bayou State or Ida during the period September 1973 to December 1977. As of January 31, 1985, the settlement funds plus accrued interest totalled $1,279,600. Specific information to be included in refund applications is discussed in the decision.

Moore Terminal & Barge Co., Ltd., Point Landing, Inc., 3/15/85, HEF-0132, HEF-0152

The DOE issued a Decision and Order implementing a plan for the distribution of $50,000 and $100,000 received as a result of two consent orders which the DOE entered into with Moore Terminal & Barge Co., Ltd., and Point Landing, Inc., plus interest that has accrued on those amounts. The Moore consent order was entered into on August 29, 1977. The DOE determined that a portion of the Moore settlement fund should be distributed to two customers who purchased petroleum products from Moore during the October 1, 1973 through September 30, 1974 consent order period. The Point Landing consent was entered into September 9, 1980. The DOE determined that a portion of the Point Landing settlement fund should be distrubited to 26 customers who purchased petroleum products from Point Landing during the October 1, 1973 through November 30, 1974 consent order period. In both cases, the customers were identified by DOE audits, and will be alloted refunds (after each files an application for refund) based on presumptions of injury which have been employed in prior, similar proceedings. Applications for refunds filed by other firms will also be considered. Any such claims will, of course, be analyzed and, if necessary, refunds to identified purchasers will be adjusted to accommodate successful applicants.

National Helium Corporation, 3/13/85, HQF-0501

The DOE issued a Decision and Order providing for the second stage disbursement of $8,037,946 in consent order funds made available by National Helium Corporation (NHC) in order to settle DOE-alleged overcharges in the firm's sales of natural gas liquid products (NGLPs). The DOE pointed out that Atlantic Richfield Company (ARCO) was the sole purchaser of the NHC NGLPs and that since NGLPs are used in the petroleum refining process, increased costs of the NHC products as a result of the alleged overcharges were probably incorporated into ARCO's prices for motor gasoline. The DOE therefore examined data setting forth the distribution of ARCO's motor gasoline sales throughout the United States in order to ascertain in what areas of the country consumers were most affected by ARCO purchases of NHC NGLPs. The DOE found that ARCO sales of motor gasoline were largely regional in nature, because the firm sold that product in only a limited number of states. The DOE determined that the remaining consent order funds should therefore be channeled to the governments of the states in which ARCO sold motor gasoline, because the citizens of those states would have experienced the effects of the NHC pricing practices. The DOE decided that the funds should be apportioned among those jurisdictions based on the proportion of ARCO product consumed The DOE further provided that upon submission of an appropriate plan by an eligible jurisdiction, the proportionate share of the NHC fund would be disbursed.

Refund Applications

Houston Natural Gas Corporation/Enterprise Products Company, 3/15/85, RF53-0005

Enterprise Products Company filed an Application for Refund in which the firm sought a portion of the fund obtained by the DOE through a consent order entered into by the agency and Houston Natural Gas Corporation (HNG). Using a three-part competitive disadvantage methodology the

DOE determined that Enterprise had suffered significantly harm as a result of its purchases from HNG. Accordingly, the DOE granted HNG a refund equal to its allocable share of the consent order fund, $24,730, plus accrued interest of $9,510.

Palo Pinto Oil & Gas/Mississippi, et al., 3/15/85, RQ5–166

The DOE issued a Decision and Order concerning the second-stage refunds already disbursed to 23 states in the Palo Pinto Oil & Gas proceeding. In the Decision, the DOE recalculated the amount of interest accruing to each state based on an alternative methodology, and directed the disbursement of those additional funds to the eligible states. The amount of accrued interest refunded pursuant to this Decision totalled $28,157.

Standard Oil Company (Indiana)/ Glenn J. Gibson, 3/11/85, RF21–12385

The DOE issued a Decision concerning duplicate refunds applied for and received by Glenn J. Gibson, a retailer of Amoco motor gasoline. A computer check of refund applications revealed that Gibson received two refunds when he was entitled to only one. The DOE determined that Gibson must return one refund as well as accrued interest, and also must submit a written explanation of why he had applied twice, and had not notified the DOE of the error.

Standard Oil Company (Indiana)/Gulf Oil Corporation, 3/14/85, RF21–11039

Gulf Oil Corporation filed an Application for Refund in connection with its purchases of Amoco motor gasoline, which it resold at the wholesale level.In considering the Application, the DOE found that Gulf made spot purchases of Amoco motor gasoline during the consent order period and that Gulf had failed to rebut the presumption that spot purchasers suffer no economic injury. Accordingly, the DOE concluded that Gulf was not entitled to a portion of the Amoco consent order funds and denied the firm's refund application.

Standard Oil Company (Indiana)/Gulf Oil Corporation, 3/11/85, RF21–11040

The DOE issued a Decision and Order concerning an Application for Refund filed by a reseller of natural gas liquid products, Gulf Oil Corporation, in connection with the Standard Oil Company (Indiana) (Amoco) refund proceeding. The DOE found that Gulf experienced a competitive disadvantage as a result of is purchases of propane, butane and natural gasoline from Amoco. The DOE concluded therefore tht the firm should receive its full allocable share ($14,170) of the consent order funds based on the volumetric approach. The refund granted in this proceeding totalled $24,463 ($14,170 principal plus $10,293 interest).

Dismissals

The following submission was dismissed:

Name and Case No.

J.R. Adams Oil Company, HRO–0253

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room 1E–234, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercial published loose leaf reporter system.

Cases Filed; Week of March 8 Through March 15, 1985

During the Week of March 8 through March 15, 1985, the applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy. Submissions inadvertently omitted from earlier lists have also been included.

Under DOE Procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20585.

George B. Breznay,

Director, Office of Hearings and Appeals.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

[Week of Mar. 8 through Mar. 15, 1985]

Date	Name and location of applicant	Case No	Type of submission
Feb. 26, 1985	Gordon K. Walz, John Woolsey, Milton Walz and Corum Energy Corp., Houston, TX	HRD–0275	Motion for discovery. If granted: Discovery would be granted to Gordon K. Walz, John Woolsey, Milton Walz, and Corum Energy Corporation from Revere Petroleum Corporation and Richard E. Dobyns of materials concerning an alleged partnership as well as materials concerning the transactions described in the Proposed Remedial Order (Case No. HRO–0125)
Mar. 7, 1985	Revere Petroleum Corp., and Richard E. Dobyns	HRS–0047	Request for stay. If granted: Revere Petroleum Corporation would receive a stay of its obligation to file its Statement of Objections to a Proposed Remedial Order (Case No. HRO–0125) pending resolution by the Department of Justice of possible criminal violations.
Mar. 8, 1985	Tampimex Oil International, Ltd., Washington, DC	HRD–0274	Motion for discovery. If granted: Discovery would be granted to Tampimex Oil International, Ltd. in connection with the firm's Statement of Objections to the Proposed Remedial Order issued to it (Case No. HRO–0264)
Mar. 11, 1985	GCO Minerals Co., Washington, DC	HEF–0570	Implementation of special refund procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V, in connection with the October 22, 1984 Consent Order entered into with GCO Minerals Company.
Do	Oneok, Inc., Washington, DC	HEF–0571	Implementation of special refund procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V, in connection with the September 4, 1984 Consent Order entered into with Oneok, Inc.
Do	Pyro Energy Corp., Washington, DC	HEF–0569	Implementation of special refund procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V, in connection with the October 13, 1983 Consent Order entered into with Pyro Energy Corporation.
Do	Topeka Gas & Fuel, Inc., Topeka, KS	HEE–0128	Exception to the reporting requirements. If granted: Topeka Gas & Fuel, Inc. would not be required to file Form EIA–782B "Reseller/Retailers' Monthly Petroleum Product Sales Report."
Mar. 12, 1985	Ryno Oil, Wood, SD.	HEE–0129	Exception to the reporting requirements. If granted: Ryno Oil would not be required to file Form EIA–782B "Reseller/Retailers' Monthly Petroleum Product Sales Report" and Form EIA–821 "Annual Sales of Fuel Oil and Kerosene Report."

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS—Continued

[Week of Mar 8 through Mar 15, 1985]

Date	Name and location of applicant	Case No	Type of submission
Mar 14, 1985	Rollins Truck Leasing, Wilmington, DE	HEE-0130	Exception to the reporting requirements. If granted: Rollins Truck Leasing would not be required to file Form EIA-782B "Reseller/Retailers' Monthly Petroleum Product Sales Report."
Mar 15, 1985	Cranston Oil Service Co., Newport, RI	HRX-0116	Supplemental order. If granted: Pursuant to the May 19, 1981 Decision and Order (Case No. BEX-0209) the trustee of the Cranston Oil Service Company escrow account would be directed to remit monies to the DOE for disbursement under Subpart V.
Do	Jade Petroleum Co., Branson, MO	HEE-0131	Exception to the reporting requirements. If granted: Jade Petroleum Company would not be required to file Form EIA-782B "Reseller/Retailers' Monthly Petroleum Product Sales Report."

REFUND APPLICATIONS RECEIVED

[Week of Mar 8 through Mar 15, 1985]

Date	Name of refund proceeding/ name of refund applicant	Case No
03/11/85	Waller/Department of Navy	RF78-6
03/11/85	Union Texas Petroleum/ Lowrey Tims Co	RF109-1
03/11/85	Amoco/Schneider Oil Co	RF21-12388
03/11/85	MAPCO/Delta Propane Co., Inc	RF108-3
03/11/85	MAPCO/Small's LP Gas Co	RF108-4
03/11/85	MAPCO/Farmland Industries, Inc.	RF108-5
03/11/85	U S Oil/Gramco, Ltd	RF110-1
03/12/85	Hertz/Harcourt Brace Jovanovich.	RF76-105
03/13/85	Wallace & Wallace/Al Jones Oil.	RF69-2
03/13/85	Van Gas/Lawrence P Soares, Jr	RF68-20
03/13/85	Amoco/Robert Kristensen	RF21-12389
03/14/85	Van Gas/Herman Wagenleitner	RF68-21
03/14/85	Hertz/Dow Chemical, USA	RF76/106
03/14/85	Aztex/Kenneth L. Nipper	RF73-12
03/14/85	Seminole/Waverly Minerals	RF111-1
03/15/85	APCO/Kelly Gasoline Co	RF83-6
03/11/85 through 03/15/85	Gulf Refund Applications	RF40-1819 through RF40-1893

Objection to Proposed Remedial Orders Filed; Period of February 18 Through March 22, 1985

During the period of February 18 through March 22, 1985, the notices of objection to proposed remedial orders listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Any person who wishes to participate in the proceeding the Department of Energy will conduct concerning the proposed remedial orders described in the Appendix to this Notice must file a request to participate pursuant to 10 CFR 205.194 within 20 days after publication of this Notice. The Office of Hearings and Appeals will then determine those persons who may participate on an active basis in the proceeding and will prepare an official service list, which it will mail to all persons who filed requests to participate. Persons may also be placed on the official service list as non-participants for good cause shown.

All requests to participate in these proceedings should be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20585.

George B. Breznay,

Director, Office of Hearings and Appeals.

April 5, 1985.

Shell Oil Co., Huston, TX: HRO-0271, Crude oil

On March 20, 1985, Shell Oil Company, P.O. Box 576, Houston Texas 77001 filed a Notice of Objection to a Proposed Remedial Order which the DOE Economic Regulatory Administration issued to the firm on November 8, 1984. In the PRO, the ERA found that during September 1, 1973, through May 31, 1979, Shell's prices in first sales of crude oil which it produed and sold in the United States were in exess of the lawful ceiling prices as provided in the DOE's regulations. According to the PRO the violation resulted in $190,559,081.84 of overcharges.

Texaco, Inc., White Plains, NY; HRO-0272, refined products

On March 20, 1985, Texaco, Inc., 2000 Westchester Ave., White Plains, N.Y. 10650 filed a Notice of Objection to a Proposed Remedial Order which the DOE Economic Regulatory Administration issued to the firm on February 7, 1985. In the PRO, the ERA found that during August 19, 1973 through January 28, 1981, Texaco calculated and used excessive May 15, 1973 prices in computing its maximum lawful selling prices with respect to sales of motor gasoline, middle distillates, kerosene, and other covered products to identified and unidentified customers which had purchased those products from Texaco's Atlanta, Houston and Low Angeles sales regions and from its Paragon Oil Division on or before May 15, 1973 pursuant to written variable priced contracts. According to the PRO, one of three restitutionary methodologies should be adopted.

Texaco, Inc., White Plains, NY; HRO-0273, motor gasoline, middle distillates

On March 20, 1985, Texaco, Inc., 2000 Westchester Ave., White Plains, N.Y. 10650 filed a Notice of Objection to a Proposed Remedial Order which the DOE Economic Regulatory Administration issued to the firm on February 7, 1985. In the PRO, the ERA found that during August 19, 1973 through January 28, 1981, Texaco calculated and applied excessive May 15, 1973 prices in computing maximum lawful selling prices with respect to its sales of motor gasoline and middle distillates from Texaco's Atlanta, Houston and Los Angeles sales regions to identified and unidentified consumers, retailers, and distributors which had pruchased such products on or before May 15, 1973, pursuant to written contracts. According to the PRO, One of three restitutionary methodologies should be adopted.

Texaco, Inc., White Plains, NY; HRO-0274, middle distillates kerosene

On March 20, 1985, Texaco, Inc., 2000 Westchester Ave., White Plains, N.Y. 10650 filed a Notice of Objection to a Proposed Remedial Order which the DOE Economic Regulatory Administration issued to the firm on February 7, 1985. In the PRO, the ERA found that during September 1973 through June 1976, Texaco calculated and used excessive May 15, 1973 selling prices in computing its maximum lawful selling prices with respect to its sales of middle distillates and kerosene to identified wholesale customers in Philadelphia. According to the PRO, one of three restitutionary measures should be adopted.

Texaco, Inc., White Plains, NY; HRO-0275, propane

On March 20, 1985, Texaco, Inc., 2000 Westchester Ave., White Plains, N.Y. 10650 filed a Notice of Objection to a Proposed Remedial Order which the DOE Economic Regulatory Administration issued to the firm on February 7, 1985. In the PRO, the ERA found that during August 1973 through December 1980, Texaco calculated and used excessive May 15, 1973 prices in computing its maximum lawful selling prices with respect to its sales of propane to identified and unidentified customers which purchased propane before May 15, 1973 pursuant to written variable priced contracts. According to the PRO, one of three restitutionary methodologies should be adopted.

Texaco, Inc., White Plains, NY; HRO-0276, propane

On March 20, 1985, Texaco, Inc., 2000 Westchester Ave., White Plains, N.Y. 10650 filed a Notice of Objection to a Proposed Remedial Order which the DOE Economic Regulatory Administration issued to the firm on February 7, 1985. In the PRO, the ERA found that during November 1, 1973 through December 1980, Texaco calculated and used excessive May 15, 1973 prices in computing

its maximum lawful selling prices with respect to its sales of propane to Dow Chemical Company and Enterprise Products Company. According to the PRO, one of three restitutionary methodologies should be adopted.

Southwestern Power Administration

Proposed New Rate Schedule P-4B and Opportunity for Public Review and Comment

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice of proposed new Rate Schedule P-4B for power and energy sold to certain SWPA customers which desire to change their service arrangements and opportunity for public review and comment.

SUMMARY: The Administrator, Southwestern Power Administration (SWPA), has determined that a new Rate Schedule P-4B is required for certain SWPA customers which desire a change from their present firm service arrangements with load center delivery from SWPA under Rate Schedule F-4B and pursuant to contractual arrangements between SWPA and the Public Service Company of Oklahoma (PSO) and Oklahoma Gas and Electric Company (OG&E). These SWPA customers now desire peaking service arrangements with load center delivery from SWPA pursuant to other contractual arrangements between SWPA, PSO, OG&E, and/or the Oklahoma Municipal Power Authority (OMPA). The proposed Rate Schedule P-4B will have the same rates and terms for load center deliveries as the existing Rate Schedule F-4B, but will recognize the peaking service arrangements between SWPA and the affected SWPA customers, which provide for direct purchase by the affected SWPA customers of non-federally generated energy from PSO, OG&E, and/or OMPA. Since the same rates that apply under Rate Schedule F-4B (except for revenues and expenses associated with non-federally generated energy) will also apply under the proposed rate schedule, the net repayment results of the 1983 Power Repayment Study (the basis for present rate levels) will not be altered. However, the amount that SWPA must budget and receive Congressional appropriations for purchased power each year will be reduced, thereby reducing the overall annual Federal Budget. An opportunity is presented for interested parties to submit written comments on the proposed rate schedule. Following review of written comments, the Administrator will submit the proposed rate schedule to the Deputy Secretary of Energy for confirmation, approval, and placement in effect on an interim basis and also submit it to the Federal Energy Regulatory Commission (FERC) for confirmation and approval on a final basis.

DATES: Written Comments on the proposed Rate Schedule P-4B are due on or before May 3, 1985.

FOR FURTHER INFORMATION CONTACT: Francis R. Gajan, director, Power Marketing, Southwestern Power Administration, Department of Energy, P.O. Box 1619, Tulsa, Oklahoma 74101, (918)581-7529.

SUPPLEMENTARY INFORMATION: SWPA's proposed new Rate Schedule P-4B is merely a modified version of the existing Rate Schedule F-4B to recognize the change in service arrangements desired by a certain group of SWPA customers now served through PSO and OG&E under Rate Schedule F-4B. The implementation of the proposed Rate Schedule P-4B will not affect the rate levels under other SWPA rate schedules and will produce a rate level which will be identical to that for service under either Rate Schedule F-4B with elimination of the purchase cost pass-through element, or Rate Schedule P-4 with load center delivery. Furthermore, participation in the new service arrangements and, hence, the proposed Rate Schedule P-4B, is purely voluntary. The Administrator has, therefore, determined that written comments will provide adequate opportunity for public participation in the development of the proposed rate schedule and that a shortened comment period is reasonable. Consequently, written comments are due on or before fifteen (15) days following publication of the notice in the **Federal Register**.

Ten copies of written comments should be submitted to the Administrator, Southwestern Power Administration, U.S. Department of Energy, P.O. Box 1619, Tulsa, Oklahoma 74101. Following review of the written comments, the Administrator will develop the proposed rate schedule which will be submitted to the Deputy Secretary of Energy for approval on an interim basis and to FERC for approval on a final basis.

Issued in Tulsa, Oklahoma, April 9, 1985.

Ronald H. Wilkerson,

Administrator, Southwestern Power Administration.

BILLING CODE 6450-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

NUCLEAR REGULATORY COMMISSION

Memorandum of Understanding Between Federal Emergency Management Agency and Nuclear Regulatory Commission

The Federal Emergency Management Agency (FEMA) and the Nuclear Regulatory Commission (NRC) have entered into a new Memorandum of Understanding (MOU) Relating To Radiological Emergency Planning and Preparedness. This supersedes a memorandum entered into November 4, 1980 (Published December 16, 1980, 45 FR 82713). The substantive changes in the new MOU deal principally with the FEMA handling of NRC requests for findings and determinations concerning offsite planning and preparedness. The basis and conditions for interim findings in support of licensing are defined, as well as provisions for status reports when plans are not complete. The text of the MOU is set out below except that an attachment is not included. This attachment concerns membership on a steering committee.

Memorandum of Understanding Between NRC and FEMA Relating to Radiological Emergency Planning and Preparedness

I. Background and Purpose

This memorandum of Understanding (MOU) establishes a framework of cooperation between the Federal Emergency Management Agency (FEMA) and the U.S. Nuclear Regulatory Commission (NRC) in radiological emergency response planning matters, so that their mutual efforts will be directed toward more effective plans and related preparedness measures at and in the vicinity of nuclear reactors and fuel cycle facilities which are subject to 10 CFR Part 50, Appendix E, and certain other fuel cycle and materials licensees which have potential for significant accidental offsite radiological releases. The memorandum is responsive to the President's decision of December 7, 1979, that FEMA will take the lead in offsite planning and response, his request that NRC assist FEMA in carrying out this role, and the NRC's continuing statutory responsibility for the radiological health and safety of the public.

On January 14, 1980, the two agencies entered into a "Memorandum of Understanding Between NRC and FEMA to Accomplish a Prompt Improvement in

Radiological Emergency Preparedness" that was responsive to the President's December 7, 1979, statement. A revised and updated memorandum of understanding became effective November 1, 1980. This MOU is a further revision to reflect the evolving relationship between NRC and FEMA and the experience gained in carrying out the provisions of the January and November 1980 MOU's. This MOU supersedes these two earlier versions of the MOU.

The general principles, agreed to in the previous MOU's and reaffirmed in this MOU, are as follows: FEMA coordinates all Federal planning for the offsite impact of radiological emergencies and takes the lead for assessing offsite radiological emergency response plans [1] and preparedness, makes findings and determinations as to the adequacy and capability of implementing offsite plans, and communicates those findings and determinations to the NRC. The NRC reviews those FEMA findings and determinations in conjunction with the NRC onsite findings for the purpose of making determinations on the overall state of emergency preparedness. These overall findings and determinations are used by NRC to make radiological health and safety decisions in the issuance of licenses and the continued operation of licensed plants to include taking enforcement actions as notices of violations, civil penalties, orders, or shutdown of operating reactors. This delineation of responsibilities avoids duplicative efforts by the NRC staff in offsite preparedness matters.

A separate MOU dated October 22, 1980, deals with NRC/FEMA cooperation and responsibilities in response to an actual or potential radiological emergency. Operations Response Procedures have been developed that implement the provisions of the Incident Response MOU. These documents are intended to be consistent with the Federal Radiological Emergency Response Plan which describes the relationships, role, and responsibilities of Federal agencies for responding to accidents involving peacetime nucelar emergencies.

II. Authorities and Responsibilities

FEMA—Executive Order 12148 charges the Director, FEMA, with the responsibility to ". . . establish Federal policies for, and coordinate, all civil defense and civil emergency planning, management, mitigation, and assistance functions of Executive agencies" (Section 2–101) and ". . . represent the President in working with State and local governments and the private sector to stimulate vigorous participation in civil emergency preparedness, mitigation, response, and recovery programs." (Section 2–104.)

On December 7, 1979, the President, in response to the recommendations of the Kemeny Commission on the Accident at Three Mile Island, directed that FEMA assume lead responsibility for all offsite nuclear emergency planning and response.

Specifically, the FEMA responsibilities with respect to radiological emergency preparedness as they relate to NRC are:

1. To take the lead in offsite emergency planning and to review and assess offsite emergency plans and preparedness for adequacy.

2. To make findings and determinations as to whether offsite emergency plans are adequate and can be implemented (e.g., adequacy and maintenance of procedures, training, resources, staffing levels and qualifications, and eq uipment adequacy). Notwithstanding the procedures which are set forth in 44 CFR 350 for requesting and reaching a FEMA administrative approval of State and local plans, findings, and determinations on the current status of emergency planning and preparedness around particular sites, referred to as interim findings, will be provided by FEMA for use as needed in the NRC licensing process. Such findings will be provided by FEMA on mutually agreed to schedules or on specific NRC request. The request and findings will normally be by written communications between the co-chairs of the NRC/FEMA Steering Committee. An interim finding provided under this arrangement will be an extension of FEMA's procedures for review and approval of offsite radiological emergency plans and preparedness set forth in 44 CFR 350. It will be based on the review of currently available plans and, if appropriate, joint exercise results related to a specific nuclear power plant site.

An interim finding based only on the review of currently available offsite plans will include an assessment as to whether these plans are adequate when measured against the standards and criteria of NUREG–0654/FEMA–REP–1, and, pending a demonstration through an exercise, whether there is reasonable assurance that the plans can be implemented. The finding will indicate one of the following conditions: (1) Plans are adequate and there is reasonable assurance that they can be implemented with only limited or no corrections needed; (2) plans are adequate, but before a determination can be made as to whether they can be implemented, corrections must be made to the plans or supporting measures must be demonstrated (e.g., adequacy and maintenance of procedures, training, resources, staffing levels and qualifications, and equipment adequacy); or (3) plans are adequate and cannot be implemented until they are revised to correct deficiencies noted in the Federal review.

If in FEMA's view the plans that are available are not completed or are not ready for review, FEMA will provide NRC with a status report delineating milestones for preparation of the plan by the offsite authorities as well as FEMA's actions to assist in timely development and review of the plans.

An interim finding on preparedness will be based on review of currently available plans and joint exercise results and will include an assessment as to (1) whether offsite emergency plans are adequate as measured against the standards and criteria of NUREG–0654/FEMA–REP–1, and (2) whether the exercise(s) demonstrated that there is reasonable assurance that the plans can be implemented.

An interim finding on preparedness will indicate one of the following conditions: (1) There is reasonable assurance that the plans are adequate and can be implemented as demonstrated in an exercise; (2) there are deficiencies that may adversely affect public health and safety that must be corrected in order to provide reasonable assurance that the plans can be implemented; or (3) FEMA is undecided and will provide a schedule of actions leading to a decision.

3. To assume responsibility, as a supplement to State, local, and utility efforts, for radiological emergency preparedness training of State and local officials.

4. To develop and issue an updated series of interagency assignments which delineate respective agency capabilities and responsibilities and define procedures for coordination and direction for emergency planning and response. [Current assignments are in 44 CFR 351, March 11, 1982. (47 FR 10758)].

NRC—The Atomic Energy Act of 1954, as amended, requires that the NRC grant licenses only if the health and safety of the public is adequately protected. While the Atomic Energy Act does not

[1] Assessments of offsite plans may be based on State and local government plans submitted to FEMA under its rule (44 CFR Part 350), and as noted in 44 CFR 350.3(f), may also be based on plans currently available to FEMA or furnished to FEMA through the NRC/FEMA Steering Committee.

specifically require emergency plans and related preparedness measures, the NRC requires consideration of overall emergency preparedness as a part of the licensing process. The NRC rules (10 CFR 50.33, 50.34, 50.47, 50.54, and Appendix E to 10 CFR Part 50) include requirements for the licensee's emergency plans.

Specifically, the NRC responsibilities for radiological emergency preparedness are:

1. To assess licensee emergency plans for adequacy. This review will include organizations with whom licensees have written agreements to provide onsite support services under emergency conditions.

To verify that licensee emergency plans are adequately implemented (e.g., adequacy and maintenance of procedures, training, resources, staffing levels and qualifications, and equipment).

3. To review the FEMA findings and determinations as to whether offsite plans are adequate and can be implemented.

4. To make radiological health and safety decisions with regard to the overall state of emergency preparedness (i.e., integration of emergency preparedness onsite as determined by the NRC and offsite as determined by FEMA and reviewed by NRC) such as assurance for continued operation, for issuance of operating licenses, or for taking enforcement actions, such as notices of violations, civil penalties, orders, or shutdown of operating reactors.

III. Areas of Cooperation

A. *NRC Licensing Reviews.* FEMA will provide support to the NRC for licensing reviews related to reactors, fuel facilities, and materials licensees with regard to the assessment of the adequacy of offsite radiological emergency response plans and preparedness. This will include timely submittal of an evaluation suitable for inclusion in NRC safety evaluation reports.

Substantially prior to the time that a FEMA evaluation is required with regard to fuel facility or materials license review, NRC will identify those fuel and materials licensees with potential for significant accidental offsite radiological releases and transmit a request for review to FEMA as the emergency plans are completed.

FEMA routine support will include providing assessments, findings and determinations (interim and final) on offsite plans and preparedness related to reactor license reviews. To support its findings and determinations, FEMA will make expert witnesses available before the Commission, the NRC Advisory Committee on Reactor Safeguards, NRC hearing boards and administrative law judges, for any court actions, and during any related discovery proceedings.

FEMA will appear in NRC licensing proceedings as part of the presentation of the NRC staff. FEMA counsel will normally present FEMA witnesses and be permitted, at the discretion of the NRC licensing board, to cross-examine the witnesses of parties, other than the NRC witnesses, on matters involving FEMA findings and determinations, policies, or operations; however, FEMA will not be asked to testify on status reports. FEMA is not a party to NRC proceedings and, therefore, is not subject to formal discovery requirements placed upon parties to NRC proceedings. Consistent with available resources, however, FEMA will respond informally to discovery requests by parties. Specific assignment of professional responsibilities between NRC and FEMA counsel will be primarily the responsibility of the attorneys assigned to a particular case. In situations where questions of professional responsibility cannot be resolved by the attorneys assigned, resolution of any differences will be made by the General Counsel of FEMA and the Executive Legal Director of the NRC or their designees. NRC will request the presiding Board to place FEMA on the service list for all litigation in which it is expected to participate.

Nothing in this document shall be construed in any way to diminish NRC's responsibility for protecting the radiological health and safety of the public.

B. *FEMA Review of Offsite Plans and Preparedness.* NRC will assist in the development and review of offsite plans and preparedness through its membership on the Regional Assistance Committees (RAC). FEMA will chair the Regional Assistance Committees. Consistent with NRC's statutory responsibility, NRC will recognize FEMA as the interface with State and local governments for interpreting offsite radiological emergency planning and preparedness criteria as they affect those governments and for reporting to those governments the results of any evaluation of their radiological emergency plans and preparedness.

Where questions arise concerning the interpretation of the criteria, such questions will continue to be referred to FEMA Headquarters, and when appropriate, to the NRC/FEMA Steering Committee to assure uniform interpretation.

C. *Preparation for and Evaluation of Joint Exercises.* FEMA and NRC will cooperate in determining exercise requirements for licensees, State and local governments. They will also jointly observe and evaluate exercises. NRC and FEMA will institute procedures to enhance the review of the objectives and scenarios for joint exercises. This review is to assure that both the onsite considerations of NRC and the offsite considerations of FEMA are adequately addressed and integrated in a manner that will provide for a technically sound exercise upon which an assessment of preparedness capabilities can be based. The NRC/FEMA procedures will provide for the availability of exercise objectives and scenarios sufficiently in advance of sheduled exercises to allow enough time for adequate review by NRC and FEMA and correction of any deficiencies by the licensee. The failure of a licensee to develop a scenario that adequately addresses both onsite and offsite considerations may result in NRC taking enforcement actions.

The FEMA reports will be a part of an interim finding on emergency preparedness; or will be the result of an exercise conducted pursuant to FEMA's review and approval procedures under 44 CFR Part 350. Exercise evaluations will identify one of the following conditions: (1) There is reasonable assurance that the plans are adequate and can be implemented as demonstrated in the exercise; (2) there are deficiencies that may adversely impact public health and safety that must be corrected by the affected State and local governments in order to provide reasonable assurance that the plan can be implemented; or (3) FEMA is undecided and will provide a schedule of actions leading to a decision. Within 30 days of the exercise, a draft exercise report will be sent to the State, with a copy to the Regional Assistance Committee, requesting comments and a schedule of corrective actions, as appropriate, from the State in 30 days. Where there are deficiencies of the types noted in 2 above, and when there is a potential for a remedial exercise, FEMA Headquarters will promptly discuss these with NRC Headquarters. Within 90 days of the exercise, the FEMA report will be forwarded to the NRC Headquarters. Within 15 days of receipt of the FEMA report, NRC will notify FEMA in writing of action taken with the licensee relative to FEMA initiatives with State and local governments to correct deficiencies identified in the exercise.

D. *Emergency Planning and Preparedness Guidance.* NRC has lead

responsibility for the development of emergency planning and preparedness guidance for licensees. FEMA has lead responsibility for the development of radiological emergency planning and preparedness guidance for State and local agencies. NRC and FEMA recognize the need for an integrated, coordinated approach to radiological emergency planning and preparedness by NRC licensees and State and local governments. NRC and FEMA will each, therefore, provide opportunity for the other agency to review and comment on such guidance (including interpretations of agreed joint guidance) prior to adoption as formal agency guidance.

E. Support for Document Management System. FEMA and NRC will each provide the other with continued access to those automatic data processing support systems which contain relevant emergency preparedness data.

At NRC, this includes Document Management System support to the extent that it does not affect duplication or records retention. At FEMA, this includes technical support to the Radiological Emergency Preparedness Management Information System. This agreement is not intended to include the automated information retrieval support for the national level emergency response facilities.

F. Ongoing NRC Research and Development Programs. Ongoing NRC and FEMA research and development programs that are related to State and local radiological emergency planning and preparedness will be coordinated. NRC and FEMA will each provide opportunity for the other agency to review and comment on relevant research and development programs prior to implementing them.

G. Public Information and Education Programs. DEMA will take the lead in developing public information and education programs. NRC will assist FEMA by reviewing for accuracy educational materials concerning radiation and its hazards and information regarding appropriate actions to be taken by the general public in the event of an accident involving radioactive materials.

IV. NRC/FEMA Steering Committee

The NRC/FEMA Steering Committee on Emergency Preparedness will continue to be the focal point for coordination of emergency planning, preparedness, and response activities between the two agencies. The Steering Committee will consist of an equal number of members to represent each agency with one vote per agency. When the Steering Committee cannot agree on the resolution of an issue, the issue will be referred to NRC and FEMA management. The NRC members will have lead responsibility for licensee planning and preparedness and the FEMA members will have lead responsibility for offsite planning and preparedness. The Steering Committee will assure coordination of plans and preparedness evaluation activities and revise, as necessary, acceptance criteria for licensee, State, and local radiological emergency planning and preparedness. NRC and FEMA will then consider and adopt criteria, as appropriate, in their respective jurisdictions. (See Attachment 1.)

V. Working Arrangements

A. The normal point of contact for implementation of the points in this MOU will be the NRC/FEMA Steering Committee.

B. The Steering Committee will establish the day-to-day procedures for assuring that the arrangements of this MOU are carried out.

VI. Memorandum of Understanding

A. This MOU shall be effective as of date of signature and shall continue in effect unless terminated by either party upon 30 days notice in writing.

B. Amendments or modifications to this MOU may be made upon written agreement by both parties.

Approved for the U.S. Nuclear Regulatory Commission.

Dated: April 3, 1985.

William J. Dircks,

Executive Director for Operations.

Approved for the Federal Emergency Management Agency.

Dated: April 9, 1985.

Samuel W. Speck,

Associate Director, State and Local Programs and Support.

BILLING CODE 6718-01-M

FEDERAL HOME LOAN BANK BOARD

State Savings and Loan Association; Salt Lake City, UT; Appointment of Receiver

Notice is hereby given that pursuant to the authority contained in section 406(c)(1)(B)(i)(I) of the National Housing Act, 12 U.S.C. 1729(c)(1)(B)(i)(I) (1982), the Federal Home Loan Bank Board duly appointed the Federal Savings and Loan Insurance Corporation as sole receiver for State Savings and Loan Association, Salt Lake City, Utah, on April 12, 1985.

Dated: April 15, 1985.

Jeff Sconyers,

Secretary.

FEDERAL RESERVE SYSTEM

Citicorp, et al.; Applications To Engage de Novo in Permissible Nonbanking Activities; Correction

This notice corrects a previous **Federal Register** document (FR Doc. No. 85-6785), published at page 11561 of the issue for Firday, March 22, 1985, specifying a period for public comment concerning an application by Citicorp, New York, New York, to engage in data processing and data transmission activities. Citicorp proposes to engage in these activities world-wide. Comments on this application must be received at the Federal Reserve Bank of New York, not later than May 2, 1985.

Board of Governors of the Federal Reserve System, April 15, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Applications To Engage de Novo in Permissible Nonbanking Activities; the Marine Corp., et al.

The companies listed in this notice have filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such

as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than May 8, 1985.

A. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *The Marine Corporation,* Milwaukee, Wisconsin; to engage *de novo* through its subsidiary, The Marine Trust Company, N.A., Milwaukee, Wisconsin, in acting as investment or financial adviser to the extent of serving as an investment adviser (as defined in section 2(a)(20) of the Investment Company Act of 1940, 15 U.S.C. 80a-2(a)(20), to an investment company registered under the Act.

2. *Riverdale Bancorporation, Inc.,* Riverdale, Illinois; to engage *de novo* directly in the activity of leasing personal and real property.

B. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 101 Market Street, San Francisco, California 94105:

1. *Centennial Beneficial Corp.,* Orange, California; to engage *de novo* through its subsidiary, Centennial Beneficial Mortgage Company, Orange, California, in making, acquiring, and servicing loans and other extensions of credit such as would be made by a mortgage company or commercial loan company. This notice is for the expansion of the geographic scope of these previously approved activities to include the State of Arizona.

Board of Governors of the Federal Reserve System, April 12, 1985.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 85-9356 Filed 4-17-85; 8:45 am]

BILLING CODE 6210-01-M

Formations of; Acquisitions by; and Mergers of Bank Holding Companies; Community Bancshares, Inc., et al.

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an appliction that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than May 10, 1985.

A. **Federal Reserve Bank of Cleveland** (Lee S. Adams, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

1. *Community Bancshares, Inc.,* Hustonville, Kentucky; to become a bank holding company by acquiring 80 percent of the voting shares of The Peoples Bank of Hustonville, Hustonville, Kentucky.

B. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice Presdient) 104 Marietta Street NW., Atlanta, Georgia 30303:

1. *CB&T Bancshares, Inc.,* Columbus, Georgia; to acquire 100 percent of the voting shares of Cohutta Bancshares, Inc., Chatsworth, Georgia, thereby indirectly acquiring The Cohutta Banking Company, Chatsworth, Georgia.

C. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

Marshall & Ilsley Corporation, Milwaukee, Wisconsin; to acquire 100 percent of the voting shares of Bay View State Bank, Milwaukee, Wisconsin.

D. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *CB&T Capital Corporation,* Louisville, Mississippi; to become a bank holding company by acquiring 100 percent of the voting shares of Citizens Bank & Trust Company, Louisville, Mississippi.

Board of Governors of the Federal Reserve System, April 12, 1985.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register.**

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period:

Transaction	Waiting period terminated effective
(1) 85-0269—Impenal Chemical Industnes' proposed acquisition of voting securities of Garst Seed Company	Mar 22, 1985
(2) 85-0181—Lowe's Companies, Inc 's proposed acquisition of assets of Boise Cascade Corporation	Mar 25, 1985
(3) 85-0249—Donald Hoodes' proposed acquisition of assets of Jones & Lamson Division, (Textron, Inc , UPE)	Do
(4) 85-0276—McDonnell Douglas Corporation's proposed acquisition of voting securities of INCO, Inc Stock Bonus Plan and Trust an ESOP	Do
(5) 85-0206—Sonoco Products Company's proposed acquisition of voting securities of KMI Continental Fibre Drum, Inc , (Peter Kiewit Son's, Inc., UPE)	Mar 26, 1985
(6) 85-0248—Johnson Controls, Inc 's proposed acquisition of voting securities of Hoover Universal, Inc	Do
(7) 85-0257—Merrill Lynch & Co., Inc 's proposed acquisition of assets of Wagner, Stott & Co	Do
(8) 85-0277—Instituto Finanziano Industriale S P A 's proposed acquisition of voting securities of RC Cement Company, Inc.	Do
(9) 85-0281—Massachusetts Mutual Life Insurance Company's proposed acquisition of voting securities of MassMutual Mortgage and Realty Investors.	Do

Transaction	Waiting period terminated effective
(10) 85-0287—The New York Times Company's, (The Ochs Trust, UPE) proposed acquisition of voting securities of three newspapers, (Public Welfare Foundation, Inc., UPE)	Do
(11) 85-0256—Terneco Inc.'s proposed acquisition of assets of Mobil Corporation	Mar. 27, 1985.
(12) 85-0261—Borden, Inc.'s proposed acquisition of assets of UPE plus voting securities of Texales Limited and Crown France S.A., (Reed International, P.L.C., UPE)	Do
(13) 85-0273—Zilber, Ltd., (Joseph J. Zilber, UPE)'s proposed acquisition of voting securities of Houstonian, Inc.	Do
(14) 85-0296—General Mills, Inc.'s proposed acquisition of voting securities of Vroman Foods, Inc., (Robert H. Vroman, UPE)	Do.
(15) 85-0305—Advance Voting Trust u/i/ w/t Samuel I. Newhouse's proposed acquisition of voting securities of The New Yorker Magazine, Inc.	Do
(16) 85-0205—Tate & Lyle, PLC's proposed acquisition of voting securities of Colonial Sugars, Inc., (H. Taylor Morrissette, UPE)	Mar. 28, 1985.
(17) 85-0267—Harris Corporation's proposed acquisition of assets of Exxon Office Systems Company, (Exxon Corporation, UPE)	Do
(18) 85-0285—Metal Box p.l.c.'s proposed acquisition of voting securities of Clarke Checks Inc., (Clarke Printing & Packaging Company, UPE)	Do
(19) 85-0295—Paracelsus Healthcare Corporation, (Dr. med. Hartmut Krukemeyer, UPE)'s proposed acquisition of voting securities of Chico Community Hospital and Lodi Community Hospital, (National Medical Enterprises, UPE)	Do
(20) 85-0311—Plastic Management Corp.'s proposed acquisition of assests of the Chemical Division of (The Sherwin-Williams Company, UPE)	Do
(21) 85-0250—Dresser Industries, Inc.'s proposed acquisition of assets of McGraw-Edison Company	Mar. 29, 1985
(22) 85-0268—United Savings of America's proposed acquisition of voting securities of Wisconsin Finance Corporation	Do
(23) 85-0278—Beverly Enterprises' proposed acquisition of voting securities of Hume Medical Systems, Inc.	Do
(24) 85-0289—AMBAC Partners proposed acquisition of assets of AMBAC Indemnity Corporation, (Baldwin-United Corporation, UPE)	Do
(25) 85-1130—Hospital Corporation of America's proposed acquisition of voting securities of Forum Group Inc.	Apr. 1, 1985
(26) 85-0308—Shamrock Capital, L.P.'s proposed acquisition of voting securities of Central Soya Company, Inc.	Do
(27) 85-0290—Cummins Engine Company, Inc.'s proposed acquisition of voting securities of McCord Heat Transfer Corporation, (Ex-Cello Corporation, UPE)	Apr. 2, 1985
(28) 85-0306—The Mennen Company's proposed acquisition of assets of Paper Art Company, Inc., (William E. Atcheson, UPE)	Do
(29) 85-0288—Inspiration Resources Corporation's proposed acquisition of voting securities of Adobe Oil & Gas Corporation	Apr. 3, 1985
(30) 85-0299—American Telephone and Telegraph Company's proposed acquisition of assets of Synertek, Inc., Honeywell Synertek Pte Ltd., Honeywell—Synertek Ltd., Honeywell GmbH, (Honeywell Inc., UPE)	Do
(31) 85-0316—American Can Company's proposed acquisition of voting securities of Berg Enterprises, Inc.	Do
(32) 85-0320—Sunshine Mining Company's proposed acquisition of voting securities of Woods Petroleum Corporation	Do
(33) 85-0321—Sunshine Mining Company's proposed acquisition of voting securities of Woods Petroleum Corporation	Do
(34) 85-0323—Jack Eckerd Corporation's proposed acquisition of voting securities of Ross Stores, Inc.	Do
(35) 85-0324—Frank C. Carlow's proposed acquisition of voting securities of Columbia Northwest Corporation, (Ashland Oil Company, UPE)	Do
(36) 85-0325—Michael P. Carlow's proposed acquisition of voting securities of Columbia Northwest Corporation, (Ashland Oil Company, UPE)	Do
(37) 85-0333—CBS, Incorporated's proposed acquisition of voting securities of Winterland Concessions Company.	Do
(38) 85-0187—Entrad Corporation Limited's proposed acquisition of voting securities of Tootal Group PLC.	Apr. 4, 1985
(39) 85-0300—Van Dusen Air, Inc.'s proposed acquisition of assets of Burlington Northern Airmotive Inc., (Burlington Northern Inc., UPE)	Do
(40) 85-0312—Sodexho S.A.'s proposed acquisition of voting securities of The Seiler Corporation	Do
(41) 85-0334—Cargill, Incorporated's proposed acquisition of assets of Hunt Steel Division's Mini Mill, (Hunt Energy Co., Inc., UPE)	Do
(42) 85-0292—Macmillan, Inc.'s proposed acquisition of voting securities of ten subsidiaries of ITT Corporation	Apr. 5, 1985
(43) 85-0291—London and Northern Group PLC's proposed acquisition of voting securities of Rockville Crushed Stone, Inc. (Equitable Bank, N.A. UPE)	Do
(44) 85-0326—Eastman Kodak Company's proposed acquisition of voting securities of Eikonix Corporation	Do

FOR FURTHER INFORMATION CONTACT: Sandra M. Peay, Legal Technician, Premerger Notification Office, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580, (202) 523-3894.

By direction of the Commission.

Emily H. Rock,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Alcohol, Drug Abuse, and Mental Health Administration

Development of National Plan to Combat Alcohol Abuse and Alcoholism

AGENCY: National Institute on Alcohol Abuse and Alcoholism, HHS.

ACTION: Invitation to comment on development of a national plan to combat alcohol abuse and alcoholism.

SUMMARY: The Secretary is required to transmit to the Congress, by October 1, 1985, a comprehensive national plan to combat alcohol abuse and alcoholism, including a description of a model program for activities to be undertaken by the States; an analysis of the social and economic costs to the Nation; assesssment of current treatment and rehabilitation needs including integration into the overall health care system; assessment of personnel needs in the fields of research, treatment, rehabilitation, and prevention; a statement of specific goals and objectives necessary to meet current treatment, rehabilitation, and personnel needs through specific modifications of appropriate Federal, State, local, and private policies (including Medicare and Medicaid) to ensure appropriate cost effective treatment and prevention of alcohol abuse and alcoholism; and estimates of public and private resources necessary to accomplish these goals, as well as anticipated resource savings to accrue from these changes. This notice invites comment on the national plan.

DATE: Receipt date for comments: May 20, 1985.

ADDRESS: Submit written comments to: Mr. Loran D. Archer, Deputy Director, National Institute on Alcohol Abuse and Alcoholism, Room 16-105, 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: Mr. Loran D. Archer, (301) 443-3651.

SUPPLEMENTARY INFORMATION: The Alcohol Abuse, Drug Abuse, and Mental Health Amendments of 1984 (Pub. L. 98-509) requires the Secretary to prepare and transmit to the Congress a report which sets forth a comprehensive national plan to combat alcohol abuse and alcoholism. Section 208 of that statute provides that the report shall include:

(1) Description of a model program for activities to be conducted by the States to combat alcohol abuse and alcoholism;

(2) An analysis of the social and economic costs of alcoholism and alcohol abuse to the Nation, including amounts expended by public agencies and private organizations—

(A) For the treatment of individuals for alcohol abuse and alcoholism, including a division of such amounts among the types of settings in which such treatment is provided;

(B) For treatment of individuals for health problems resulting from alcohol abuse and alcoholism; and

(C) To meet other costs resulting from alcohol abuse and alcoholism, such as costs resulting from lost employee productivity;

(3) An assessment of current treatment and rehabilitation needs and the current integration and financing of alcoholism treatment and rehabilitation into the Nation's health care system;

(4) An assessment of personnel needs in the field of research, treatment, rehabilitation, and prevention;

(5) A statement of specific goals and objectives to meet the Nation's current treatment, rehabilitation, and personnel needs in the area of alcoholism and alcohol abuse and plans to meet those needs through specific modification of Federal, State, local and private policies and regulations, including a specification of recommendations for legislation—

(A) To establish Federal programs and to provide Federal funds to encourage States to adopt and implement the model program described under paragraph (1); and

(B) To modify programs and activities conducted, and services provided, under—

(i) Part B of title XIX of the Public Health Service Act;

(ii) Titles XVIII and XIX of the Social Security Act;

(iii) Chapter 89 of Title 5, United States Code; and

(iv) Sections 1079 and 1080 of title 10, United States Code.

in order to ensure appropriate cost-effective treatment and prevention of alcohol abuse and alcoholism; and

(6) Estimates of public and private resources needed to accomplish the goals and objectives referred to in paragraph (5) as well as resource savings that can be anticipated from achieving the national objectives.

The public is invited to submit written comments, views, and suggestions on these matters.

Donald Ian Macdonald,

Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc. 85-9329 Filed 4-17-85; 8:45 am]

BILLING CODE 4160-20-M

Health Resources and Services Administration

Statement of Organization, Functions and Delegations of Authority

Part H, Chapter HB (Health Resources and Services Administration) of the Statement of Organization, Functions and Delegations of Authority of the Department of Health and Human Services (47 FR 38409, August 31, 1982, as amended most recently at 50 FR 3415-16, January 24, 1985), is amended to reflect the following changes in the functional statement for the Office of Planning, Evaluation and Legislation in the Health Resources and Services Administration: (1) The consolidation of the planning and evaluation functions into one division and a change in the title of the Division of Program Planning to the Division of Planning and Evaluation; (2) a change in the title of the Division of Planning and Evaluation; (2) a change in the title of the Division of Evaluation and Analysis to the Division of Information and Analysis to reflect the deletion of the evaluation functions and consolidation of information and program development functions now shared by the Division of Planning and Division of Evaluation and Analysis; and (3) deletion from the functional statement for the Division of Legislation of the legislative proposal development function, which is transferred to the Division of Planning and Evaluation.

Under Section HB-10, Organization and Functions, delete all division statements under the *Office of Planning, Evaluation and Legislation (HBA6)* in their entirety and substitute the following:

Division of Planning and Evaluation (HBA62). (1) Serves as the Administrator's primary staff unit and principal source of advice on program planning and evaluation; (2) oversees communications between the Administration and higher levels of the Department on all matters that involve program plans and evaluation of program performance; (3) maintains liaison with other Federal and non-Federal health agencies on matters within its areas of responsibility; (4) develops short-range goals, objectives and priorities for the Administration; (5) coordinates interrelated bureau activities which influence programmatic planning; (6) develops in collaboration with financial management staff the short-range program and financial plan for the Administration; (7) anlayzes budgetary data with regard to planning guidelines; (8) prepares policy analysis papers and other planning documents as required in the Administration's srategic planning process; (9) collaborates with the Office of Management in the development of the current and budget year financial plans; (10) develops legislative proposals; and (11) provides technical assistance to support the evaluation of policy and operations questions undertaken in the Administration.

Division of Information and Analysis (HBA63). (1) Serves as the Administrator's primary staff unit and principal source of advice on program information and analysis; (2) oversees communications between the Administration and higher levels of the Department on all matters that involve analysis of program policy; (3) maintains liasion with other Federal and non-Federal health agencies on matters within its area of responsibility; (4) provides with the Director of Planning and Evaluation technical assistance to support the statistical, economic, operations research, cost benefit, and other scientific analyses of policy questions undertaken in the Administration; (5) supports development of long-range objectives and strategies; (6) identifies for the Administrator data required for use in the management and direction of Administration programs; (7) assesses and analyzes trends and makes forecasts about health services systems for use in the program management and decisionmaking process; (8) monitors ongoing information systems which produce analytical data about the Agency's programs; (9) provides support in the development of small computer-assisted information applications and management decision tools; (10) performs analyses of the impact of Agency programs on specific groups within the population, including minorities, and develops appropriate solutions to problems of illness and disease; and (11) coordinates the Administration's public use reports clearance function.

Division of Legislation (HBA64). (1) Serves as the Administrator's primary staff unit and principal source of advice on legislative affairs; (2) oversees communications between the Administration and higher levels of the Department on legislative matters; (3) oversees the legislative program for the Administration; (4) develops a legislative program for the Administration; (5) prepares the Administration's analyses, position papers, and reports on proposed legislation; (6) supervises the preparation of testimony and backup materials on the Administration's legislative program for presentation to Congressional Committees; (7) monitor hearings and Congressional activities affecting the Administration; (8) in conjunction with the OAS(L), coordinates the preparation of information requested by, and provides technical assistance to, Congressional Committees, Members of Congress, or their staffs in relation to the Administration's legislative program; and (9) coordinates the distribution of legislative materials and serves as a legislative reference center.

These functional changes are effective on date of signature.

Dated: April 8, 1984.

James O. Mason,

Acting Assistant Secretary for Health.

[FR Doc. 85-9304 Filed 4-17-85; 8:45 am]

BILLING CODE 4160-15-M

Social Security Administration

Statement of Organization, Functions and Delegations of Authority

Part S of the Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services (DHHS) covers the Social Security Administration (SSA). Sections SJ.10 and SJ.20 of the SSA statement, as published in the **Federal Register** on July 18, 1984 (49 FR 29153-54) and amended on October 29, 1984, describe the organization and functions of SSA's Office of Disability (OD).

Notice is hereby given that Sections SJ.10 and SJ.20 are amended to reflect the change in organizational title of the Medical Consultant Staff, OD to the Office of Medical Evaluation, OD. The OD material is amended as follows:

Section SJ.10 *The Office of Disability*—(Organization):

Delete:

D. The Medical Consultant Staff ( ).

Add:

D. The Office of Medical Evaluation ( ).

Section SJ.20 *The Office of Disability*—(Functions):

Delete:

D. The Medical Consultant Staff ( ).

Add:

D. The Office of Medical Evaluation ( ).

Dated: April 8, 1985.

Nelson J. Sabatini,

Acting Deputy Commissioner for Management and Assessment.

BILLING CODE 4190-11-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

[Docket No. N-85-1521; FR-2086]

General Prototype Housing Costs for One- to Four-Family Dwelling Units

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice.

SUMMARY: The Housing and Community Development Act of 1977 requires the Department to publish prototype housing costs for a variety of one- to four-family dwelling units in each market area throughout the United States. This Notice announces the 1984 prototype costs, and is intended to provide the public with the typical cost of a single family dwelling in a definite area.

FOR FURTHER INFORMATION CONTACT: Brain Chappelle, Director, Single Family Development Division, Office of Single Family Housing, Department of Housing and Urban Development, Room 9270, 451 Seventh Street, SW., Washington, D.C. 20410, telephone (202) 755-6720. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Section 904 of the Housing and Community Development Act of 1977 (42 U.S.C. 3540) requires HUD to prepare and publish annually prototype housing costs for one- to four-family dwelling units for each market area in the United States. The most recent publication of prototype costs by the Department was on August 24, 1982 (see 47 FR 36970). These prototype figures are intended to serve as an aid to the general public in estimating typical housing costs in a particular market area. These prototype costs are not the same as those published annually by the Department under section 6(b) of the United States Housing Act of 1937 for use in public housing projects.

The prototpye costs are developed by HUD using data submitted from HUD field offices and the public and general data gathered by the Department in administering the National Housing Act section 203(b) single family mortgage insurance program. The prototype costs include costs for land and site improvement, and cover both urban and rural areas of each market area. Generally, prototype costs represent the sales price.

The tables that follow this document list the prototype costs for all market areas. Because of the lack of information on two-, three-, and four-family dwelling units, costs generally include figures for one-family dwellings only. In consideration of varying economic situations, prototype costs are divided into three cost ranges: Low, medium and high. The typical low-range, one-family dwelling contains three bedrooms and one full bath. The typical medium-range one-family dwelling contains three or four bedrooms and two full baths. The typical high-range one-family dwelling contains three to five bedrooms and two or three full baths.

A Finding of No Significant Impact with respect to the environment required by the National Environmental Policy Act (42 U.S.C. 4321-4347) is unnecessary, since prototype cost notices are categorically excluded under HUD regulations at 24 CFR 50.21(a).

Authority: Sec. 904, Housing and Community Development Act of 1977 (42 U.S.C. 3540); sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d))

Dated: April 10, 1985.

Shirley McVay Wiseman,

General Deputy Assistance Secretary for Housing—Deputy Federal Housing Commissioner.

BILLING CODE 4210-27-M

Office of Administration

[Docket No. N-85-1522]

Submission of Proposed Information Collections to OMB

AGENCY: Office of Administration, HUD.

ACTION: Notices.

SUMMARY: The proposed information collection requirements described below have been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposals.

ADDRESS: Interested persons are invited to submit comments regarding these proposals. Comments should refer to the proposal by name and should be sent to: Robert Fishman, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Report Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., Washigton, D.C. 20410, telephone (202) 755-6050. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposals described below for the collection of information to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The Notices list the following information: (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the agency form number, if applicable; (4) how frequently information submissions will be required; (5) what members of the public will be affected by the proposal; (6) an estimate of the total number of hours needed to prepare the information submission; (7) whether the proposal is new or an extension or reinstatement of an information collection requirement; and (8) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Copies of the proposed forms and other available documents submitted to OMB may be obtained from David S. Cristy, Reports Management Officer for the Department. His address and telephone number are listed above. Comments regarding the proposals should be sent to the OMB Desk Officer at the address listed above.

The proposed information collection requirements are described as follows:

Proposal: Application for Transfer of Physical Assets
Office: Housing
Form No.: HUD-92266
Frequency of submission: On Occasion
Affected public: Businesses or Other For-Profit and Non-Profit Institutions
Estimated burden hours: 32,200
Status: Extension
Contact: S. Daniel Raley, HUD, (202) 755-5730, Robert Neal, OMB, (202) 395-7316

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: March 15, 1985.

Proposal: Application for Coinsurance Benefits (Multifamily)—State Agencies
Office: Adminstration
Form No.: HUD-426, 426A, 426.1, and 427
Frequency of submission: On Occasion
Affected Public: State or Local Governments
Estimated burden hours: 30
Status: Extension
Contact: Eugene Morroni, HUD, (202) 755-7523, Robert Fishman, OMB (202) 395-7316

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: March 27, 1985.

Proposal: Multifamily Coinsurance Claims Package 223(f)
Office: Administration
Form No.: HUD-27008, 27009B, 27009D, and 27009F
Frequency of submission: On Occasion
Affected public: Businesses or Other For-Profit
Estimated burden hours: 60
Status: Extension
Contact: Eugene Morroni, HUD (202) 755-7523, Robert Fishman, OMB, (202) 395-7316

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: March 27, 1985.

Proposal: Claim for Payment of HUD Security Deposit Guarantee and Compensation for Vacancy Loss
Office: Housing
Form No.: HUD-52676
Frequency of submission: On Occasion
Affected public: State or Local Governments
Estimated burden hours: 352,750
Status: Revision
Contact: Myra Newbill, HUD, (202) 755-7570, Robert Fishman, OMB, (202) 395-7316

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: April 9, 1985.

Proposal: Evaluation of the Housing Voucher Demonstration Program
Office: Policy Development and Research
Form No.: None
Frequency of submission: On Occasion
Affected public: Individuals or Households and Non-Profit Institutions
Estimated burden hours: 8,282
Status: New
Contact: Howard Hammerman, HUD, (202) 755-5574, Robert Neal, OMB, (202) 395-7316

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: March 5, 1985.

Proposal: American Housing Survey—1985 National Sample
Office: Policy Development and Research
Form No.: AHS-21, 22, 23, 26, and 28
Frequency of submission: Biennially
Affected public: Individuals or Households
Estimated burden hours: 26,300
Status: New
Contact: Duane T. McGough, HUD, (202) 755-5060, Arthur F. Young, Census, (301) 763-2863, Robert Neal, OMB, (202) 395-7316

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: February 25, 1985.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Information Collection Submitted for Review

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Copies of the proposed information collection requiren.ent and related forms and explanatory material may be obtained by contacting the Bureau's Clearance Officer at the phone number listed below. Comments and suggestions on the requirement should be made directly to the Bureau Clearance Officer and the Office of Management and Budget Interior Desk Officer at (202) 395–7313.

Title: Subchapter N—Economic Enterprises. Applications and Requirements (25 CFR Part 286).

Abstract: To provide financial assistance to Tribes, Tribal organizations, and individuals through the Indian Business Development Program to promote economic development on or near reservations. The forms require certain financial data, background information, project feasiblity, and financial solvency to determine the eligibility and potential success of the business.

Note.—This is not a new program or a new information collection by BIA. Bureau Form Numbers: BIA Form 8001, BIA Form 8004, BIA Form 8005.

Frequency: On occasion.

Description of Respondents: Individual Indians and Indian Organizations.

Annual Responses: 700.

Annual Burden Hours: 630 hours.

Bureau Clearance Officer: Ramona Moore (202) 343–3574.

March 4, 1985.

John W. Fritz,

Assistant Secretary; Indian Affairs.

BILLING CODE 4310-02-M

Poarch Band of Creeks Establishment of Reservation

April 12, 1985.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8.1. In the absence of the Assistant Secretary—Indian Affairs, 209 DM 8.3A authorizes the Deputy Assistant Secretary—Indian Affairs final approval authority. Notice is hereby given that, under the authority of section 7 of the Act of June 18, 1934 (48 Stat. 986; 25 U.S.C. 467), the hereinafter described tracts of land, located in Elmore and Escambia Counties, Alabama, were proclaimed to be an Indian reservation, effective April 12, 1985 for exclusive use of Indians entitled by enrollment or by tribal membership to residence at such reservation.

Saint Stephans Meridian, Elmore and Escambia Counties, Alabama

Elmore County

T. 18 N., R. 18 E.,

"Commerce at the Southeast corner of Section 24, Township 18, Range 18, Elmore County, Alabama, and run thence West along section line a distance of 900.0 feet; thence N 1°02′ West along West property line of Southern Natural Gas Co., a distance of 340 feet; thence N. 19°09′ East a distance of 1019.03 feet to West right of way of U.S. Highway 231; thence S. 78°16′ West a distance of 316.80 feet; thence N 59°56′ West a distance of 440 feet; thence N 30°04′ E a distance of 875 feet; thence 59°56′ East a distance of 489.46 feet to the point of beginning of tract herein conveyed; thence N 9°04′ East a distance of 231.24 feet; thence N 8°56′ East a distance of 150.26 feet; thence N 80°59′ W a distance of 17.41 feet; thence N 0°39′ E a distance of 120.0 feet; thence N 89°29′ W a distance of 97.56 feet; thence N 0°21′ W a distance of 665 feet; thence N. 89°39′ East a distance of 50.0 feet; thence N 0°21′ West a distance of 645.87 feet (said point shall be hereinafter called "Point A" for a 60.0-foot easement described below); thence continue N 0°21′ West a distance of 495 feet; thence N 70°42′ W a distance of 425 feet, more or less, to the East bank of the Coosa River; thence run Southwesterly along said East bank a distance of 1960 feet, more or less; thence S. 59°56′ East a distance of 1264.46 feet, more or less, to the point of beginning, said tract being located in the East Half of Section 24, Township 18, Range 18, Elmore County, Alabama, and containing 35.8 acres, more or less.

Less and except a 60 foot by 60 foot easement on the Northeast corner for rights of egress and ingress;

Also: a 60 foot easement described as beginning at "Point A" in above description and run thence N. 89°39′ East a distance of 254.81 feet, more or less, to the West right of way of U.S. Highway 231 and South Main Street in the City of Wetumpka, Alabama, and said bearing and distance being the centerline of a 60 foot easement to above described property."

Escambia County, Alabama

T. 2 N., R. 5 E.,

"All of the South Half of Northeast Quarter of Southwest Quarter lying West of Jack Springs Road;

Also a strip on the East end of the South Half of Northwest Quarter of Southwest Quarter described as follows: Begin at Southeast corner of said 20 acres, thence West one chain and 99 links; thence North 3 degrees East 10 chains and eight links; thence East one chain and 46 links; thence South along East line of said 20 acres to point of beginning, containing 1.72 acres, more or less;

All in section 27, Township 2 North, Range 5 East, containing in the aggregate 17.74 acres, more or less, being the same lands conveyed by the State of Alabama to the Board of Education of Escambia County by deed recorded in Deed Book 250, pages 281 et seq. and by the latter to the former by deed dated May 14, 1975 and recorded in Deed Book 313, pages 113 et seq."

"All of the Southeast Quarter of Southwest Quarter lying South of the old Swift-Hunter Lumber Company railway right of way, less and except the following parcels:

Beginning at the Southwest corner of said Southeast Quarter of Southwest Quarter, thence run North 210 feet; thence run East 440 feet; thence run South 210 feet; thence run West 440 feet to the point of beginning, containing 2.1 acres, more or less;

Beginning at the Southeast corner of said Southeast Quarter of Southwest Quarter, thence run West 167 feet; thence run North 250 feet; thence run East 167 feet; thence run South 250 feet to the point of beginning, containing one acre, more or less;

Containing 15.3 acres, more or less.

Commencing at the Southwest corner of Southwest Quarter of Southeast Quarter, thence run East 196 feet; thence run North 210 feet; thence run North 28° East 131 feet; thence run North 29° West parallel with Jack Springs Road 210 feet; thence at an angle of 90° to the right run 210 feet to the West right-of-way line of Jack Springs Road; thence run North 29° West along said West right-of-way line 400 feet to a point which is 226 feet, measured along said West right-of-way line Southeasterly from the intersection of said West right-of-way line with the West line of said SW¼ of SE¼; thence turn an angle of 90° to the left and run 135 feet to a point on the West line of said SW¼ of SE¼ which is 267 feet South of the intersection of said West line with the West right-of-way line of Jack Springs Road; thence run South 881 feet to the point of beginning, containing 4.7 acres, more or less; all in Section 27, Township 2 North, Range 5 East."

"North Half of Northwest Quarter of Southwest Quarter, and that part of the South Half of Northwest Quarter of Southwest Quarter lying West of the public road known as Old Sullivan Mill Road, less and except the following parcels:

Exception One: Beginning at a point which is 240 feet South of the Northeast corner of said Northwest Quarter of Southwest Quarter; thence run South 408 feet to the North margin of roadway; thence run West along said North margin 154 feet; thence run South along the West margin of roadway 12 feet; thence run West 56 feet; thence run North 420 feet; thence run East 210 feet to the point of beginning, containing two acres, more or less;

Exception Two: Beginning at the Southwest corner of the Northwest Quarter of Southwest Quarter, thence run East 1145 feet to public road; thence run North 3 degrees 15 minutes East 380 feet along said road; thence run West 1167 feet; thence run South 380 feet to

the point of beginning, containing 10 acres, more or less;

All in Section 27, Township 2 North, Range 5 East, containing 25 acres, more or less."

"North Half of Southeast Quarter of Section 28, Township 2 North, Range 5 East, containing 80.00 acres, more or less."

"A tract of land consisting of 40 acres in the Northeast Quarter of Section 34, Township 2 North, Range 5 East bounded on the East by Jack Springs Road, bounded on the West by the West line of said Northeast Quarter; bounded on the North by the North line of said Northeast Quarter; and bounded on the South by a line parallel to the latter line."

T. 2 N., R. 6 E.,

"Beginning at a point on the West line of Alabama Highway No. 21 which is 577.5 feet North of the South line of Northwest Quarter of Southwest Quarter of Section 28, Township 2 North, Range 6 East; thence run South 28° 32' West along the West line of said highway 750 feet; thence run North 84° 40' West 555.80 feet to make or form the starting point; thence coutinue North 84° 40' West 950.20 feet to the East line of Escambia County Road 14; thence run South 39° 30' East along the East line of said Road 14 a distance of 450 feet; thence run in an Easterly direction along the curve of the North line of said Road 14 a distance of 690 feet (chord: S 67° 15' E 663.6 feet); thence run North 85° 15' East along the North line of said Road 14 a distance of 172.6 feet; thence run North 13° 51' West 511.73 feet to the point of beginning, lying partly in Southeast Quarter of Southeast Quarter and partly in Northeast Quarter of Southeast Quarter of Section 29, Township 2 North, Range 6 East, in Escambia County, Alabama."

The above described parcels contain a total of 229.54 acres, more or less which are subject to all valid rights, reservations, rights-of-way, and easements of record.

John W. Fritz,

Deputy Assistant Secretary, Indian Affairs.

BILLING CODE 4310-02-M

Bureau of Land Management

[Coal Lease Application ES 32662]

Tuscaloosa County, AL; Public Hearing and Availability of Environmental Assessment

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public hearing and availability of environmental assessment.

SUMMARY: The Department of the Interior, Bureau of Land Management, Eastern States Office, 350 South Pickett Street, Alexandria, Virginia 22304, hereby gives notice that a public hearing will be held on May 9, 1985, at 10:00 a.m., in the Public Room, Eastern States Office, Bureau of Land Management, 350 South Pickett Street, Alexandria, Virginia 22304. Application has been made to the United States under the emergency coal leasing regulation, 43 CFR 3425.1-4, that it offer for lease certain coal resources in the public lands hereinafter described. The purpose of the hearing is to obtain public comments on the Environmental Assessment and on the following items.

1. The method of mining to be employed to obtain maximum economic recovery of the coal;

2. The impact that mining the coal in the proposed leasehold may have on the area including but not limited to impacts on the environment; and

3. Methods of determining the fair market value (FMV) of the coal to be offered.

Written requests to testify orally at the May 9, 1985, public hearing should be received at the Eastern States Office, Bureau of Land Management, address set out above, prior to the close of business at 4:00 p.m., on May 8, 1985. People who indicate they wish to testify when they check in at the hearing room may have an opportunity to testify if time is available after the listed witnesses have been heard.

Both oral and written comments will be received at the public hearing, but speakers will be limited to a maximum of 10 minutes each depending on the number of persons desiring to comment. The time limitation will be strictly enforced, but the complete text of prepared speeches may be filed with the presiding officer at the hearing, whether or not the speaker has been able to finish oral delivery in the allotted minutes. Written comments may also be submitted to the Eastern States Office at the above address, prior to close of business on May 8, 1985.

Substantive comments, whether written or oral, will receive equal consideration prior to any lease offering.

In addition, the public is invited to submit written comments concerning the FMV of the coal resource to the Bureau of Land Management. Public comments will be utilized in establishing FMV for the coal resources in the described lands.

Comments should address specific factors related to FMV, including, but not limited to: The quantity and quality of the coal resources, the price that the mined coal would bring in the market place, the cost of producing the coal, the probable timing and rate of production, the interest rate at which anticipated income streams would be discounted, depreciation and other accounting factors, the expected rate of industry return, the value of the surface estate (if private surface), and the mining method or methods which would achieve maximum economic recovery of the coal. Documentation of similar market transactions, including location, terms and conditions, may also be submitted at this time.

These comments will be considered in the final determination of FMV as determined in accordance with 30 CFR 211.63 and 43 CFR 3422.12. Should any information submitted as comments be considered to be proprietary by the commentor, the information should be labeled as such and stated in the first page of the submission. Comments should be sent to the State Director, Bureau of Land Management, at the above address.

Application ES 32662 (310 Acres) (East Poplar Hollow Tract)

The coal resource to be offered is to be *Surface Mined* from the middle seam of the Utley Group (Middle Utley Coal Bed) which is on private surface located in Sections 3, 4 and 9, T. 17 S., R. 9 W., Tuscaloosa County, Alabama. The complete description is available at the Eastern States Office at the address set out above, or at the Bureau of Land Management, Jackson District Office, P.O. Box 11348, Delta Station, Jackson, Mississippi 39213.

The Environmental Assessment will be available for review in the Jackson District Office, Jackson, Mississippi, or in the Eastern States Office, Bureau of Land Management, at the above address. Single copies are available for distribution upon request from the Eastern States Office.

A copy of the Environmental Assessment, the case file and the comments by the public on FMV, except for proprietary information excluded by the Freedom of Information Act, will be available for public inspection at the Eastern States Office, Bureau of Land Management, at the address set out above.

We have found that the range of quality of the Middle Utley coal bed within the East Poplar Hollow tract is as follows:

1. Moisture (%), 1.4–2.4
2. Ash (%), 6.6–11.7
3. Sulfur (%), 1.6–3.9
4. Btu/lb. 13,109–14,000
5. Approx. tons in place, 132,000

FOR FURTHER INFORMATION CONTACT: Ms. Barbara Coalgate, Bureau of Land Mangement, Eastern States Office, 350

South Pickett Street, Alexandria, Virginia 22304, (703) 274–0149.

BILLING CODE 4310–GJ–M

Idaho; Filing of Plat of Survey

April 8, 1985.

The plats of survey of the following described land were officially filed in the Idaho State Office, Bureau of Land Management, Boise, Idaho, on the dates hereinafter stated:

Boise Meridian

T. 62 N., R. 3 E., Accepted February 4, 1985.
Officially filed February 25, 1985.
T. 7 N., R. 27 E., Accepted February 4, 1985.
Officially filed February 27, 1985.

The above plat represent surveys, dependent resurveys, and subdivisions of sections.

Inquiries about these lands should be addressed to Chief, Branch of Cadastral Survey, Idaho State Office, 3380 Americana Terrace, Boise, Idaho, 83706.

Sharron Deroin,

Chief, Land Services Section.

[FR Doc. 85–9327 Filed 4–17–85; 8:45 am]

BILLING CODE 4310–84–M

[M 60958]

Conveyance and Order Providing for Opening of Public Lands; Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Conveyance and Order Providing for Opening of Public Land in Carter County, Montana.

SUMMARY: This order will open the lands reconveyed in an exchange under the Act of October 21, 1976, 43 U.S.C. 1701, et seq., to the operation of the public land laws. No minerals were transferred by either party in the exchange.

This notice also informs the public and interested state and local governmental officials of the issuance of the conveyance document.

DATE: At 9 a.m. on June 10, 1985, the lands reconveyed to the United States shall be open to the operation of the public land laws, subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable law. The lands described in paragraph 1 below were segregated from settlement, sale, location and entry under the public land laws, including the mining laws, but not from exchange, by the Notice of Realty Action published in the **Federal Register** on November 2, 1984 (49 FR 44153). The segregation terminated on issuance of the patent on April 5, 1985.

FOR FURTHER INFORMATION CONTACT: Edward H. Croteau, Chief, Lands Adjudication Section, BLM, Montana State Office, P.O. Box 36800, Billings, Montana 59107, Phone (406) 657–6082.

SUPPLEMENTARY INFORMATION: 1. Notice is hereby given that pursuant to section 206 of the Act of October 21, 1976 (43 U.S.C. 1716), the following described surface estate was conveyed to Richard Owen and Clarice Owen:

Principal Meridian Montana

T. 5 S., R. 57 E.,
Sec. 6, SE¼SW¼;
Sec. 7, NE¼NW¼;
Sec. 21, SE¼SW¼;
Sec. 26, SW¼NE¼;
T. 5 S., R. 58 E.,
Sec. 21, SE¼SE¼;
Sec. 22, SE¼NE¼, SE¼NW¼, NE¼SW¼;
Sec. 27, E½NW¼, N½NE¼SW¼;
Sec. 28, NE¼NW¼;
Sec. 29, NE¼NE¼.
Aggregating 500 acres.

2. In exchange for the above selected land, the United States acquired the surface estate of the following lands in Carter County, Montana:

Principal Meridian, Montana

T. 5 S., R. 57 E.,
Sec. 3, lot 4;
Sec. 4, lot 1, SE¼NE¼, SE¼SE¼;
Sec. 7, SE¼NE¼, SE¼SW¼, N½SE¼, SW¼SE¼;
Sec. 8, W½NE¼, S½NW¼, NW¼SW¼.
Containing 558.42 acres.

3. The values of the Federal public land and the non-Federal land in the exchange were both appraised at $53,500.

4. At 9 a.m. on June 10, 1985, the lands described in paragraph 2 above that were conveyed to the United States will be open to the operation of the public land laws.

John A. Kwiatkowski,

Deputy State Director, Division of Lands and Renewable Resources.

April 11, 1985.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Department of the Army, Corps of Engineers, proposes that two land withdrawals for the Columbia River at the Mouth Project continue for a additional 100 years. The lands would remain closed to surface entry and mining but have been and would remain open to mineral leasing.

FOR FURTHER INFORMATION CONTACT: Champ Vaughan, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208 (Telephone 503–231–6905)

SUPPLEMENTARY INFORMATION: The Department of the Army, Corps of Engineers proposes that the existing land withdrawals made by the Executive Orders of February 26, 1852 and August 29, 1863, be continued for a period of 100 years pursuant to section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751, 43 U.S.C. 1714.

The lands involved include Sand Island and Point Adams which are located near the mouth of the Columbia River in Clatsop County, Oregon. Approximately 280 acres are affected.

The purpose of the withdrawals is to protect the Columbia River at the Mouth Project. The withdrawals segregate the lands from operation of the public land laws generally, including the mining laws, but not the mineral leasing laws. No change is proposed in the purpose or segregative effect of the withdrawals.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments,

suggestions, or objections in connection with the proposed withdrawal continuations may present their views in writing to the undersigned officer at the address specified above.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. A report will also be prepared for consideration by the Secretary of the Interior, the President and Congress, who will determine whether or not the withdrawals will be continued and if so, for how long. The final determination on the continuation of the withdrawals will be published in the **Federal Register**. The existing withdrawals will continue until such final dtermination is made.

Dated: April 11, 1985.

Champ C. Vaughan, Jr.,

Acting Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-33-M

[W-37489]

Wyoming; Proposed Reinstatement of Terminated Oil and Gas Lease

Pursuant to the provisions of Pub. L. 31-245 and Title 43 Code of Federal Regulations, § 3108.2-1(c), and Pub. L. 97-451, a petition for reinstatement of oil and gas lease W-37489 for lands in Converse County, Wyoming was timely filed and was accompanied by all the required rentals accruing from the date of termination.

The lessees have agreed to the amended lease terms for rentals and royalties at rates of $5.00 per acre, or faction thereof, per year and 16⅔ percent, respectively.

The lessees have paid the required $500.00 administrative fee and $106.25 to reimburse the Department for the cost of this **Federal Register** notice. The lessees have met all the requirements for reinstatement of the lease as set out in section 31 (d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease W-37489 effective January 1, 1982, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Judith A. Moffitt,

Acting Chief, Leasing Section.

BILLING CODE 4310-22-M

Cedar City District Advisory Council; Meeting

Notice is hereby given in accordance with Pub. L. 92-463, that a meeting of the Cedar City District Advisory Council will be held May 14, 1985.

The meeting will begin at 9:30 a.m. at the BLM's Cedar City District Office, 1579 North Main, Cedar City, Utah. The agenda will include discussions of wildlife related issues in Iron, Beaver, and Garfield Counties, an update on the BLM/FS Interchange, and current status on projects the Council has previously addressed.

All Advisory Council meetings are open to the public. Those wishing to accompany the Council on the field portion of the meeting should provide their own transportation and lunch. Interested persons may make oral statements at 9:30 a.m. at the BLM District Office or may submit written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the District Manager, P.O. Box 724, Cedar City, Utah 84720 by May 10, 1985. Depending on the number of persons wishing to make a statement, a per person time limit may be established by the District Manager or Council Chairman.

J. Kent Giles,

Acting District Manager.

Idaho Falls District Grazing Advisory Board; Meeting

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Meeting of the Idaho Falls District Grazing Advisory Board.

SUMMARY: The Idaho Falls District Grazing Advisory Board will meet Monday, June 3, 1985. Notice of this meeting is in accordance with Pub. L. 92-463. The meeting will begin at 9 a.m. at the Pocatello Resource Area Office in the Pocatello Federal Building at 250 South 4th Ave. The meeting is open to the public; public comments on agenda items will be accepted from 12:45 to 1:15 p.m. at the covered picnic area across from the hot pool at Lava Hot Springs, Idaho.

The meeting will consist of a tour of BLM projects and programs in the Pocatello Resource Area. Topics to be covered include noxious weeds, range improvement projects, recreation programs and interagency coordination.

Participants will need to provide transportation and lunch.

Summary minutes of the meeting will be kept in the District Office and will be available for public inspection and reproduction during business hours (7:45 a.m. to 4:30 p.m.) within 30 days after the meeting.

FOR FURTHER INFORMATION CONTACT: O'dell A. Frandsen, Bureau of Land Management, 940 Lincoln Road, Idaho Falls, Idaho 83401; Telephone: (208) 529-1020.

April 12, 1985.

Minerals Management Service

Development Operations Coordination Document

AGENCY: Minerals Management Service.

ACTION: Notice of the Receipt of a Proposed Development Operations Coordination Document (DOCD).

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a DOCD describing the activities it proposes to conduct on Lease OCS 0184, Block 72, East Cameron Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from onshore bases located at Morgan City and Cameron, Louisiana.

DATE: The subject DOCD was deemed submitted on April 12, 1985.

ADDRESSES: A copy of the subject DOCD is available for public review at the Office of the Regional Director, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Ms. Angie D. Gobert; Minerals Management Service; Gulf of Mexico OCS Region; Rules and Production; Plans, Platform and Pipeline Section; Exploration/Development Plans Unit; Phone (504) 838-0876.

SUPPLEMENTARY INFORMATION: The purpose of this Notice is to inform the public, pursuant to Sec. 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected states, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Dated: April 12, 1985.

INTERSTATE COMMERCE COMMISSION

[Docket No. AB-6 (Sub-248)]

Burlington Northern Railroad Co.; Abandonment in Pemiscot County, MO; Notice of Findings

The Commission has issued a certificate authorizing Burlington Northern Railroad Company to abandon its 8.0-mile rail line between Hayti (milepost 212.90) and Caruthersville (milepost 220.90) in Pemiscot County, MO. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that: (1) a financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and the applicant no later than 10 days from publication of this Notice. The following notation shall be typed in bold face on the lower left-hand corner of the envelope containing the offer: "Rail Section, AB-OFA". Any offer previously made must be remade within this 10-day period.

Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 and 49 CFR 1152.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Lodging of Consent Decree Pursuant to Clean Water Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that on March 26, 1985 a proposed consent decree in *United States of America* v. *LFE Corporation, Inc.*, C.A. 85-1196-G, was lodged with the United States District Court, District of Massachusetts. The complaint filed by the United States alleged that LFE Corporation, Inc. ("LFE") an electroplating facility for the production of printed circuit boards, violated the Clean Water Act by discharging wastewater pollutants, into a publicly owned treatment works in violation of national pretreatment requirements for electroplaters. The complaint alleged that LFE also violated various pretreatment reporting requirements. The proposed consent decree requires LFE to pay a civil penalty of $56,000 for past violations and to install pollution control equipment necessary to comply with applicable pretreatment requirements by April 22, 1985 and to comply with pretreatment discharge limitations by May 22, 1985.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States of America* v. *LFE Corporation, Inc.*, Department of Justice Reference 90-5-1-1-2270.

The proposed consent decree may be examined at the Office of the United States Attorney, John McCormack Post Office and Courthouse Building, Devonshire Street, Boston, Massachusetts 02109 and at the Region I Office of the Environmental Protection Agency, John F. Kennedy Federal Building, Boston, Massachusetts 02203. Copies of the proposed consent decree may be examined at the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1515, Ninth Street and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. When requesting a copy, please refer to *United States of America* v. *LFE Corporation, Inc.*, Department of Justice Reference 90-5-1-1-2270.

F. Henry Habicht II,

Assistant Attorney General, Land and Natural Resources Division.

Information Collection(s) Under Review

April 16, 1985.

The Office of Management and Budget (OMB) has been sent for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was

published. The list has all entries grouped into new forms, revisions, or extensions. Each entry contains the following information:

(1) The name and telephone number of the Agency Clearance Officer (from whom a copy of the form and supporting documents is available;

(2) The office of the agency issuing the form;

(3) The title of the form;

(4) The agency form number, if applicable;

(5) How often the form must be filled out;

(6) Who will be required or asked to report;

(7) An estimate of the number of responses;

(8) An estimate of the total number of hours needed to fill out the form;

(9) An indication of whether section 3504(h) of Pub. L. 96–511 applies; and,

(10) The name and telephone number of the person or office responsible for the OMB review.

Copies of the proposed form(s) and the supporting documentation may be obtained from the Agency Clearance Officer whose name and telephone number appear under the agency name. Comments and questions regarding the items contained in this list should be directed to the reviewer listed at the end of each entry *and* to the Agency Clearance Officer. If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer and the Agency Clearance Officer of your intent as early as possible.

BILLING CODE 4410–01–M

[Civil Action No. 83–4311D]

Consent Decree in Action To Enjoin Emission of Air Pollutants

In accordance with Departmental Policy, 28, CFR 50.7, 38 FR 19029, notice is hereby given that a consent decree in *United States* v. *All Purpose Roll Leaf Corporation and Transfer Print Rolls, Inc.*, Civil Action No. 83–4311D, has been lodged with the United States District Court for the District of New Jersey. The consent decree establishes a compliance program for the Paramus plant owned and operated by All Purprose Roll Leaf Corporation and Transfer Print Rolls, Inc., to bring the plant into compliance with the Clean Air Act, 42 U.S.C. 7401 *et seq.* and the New Jersey State Implementation Plan ("SIP"), relating to the emission of volatile organic substances ("VOS"), and requires payment of a civil penalty.

The Department of Justice will receive for thirty (30) days from the date of publication of this notice, written comments relating to the consent decree. Comments should be addressed to the Assistant Attorney Gerneral, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530 and should refer to *United States* v. *All Purpose Roll Leaf Corporation and Transfer Print Rolls, Inc.*, D.J. Ref. No. 90–5–2–1–628.

The consent decree may be examined at the office of the United States Attorney, District of New Jersey, 970 Broad Street, Newark, New Jersey 07102; at the Region II Office of the Environmental Protection Agency, 26 Federal Plaza, New York, New York 10278; and the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1515, Ninth Street and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. In requesting a copy please enclose a check in the amount of $1.20 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

F. Henry Habicht, II,

Assistant Attorney General, Land and Natural Resources Division.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Expansion Arts Advisory Panel (Challenge/Advancement Section); Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Expansion Arts Advisory Panel (Challenge/Advancement Section) to the National Council on the Arts will be held on May 9–10, 1985 from 9:00 am–5:30 pm in Room 714 of the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendations on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c)(4), (6), and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements; Office of Management and Budget Review

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the Office of Management and Budget review of information collection.

SUMMARY: The Nuclear Regulatory Commission has recently submitted to the Office of Management and Budget (OMB) for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

1. Type of submission, new, revision or extension: Extension.

2. The title of the information collection:

—DOE/NRC Form 742—Material Balance Report and NUREG/BR–0007, instructions for completing forms 742, 742C, and 740M

—DOE/NRC Form 742C—Physical Inventory Listing

3. The form number if applicable: Same as item 2 above.

4. How often the collection is required:

—Semiannually for affected special nuclear material licensees. Annually for affected source material licensees. As specified in Facility Attachments for licensees reporting under 10 CFR Part 75.

5. Who will be required or asked to report: Persons licensed to possess specified quantities of special nuclear material or source material.

6. An estimate of the number of responses:

—DOE/NRC Form 742: 600

—DOE/NRC Form 742C: 600

7. An estimate of the total number of hours needed to complete the requirement or request:

8. An indication of whether section 3504(h), Pub. L. 96–511 applies:

—DOE/NRC Form 742: 600

—DOE/NRC Form 742C: 4,800

Not applicable.

Copies of the submittal may be inspected or obtained for a fee from the NRC Public Document Room, 1717 H Street, NW., Washington, DC 20555.

Comments and questions should be directed to the OMB reviewer, Jefferson B. Hill, (202) 395–7340.

The NRC Clearance Officer is R. Stephen Scott, (301) 492–8585.

Dated at Bethesda, Maryland, this 15th day of April 1985.

For the Nuclear Regulatory Commission.

Patricia G. Norry,

Director, Office of Administration.

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards Subcommittee on Class 9 Accidents; Meeting

The ACRS Subcommittee on Class 9 Accidents will hold a meeting on May 2, 1985, Room 1167, 1717 H Street, NW, Washington, DC.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Thursday, May 2, 1985—8:30 a.m. until the conclusion of business.

The Subcommittee will be briefed by RES on the draft NUREG–0956, "Source Term Reassessment."

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentation by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. A. Wang (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EST. Persons planning to attend this meeting are urged to contract the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occured.

Dated: April 15, 1985.

Morton W. Libarkin,

Assistant Executive Director for Project Review.

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards Subcommittee on Palo Verde; Meeting

The ACRS Subcommittee on Palo Verde will hold a meeting on April 26, 1985, at the Best Western Airport Inn, 2425 South 24th Street, Phoenix, AZ.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Friday, April 26, 1985—8:30 a.m. until 12:30 p.m.

The Subcommittee will review the final reports for various construction deficiencies and the results of the preoperational testing as requested in ACRS letter dated December 15, 1981.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the

Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Gary Quittschreiber or Mr. Alan Wang (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EST. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: April 15, 1985.

Advisory Committee on Reactor Safeguards, Subcommittee on Safety Philosophy, Technology, and Criteria; Meeting

The ACRS Subcommittee on Safety Philosophy, Technology, and Criteria will hold a meeting on May 8, 1985, Room 1046, 1717 H Street, NW, Washington, DC.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, May 8, 1985—3:00 p.m. until the conclusion of business

The Subcommittee will review the status of the NRC Staff's evaluation of the trial use of the Commission's proposed Safety Goal Policy.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Dr. Richard Savio (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., EST. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: April 15, 1985.

BILLING CODE 7590–01–M

International Atomic Energy Agency Draft Safety Guide; Availability of Draft for Public Comment

The International Atomic Energy Agency (IAEA) is completing development of a number of internationally acceptable codes of practice and safety guides for nuclear power plants. These codes and guides are in the following five areas: Government Organization, Design, Siting, Operation, and Quality

Assurance. All of the codes and most of the proposed safety guides have been completed. The purpose of these codes and guides is to provide guidance to countries beginning nuclear power programs.

The IAEA codes of practice and safety guides are developed in the following way. The IAEA receives and collates relevant existing information used by member countries in a specified safety area. Using this collation as a starting point, an IAEA working group of a few experts develops a preliminary draft of a code or safety guide which is then reveiwed and modified by an IAEA Technical Review Committee corresponding to the specified area. The draft code of practice or safety guide is then sent to the IAEA Senior Advisory Group which reviews and modifies as necessary the drafts of all codes and guides prior to their being forwarded to the IAEA Secretariat and thence to the IAEA Member States for comments. Taking into account the comments received from the Member States, the Senior Advisory Group then modifies the draft as necessary to reach agreement before forwarding it to the IAEA Director General with a reach agreement before forwarding it to the IAEA Director General with a recommendation that it be accepted.

As part of this program, Safety Guide SG–011, "Operational Management for Radioactive Effluents and Wastes Arising in Nuclear Power Plants," has been developed. The working group consisting of Mr. E. Hladky from Czechoslovakia; Mr. A. Higashi from Japan; Mr. A. G. Fleischman from the United Kingdom of Great Britain and Northern Ireland; Mr. L. C. Oyen (Sargent and Luny Engineers) from the United States of America developed the initial draft of this guide from an IAEA collation. This draft was subsequently modified by the IAEA Technical Review Committee for Operation and the Senior Advisory Group, and we are now soliciting public comment on a modified draft (Rev. 4, dated November 8, 1984). Comments received by the Director, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, by May 24, 1985, will be particularly useful to the U.S. representatives to the Technical Review Committee and the Senior Advisory Group in developing their positions on it adequacy prior to their next IAEA meetings.

Single copies of this draft Safety Guide may be obtained by a written request to the Director, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

(5 U.S.C. 522(a))

Dated at Washington, D.C., this 11th day of April 1985.

For the Nuclear Regulatory Commission.

Robert B. Minogue,

Director, Office of Nuclear Regulatory Research.

[FR Doc. 85–9369 Filed 4–17–85; 8:45 am]

BILLING CODE 7590–01–M

[Docket 72–3]

Carolina Power & Light Co.; Consideration of a Materials License for the Storage of Spent Fuel and Opportunity for a Hearing

The Nuclear Regulatory Commission (the Commission) is considering an application dated February 4, 1985, for a materials license, under the provisions of 10 CFR Part 72, from Carolina Power & Light Company (the applicant) to possess spent fuel and other radioactive materials associated with spent fuel storage in an independent spent fuel storage installation (ISFSI) located in Darlington County, South Carolina. If granted, the license will authorize the applicant to store spent fuel in a dry storage concrete module system at the applicant's H.B. Robinson Steam Electric Plant site for Unit 2 (Operating License DPR–23) within the protected area for the nuclear unit. Pursuant to the provisions of 10 CFR Part 72, the term of the license for the ISFSI would be twenty (20) years.

Prior to a decision on the requested license, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The issuance of the materials license will not be approved until the Commission has reviewed the proposal and has concluded that approval of the license will not be inimical to the common defense and security and would not constitute an unreasonable risk to the health and safety of the public. The NRC will complete an environmental assessment in accordance with 10 CFR Part 51 to determine whether to prepare an environmental impact statement or a finding of no significant impact.

Pursuant to 10 CFR 2.105, by May 20, 1985, the applicant may file a request for a hearing; and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the subject materials license in accordance with the provisions of 10 CFR 2.714. If a request for hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition, and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order. In the event that no request for hearing or petition for leave to intervene is filed by the above date, the Commission may, upon satisfactory completion of all evaluations, issue the materials license without further prior notice.

A petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend a petition, without prior approval of the presiding officer at any time up to 15 days prior to the holding of the first prehearing conference, but such an amended petition must satisfy the specificity requirements described above. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, DC. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, by the above date. A copy to the petition and/or request for a hearing should be sent to the Executive Legal Director, United States Nuclear Regulatory Commission, Washington, DC 20555, and to G.F. Trowbridge, Esquire, Shaw, Pittmann, Potts and Trowbridge, 1800 M Street, NW. Wasington, DC 20036, attorney for the applicant.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, the petitioner shall file a supplement to the petition to intervene which must include a list of contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or the request, that the petitioner has made a substantial showing of good cause for the granting of a later petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

The Commission hereby provides notice that this proceeding is on an application for a license falling within the scope of section 134 of the Nuclear Waste Policy Act of 1982 (NWPA), 42 U.S.C. 10154. Under section 134 of NWPA, the Commission, at the request of any petitioner or any party to the proceeding, is required to employ hybrid hearing procedures with respect to "any matter which the Commission determines to be in controversy among the parties." Section 134 procedures provide for oral argument on those issues "determined to be in controversy", preceded by discovery under the Rules of Practice, and the designation, following argument, of only factual issues that involve a genuine and substantial dispute, together with any remaining questions of law, to be resolved at an adjudicatory hearing. Actual adjudicatory hearings are to be held only on those issues found to meet the criteria of Section 134 and set for hearing after oral argument on the proposed issues. However, if no petitioner or party requests the use of the hybrid hearing procedures, then the usual 10 CFR Part 2 procedures apply.

[At this time the Commission does not have effective regulations implementing section 134 of the NWPA, although it has published proposed rules. See Hybrid hearing Procedures for Expansion of Onsite Spent Fuel Storage Capacity at Civilian Nuclear Power Reactors, 48 FR 54499 (December 5, 1983).]

In the event that a hearing is held and a person is permitted to intervene, he/she becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he/she may present evidence and examine and cross-examine witnesses in any adjudicatory hearing that is held.

For further details with respect to this action, see the application dated February 4, 1985, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, and at the local public document room at the Hartsville Memorial Library, 220 N. Fifth Street, Hartsville, South Carolina 29550. The Commission's License and Safety Evaluation Report, when issued, may be inspected at the above locations.

Dated at Silver Spring, Maryland, this 12th day of April, 1985.

BILLING CODE 7590–01–M

[Docket No. 50–334]

Duquesne Light Co. et al.; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from a schedular requirement of Appendix E to 10 CFR Part 50 to Duquesne Light Company, Ohio Edison Company and Pennsylvania Power Company (the licensees), for the Beaver Valley Power Station, Unit No. 1, located in Shippingport, Pennsylvania.

Environmental Assessment

Identification of Proposed Action

The exemption would allow the annual emergency preparedness exercise at Beaver Valley Power Station, Unit 1, to be conducted in September, instead of February of 1985.

The exemption is responsive to the Duquesne Light Company's application for exemption dated September 11, 1984.

The Need for the Proposed Action.

The proposed exemption is needed because (1) The change of the 1985 exercise date from February to September would enable the licensee to use the simulator, which would provide realistic operational data for the exercise, (2) the change would facilitate better coordination among the several FEMA and NRC regional offices, (3) the change would eliminate the need for separate exercises when Unit 2 starts operation, and (4) the change would enable an exercise be performed under different weather conditions from those of previous exercises.

Environmental Impacts of the Proposed Action

The proposed exemption will provide assurance of emergency preparedness that is equivalent to that required by Appendix E such that there is no increase in the risk of accidents at this facility. The probability of accidents has not been increased and the post-accident radiological releases will not be greater than previously determined, nor does the proposed exemption otherwise affect radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with this proposed exemption.

With regard to potential non-radiological impacts, the proposed exemption involves features located entirely within the restricted area as defined in 10 CFR Part 20. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant non-radiological environmental impacts associated with the proposed exemption.

Alternative Use of Resources

This action involves no use of resources not previously considered in the Final Environmental Statement (construction permit and operating license) for the Beaver Valley Power Station, Unit No. 1.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed exemption.

Based upon the foregoing environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for the exemption dated September 11, 1984, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, and at the B.F. Jones Memorial Library, 663 Franklin Avenue, Aliquippa, Pennsylvania 15001.

Dated at Bethesda, Maryland this 11th day of April 1985.

BILLING CODE 7590-01-M

[Docket Nos. 50-424 and 50-425]

Georgia Power Company et al. Availability of Final Environmental Statement for the Vogtle Electric Generating Plant, Units 1 and 2

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that the Final Enviromental Statement (NUREG-1087) prepared by the Commission's Office of Nuclear Reactor Regulation, related to the proposed operation of the Vogtle Electric Generating Plant, Units 1 and 2, located in Burke County, Georgia, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C., and in the Burke County Library, Fourth Street, Waynesboro, Georgia 30830. The Final Environmental Statement is also being made available at the Office of Planning and Budget, Room 615B, 270 Washington Street, SW., Atlanta Georgia 30334 and at the Central Savannah River APDC, 2123 Wrightsboro Road, Augusta, Georgia 30904.

The notice of availability of the Draft Environmental Statement for the Vogtle Electric Generating Plant, Units 1 and 2, and requests for comments from interested persons was published in the **Federal Register** on November 16, 1984 (49 FR 45512). The comments received from Federal, State, and local agencies, and interested members of the public have been included as Appendix A to the Final Environmental Statement.

Copies of NUREG-1087 may be purchased by calling (301) 492-9530 or by writing to the Publication Services Section, Document Management Branch, Division of Technical Information and Document Control, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555; or purchased from the National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161.

Dated at Bethesda, Maryland, this 12th day of April 1985.

BILLING CODE 7590-01-M

[Docket No. 50-333]

Power Authority of the State of New York; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC/the Commission) is considering issuance of an exemption from the requirements of 10 CFR 50.48(c)(4) to the Power Authority of the State of New York (PASNY/the licensee) for the James A. Fitzpatrick Nuclear Power Plant located in Osewgo County, New York.

Environmental Assessment

Identification of Proposed Action

The exemption would grant the licensee a schedular deferment from the provisions of Appendix R, Section III.G, fire protection of the equipment used for safe shutdown capability, from the current Cycle 6 refueling outage to the end of the Cycle 7 refueling outage. The exemption is responsive to the licensee's application for exemption dated March 15, 1985.

The Need for the Proposed Action

Appendix R, Section III.G requires a licensee authorized to operate a nuclear power reactor to provide fire protection for equipment used for safe shutdown by means of separation and barriers or provide alternative safe shutdown capability. The schedular requirements of 10 CFR 50.48(c)(4) call for the implementation of modifications before startup after the earliest of the following events commencing 180 days after Commission approval:

(1) The first refueling outage;

(2) Another planned outage that lasts for at least 60 days; or

(3) An unplanned outage that lasts for at least 120 days.

By letter dated March 15, 1985, the licensee informed us that it had identified a condition at FitzPatrick similar to that described for the Kansas Gas and Electric Wolf Creek facility in IE Information Notice No. 85-09, "Isolation Transfer Switches and Post-Fire Shutdown Capability," dated January 31, 1985. This condition could result in the plant's alternate shutdown system becoming disabled in the event of a control room fire. Because this condition was identified only recently, the licensee has stated that it would be unable to complete the long term modifications necessary to correct this problem by the end of the current Cycle 6 outage (i.e., the schedule established by 10 CFR 50.48), without severely impacting the schedule for plant restart.

Accordingly, the licensee has requested a schedular exemption from the requirements of Section III.G of Appendix R to 10 CFR Part 50 to extend the deadline for completing all modifications required for alternate shutdown capability to the end of the next refueling outage (Reload 7/Cycle 8), currently scheduled to begin October 1986. The licensee will implement interim compensatory fire protection measures prior to restart from the refueling outage now in progress. These measures have been found acceptable by the staff.

Environmental Impacts of the Proposed Action

By using reasonable interim compensatory measures, the proposed exemption will provide a degree of fire protection such that there is no significant increase in the risk of fires at this facility. Consequently, the probability of fires has not been increased and the post-fire radiological releases will not be greater than previously determined nor does the proposed exemption otherwise affect radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with this proposed exemption.

With regard to potential nonradiological impacts, the proposed exemption involves features located entirely within the restricted area as defined in 10 CFR Part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed exemption.

Alternative Use of Resources

This action involves no use of resources not previously considered in the Final Environmental Statement (construction permit and operating license) for the James A. FitzPatrick Nuclear Power Plant.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed exemption.

Based upon the foregoing environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for exemption dated March 15, 1985, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Penfield Library, State University College of Oswego, Oswego, New York.

Dated at Bethesda, Maryland, this 10th day of April, 1985.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Acting Assistant Director for Operating Reactors, Division of Licensing.

[FR Doc. 85-9380 Filed 4-17-85; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-390]

Tennessee Valley Authority, Watts Bar Nuclear Plant, Unit 1; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of partial exemptions from the requirements of Appendix J to 10 CFR Part 50 and Paragraph 70.24 to 10 CFR Part 70 to the Tennessee Valley Authority (the licensee) for the Watts Bar Nuclear Plant, Unit 1, located at the licensee's site in Rhea County, Tennessee.

Environmental Assessment

Identification of Proposed Actions

The proposed actions would provide partial exemptions from certain Commission regulations. The first exemption would relieve the licensee from the requirement of conducting a full pressure airlock leakage test, pursuant to paragraph III.D.2(b)(ii) of Appendix J to 10 CFR Part 50, whenever airlocks are opened during periods when containment integrity is not required. Licensees would rely, instead, on the seal leakage test described in paragraph III.D.2(b)(iii) when the reactor is in cold shutdown (mode 5) or refueling (mode 6) and when maintenance has been performed on the airlock. The second exemption would relieve the licensee, until irradiated fuel is placed into the fuel storage area, from the requirement to have a criticality monitor installed in the fuel storage area.

The licensee's request for exemptions and the bases therefor, are contained in letters dated December 3, 1984, and February 16, 1985.

The Need for the Proposed Actions

As described in the staff's Safety Evaluation Report, Supplement 4, for the Watts Bar Nuclear Plant, performance of the leakage rate tests required by paragraph III.D.2(b)(ii) of 10 CFR Part 50, Appendix J, takes at least 6 hours per airlock. Exemption from type B leakage rate tests on airlocks opened during a period when containment integrity is not required and when no maintenance has been performed on the airlock would provide the licensee with greater plant availability over the lifetime of the plant.

The second exemption, as described in the licensee's February 16, 1985, submittal, would allow the licensee to delay installation and operation of a criticality monitor until irradiated fuel is placed into the fuel storage area. Because there is currently non-irradiated fuel on site, the licensee would be required to maintain a criticality monitor without the requested exemption. This would result in an unnecessary hardship without a compensating increase in the level of safety.

Environmental Impacts of Proposed Actions

The first proposed exemption would permit the substitution of an airlock seal leakage test (paragraph III.D.2(b)(iii) of Appendix J, 10 CFR Part 50) for the full pressure airlock test otherwise required by paragraph III.D.2(b)(ii) when the airlock is opened while the reactor is in a cold shutdown or refueling mode. If the tests required by III.D.2(b) (i) and (iii) are current, no maintenance having been performed on the airlock and with it properly sealed, this exemption will not affect containment integrity and does not affect the risk of facility accidents. Thus, post-accident radiological releases will not a be greater than previously determined nor does the proposed relief otherwise affect radiological plant effluents, nor result in any significant occupational exposure. Likewise, the relief does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant radiological or non-radiological environmental impacts associated with the proposed exemption.

The second proposed exemption allows the licensee to have non-irradiated fuel in the fuel storage area without having a criticality alarm system. By letter dated September 5, 1979, the staff granted this exemption for the specified date of the Special Nuclear Materials (SNM) license. Since this license, and its exemptions, expires upon issuance of the operating license, the licensee has requested the exemption be incorporated into the Watts Bar Unit 1 operating license upon its issuance. The staff has determined that the bases supporting this exemption in the SNM license are applicable to the operating license. Therefore, this exemption will not affect containment integrity and does not affect the risk of facility accidents. Thus, post-accident releases will not be greater than previously determined, nor does the proposed relief otherwise affect radiological plant effluents, or result in any significant occupational exposure. Likewise, the relief does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant radiological or non-radiological environmental impacts associated with the proposed exemption.

Alternative to the Proposed Actions

Because we have concluded that there is no measurable environmental impact associated with the proposed exemptions, any alternatives to the exemptions will have either no environmental impact or greater environmental impact.

The principal alternative would be to deny the requested exemptions. Such action would not reduce environmental impact of Watts Bar Unit 1 operations and would result in reduced operational flexibility and/or unwarranted delays in power ascension.

Alternative Use of Resources

These actions do not involve the use of resources not previously considered in connection with the "Final Environmental Statement Related to Operation of Watts Bar Nuclear Plant, Units 1 and 2," dated December 1978.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's requests that support the proposed exemptions. The NRC staff did not consult other agencies or persons.

Finding of No Significant Impact

Based upon the foregoing environmental assessment, we conclude that the proposed actions will not have a significant effect on the quality of the human environment. Accordingly, the

Commission has determined not to prepare an environmental impact statement for the proposed exemptions.

For further details with respect to the actions, see the licensee's requests for the exemptions dated December 3, 1984, and February 16, 1985, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Chattanooga-Hamilton County Bicentennial Library, 1001 Broad Street, Chattanooga, Tennessee 37401.

Dated at Bethesda, Maryland, this 12th day of April 1985.

For the Nuclear Regulatory Commission.

Thomas M. Novak,

Assistant Director for Licensing, Division of Licensing.

[FR Doc. 85-9376 Filed 4-17-85; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 72-2 (50-280 and -281)]

Virginia Electric and Power Co.; Issuance of Environmental Assessment and Finding of No Significant Impact for the Surry Dry Cask Independent Spent Fuel Storage Installation at the Surry Power Station

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of a materials license under the requirements of 10 CFR Part 72 to Virginia Electric and Power Company (VEPCO or the applicant), authorizing the receipt and storage of spent fuel in dry casks at an Independent Spent Fuel Storage Installation (ISFSI) located onsite at the Surry Power Station site in Surry County, Virginia.

The function of the dry cask ISFSI is to provide interim storage of spent fuel from Surry Power Stations Units 1 and 2. Spent fuel loading and cask preparation takes place within the Surry Power Station fuel handling building. The casks are then moved to the onsite ISFSI where they are placed on concrete slabs. The spent fuel is stored in an inert atmosphere inside massive metal casks which provide confinement, shielding, criticality control and heat removal.

The Commission's Office of Nuclear Material Safety and Safeguards, Division of Fuel Cycle and Material Safety, has completed its environmental review in support of the issuance of a materials license. The "Environmantal Assessment (EA) Related to the Construction and Operation of the Surry Dry Cask Independent Spent Fuel Storage Installation" has been issued in accordance with 10 CFR Part 51. The scope of the environmental assessment included the construction and operation of an ISFSI on the Surry site, including impacts specifically derived from the cask to be used, the CASTOR V/21. As discussed in the EA, no significant construction impacts are anticipated. The activities will affect only about two percent of the land area on the Surry site. The potentials for fugitive dust, erosion and noise impacts, typical of the planned construction activities, can be controlled to insignificant levels with good construction practices. The only resource committed irretrievably is the concrete used in the three ISFSI storage pads. The radiological impacts from liquid and gaseous effluents arising from cask loading and preparation fall within the scope of impacts evaluated for licensed reactor operations and are controlled by the existing Surry reactor Technical Specifications. The primary exposure pathway associated with operation of the ISFSI is direct irradiation of nearby residents and site workers. The dose commitment to the nearest resident is about 6×10^{-5} mrem/yr and when added to that from Surry Power Station operations is well within the 25 mrem/yr requirement of 10 CFR 72.67. The collective does commitment to residents within two miles of the ISDSI is 3×10^{-6} man-rem/yr. The occupational dose to site workers due to construction and operations is a small fraction of the total occupational dose commitment at the Surry Power Station. The radiological impacts due to accidents at the Surry ISFSI are only a small fraction of the 5 rem criteria specified in 10 CFR 72.68(b) and by the EPA protective action guides. No significant non-radiological impacts are expected from ISFSI operations.

In summary, the ISFSI site has previously been cleared and is being used by the applicant in connection with operations of its Surry Power Station Units 1 and 2, and therefore involves no new commitment of land resources. The proposed action involves no significant change in the type or increase in the amount of any effluents that may be released offsite. There is no significant increase in the individual and collective radiation doses to both the public and occupational workers. Therefore, the proposed action will not significantly impact the quality of the human environment. Accordingly, pursuant to 10 CFR 51.31, and 10 CFR 51.32 the Commission has determined that a finding of no significant impact is appropriate and an environmental impact statement (EIS) need not be prepared for the issuance of a materials license for the Surry Dry Cask Independent Spent Fuel Storage Installation.

This licensing action is the first of several anticipated onsite dry cask ISFSI's and is closely similar to that for an ISFSI at a site not occupied by a nuclear power reactor, which, in accordance with 10 CFR 51.20(b)(9), requires an EIS. However, in the NUREG-0575, "Final Generic Environmental Impact Statement on Handling and Storage of Spent Light Water Power Reactor Fuel," the impacts from wet storage, whether at reactor or away-from-reactor sites were generically assessed and found to be insignificant. Dry storage also appeared to be environmentally acceptable. Additionally, ISFSI impacts contribute little to the existing impact from a site already dedicated to NRC licensed activities. Therefore, issuance of a draft finding of no significant impact would not significantly further the purposes of NEPA.

The EA for the proposed action, on which this Finding of No Significant Impact is based, relied on seven other environmental documents: (1) "Environmental Report Surry Power Station Dry Cask Independent Spent Fuel Storage Installation," submitted with the license application, dated October 6, 1982, and supplementary information provided in response to NRC questions; (2) "Final Environmental Statement Related to Operation of Surry Power Station Unit 1, "Docket No. 50-280, May 1972; (3) "Final Environmental Statement Related to Operation of Surry Power Station Unit 2," Docket No. 50-281, June 1972; (4) "Final Environmental Statement Related to Construction of Surry Power Station Units 3 and 4," Dockets No. 50-434 and 50-435, May 1974; (5) memorandum from James R. Miller (NRC) to Joseph Rutberg (NRC), July 2, 1982. Enclosure 1, Finding of No Significant Impact with attached EA: "Environmental Assessment by the Office of Nuclear Reactor Regulation and Nuclear Material Safety and Safeguard Related to Increasing the Spent Fuel Storage Capacity and the Storage of Surry Spent Fuel at the North Anna Power Station Units 1 and 2, Virginia Electric and Power Company and Old Dominion Electric Cooperative, North Anna Power Station Units 1 and 2, Docket Nos. 50-338 and 50-339;" (6) "Final Generic Environmental Impact Statement on Handling and Storage of Spent Light Water Power Reactor Fuel," NUREG-0575, Vols. 1-3, August 1979; and (7) "Socioeconomic Impacts of Nuclear Generating Stations: Surry Case Study," NUREG/CR2749, Vol. 11, July 1982.

The environmental assessment and other documents related to this

proposed action are available for public inspection and for copying for a fee at the NRC Public Document Room, 1717 H Street, NW., Washington, DC. and at the Local Public Document Room at the Swem Library, College of William and Mary, Williamsburg, Virginia, 23185.

Dated at Silver Spring, Maryland this 12th day of April 1985.

For the Nuclear Regulatory Commission.

Leland C. Rouse,

Chief, Advanced Fuel and Spent Fuel Licensing Branch, Division of Fuel Cycle and Material Safety.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-21937; SR-BSE-85-2]

Filing and Order Granting Accelerated Approval of Proposed Rule Change

April 12, 1985.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on March 11, 1984, the Boston Stock Exchange, Inc. ("BSE") filed with the Commission the proposed rule change as described herein. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

The BSE is requesting permanent approval of its pilot program established for execution of standard odd-lot market orders to purchase or sell shares in American Telephone and Telegraph ("AT&T") and the equity issues created as a result of the AT&T divestiture.[1] The proposed rule change will amend Chapter XII of the BSE rules pertaining to the execution of odd-lot orders ("Odd-lot Dealers in Securities the Primary Market for Which Is on Another Exchange").

Under these new procedures, standard odd-lot orders received prior to the opening will be executed at the primary market opening price. An odd-lot differential will not be charged on these orders.[2] Standard odd-lot market orders received after the opening in all BSE issues will receive an execution price based on the best consolidated quotation in the stock at the time such order is received by the specialist. No odd-lot differential will be charged on these orders. In addition, standard odd-lot market orders received during the course of a trading halt shall be executed at the primary opening price.[3] An odd-lot differential will not be charged on these orders. In instances in which quotation information is not available (*e.g.* when the quotation is in a non-firm mode), standard odd-lot market orders will be executed at the last consolidated round-lot sale. An odd-lot differential may be charged on these orders. The proposed rule change also provides that odd-lot limit orders shall be executed in accordance with the procedures applicable to round-lot limit orders. No odd-lot differential will be charged on these orders.

The BSE has stated in its filing that members favor the proposed rules because the pricing method has proven less error prone than one requiring the computation of differentials. In addition, the Exchange states that elimination of the differential provides a more favorable execution price for the public. The Exchange states that the proposed rule change is consistent with section 6(b)(5) of the Act in that it facilitates transactions in securities and serves to protect the public interest by providing for the execution of odd-lot orders at a price more favorable to the public.

Interested persons are invited to submit written data, views and arguments concerning the proposed rule change within 21 days from the date of publication of the submission in the **Federal Register**. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 450 5th Street, NW., Washington, D.C. 20549. Reference should be made to File No. SR-BSE-85-2.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission and all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room, 450 5th Street, NW., Washington, D.C. Copies of the filing and of any subsequent amendments also will be available at the principal office of the BSE.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchange and, in particular, the requirements of Section 6 and the rules and regulations thereunder.

The Comission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof in that the pilot program is scheduled to expire on March 29, 1985. The BSE is amending its rule to codify these odd-lot procedures contained in the pilot a permanent basis. The Division believes that accelerated approval is appropriate to permit the odd-lot procedures to continue uninterrupted.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change referenced above be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

[FR Doc. 85-9385 Filed 4-17-85; 8:45 am]

BILLING CODE 8010-01-M

[1] The Commission initially approved the adoption of a nine month pilot program (SR-BSE-83-14) in Securities Exchange Act Release No. 20399, November 18, 1983; 48 FR 54151, November 30, 1983, for the execution of standard odd-lot market orders in the AT&T divestiture issues, including American Information Technologies Corporation, American Telephone & Telegraph Co., Bell Atlantic Corporation, Bell South Corporation, NYNEX Corporation, Pacific Telesis Group, Southwestern Bell Corporation and U.S. West, Inc. The Commission subsequently approved the expansion of the pilot program established for execution of standard odd-lot market orders to purchase or sell shares in AT&T to include all BSE issues on a two-month pilot basis. *See* Securities Exchange Act Release No. 21300, September 10, 1984; 49 FR 36185, September 14, 1984 (File No. SR-BSE-84-2). The pilot was subsequently extended until March 29, 1985. *See* Securities Exchange Act Release No. 21687, January 25, 1985, 50 FR 5023, February 5, 1985, (File No. SR-BSE-84-9).

[2] *See* letter from Joseph Carmichael to Michael Cavalier, Branch Chief, Market Regulation, dated April 3, 1985.

[3] *See* letter from Joseph Carmichael, Vice President, BSE to Brandon Becker, assistant Director, Market Regulation, dated March 14, 1985.

[Release No. 34-21942; SR-CBOE-85-07]

Chicago Board Options Exchange, Inc.; Filing of Proposed Rule Change; Relating to Position and Exercise Limit Procedures

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 15, 1985, the Chicago Board Options Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Text of the Proposed Rule Change

The Exchange files as a rule change the following memorandum to members:

To: The Membership
From: Alan Resser, Chairman
Exemption Committee
Re: Position and Exercise Limit
Exemption Procedures.

The Exemption Committee became a part of the Exchange Committee structure on February 8, 1984. To insure that all members are aware of Committee policy regarding the granting of position and exercise limit exemptions, the policy is set forth below. The Exchange's Executive Committee has approved the following position and exercise limit exemption policy and procedures.

Policies With Regard To Granting Exemptions To Position and Exercise Limits

Exchange Rules 4.11 and 4.12 provide that the President or his designee may authorize exemptions to the currently applicable position and exercise limits. The purpose of this process is to assure that there is sufficient depth and liquidity in the market place, and not to confer a right upon the market-maker applying for an exemption.

In light of the procedural safeguards set forth below, the purpose of the exemption process, and the prohibition against the granting of retroactive exemptions, decisions granting or denying exemptions are not subject to review under Chapter XIX of the Exchange Rules regarding Hearings and Review.

Policy

1. An exemption may be granted for the purpose of maintaining a fair and orderly market in the options on a given underlying security.

2. Generally, an exemption will be granted only to a market-maker who has requested an exemption, who holds an appointment to the options where the exemption is requested, whose positions are near the current position limit and who is significant in terms of in-person daily volume. The interpretation of this point has been that the positions must be within 10% of the applicable limits in equity options and 20% of the applicable limits in OEX.

3. If an exemption is granted, it will be effective at the time the decision is communicated. *Retroactive exemptions will not be granted.*

4. The size and length of an exemption will be determined on a case by case basis (An exemption is usually granted until the nearest expiration.)

Procedures

1. A request for an exemption from the established position and exercise limits must be in writing and *must state the specific reasons* why an exemption should be granted.

2. The request should be submitted to Nancy Wagner, Manager, in the Department of Surveillance on the seventh floor.

3. The Chairman of the Exemption Committee will appoint Panels, usually consisting of three members of the Committee, to review, among other factors, such matters as market-maker positions, trading activity, and comments by trading crowd members concerning market conditions. A Panel will make a recommendation to the President or his designee as to whether or not an exemption should be granted.

4. A Panel will normally meet after the market close, Mondays through Thursdays. To ensure review by a Panel, exemption requests must be submitted to Nancy Wagner no later than 10:00 a.m. on the day of a meeting. A panel's review is conducted informally, and a panel may receive information in such manner as is most effective, in its discretion, to ascertain whether an exemption is necessary to maintain depth and liquidity in the market.

5. Based upon the recommendation of a Panel the President or his designee will decide whether to grant the requested exemption.

6. The President or his designee will communicate the exemption decision to the requesting market-maker and his clearing firm as soon as possible, generally on the day following Panel review.

7. Ordinarily, a first application will be considered by a panel without the presence of the applicant. If a market-maker's request for an exemption has been denied and he wishes to reapply for an exemption he may make a brief personal appearance at the next scheduled exemption committee meeting to present only those issues not previously considered by the committee.

The above procedures have been established for market-makers nearing the limits due to general market conditions. Please also note that instant exemption requests will be considered in extraordinary situations, such as an order imbalance or position limit restrictions of market-makers who are near the limits in highly unusual circumstances. Requests for instant exemptions should be made by contacting two of the committee members listed below.

Following their immediate review of the situation, the two committee members will make a joint decision whether an exemption is warranted, in accordance with criteria established by the Committee. Following the committee members' decision, staff will be notified of the instant exemption request and its disposition, and at the next Committee meeting, granted instant exemptions will be reviewed.

Those committee members designated to handle instant exemptions:

	Crowd	Telephone or paging numbers
OEX options:		
Don Goldstein	OEX	DIG2
Scott Paseltiner	OEX	STP5
Lloyd Cassidy	OEX	
All exchange traded option:		
Alan Resser	HON	663-7007
Bob Fodor		RAF3
Mike Kelly		KLYO
Dave Johnson		ODJ1
Herchel Portman	OEX	1235
Jerry EtsHokin	GE	ETGS1
Charles Woodward	OEX	0991
Gary Knoblauch	BA	GLK1
Ernie Nadditch	XRX	124 (Post)
Jeff Wolfson	MCD	PAX1
Jim Gelbort	F	JIG2
Ed Kelly		EFK3
Mike Friedman		NYC2
Jeff Kaufmann	IBM	164 (Post)
Tony Saliba	TDY	139 (Post)

A list of current exemptions will be posted in a generally accessible area and will include, but may not be limited to, the following information: the exemption recipient's name, and the class, size, and duration of each exemption. The list will be updated after each exemption meeting.

For information regarding the exemption policy, contact Nancy Wagner at 786-7714, Alan Resser on the trading floor or at 663-7007 or any other member of the Committee.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections (A), (B), and (C) below.

(A) Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

The purpose of this rule change is to reissue the Exchange's exemption policies in one memorandum to members. The memorandum is

organized into two sections: Policy and procedures. The only revision from the memorandum approved by the Commission in 1984 (SR–CBOE–84–20) is a modification of the instant exemption process to assure that it is immediately responsive to market needs.

The instant exemptions, which are sparingly granted, require concurrence of two members of the Exemption Committee, and these decisions are reviewed by the staff and the Committee. Thus, the process has adequate safeguards, and allows for immediate attention to the handling of large orders in the marketplace.

The proposed rule change also supplements the Policy, as articulated in SR–CBOE–84–20: To provide that an applicant for a position limit exemption in OEX should be within 20 percent of the applicable position limit. In that rule filing, the policy states that an applicant's positions must be "near the current position limit . . ." and noted parenthetically that the interpretation "of this point has been that the positions must be within 10% of the applicable limits". Thus, SR–CBOE–84–20 clearly contemplated flexibility and not rigid adherence to a particular percentage point. Although 10 percent has continued to be a useful guidepost for equity options, 20 percent has become a realistic guidepost in respect of OEX, as trading activity has soared in the past year since SR–CBOE–84–20 was submitted. The large size of some customer orders in OEX necessitates immediate response by market-makers who are capable of making quite large markets. The Exchange's experience has been that, given the size of large OEX orders, the public interest requires position limit exemptions to be granted at times where a market-maker is within 20 percent of a position limit, rather than within 10 percent.

The statutory basis for this rule change is section 6(b)(5) of the Securities Exchange Act of 1934, in that it will protect investors and promote just and equitable principles of trade.

(B) Self-Regulatory Organization's Statement on Burden on Competition

This proposal will not impose any burden on competition that is not necessary or appropriate under the Act.

(C) *Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others*

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submission should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by May 9, 1985.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010–01–M

[Release No. 34–21944; SR–CBOE–85–6]

Self-Regulatory Organizations; Chicago Board Options Exchange, Inc.; Filing and Order Granting Accelerated Approval of Proposed Rule Change; Relating to Reporting Duties

The Chicago Board Options Exchange, Inc. ("CBOE"), submitted a proposed rule change on March 15, 1985, pursuant to section 19(b) of the Securities Exchange Act of 1934 ("Act"),[1] and Rule 19b–4 thereunder,[2] to amend CBOE Rule 6.51, Interpretation .01 and .02, concerning the procedure for reporting transactions.

I. Description of the Proposal, Purpose, and Statutory Basis

The proposal would amend Interpretation .01 to CBOE Rule 6.51 to require that an account origin code be placed on trading cards and tickets. New Interpretation .02 would codify the proper account origin codes to be used in the completion of trading tickets or cards, and when reporting option transactions to the CBOE, pursuant to Interpretation .01. The following codes are included in this interpretive section: "c" for a customer account; "f" for a firm proprietary account; "m" for a member market-maker account; "y" for any options account of a stock specialist relating to his assignment as specialist on the primary market for the underlying stock;[3] "b" for a customer range account of a broker-dealer;[4] and "n" for any account of a non-member market-maker or specialist relating to his assignment in a class of options listed for trading both at CBOE and at the exchange of the market-maker or specialist.

In its filing, CBOE stated that the "c", "f" and "m" codes have been in use for some time, and that the Exchange also previously has required broker-dealers placing orders for a customer account to indicate that account type on the order with the notation "B/D." In this connection, the proposal merely would change the code for this type of order to "b."

Essentially, therefore, the only new codes are "n" and "y." With regard to the "n" code, CBOE stated that it will permit the Exchange effectively to monitor the activity of specialists and market makers in their assignments in dually listed classes of options.[5] The "y"

---

[1] 15 U.S.C. 78s(b)(1) (1984).

[2] 17 CFR 240.19b–4 (1984).

[3] As discussed below, CBOE stated in its filing that this code was made necessary by the Commission's recent approval of options related hedging activity by New York Stock Exchange ("NYSE") specialists. *See* File No. SR–NYSE–82–20; Securities Exchange Act Release No. 21710 (February 4, 1985), 50 FR 5708 (February 11, 1985).

[4] In its filing, CBOE stated that the requirement of indicating that a customer ticket is for a broker-dealer has been in effect since April 17, 1978, as part of the Exchange's effort to enforce the book priority rule (CBOE Rule 7.4).

[5] Although not codified, Amex has a substantially similar procedure for surveillance of dually listed options series, also using the "n" code. Telephone conversation between Heidi Litt, Attorney, Amex, and Heidi Steinberg Coppola, Attorney, SEC, dated March 25, 1985.

code, CBOE indicated, will be implemented in connection with Commission approval of a change to NYSE Rule 105, which permits specialists in the primary stock market to hedge their specialty stock positions with options.[6] In this connection, CBOE indicated that the "y" code will provide an effective, prompt, and accurate means of identifying transactions effected by specialists in options overlying their specialty stocks.

In processing the three new account origin codes ("b", "n", and "y"), the proposal would require member firms to convert these codes to the appropriately designated account of the Options Clearing Corporation ("OCC"). Currently, OCC does not have the capability to accept more than three origin account codes.

In its filing, CBOE stated that the placement of these account origin codes on trading cards or tickets will assure uniform treatment of orders on the floor, consistent with Exchange trading priority rules. In addition, CBOE stated that the full range of codes will clarify and standardize designation of the various classes of orders on the floor, thereby enhancing enforcement of book-priority and surveillance of the marketplace. Because the rule change also will foster cooperation and coordination with persons engaged in regulating, clearing, settling, and processing information with respect to securities, and also will protect investors and the public interest, CBOE indicated that the proposed rule change is consistent with Section 6(b)(5) of the Act.

II. Solicitation of Comments

The Commission is publishing this notice to solicit comment on the CBOE's proposed rule change described above. Persons interested in commenting on this proposed rule change should submit six copies of their comments within 21 days from the date of publication of this notice in the **Federal Register.** Comments should be sent to the Secretary of the Commission, 450 Fifth Street NW., Washington, D.C. 20549. Copies of the proposed rule change, and any amendments and documents relating to the proposed rule change, except those that may be withheld from the public pursuant to 15 U.S.C. 552, are available for inspection and copying at the Commission's Public Reference Room. Copies of the filing are also available at the CBOE.

[6] *See* note 3, *supra.*

III. Approval of the Proposed Rule Change

As indicated above, the proposed rule change provides an effective means of promptly and accurately identifying transactions. Therefore, the Commission believes that it should help CBOE in its monitoring and surveillance functions, particularly with respect to the enforcement of CBOE's rules concerning the priority of public customer orders.

With regard to CBOE's book-priority rules, which provide that public customer market or limit orders shall have priority over all other types of orders,[7] the Commission notes that CBOE has asserted that the use of the full range of codes would enhance its enforcement efforts. In particular, it appears that the use of a "y" code to designate NYSE specialist transactions in options overlying their specialty stocks would aid enforcement by allowing for a prompt determination that these orders cannot be booked.[8]

In addition, the Commission notes that CBOE also stated that the "y" code is necessary for surveillance purposes. Although CBOE acknowledges that NYSE specialists will be required to make daily reports of all of their transactions in options overlying their specialty stocks to the NYSE, and that the NYSE has primary regulatory oversight over its specialists' activities, CBOE asserts that the independent capture of trade data concerning all NYSE specialists' transactions on CBOE will help to verify the information obtained by the NYSE directly from their specialists and allow the CBOE to police its own market.[9]

As a separate matter, the CBOE has represented that CBOE Rule 6.73(a), which requires a floor broker handling an order to use due diligence to execute the order at the best price or prices available to him, in accordance with CBOE's rules would preclude a floor broker from disclosing the source of any order to the trading crowd or, by any other means, seeking to inappropriately handle any order presented to him for execution, in contravention of any of CBOE's rules (including the fiduciary responsibilities imposed upon floor brokers).

The Commission finds that the benefits of the proposed rule change outweighs any potential burdens, and, therefore, that the CBOE proposal is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of Section 6. In addition, because the proposal codifies CBOE's existing practice with regard to use of certain of the account origin codes, conforms to Amex's existing practice with regard to dually listed options, and seeks to adopt a new code, the use of which is planned to coincide with the new trading capabilities of NYSE specialists to begin on April 15, 1986, the Commission finds good cause for approving this proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change described above, is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

April 12, 1985.

[FR Doc. 85-9383 Filed 4-17-85; 8:45 am]

BILLING CODE 8010-01-M

[7] At CBOE, the Order Book Official maintains public customer limit and market order books. Only public customer orders are accepted on the book and given priority in execution over other orders to be executed (*i.e.*, market maker and firm proprietary orders, for example, must yield to the execution of a booked order).

[8] NYSE specialists, trading as such, are not "public customers," and therefore would not be entitled to "book" priority at CBOE. Accordingly, CBOE has indicated that by using a special code ("y") for these order types, they could be identified readily and prohibited from gaining access to the book.

[9] In this connection, CBOE has asserted that prompt and accurate identification of NYSE specialists trades in options overlying the specialty stocks, in particular, is warranted because of the constraints on specialists' hedging activity. *See* Securities Exchange Act Release No. 21710 (February 4, 1985), note 3, *supra.*

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #2187; Amdt. #1]

Illinois

The above numbered declaration (50 FR 13445) is amended in accordance with the President's declaration of April 2, 1985, to include Brown, Crawford, Greene, Jersey, La Salle, Marshall, Schuyler, Scott, and Whiteside Counties as adjacent counties in the State of Illinois as a result of damage for severe storms, flooding, and ice jams beginning on or about February 13, 1985. All other information remains the same, i.e., the termination date for filing applications for physical damage is the close of business on May 30, 1985 and for economic injury until the close of business on December 30, 1985.

[CGD-85-025]

National Boating Safety Advisory Council; Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1), notice is hereby given of a meeting of the National Boating Safety Advisory Council to be held on Tuesday and Wednesday, May 14 & 15, 1985 at the Sheraton Harrisburg West, New Cumberland, Pennsylvania, beginning at 9:00 a.m. and ending at 4:00 p.m. on both days. The agenda for the meeting will be as follows:

1. Introduction of new Council member.
2. Review of action taken at the 30th meeting of the Council.
3. Members' items.
4. Executive Director's report.
5. Consumer Education Subcommittee report.
6. Update on bridge-to-bridge radiotelephone regulations on the Great Lakes, Strobe Light Data Collection and Vertical Sector Light Requirements for unmanned barges.
7. Capacity Plate Replacement Subcommittee report.
8. Report on the Tenth Annual Boating Education Seminar.
9. Progress Report on Boat Pox (osmotic blistering) Subcommittee Activities.
10. Update on Alcohol as a Gasoline Additive.
11. Briefing on Low-Head Dams.
12. Update on Proposed Rule on LPG/CNG for Small Passenger Vessels.
13. Presentation on Status of Hybrid PFD Notice of Proposed Rulemaking.
14. Presentation on Alcohol and Boating.
15. Report on 1984 Boating Statistics.
16. Presentation on Consumers "National Hot Line".
17. Report on the Regulatory Project, Operating a Vessel While Intoxicated.
18. Reply to members' items.

19. Chief, Office of Boating, Public, & Consumer Affairs, Remarks.

20. Chairman's session.

Attendance is open to the interested public. With advance notice to the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present oral statements should so notify the Executive Director no later than the day before the meeting. Any member of the public may present a written statement to the Council at any time. Additional information may be obtained from Captain R. F. Ingraham, Executive Director, National Boating Safety Advisory Council, U.S. Coast Guard, (G-BBS), Washington, DC, 20593, or by calling (202) 426-1060.

Issued in Washington, DC, April 11, 1985.

BILLING CODE 4910-14-M

Federal Highway Administration

Environmental Impact Statement; Fairfax County, VA

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a Draft Supplement to the Final Environmental Impact Statement will be prepared for a segment of a proposed highway project in Fairfax County, Virginia.

FOR FURTHER INFORMATION CONTACT: George E. Kirk, Jr., District Engineer, Federal Highway Administration, P.O. Box 10045, Richmond, Virginia, 23240-0045, Telephone: (804) 771-2380

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Virginia Department of Highways and Transportation (VDH&T), will prepare a Draft Supplement to the Final Environmental Impact Statement (FEIS) on a proposal to construct a segment of a new four-lane facility from Braddock Road (Rte. 620) to Interstate I-66 in Fairfax County, Virginia.

The proposed construction will be entirely on new location. The environmental study limits of this proposal are from Braddock Road (Rte. 620) to Interstate 66, for a total length of about 2.8 miles.

The proposed project, as part of the total Springfield Bypass facility, will provide improved traffic movement and access to southern and western Fairfax County.

The option under consideration in this document is the selection of one of the two alignments being proposed for construction. One of these alternatives (the Preferred Alignment), has been fully described in the FEIS. Design and configuration variations will be studied as part of the alignment determination.

No formal scoping meeting is planned at this time. The Draft Supplement will be available for public and agency review and comment. Following the publication of the Draft Supplement, a public hearing will be held. Public notice will be given of the time and place of the hearing.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments ans suggestions concerning this proposed action and the Draft Supplement should be directed to the FHWA at the address provided above.

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of Executive Order 12372 regarding State and local review of Federal and Federally assisted programs and projects apply to this program.

Issued on April 8, 1985.

George E. Kirk, Jr.,

District Engineer, Richmond, Virginia.

Synthetic Fuels Corporation	7

1

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 9:52 p.m. on Friday, April 12, 1985, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to: (1) Receive bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in First State Bank of Elgin, Oregon, Elgin, Oregon, which was closed by the Superintendent of Banks for the State of Oregon on Friday, April 12, 1985; (2) accept the bid for the transaction submitted by United States National Bank of Oregon, Portland, Oregon; and (3) provide such financial assistance, pursuant to section 13(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)(2)), as was necessary to facilitate the purchase and assumption transaction.

At that same meeting, the Board also: (1) Received bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in South Coast Bank, Costa Mesa, California, which was closed by the Superintendent of Banks for the State of California on Friday, April 12, 1985; (2) accepted the bid for the transaction submitted by Harbor Bank, Long Beach, California, an insured State nonmember bank; (3) approved the application of Harbor Bank, Long Beach, California, for consent to purchase certain assets of and to assume the liability to pay deposits made in South Coast Bank, Costa Mesa, California, and to establish the two offices of South Coast Bank as branches of Harbor Bank; and (4) provided such financial assistance, pursuant to section 13(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)(2)), as was necessary to effect the purchase and assumption transaction.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Mr. H. Joe Selby, acting in the place and stead of Director C.T. Conover (Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: April 15, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting.

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2:00 p.m. on Monday, April 22, 1985, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Applications for Federal deposit insurance:

Capitol Thrift and Loan Association, an operating noninsured industrial bank located at 1612 Jeffeson Street, Napa, California.

Tustin Thrift and Loan Association, an operating noninsured industrial bank located at 530 East First Street, Tustin, California.

Request for reconsideration of a previous denial of an application for Federal deposit insurance:

Federal Finance & Mortgage, Ltd., an operating noninsured industrial bank located at 911 Keeaumoku Street, Honolulu, Hawaii.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 46,201-SR (Amendment)
Atkinson Trust & Savings Bank, Atkinson, Illinois
Case No. 46,205
The Bank of Bloomfield, Bloomfield, New Jersey and
First State Bank of Hudson County, Jersey City, New Jersey and
Centennial Bank, Philadelphia, Pennsylvania and
Farmers Bank of the State of Delaware, Dover, Delaware
Case No. 46,207-SR (Amendment)
Sparta-Sanders State Bank, Sparta, Kentucky

Reports of committees and officers:

Minutes of actions approved by the standing committees of the Corporation pursuant to authority delegated by the Board of Directors.

Reports of the Division of Bank Supervision with respect to applications, requests, or actions involving administrative enforcement proceedings approved by the Director or an Associate Director of the Division of Bank Supervision and the various Regional Directors pursuant to authority delegated by the Board of Directors.

Discussion Agenda:

No matters scheduled.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, NW., Washington, D.C.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: April 15, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

3

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, April 22, 1985, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors, pursuant to sections 552b(c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Note.—Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Memorandum regarding liquidation activities.

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550–17th Street, NW., Washington, D.C.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389–4425.

Dated: April 15, 1985.

Federal Deposit Insurance Corporation.

SECURITIES AND EXCHANGE COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: (To be published).

STATUS: Open/closed meeting.

PLACE: 450 Fifth Street, NW., Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: Friday, April 5, 1985.

CHANGE IN THE MEETING: Additional items.

The following additional item will be considered at an open meeting scheduled for Tuesday, April 16, 1985, at 10:00 a.m.

Consideration of whether to issue a release requesting comment on the oversight of the government securities markets. For further information, please contact Andrew E. Feldman at (202) 272–2388.

The following additional item will be considered at a closed meeting scheduled for Tuesday, April 16, 1985, at 2:30 P.M.

Subpoena enforcement action.

Commissioner Peters, as duty officer, determined that Commission business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alternations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted

of postponed, please contact: Alan Dye at (202) 272–2014.

Shirley F. Hollis,

Assistant Secretary.

SYNTHETIC FUELS CORPORATION

Meeting of the Board of Directors

SUMMARY: Interested members of the public are invited to attend and observe the meeting of the Board of Directors of the United States Synthetic Fuels Corporation to be held at the time, date and place specified below. This public announcement is made pursuant to the open meeting requirements of section 116(f)(1) of the Energy Security Act (94 Stat. 611, 637; 42 U.S.C. 8701, 8712(f)(1)) and Section 4 of the Corporation's Statement of Policy on Public Access to Board meetings. During the meeting, the Board of Directors will consider a resolution to close a portion of the meeting pursuant to Article II, section 4 of the Corporation's By-laws, section 116(f) of the said Act and sections 4 and 5 of the said policy.

MATTERS TO BE CONSIDERED:

Open Session (9:00 a.m.), Room 403

I. Call to Order—Chairman's Opening Remarks

II. Resolution to Close Meeting

Closed Session Room 403

III. Letter of Intent Project Reports
1. Great Plains
2. Seep Ridge
3. Cathedral Bluffs
4. Forest Hill

IV. Fourth General Solicitation Project Status Report

Open Session (3:30 p.m.), Room 503

V. Approval of Board Minutes

VI. Report of Comprehensive Strategy Committee Chairman
1. Comprehensive Strategy: Status
2. Statement of Principles and Objectives/ Business Plan: Assessment

VII. Hop Kern Project Letter of Intent Status

VIII. Third General Solicitation Open Issues
1. Paraho-Ute Project

TIME AND DATE: 9:00 a.m., April 22, 1985.

PLACE: 2121 K Street, NW., Rooms 403 and 503, Washington, D.C. 20586.

PERSON TO CONTACT FOR MORE INFORMATION: If you have any questions regarding this meeting, please contact Mr. March Coleman, Assistant General Counsel-Corporate & Litigation, at (202) 822–6571.

United States Synthetic Fuels Coporation.

Len Rawicz,

Vice President, General Counsel and Secretary.

April 15, 1985.

Part II

Department of Transportation

Federal Aviation Administration

14 CFR Parts 91, 121, 125, and 135
Flight Recorders and Cockpit Voice Recorders

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Parts 91, 121, 125, and 135

[Docket No. 24418; Notice No. 85–1A]

Flight Recorders and Cockpit Voice Recorders

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Reopening of comment period.

SUMMARY: This notice reopens the comment period for Notice of Proposed Rulemaking (NPRM), No. 85–1 (50 FR 949; January 8, 1985). The notice proposes to require additional flight recorder parameters for airplanes type certificated before 1969 operating in Part 121 operations. Post-accident examination, in many cases, no longer produces sufficient information to accurately assess the causal interrelationship between man, machine, and environment. The additional requirements are necessary to ensure that all of the underlying causal factors of an accident are identified. The notice also proposes to require cockpit voice recorders (CVR) on newly manufactured multiengine, turbine-powered airplanes certificated to carry six or more passengers, requiring two pilots by certification or operating rules for those operations conducted under Part 135. The notice also proposes that, for those operators conducting operations under Part 91 and Part 125 that have installed approved cockpit voice recorders, the Administrator will not use the record in any civil penalty or certificate action. This reopening of the comment period is based on requests received from the Air Transport Association (ATA) of America, the Regional Airline Association, the Aerospace Industries Association of America, Inc., and the General Aviation Manufacturer's Association, for more time in order to obtain technical information, and cost data, as well as to study the proposal, and provide quality comment.

The FAA has determined that it is in the public interest to reopen the comment period to allow the public more time to undertake a thorough review of this proposal.

DATES: Comments on Notice 85–1 must be received on or before June 3, 1985.

ADDRESSES: Comments on Notice 85–1 may be mailed in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–204), Docket No. 24418, 800 Independence Avenue, SW., Washington, D.C. 20591, or delivered in duplicate to: Room 916, 800 Independence Avenue SW., Washington, D.C. Comments delivered must be marked: Docket No. 24418. Comments may be inspected in Room 916 weekdays between 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT: John Flavin, Office of Airworthiness, Aircraft Maintenance Division, Avionics Branch (AWS–350), 800 Independence Avenue, SW., Washington, D.C. 20591, telephone (202) 426–8177.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address listed above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule.

Commenters wishing the FAA to acknowledge receipt of their comments must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to docket number 24418." The postcard will be dated, time-stamped, and returned to the commenter. The proposals contained in Notice 85–1 may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for the comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this notice and Notice 85–1 by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, SW., Washington, D.C. 20591. Persons interested in being placed on a mailing list for future NPRM's should request a copy of Advisory Circular 11–2, Notice of Proposed Rulemaking Distribution System, which describes the application procedures.

Background

On December 31, 1984, the FAA issued Notice 85–1 (50 FR 949; January 8, 1985). The FAA proposes in that notice to revise § 91.35 and add a new § 125.202 which would provide that the Administrator will not use the cockpit voice recorder record in any civil penalty or certificate action. The purpose is to encourage operators to voluntarily install cockpit voice recorders in airplanes that are used in those operations where they are not required. The installed equipment must be approved and it must continue to meet the airworthiness requirements under which the airplane is certificated and operated.

That notice also proposes substantive revisions to §§ 121.343 and 135.151. For operations conducted under Part 121, this proposed rule would require retrofitting all airplanes type certificated before September 30, 1969 (currently using a six-parameter foil-type flight recorder) with a six-parameter digital flight recorder within 2 years from the effective date of this proposed amendment. These flight recorders would have to be upgraded to 11 parameter digital flight recorders within 7 years after the effective date of this proposed amendment. The 11 parameters would consist of those currently required plus the following: (1) Pitch attitude; (2) roll attitude; (3) pitch trim position; (4) control column or pitch control surface position; and (5) thrust of each engine. They would be required to perform within the ranges, accuracies, and recording intervals specified in Appendix B of Part 121.

All newly manufactured airplanes having an original type certificate issued before September 30, 1969, would be required to have 17-parameter digitial flight recorders installed after 2 years from the effective date of the amendment. The requirements for airplanes type certificated after September 30, 1969, would not change.

For those operations conducted under Part 135, that proposal would require a CVR for all multiengine, turbine-powered airplanes certificated to carry six or more passengers and requiring two pilots by certification or operating rules, that are newly manufactured 2 years from the effective date of the final rule.

"Manufactured" means when the airplane inspection acceptance records reflect that the airplane is complete and meets the FAA-approved type design data. An airplane manufactured and then placed into storage prior to sale would be considered manufactured the date it is completed prior to being placed in storage.

The closing date for comments on Notice 85–1 was March 2, 1985. Two commenters, representing a considerable number of operators that

would be affected by this proposal, requested more time in which to study the proposals and to prepare their comments.

Reopening of Comment Period

In consideration of these requests the FAA concludes that reopening the comment period for an additional 45 days would serve the public interest. Accordingly, the comment period for Notice 85–1 is reopened. The comment period will close on June 3, 1985.

Conclusion

This document reopens the comment period on a notice of proposed rulemaking. Therefore, I certify that this document is not major under Executive Order 12291 or significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and that it will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

(Sec. 313, 314, 601, 603(c), 605, 606, 609, and 610 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1355, 1421, 1423(c), 1425, 1428, 1429, and 1430); 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 21, 1983); and 14 CFR 11.45)

Issued in Washington, D.C., on April 3, 1985.

Joseph A. Pontecorvo,

Acting Director of Airworthiness.

Part III

Department of Agriculture

Animal and Plant Health Inspection Service

7 CFR Part 301

Subpart—Honey Bee Tracheal Mite; Revocation; Final Rule

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 85-323]

7 CFR Part 301

Revocation; Subpart—Honey Bee Tracheal Mite

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the Domestic Quarantine Notices by removing regulations, captioned "Subpart—Honey Bee Tracheal Mite". Prior to the effective date of this document, Subpart—Honey Bee Tracheal Mite quarantined the States of Florida, Louisiana, and Texas, and regulated the interstate movement of articles designated as regulated articles from anywhere in Florida and from portions of Louisiana and Texas. The regulations were established in order to prevent the artificial spread interstate of honey bee tracheal mite to noninfested areas in the United States. This document removes the regulations because it appears that honey bee tracheal mite is widespread throughout the United States and there is no longer a basis for regulating the interstate movement of articles because of honey bee tracheal mite.

EFFECTIVE DATE: April 16, 1985.

FOR FURTHER INFORMATION CONTACT: B. Glen Lee, Survey and Emergency Response Staff, National Program Planning Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 611, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-6365.

SUPPLEMENTARY INFORMATION: A document published in the **Federal Register** on February 20, 1985 (see 50 FR 7162-63), proposed to amend the Domestic Quarantine Notices (7 CFR Part 301 *et seq.*) by removing regulations captioned "Subpart—Honey Bee Tracheal Mite" (previously contained in 7 CFR 301.92 *et seq.* and referred to below as regulations).

Prior to the effective date of this document, the regulations quarantined the States of Florida, Lousiana, and Texas and regulated the interstate movement of articles designated as regulated articles from anywhere in Florida, and from portions of Lousiana and Texas. The regulations designated the following articles as regulated articles:

(a) Live bees of the genus *Apis*, in any life stage;

(b) Dead bees of the genus *Apis*;

(c) Used bee boards, hives, nests, nesting material, frames, comb, and shipping containers for such articles;

(d) Beeswax, unless it has been liquified;

(e) Pollen for bee feed; and

(f) Any other product, article, or means of conveyance, of any character whatsoever, not covered by paragraphs (a) through (e) when it is determined by an inspector that it presents a risk of spread of the honey bee tracheal mite and the person in possession thereof has actual notice that the the product, article, or means of conveyance is subject to the restrictions in the regulations.

The regulations were established to prevent the artificial spread interstate of honey bee tracheal mite, *Acarapis woodi*, an internal parasitic mite of honeybees (bees of the genus *Apis*). However, it has been determined that the regulations are no longer necessary for that purpose. For reasons discussed in the proposal of February 20, 1985, and in this document, the proposal to remove the regulations is adopted.

Comments

Comments were solicited for 30 days after publication of the amendment. One hundred and forty-two comments (142) were received from individual beekeepers, State and National beekeeping associations, and State Departments of Agriculture. Ninety-five (95) of the comments received favored the Department's proposal to remove the regulations, and forty-seven (47) of the comments received opposed the proposal or suggested that implementation of the proposal be delayed for a specified period of time.

The issues presented by commenters who supported the proposal to remove the regulations are summarized as follows:

1. It was asserted that the regulations should be removed because they are very difficult, if not impossible to enforce given the available resources.

2. It was asserted that the continuation of regulations without an extensive eradication program would be ineffective in preventing interstate spread of the honey bee tracheal mite, and that unless the Department of Agriculture would be able to make funds available for indemnifying beekeepers whose bees would be destroyed under an eradication program, it would be unlikely that the Department would get the necessary voluntary compliance needed to make an eradication program effective, especially when the migratory practices of the beekeeping industries are considered.

3. It was asserted that the honey bee tracheal mite is far more widespread and established in the United States than the Department's surveys revealed because the sampling techniques used were adequate for detecting only well established infestations. In support of this assertion, it was contended that: (a) Given the reproductive cycle of the honey bee tracheal mite and the reproductive cycle of the honey bee tracheal mite and the reproductive cycle of the honey bee, it could take several years before an infestation develops to a point that it will be detected under the sampling techniques used by the Department; (b) in light of the migratory practices of beekeepers in the United States, it can be assumed that honey bees from infected or exposed hives were sent nationwide before the honey bee tracheal mite was discovered and a regulatory program established; and (c) the sampling program did not take into account or sample feral bees within the flight range of infested colonies and feral bees may have become a source for transmitting honey bee tracheal mite to colonies that had initially tested free of honey bee tracheal mite during the survey.

4. It was asserted that if the regulations are not removed there would be a negative impact on beekeepers who keep their bees in Florida year around because the presence of additional bees in Florida during the summer months will increase the competition for what is already considered to be an inadequate amount of nectar in Florida.

5. It was asserted that the economic losses associated with not being able to migrate bees from regulated to nonregulated areas to ensure pollination would be far greater than the economic losses associated with widespread infestations of the honey bee tracheal mite.

The issues presented by commenters in favor of retaining the regulations are summarized as follows:

1. It was asserted that the honey bee tracheal mite is not widespread in the United States. In support of this assertion it was contended that Departmental surveys confirmed infestations in only 10 States and the honey bee colonies found to be infested have since been destroyed.

2. It was asserted that regulations established by the Federal government are necessary in order to prevent the honey bee tracheal mite from becoming widespread in the United States. In support of this assertion, it was contended that if the regulations are

removed there will be no way to determine whether honey bees moving interstate are coming from infested areas or not since States do not have adequate resources to conduct surveys, to do research, and to regulate the movement of honey bees.

3. It was asserted that the regulations should be removed because there is a need for uniform regulations nationwide, especially considering the migratory nature of the honey bee industry, rather than the establishment of many separate, and probably different, state regulations.

4. It was asserted that the regulations should not be removed until more is known about the impact of the honey bee tracheal mite on honey bees in the United States, especially on honey bees overwintered in colder northern climates.

5. It was asserted that removal of the regulations would cause Canada to take action restricting the importation of honey bees into Canada.

In addition, several commenters recommended that action to remove the regulations be delayed until late May after the queen honey bee and packaged honey bee industry has finished shipping honey bees interstate or to Canada for the 1985 season or until the States have had an opportunity to prepare and implement appropriate regulations.

The proposal to remove the regulations was based on the conclusion that the honey bee tracheal mite is widespread throughout the United States and that, consequently, there is no longer a basis for regulating the interstate movement of products and articles for the purpose of preventing the interstate dissemination of the honey bee tracheal mite. The Department reaffirms this determination, and, therefore, this document removes the regulations.

Nothwithstanding the possible validity of comments submitted concerning unknown consequences of a honey bee tracheal mite infestation to honey bees in the United States, the possible restrictions that could be placed on trade, and the desirability of regulation on a national basis, the Department believes that it can not effectively prevent additional spread of the honey bee tracheal mite by the continued implementation of the regulations.

The Department's surveys revealed honey bee tracheal mite infestations in the following ten States: Florida, Louisiana, Nebraska, New York, North Carolina, North Dakota, Ohio, South Dakota, Texas, and Virginia. However, some of the infected bee colonies were destroyed, but most of them were not. Further, the Department agrees with reasons set forth above by commenters who asserted that the honey bee tracheal mite has spread beyond the areas found to be infested during the surveys and has spread to areas throughout the United States. Also, it is expected that additional infestations will be found throughout the United States in the near future. In fact, on April 12, 1985, confirmed infestations of honey bee tracheal mite were reported to exist in the State of Georgia.

Under the circumstances described above, it does not appear that an effective federal eradication program would be feasible against the honey bee tracheal mite.

The Department recognizes that there could be many different State regulations that would affect the bee industry. In this regard, the Department has sent copies of model regulations to the States for their use, if desired.

A commenter questioned the statement in the proposal that the Office of Management and Budget (OMB) had waived review of the proposal under Executive Order 12291. OMB has waived the review process required by Executive Order 12291 based on an agreement between OMB and APHIS.

A commenter questioned the statement in the proposal that adoption of the proposal would have an effect on the economy of less than 100 million dollars. This commenter argued that large losses might be incurred by a reduction in the amount of honey or pollen produced by honey bees as a result of an infestation of honey bee tracheal mite. It is unclear exactly what losses will be incurred as a result of an infestation of honey bee tracheal mite. However, as discussed above, the Department has determined that the honey bee tracheal mite is widespread in the United States and that continued federal regulations would not be effective in preventing future spread. Therefore, adoption of the proposal to rescind the regulations should not cause significant increases or decreases in economic losses incurred as a result of a honey bee tracheal mite infestation.

Several commenters requested that the Department establish a certification program to facilitate the international and interstate movement of honey bees found to be free of the honey bee tracheal mite. The Department does not have the personnel and other resources available which would be necessary to implement a program for sampling and certifying honey bees to be moved interstate or internationally on a continuing basis.

The final rule relieves restrictions which have been found to be unnecessary. Accordingly, prompt action should be taken to delete the restrictions. Therefore, in accordance with the provisions of 5 U.S.C. 553 the final rule is made effective upon signature.

Executive Order 12291 and Regulatory Flexibility Act

This rule is issued in conformance with Executive Order 12291 and has been determined to be not a "major rule". Based on information compiled by the Department, it has been determined that this rule will have an effect on the economy of less than 100 million dollars; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this rulemaking action, the Office of Management and Budget has waived the review process required by Executive Order 12291.

The regulations were established as an interim rule on an emergency basis until final action could be taken. For the reasons explained above, it has been determined that the honey bee tracheal mite is widespread throughout the United States and that, consequently, there is no longer a basis for regulating the interstate movement of products and articles for the purpose of presenting the interstate dissemination of the honey bee tracheal mite. Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

The regulations in this subpart contain no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507 *et seq.*).

List of Subjects in 7 CFR Part 301

Agricultural commodities, Plant diseases, Plant pests, Plants (agriculture), Quarantine, Transportation, Honey bee tracheal mite.

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Honey Bee Tracheal Mite

§§ 301.92—301.92-9 [Removed]

Accordingly, under the circumstances described above, 7 CFR Part 301 is amended by removing "Subpart—Honey Bee Tracheal Mite" (7 CFR 301.92 and 301.92–1 through 301.92–9).

Authority: 7 U.S.C. 150dd, 150ee; 7 CFR 2.17, 2.51, and 371.2(c).

Done at Washington, D.C., this 16th day of April 1985.

William F. Helms,

Acting Deputy Administrator, Plant Protection and Quarantine, Animal and Plant Health Inspection Service.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Title 3—

The President

Executive Order 12510 of April 17, 1985

Non-Foreign Area Cost-of-Living Allowances

By the authority vested in me as President by the Constitution of the United States of America and section 5941 of title 5 of the United States Code, it is hereby ordered as follows:

Section 1. Section 205 of Executive Order No. 10000 of September 16, 1948, as amended, is further amended to provide as follows:

"Sec. 205. Additional living cost compensation.

(a) The Office of Personnel Management shall from time to time, subject to applicable law, (1) designate places in non-foreign areas eligible to receive additional compensation by virtue of living costs that are substantially higher than in the Washington, D.C., area, (2) fix for each place so designated an additional rate or rates of compensation by reason of such higher living costs, and (3) prescribe by regulation such additional policies or procedures as may be necessary to administer such compensation. Additional compensation under this section is referred to as a 'non-foreign area cost-of-living allowance'.

"(b) In fixing the non-foreign area cost-of-living allowances, the Office of Personnel Management shall make appropriate deductions when quarters or subsistence, or commissary or other purchasing privileges are furnished as a result of Federal civilian employment at a cost substantially lower than the prevailing costs in the allowance area concerned."

Sec. 2. (a) Section 201 of Executive Order No. 10000, as amended, is further amended by deleting "the word 'Territories' means Alaska, Hawaii, the" and inserting in its place "the term 'non-foreign areas' includes Alaska, Hawaii, the territories and".

(b) Executive Order No. 10000, as amended, is further amended by deleting "Territorial" and "Territories" wherever they appear and inserting in their place "non-foreign area" and "non-foreign areas", respectively.

Sec. 3. Executive Order No. 12070 of June 30, 1978, is hereby superseded.

Sec. 4. This Order shall be effective upon publication in the **Federal Register**.

Rules and Regulations

Federal Register
Vol. 50, No. 76
Friday, April 19, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 29

Tobacco Inspection; Growers' Referendum Results

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This document contains the determination with respect to the referendum on the designation of the consolidated flue-cured tobacco markets of Valdosta and Hahira, Georgia. A referendum was conducted during the period of March 25–29, 1985, among tobacco growers who sell their tobacco at auction in Valdosta and Hahira, Georgia, to determine producer approval of the designation of these two markets as one consolidated market. Eligible producers voted in favor of the designation. Therefore, for the 1985 and succeeding flue-cured marketing seasons, the Valdosta and Hahira, Georgia, tobacco markets shall be designated as and be called Valdosta-Hahira. The regulations are herein amended to reflect this new designated market.

EFFECTIVE DATE: April 19, 1985.

SUPPLEMENTARY INFORMATION: A notice was published in the March 15, 1985, issue of the **Federal Register** (50 FR 10501) advising that a referendum would be conducted among flue-cured producers who market their tobacco on the Valdosta and Hahira, Georgia, markets to ascertain if such producers favored the designation of the consolidated markets. Valdosta and Hahira had been officially and separately designated on June 2, 1940 (5 FR 2335) and October 9, 1941 (6 FR 5147), respectively, under the Tobacco Inspection Act of 1935 (7 U.S.C. 511 *et seq.*).

The referendum was conducted among producers who were engaged in the production of flue-cured tobacco marketed in Valdosta and Hahira, Georgia, for calendar year 1984. Ballots for the March 25–29 referendum were mailed to 415 producers. Approval required votes in favor of the proposal by two-thirds of the eligible voters who cast valid ballots. The Department received a total of 176 responses: 152 eligible producers voted in favor of the consolidation of the Valdosta and Hahira markets; 9 eligible producers voted against the consolidation; and 15 ballots were determined to be invalid because they were not completed and/or signed.

Upon the basis of the results of the referendum, it is determined that the consolidated market of Valdosta Hahira, Georgia, is hereby designated as a flue-cured tobacco auction market and that this designated market shall receive mandatory, federal grading of tobacco sold at auction for the 1985 and succeeding seasons.

The referendum was held in accordance with the provisions of 7 U.S.C. 1312(c) and the regulations set forth in 7 CFR Parts 29 and 717.

This final rule has been reviewed under USDA procedures established to implement Executive Order 12291 and the Secretary's Memorandum 1512–1 and has been determined to be a "nonmajor" rule because it does not meet any of the criteria established for major rules under the executive order.

Additionally, in conformance with the provisions of Pub. L. 96–354, Regulatory Flexibility Act, full consideration has been given to the potential economic impact upon small business. Tobacco warehousemen and producers fall within the confines of "small business" as defined in the Regulatory Flexibility Act. A number of firms which are affected by these adopted regulations do not meet the definition of small business either because of their individual size or because of their dominant position in one or more marketing areas. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will have no adverse economic impact upon all entities, small or large, and will in no way effect the normal competition in the market place.

List of Subjects in 7 CFR Part 29

Administrative practices and procedure, Tobacco.

PART 29—TOBACCO INSPECTION

Accordingly, the Department amends the regulations under the Tobacco Inspection Act contained in 7 CFR Part 29, Subpart D, as follows:

§ 29.8001 [Amended]

The table contained in § 29.8001, entitled "Designated Tobacco Markets" is amended as follows:

(1) Item (o) is amended by removing the entire entry for Georgia, and by designating the entry for Florida as "(o)".

(2) Item (q) is amended by deleting the words "Hahira, Ga." from the column entitled Auction Markets.

(3) A new item (xx) is added under (ww) at end of the table, the new (xx) to read as follows:

Territory	Types of tobaccos	Auction markets	Order of designation	Citation
(xx) Georgia	Flue-Cured	Valdosta-Hahira	(Date of publication in Federal Register).	50 FR ——

Dated: April 1, 1985.

Karen Darling,

Acting Assistant Secretary, Marketing and Inspection Services.

[FR Doc. 85–9388 Filed 4–18–85; 8:45 am]

BILLING CODE 3410–02–M

7 CFR Part 910

[Lemon Reg. 512]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market at 290,000 cartons during the period April 21–27, 1985. Such action is needed to provide for orderly marketing of fresh lemons for the period due to the marketing situation confronting the lemon industry.

DATES: Effective for the period April 21–27, 1985.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities.

This final rule is issued under Marketing Order No. 910, as amended (7 CFR Part 910) regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy currently in effect. The committee met publicly on April 16, 1985, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports that the lemon demand pattern has improved on all sizes of fruit.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Marketing Agreements and Orders, California, Arizona, Lemons.

PART 910—[AMENDED]

Section 910.812 is added as follows:

§ 910.812 Lemon Regulation 512.

The quantity of lemons grown in California and Arizona which may be handled during the period April 21, 1985, through April 27, 1985, is established at 290,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 17, 1985.

Thomas R. Clark,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 85–9630 Filed 4–18–85; 8:45 am]

BILLING CODE 3410-02-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 85–ASW–7; Amdt. 39–5020]

Airworthiness Directives; Societe Nationale Industrielle Aerospatiale (SNIAS) Model SE3130, SE313B, SA3180, SA318B, SA318C, and SA315B Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires an inspection for proper shot peening of certain tail rotor pitch control rods on Aerospatiale Model SE3130, SE313B, SA3180, SA318B, SA318C, and SA315B helicopters. Cracks may occur in an improperly shot peened rod which may cause failure of the rod and possible loss of helicopter directional control.

DATES: Effective April 19, 1985.

Compliance required within 50 hours' time in service after the effective date of this AD, unless already accomplished.

The incorporation by reference of the service bulletins listed in this AD is approved by the Director of the Federal Register as of April 19, 1985.

ADDRESSES: A copy of the service information may be examined at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

A copy of the service information may be obtained from Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75051, Attention: Customer Support.

FOR FURTHER INFORMATION CONTACT: Chris Christie, Manager, Aircraft Certification Office, FAA, Europe, Africa, and Middle East Office c/o American Embassy, Brussels, Belgium, APO New York 09667, or J. H. Major, Helicopter Policy and Procedures Staff, Aircraft Certification Division, FAA, P.O. Box 1689, Fort Worth, Texas 76101, telephone number (817) 877–2549.

SUPPLEMENTARY INFORMATION: The FAA has determined that tail rotor pitch rods modified per AMS2178 may not be properly shot peened. The affected rods may be installed on Aerospatiale Model SE3130, SE313B, SA3180, SA318B, SA318C, and SA315B helicopters. An airworthiness directive is being issued which requires a one-time inspection for proper shot peening (surface treatment) of certain tail rotor pitch change control rods on Aerospatiale Model SE3130, SE313B, SA3180, SA318B, SA318C, and SA315B helicopters. Cracks may occur in an improperly shot peened rod which may cause failure of the control rod and possible loss of helicopter directional control. To ensure that the shot peening operation was correctly applied in the fillet between the splines and shank of each control rod modified per AMS2178, a one-time inspection for proper shot peening is required within 50 hours' time in service, or as specified. Immediate replacement of a control rod with improper shot peening is then required. The inspection and associated replacement, if required, shall be accomplished as prescribed in Aerospatiale Service Bulletin No. 01.19 or No. 01.50 for the appropriate model helicopter.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

About 98 helicopters may be affected for an estimated fleet expense of $114,000. These aircraft are owned by large entities. Therefore, I certify that this regulation is not a "major rule" under Executive Order 12291, and is not a significant "rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A copy of the final regulatory evaluation prepared for this action is contained in the

regulatory docket. A copy of it may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety and incorporation by reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Societe Nationale Industrielle Aerospatiale (SNIAS): Applies to Model SE3130, SE313B, SA3180, SA318B, SA318C, and SA315B helicopters, certificated in all categories, that are equipped with a tail rotor pitch change control rod that has been modified in accordance with AMS2178.

Compliance is required within 50 hours' time in service after the effective date of the AD or before the accumulation of 750 hours' total time in service for tail rotor gearboxes, whichever occurs later, unless already accomplished.

To ensure that proper shot peening of the control rod has been accomplished and thereby prevent possible cracks in the control rod, accomplish the following:

(a) Comply with paragraph C of Aerospatiale Service Bulletin No. 01.19 or No. 01.50, dated May 2, 1984, for the appropriate helicopter model. Paragraph C of each bulletin contains disassembly, inspection, and assembly information.

(b) Equivalent means of complying with this AD must be approved by the Manager, Aircraft Certification Office, FAA, Europe, Africa, and Middle East Officer c/o American Embassy, Brussels, Belgium.

(c) Aircraft may be flown in accordance with FAR §§ 21.197 and 21.199 to a base where compliance may be accomplished.

(d) The Director of the Federal Register approved the incorporation by reference of the manufacturer's specifications and procedures identified and described in this directive pursuant to 5 U.S.C. 552(a)(1). Persons may obtain copies of the service bulletins upon request to Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75051, Attention: Customer Support. The documents may be examined at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); 49 U.S.C. 106(g) [Revised, Pub. L. 97-449, January 12, 1983]; 14 CFR 11.89)

This amendment becomes effective April 19, 1985.

Issued in Fort Worth, Texas, on March 19, 1985.

F.E. Whitfield,

Acting Director, Southwest Region.

[FR Doc. 85-9442 Filed 4-18-85; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 84-ASW-21; Amdt. 39-5024]

Airworthiness Directives; Boeing Vertol Model 234 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action publishes in the **Federal Register** and makes effective as to all persons an amendment adopting a new airworthiness directive (AD) which was previously made effective as to all known U.S. owners and operators of Boeing Vertol Model 234 series helicopters by individual telegrams. The AD requires an initial and repetitive inspection of the forward main rotor drive shaft and removal and replacement of cracked shafts prior to further flight. The AD is prompted by a report of splines cracking on a forward main motor drive shaft. Failure of a main rotor drive shaft could lead to separation of the forward main rotor and subsequent loss of the helicopter.

DATES: Effective April 22, 1985, as to all persons except those to whom it was made immediately effective by telegraphic AD T84-10-51, issued May 3, 1984, which contained this amendment.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the **Federal Register** as of April 22, 1985.

Compliance as prescribed in the body of the AD.

ADDRESSES: The applicable service information may be obtained from Boeing Vertol Company, Boeing Center P.O. Box 16858, Philadelphia, Pennsylvania 19142.

These documents may be examined at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX.

FOR FURTHER INFORMATION CONTACT: Murry Schoenberger, ANE-174, New York Aircraft Certification Office, Federal Aviation Administration, 181 South Franklin Avenue, Room 202, Valley Stream, New York 11581, telephone number (516) 791-7421.

SUPPLEMENTARY INFORMATION: On May 3, 1984, telegraphic AD T84-10-51 was issued and made effective immediately as to all known U.S. owners and operators of Boeing Vertol Model 234 series helicopters. The AD required an initial and repetitive inspection of forward main rotor drive shafts and removal and replacement of cracked drive shafts prior to further flight. The AD was prompted by a report of splines cracking on a forward main rotor drive shaft. Failure of a main rotor head drive shaft could lead to separation of a main rotor and loss of the helicopter.

Service Bulletin No. 234-63-1009, dated June 29, 1984, has been issued and is referenced in paragraph (a) of this AD. This later bulletin incorporates the inspection instructions and supersedes, but does not change, the inspection procedures contained in Telex Bulletin No. 234-63-1009, dated April 20, 1984, that were listed in paragraph A of the telegraphic AD.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to public interest, and good cause existed to make the AD effective immediately by individual telegrams issued May 3, 1984, to all known U.S. owners and operators of Boeing Vertol Model 234 helicopters. These conditions still exist and the AD is revised as noted and hereby published in the **Federal Register** as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

Ten aircraft may be affected by this AD for an estimated annual cost of $33,280 per aircraft. None of these aircraft are owned by a small entity.

The FAA has determined that this regulation is an emergency regulation that is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety, Incorporation by reference.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new AD:

Boeing Vertol Company: Applies to Boeing Vertol Model 234 series helicopters, certificated in all categories, equipped with forward main rotor drive shaft Part Number (P/N) 114D1245–7 mated with, or which has ever been mated with, rotor hub P/N 114R2050–17 or –23.

Compliance is required as indicated, unless already accomplished. To prevent possible hazards in flight associated with cracking of the forward main rotor drive shaft, accomplish the following:

(a) Within 35 hours' time in service after the effective date of this AD or upon accumulation of 1,600 total hours' time in service on the rotor shaft, whichever occurs' later, and thereafter at intervals not to exceed 35 hours' time in service from the last inspection, inspect the rotor drive shaft in accordance with paragraph 3, "Accomplishment Instructions," Boeing Vertol Service Bulletin No. 234–63–1009, dated June 29, 1984, or FAA-approved equivalent.

(b) Remove from service forward main rotor drive shafts having a crack and replace with a serviceable part prior to further flight.

(c) An equivalent method of compliance with this AD may be used when approved by the Manager, New York Aircraft Certification Office, 181 South Franklin Avenue, Room 202, Valley Stream, New York 11581.

(d) Upon submission of substantiating data by an owner or operator through an FAA maintenance inspector, the Manager, New York Aircraft Certification Office, FAA New England Region, may adjust the compliance times specified in this AD.

(e) The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Boeing Vertol Company, Boeing Center, P.O. Box 16858, Philadelphia, Pennsylvania 19142. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); 14 CFR 11.89)

This amendment becomes effective April 22, 1985, as to all persons except those persons to whom it was made immediately effective by telegraphic AD No. T84–10–51, issued May 3, 1984, which contained this amendment.

Issued in Fort Worth, Texas, on March 22, 1985.

C.R. Melugin, Jr.,

Director, Southwest Region.

[FR Doc. 85–9507 Filed 4–18–85; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 71

[Airspace Docket No. 84–AWA–25]

Realignment of VOR Federal Airway V–162; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: Due to recomputation of the DUMMR Intersection located between Harrisburg, PA, and East Texas, PA, on Federal Airway V–162, an error was found in the radials that form the intersection. This action amends the description of V–162 to correct the airway description as currently charted.

EFFECTIVE DATE: 0901 G.M.T. June 6, 1985.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace and Air Traffic Rules Branch (ATO–230), Airspace—Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426–8626.

SUPPLEMENTARY INFORMATION:

The Amendment

During a revalidation period to confirm the accuracy of airway/jet route segments in the National Airspace System, VOR Federal Airway V–162 segment between Harrisburg, PA, VORTAC and East Texas, PA, VORTAC did not intersect at DUMMR Intersection via the radials charted. This action corrects these radials as recommended by National Ocean Survey.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

VOR Federal airways.

Adoption of the Correction

Accordingly, pursuant to the authority delegated to me, VOR Federal Airway V–162 as published in Compilation of Regulations, 7400.6A, dated January 2, 1985, is corrected as follows:

V–162 [Amended]

By removing the words "via Harrisburg; East Texas, PA;" and substituting the words "Harrisburg 080° and East Texas, PA, 260° radials; East Texas;"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983)); and 14 CFR 11.69)

Issued in Washington, D.C., on April 15, 1985.

John W. Baier,

Acting Manager, Airspace—Rules and Aeronautical Information Division.

14 CFR Part 71

[Airspace Docket No. 84–ANM–18]

Alteration of VOR Federal Airways; Denver, CO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters several federal airways located in the vicinity of Denver, CO, by deleting some alternate airway segments and renumbering other airway segments. This action supports an agreement with the International Civil Aviation Organization (ICAO) to eliminate all alternate airway designations from the National Airspace System.

EFFECTIVE DATE: 0901 G.M.T., June 6, 1985.

FOR FURTHER INFORMATION CONTACT: Burton Chandler, Airspace and Air Traffic Rules Branch (ATO–230), Airspace—Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426–8783.

SUPPLEMENTARY INFORMATION: .

History

On December 20, 1984, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to amend the descriptions of several airways by deleting all alternate route designations, renumbering some airway segments and revoking airway segments that are not required (49 FR 49481).

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for deletion of the reference to the Eureka High MOA and editorial changes, this amendment is the same as that proposed in the notice. Section 71.123 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6A dated January 2, 1985.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations alters the descriptions of several airways by deleting alternate route designations, renumbering some airway segments and revoking airway segments not required. This action supports our agreement with ICAO to eliminate all alternate route designations from the National Airspace System, and contributes to the efficiency of the federal airway system by eliminating unnecessary segments.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

VOR Federal Airways.

Accordingly, pursuant to the authority delegated to me, § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, as follows:

V–210 [Amended]

By removing the words "Alamosa, CO, including a south alternate via INT Farmington 086° and Alamosa 232° radials;" and substituting the words "Alamosa, CO;"

V–368 [New]

From Alamosa, CO; INT Farmington, NM, 086° and Alamosa 232° radials; to Farmington, NM.

V–8 [Amended]

By removing the words "Bryce Canyon, UT, Hanksville, UT, including a south alternate; Grand Junction, CO, including a south alternate via INT of Hanksville 087° and Grand Junction 232° radials and also a north alternate from Bryce Canyon to Grand Junction via INT Bryce Canyon 048° and Grand Junction 259° radials; 33 miles, 130 MSL, Kremmling, CO, including a south alternate from Grand Junction, 33 miles, 21 miles, 127 MSL, 120 MSL, INT Grand Junction 075° and Kremmling 228° radials, 28 miles 120 MSL, 130 MSL to Kremmling;" and substituting the words "Bryce Canyon, UT, Hanksville, UT, Grand Junction, CO, Kremmling, CO;"

V–382 [New]

From Bryce Canyon, UT; INT Bryce Canyon 048° and Grand Junction, CO, 259° radials; to Grand Junction, CO.

V–4 [Amended]

By removing the words "Denver; including a north alternate from Laramie to Denver via Gill, CO;" and substituting the word "Denver;"

V–575 [New]

From Laramie, WY; via Gill, CO; to Denver, CO.

V–138 [Amended]

By removing the words "Medicine Bow; Cheyenne, WY, including a N alternate via INT Medicine Bow 106° and Cheyenne 330° radials;" and substituting the words "Medicine Bow; Cheyenne, WY;"

V–132 [Amended]

By removing the words "From Cheyenne, WY;" and substituting the words "From Medicine Bow, WY; INT Medicine Bow 106° and Cheyenne, WY, 330° radials; Cheyenne;" and also by removing the words "The airspace at and above 6,000 feet MSL from 9 NM to 34 NM northwest of Chanute VOR is excluded during the time that the Eureka High MOA is activated."

V–19 [Amended]

By removing the words "Cheyenne, WY; Casper, WY, including an E alternate from Cheyenne to Casper via INT Cheyenne 002° and Douglas, WY, 152° radials and Douglas;" and substituting the words "Cheyenne, WY; Casper, WY;"

V–547 [New]

From Cheyenne, WY; INT Cheyenne 002° and Douglas 152° radials; Douglas, WY; to Casper, WY.

V–85 [Amended]

By removing the words "Medicine Bow; Casper, WY, including a west alternate via INT Medicine Bow 336° and Casper 216° radials;" and substituting the words "Medicine Bow; Casper, WY."

V–491 [New]

From Medicine Bow, WY; INT Medicine Bow 336° and Casper 216° radials; to Casper, WY.

V–465 [Amended]

By removing the words "Miles City, MT, Williston, ND, including an E alternate" and substituting the words "Miles City, MT, Williston, ND."

V–545 [New]

From Miles City, MT; INT Miles City 053° and Williston, ND, 204° radials; to Williston, ND.

V–187 [Amended]

By removing the words "including a west alternate from Farmington, Cortez, CO; Dove Creek, CO, 17 miles, 28 miles 115 MSL, to Grand Junction, excluding the airspace between the main and west alternate;"

V–391 [Amended]

By removing the words "From Dove Creek, CO, via Grand Junction, CO," and substituting the words "From Farmington, NM; via Cortez, CO; via Dove Creek, CO; via Grand Junction, CO;"

V–207 [Amended]

By removing the words "Denver, CO, Gill, CO; including a W alternate via INT Denver 004° and Gill 234° radials;" and substituting the words "Denver, CO; Gill, CO;"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983)); and 14 CFR 11.69)

Issued in Washington, D.C., on April 15, 1985.

14 CFR Parts 71 and 73

[Airspace Docket No. 84–ASO–22]

Alteration of Restricted Areas—Fort Campbell, KY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: These amendments alter the descriptions of Restricted Areas R–3701 A and B R–3702 A and B, establish R–3702C and revoke R–3701C and R–3703 A, B and C located in the vicinity of Fort Campbell, KY. This action is a result of a determination by the Department of the Army that it can conduct required training and meet its operational requirements in less airspace.

EFFECTIVE DATE: 0901 G.M.T., June 6, 1985.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace and Air Traffic Rules Branch (ATO–230), Airspace-Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426–8626.

SUPPLEMENTARY INFORMATION:

History

On November 15, 1984, the FAA proposed to amend Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to alter the descriptions of Restricted Areas R–3701 A and B and R–3702 A and B, to establish R–3702C and to revoke Restricted Areas R–3701C and R–3703 A, B and C (49 FR 45169). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, these amendments are the same as those proposed in the notice. Sections 71.151 and 73.37 of Parts 71 and 73 of the Federal Aviation Regulations were republished in Handbook 7400.6A dated January 2, 1985.

The Rule

These amendments to Parts 71 and 73 of the Federal Aviation Regulations alter the descriptions of Restricted Areas R–3701 A and B and R–3702 A and B, establish R–3702C and revoke Restricted Areas R–3701C and R–3703 A, B and C. The Department of the Army has analyzed its overall training missions and operational requirements with respect to special use airspace. As a result, the Department of the Army has determined that its mission can be accomplished with less airspace. The airspace no longer required by the Army is being returned for public use.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Airspace Docket No. 85–ASO–4]

Alteration of Restricted Area R–2916–FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The using agency of Restricted Area R–2916 has been changed from the 20th Air Division at Tyndall Air Force Base, FL, to the 23rd Air Division, Tyndall Air Force Base, FL. This action alters the description of R–2916 to reflect that change.

DATES: Effective date-0901 G.M.T., June 6, 1985. Comments must be received on or before June 3, 1985.

ADDRESSES: Send comments on the rule in triplicate to: Director, FAA, Southern Region, Attention: Manager, Air Traffic Division, Docket No. 85–ASO–4, Federal Aviation Administration, P.O. Box 20636, Atlanta, GA 30320.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace and Air Traffic Rules Branch (ATO–230), Airspace-Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426–8626.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

This final rule was not preceded by notice and public procedure because it is not in the public interest to do so on such an editorial type change that leaves the effective aspects of the rule unchanged, nonetheless, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to § 73.29 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) is to change the using agency of Restricted Area R–2916, Cudjoe Key, FL, from USAF, 20th Air Division to USAF, 23rd Air Division so that the affected airspace description contains accurate and current information. Section 73.29 of Part 73 of the Federal Aviation Regulations was republished in Handbook 7400.6A dated January 2, 1985.

Under the circumstances presented, the FAA concludes that there is an immediate used for a regulation to amend the using agency for R–2916 to USAF, 23rd Air Division. Since this action is editorial in nature only and the burden on the public remains unchanged, I find that notice or public procedure under 5 U.S.C. 553(b) is impracticable and unnecessary.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only effect air traffic procedures and air navigation, it is certified that this rule, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Restricted areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 73.29 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) is amended, as follows:

R–2916 Cudjoe Key, FL. [Amended]

By removing the words "USAF, 20th Air Division" and substituting the words "USAF, 23rd Air Division, S. E. Regional Operational Control Center (ROCC), Tyndall AFB, FL"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983)); and 14 CFR 11.69)

Issued in Washington, D.C., on April 11, 1985.

John W. Baier,

Acting Manager, Airspace—Rules and Aeronautical Information Division.

Update of Organizational References; Correction

AGENCY: Food and Drug Administration.

ACTION: Final rule; correction.

SUMMARY: The Food and Drug Administration (FDA) is correcting the final rule that amended its regulations to update organizational references resulting from a reorganization within the agency (50 FR 8993; March 6, 1985). A change in one paragraph was inadvertently omitted. This document corrects that error.

EFFECTIVE DATE: March 6, 1985.

FOR FURTHER INFORMATION CONTACT: Richard L. Arkin or Robert D. Bradley, Center for Drugs and Biologics (HFN–364), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–6490.

SUPPLEMENTARY INFORMATION: In FR Doc. 85–5329, appearing on page 8993 in the **Federal Register** of Wednesday, March 6, 1985, the following correction is made: On page 8996, in the middle column in § 312.1 *Conditions for exemption of new drugs for investigational use,* amendment 14, the phrase "(j) (2), and (3)" is corrected to read "(j) (2), (3), and (4)."

Dated: April 15, 1985.

BILLING CODE 4160-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 60

[Docket No. AM706PA; A-3-FRL-2819-9]

Standards of Performance for New Stationary Sources Delegation of Authority to the City of Philadelphia, Department of Public Health

AGENCY: Environmental Protection Agency.

ACTION: Rule-related notice.

SUMMARY: Section 111(c) of the Clean Air Act permits EPA to delegate to the States the authority to implement and enforce the standards set out in 40 CFR Part 60, Standards of Performance for New Stationary Sources (NSPS).

On December 28, 1984, the City of Philadelphia Department of Public Health (Department) requested EPA to delegate to it the authority for additional NSPS categories. EPA granted the request on January 25, 1985. The Department now has the authority to implement and enforce NSPS regulations for Equipment Leaks of Volatile Organic Compounds in Petroleum Refineries (Subpart GGG) and Flexible Vinyl and Urethane Coating and Printing (Subpart FFF).

Applications and reports required under the NSPS for which EPA has delegated authority to the Department to implement and enforce should be sent to the Department in addition to EPA Region III.

EFFECTIVE DATE: January 25, 1985.

ADDRESSES: Applications and reports required under all NSPS source categories now being delegated to the Department should be addressed to the Philadelphia Department of Public Health, Air Management Services, 500 S. Broad Street, Philadelphia, PA 19146, in addition to U.S. EPA Region III, 841 Chestnut Street, Philadelphia, PA 19107, Attn: Thomas Maslany (3AM20).

Copies of the Notice and accompanying documents are available for inspection during normal business hours at the Philadelphia AMS address given above or at the following offices:

U.S. Environmental Protection Agency, Region III, 841 Chestnut Street, Philadelphia, Pennsylvania 19107, ATTN: Michael Giuranna (3AM11), Telephone: (215) 597-9189.

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street, S.W. (Waterside Mall), Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Michael Giuranna of EPA Region III's Air Programs Branch, telephone (215) 597-9189.

SUPPLEMENTARY INFORMATION: On December 28, 1984, the Department requested that EPA delegate to it the authority to implement and enforce additional NSPS source categories. The Department requested these delegations to supplement the delegations for other source categories which Philadelphia had already received and which EPA published in the **Federal Register** at 42 FR 6886 on February 4, 1977.

In response to the Department's request of December 28, 1984, delegation of authority was granted by the following letter of January 25, 1985:

Dr. Stuart H. Shapiro,
Health Commissioner, City of Philadelphia, Municipal Services Building, Room 540, Philadelphia, Pennsylvania 19107

Dear Dr. Shapiro: This is in response to your letter of December 28, 1984 requesting delegation of authority for the Philadelphia Air Management Services to enforce New Source Performance Standards for Flexible Vinyl and Urethane Coating and Printing (Subpart FFF) and Equipment Leaks of VOC in Petroleum Refineries (Subpart GGG).

We have reviewed the pertinent laws, rules and regulations of the City of Philadelphia and have determined that they continue to provide an adequate and effective procedure for implementing and enforcing the NSPS. Therefore, we hereby delegate the authority for the implementation and enforcement of the NSPS regulations to the City of Philadelphia as follows:

Authority for all sources located or to be located in the City of Philadelphia subject to the New Source Performance Standards for Flexible Vinyl and Urethane Coating and Printing (FFF) and Equipment Leaks of VOC in Petroleum Refineries (GGG).

This delegation is based upon the conditions given in our June 30, 1983 letter to you which delegated seven (7) additional NSPS source categories to the City of Philadelphia.

We would also like to make you aware of the possibility of the Philadelphia Air Management Services requesting automatic delegation of NSPS and NESHAPs. An agency which has automatic delegation would receive authority for the implementation and enforcement of all NSPS and NESHAPs regulations immediately upon publication in the **Federal Register**. Also, automatic delegation would reduce the unnecessary administrative burden upon both our agenices to prepare, process and review subsequent delegation request. If you request, and in order to be granted automatic delegation, you may have to amend your regulations to provide for the necessary authority. I have attached a **Federal Register** Notice which granted automatic delegation of NSPS and NESHAPs to several States for your information.

If you need any further information, feel free to contact W. Ray Cunningham at (215) 597-9390 or myself.

Sincerely,

Thomas P. Eichler,
Regional Administrator.

For all sources located or to be located in the City of Philadelphia, effective immediately, all applications, reports, and other correspondence required under the NSPS requirements in 40 CFR Part 60 for Equipment Leaks of VOC in Petroleum Refineries (GGG) and Flexible Vinyl and Urethane Coating and Printing (FFF), should be sent to the City of Philadelphia, Department of Public Health (address above) in addition to the EPA Region III Office in Philadelphia.

The Office of Management and Budget has exempted this action from the requirements of section 3 of Executive Order 12291.

List of Subjects in 40 CFR Part 60

Air pollution control, Aluminum, Ammonium sulfate plants, Asphalt, Cement industry, Coal, Copper, Electric power plants, Glass and glass products, Grains, Intergovernmental relations, Iron, Lead, Metals, Metallic minerals, Motor vehicles, Nitric acid plants, Paper and paper products industry, Petroleum, Phosphate, Sewage disposal, Steel, Sulfuric acid plants, Waste treatment

and disposal, Zinc, Tires, Incorporation by reference, Can surface coating, Industrial organic chemicals, Organic solvent cleaners, Fossil fuel-fired steam generators, Fiberglas insulation, Synthetic fibers.

(Sec. 111(c), Clean Air Act (42 U.S.C. 7411(c)))

Dated: April 4, 1985.

Stanley Laskowski,

Acting Regional Administrator.

AGENCY: Environmental Protection Agency.

ACTION: Rule related notice.

SUMMARY: Section 111(c) and 112(d) of the Clean Air Act permit EPA to delegate to the States the authority to implement and enforce the standards set out in 40 CFR Part 60 and Part 61, Standards of Performance for New Stationary Sources (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAP), respectively. On December 11, 1984, the Commonwealth of Pennsylvania, Department of Environmental Resources requested EPA to delegate to it the authority for additional NSPS and NESHPA source categories. EPA granted the request on January 7, 1985. The Commonwealth now has authority to implement and enforce NSPS regulations for Equipment Leaks of Volatile Organic Compounds (VOC) in Petroleum Refineries (Subpart GGG) and Flexible Vinyl and Urethane Coating and Printing (Subpart FFF), and NESHAP regulations for Equipment Leaks (Fugitive Emission Sources) of Benzene (Subpart J) and Equipment Leaks (Fugitive Emission Sources) (Subpart V).

EFFECTIVE DATE: January 7, 1985.

ADDRESSES: Applications and reports required under all NSPS and NESHAP source categories now being delegated to the Pennsylvania Department of Environmental Resources should be addressed to the Commonwealth of Pennsylvania, Department of Environmental Resources, P.O. Box 2063, Harrisburg, PA 17120, in addition to U.S. EPA, Region III, 841 Chestnut Street, Philadelphia, PA 19107, Attn: Thomas Maslany (3AM20).

Copies of the Notice and accompanying documents are available for inspection during normal business hours at the Pennsylvania DER address given above or at the following offices:

U.S. Environmental Protection Agency, Region III, 841 Chestnut Street, Philadelphia, Pennsylvania 19107, ATTN: Michael Giuranna (3AM11), Telephone: (215) 597-9189

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street, S.W. (Waterside Mall), Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Michael Giuranna of EPA Region III's Air Programs Branch, telephone (215) 597-9189.

SUPPLEMENTARY INFORMATION: The NESHAP program was delegaed to the Department on February 4, 1977 with the stipulation that Authority to enforce subsequent standards would be delegated only if specifically requested. The NSPS program was delegated to the Department on January 16, 1980, with the same stipulation.

On December 11, 1984, the Department requested EPA to delegate to it authority to implement and enforce additional NSPS and NESHAP Standards.

Delegation of the additional standards was made by the following letter on January 7, 1985.

Honorable Nicholas DeBenedictis
Secretary, Department of Environmental Resources,
P.O. Box 2063,
Harrisburg, Pennsylvania 17120

Dear Mr. DeBenedictis: This is in response to your letter of December 11, 1984, requesting delegation of authority for the Pennsylvania Department of Environmental Resources to enforce New Source Performance Standards (NSPS) for VOC Equipment Leaks in Petroleum Refineries and the Synthetic Organic Chemical Manufacturing Industry (Subpart GGG) and Flexible Vinyl and Urethane Coating and Printing (Subpart FFF), and National Emission Standards for Hazardous Air Pollutants (NESHAP) for Benzene Equipment Leaks (Fugitive Emission Sources) of Volatile Hazardous Air Pollutants (Subpart V).

We have reviewed the pertinent laws, rules and regulations of the Commonwealth of Pennsylvania and have determined that they continue to provide an adequate and effective procedure for implementing and enforcing the NSPS and NESHAP. Therefore, were hereby delegate the authority for the implementation and enforcement of the NSPS and NESHAP regulations to the Commonwealth of Pennsylvania as follows:

Authority for all sources located or to be located in the Commonwealth of Pennsylvania subject to the Standards of Performance for New Stationary Sources for VOC Equipment Leaks in Petroleum Refineries and the Synthetic Organic Chemical Manufacturing Industry (GGG) and Flexible Vinyl and Urethane Coating and Printing (FFF) and National Emission Standards for Hazardous Air Pollutants for Equipment Leaks (Fugitive Emission Sources) of Benzene (J) and Equipment Leaks (Fugitive Emission Sources) of Volatile Hazardous Air Pollutants (V).

This delegation is based upon the conditions given in our June 30, 1983 letter to you which delegated 7 additional NSPS source categories to the Commonwealth of Pennsylvania.

Also, thank you for your request for automatic delegation of NSPS and NESHAP. We are presently reviewing the Commonwealth's rules and regulations to determine if they are adequate. Once our determination is made, we will notify you. If you have any questions, please contact Glenn Hanson, Chief, PA/WV Section at (215) 597-8486.

Sincerely,

Thomas P. Eichler,
Regional Administrator.

Effective immediately, all applications, reports, and other correspondence required under the NSPS for VOC Equipment Leaks in Petroleum Refineries (GGG) and Flexible Vinyl and Urethane Coating and Printing (FFF) and under the NESHAP for Equipment Leaks (Fugitive Emission Sources) of Benzene (J) and Equipment Leaks (Fugitive Emission Sources) (V), should be sent to the Pennsylvania Department of Environmental Resources (address above) in addition to the EPA Region III Office in Philadelphia.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Part 2650

[Circular No. 2562]

Alaska Native Selections; Amendment Changing the Chargeability of Submerged Lands

AGENCY: Bureau of Land Management, Interior.

ACTION: Final rulemaking.

SUMMARY: This final rulemaking will amend the provisions of the Alaska Native Selection regulations to change the procedures used for excluding meanderable water bodies from acreage charged against the entitlements of Alaska Native Corporations. This amendment will implement a policy decision of the Secretary of the Interior.

EFFECTIVE DATE: May 20, 1985.

ADDRESS: Any suggestions or inquiries should be sent to: Director (311), Bureau of Land Management, 1800 C Street, NW., Washingotn, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

B. LaVelle Black, (202) 343-6511

or

Robert C. Bruce, (202) 343-8735.

SUPPLEMENTARY INFORMATION: A proposed rulemaking was published in the **Federal Register** on August 7, 1984 (49 FR 31475). The proposed rulemaking invited public comments for 60 days ending on October 9, 1984, with a notice of extension providing for an additional 45 days for public comment being published in the **Federal Register** on October 22, 1984 (49 FR 41266). During the comment period, comments were received from seven sources, two from Native corporations, one from a Native organization, one from a State government, one from a private individual, one from a public interest group and one from a Federal agency. The comments have been carefully reviewed and the action taken on them is discussed below.

Generally, the comments favored the establishment of the new procedures for chargeability of submerged lands provided in the proposed rulemaking. One comment suggested that the proposed rulemaking was defective and invalid because it provided insufficient factual background and explanation. Without adequate information, the public cannot make appropriate comment on the purpose of the proposed rulemaking. This comment went on to suggest that the proposed rulemaking was contrary to public policy and violated specific provisions of the Alaska Native Claims Settlement Act because no environmental impact statement was prepared and the requirements of section 810 of the Alaska National Interest Lands Conservation Act were not followed. After careful review, the comment was not accepted and the final rulemaking adopted the provisions of the proposed rulemaking with only one significant change, the removal of the provision on underselection. The proposed rulemaking stated that it was being issued to implement a change in policy announced by the Secretary of the Interior with the policy statement being explained in the **Federal Register** on December 5, 1983 (48 FR 54483). That policy statement dealt with the issue of submerged lands and their chargeability, an issue that has been the subject of discussion for many years, including policy papers prepared by the Federal-State Land Use Planning Commission. The issue is one that is clearly understood by those that would be affected by its implementation. Further, section 910 of the Alaska National Interest Lands Conservation Act excludes actions, including issuance of regulations, leading to the issuance of conveyances to Alaska Natives or Native Corporations under provisions of the Alaska Native Claims Settlement Act from the preparation or submission of an environmental impact statement. Finally, the provisions of section 810 of the Alaska National Interest Lands Conservation Act are not applicable to conveyances made under the Alaska Native Claims Settlement Act.

One comment suggested that § 2650.5-1(b)(3) of the proposed rulemaking be deleted from the final rulemaking because it was seen as requiring a navigability determination on rivers and lakes smaller than the criterion used in determining whether title passed to the State of Alaska at statehood. This comment was not adopted because the elimination of § 2650.5-1(b)(3) would eliminate all navigability determinations. In addition, the State of Alaska has expressed its support for this provision of the proposed rulemaking, while retaining the right to challenge a decision to convey submerged lands beneath lakes less than 50 acres in size or a river or stream less than 3 chains in width. The elimination of all navigability determinations would eliminate the ability to make navigability determinations in those instances where the State of Alaska challenges a conveyance of submerged lands. The final rulemaking retains § 2650.5-1(b)(3).

Another comment on § 2650.5-(b)(3) interpreted it to permit the conveyance of submerged lands beneath navigable water to a Native Corporation. This section applies only to lands retained in Federal ownership at the time of Statehood and does not pertain to any submerged lands granted to the State in the Submerged Lands Act (67 Stat. 29). Rather than retain Federal ownership to these submerged lands which are primarily sloughs and potholes subject to tidal influence within the boundaries of Native conveyances, the Department of the Interior will excerise its authority under the Alaska Native Claims Settlement Act and convey the lands to the adjoining upland owners.

Two comments recommended changing §§ 2651.4(i) (1) and (2) to allow the withdrawal of lands within the conservation system units for villages that may be underselected. After carefully reviewing the issues raised by the comments and the impact of the provisions of the proposed rulemaking on the question of selection and withdrawal of lands for the Native Corporations, the Department of the Interior has decided to remove the changes made by the proposed rulemaking to §§ 2651.4(i) (1), (2), (3) and (4) in their entirety. This will provide additional time for the Department to thoroughly review and make a decision on the question of what lands should be made available for those corporations that would be underselected as a result of the change in policy on the chargeability of submerged lands and what changes in the selection regulations, if any, will be made.

Two comments recommend for various reasons that the final rulemaking delete § 2651.4(i)(4) of the proposed rulemaking. For the reason cited above, § 2651.4(i)(4) has been deleted by the final rulemaking.

One comment suggested that the final rulemaking remove the reference to section 12(b) of the Alaska Native Claims Settlement Act that appears in § 2651.4(i)(1) of the proposed rulemaking. The comment argued that the reference is not needed because section 14(a) of the Act is the authority for conveying selections made under both 12(a) and (b) of the Act. The final rulemaking has not adopted this suggestion because the final rulemaking

has removed § 2461.4(i)(1) and the comment is no longer applicable.

One comment suggested that the final rulemaking should make mention of the fact that the Natives in the Koniag region are not entitled to additional withdrawals because of the language in section 1427(n) of the Alaska National Interest Lands Conservation Act. This suggestion was not adopted because the final rulemaking is not deemed to need a reference to Koniag, Inc.; the language of the Alaska National Interest Lands Conservation Act is sufficient.

A final comment recommended that the final rulemaking contain language that no newly withdrawn lands could be conveyed until all validly selected lands have been conveyed. The preamble to the proposed rulemaking clearly stated that a village corporation will be required to take patent to all previously validly selected lands. This clear statement of Department of Interior policy makes it unnecessary to add this requirement as a specific provisions of the final rulemaking and the suggestion has not been adopted.

Editorial and grammatical corrections as needed have been made.

The principal author of this final rulemaking is B. LaVelle Black, Alaska Programs Staff, Bureau of Land Management, assisted by the staff of the Office of Legislation and Regulatory Management, Bureau of Land Management.

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 and that it will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

The change in procedure made by this final rulemaking will allow Alaska Native Corporations to receive larger amounts of upland acreage because it changes the procedures used to exclude water bodies from their selection entitlement. The change will benefit many of the Alaska Native Corporations; however, the change should not have a major economic effect on any of the corporations.

The proposed rulemaking contains no information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3507.

List of Subjects in 43 CFR Part 2650

Administrative practice and procedure, Airports, Alaska, Cemeteries, Historic places, Indians—claims, Indians—lands, National forest, National Wildlife Refuge System, Public lands—grants, Public lands—mineral resources.

Under the authority of the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1601 et seq.), Part 2650, Group 2600, Subchapter B, Chapter II of Title 43 of the Code of Federal Regulations is amended as set forth below.

Leona A. Power,

Acting Assistant Secretary of the Interior.

April 10, 1985.

PART 2650—[AMENDED]

1. Section 2650.0–5 is amended by adding a new paragraph (v) to read:

§ 2650.0–5 Definitions.

* * * * *

(v) "Native corporation" means any Regional Corporation, any Village Corporation, Urban Corporation and any Native Group.

2. Section 2650.5–1 is amended by revising paragraph (b) to read:

§ 2650.5–1 General.

* * * * *

(b) The following procedures shall be used to determine what acreage is not to be charged against Native entitlement:

(1) For any approved plat of survey where meanderable water bodies were not segregated from the survey but were included in the calculation of acreage to be charged against the Native corporation's land entitlement, the chargeable acreage shall, at no cost to the Native corporation, be recalculated to conform to the principles contained in the Bureau of Land Management's *Manual of Surveying Instructions,* 1973, except as modified by this part. Pursuant to such principles, the acreage of meanderable water bodies, as modified by this part, shall not be included in the acreage charged against the Native corporation's land entitlement.

(2) For any plat of survey approved after December 5, 1983, water bodies shall be meandered and segregated from the survey in accordance with the principles contained in the Bureau of Land Management's *Manual of Surveying Instructions,* 1973, as modified by this part, as the basis for determining acreage chargeability.

(3) If title to lands beneath navigable waters, as defined in the Submerged Lands Act, of a lake less than 50 acres in size or a river or stream less than 3 chains in width did not vest in the State on the date of Statehood, such lake, river or stream shall not be meandered and shall be charged against the Native corporation's entitlement.

(4) Any determinations of meanders which may be made pursuant to this subparagraph shall not require monumentation on the ground unless specifically required by law or for good cause in the public interest.

3. Section 2651.4(b) is amended by removing from the second sentence thereof the phrase "or a section in which a body of water comprises more than one-half of the total acreage of a section."

BILLING CODE 4310–84–M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

[FCC Docket No. 78–72; Phase III; FCC 85–98]

MTS and WATS Market Structure Policies and Requirements; Report and Order

AGENCY: Federal Communications Commission.

ACTION: Report and Order establishing policies and requirements.

SUMMARY: The Order addresses these issues, which were set forth for comment in our Notice of Proposed Rulemaking in the MTS and WATS Market Structure proceeding, published in the **Federal Register** on January 9, 1983, 48 FR 26632: (a) whether independent telephone companies should implement equal access interconnection projects according to a phased timetable; (b) the appropriate institutional arrangements for the joint planning of interexchange and local distribution networks and national security and emergency preparedness (NSEP) communications; and (c) whether the access tariffs of local exchange carriers should be modified to incorporate details pertaining to technical and operational details of interconnection, and interconnection with non-carriers. This action is taken in recognition of the arguments cited by the parties in this proceeding.

EFFECTIVE DATE: April 19, 1985.

FOR FURTHER INFORMATION CONTACT: Raymond Dujack, (202) 632–9342.

SUPPLEMENTARY INFORMATION:

Report and Order

In the matter of MTS and WATS Market Structure Phase III; Establishment of Physical Connections and Through Routes among Carriers; Establishment of Physical Connections by Carriers with Non-Carrier Communications Facilities; Planning among Carriers for Provision of Interconnected Services, and in Connection with National Defense and Emergency Communications

Services; and Regulations for and in Connection with the Foregoing, CC Docket No. 78-72, Phase III; FCC 85-98.

Adopted: March 1, 1985.
Released: March 19, 1985.

By the Commission.

I. Introduction

1. In this Order, we address the issues raised in our notice of proposed rulemaking in this phase of this docket.[1] In that *Notice*, we observed that our *Access Charge Order* in Phase I of this docket,[2] and the *Modification of Final Judgment* (MFJ), entered on August 24, 1982, by the United States District Court for the District of Columbia,[3] did not address several issues that emanate, in part, from these actions or are otherwise related to the optimal provision of interstate communications services in a competitive environment.

2. These issues are (a) whether the independent telephone companies (ITCs) should be required to implement equal access for interexchange carriers (IXCs) according to a phased approach analogous to that specified for the Bell Operating Companies (BOCs) in the MFJ; (b) what institutional arrangements should replace the role formerly held by the American Telephone and Telegraph Company (AT&T) in the centralized technical and construction planning for (i) interexchange and local distribution networks, and (ii) national security and emergency communications facilities; and (c) whether exchange carriers (BOCs and ITCs) should be required to incorporate into their tariffs the physical, technical, and operational details of interconnection with the facilities of both carriers and non-carriers.

3. With regard to the equal access implementation issues, we find in this Order that the ITCs should be required to implement equal access under certain circumstances and under certain schedules that differ from those set forth in the MFJ. We have defined these in recognition of the differences between the BOC and ITC sectors with respect to (a) the types of markets served; (b) end office switching technologies employed; and (c) the financial resources available to undertake equal access conversions.

4. With regard to the planning issues, we find that (a) general peacetime interconnection planning functions should be implemented through participation of interested parties in the activities of the T-1 Committee, which is sponsored by the Exchange Carriers Standards Association (ECSA) and accredited by the American National Standards Institute (ANSI); and (b) national defense network planning functions should be implemented through the mechanism of the plan proposed by the National Security Telecommunications Advisory Committee.

5. With regard to the tariff issues, we note that, since the release of our *Notice*, the exchange carriers (ECs) have voluntarily implemented the proposals we had set forth concerning the inclusion of interconnection information in their access tariffs, and we adopt those proposals for future tariff filings.

II. Background

A. Implementation of Equal Access by Independents

1. The Commission Proposal and the MFJ

6. In the *Notice*, we proposed "to extend, pursuant to our regulatory authority under the Act, to non-Bell (Independent) telephone carriers interconnection obligations patterned after those which will govern the BOCs under the MFJ * * *".[4] The MFJ establishes the following equal access implementation schedule:

1¾ years (9/1/85): "equal access shall be offered through end offices of each BOC serving at least one-third of that BOC's exchange acccess lines."[5]

2¾ years (9/1/86): "upon bona fide request, *every* end office shall offer such [equal] access by Sept. 1, 1986."[6]

7. The MFJ also incorporates a waiver mechanism that allows the BOCs to refuse equal access in cases where such construction may be economically infeasible:

> With respect to access provided through an end office employing switches technologically antecedent to electronic, stored program control switches [*i.e.*, electromechanical switches] or those offices served by switches that characteristically serve fewer than 10,000 access lines, a BOC may not be required to provide equal access through a switch if, upon complaint being made to the Court, the BOC carries the burden of showing that . . . such access is not physically feasible except at costs that clearly outweigh benefits to users of telecommunications services.[7]

This waiver is, apparently, not intended to be permanent. The decree continues: "Any such denial of access under the preceding sentence shall be for the minimum divergence in access necessary, and for the minimum time necessary, to achieve feasibility."[8]

8. In our *Notice*, we recognized that equal access obligations similar to those in the MFJ may not be workable when applied to the ITCs, because of the preponderance of less sophisticated equipment in the ITC sector. We noted, however, that "access to interstate services is required to be offered [by the ITCs] pursuant to access tariffs which are subject to our regulatory review and jurisdiction" and proposed to "utilize such tariffs as an appropriate adminstrative mechanism for addressing unequal interconnection offerings by Independents . . ."[9] We proposed the following timetable:

> *2-years*: For central offices to be equipped with new stored program-controlled (SPC) equipment, access will be provided with capabilities identical to those described below for existing stored-program-controlled central offices.
>
> *3-years*: For central offices already equipped with SPC, access will be provided "which is equal in all respects, except that the minimum number of digits necessary to reach other than a carrier pre-selected by the subscriber may be utilized until such time as the nationwide numbering plan is changed."[10]
>
> *No timetable*: For electromechanical central offices: (a) capabilities pertaining to features such as the number of dialing digits must be offered to the extent feasible; (b) where features such as automatic numbering identification (ANI) can be made available to more than one carrier, they should be provided at the same level of capability as specified in the MFJ; and (c) transmission channel quality should be no worse than that provided to the traditional interexchange carrier. Although we did not state that electromechanical exchanges need to be replaced, we did require that "[t]o the extent feasible, such offices shall be modified to offer the capabilities [associated with electronic exchanges]."[11]

[10] *Id.* at 307.

[11] *Id.*

2. *GTE Consent Decree*

9. On May 4, 1983, the GTE Corporation and the Department of Justice (DOJ) filed a Proposed Final Judgment (PFJ), with the United States District Court for the District of Columbia, to resolve an antitrust action brought by DOJ challenging the acquisition by GTE of the IXC, Sprint, which was a subsidiary of the Southern Pacific Corporation. A major feature of the PFJ was a plan for the provision of non-discriminatory equal access to interstate communications facilities by the subscribers of the GTE Operating Companies (GTOCs). In an Opinion issued on December 13, 1984,[12] the Court found the PFJ to be in the public interest and stated that the PFJ would be approved provided that the parties agreed to certain modifications relating to the specific criteria that would be observed if enforcement of the decree were being sought by the Department of Justice. The parties concurred, and a Consent Decree (CD) was entered on December 21, 1984. The CD sets forth the following phased-in equal access implementation timetable, which is closely modeled after the approach of the MFJ, but is adjusted for the specific characteristics of the GTOC end offices and exchange areas.[13]

1½ years (1/1/85): End offices containing 1–ESS and stored program controlled switches other than those specified below (*i.e.*, GTD–5, 1–EAX, and 2–EAX).

3½ years (1/1/87): End offices equipped with GTD–5 switches.

4 years (9/1/87): End offices equipped with 1–EAX and 2–EAX. In addition, two-thirds of all GTOC subscriber lines must be provided with equal access. (This proportion may be decreased to the extent that unforeseen circumstances, including the performance failure of non-affiliated providers of hardware and software, prevent this conversion from taking place.)

7½ years (12/31/90): All offices with greater than 10,000 access lines (except where changing circumstances make implementation economically infeasible).

10. In addition to the waivers cited in the timetable, the CD addresses the unique problems of electromechanical switches, which comprise a considerably larger percentage of end office switching equipment of the GTOC system than in the BOC end offices. No step-by-step offices need provide equal access, provided that a trunk-side connection for IXCs is offered at *all* GTOC offices, including those equipped with step-by-step equipment, "unless such access is not physically possible except at costs that clearly outweigh potential benefits to users of telecommunications services. . . ."[14]

B. Joint Planning

1. The Commission Proposal

11. We tentatively concluded in the *Notice* that the scope of any joint planning should be limited to the specification of technical parameters and compatibility criteria at the point of interconnection between an exchange carrier and IXCs, customer premises equipment, or private communications facilities. We proposed that such planning be carried out by the Exchange Carriers Association (ECA) and that the membership criteria be those set forth in our *Access Charge Order* for the ECA. IXCs as well as this Commission would, therefore, be excluded. We noted that:

> it is our tentative belief that this Commission should be assigned responsibilities and functions regarding the joint planning activities of the association (ECA) which are designed to ensure that the association does not operate in a manner which frustrates the goals and policies which we are establishing. This result can be achieved without requiring that this Commission be given membership on the association.[15]

We than asked for comments on our proposals as well as upon alternative suggestions regarding scope of planning, institutional arrangements, and the composition of the membership of any joint planning body.

2. Formation of Exchange Carriers Standards Association

12. On May 24, 1983, a pre-organizational meeting of exchange carriers (ECs) was held in Atlanta, Georgia, under the auspices of the Washington Legislative Council of Telecommunications (an *ad hoc* group formed by the carriers to deal with post-divestiture problems). At this meeting, a substantial portion of the spectrum of exchange carriers was represented by attendees from the United States Independent Telephone Association (now the United States Telephone Association or "USTA", the seven Bell regional holding companies, GTE, United Telecom, and various independent telephone holding companies and operating companies. As a result of this and subsequent meetings, the Exchange Carriers Standards Association (ECSA) was created, and incorporated in September 1983, in the State of New York, as a not-for-profit corporation. ECSA then became a party in this proceeding and filed, in its comments, an alternative to our proposal for the implementation of the joint planning function.

C. Tariff Issues

13. We proposed that the interstate access tariffs of the ECs formally reflect the responsibilities of these carriers to provide equal access and interconnect their facilities with IXCs and other access customers. We specifically proposed that tariffs filed by ECA and the individual ECs should include language providing for (a) interconnection with non-carriers (private networks and CPE); (b) interconnection with resellers; (c) the incorporation of the provisions of Part 68 of the Commission's Rules (CPE interconnection standards); and (d) certain technical and operational details of the ECs' offerings.

III. Implementation of Equal Access by Independents

A. Positions of Parties

14. Twenty-four parties filed comments or reply comments (or both) on the various issues associated with equal access implementation requirements for the ITC sector. Pleadings were filed on behalf of IXCs (nine parties);[16] ITCs (seven parties);[17] equipment manufacturers (two parties);[18] user groups (two parties);[19] and state and federal government agencies (four parties).[20]

15. In general, the OCCs argue for an implementation of equal access that is as immediate and as comprehensive as possible in order that they may compete more effectively with AT&T. Business user groups and equipment manufacturers also seek expeditious implementation of equal access. The former, as large consumers of

---

[12] *United States v. GTE Corp.*, Civ. Action No. 83–1298 (D.D.C., December 13, 1984) (*GTE Opinion*).

[13] CD, App. B at para. A.(1). A starting date of May 4, 1983 (the proposed date of entry) was used in calculating the elapsed time to the specific completion dates (in parentheses) set forth in the CD. The results are rounded to the nearest half-year. At the time the PFJ was filed, GTE committed itself to following the schedule set forth therein even though approval of the Court had not yet been issued. If a bona fide request for equal access interconnection is received from an IXC, the GTOC must implement interconnection within no more than 12 months. Otherwise the time limits in the schedule must be observed.

interexchange telecommunication services, seek to minimize their communications costs. The latter seek to compete more effectively in markets for customer premises equipment and equipment related to switching and transmission applications.

16. The ITCs generally support the proposal that they be required to implement equal access. They tend, however, to support temporizing measures such as (a) the imposition of such a requirement only if there has been a demand for equal access services from an IXC; and (b) the opportunity to deviate, when indicated, from the timetable proposed on our *Notice*. Some ITCs propose that exchanges serving less than 10,000 access lines should be granted a waiver of equal access conversion requirements as outlined in the GTE CD. *See* para. 9, *supra*.

1. Proposed Timetable

17. Eighteen parties have commented upon the proposed timetable. Three parties find that the timetable is reasonable [21] and four argue that the timetable is too long.[22] The latter take the position that existing technology will permit acceleration of our proposed schedule. Two, Public Service Commission of Wisconsin (Wisconsin) and Kentucky Public Service Commission (Kentucky), essentially argue that there should be no timetable at all. AT&T and Centel claim that the timetable is too short and propose a five-year implementation deadline. AT&T further proposes (a) that the Commission take steps to facilitate the processing of waiver requests; and (b) that there be an exemption for end offices serving less than 10,000 lines. Centel states that there may be central office conversion problems due to the diversity of suppliers, some of whom may be no longer in business. Similar arguments are extended to the case of end offices using electromechanical equipment.

18. Six parties from the ITC sector,[23] and the Rural Electrification Administration (REA), suggest that timetables should be flexible, stating, generally, that since there is a considerable variability among existing SPC exchanges, the three-year implementation schedule might not be universally appropriate and implementation might be better scheduled on a less formal basis. REA claims that the equipment necessary to accomplish equal interconnection at end offices of small rural companies (which typically contain electromechanical switches) is not readily available and urges that this Commission postpone the requirement that local carriers prepare for equal interconnection at such offices until the necessary technology becomes available or, alternatively, consider requiring equal access interconnection at an access tandem only.

19. With regard to the conversion of existing SPC offices, USTA states that ITCs are unable to obtain definitive information from their equipment manufacturers regarding their ability to upgrade a given piece of SPC equipment. USTA claims that this inability stems, in part, from a lack of defined technical specifications regarding the exact nature of equal access. Further, USTA states, not all SPC switches are convertible to equal access because of their design. Under these circumstances, it might be necessary to retire such switches prematurely, which, from USTA's viewpoint, would be an unreasonable disturbance of an orderly and economically efficient process for deriving maximum benefit from existing equipment. USTA also recommends that the Commission modify its proposal that all new SPC switches ordered after the effective date of any Commission order in this proceeeding have the capability of offering equal access to one requiring that actual conversion need not occur unless and until an IXC requests equal access and agrees to the resulting tariff changes. Rochester Telephone Company (Rochester) concurs with USTA and other parties in claiming that not all SPC switches may be convertible.

20. Six parties cite potential problems with the conversion of electromechanical offices.[24] The Rural Telephone Coalition (RTC) urges that ITCs be given the option of refusing to implement equal access at such offices, and in any event, that such equipment not be prematurely retired absent a demand for equal access interconnection.

21. GTE Service Corp. compares our implementation proposals to those of the CD in which it had participated, stating that the equal access upgrading requirements of our *Notice* are more burdensome than those set forth in the CD.[25] GTE Service Corp. urges that the principles of the CD be adopted by the Commission and notes that together the MFJ and CD apply to the provision of equal access to 90 percent of the total, nationwide access lines.

2. Implementation on Demand only

22. The *Notice* did not condition an ITC's obligation to convert to equal access in accordance with our timetables on there being a demand for such interconnection from an IXC. Ten parties have suggested that equal access conversions not be required until a demand from an IXC has been received. The sectors represented are ITCs (six parties);[26] IXC (one party);[27] equipment manufacturing (one party);[28] and state and federal agencies (two parties).[29]

23. The ITCs cite the possibility that if they are required to implement equal access, even in the absence of an IXC demand for such services, they may be required to carry a larger cost burden without a sufficient offset in additional revenues from toll service. REA claims that most REA-financed systems will never receive an interconnection request, but these systems could, nevertheless, incur a conservatively estimated total of $367 million in equal access implementation costs if the conversion of all Class 5 offices were required. As an alternative, REA suggests equal access interconnection only be required at higher level offices until Class 5 implementation becomes more feasible.[30]

3. Exemptions for End Offices Serving Less than 10,000 Lines

24. Establishing exemptions for end offices serving less than 10,000 access lines, although not proposed in the *Notice*, is embodied, with variations, in both the MFJ and CD.[31] Five parties support the concept,[32] arguing generally that (a) central office equipment in such exchanges is likely to be electromechanical; (b) demand for equal access interconnection to exchange facilities from OCCs is likely to be low; and (c) therefore, the costs of conversion would likely exceed any benefits derived from increased revenues. RTC proposes that rural exchange carriers be

subjected to no greater obligations than those imposed upon GTE by the CD. It accordingly suggests a blanket exemption for end offices serving fewer than 10,000 lines. GTE implicitly supports a 10,000 line exemption in proposing that the terms of its CD be extended to other carriers. USTA, on the other hand, claims that the 10,000 lines threshold should be higher, but does not propose a specific level.

25. A blanket 10,000 lines exemption is opposed by some parties. The International Communications Association (ICA), a user group, prefers that individual justifications for an exemption be proposed by ITCs wishing an exemption. DOJ opposes a blanket exemption, preferring an implementation schedule that takes all factors into account, such as new techniques for remote digital switching.

B. Discussion

1. Summary of the Record

26. There is general agreement among all sectors that the implementation of equal access by the ITCs is desirable. With respect to the manner in which such access is to be achieved, however, there is a well delineated schism between two groups. The first group (ITCs, AT&T, state regulatory commissions, and REA) generally argues that our proposed timetables would be too stringent in many cases if they were applied uniformly to the entire ITC sector. A more liberal compliance policy, embodying certain deviations on a case-by-case basis, is suggested. Members of the second group (OCCs, user organizations, and equipment manufacturers) either agree with our timetable concept or think that it should be accelerated.

27. Those who find our proposals for ITCs too rigorous argue that we should relax those requirements by (a) adopting a liberal policy for waivers of the implementation timetable; (b) requiring the implementation of equal access only upon a bona fide demand by an IXC; (c) exempting end offices serving less than 10,000 lines; and (d) exempting end offices using electromechanical equipment.[33]

28. Those who approve our proposed schedule, or seek to accelerate it, and those who would discourage various waivers and exemptions, make the following claims: (a) technology is available that would allow reconfigurations of non-conforming offices to be implemented in accordance with our proposed timetable; (b) the implementation of equal access at BOC tandems or at those of the larger ITCs will permit our schedule to be met or accelerated; and (c) extensive deviations from our proposed schedule (including those resulting from the adoption of an implementation-on-demand policy) will constrain the economic activities of the IXCs,[34] equipment manufacturers, and users.

2. Differences between BOCs and ITCs

29. The parties seeking flexibility in our approach to implementing equal access by the ITC sector have argued that it is not as feasible to apply a uniform implementation timetable to the ITCs as it is to the BOCs. RTC points to a number of fundamental differences between the BOCs and ITCs. Prior to the AT&T reorganization, the implementation of exchange area communications, including the design of end offices, was performed on behalf of the BOCs by the AT&T General Departments, the Bell Laboratories, and Western Electric. Under this system, many important functions were performed on a centralized basis such as: system engineering, equipment design, equipment manufacturing, equipment procurement, accceptance testing, and installation planning.

30. As a consequence, the predominant proportion of BOC central office equipment is of Western Electric design, and its characteristics are well documented. Further, although there is a considerable range in the type of switching equipment in the various BOC end offices, from step-by-step electromechanical equipment to advanced SPC equipment, the preponderance of BOC service is offered in high or moderate population density areas, and the majority of its access lines are served by a relatively small number of SPC designs. Such uniformity, as characterized by markets served and equipment employed, is clearly not the case among the ITCs.

(a) *Markets Served by ITCs*

31. With regard to markets served, the ITC sector is characterized by an industry structure in which the operating companies of a few holding companies provide the vast preponderance of service. In seeking the appropriate policy for equal access implementation in this sector, it is useful to undertake a quantitative assessment of the ITC industry in order to evaluate its place in the overall telecommunications environment in the United States. Figure 1 provides a comparison of the BOCs and the ITCs in terms of the number of access lines served.

32. As of December 31, 1983, there were 111.3 million access lines in the United States. Of these, 89 million (80 percent) were served by the 22 BOCs. The ITC sector, consisting of 1431 operating companies, served the remaining 22.3 million lines (or 20 percent). Of these independent lines, however, the vast majority are served by but a small proportion of these 1431 operating companies.

33. As shown in Fig. 1, the 18 GTOCs serve 44 percent of the ITC access lines, and that these companies, in combination with the 22 BOCs, serve 89 percent of the total U.S. access lines. Furthermore, the largest eleven ITCs (including GTE) serve, in combination with the BOCs, approximately 99 percent of the U.S. telephone access lines.[35]

[1] Sources USTA, *PhoneFacts, 84* USITA, *Holding Company Report*, May 1983.

[2] Includes only the access lines of the 132 operating companies of the first 11 ITCs (ranked by annual revenues, listed in *PhoneFacts, 84*. The remaining approximately 1,300 ITCs service approximately 1 6 million lines or approximately 1% of the nationwide total

[33] Rochester has suggested that the forced conversion of such offices would lead, in many cases, to premature equipment retirements and argues that this Commission should preempt state regulation over the depreciation practices of connecting carriers to ensure that investment in existing equipment is fully depreciated upon its replacement. This issue is not properly before us in this proceeding; consequently, we will not address it further in this Order.

[34] Some IXCs have claimed that if equal access were implemented in a given area absent a demand for such service, an IXC might be more likely to seek to provide service there than if it were required to go through a formal procedure of filing requests for equal access conversion with the EC

[35] As shown in Fig. 1, these eleven entities comprise five holding companies, which control 126 operating companies, and six individually owned companies. Thus, a total of 148 operating companies (22 BOCs and 126 ITC operating companies) serve 99 percent of the U.S. access lines.

34. The remaining ITCs, 1309 operating companies, serve only one percent of the total access lines in the U.S., although the comprise 91 percent of the ITCs. Thus, the average number of lines served by each of these 1309 companies is approximately 1,300. Approximately 1,200 of these companies serve less than 10,000 lines.[36]

35. It thus becomes apparent that it may be feasible to adopt a policy of prescribing a set of relatively uniform equal access implementation procedures, applicable to only a small segment of the ITC industry, that would result in the provision of equal access to the overwhelming majority of the ITC subscribers.

(b) *Switching Equipment of the ITCs*

36. Several parties associated with the ITC sector have argued that our proposed implementation plan, insofar as it applies to SPC switches, should not be uniformly applied because of the wide variety of SPC equipment that is now in place and that is available for future installation by the ITCs. They have also argued that it would be inappropriate to prescribe either the conversion of existing electromechanical equipment or its retirement.

37. USTA claims that the following problems arise from the diversity of SPC equipment: (a) not all manufacturers may be willing to upgrade their equipment even if it is upgradeable; (b) not all switches are equally upgradeable; and (c) some switches may not be upgradeable at all. With regard to electromechanical switches, and SPC switches that are not feasibly convertible, USTA proposes that we consider equal terminating access as a less costly alternative.

38. Rochester suggests that not all existing SPC installations may be convertible within the 3-year period proposed in the *Notice*. Rochester points out that it has SPC equipment manufactured by Northern Telecom, Automatic Electric, Nippon Electric, and Western Electric. It claims that it does not know whether any of the manufacturers "would supply necessary software modifications within three years, or whether they intend to offer these modifications at all." [37]

39. RTC claims that it cannot comment exhaustively upon our proposal because no comprehensive tabulation of the central office equipment of rural telephone companies has been made. RTC points out that existing analog SPC equipment is memory-limited and is no longer being manufactured.[38]

40. With regard to digital SPC equipment, RTC states that 10 to 15 percent of REA central offices are so equipped, but that some of the manufacturers are no longer in business. RTC claims that in any event *generic* specifications for the conversion of digital equipment can be completed in three years, but that specific conversion may take longer. RTC therefore proposes that manufacturers be given three years in which to develop generic specifications and that actual implementation times be negotiated on a case-by-case basis.

41. RTC notes that the conversion of electromechanical equipment can present considerable problems to the REA companies. RTC states that approximately 80 to 85 percent of REA equipment is step-by-step and that another 5 percent is crossbar. Further, RTC states that 90 to 95 percent of the step-by-step equipment, which was manufactured by Stromberg, is no longer being produced by that company.

42. REA also addresses the problem of conversion of its predominantly electromechanical offices. It states that no manufacturer has produced equipment that could effect such a conversion, but acknowledges that "[o]ne manufacturer, ITEC, has equipment on the drawing boards which could accomplish equal interconnection at the Class 5 step office." [39] REA cautions, however, that conversion estimates would be in the $60,000 to $75,000 range per end office. Finally, REA provides an estimate of $367.5 million as the cost of equal access implementation for all REA-financed systems. This estimate is based on the assumption that 5,000 step end offices would be converted, at $70,000 per office, and that 700 digital offices would be converted at $25,000 per office.

3. *Equal Access Implementation Plan* [40]

(a) *General Considerations*

43. It is evident from the record that the ITC sector evidences a degree of diversity that we do not observe among the BOCs. The BOCs comprise 22 operating companies, which, because of their common ownership and management for many years, have virtually identical categories of end office switching technology. Further, the BOCs serve 80 percent of the total access lines in the United States from this relatively homogeneous configuration.The ITC sector is clearly different. Some 1431 operating companies serve 20 percent of the nation's access lines. Among these companies, the GTE system of 18 operating companies accounts for 44 percent of the ITC access line—or 9 percent of the nation's access lines. A mere 132 of the 1431 ITCs serve over 90 percent of the ITC access lines.

44. With regard to switching equipment, the relatively small proportion of SPC equipment in ITC end offices is provided by a multiplicity of manufacturers, not all of whom have continued to manufacture or service the products they have sold. The preponderance of ITC switching equipment is of the electromechanical type, and apparently, the successful conversion of such switches by off-the-shelf equipment has not yet been demonstrated. Given these factors, it is likely that an implementation timetable similar to that of the MFJ would be inappropriate if imposed on the ITCs.

45. We must also take into account that GTE has committed itself to following the schedule set forth in the CD and that, consequently, the commitments already undertaken by the BOCs and the GTOCs will pace the implementation of equal access for approximately 89 percent of the nation's access lines. We need, therefore, only adopt a policy applicable to, and appropriate for, the remaining 1413 ITCs, which serve the remaining 11 percent of access lines.

46. We could consider the CD as a paradigm for application to the non-GTE ITCs. The timetable in the CD for the conversion of existing SPC end offices embodies, however, references to the specific types of equipment of specific manufacturers that are known to be installed in GTE end offices. But based on the record in this proceeding, it appears that many different types of equipment (in addition to those specified in the CD) are deployed in the non-GTE ITC end offices. Furthermore, GTE is a substantially larger company than most other ITCs with greater access to the necessary capital to implement an equal access conversion schedule. Finally, there is no reason to assume that the timetable GTE agreed to

---

[36] *See PhoneFacts' 84.*

[37] Rochester Comments at 5.

[38] Analog SPC as discussed by RTC apparently consists of SPC common control equipment coupled with an analog switching matrix. A digital SPC switch would use time division multiplex techniques to perform the switching function.

[39] REA Comments at 5.

[40] We set out in the *Notice* the basis of our jurisdiction to establish an equal access implementation plan for ITCs. *See, Notice* 94 FCC 2d at 300-304. No party has challenged our authority in this regard.

in the CD to settle an antitrust challenge to its acquisition of Sprint is necessarily appropriate for other ITCs.

47. We shall, therefore, establish an implementation schedule that recognizes the following characteristics of the non-GTE sector, which distinguish it from both GTE and the BOCs: (a) the variability in installed SPC equipment types; (b) the predominance of electromechanical equipment; (c) the existence of more severe constraints on capital spending; and (d) the likelihood that demand for equal access service, by customers and OCCs alike, will be less.[41] In so doing, we shall impose time limits in those cases where the end office is equipped with SPC switching and a reasonable request for equal access services exists. Finally, we shall recognize the existence of problems that may be imposed by capital constraints, and the non-standardization of installed SPC equipment, by adopting an exception mechanism.

(b) *Specific Requirements*

48. *End Offices Equipped with SPC Switches:* End offices equipped with SPC switches must be converted to offer exchange access services that are equal in type and quality to that offered to AT&T, within three years of the receipt of a reasonable request [42] for equal access services from any OCC. Absent such a request, end offices should be converted as soon as practicable, according to a schedule and a degree of implementation that reflect the capital constraints of the operating company and the market and other business conditions in the area served by the end office.

49. *End Offices Equipped with Electromechanical Switches:* Whether or not a reasonable request for equal access is presented, end offices equipped with electromechanical switches will not be required to be converted to equal access according to a specified timetable. Rather, these end offices should be converted as soon as practicable according to the guidelines we have set forth in para. 60, *infra*.

50. *Exception Mechanisms:* An ITC receiving a reasonable request for equal access interconnection at an SPC-equipped end office may apply to this Commission for a waiver of the three-year timetable, or of the requirement for the provision of certain specific equal access features, if it can demonstrate that such a timetable, or the provision of such access features, is not feasible except at costs that clearly outweigh potential benefits to users of telecommunications services.

(c) *Equal Access Features*

51. In para. 48, *supra*, we require that SPC-equipped end offices, upon receiving a reasonable request from an OCC, "be converted to offer access service that is equal in type and quality to that offered to AT&T. . . ." In order to give more explicit guidance to those ITCs affected by this requirement, we shall attempt to describe further the concepts "exchange access services" and "equal in type and quality."

52. The MFJ defines "exchange access" as "the provision of exchange services for the purpose of originating or terminating interexchange telecommunications." [43] It then defines "exchange access services" to include, but not be limited to, the following activities or functions of an EC in the provision of exchange access: "the provision of network control signalling, answer supervision, automatic calling number identification, carrier access codes, directory services, testing and maintenance of facilities and the provision of information necessary to bill customers."[44]

53. Potential operational inequalities in subscriber signalling (due to technological limitations, and to constraints imposed by the existing interstate numbering plan) are also addressed. The following requirements are imposed: (a) the option of preselecting an IXC, through which originating traffic may be routed without the use of an access code, shall be offered.[45] (b) access signalling to reach carriers that are not so preselected must be provided with the minimum number of digits; and (c) upon revision of the nationwide numbering plan to require additional signalling digits, all IXCs shall be accessed with the same number of digits.[46]

54. The MFJ also sets forth a non-quantitative definition of equality as it pertains to certain technical parameters of the EC network. "Such [equal access] connections, at the option of the interchange carrier, shall deliver traffic with signal quality and characteristics equal to that provided similar traffic of AT&T, including equal probability of blocking, based on reasonable traffic estimates supplied by each interexchange carrier." [47]

55. In subsequent Motions for Partial Reconsideration, and Reconsideration and Clarification (of the MFJ), the BOCs indicated their concern with an appropriate definition of "equality." In addressing this issue, the Court summarized the BOCs claims that exact duplication is infeasible:

> The [BOCs] assert that technical deviations will be so slight as to be imperceptible to all customers, whether of voice or data [and that they] had urged the Court to accept a definition of 'equal access' as access whose overall quality in a particular area is equal within a reasonable range which is applicable to all carriers' and to reject a more stringent definition which would demand access that yields identical technical quality (*i.e.*, identical values for loss, noise, and echo and identical possibility of blocking). . . . *The Court accepts the Operating Companies definition and will not insist on absolute technical equality.*[48]

56. The GTE CD also uses "equal in type and quality" as the criterion for measuring the efficacy of equal access implementation. As in the MFJ, the CD sets forth a partial list of features identical to those in the MFJ, and avoids a quantitative definition of "equal in type and quality." [49] Further, in the *GTE Opinion*, the Court lists the features of

---

[41] We have noted in paras. 33–34, *supra*, that 1389 (or 91 percent) of the ITCs serve less than one percent of nationwide access lines and that the average number of lines served by these ITCs is approximately 1,300. The typical non-GTE ITC is, therefore, a relative small company serving a rather small market, usually in a rural area. As a consequence, the factors (c) and (d) cited in this paragraph are likely to obtain for the majority of non-GTE ITCs.

[42] Sec. 201(*a*) of the Communications Act of 1934, as amended, states, "it shall be the duty of every common carrier engaged in interstate or foreign communications . . . to furnish such communications service upon reasonable request therefor . . .," but does not attempt to further define "reasonable." Neither shall we, in this Order, prescribe the elements of a "reasonable request" for equal access services from unconverted ITC end offices, but shall leave these arrangements to be developed in the tariff process. Tariff provisions the ITCs already have on file concerning ordering of access services and facilities may prove adequate for establishing the elements of such a request. To the extent that ITCs do not view these provisions as adequate for this purpose, they are free to make tariff filings setting out particular terms and conditions that will apply to such requests. We note that both the MFJ and the CD condition the obligation of an EC to convert certain end offices to equal access on there being a "bona fide request" to do so, but neither decree attempts to define such a request. Furthermore, prior to full conversion, the features set forth in para. 60, *infra*, should be offered to the extent feasible.

[43] MFJ at Sec. IV. F.

[44] *Id.*

[45] ITCs who will offer equal access should be aware that the FCC is examining the reasonableness of the routing by some local exchange carriers) of the default interLATA traffic of non-preselecting subscribers to AT&T. *See*, Memorandum Opinion and Order on Reconsideration, CC Docket No. 85-89, paras. 17–23 (February 25, 1985).

[46] *Id.* at Appendix B.2.

[47] *Id.*

[48] U.S. v. Western Electric Co., 569 F. Supp. at 1062, 1063 (1983) (MFJ Reconsideration) (emphasis added).

[49] *See* MFJ, Appendix B, and CD, Appendix B.

equal access that, GTE had stated, would be applicable to the GTOCs:

> The features of full equal access are: (1) dialing parity; (2) rotary dial access; (3) network control signalling; (4) answer supervision; (5) automatic calling number identification; (6) carrier access code; (7) directory services; (8) testing and maintenance of facilities; (9) provision of information necessary to bill customers; and (10) presubscription. * * * [50]

57. We see no reason to attempt to refine the concepts "exchange access services" and "equal in type and quality" to an extent exceeding that delineated in the MFJ and CD. With regard to the features of equal access service described in those decrees, we recognize that there will be considerable variation from end office to end office in the ITC sector in the types of exchange access services that are currently being offered to AT&T. We only require that such services be offered to OCCs to the extent that they are made available to AT&T, and consider the lists of features quoted above to be illustrative of the types of services that will generally have to be provided on an equal access basis once an end office is converted. By so doing, we anticipate that any new construction requirements will be in the realm of technological feasibility for any given ITC, since the required features are already being provided AT&T.

58. With regard to the definition of "equal in type and quality," we recognize that a definition of equality that is overly quantitative and microscopic in detail is impractical. Even AT&T's connections to ITC facilities vary in technical quality (with regard to impulse noise, error rates, distortions, and blocking probabilities) from end office to end office, and even within an end office. We concur with the District Court in its *MFJ Reconsideration* opinion that technical standards based upon the perceptions of customers are appropriate and that "absolute technical equality" need not be achieved.[51]

59. Therefore, subject to the caveats just discussed, we endorse the features of equal access services that have been set forth in the MFJ and CD as being equally valid in their application to the services we are requiring the ITCs to implement in this Order.[52] For further clarification, we reiterate the following requirements set out in the *Notice* for the conversion of existing SPC-controlled end offices, which were generally patterned after the MFJ:

> Programming of existing stored program controlled central offices shall be modified, during a three-year period * * *, to support access to the services of all interexchange carriers which is equal in all respects, except that the minimum number of digits necessary to reach other than a carrier pre-selected by the subscriber may be utilized until such time as the nationwide numbering plan is changed. At such time as the central office modification is completed, existing subscribers shall be given an option to pre-select a specific interexchange carrier which is interconnected with the exchange, and no additional digits shall be required for the subscriber to reach the services of that carrier. Thereafter, new subscribers shall be given this choice at the time when service is initially arranged. In both cases, the selection may subsequently be changed by the subscriber at his or her option.[53]

60. With regard to electromechanically-equipped end offices, we also proposed, and now adopt, the following, less stringent criteria for the provision of access:

> To the extent feasible, such offices shall be modified to offer the capabilities identified * * * [with regard to the conversion of SPC-equipped exchanges] utilizing techniques such as interconnection on a tandem basis where common equipment is capable of supporting such operation. If ANI (automatic number identification) capabilities or subscriber billing capabilities are capable of being made available to more than one interexchange carrier, to the extent the same is requested by such carriers they shall be made available in the same manner as is specified in the MFJ. If preselection of a particular carrier that might be accessed without dialing additional digits is not possible because of inflexibility of the electromechanical switching facilities, at minimum the exchange carrier must make available seven digit local telephone number access, with facilities and capabilities no worse than those provided in connection with PBX trunk service by the carrier. The carrier must make available transmission capabilities * * * which are no worse than those provided the traditional interexchange service provider accessing its office, and it shall provide access, to the extent possible, that uses the minimum number of accessing digits, and that makes possible access from rotary dial equipment to the services of each interexchange carrier.[54]

(d) *Rationale for Conclusions*

61. We have decided to impose these specific equal access implementation requirements in recognition of the differences between (a) the non-GTE independents and (b) GTE and the BOCs, which we have discussed above.[55] These differences reside primarily in the types of switching equipment used, the markets served, and the financial resources available to most non-GTE ITCs.

62. Accordingy, we have retained the recommendation (as set forth in the *Notice*) regarding the exemption of end offices equipped with electromechanical switches. We have not imposed a timetable upon such end offices (whether or not a request for service is presented) in consideration of the financial burdens they would be likely to encounter.[56] Our new requirements differ from those set forth in the *Notice* in two respects: (a) conversion of end offices equipped with SPC switches need not be implemented absent the presentation of a reasonable request (in which case the three-year deadline proposed in the *Notice* will apply); and (b) the two year deadline for the conversion of end offices to be equipped with new SPC, which was proposed in the *Notice*, will no longer be applicable.

63. We have concluded that the unconditional timetables proposed in the *Notice* for SPC end offices would not be in the public interest. Given the heterogeneity of the SPC equipment now installed in ITC end offices, an unconditional requirement for conversion to equal access could prove excessively expensive in those cases where the demand for conversion is nonexistent, or small. And, in light of the types of markets served by most ITCs, it is not necessarily the case that OCCs will be anxious to serve ITC exchange areas with equal access services. Accordingly, we shall require conversion only upon presentation of a reasonable request for service.

64. In retaining a three-year deadline for the conversion of SPC-equipped end offices, we have balanced the claims of those parties who state that three years or more could be required to convert a specific type of equipment or configuration, with the recognition that some of the larger non-GTE ITCs may have relatively sophisticated equipment that can be converted in less than three

---

[50] *GTE Opinion, supra* note 12, at 30 N. 55.

[51] *See* para. 55, *supra*.

[52] Nothing in this Order prejudges any issue now pending before this Commission arising from the type of equal access provided by the BOCs or GTOCs, or limits the ability of any person to seek relief from the Commission predicated upon an alleged failure of a BOC or GTOC to provide other interexchange carriers with access equal to that provided AT&T.

[53] Notice, 94 FCC 2d at 308.

[54] Id.

[55] *See* paras. 29–47, *Supra*.

[56] Some of the parties have urged that 10,000 lines per end office be used as a threshold criterion for determining whether an end office should be exempted. Since SPC equipment that is feasibly convertible to equal access applications can be used in end offices serving fewer than 10,000 lines, we find that exemption on the basis of switch technology, rather than the number of lines served is a more useful criterion. In any event, it is likely that most end offices serving fewer than 10,000 lines use electromechnical, and not SPC, switching equipment, and thus would not be subject to the conversion timetable specified in this Order.

years. The CD acknowledges that such differences exist within the GTE sector and does, indeed, impose different timetables, which comport with the relative degrees of sophistication of the SPC switches that are known to exist among the GTOCs.[57]

65. Since the distribution of specific SPC switch types among the non-CTE ITCs is not known with any degree of precision, we cannot make equipment-based distinctions in an implementation timetable for these companies. In those cases where the three-year timetable would impose a serious hardship upon an ITC, the exception mechanism we have set forth in para. 50, *supra*, will be available. Conversely, there may be instances (such as end offices equipped with switching equipment for which the generic software and other equal access conversion facilities are available off the shelf) where the three-year deadline is unnecessarily long. In particular, the availability of generic software for equal access will be quite likely in those instances where newer SPC equipment is being voluntarily installed as a replacement for electromechanical equipment.[58] In such cases, the ITC should endeavor to make the necessary conversions earlier than three years following a reasonable request.[59]

IV. Carrier Planning for Interconnected Services and NSEP Communications Services

A. Positions of Parties

66. Thirty-six (36) parties have filed comments or reply comments (or both) on the proposed range of questions set out for discussion in the **NOTICE** on joint planning. Pleadings were filed on behalf of IXCs (eleven parties);[60] ITCs (eight parties);[61] equipment manufacturers (seven parties);[62] user groups (three parties);[63] and state and federal agencies and public associations (eight parties).[64]

67. The general consensus of commenters is to favor an institutional arrangement for technical planning that is based on voluntary participation and a broad membership spectrum, in order to minimize potential antitrust concerns. AT&T argues, for example, that "by not committing to adopt the standards they develop, standards-makers lessen the possibility that they will stumble into a contract or a conspiracy in restraint of trade." [65] MCI, IBM, and Centel support this view. DOJ, while emphasizing that Commission sponsorship of joint planning does not create any antitrust law immunity; states that "properly structured and narrowly focused joint ventures for dealing with matters such as interconnection standards are usually consistent with the antitrust laws." [66]

68. Most parties (including DOJ) take the position that a planning mechanism built around the Exchange Carriers Association (ECA), which was proposed in our *Notice*, is too narrow in its membership responsibilities and focus. Instead, they support the proposal of the Exchange Carrier Standards Association (ECSA) wherein joint planning (limited to the specification of the technical and physical characteristics of the interface between EC and IXC facilities) would be implemented through the voluntary participation of interested parties in the activities of the ECSA-sponsored T–1 Committee, which has been accredited by the American National Standards Institute (ANSI).[67] Most parties also oppose a requirement of Commission membership or oversight with regard to the activities of the T–1 Committee.

69. Those parties responding to the issues of national security and emergency planning (NSEP), [68] favor maximum use of the existing National Coordinating Mechanism (NCM), adopted by the industry under the authority of the President and the Secretary of Defense in response to Executive Order No. 12382 (dated Sept. 13, 1982).

B. Discussion

1. Authority of Commission To Require Limited Joint Planning

70. We concluded in the *Notice* that we have ample authority under the Communications Act to impose joint planning requirements to the extent we find necessary to carry out the purposes of the Act and our communications policy goals.[69] Most parties fully support this conclusion, and none mounts any substantial challenge to it. We therefore reiterate our conclusion that limited joint planning, as described below, for ensuring the just and reasonable administration of interconnection arrangement is well within our authority to require.

2. Standards for Limited Joint Planning

71. In the *Notice* we proposed that joint technical planning among carriers be limited to establishing performance and physical parameters at the EC/IXC interface only, under a mechanism built about the ECA. We further stated that:

> It is our tentative belief that this Commission should be assigned responsibilities and functions regarding the joint planning activities of the association which are designed to ensure that the association does not operate in a manner which frustrates the goals and policies which we are establishing. This result can be achieved without requiring that this Commission be given membership on the association.[70]

We cited previous examples of successful joint planning, stating:

> Forms of joint action by carriers, in some cases under this Commission's sponsorship, and in many cases by the carriers themselves, have historically proved necessary in telecommunications to achieve important objectives: developing of industry-wide technical standards, operating principles, administrative procedures, and maintenance procedures; informal resolution of service and maintenance disputes which may arise where there is divided responsibility for elements of a joint through service; development of standby procedures and facilities to support extraordinary communications requirements (*e.g.*, NSEP communications); and development of appropriate forecasting and circuit requirements amalgamation procedures to facilitate planning for construction of new facilities with relatively long "lead" times.[71]

72. We recognized in the *Notice* that limited joint planning poses potential risks related to the diminution of

---

[57] *See* para. 9, *Supra*.

[58] Even where no OCC has requested interconnection services, the replacement of electromechanical equipment with an SPC digital switch can be economically advantageous where significant savings in maintenance and other operating expenses are achieved.

[59] For such end offices, we see no reason why the District Court's admonition in the CD should not also govern the actions of ITCs: "Since the decree requires [the GTOCs] to offer equal access 'as promptly as possible' * * *, they are required to advance the implementation of equal access if the necessary software and hardware become available sooner than anticipated." *GTE Opinion*, supra note 12, at 34 n. 61.

[66] DOJ Comments at 31.

[67] Accreditation of the T–1 Committee by ANSI became effective on Sept. 20, 1984.

[68] The parties commenting on NSEP include AT&T, ECSA, Mid-Rivers Telephone Coop and North Pittsburgh Telco., Secretary of Defense, DCA, Telephone and Data Systems Inc., USTA, PSC of Wisconsin.

[69] *See Notice*, 94 FCC 2d at 314–16.

[70] *Id.* at 317.

[71] Id. at 311.

innovation and competition, and that the decision to adopt such a policy necessarily entails a balancing of these risks and the advantages of joint planning cited in para. 71, *supra*. The comments and replies of the parties are largely in agreement that the structural mechanisms for limited joint planning proposed by ECSA would significantly reduce the risks of such planning, while substantially preserving its advantages.[72] Thus, we find no reason to alter our tentative conclusion in the *Notice* that "the advantages to be gained from joint planning, as well as the short-term dangers posed by disruptions in this planning, outweigh the potential risks involved and point toward the conclusion that joint planning under the aegis of this Commission will serve the public interest."[73]

73. With regard to NSEP functions, some new forms of planning among carriers will be required. AT&T, in the past, had taken a leading role in planning the participation of the telephone industry in NSEP communications. Implementation of the MFJ now requires the creation of new institutional arrangements for developing administrative mechanisms and maintaining emergency communications capabilities.

74. In this Order, we approve two joint planning mechanisms: (a) the ECSA-sponsored and ANSI-accredited T–1 Committee, and (b) the NCM to accomplish the technical planning associated with provision of NSEP communications.[74] We intend to minimize the imposition of additional regulatory rules or standards. While recognizing that experience may require future responses from the Commission, we accept today both the T–1 and NCM planning entities as responsive to our statutory responsibilities.

3. Structure for Limited Joint Planning for EC/IXC Interconnection

75. The record in this proceeding indicates that the parties are uniformly supportive of replacing our proposed joint planning mechanism with that proposed by ECSA. The voluntary membership of the T–1 Committee would, according to the parties, specifically address the concerns raised in our *Notice* by providing a forum in which the interests of all entities concerned with the development of technical standards would be heard and addressed.

76. In addressing the ECSA proposals, the parties provide sufficient arguments to demonstrate that a planning mechanism based upon the T–1 Committee structure (with its broad membership base) would minimize the potential for anticompetitive abuses resident in the ECA-based structure, which had been proposed in the *Notice*. The T–1 Committee includes and encourages the fullest industry representation of equipment manufacturers, IXCs, and other users of exchange access service as participants.[75]

77. The agendas of the T–1 Committee will be developed by its members and, therefore, should be responsive to their needs for administration of interconnection procedures, technical standards for provision of interconnection, design and operational standards relating to interconnection equipment and systems, and related administrative and maintenance procedures. The primary purposes of this limited joint planning coordination should be to make adjustments to interconnection processes on an ongoing basis in order to achieve operational efficiency, to promote nationwide compatibility, and to anticipate future needs and problems so that adjustments can be planned.

78. Based on our review of the structure, membership, functions, and procedures of the ESCA-sponsored and ANSI-accredited T–1 Committee, we find that is an appropriate organization for developing voluntary technical interconnection standards.[76] As described by ESCA, the T–1 Committee will have the following characteristics: (1) it will focus on developing "standards at the point of interconnection for 'external' interface with interexchange carriers, customer premises equipment, and information vendors";[77] (2) it will "examine physical, electrical, mechanical, and functional characteristics of external interface standards and will establish the minimum standards to ensure proper interconnectivity and interoperability of services and equipment";[78] (3) its membership "will be open to all parties with a direct and material interest in the formulation of interconnection standards, without dominance by any single interest."[79] The Commission will not participate as a member of the T–1 Committee. The proposed T–1 Committee mechanism, with its open and voluntary membership requirements, appears to satisfy our concerns regarding the full participation in joint planning by affected parties and the exposure of joint planning operations to public scrutiny. We shall, however, monitor the industry standard setting process and, if necessary, provide regulatory review.

79. Furthermore, we have concluded that the interconnection coordination activities and the organizational structure for limited technical planning that we approve in this Order are consistent with the antitrust laws. The parties discuss limited joint planning in terms of providing an association or procedural mechanism that would safeguard against the possibility of anticompetitive abuses by eliminating or reducing opportunities for restraint of trade, price-fixing, market allocation and other exclusionary practices. They generally suggest that an appropriate joint planning association would require broad representation to minimize antitrust concerns and refer to the structural and procedural safeguards of the T–1 Committee, which, they emphasize, are in accord with antitrust policies, and are responsive to the Commission's antitrust concerns.[80] Additionally, IBM, GTE (Sprint), ITT (COINS) and Western Union, encourage the Commission to participate and maintain regulatory oversight responsibilities. ANSI points to *Revised*

---

[72] ECSA summarizes its structural philosophy as follows: "Limited joint planning under the auspices of the ECSA-sponsored and ANSI-accredited T–1 Committee, which has the responsibility for interconnection standards formulation, is open to all parties with a direct and material interest in that process and activity, without dominance by any single interest." ECSA Comments at 11. The T–1 Committee membership will be voluntary and will be open to all who may be concerned. *See* notes 75, 79, *infra*.

[77] ESCA Comments at 13.

[78] *Id.* at 14.

[79] *Id.* at 11. Exhibit A of the ESCA By-Laws cites the following entities as having direct and material interests: "(i) exchange carriers; (ii) interexchange carriers; (iii) relevant equipment manufacturers; (iv) vendors of relevant products; (v) state and federal regulatory agencies; (vi) the United States Department of Defense; (vii) user groups, (viii) professional technical organizations; and (ix) other groups that have a general interest in the exchange carrier industry." Exhibit A at 1.

[80] *See* Comments of Rural Telephone Coalition, SNETCO, Rochester Telephone Co., USTA, American Satellite Co., TDS, Centel, United Telephone System, ECSA, IEEE, USAB, ANSI, MCI, USTA, Northern Telecom Inc., U.S. Telephone Inc., Utilities Telecommunications Council, TRT, API, Association of Data Communications Users, and IBM.

Circular A–119, October 27, 1982, which directs government agencies to adopt voluntary standards that are consistent with statutory obligations and goals. Mid-Rivers Telephone Cooperative, Inc., North Pittsburgh Tel. Co., and the PSC of Wisconsin submit that direct Commission regulatory involvement in the interconnection process is unnecessary and that an ESCA/ANSI accredited organization is fully consistent with antitrust principles and policies. DOJ asserts that:

> properly structured and narrowly focused joint ventures for dealing with matters such as interconnection standards are usually consistent with the antitrust laws. Care must be taken, however, that the joint venture does not overflow into areas where innovation and diversity should continue unabated. . . . The various exchange carriers should be able to experiment with new interconnection arrangements and to adopt particular system designs that best meet the demands of their customers (the interexchange carriers) and of their subscribers within the overall framework of a compatible and efficient network. . . . [S]o long as compliance is voluntary, the exchange carriers will be free to act on their own incentive to subscribe only to those standards which actually enhance the efficiency of their networks.[81]

80. It has been our intent in fashioning the structure necessary to achieve limited joint planning to assign to the association, functions which are important for the provision of efficient planning but which will not create a basis for anticompetitive conduct. It also should be noted that, although it is true that competition is an important factor which should be given weight in the administration of the Act, this Commission also is required by the public interest standards of the Act to consider factors other than competition, such as the efficiency of the communications network, the provision of reliable service to the public, and the future needs of carriers and users. In sum, we believe that our endorsement of the joint planning procedures outlined in this Order is consistent with our responsibility under the Act, and that use of such procedures will not raise antitrust issues. Accordingly, we approve the T–1 Committee as the instrument for implementing the limited joint planning approach proposed in the Notice and endorsed by the industry.

4. Joint Planning for NSEP Communications Capabilities

81. A number of parties have addressed the concerns we have raised regarding the proper coordinating mechanism to ensure continuity of emergency communications bearing upon national defense and emergency preparedness. The Commission recognizes the need for planning among carriers to create administrative mechanisms and standby capabilities to support such communications. We concur with the parties that we should adopt the industry's response to Executive Order No. 12382 (dated Sept. 13, 1982), which directs the National Communications System, headed by the Secretary of Defense, to develop a post-divestiture NSEP plan.[82]

82. The general agreement among parties to form the NCM, composed of government and industry representatives who will jointly provide communications capabilities and ensure continuity of national facilities during emergency conditions, also resolves the issues raised in the Notice [83] regarding antitrust concerns. The DOJ has accepted the NCM plan.[84] The carriers and the government agencies assigned responsibility for NSEP have acted to plan and implement NSEP communications mechanisms that will meet national requirements. As in the case of the T–1 Committee activities, described in paras. 75–78, *supra*, we will continue to monitor the NSEP planning process and, as necessary, provide regulatory review and approval of whatever executive coordinating actions are taken in response to Executive Order 12382.[85]

V. Tariff Requirements

A. Positions of Parties

83. In the *Notice* we requested that parties consider what level of information on interconnection should be included in ECs' access tariffs. The consensus of the commenters is that the Commission should limit its tariff filing requirements to the provision of basic technical interconnection information and reject unnecessarily rigid rules that would only necessitate frequent waiver requests, especially in the case of small and rural companies. AT&T gives examples of "practical" tariff inclusions, such as identifying whether an interconnection is a trunk-side or line-side arrangement, what signalling methods are available, and whether seven digits or fewer are required of the customer.[86] Many parties state that complex, technical details of multi-featured services in tariffs would be unnecessary and burdensome. This material, commenters suggest, would be of marginal usefulness, and especially since there are other sources or references for such data.[87] MCI suggests that to avoid confusion either a general or specific reference to Part 68 in the tariffs should be required.[88] SNETCO states that tariffs should only reference physical, technical, and operational aspects of interconnection.[89]

B. Discussion

84. In the *Notice*, we noted that a variety of federal tariff-related interconnection policies governing ECs have traditionally been manifested in AT&T's interstate tariffs, to which all ECs concurred for the joint provision of interstate service. However, as competition for interstate service continues to evolve, such a pattern of concurrence may no longer be common. To prevent confusion to the public, we proposed that the ECs' interconnection practices be reflected in their interstate exchange access tariffs, noting that such a requirement would impose minimal (if any) burden on such carriers, as they were obliged to file (or to concur in) access tariffs in any event.

85. Our proposals in this area were necessary because it was unclear whether any EC tariffs (or tariffs in which ECs would concur) for interstate service would continue to manifest these carriers' interconnection practices pursuant to our long-standing interconnection orders. Since that time, however, the ECs have implemented our proposals and have included (or referenced) in their interstate exchange access tariffs language comparable to the interconnection-related language in AT&T's pre-divestiture interstate tariffs. Thus, this is not a controversial matter. But, to ensure that there is no confusion in the future, we shall make final our tentative conclusion in the *Notice* that ECs' interconnection practices, as prescribed by this Commission, must be reflected in their interstate exchange access tariffs.[90]

---

[81] DOJ Comments at 31, 34, 35.

[82] AT&T, ECSA, Mid-Rivers Telephone Corp., North Pittsburgh Telco, Telephone and Data Systems, Inc. DOJ, USTA, ICA, PSC of Wisconsin, Secretary of Defense.

[83] See *Notice*, 94 FCC 2d at 321–322.

[84] Letter from Assistant Attorney General, Antitrust Division, U.S. Department of Justice, to Manager, National Communications System, dated June 1, 1983.

[85] While we today provide a framework for NSEP planning, we are not now specifying in detail the types of planning that will be required, nor the voluntary and regulatory administrative and other mechanisms that may prove necessary to carry out such planning. We will leave the development of resolution of such issues, in the first instance, to the NCM planning group we approve in this Order. *See Notice*, 94 FCC 2d at 299.

[86] AT&T Comments at 58.

[87] PSC of Wisconsin, Southern New England Telephone Co. (SNETCO), AT&T, Rural Telephone Coalition.

[88] MCI Comments at 19.

[89] SNETCO Comments at 7.

[90] *See* also, Access and Divestiture Related Tariffs, 97 FCC 2d at 1111 (1984).

86. A related issue raised in the *Notice*, namely, whether we should require that the BOCs treat resellers no differently from facilities-based IXCs with respect to access number coding, has subsequently become moot. At that time, it was contemplated that 10XX coding, which is capable of supporting access to no more than 100 IXCs, would be used for access to the services of non-predesignated carriers. Since there are more than 100 resellers, the supply of available codes could have been rapidly exhausted. Since the BOCs have since revised their plans to utilize 10XXX coding and will make such codes available to resellers and facilities-based carriers alike, we do not anticipate exhaustion of access codes in the foreseeable future. Accordingly, in light of the implementation of this expanded code space, we need make no determination on this issue.

VI. Regulatory Flexibility Certification

87. In the *Notice*, we invited interested parties to comment upon our initial regulatory flexibility analysis. We stated our legal authority for taking action in this proceeding, and noted that "the policy objectives of the Regulatory Flexibility Act are also encompassed in Sections 2(b) and 203(a) of the Communications Act of 1934, the provisions of which are intended to relieve many small telephone companies from various reporting and other requirements established in the Communications Act."

88. We hereby certify that the Regulatory Flexibility Act is not applicable to small telephone companies, as defined, because they are monopolies in their own service areas. The Act incorporates the definition of a "small business" in Section 3 of the Small Business Act as the definition of a "small entity." The latter definition excludes any business that is dominant in its field of operation. ECs, even small ones, enjoy a dominant monopoly position in their local service area. Moreover, the actions we are taking in this proceeding with respect to (a) the implementation of equal access, and (b) the modification of tariffs to reflect equal access interconnection, are designed that the interests of small telephone companies are protected—by recognizing their unique financial status *vis a vis* that of the BOCs and the larger independent telephone holding companies.

VII. Ordering Clauses

89. Accordingly, it is ordered That, pursuant to Sections 4(i), 4(j), 201–205, 213, 218, 220, and 403 of the Communications Act of 1934, 47 U.S.C. § § 154(i), 154(j), 201–205, 213, 218, 220, and 403, the policies, rules, and requirements set forth herein are adopted.

90. It is further ordered, That the Secretary shall cause this Order to be published in the **Federal Register**.

47 CFR Part 67

Interpretation Letter Regarding Jurisdictional Separations

AGENCY: Federal Communications Commission.

ACTION: Interpretation Letter.

SUMMARY: Under delegated authority, the Common Carrier Bureau, in response to a request by New England Telephone has provided an interpretation of Part 67 of the FCC Rules and Regulations. The issue concerns the jurisdictional separation of state income taxes and the interpretation is intended to clarify the apportionment procedures in § 67.412 of the Rules.

FOR FURTHER INFORMATION CONTACT: Arthur S. Leahy, Common Carrier Bureau, (202) 634–1743.

William J. Tricarico,

Secretary, Federal Communications Commission.

April 9, 1985.

Mr. James E. Riley,
Division Manager, Depreciation and Separations, New England Telephone, 99 High Street, Room 1004, Boston, Massachusetts 02110

Dear Mr. Riley: This letter is in response to your letter of March 8, 1985 in which you requested clarification of section 67.412 of the *FCC Rules and Regulations*. Specifically, you requested information regarding the proper allocation of the state income tax (SIT).

Paragraph 67.412(d) of the *FCC Rules and Regulations* indicates that the net income tax attributable to all operations is to be apportioned among the operations on the basis of the approximate net taxable income applicable to each of the operations. As noted in your letter, New England Telephone has historically interpreted "operations" to mean Company rather than state specific operations, whereas the May 30, 1984, decision of the Maine Public Utility Commission interprets the word "operations" to mean Maine operations only.

The Maine PUC proposed method of allocating SIT to interstate would require that the New England Telephone Company continue to use company taxable income allocated to Maine as the basis for SIT, but apportion the tax to interstate on the basis of net taxable income applicable to each of the operations specific to Maine. We concur with the Maine PUC interpretation of section 67.412 of the Separations Manual. In section 67.412 the word "operations" is interpreted to mean state specific operations rather than company operations in order to be consistent with the method used in calculating SIT. Since the SIT is a directly assignable cost, it can be used for allocation in the separations process. In contrast, the method of allocating SIT that has been employed by New England Telephone fails to make use of the prior estimate of the Maine SIT cost. The attachment to this letter shows the jurisdictional allocation procedure for SIT proposed by the Maine PUC and with which we concur.

We do not anticipate any significant impact on telephone rates as a result of using the Maine PUC alternative method of allocating SIT to interstate. The New England Telephone submission indicates that the use of the alternative method would result in a $.4 million increase in interstate expense in the state of Maine based upon 1984 data. In addition, the proposed alternative method would result in a $1 million increase in interstate expense for the state of New Hampshire. These increases would be more than offset by the indicated $1.8 million decrease in interstate expense for the state of Massachusetts.

If you have any questions concerning this response, please contact Arthur Leahy on (202) 634–1743.

Sincerely,

Gerald P. Vaughan

Chief, Accounting and Audits Division.

47 CFR Part 73

Implementation of BC Docket No. 80–90 To Increase the Availability of FM Broadcast Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action adds a new attribute under the comparative hearing criterion of securing the best practicable service which would enhance the "integration" proposal of daytime-only AM licensees that apply for FM

channels in the same community. This daytimer enhancement credit would be equal to the "merit" enhancement value given for local residence or minority ownership. Also in this action we announce a procedure for accepting applications for the recent 689 FM channel allotments and for opening up the FM Table of Allotments for new petitions.

EFFECTIVE DATE: May 20, 1985.

FOR FURTHER INFORMATION CONTACT: Robert Branson, Mass Media Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Second Report and Order

In the Matter of Implementation of BC Docket No. 80-90 to Increase the Availability of FM Broadcast Assignments (MM Docket No. 84-231).

Adopted: March 14, 1985.
Released: April 12, 1985.

By the Commission: Chairman Fowler issuing a separate statement; Commissioner Rivera dissenting and issuing a statement at a later date.

I. Introduction

1. Before the Commission for consideration are three matters not addressed in the *First Report and Order*, 50 FR 3514, published January 25, 1985, in this proceeding. The *Notice of Proposed Rule Making ("Notice")*, 49 FR 11214, published March 26, 1984, solicited comments on several proposals designed to aid daytime-only AM licensees in obtaining FM broadcast stations in their principal community of license. In response to the Notice, the Commission received in excess of 150 comments on these proposals.[1] Also in this document, we set forth the system by which we will begin to accept applications for the 689 recently alloted channels. Finally, we announce herein that new FM petitions to amend the FM Table of Allotments can now be filed.

[1] A "Petition for Bifurcation and Expedited Action" was also filed on behalf of the Gene Sudduth Company, Inc. ("Sudduth"). Various parties filed in support and in opposition to this petition. Sudduth requsted that the Commission separate the question of a preference for daytime-only licensees from the proceeding implementing Docket 80-90 and consider it on an expedited basis. In addition, Sudduth argued that a preference should be granted to all daytime-only licensees and not solely to those in the omnibus proceeding. With respect to Sudduth's request that this matter be handled in an expedited manner, our action in this proceeding makes that portion of the petition moot. We have determined, however, that based on the comments filed, special consideration should be applied in all future FM comparative proceedings as noted in paragraph 20.

II. Background

2. The National Telecommunications and Information Administration ("NTIA") in a 1981 petition for rule making proposed that the Commission seek ways to aid daytime-only AM licensees. Subsequently, the Commission issued the *Notice of Inquiry and Notice of Proposed Rule Making* in BC Docket No. 82-538, 47 FR 38937, published September 3, 1982. The Commission, therein, considered a broad range of problems faced by the daytime-only AM licensee. Included in the *Notice of Inquiry* portion of that proceeding was the proposal to grant a comparative preference to these licensees. While the *Notice of Inquiry* portion was pending, the Commission began the first steps towards implementation of Docket 80-90. The Commission proposed that many of the new FM allotments be placed in communities presently served exclusively by daytime-only AM licensees.

3. In addition, because of our continuing concern for the limitations of daytime-only operations and our recognition that many daytime-only licensees have a long history of outstanding service to their community of license, we believed it appropriate to inquire in this proceeding as to whether some form of aid should be granted the daytime-only licensee applying for an FM channel in its community of license. In particular, we requested specific comments on the type of aid that could be provided to the daytime-only licensee in the comparative process.[2]

III. Comments

4. The majority of the parties filed comments in support of granting some form of aid to daytime-only broadcasters. Although two forms of possible assistance were suggested, the majority of the comments focused on the desirability of granting a preference to daytime-only AM licensees.[3] The parties disagreed, however, as to the nature and the limitations which should be placed on such a preference.

5. In support of a preference for daytime-only AM licensees, commenters assert that often daytime-only licensees have been the only source of programming to serve the special needs of their respective communities. Specifically, they point out that residents of smaller communities must rely on their local daytime-only broadcaster for information about local weather conditions, school closings, government actions, and other items of local interest. Commenters argue that the daytime-only licensees have provided this information in spite of the service constraints associated with daytime-only operation. Citing imposed restrictions on hours and broadcast conditions, commenters assert that daytime-only licensees often cannot provide adequate service to their communities of license. Moreover, commenters point out that these same restrictions cut into station revenues by precluding stations from offering service during prime portions of the broadcast day, such as drive times.

6. Commenters argue that if the Commission does not grant a comparative preference to daytime-only licensees, this will have the unintended effect of eliminating the experienced broadcaster in favor of the untested new applicant. These commenters assert that with the introduction of a superior, full-time, FM facility the daytime-only station could be forced out of business. In this connection, commenters note that many of the smaller markets could be expected to have difficulty supporting additional broadcast outlets. Similarly, other commenters contend that the daytime-only licensee might be forced to choose between going out of business and selling his facilities to the new FM licensee, leaving the community with only one voice. Such a result, it is alleged, would be inequitable in light of the daytime-only licensee's history of service to the community and accompanying financial sacrifice. Consequently, it is asserted that there would be no net increase in diversity in the affected community if the new broadcaster wins in the comparative hearing.

7. While the majority of the parties suggested that the Commission grant a substantial preference, most have differing opinions as to its nature and limits. One group proposed that the value of the preference be similar to that which is given in the comparative hearing for 100% ownership integration. Other parties contend that it should be akin to the "renewal expectancy" granted incumbents in comparative renewal proceedings. Under this plan the daytime-only licensee would have to demonstrate that it had provided "substantial" service to its community of license in order to receive a preference.

8. Some commenters express their concerns that, if daytime-only licensees receive some form of preference, it could

[2] *See Policy Statement on Comparative Hearings*, 1 FCC 2d 393 (1965).

[3] Although some parties proposed that the preference also be awarded to full-time AM licensees, we do not believe that the same policy justifications would support such a preference.

undercut the Commission's policy of increasing the number of minority broadcasters. These parties allege that grant of too great a preference could foreclose opportunities for minority broadcasters to obtain these new FM allotments in their communities. Specifically, the National Association of Black Owned Broadcasters, Inc. ("NABOB"), while generally supportive of a preference, suggests that the preference be weighted such that non-minority daytime-only licensees would not be preferred over minority applicants. Similarly, the National Black Media Coalition ("NBMC") contends that daytime-only licensees should not be granted preferred status for the new FM allotments which would otherwise have been granted to minorities.

9. Although the *Notice* stated that the proposed preference would only be available in the community of license, many commenters nonetheless suggested alternatives. These commenters suggested that a preference should be granted to daytime-only licensees even if the new FM allotment is not precisely in the same community as the daytime-only station. Specifically, the National Association of Broadcasters ("NAB"), Marion Broadcasting Company ("Marion") and Wilson-Howard-Broyles Broadcasting ("WHB") propose that the Commission grant a preference to daytime-only licensees whenever the 1 mV/m contour of the existing daytime-only station and the proposed new FM station would overlap. Likewise, the Daytime Broadcasters Association ("DBA") contends that whenever the FM station would substantially overlap the service area of the existing daytime-only facility, the daytime-only licensee should be awarded a preference.

10. Those parties supporting a preference are also divided as to whether divestiture should be a prerequisite. Commenters opposed to a divestiture requirement argue that the public interest could best be served through allowance of the AM–FM combinations. NAB asserts that the Commission has in the past acknowledged the benefits to be derived from such combinations. Other commenters note that the Commission has recently determined that existing licensees might acquire new facilities in their community of license without a divestiture requirement.[4] DBA points out that the Commission has declined to consider a proposal that AM–FM combinations be broken-up.

[4] *Citing Multiple Ownership of AM and FM Stations*, 51 RR 2d 449 (1982).

Accordingly, these parties assert that requiring divestiture in this proceeding would be inconsistent with the Commission's prior pronouncements and discriminatory to daytime-only licensees.

11. Opponents of a divestiture requirement further contend that many smaller markets can support only one broadcast facility. In such markets, commenters argue that the introduction of a superior full-time FM station could soon lead to the financial demise of the daytime-only station. When the daytime-only licensee attempts to sell the station in a community with a superior FM station, commenters contend that the daytime-only licensee could be forced into a "distress sale" posture. Instead of requiring divestiture and eventually losing an experienced daytime-only licensee, these commenters suggest that the Commission consider the benefits to be derived from joint ownership. In those communities that are too small to support two facilities, commenters indicate that an AM–FM combination could share certain resources, such as studio facilities and staff. Commenters point out that this in turn would result in the availability of additional resources which could be devoted to programming to serve the needs of their communities. Moreover, commenters contend that in the smaller communities the revenues generated from the existing daytime-only station could be used to cover the start-up costs of the new FM station and to support the FM facility during its initial operating period.

12. The commenters supporting a divestiture requirement point out that, under existing Commission policy, a daytime-only licensee can avoid a diversity demerit in the comparative hearing by pledging to divest its AM daytime-only facility.[5] Because divestiture of the daytime-only facility would not represent a significant change in Commission policy, these commenters are not opposed to such a prerequisite. Moreover, these parties suggest that divestiture would assure that the Commission's policy towards media diversity would be thwarted by having the same licensee owning both an AM and FM facility.

IV. Discussion

A. Comparative Merit for Daytimers

13. After careful consideration of the record in this proceeding, we conclude that it is in the public interest to afford some form of special consideration to daytime-only licensees when they apply for FM allotments in their community of license. This conclusion is based on several factors. First, daytimers represent a unique class of broadcast licensees. They alone are restricted to operate essentially from sunrise to sunset. Thus, daytimers and their respective communities do not receive the benefit of nighttime operations from daytime-only stations. In addition, daytime-only stations cannot take advantage of potential nighttime revenue to support their operations. Further, although the Commission has a strong policy to improve the ability of these licensees to obtain expanded service, the requirements of other types of AM stations, *e.g.* Class I and III stations, place a technical limit on the amount of relief that can be provided. We believe that the operation of daytime-only stations in the public interest by licensees, despite the above limitations, provides a strong indication that they will operate an FM station in the same community in a manner that will further the public interest. Moreover, positive recognition of the efforts of these licensees in operating limited facilities encourages all licensees to maximize the provision of service to the public, notwithstanding the nature of any obstacles attendant to such operations.

14. As many commenters noted, it was often daytime-only licensees who pioneered radio broadcast service in their communities. However, these licensees have always been subject to the limitation that they cannot operate at night. In a number of communities this limitation has deprived the community of any local nighttime service. It also follows that because daytime-only stations essentially are restricted to daytime hours of operation, the facilities must be supported without the aid of a nighttime revenue base. No other type of AM station is limited in this manner. Furthermore, many daytime-only stations are still unable to reap the full economic benefits that could be derived from operating during peak broadcast hours of high listenership, *e.g.* evening "drive-time" (4:00 to 6:00 p.m.) during the months of December and January when Christmas and New Year's advertising revenue is critical. Some of these licensees are required to sign-off as early as 4:15 or 4:30 p.m. during these months, while others are limited to post-sunset operation with powers significantly less than their authorized daytime power levels.

15. In recognition of the above problems, the Commission initiated a rule making proceeding in September of

[5] *See Alexander S. Klein, Jr.*, 49 RR 2d 606 (1981).

1982 to explore various alternatives for expanding the capability of daytime-only stations to operate beyond their present limitations.[6] A *Report and Order* was issued in September of 1983 permitting greater pre-sunrise flexibility and authorizing, for the first time, post-sunset operations.[7] In April of 1984, we released a *Memorandum Opinion and Order*,[8] on reconsideration, which, *inter alia*, gave further post-sunset relief to daytime-only stations operating on foreign clear channels. Finally, in December of 1984, we resolved the issue of affording additional post-sunset relief to daytime-only stations operating on regional channels.[9] These actions reflect our high degree of sensitivity to the predicament faced by daytime-only licensees in attempting to expand service to their communities.[10] However, at best, our actions afforded only moderate assistance to these licensees. In this regard, it was apparent that additional technical relief could be provided only at the risk of creating significant interference to the service requirements of other types of AM stations, such as Class I and III stations.

16. In view of all of the foregoing, it appears that the most viable option for addressing our concerns in this area is to grant special consideration to daytime-only licensees when they apply for new FM stations in their community of license. The comparative hearing process is the desirable vehicle for accomplishing this objective. Before discussing the methodology for applying any special comparative consideration to the subject licensees, we will briefly review the existing comparative hearing standards.

17. The Commission's 1965 *Policy Statement on Comparative Broadcast Hearings*, 1 FCC 2d 393 (1965), sets forth the criteria for choosing among qualified new applicants for the same broadcast facility. These criteria include: (1) Diversification of control of the media of mass communications; (2) full-time participation in station operation by owners (also characterized as securing the best practicable service); (3) proposed program service; (4) past broadcast record; (5) efficient use of the frequency; (6) other factors.[11] *Id.* at 394–399. The two primary criteria in comparative hearings are diversification and securing the best practicable service. *Id.* at 394.

18. Diversification is a comparative factor which involves a consideration of common control and less than controlling interests in other broadcast stations. Diversification is considered to be of primary significance and can lead to a predominant comparative preference or demerit. The ultimate weight given to this factor depends on the degree of ownership interest in other stations or media and the proximity of other stations or media to the community of the proposed station. *Id.* at 394–395.

19. The second comparative criterion, securing the best practicable service, is a factor of substantial importance and can lead to a significant preference depending on the extent to which there is full-time participation in station operations by owners. Moreover, the value of a preference for integration of ownership and management can be enhanced by attributes of the participating owners such as local residence, past participation in civic affairs, previous broadcast experience and minority ownership.[12] The rationale for allowing these attributes to enhance an integration proposal is that they increase the likelihood of securing the best practicable service. For example, "participation in station affairs . . . by a local resident indicates a likelihood of continuing knowledge of changing local interests and needs." *Id.* at 396.

20. We believe that affording comparative credit to daytime-only licensees who apply for new FM channels in their community of license also increases the likelihood of securing the best practicable service. As indicated previously, daytimers have operated their facilities in the public interest in an environment with serious limitations (see paragraphs 14–15 above). Thus, we believe there is an especially strong likelihood that they will operate a full-time FM facility in the same community in a manner which furthers the public interest. Moreover, awarding special comparative consideration to daytimers serves as an incentive to licensees in general that operation of facilities in the public interest, notwithstanding the difficulties encountered, can lead to certain added benefits. In view of the foregoing, we have decided to consider prior daytime ownership/management experience in an upgraded manner under the general comparative criterion of securing the best practicable service. Specifically, where the broadcast experience of an applicant is based on previous substantial participation in management of a daytime-only station owned by the applicant in the same community as the proposed FM station, we shall upgrade the value of broadcast experience as an integration enhancement so that it will be equal to the enhancement value of local residence or minority ownership. Where the applicant's broadcast experience does not meet these requirements, the comparative weight to be given broadcast experience will be less than local residence or minority ownership as indicated in note 12, *supra*. This new policy shall apply to all future comparative proceedings involving new FM applications filed, but not yet designated for hearing, as of the effective date of this order.[13]

21. However, to receive any such additional credit, the daytime-only licensee/applicant must have owned the daytime-only station for three continuous years prior to designation of the FM application for hearing. The applicant also must propose to be integrated in the operation of the FM station.[14] In addition, the application must be for an FM channel in the same community as the daytime-only station's community of license. These conditions are designed to assure that the benefits relied on in giving special consideration to daytime-only licensees are realized.

22. Having determined that daytime-only ownership/broadcast experience should be entitled to comparative enhancement, we next address whether divestiture of the daytime-only station in the same community as the proposed

---

[6] *Notice of Proposed Rule Making and Notice of Inquiry*, 47 FR 38937 (1982).

[7] 48 FR 42944 (1983).

[8] 49 FR 17942 (1984).

[9] 49 FR 48046 (1984).

[10] It is also noted that a number of recent Congressional initiatives have focused on this matter. *See for example*, S 880, 98th Cong., 1st Sess. (1983), S. Rep. No. 98–165, 98th Cong., 1st Sess. (1983); H.R. 1589, 98th Cong., 1st Sess. (1983); H.R. 2385, 98th Cong., 1st Sess. (1983); H.R. 6129, 97th Cong., 2nd Sess. (1982); and H.R. 6308, 97th Cong. 2nd Sess. (1982).

[11] "Other factors" can include examination of additional relevant and substantial matters. *Id.* at 394.

[12] Equal weight is given to local residence and minority ownership. Past participation in civic affairs and broadcast experience are accorded less weight than either local residence or minority ownership. *See Radio Jonesboro, Inc.*, FCC 85305, ——FCC 2d ——.

[13] We believe that this represents an appropriate cut-off point. Applicants participating in a hearing, or post-hearing process, as of the effective date of this order, have expended significant time and funds in reliance on the existing comparative standards. Moreover, reopening these hearing proceedings would impose significant administrative costs on the Commission and delay service to the public. Therefore, in this particular circumstance, we will exercise our broad discretionary powers and limit application of the new policy as indicated above.

[14] As is the case with all current integration enhancement credits, the extent to which an applicant must be integrated before receiving upgraded broadcast experience credit will be determined by existing integration standards as enunciated in the *Comparative Policy Statement*, 1 FCC 2d at 395–396, and pertinent cases subsequent thereto.

FM station should be required. Based on our review of the record, Commission policy, case precedent and our continuing concern in the area of media diversity, we are persuaded that daytimers, who choose to take advantage of the upgraded comparative credit for daytime-only ownership/broadcast experience, should be required to divest themselves of the daytime-only station. Absent a divestiture requirement, daytimers would receive a double benefit and the public would be deprived of an opportunity to add another diverse voice to the community. We do not believe that such a result would best further the public interest.[15]

23. Given the above, a daytimer seeking additional comparative credit must pledge to divest itself of the daytime-only station within three years from the commencement date of program test authorization for the new FM station. This divestiture pledge must be made by the daytimer within 30 days after designation of its FM application for hearing.[16] If an applicant fails to make the required divestiture pledge, it will receive no special credit [17] for broadcast experience obtained while owning a daytime-only station.[18]

B. Application Process

24. In the *Notice of Proposed Rule Making*, we proposed to "phase-in" new FM stations by "staggering" the effective dates of the new channel allotments. Therein, we stated "[t]he order of availability could be based on any of several factors including: (1) Geographic region, by states; (2) alphabetical, by communities; (3) largest communities, by population; (4) channel number (221–300)."

25. Comments received in response to the "staggered" approach were varied. A majority expressed a preference for any of number of random procedures for accepting applications. Fewer than half recommended that we employ a system of priorities based on the community's need for new or additional service.

26. In determining a reasonable process by which applications will be accepted for the new channels, we considered two overriding factors. First, the procedure ultimately must provide an equitable and orderly method for the filing of applications by interested parties. Second, the procedure must provide an orderly method for the processing of applications by the Commission staff. We are satisfied that a process of accepting applications by random selection of channel number will accomplish these ends. Such a scheme will ensure that all communities, states, and geographic regions of the country in which new channels have been allocated will receive fair and equal treatment. Such a procedure will also allow the Commission staff to manage the flow of applications as the new channels become available for filing.

27. In a separate action today, we are adopting new rules regarding filing procedures. *See Report and Order*, MM Docket 84–750. By this action, we will apply those rules to the allotments made in the *First Report and Order, supra* in this proceeding. The Commission will *randomly* assign to each of the 80 commercial FM channels (221–300) a corresponding number (1–80) representing the order in which applications for each channel will be accepted for filing. These channels will not become effective and applications for them will not be accepted prior to the applicable pre-announced "window" period for each channel. In the near future, the Commission will issue a public notice announcing the date on which we will conduct a random selection to determine the order in which applications for each channel will be accepted for filing. Subsequently, we will issue a public notice identifying the specific order in which we will accept such applications.

28. We may, during the course of implementing the allotments made available in the *First Report and Order*, Docket 84–231, further amend § 73.202(b) of the Commission's Rules, the FM Table of Allotments, to add additional channels through appropriate rule making proceedings. Such new allotments will become available for application as they are made, also utilizing the "window" procedure.

29. Mutually exclusive applications will be designated for a comparative hearing. If, at a later date, we decide to revise the nature of the hearing due to changed circumstances, appropriate notice will accompany announcements of filing "windows" indicating to applicants when they file the nature of the selection process to which they will be subjected. However, when it is announced that applications for a particular community are to be received and processed through a comparative process we will not alter that procedure for that community in "mid-stream."

C. Multiple Applications

30. The law firm of Haley, Bader & Potts filed a request to clarify the terms under which applicants will be permitted to file multiple applications for new FM facilities. The law firm of Lukas, O'Brien & Raiser, Chartered, filed supporting comments. The issue arises from the provision of § 73.3555(d) of the Commission's Rules which generally restricts a party from holding a cognizable interest in more than twelve FM stations.[19]

31. Section 73.3518 of the Commission's Rules proscribes the filing of inconsistent or conflicting applications by, or on behalf of, or for the benefit of the same applicant. We have heretofore stated that "Section 73.3518 was promulgated because of concern that processing and hearing applications which cannot all be granted because of the limits of the multiple ownership rules may waste the Commission's resources, unfairly prejudice other applicants, and delay service to the public." *William H. Hernstadt*, 56 RR 2d 948, 949 (1984). We believe the policy underlying § 73.3518, as applied in *Storer Broadcasting Co.*, 43 FCC 1254 (1953), and *D.H. Overmyer Communications Co.*, 45 FCC 2272 (1965), is sound. That is, applicants should not be permitted to "flood the Commission's processing line and hearing docket with multiple

---

[15] We recognize the position of some of the commenting parties that divestiture appears to be inconsistent with our recent action which declined to proscribe AM/FM combinations. *Multiple Ownership of AM/FM Stations*, 51 RR 2d 449 (1982). Yet, in that proceeding, we clearly indicated that a non-licensee who filed a mutually-exclusive application for an FM station against an existing AM licensee would have an advantage under the diversification criterion of the standard comparative issue. *Id.* at 551. Our action herein requiring divestiture is thus fully consistent with our 1982 AM/FM decision.

[16] Any daytimer who makes such a pledge will not be assessed a diversification demerit for owning the daytime-only station.

[17] Failure to pledge divestiture will thus mean that the applicant's broadcast experience will be less in weight than the local residence or minority ownership comparative factors.

[18] If a daytimer fails to qualify for upgraded broadcast experience credit because it does not meet the criteria in paragraphs 20–23, above, it still can pledge to divest itself of the daytime-only station and avoid a diversification demerit for that station. In fact, Commission policy permitted such actions prior to initiation of this proceeding. However, in those situations, divestiture was required to be made prior to the grant of program test authority for the new station. Henceforth, *all* daytimers, who pledge, or have already pledged, to divest a daytime-only station, will have three years from the grant of program test authority to carry out such divestiture.

[19] *See Report and Order* in Gen. Docket No. 83–1009, FCC 84–350 (released August 3, 1984), *appeal docketed sub nom. Black Citizens for a Fair Media v. FCC*, No. 84–1503 (D.C. Cir. filed Oct. 9, 1984). In the *Memorandum Opinion and Order* in Gen. Docket No. 83–1009, FCC 84–638 (released February 1, 1985), the Commission on reconsideration determined that group owners could own up to a maximum of fourteen FM stations provided, however, that no more than twelve stations are controlled by persons which are not members of a minority group.

applications many of which could not be granted under our multiple ownership rules. Such multiple applications, if entitled to consideration, would delay the processing of applications which would otherwise be granted." *Storer Broadcasting Co. supra*, at 1256.

32. Accordingly, we shall regard §73.3555(d) as establishing the maximum number of applications acceptable for filing by an applicant. Any application tendered in excess of this limit shall be considered inconsistent with §73.3518 and returned as unacceptable for filing. In this regard, we note that stations in which the applicant currently holds a cognizable ownership interest would be taken into account in determining the maximum number of acceptable applications. Our decision in this regard "is essential from the point of view of the just administration of broadcast applications and fairness to all other applicants seeking the establishment of broadcast services. * * *" *Id.*

33. Finally, the Commission anticipates the possibility that a large number of applications may be filed in response to this omnibus rule making. Thus, in order to expedite the processing of applications, the Commission strongly encourages applicants who are required to file FAA Form 7460–1 [20] with the Federal Aviation Administration to do so at the earliest available time.

D. Acceptance of New FM Petitions

34. The Commission announced by Public Notice of December 9, 1983 that it would not accept petitions for new FM channel allotments during the pendency of this proceeding. With this *Second Report and Order* we shall open up the FM Table of Allotments for amendment. New petitions shall have no restriction as to a category of need or other such limitation as had been applied in this docket. As previously required, the petition must contain a technical study demonstrating compliance with the minimum spacing requirements.[21] *See* § 1.401 et seq. of the Commission's Rules for other filing requirements.

35. It is ordered, that the Secretary shall cause this *Report and Order* to be printed in the FCC Reports.

36. It is further ordered, that this action is effective May 20, 1985.

[20] Notice of Proposed Construction or Alteration.

[21] The technical study should be based on the rule amendments made in Docket 80–90 as to distance separations including a 16 kilometer buffer for Class C stations below minimum facilities which is in effect until March 1, 1987.

37. Authority for this action is contained in Sections 4(i), 303(g) and (r) of the Communications Act of 1934, as amended.

38. For further information call Robert E. Branson (Legal Branch) (202) 632–7792 on the matter of daytime stations or Gary Schonman (FM Branch) (202) 632–8755 on the filing of applications.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303).

Federal Communications Commission.

William J. Tricarico,

Secretary.

March 14, 1985.

Statement of Chairman Mark S. Fowler

RE: Implementation of Docket 80–90

Today we are taking a major step forward in providing more choice for the American public—making this country more "radio active", in the best sense of those words. When this proceeding began, there were some who felt that the FCC could not arrive at a sound way to engineer in these additional stations.

Once the process for adding stations to the table of allocations was made, we faced the difficult task of deciding what criteria to apply in the comparative process. The choices that confront policy makers in 1985 differ considerably from those before the agency in 1935 or even 1965. Today's decision is our best effort to accommodate the criteria that seem to us most important and relevant in the licensing of stations.

I believe that when all the comparative hearings are over, we will see a leap in the number of minority owned FM facilities. And we have allowed AM daytimers to compete and upgrade their positions in their markets—a sort of "Make My Daytimers" weighting process. Minorities and daytimers are both significant groups to consider in the licensing process, and I think we have sensibly blended these interests in developing the criteria for the comparative process.

But the real purpose of today's order is not to benefit any class of potential licensees or to discourage anyone from applying. The business at hand is the public's interest in program choice and diversity. And on that measure, Docket 80–90 gets a score of 100.

[FR Doc. 85–9521 Filed 4–18–85; 8:45 am]

BILLING CODE 6712–01–M

47 CFR Part 95

Amendment of the Technical Regulations for the Personal Radio Services To Clarify the Conditions Under Which Certain Emissions Are Permissible

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document clarifies the technical regulations for the Personal Radio Services by stating the limitations on certain emission types. This action is necessary to remove an ambiguity which exists in the present rule. The effect of this amendment is to make clear that tone signaling in the General Mobile Radio Service and the Citizen Band Radio Service may be used only to establish or continue voice communications.

EFFECTIVE DATE: May 1, 1985.

FOR FURTHER INFORMATION CONTACT: Maurice J. DePont, Private Radio Bureau, Washington, D.C. 20554, (202) 632–4964.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 95

Communications equipment, Radio.

Order

In the matter of Amendment of § 95.627 of the Personal Radio Services Rules.

Adopted: April 8, 1985
Released: April 11, 1985

1. Section 95.627 (a) and (c) of Subpart E, Technical Regulations, Personal Radio Services, specifies the emission types that General Mobile Radio Service and Citizen Band transmitters may employ. In order to make clear that those transmitters may only use tone signaling to establish or continue voice communications, it is desirable to specifically state that limitation in the technical regulations.

2. Because this amendment which clarifies our rules is non-substantive, the notice and comment provisions as well as the effective date requirements of the Administrative Procedure Act are inapplicable.

3. Authority for this action is contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and Section 0.231(d) of the Commission's Rules.

4. Accordingly, it is ordered, That § 95.627 of the Commission's Rules is amended as set forth in the Appendix.

5. The effective date of this rule amendment is May 1, 1985.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Edward J. Minkel,

Managing Director.

Appendix

PART 95—[AMENDED]

Part 95 of Chapter I of Title 47 of the Code of Federal Regulations is amended, as follows:

Section 95.627 (a) and (c) is revised to read, as follows:

§ 95.627 Emission types.

(a) A GMRS transmitter may employ only the following type emissions:

A1D, H1D, R1D, J1D,, G1D, F1D (See § 95.181 (g) and (h) of this chapter which limits selective calling tones and tone-operated squelch to establishing or continuing voice communications.) A3E, H3E, R3E, J3E, G3E, F3E

* * * * *

(c) A CB transmitter may employ only the following type emissions:

BILLING CODE 6712-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Final Rule To Determine Goetzea elegans (Beautiful Goetzea) as an Endangered Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The U.S. Fish and Wildlife Service determines a plant, *Goetzea elegans* (beautiful goetzea, matabuey, manzanilla) to be an endangered species. This plant is only found in the semi-evergreen seasonal forests that occur on limestone in northern Puerto Rico. Fewer than 50 plants are known to exist, some on land managed by the Government of the Commonwealth of Puerto Rico and the others on privately owned land. The continued existence of this species is endangered by possible road straightening and widening, periodic trimming of roadside vegetation, potential limestone mining, cattle management practices, and a proposed amusement park complex. This final rule will implement the protection provided by the Endangered Species Act of 1973, as amended, for *Goetzea elegans*.

DATE: The effective date of this rule is May 20, 1985.

ADDRESSES: The complete file for this rule is available for inspection, by appointment, during normal business hours at the U.S. Fish and Wildlife Service, Banco de Ponce Building, Dr. Basora and Méndez Vigo Streets, P.O. Box 3005—Marina Station, Mayagüez, Puerto Rico 00709, and at the Service's Regional Office, Richard B. Russell Federal Building, Room 1282, 75 Spring Street, SW., Atlanta, Georgia 30303.

FOR FURTHER INFORMATION CONTACT: Mr. Robert T. Pace at the above Mayagüez address (809/833-5760) or Mr. Richard P. Ingram at the above Atlanta Regional Office address (404/221-3583 or FTS 242-3583).

SUPPLEMENTARY INFORMATION:

Background

The genus *Goetzea*, usually referred to the family Solanaceae (which includes nightshade, white potato, and tomato), also has been segregated with four other small genera into a distinct family of its own, the Goetzeaceae (Willis, 1973). The only other representative of the genus, *G. ekmanii* from the island of Hispaniola, is thought to be no longer extant in the Dominican Republic (Vivaldi *et al.*, 1981).

Goetzea elegans was first collected in Puerto Rico in 1827 by Heinrich Wydler; it was found growing along a hedge composed mostly of a large bromeliad species. Wydler (1830) did not give the exact locality when he described the species and named the genus to honor the German theologian J.E. Goetze, but the type locality is believed to have been Quebradillas. Quebradillas was noted as the source of specimens collected by Bello in 1881, along a hedge composed, in part, of *Bromelia pinguin*. Three other historic populations are now considered extirpated. These included one in the northern foothills of the Luquillo Mountains, recovered by Eggers in 1883 and by Holdridge and Gerhart in 1936; one south of Canóvanas, recorded by Vélez and Marrero between 1939 and 1950; and one in the Cambalache State Forest, recorded by Woodbury in 1975 (Vivaldi *et al.*, 1981). Two of the three known sites now occupied by *Goetzea elegans* are separated by about ¼ mile (0.4 km), and occur along the edge of a semi-evergreen seasonal forest on limestone at elevations below 656 feet (200 m) in the Guajataca Gorge area in the Municipality of Isabela (Vivaldi *et al.*, 1981). A third, recently discovered site is located 3.5 miles (5.6 km) east of the other two in a ravine in the Municipality of Quebradillas. This site contains about 30 plants, including the only plant known to have produced flowers and fruit since 1936 (J.L. Vivaldi, pers. comm.)

Goetzea elegans is an evergreen shrub or small tree up to 30 feet (9 m) tall and with stems up to 5 inches (13 cm) thick. The leaves are simple, alternate, and range up to 4 inches (10 cm) long and up to 2 inches (5 cm) wide; the upper surface is dark shiny green, and the lower surface is pale green. *Goetzea elegans* has been observed with flowers and fruits in the months of May to August. Usually a single orange flower is borne on a curved stalk in the leaf axil, and there may be several terminal flowers. The flowers are symmetrical and funnel-shaped. The fruit is one-seeded, orange, subglobose, and about ¾ inches (2 cm) in diameter.

Goetzea elegans was recommended for Federal listing by the Smithsonian Institution (Ayensu and Defillips, 1978). In August 1979, the Service contracted with Dr. José L. Vivaldi, a resident botanist of Puerto Rico, to conduct a status survey of some plants thought to be candidates for listing as endangered or threatened in Puerto Rico and the Virgin Islands. Reports and documentation resulting from this survey indicated that *Goetzea elegans* should be proposed for listing as an endangered species. On December 15, 1980, the Service published a notice in the **Federal Register** (45 FR 82479) naming those plant taxa being considered for listing as endangered or threatened species; *Goetzea elegans* was included.

In a notice published in the **Federal Register** on February 15, 1983 (48 FR 6752), the Service reported the earlier acceptance of the new taxa in the Smithsonian's 1978 book as under petition within the context of section 4(b)(3)(A) of the Act, as amended in 1982. The Service subsequently found that listing *Goetzea elegans* was warranted but precluded by other pending listing actions, in accordance with section 4(b)(3)(B)(iii) of the Act; notification of the finding was published in the January 20, 1984, **Federal Register** (49 FR 2485). An additional petition finding required in accordance with section 4(b)(3)(B)(ii) of the Act was incorporated in the proposed rule for this species. The Service proposed to list *Goetzea elegans* as an endangered species in the June 18, 1984, **Federal Register** (49 FR 24903).

Summary of Comments and Recommendations

In the June 18, 1984, proposed rule (49 FR 24903) and associated notifications, all interested parties were requested to submit factual reports or information that might contribute to the development of a final rule. Appropriate Commonwealth of Puerto Rico agencies, municipal governments, Federal agencies, scientific organizations, and other interested parties were contacted and requested to comment. A newspaper notice was published in *The San Juan Star* on July 8, 1984. Two comments were received and are discussed below. No public hearing was requested, and therefore none was held.

Mr. Clifford Pelton of the Federal Highway Administration on July 12, 1984, requested more specific information about the location of the plants to help the agency determine if any future activities might occur in the species' present habitat. The Service responded on July 17, 1984, by providing details of the species' current range.

Dr. José Vivaldi, Director of the Terrestrial Ecology Section of the Puerto Rico Department of Natural Resources in a letter dated August 6, 1984, questioned the Service's decision not to designate critical habitat as "ill-advised." The Service still considers that it is not prudent to designate critical habitat, because publication of the exact location of the plants could lead to taking or vandalism. Dr. Vivaldi also provided updated information on the numbers and locations of additional plants discovered since his status survey of 1981, upon which the proposed rule was based. This final rule has incorporated this new information.

Summary of Factors Affecting the Species

After a thorough review and consideration of all information available, the Service has determined that *Goetzea elegans* should be classified as an endangered species. Procedures found at section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations promulgated to implement the listing provisions of the Act (codified at 50 CFR Part 424, October 1, 1984, 49 FR 38900) were followed. A species may be determined to be an endangered or a threatened species due to one or more of the five factors described in section 4(a)(1). These factors and their application to *Goetzea elegans* Wydler, beautiful goetzea or matabuey, are as follows:

A. *The present or threatened destruction, modification, or curtailment of its habitat or range.* Two of the three existing sites occupied by *Goetzea elegans* are located in the Guajataca Gorge area, Municipality of Isabela. One site managed by the Commonwealth Department of Transportation and Public Works and one privately owned site are periodically cleaned and cleared of vegetation near the roadside. This results in serious habitat disturbance, which has adversely affected *Goetzea elegans* and its associated plant communities (see also factor "E" below). The roadside site now supports only one or two adult plants and about three root suckers. The privately owned site now contains only 6 plants, although in 1955 it contained over 30 adult plants. The third site in Quebradillas is a privately owned remnant of undisturbed forest surrounded by lands cleared for pasture. Any additional clear cutting to expand grazing areas could eliminate these plants.

A possible threat to these sites is road construction. In recent years, many roads have been resurfaced or widened in Puerto Rico. Some of the roads in the Guajataca area are now being repaired, straightened, or widened, including Highway Number 2. Any future projects, unless done with consideration and care, could either destroy or substantially modify habitat upon which individuals of *Goetzea elegans* depend.

A newly proposed project that may threaten the species is a recreational complex to be located nearby. The complex reportedly would include the largest amusement park in the Caribbean, with an associated resort. This project and the secondary development that would accompany it could destroy or adversely modify the species' habitat.

B. *Overutilization for commercial, recreational, scientific, or educational purposes.* Taking has not been a documented factor in the decline of this species, but could easily become so in the future. The species occurs along a road near habitations and has potential as an ornamental plant. Professional cultivation from cuttings and tissue culture is being attempted.

C. *Disease or predation.* Grazing could become a threat in the future at two of the privately owned sites, since adjacent lands are already being used as cattle pasture.

D. *The inadequacy of existing regulatory mechanisms.* The Commonwealth of Puerto Rico does not have specific legislation or rules to protect endangered or threatened plant species, although a list of vulnerable species exists. Sand extraction is regulated by Law 144, June 3, 1976, "Extracción de materiales de la corteza terrestre." However, whether this prohibition affects taking of such vulnerable species has not been tested in Commonwealth courts' interpretation; there is no established precedent.

E. *Other natural or manmade factors affecting its continued existence.* Periodic trimming of *Goetzea elegans* along the roadside during routine vegetation management for road maintenance is the most serious immediate threat to the species. Sometimes the plants are cut back to the ground. This practice has resulted in stunted growth and is probably responsible for the lack of observed flowers and fruits in recent years, as well as the lack of seedlings.

Goetzea elegans is found in three small, compact, isolated groups probably composing one population. The total number of individual plants known is less than 50. At one of the two Guajataca Gorge sites, 30 plants were counted in 1955; they have now been reduced to only 6 plants. Loss of genetic variation in the species is therefore probable. It has a very narrow ecological niche and is restricted to ravines and ledges in semi-evergreen seasonal forests on limestone. These factors make *Goetzea elegans* even more vulnerable to the threats described above.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to make this rule final. Based on this evaluation, the preferred action is to list *Goetzea elegans* as an endangered species. With so few individuals known and the risk of damage to the plants and/or their habitat so high, endangered rather than threatened status seems an accurate assessment of the species' condition. It is not prudent to propose critical habitat because doing so would increase the risk for the species, as detailed below.

Critical Habitat

Section 4(a)(3) of the Endangered Species Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary designate critical habitat at the time a species is determined to be endangered or threatened. The Service finds that designation of critical habitat for *Goetzea elegans* is not prudent for this species at this time.

As discussed under threat factor "B" above, *Goetzea elegans* is potentially threatened by collecting, an activity regulated by the Endangered Species Act with respect to plants only on lands under Federal jurisdiction; such lands

are not involved in this proposal. Publication of critical habitat localities would increase the risk of taking or vandalism, particularly at the roadside sites. The extreme vulnerability of *Goetzea elegans* to any collecting would make it quite detrimental to the survival of the species. Thus, determination of critical habitat for *Goetzea elegans* would not be prudent at this time.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by other Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. Such actions are initiated by the Service following listing. The protection required by Federal agencies and the prohibitions against taking are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR Part 402 and are now under revision (see proposal at 48 FR 29990; June 29, 1983). Section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of a listed species or destroy or adversely modify its critical habitat. If a Federal action may affect a listed species, the responsible Federal agency must enter into formal consultation with the Service. The only potential Federal involvement known at this time is that of the Federal Highway Administration. In the event that highways are widened or resurfaced in this area, a strong commitment will be needed to protect *Goetzea elegans*. Without the protection provided by the Act, the species could be brought to extinction or its habitat substantially modified. Road designers and work crews would need to be alerted so that the plants are taken into consideration in any plans for the reconstruction of nearby roads. Such work should be done with utmost care and would require that the habitat of *Goetzea elegans* be left undamaged. It is not known whether there will be any Federal involvement in the amusement park complex proposed. Any Federal authorization, funding, or participation in this project would be subject to the provisions of section 7 discussed above.

The Act and its implementing regulations found at 50 CFR 17.61, 17.62, and 17.63 set forth a series of general trade prohibitions and exceptions that apply to all endangered plant species. With respect to *Goetzea elegans*, all trade prohibitions of section 9(a)(2) of the Act, implemented by 50 CFR 17.61, apply. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to import or export, transport in interstate or foreign commerce in the course of a commercial activity, or sell or offer for sale this species in interstate or foreign commerce. Certain exceptions can apply to agents of the Service and Commonwealth conservation agencies. The Act and 50 CFR 17.62 and 17.63 also provide for the issuance of permits to carry out otherwise prohibited activities involving endangered species under certain circumstances. International trade and interstate commercial trade in *Goetzea elegans* are not known to exist, and the plant is very rare in experimental cultivation. It is anticipated that few trade permits involving plants of wild origin will ever be requested.

Section 9(a)(2)(B) of the Act, as amended in 1982, prohibits the removal and reduction to possession of endangered plant species from areas from Federal jurisdiction. The new prohibition now applies to *Goetzea elegans*. Permits for exceptions to this prohibition are available through section 10(a) of the Act, until revised regulation are promulgated to incorporate the 1982 Amendments. Proposed regulations implementing this new prohibition were published on July 8, 1983 (48 FR 31417), and it is anticipated that these will be made final following public comment. *Goetzea elegans* is not known to occur on any Federal lands at this time, so requests for taking permits are not anticipated. Requests for copies of the regulations on plants and inquiries regarding them may be addressed to the Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (703/235–1903).

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined by the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

Regulation Promulgation

PART 17—[AMENDED]

Accordingly, Part 17, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations, is amended as set forth below:

1. The authority citation for Part 17 reads as follows:

Authority: Pub. L. 93–205, 87 Stat. 884; Pub. L. 94–359, 90 Stat. 911; Pub. L. 95–632, 92 Stat. 3751; Pub. L. 96–159, 93 Stat. 1225; Pub. L. 97–304, 96 Stat. 1411 (16 U.S.C. 1531 *et seq.*).

2. Amend § 17.12(h) by adding the following, in alphabetical order under Solanaceae, to the List of Endangered and Threatened Plants:

§ 17.12 Endangered and threatened plants.

. . . . . .

(h) . . .

Species		Historic range	Status	When listed	Critical habitat	Special rules
Scientific name	Common name					
• •	• •	•	•	•		•
Solanaceae—Nightshade family:						
Goetzea elegans	Beautiful goetzea, matabuey	U.S.A. (PR)	E	175	NA	NA
• •	• •	•	•	•		•

Dated: March 24, 1985.

J. Craig Potter,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310-55-M

Proposed Rules

Federal Register
Vol. 50, No. 76
Friday, April 19, 1985

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 52

United States Standards for Grades of Canned Carrots and Canned Beets

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: The purpose of this proposed rule is to revise the voluntary U.S. Standards for Grades of Canned Carrots and U.S. Standards for Grades of Canned Beets. The proposed rule was developed by the United States Department of Agriculture (USDA) at the request of major segments of the food processing industry. This proposed rule would lower the recommended minimum drained weights for all styles of canned carrots and canned beets packed in the No. 10 can size. Its effect would be to update the standards to reflect current manufacturing practices and promote orderly and efficient marketing of canned carrots and canned beets.

EFFECTIVE DATE: Comments must be received on or before May 20, 1985.

ADDRESS: Interested persons are invited to submit written comments concerning this proposal. Comments must be sent in duplicate to the Docket Clerk, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2069, South Building, Washington, D.C. 20250. Comments should reference the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the office of the Docket Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Floyd M. Haugen, Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone (202) 447–6247.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA procedures and Executive Order 12291 and has been designated as a "nonmajor" rule. It will not result in an annual effect on the economy of $100 million or more. There will be no major increase in cost or prices to consumers; individual industries; Federal, State, or local government agencies; or geographic regions. It will not result in significant effects on competition, employment, investments, productivity, innovations, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act, Pub. L. 96–354 (5 U.S.C. 601), because it reflects current marketing practices.

The National Food Processors Association (NFPA), a trade association representing approximately 600 member companies that process fruits, vegetables, meats, fish, and specialty products has requested the USDA to revise the U.S. Standards for Grades of Canned Carrots and U.S. Standards for Grades of Canned Beets. The revision would include a reduction of the recommended minimum drained weights for all styles of these products packed in the No. 10 container size by two ounces, except julienne style which would be lowered by four ounces. The No. 10 container is a large container (approximately 6 lbs. 10 oz.) designed primarily for the institutional market.

Based on data submitted by NFPA, virtually all members packing canned carrots and canned beets have experienced difficulties meeting the recommendations for drained weights from the present grade standards. Even under optimum operating conditions, a significant portion of the pack (as much as 50 percent by some packers) is not meeting the recommendations.

Packers have stated that overfilling containers to achieve the recommended minimum drained weights has not been successful, and has actually contributed to more serious problems. This includes a higher incidence of defective seams caused by excessive product being trapped between the container flange and lid at the time of closing. When product inside the improperly sealed container spoils and subsequently leaks, the contents can spill over adjacent containers. Additional containers are likely to become damaged as a result.

Overfilling containers increases damage to the product which may be crushed as the lid is forced down on the container. Crushing lowers the quality and grade of the product, and thus is counterproductive to the intent of the voluntary grading program. Filling containers with the amount of product the containers are designed to contain will help eliminate waste and result in less spoilage, thereby providing a more economical product.

List of Subjects in 7 CFR Part 52

Fruits, Vegetables, Food grades and standards.

PART 52—[AMENDED]

§ 52.675 [Amended]

(1) Accordingly, § 52.675 of subpart—United States Standards for Grades of Canned Carrots (7 CFR 52.675) would be amended as follows:

§ 52.675 Recommended minimum drained weight.

. . . . .

In Table No. I—Recommended Minimum Drained Weights, In Ounces, Of Carrots, the last line would be revised to read as follows:

No. 10 ....67 66 67 66 70 68 64

§ 52.525 [Amended]

(2) Accordingly, 52.525 of subpart—United States Standards for Grades of Canned Beets (7 CFR 52.525) would be amended as follows:

. . . . .

In Table No. I—Recommended Minimum Drained Weights, In Ounces, Of Beets, the last line would be revised to read as follows:

No. 10 ....67 66 67 66 70 68 64

(Agricultural Marketing Act of 1946, Sec. 203 205, 60 Stat. 1087, 1090, as amended (7 U.S.C. 1622, 1624))

Done at Washington, D.C. on April 16, 1985

William T. Manley,

Deputy Administrator, Marketing Programs

(FR Doc. 85-9472 Filed 4-18-85; 8:45 am)

BILLING CODE 3410-02-M

Federal Grain Inspection Service

7 CFR Part 800

Kinds of Official Services, Original Services, Official Reinspection Services and Review of Weighing Services, Appeal Inspection Services, and Official Certificates

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: In compliance with the requirements for periodic review, the Federal Grain Inspection Service (FGIS or Service) reviewed and proposes to revise the regulations under the United States Grain Standards Act (Act), as amended, concerning Kinds of Official Service, Original Services, Official Reinspection Services and Review of Weighing Services, Appeal Inspection Services, and Official Certificates to delete the requirements for prior-to-loading stowage examinations for intracompany domestic shipments; for showing certain information on application-for-service forms, for dismissing requests for service which appears elsewhere in the regulations; for not permitting the issuance of divided-lot certificates on shiplot grain commingled with grain of a different kind or quality; and for issuing certificates on shiplot grain when a portion is returned to the elevator or a portion is determined to be uniform on the basis of a reinspection or appeal inspection. The proposal would establish provisions for certain present scale testing services as official services listed in the regulations; for certificating reinspections, appeal inspections, and reviews of weighing services; and for obtaining reinspections and appeal inspections on carriers that have left the point of original inspection. In addition, miscellaneous proposed revisions would reorganize, condense, simplify certain language, and make corresponding changes to references in other sections. The proposed changes would clarify and simplify the regulations, conform certain provisions to present trading practices and facilitate the use of the regulations.

DATE: Comments must be submitted on or before June 18, 1985.

ADDRESS: Comments must be submitted in writing to Lewis Lebakken, Jr., Information Resources Management Branch (RM), FGIS, USDA, Room 0667 South Building, 1400 Independence Avenue, SW., Washington, D.C. 20250, telephone (202) 382–1738. All comments received will be made available for public inspection at the above address during regular business hours (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT: Lewis Lebakken, Jr. (address above), telephone (202) 382–1738.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This proposed rule has been issued in conformance with Executive Order 12291 and Department Regulation 1512–1. This action has been classified as nonmajor because it does not meet the criteria for a major regulation established in the Order.

Regulatory Flexibility Act Certification

Dr. Kenneth A. Gilles, Administrator, FGIS, has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because most users of the official inspection and weighing services and those entities that perform these services do not meet the requirements for small entities, and this action poses no new or additional duties or obligations to business entities.

Information Collection and Recordkeeping Requirements

In compliance with the Office of Management and Budget (OMB) regulations (5 CFR Part 1320) which implements the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and section 3504(h) of that Act, the previously approved information collection and recordkeeping requirements contained in the proposed rule have been submitted to OMB for review. Comments concerning these requirements should be directed to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for the Department of Agriculture, Room 3201 NEOB, Washington, D.C. 20503.

Regulatory Review

The review of the regulations concerning Kinds of Official Service (7 CFR 800.75–800.78), Original Services (7 CFR 800.115–800.119), Official Reinspection Services and Review of Weighing Services (7 CFR 800.125–800.131), Appeal Inspection Services (7 CFR 800.135–800.140), and Official Certificates (7 CFR 800.160–800.166) included a determination of continued need for and consequences of the regulations. The objective of the review was to ensure that the regulations are serving their intended purpose, the language is clear, and the regulations are consistent with FGIS policy and authority.

FGIS has determined that, in general, these regulations are serving their intended purpose, are consistent with FGIS policy and authority, and should remain in effect. FGIS, however, proposes to amend §§ 800.75–800.78, 800.115–800.119, 800.125–800.131, 800.135–800.140, and 800.160–800.166 by:

1. Clarifying, condensing, and deleting unnecessary language. These proposed changes are in addition to the proposed changes below. They are nonsubstantive changes which facilitate the use of the regulations. Some of the language that would be condensed or deleted appears generally in §§ 800.160–800.166 which relates to official certificates, their issuance and distribution, content requirements, their correction and the like. The substance of these sections would remain unchanged. For example, in § 800.161 certain official certificate requirements would be specified while others would be summarized. The specific color requirements would be deleted, but would continue to appear in the instructions as do all format requirements. Similarly, certain of the statements on official certificates, such as captions, which presently appear in the regulations, would be described, but not specified. The actual statements would appear in the instructions. Further in § 800.162(b), the required official factor information which appears on certificates of grade and which is specified for each kind of grain would be described as a certificate requirement only without stating the specified factors. The specified factors appear in each official grade standard and the present duplication would be eliminated. Since the provisions of the present § 800.131, Reporting results of review of weighing services, would be combined with § 800.130, Reporting results of official reinspection services, it is proposed that § 800.131 be deleted.

2. Reorganizing §§ 800.75–800.78, Kinds of Official Services, to combine and consolidate compatible sections. The proposed reorganization would combine the general text in § 800.75, the Kinds of official inspection services in § 800.75, the Kinds of weighing services in § 800.77 into a revised § 800.75 entitled Kinds of official services, and § 800.78, Prohibited services; restricted services, would be renumbered as § 800.76. Accordingly, §§ 800.77–800.78 would be deleted. The proposed revised § 800.75 contains the same regulatory requirements currently in §§ 800.75–800.77, except the mandatory prior-to-loading stowage examination requirements in the current § 800.76(f)(2)(ii) for intracompany shipments of outbound domestic grain

sampled during loading would be deleted. Stowage examinations are performed to inform the buyer that the grain was loaded into fit carriers. Since an intracompany shipment is a one party transaction, prior-to-loading stowage examinations may be unnecessary and should only be performed upon request. The proposal to delete the requirement for mandatory prior-to-loading stowage examinations on intracompany shipments in the current § 800.76(f)(2)(ii) would retain the mandatory requirements for prior-to-loading stowage examinations on export grain and intercompany shipments while allowing applicants to request prior-to-loading stowage examinations on intracompany shipments. Additionally, the proposed revised § 800.75 includes as § 800.75(k) Test weight reverification service, § 800.75(l) Railroad track scale testing services, and § 800.75(m) Hopper and truck scale testing services. The Service has tested or supervised the testing of all test weights and scales used for official purposes since 1976 under the authority of section 7B of the Act. This proposed action would merely incorporate presently available test weight and scale testing services offered by the Service into the list of services which appear in this section of the regulations.

3. Revising §§ 800.46(c)(1) and 800.48(a)(1) to make conforming changes to the reference cited in these sections. Currently, § 800.46(c)(1), Requirements for obtaining official services, and § 800.48(a)(1), Dismissal of requests for official services, reference §§ 800.115(b) and 800.78. If these proposed changes are adopted, the reference in § 800.46(c)(1) would be changed to § 800.115, and the reference in § 800.48(a)(1) to § 800.76.

4. Deleting the provision for requiring certain specified information on application forms for official services in § 800.116(b), § 800.126(b), and § 800.136(b). Also, by deleting the provisions for dismissal of requests for official services, official reinspection and review of weighing services, and appeal inspection services in §§ 800.117, 800.127, and 800.137. A final rule (49 FR 30911) was published on August 2, 1984, incorporating the regulatory requirements currently in these sections into §§ 800.46 and 800.48 as applicable. The proposed changes would delete §§ 800.117, 800.127 and 800.137 to avoid duplication of the language. Other sections would be renumbered accordingly.

5. Deleting the requirement in § 800.160(b) for issuing separate original inspection and weighing certificates before performing a reinspection, appeal inspection, or review of weighing service when the original services were shown together on a combination certificate. Currently, when original inspection or Class X weighing results are shown on a combination certificate and a reinspection, appeal inspection, or review of weighing service is requested, the combination certificate must be surrendered to official personnel and voided. Separate original inspection and Class X weighing certificates must then be prepared. These certificates contain the same information as the original combination certificate and supersede the combination certificate. After the requested service is performed, an appropriate certificate (reinspection, appeal inspection, or review of weighing) is issued. Under the proposed procedures, when a reinspection (or appeal inspection or review of weighing) is requested, the results of the service would be reported on a new combination certificate with the original results of the other service. The new combination certificate would supersede the original combination certificate and identify the types of services performed (e.g., reinspection and original Class X weighing). This proposal would permit the use of combination certificates when a reinspection, appeal, or review of weighing is requested and would streamline the certification process.

6. Adding provisions in §§ 800.126(b)(1) and 800.136(b) for obtaining reinspection and appeal inspection services upon written request by the applicant and interested parties on carriers that have left the specified service point. Currently, requests for reinspection and appeal inspection services must be filed before the carrier leaves the specified service point. On November 18, 1980, this requirement was first waived to provide more flexibility to both applicants and other interested parties. Since that time, the Administrator has granted such waivers on a case-by-case basis without impairing the objectives of the Act. The proposed revision reflects this policy.

7. Deleting the restrictions in § 800.163(c) that prohibit divided-lot certificates from being issued when shiplot grain is commingled in a stowage area with other grain of a different kind or quality. Currently, divided-lot certificates may be issued on the first lot loaded on a vessel upon request. If a second lot loaded on top of the first lot is not the same kind or quality, divided-lot certificates cannot be issued for the second lot. The proposed deletion of these restrictions for the second lot would make divided-lot certificates available to all applicants upon request. In addition, the proposal includes requiring a statement indicating that the grain was loaded on board with grain of another kind or quality would be shown on the divided-lot certificate. This statement informs all parties as to the kind, quality, and location of the lots.

8. Deleting the requirements in §§ 800.130(a), 800.140(a), and 800.160(a) for issuing official certificates on: (1) A portion of a shiplot that is returned to the elevator, or (2) a portion of a shiplot that was initially found to be nonuniform in quality and then found to be uniform based on the results of the reinspection or appeal inspection. Currently, when shiplot grain is offered for inspection as a single lot and a portion of the lot is returned, an official certificate is issued on the returned portion. In the past, these certificates were used for documenting inspections and for billing purposes. Presently, inspection results are documented on the ship loading log and improved methods are used for billing purposes. In the case of reinspections and appeal inspections, if the results of the reinspection or appeal inspection indicate that a nonuniform portion is uniform, these results replace the original results and are used in determining the final grade. Official certificates are being issued for the original and all subsequent inspections of the portion. These certificates are qualified to indicate they are invalid for trading purposes since the reinspection or appeal inspection results are averaged with the remaining original results to determine the final grade. With the elimination of this requirement, inspection results would continue to be reported on official work records, but official certificates would be issued only when requested by the applicant or deemed necessary by official personnel. This action would not have an adverse impact on the buyer but would reduce paperwork and provide regulatory relief and greater program flexibility for the Service, agencies, and the trade.

List of Subjects in 7 CFR Part 800

Administrative practice and procedure, Export, Grain.

PART 800—GENERAL REGULATIONS

Accordingly, it is proposed that 7 CFR Part 800 be amended as follows:

1. Section 800.46 be amended by revising paragraph (c)(1) as follows:

§ 800.46 Requirements for obtaining official services.

* * * * *

(c) *Special requirements for official Class X and Class Y weighing services.*—(1) *General.* Weighing services shall be provided only at weighing facilities which have met the conditions, duties, and responsibilities specified in section 8A(f) of the Act and this section of the regulations. Weighing services will be available only in accordance with the requirements of § 800.115. Facilities desiring weighing services should contact the Service in advance to allow the Service time to determine if the facility complies with the provisions of the Act and regulations.

* * * * *

2. Section 800.48 be amended by revising paragraph (a)(1) as follows:

§ 800.48 Dismissal of request for official services.

(a) *Conditions for dismissal.*—(1) *General.* An agency or the Service shall dismiss requests for official services when (i) § 800.76 prohibits the requested service; (ii) performing the requested service is not practicable; (iii) the agency or the Service lacks authority under the Act or regulations; or (iv) sufficient information is not available to make an accurate determination.

* * * * *

3. Section 800.75 be revised as follows:

Kinds of Official Services

§ 800.75 Kinds of official inspection and weighing services.

(a) *General.* Paragraphs (b) through (m) of this section describe the kinds of official service available. Each kind of service has several levels. Sections 800.115, 800.116, 800.117, and 800.118 explain Original Services, §§ 800.125, 800.126, 800.127, 800.128, and 800.129 explain Reinspection Services and Review of Weighing Services, and §§ 800.135, 800.136, 800.137, 800.138, and 800.139 explain Appeal Inspection Services. The results of each official service will be certificated according to § 800.160.

(b) *Official sample-lot inspection service.* This service consists of official personnel: (1) Sampling an identified lot of grain; and (2) analyzing the grain sample for grade, official factors, or official criteria, or any combination thereof, according to the regulations, Official U.S. Standards for Grain, instructions, and the request for inspection.

(c) *Warehouseman's sample-lot inspection service.* This service consists of a licensed warehouseman sampler: (1) Sampling an identified lot of grain using an approved diverter-type mechanical sampler and (2) sending the sample of Official personnel; and official personnel analyzing the grain sample for grade, official factors, official criteria, or any combination thereof, according to the regulations, Official U.S. Standards for Grain, instructions, and the request for inspection.

(d) *Submitted sample inspection service.* This service consists of an applicant or an applicant's agent submitting a grain sample to official personnel, and official personnel analyzing the grain sample for grade, official factors, official criteria, or any combination thereof, according to the regulations, Official U.S. Standards for Grain, instructions, and the requests for inspection.

(e) *Official sampling service.* This service consists of official personnel: (1) Sampling an identified lot of grain and (2) forwarding a representative portion(s) of the sample along with a copy of the certificate, as requested by the applicant.

(f) *Official stowage examination service.* (1) This service consists of official personnel visually determining if an identified carrier or container is clearn; dry; free of infestation, rodents, toxic substances, and foreign odor; and is suitable to store or carry grain.

(2) A stowage examination may be obtained as a separate service or with one or more other services. Approval of the stowage space is required for official sample-lot inspection services on all export lots of grain. Except as provided in subparagraph (3) of this section, approval of the stowage space is required for official sample-lot inspection services on outbound domestic lots of grain which will be sampled and inspected at the time of loading.

(3) Approval of the stowage space prior to loading is not required for official sample-lot inspection services or weighing services of intracompany shipments of outbound domestic lots of grain unless requested by the applicant. A statement shall be shown on the inspection and/or weighing certificate when stowage examinations are not requested or performed.

(g) *Class X weighing service.* This service consists of official personnel: (1) Completely supervising the loading or unloading of an identified lot of grain and (2) physically weighing or completely supervising approved weighers weighing the grain.

(h) *Class Y weighing service.* This service consists of: (1) Approved weighers physically weighing the grain; and (2) official personnel partially or completely supervising the loading or unloading of an identified lot of grain.

(i) *Checkweighing service (sacked grain).* This service consists of official personnel or approved weighers under the supervision of official personnel (1) physically weighing a selected number of sacks from a grain lot; and (2) determining the estimated total gross, tare, and net weights, or the estimated average gross or net weight per filled sack according to the regulations, instructions, and request by the applicant.

(j) *Checkloading service.* This service consists of official personnel: (1) Performing a stowage examination; (2) computing the number of filled grain containers loaded aboard a carrier; and (3) if practicable, sealing the carrier for security.

(k) *Test weight reverification service.* This service consists of official personnel: (1) Comparing weight of elevator test weights with known weights; (2) correcting the elevator test weights, when necessary; and (3) issuing a Report of Test.

(l) *Railroad track scale testing service.* This service consists of official personnel: (1) Testing railroad track scales with Service-controlled test cars and (2) issuing a Report of Test.

(m) *Hopper and truck scale testing service.* This service consists of official personnel: (1) Testing hopper and truck scales and (2) issuing a Report of Test.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580-0011)

4. Section 800.76 be revised as follows:

§ 800.76 Prohibited services; restricted services.

(a) *Prohibited services.* No agency shall perform any function or provide any service on the basis of unofficial standards, procedures, factors, or criteria if the agency is designated or authorized to perform the service or provide the service on an official basis under the Act.

(b) *Restricted services.*—(1) *Not standardized grain.* When an inspection or weighing service is requested on a sample or a lot of grain which does not meet the requirements for grain as set forth in the Official U.S. Standards for Grain, a certificate showing the words "Not Standardized Grain" shall be issued according to the instructions.

(2) *Grain screening.* The inspection or weighing of grain screenings may be obtained from an agency or field office according to the instructions.

§ 800.77 and 800.78 [Removed]

5. Sections 800.77 and 800.78 be removed.

6. Section 800.115 be revised as follows:

§ 800.115 Who may request original services.

(a) *General.* Any interested person may request original inpsection and weighing services. The kinds of inspection and weighing services are described in § 800.75.

(b) *Class Y weighing services.* A request for Class Y weighing services at an export elevator at an export port location must cover all lots shipped or received in a specific type of carrier. At all other elevators, the request must cover all lots shipped from or to a specific location in a specific type of carrier. Each request must be for a contract period of at least 3 months, but a facility may exempt specific unit trains from the request upon satisfactory notification.

(c) *Contract services.* Any interested person may enter into a contract with an agency or the Service whereby the agency or Service will provide original services for a specified period and the applicant will pay a specified fees.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0012)

7. Section 800.116 be revised as follows:

§ 800.116 How to request original services.

(a) *General.* Requests must be filed with the agency or field office responsible for the areas in which the original service is to be performed. All requests must include the information specified in § 800.46. Verbal requests must be confirmed in writing when requested by official personnel, as specified in § 800.46. Copies of request froms may be obtained from the agency or field office upon request. If at the time the request is filed, the information specified by § 800.46 is not available official personnel may at their discretion, withhold service pending receipt of the required information. An official certificate shall not be issued unless (1) the information as required by § 800.46 has been submitted, or (2) official personnel determine that sufficient information has been made available so as to perform the request. A record that sufficient information was made available must be included in the record of the official service.

(b) *Request requirements.* Requests for original services, other than submitted sample inspections, must be made with the agency or field office responsible for the area in which the service will be provided. Requests for submitted sample inspections may be made with any agency, or any field office that provides original inspection service. Requests for inspection or Class X weighing of grain during loading, unloading, or handling must be received in advance of loading so official personnel can be present. All requests will be considered filed with the request is received by official personnel. A record must be maintained for all requests. All requests for service that is to be performed outside normal business hours must be received by 2 p.m. the preceding day.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0012)

§ 800.117 [Removed]

§ 800.118 [Redesignated as § 800.117]

8. Section 800.117 be removed. Section 800.118 be redesignated as § 800.117 and revised as follows:

§ 800.117 Who shall perform.

Original services shall be performed by the agency or field office assigned the area in which the service will be provided.

§ 800.119 [Redesignated as §800.118]

9. Section 800.119 be redesignated as § 800.118 and revised as follows:

§ 800.118 Certification.

Official certificates shall be issued according to § 800.160. Upon request, a combination inspection and Class X weighing certificate may be issued when both services are performed in a reasonably continuous operation at the same location by the same agency or field office.

10. Section 800.125 be revised as follows:

§ 800.125 Who may request reinspection services or review of weighing services.

(a) *General.* Any interested person may request a reinspection or review of weighing service. Only one reinspection or review of weighing service may be performed on any original service. When more than one interested person requests a reinspection or review of weighing service, the first person to file is the applicant of record.

(b) *Kind and scope of request.* The kind and scope of a reinspection or review of weighing service will be limited to the kind and scope of the original service. If the request specifies a different kind or scope, the request will be dismissed. The request may be resubmitted as a request for original services. Official criteria are considered separately from official grade or official factors when determining the kind and scope.

When requested, a reinspection for official grade or official factors, and official criteria may be handled separately even though both sets of results are reported on the same certificate. Moreover, a reinspection or review of weighing may be requested on either the inspection or Class X weighing results when both results are reported on a combination inspection and Class X weight certificate. Reinspections for grade must include a review of all official factors that: (1) May determine the grade; or (2) are reported on the original certificate; and (3) are required to be shown.

11. Section 800.126 be revised as follows:

§ 800.126 How to request reinspection or review of weighing services.

(a) *General.* Requests must be made with the agency or field office that performed the original service. All requests must include the information specified in § 800.46. Verbal requests must be confirmed in writing when requested by official personnel. Copies of request forms may be obtained from the agency or field office. If at the time the request is filed the documentation required by § 800.46 is not available. official personnel may, at their discretion, withhold services pending the receipt of the required documentation. A reinspection certificate or the results of a review of weighing service will not be issued unless: (1) The documentation requested under § 800.46 has been submitted; or (2) official personnel determine sufficient information has been made available so as to perform the request. A record that sufficient information was made available must be included in the record of the official service.

(b) *Request requirements.* Requests will be considered filed on the date they are received by official personnel. A record must be maintained for all requests.

(1) *Reinspection services.* Requests must be received (i) before the grain has left the specified service point where the grain was located when the original inspection was performed; (ii) no later than the close of business on the second business day following the date of the original inspection; and (iii) before the identity of the grain has been lost. If a representative file sample, as prescribed in § 800.82, is available, official personnel may, under the conditions prescribed in this paragraph, waive the requirements of paragraphs (b)(1) (ii) and (iii) of this section. The requirements of paragraph (b)(1)(i) of this section may be waived only upon

written consent of the applicant and all interested persons. The requirements of paragraphs (b)(1)(ii) and (iii) of this section may be waived at the request of the applicant or other interested persons. The requirement of paragraph (b)(1) (ii) of this section may also be waived upon satisfactory showing by an interested person of evidence of fraud or that because of distance or other good cause, the time allowed for filing was not sufficient. A record of each waiver must be included in the record of the reinspection service.

(2) *Review of weighing services.* Requests must be received no later than 90 calendar days after the date of the original Class X or Class Y weighing service.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0012)

§ 800.127 [Removed]

§ 800.128 [Redesignated as § 800.127]

12. Section 800.127 be removed. Section 800.128 be redesignated as § 800.127 and revised as follows:

§ 800.127 Who shall perform reinspection or review of weighing services.

Reinspection or review of weighing services shall be performed by the agency or field office that performed the original service.

§ 800.129 [Redesignated as § 800.128]

13. Section 800.129 be redesignated as § 800.128 and revised as follows:

§ 800.128 Conflicts of interest.

Official personnel cannot perform or participate in performing or issue an official certificates for a reinspection or a review of weighing service if they participated in the original service unless there is only one qualified person available at the time and place of the reinspection or review of weighing.

§ 800.130 [Redesignated as § 800.129]

14. Section 800.130 be redesignated as § 800.129 and revised as follows:

§ 800.129 Certificating reinspection and review of weighing results.

(a) *General.* Except as provided in subparagraph (1) of this paragraph, official certificates shall be issued according to § 800.160 and the instructions. Except as provided in (b)(2), only the results of the reinspection service shall be reported.

(1) *Results of sublots.* When results of a reinspection on a sublot involved in a material portion are within the tolerances of a specified inspection plan, they shall replace the original inspection results. Certificates for the original inspection and reinspection services shall not be issued unless requested by the applicant or deemed necessary by official personnel. The results, however, must be recorded on the inspection log and used to determine the weighted/mathematical average of the lot.

(2) *Reporting review of weighing results.* When the review of weighing service results indicate that the original weighing results were correct, the applicant will be notified in writing. When the original weighing service results are incorrect, a corrected weight certificate or, if applicable, a corrected combination inspection and Class X weight certificate will be issued according to the provisions of § 800.165.

(b) *Required statements on reinspection certificates.* Each reinspection certificate shall show the statements required by this section, § 800.161, and applicable instructions.

(1) Each reinspection certificate must clearly show (i) the term "Reinspection;" and (ii) a statement identifying the superseded certificate. The superseded certificate will be considered null and void as of the date of the reinspection certificate.

(2) When official grade or official factors, Class X weighing results, and official criteria are reported on the same certificate, the reinspection certificate must show a statement indicating that the reinspection results are based on official grade, or official factors, or official criteria and that all other results are those of the original service.

(3) If the superseded certificate is in the custody of the agency or field office, the superseded certificate shall be marked "Void." If the superseded certificate is not in the custody of the agency or field office at the time the reinspection certificate is issued, a statement indicating that the superseded certificate has not been surrendered must be shown on the reinspection certificate.

(4) As of the date of issuance of the official certificate, the superseded certificate for the original service will be void and shall not be used to represent the grain.

(5) When certificates are issued under (a)(1), the reinspection certificate must show a statement indicating that the results replaced the original results and that the certificate is not valid for trading purposes.

§ 800.131 [Removed]

15. Section 800.131 be removed:

16. Section 800.135 be revised as follows:

§ 800.135 Who may request appeal inspection services.

(a) *General.* Any interested person may request appeal inspection or Board appeal inspection services. When more than one interested person requests an appeal inspection or Board appeal inspection service, the first person to file is the applicant of record. Only one appeal inspection may be obtained from any original inspection or reinspection service. Only one Board appeal inspection may be obtained from an appeal inspection. Board appeal inspections will be performed on the basis of the official file sample. Board appeal inspections are not available on stowage examination services.

(b) *Kind and scope of request.* The kind and scope of an appeal inspection service will be limited to the kind and scope of the original inspection, or reinspection, or, in the case of a Board appeal inspection service, the appeal inspection service. If the request specifies a different kind or scope, the request shall be dismissed. It may, however, be resubmitted as a request for original services. Official criteria is considered separately from official grade or official factors when determining kind and scope. When requested, an appeal inspection for grade, or official factors, and official criteria may be handled separately even though both results are reported on the same certificate. Moreover, an appeal inspection may be requested on the inspection results when both inspection and Class X weighing results are reported on a combination inspection and Class X weight certificate. An appeal inspection for grade must include a review of all official factors that: (1) May determine the grade; or (2) are reported on the original, reinspection, or in the case of a Board appeal inspection, the appeal inspection certificate; and (3) are required to be shown on a certificate of grade.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0012)

17. Section 800.136 be revised as follows:

§ 800.136 How to request appeal inspection services.

(a) *General.* Requests must be filed with the field office responsible for the area in which the original service was performed. Requests for Board appeal inspections may be filed with the Board of Appeals and Review or the field office that performed the appeal inspection. All requests must include the information specified in § 800.46. Verbal

requests must be confirmed in writing when requested by official personnel as specified in § 800.46. Copies of request forms may be obtained from the field office upon request. If at the time the request is filed the documentation required by § 800.46 is not available, official personnel may, at their discretion, withhold service pending the receipt of the required documentation. An appeal inspection certificate will not be issued unless: (1) Documentation requested under § 800.46 has been submitted, or (2) official personnel determine that sufficient information has been made available so as to perform the request. A record that sufficient information has been made available must be included in the record of the official service.

(b) *Filing requirements.* Requests will be considered filed on the date they are received by official personnel. A record must be maintained for all requests. Requests must be filed: (1) Before the grain has left the specified service point where the grain was located when the original inspection was performed; (2) no later than the close of business on the second business day following the date of the last inspection, and (3) before the identity of the grain has been lost. If a representative file sample as prescribed in § 800.82 is available, official personnel may, under the conditions prescribed in this paragraph, waive the requirements of paragraphs (b) (2) and (3) of this section. The requirements of paragraph (b)(1) of this section may be waived only upon written consent of the applicant and all interested persons. The requirements of paragraphs (b) (2) and (3) of this section may be waived at the request of the applicant or other interested persons. The requirement of paragraph (b)(2) of this section may also be waived upon satisfactory showing by an interested person of evidence of fraud or that because of distance or other good cause, the time allowed for filing was not sufficient. A record of each waiver must be included in the record of the appeal inspection service.

§ 800.137 [Removed]

§ 800.138 [Redesignated as § 800.137]

18. Section 800.137 be removed. Section 800.138 be redesignated as § 800.137 and revised as follows:

§ 800.137 Who shall perform appeal inspection services.

(a) *Appeal.* Appeal inspection services shall be performed by the field office responsible for the area in which the original inspection was performed.

(b) *Board appeal.* Board appeal inspection services shall be performed only by the Board of Appeals and Review. The field office that performed the appeal inspection service will act as a liaison between the Board of Appeals and Review and the applicant.

§ 800.139 [Redesignated as § 800.138]

19. Section 800.139 be redesignated as § 800.138 and revised as follows:

§ 800.138 Conflict of interest.

Official personnel cannot perform or participate in performing or issue an official certificate for an appeal inspection if they participated in the original inspection, reinspection, or, in the case of a Board appeal inspection, the appeal inspection service unless there is only one qualified person available at the time and place of the appeal inspection.

§ 800.140 [Redesignated as § 800.139]

20. Section 800.140 be redesignated as § 800.139 and revised as follows:

§ 800.139 Certificating Appeal inspections.

(a) *General.* Except as provided in paragraphs (b) of this section, official certificates shall be issued according to § 800.160 and the instructions. Except as provided in (c)(2), only the results of the appeal inspection service shall be reported on the appeal inspection certificate.

(b) *Results of sublots.* When the results of an appeal inspection on a sublot involved in a material portion are within the tolerance of a specified inspection plan, they will replace the original inspection, reinspection, or appeal inspection results. No certificate will be issued unless requested by the applicant or deemed necessary by inspection personnel. The results must be recorded on the inspection log and used to determine the weighted/mathematical average of the lot.

(c) *Required statements.* Each appeal certificate shall show the statements required by this section, § 800.161, and applicable instructions.

(1) Each appeal inspection certificate must clearly show (i) the term "Appeal" or "Board appeal;" and (ii) a statement identifying the superseded certificate. The superseded certificate will be considered null and void as of the date of the appeal inspection certificate.

(2) When official grade or official factors, Class X weighing results, and official criteria are reported on the same certificate, the appeal inspection certificate must show a statement indicating that appeal or Board appeal inspection results are based on official grade, official factors, or official criteria and that all other results are those of the original, reinspection, or, in the case of a Board appeal, the appeal inspection results.

(3) If the superseded certificate is in the custody of the Service, the superseded certificate shall be marked "Void." If the superseded certificate is not in the custody of the Service at the time the appeal certificate is issued, a statement indicating that the superseded certificate has not been surrendered must be shown on the appeal certificate.

(4) As of the date of issuance of the appeal or Board appeal certificate, the superseded certificate for the original, reinspection, or appeal inspection service will be void and shall not be used to represent the grain.

(5) When certificates are issued under (b), the appeal inspection certificate must show a statement indicating that the results replace the original inspection, reinspection, or, in the case or a Board appeal, the appeal inspection results and that the certificate is not valid for trading purposes.

(d) *Finality of Board appeal inspections.* A Board appeal inspection will be the final appeal inspection service.

21. Section 800.160 be revised as follows:

§ 800.160 Official certificates; issuance and distribution.

(a) *Required issuance.* An official certificate must be issued for each inspection service and each weighing service except as provided by §§ 800.130 and 800.140 and (b) of this section.

(b) *Distribution.*—(1) *General.*—(i) *Export.* The original and at least three copies of each certificate will be distributed to the applicant or applicant's order. One copy of each certificate must be retained by the agency, field office, or Board of Appeals and Review.

(ii) *Nonexport.* The original and at least one copy of each certificate will be distributed to the applicant or to the applicant's order. In the case of inbound trucklot grain, one copy shall be delivered by the applicant to the truck driver or the person who owned the grain at the time of delivery. One copy of each certificate must be retained by the agency, field office, or Board of Appeals and Review.

(iii) *Local movements of shiplot grain.* When shiplot grain is offered for inspection as a single lot and a portion of the lot is returned to the elevator, certificates representing the original inspection service shall not be issued unless (A) requested by the applicant; or

(B) deemed necessary by official personnel.

(2) *Reinspection and appeal inspection services.* In addition to the distribution requirements of paragraph (b), one copy of each reinspection or appeal inspection certificate shall be distributed to each interested person of record or the interested person's order and to the agency or field office that issued the superseded certificate.

(3) *Additional copies.* Additional copies of certificates will be furnished to the applicant or interested person upon request. Fees for extra copies may be assessed according to the fee schedules established by the agency or the Service.

(c) *Prompt issuance.* The results of the inspection or weighing service must be reported to the applicant on the date the inspection or weighing service is completed. Certificates must be issued as soon as possible, but no later that the close of business on the next business day.

(d) *Who may issue certificates.*—(1) *Authority.* Certificates for inspection or Class X weighing services may be issued only by official personnel who are specifically licensed or authorized to perform and certify the results reported on the certificate. Certificates for Class Y weighing services may be issued only by individuals who are licensed or authorized or are approved to perform and certify the results.

(22) *Exception.* The person in the best position to know whether the service was performed in an approved manner and that the determinations are accurate and true should issue the certificate. If the service is performed by one person, the certificate should be issued by that person. If the service is performed by two or more persons, the certificate should be issued by the person who made the majority of the determinations or the person who makes the final determination. Supervisory personnel may issue a certificate when the individual is licesned or authorized to perform the service being certificated.

(e) *Name requirement.* On export certificates, the type written name and signature of the individual issuing the certificate must appear on the original and all copies. On all other certificates, the name or signature of the individual issuing the certificate must appear on the original and all copies. Upon request by the applicant, the name and signature may be shown on all other certificates.

(f) *Authorization to affix names.*—(1) *Requirements.* The name or signature of official personnel may be affixed to official certificates which are prepared from work records signed or initialed by the person whose name will be shown. An agent affixing the name and signature must (i) be employed by the agency or Service; (ii) have been designated to affix names and signatures; and (iii) hold a power of attorney from the person whose name and signature will be affixed. The power of attorney must be on file with the agency or Service.

(2) *Initialing.* When a name or signature is affixed by an authorized agent, the initials of the agent shall appear directly below or following the signature of the person.

(g) *Advance information.* Upon request, the contents of an official certificate may be furnished in advance to the applicant and any other interested party, or to their order, and any additional expense shall be borne by the requesting party.

(h) *Certification after dismissal.* An official certificate cannot be issued for a service after the request has been withdrawn or dismissed.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

22. Section 800.161 be revised as follows:

§ 800.161 Official certificate requirements.

(a) *General.* Official certificates must show the information and statements required by § 800.161 through § 800.166 and the instructions. The Administrator must approve any other information and statements reported. Information must be reported in a uniform, accurate, and concise manner, be in English, be typewritten or handwritten in ink, and be clearly legible.

(b) *Required format.* Official certificates must be uniform in size, shape, color, and format and conform to requirements prescribed in the instructions. Upon request and for good cause, the Service may approve special design certificates. All information and statements must be shown on the front of the certificate, except that on domestic grain certificates: (1) Approved abbreviations for official factors and official criteria, with their meanings, may be shown on the back; and (2) the identification of carriers or containers in a combined-lot inspection may be shown on the back if ample space is not available on the front. When information is recorded on the back of the certificate, the statement "See reverse side" must be shown on the front.

(c) *Required information.* Each official certificate must show the following information in accordance with the instructions: (1) For a delegated State or the Federal Grain Inspection Service "United States Department of Agriculture—Federal Grain Inspection Service;" (2) for a designated agency the name of the agency, as applicable; (3) captions identifying the kind of service; (4) a preprinted serial number and lettered prefix; (5) "original" or "copy," as applicable; (6) "divided lot," "duplicate," or "corrected," as applicable; (7) the identification of the carrier or container; (8) the date the service was performed; (9) the date and method of sampling; (10) the kind of movement and the level of service performed; (11) the grade and kind or "Not Standardized Grain," as applicable; (12) the results of the service performed; (13) the location of the issuing office; (14) the location of the grain when the service was performed; (15) a space for remarks; (16) that a reinspection or appeal inspection service was based in whole or in part on file samples when file samples are used; (17) a statement reflecting the results of a stowage examination, when applicable; (18) seal records, when applicable; and (19) the name of the person issuing the certificate.

(d) *Required statements.* Each official certificate must include the following statements according to the instructions: (1) A statement that the certificate is issued under the authority of the United States Grain Standards Act; (2) a nonnegotiability statement; (3) a warning statement; and (4) a statement referencing the certificate number and date. Each official certificate for an official sample-lot inspection service must include a caption "U.S. Grain Standards Act" and a USDA–FGIS shield ghosted across the front. Each official certificate for a warehouseman's sample-lot inspection, a submitted sample inspection, or Class Y weighing service must include a statement that the certificate does not meet the requirements of Section 5 of the Act and for warehouseman's sample-lot inspections, the word "QUALIFIED:" for submitted sample inspections, the words "Not Officially Sampled;" and for Class Y weighing, the words "Class Y Weighing" screened across the front.

(e) *Permissive information and statements.*—(1) *Certificates.* Information and statements requested by the applicant but not required by the regulations or instructions may be shown on the certificate if the information or statements have been approved in the instructions or on a case-by-case basis by the Administrator.

(2) *Letterhead.* Information and statements requested by the applicant but not required by the regulations or

instructions may be shown on letterhead stationary of the Service or an agency when: (i) Ample space is not available for reporting the information or statements on the certificate, (ii) letterhead, and stationary is determined to be more suitable than the official certificate, and (iii) the certificate is referenced on the letterhead stationary and distributed according to § 800.160. Letterhead stationary of the Service must be used for all export grain. (The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

23. Section 800.162 be revised as follows:

§ 800.162 Certification of grade; special requirements.

(a) *General.* Each official certificate for grade shall show: (1) The grade and factor information required by the Official U.S. Standards for Grain; (2) the test weight of the grain; (3) the moisture content of the grain; (4) the results for each official factor for which a determination was made; (5) the result for each official factor that determined the grade when the grain is graded other than U.S. No. 1; (6) any other factor information considered necessary to describe the grain; and (7) any additional factor results requested by the applicant for official factors defined in the Official U.S. Standards for Grain.

(b) *Cargo shipments.* Each official certificate for grade representing a cargo shipment must show, in addition to the requirements of paragraph (a) of this section, the results of all official factors defined in the Official U.S. Standards for Grain for the type of grain being inspected.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

24. Section 800.163 be revised as follows:

§ 800.163 Divided-lot certificates.

(a) *General.* When shiplot grain is offered for inspection or Class X weighing as a single lot and is certificated as a single lot, the applicant may exchange the official certificate for two or more divided-lot certificates. This applies to orginal inspection, reinspection, appeal inspection, Board appeal inspection, and Class X weighing services.

(b) *Application.* Requests for divided-lot certificates must be made: (1) In writing; (2) by the applicant who filed the initial request; (3) to the office that issued the outstanding certificate; (4) within 5 business days of the outstanding certificate date; and (5) before the identity of the grain has been lost.

(c) *Quantity restrictions.* Divided-lot certificates cannot show an aggregate quantity different than the total quantity shown on the superseded certificate.

(d) *Surrender of certificate.* The certificate that will be superseded must: (1) Be in the custody of the agency or the Service; (2) be marked "Void;" and (3) show the identification of the divided-lot certificates.

(e) *Certification requirements.* The same information and statements, including permissive statements, that were shown on the superseded certificate must be shown on each divided-lot certificate. Divided-lot certificates must show: (1) A statement indicating the grain was inspected or weighed as an undivided lot: (2) the terms " Divided Lot-Original," and the copies must show "Divided Lot-Copies," (3) the same serial number with numbered suffix (For example, 1764–1, 1764–2, 1764–3, etc.); and (4) the quantity specified by the request.

(f) *Issuance and distribution.* Divided-lot certificates shall be issued no later than the close of business on the next business day after the request and be distributed according to § 800.160.

(g) *Limitations.* No divided-lot certificate can be issued: (1) For grain in any shipment other than shiplot grain inspected or weighed as a single lot; or (2) for an export certificate which has been superseded by another export certificate. After divided-lot certificates have been issued, further dividing or combining is prohibited except with the approval of the Service.

(h) *Use of superseded certificate prohibited.* As of the date of the divided-lot certificate, the superseded certificate will be void and shall not be used to represent the grain.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

25. Section 800.164 be revised as follows:

§ 800.164 Duplicate certificates.

Upon request, a duplicate certificate may be issued for a lost or destroyed official certificate.

(a) *Application.* Requests for duplicate certificates must be filed: (1) In writing; (2) by the applicant who requested the service covered by the lost or destroyed certificate; and (3) with the office that issued the initial certificate.

(b) *Certification requirements.* The same information and statements, including permissive statements, that were shown on the lost or destroyed certificate must be shown on the duplicate certificate. Duplicate certificates must show: (1) The terms "Duplicate-Original," and the copies must show "Duplicate-Copies;" and (2) a statement that the certificate was issued in lieu of a lost or destroyed certificate.

(c) *Issuance.* Duplicate certificates shall be issued as promptly as possible and distributed according to § 800.160.

(d) *Limitations.* Duplicate certificates will not be issued for certificates that have been superseded.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

26. Section 800.165 be revised as follows:

§ 800.165 Corrected certificates.

(a) *General.* The accuracy of the statements and information shown on official certificates must be verified by the individual whose name or signature is shown on the certificate, or by the authorized agent who affixed the name or signature. Errors found during this process must be corrected according to this section.

(b) *Who may correct.* Only official personnel or their authorized agents may make correction, erasures, additions, or other changes to official certificates.

(c) *Corrections prior to issuance.*—(1) *Export certificates.* No corrections, erasures, additions, or other changes can be made to an export certificate. If any error is found prior to issuance, a new certificate must be prepared and issued and the incorrect certificate marked "Void."

(2) *Other than export certificates.* No corrections, erasures, additions, or other changes can be made to other than export certificates which involve identification, grade, gross tare, or net weight. If errors are found, a new certificate must be prepared and issued and the incorrect certificate marked "Void." Otherwise, errors may be corrected provided that: (i) The corrections are neat and legible, (ii) each correction is initialed by the individual who corrects the certificate, and (iii) the corrections and initials are shown on the original and all copies.

(d) *Corrections after issuance.*—(1) *General.* If errors are found on a certificate at any time up to a maximum of 1 year after issuance, the errors shall be corrected by obtaining the incorrect certificate and replacing it with a corrected certificate. When the incorrect certificate cannot be obtained, a

corrected certificate can be issued superseding the incorrect one.

(2) *Certification requirements.* The same statements and information, including permissive statements, that were shown on the incorrect certificate, along with the correct statement or information, must be shown on the corrected certificate. According to this section and the instructions, corrected certificates must show: (i) The terms "Corrected-Original" and "Corrected-Copy;" (ii) a statement identifying the superseded certificate and the corrections; (iii) a statement indicating the superseded certificate was not surrendered when the incorrect certificate was not submitted; and (iv) a new serial number. In addition, the incorrect certificate shall be marked "Void" when submitted.

(e) *Limitations.* Corrected certificates cannot be issued for a certificate that has been superseded by another certificate or on the basis of a subsequent analysis for quality.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

(f) *Use of superseded certificate prohibited.* As of the date of issuance of the corrected certificate, the superseded certificate will be void and shall not be used to represent the grain.

27. Section 800.166 be revised as follows:

§ 800.166 Reproducing certificates.

Official certificates may be photo copies or similarly reproduced.

(The information collection requirements contained in this section were approved by the Office of Management and Budget under control number 0580–0011)

Authority: Pub. L. 94–582, 90 Stat., 2867, as amended (7 U.S.C. 71 *et. seq.*)

Federal Aviation Administration

14 CFR Ch. I

[Summary Notice No. PR–85–3]

Summary of Rulemaking Petition Received From Pilgrim Airlines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petition for rulemaking.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for rulemaking (14 CFR Part 11), this notice contains a summary of a petition by Pilgrim Airlines seeking relief from the restriction of commuter slots at high density traffic airports to aircraft having a maximum passenger seating capacity of less than 56 seats. The purpose of this notice is to improve the public's awareness of this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of the petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and be received on or before June 3, 1985.

ADDRESSES: Send comments on the petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–204), Petition Docket No. ———, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–204), Room 916, FAA Headquarters Building (FOB–10A), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426–3644.

Petitioner requests that the requirements of the High Density Traffic Airport Rule, 14 CFR Part 93, Subpart K, be amended to permit the limited operation of "commuter" slots at high density airports with aircraft having a certificated maximum passenger seating capacity of 56 or more. The High Density Traffic Airport Rule currently limits the number of air carrier, commuter, and other operations at O'Hare International Airport in Chicago, LaGuardia and Kennedy International Airport in New York, and Washington National Airport in Washington, D.C. The existing rule limits the use of commuter slots at these airports to aircraft with a seating capacity of less than 56; air carrier slots may only be operated with aircraft having a maximum seating of 56 or more. The reason for the requested amendment is the increasing acquisition and use by commuter operators of aircraft with a passenger seating capacity of more than 56. Petitioner and other commuter operators interested in using larger aircraft have had difficulty in obtaining the necessary air carrier slots from the airline scheduling committee at each high density airport Accordingly, the petitioner requests that commuter operators be allowed to conduct some operations with larger aircraft using commuter slots. The petitioner does not request that the distinction between air carrier slots and commuter slots be eliminated.

Petitioner specifically proposes the following:

(1) A commuter operator holding "commuter" slots at a high density airport would be able to operate up to fifty percent of its commuter slots with aircraft having a certificated passenger seating capacity of 56 seats or more.

(2) If a commuter operator obtains "air carrier" slots at a high density airport, it must reduce the number of its commuter slots being used for larger aircraft (56 seats or more) operation on a one-for-one basis. The slots affected would not be surrendered, but would be restricted to small aircraft operation. The petitioner does not suggest if or how commuter operators already holding s substantial number of air carrier slots would be accommodated.

(3) The recordkeeping necessary for the administration of the requested rule would be accomplished by the air carrier and commuter scheduling committees rather than the Federal Aviation Administration.

This notice is published pursuant to paragraphs (b) aand (f) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C. on April 15, 1985.

Richard C. Boitel,

Acting Assistant Chief Counsel, Regulations and Enforcement Division.

[Airspace Docket No. 85–AMN–2]

Proposed Alteration of Glasgow, MT Control Zone and Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the control zone and transition area at Glasgow, Montana, to enlarge the control zone extensions and reduce the size of the 700' transition area. This action is necessary to ensure segregation of aircraft using approach procedures in instrument weather conditions and other aircraft operating in visual weather conditions.

DATES: Comments must be received on or before June 10, 1985.

ADDRESSES: Send comments on the proposal to: Manager, Airspace and Procedures Branch, ANM–530, Federal Aviation Administration—Docket No. 85–ANM–2, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

The official docket may be examined in the Regional Counsel's office at the above address.

An informal docket may also be examined during normal business hours at the same address.

FOR FURTHER INFORMATION CONTACT: Kathy Paul, Airspace Technical Specialist, ANM–535. The telephone number is (206) 431–2535.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 85–ANM–2." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination at the address listed above both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Airspace and Procedures Branch, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to enlarge the control zone extensions and reduce the size of the 700' transition area at Glasgow, Montana. The control zone extensions are required due to recent amendments to instrument approach procedures at Glasgow International Airport. The reduction of the 700' transition area is permitted due to cancellation of instrument approach procedures at Valley Industrial Park Airport. Sections 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations were republished in Handbook 7400.6 dated January 2, 1985.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Control zones, Transition areas, Aviation safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me the Federal Aviation Administration proposes to amend §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Glasgow, Montana Control Zone (Revised)

"Within a 5-mile radius of the Glasgow International Airport (lat. 48°12'48" N, long. 106°37'06" W); within 3 miles each side of the Glasgow VOR/DMME327° radial, extending from the 5-mile radius zone to 8.5 miles northwest of the VOR/DME; and within 3 miles each side of the Glasgow VOR/DME 127° radial, extending from the 5-mile radius zone to 8.5 miles southeast of the VOR/DME; and within 3 miles each side of the Milk River NDB 106° bearing, extending from the 5-mile radius Zone to 8.5 miles east of the NDB".

Glasgow, Montana, Transition Area (Revised)

"That airspace extending upward from 700 feet above the surface within an 11-mile radius of the Glasgow VOR/DME; and that airspace extending upward from 1,200 feet above the surface starting at lat. 48°40'00" N, long. 106°00'00" W; to lat. 48°32'00" N, long. 105°50'00" W; to lat. 48°03'00" N, long. 105°50'00" W; to lat. 48°03'00" N, long. 106°10'00" W; to lat. 47°53'00" N, long. 106°22'30" W; to lat. 48°15'00" N, long. 107°07'00" W; to lat. 48°40'00" N, long. 107°07'00" W; thence to point of beginning, excluding that area designated as the Wolf Point, Montana, 1,200 foot transition area".

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983)); and 14 CFR 11.65)

14 CFR Part 71

[Airspace Docket No. 85–ASW–13]

Proposed Alteration of Transition Area and Control Zone: Killeen, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the transition area and control zone at Killeen, TX. The intended effect of the proposed action is to provide additional controlled airspace for aircraft executing new standard instrument approach procedures (SIAPs) to the Killeen Municipal Airport, Hood Army Air Field, and Robert Gray Army Air Field. This action is necessary since there are three new SIAPs being developed using the Gray Vortac (GRK). In addition, a review of this airspace revealed the necessity to reconfigure the control zone and transition areas. This action will reduce the amount of controlled airspace northwest of Robert Gray and Hood Army Air Fields and result in additional controlled airspace as necessary to protect the existing and three newly proposed SIAPs.

DATES: Comments must be received on or before June 3, 1985.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Docket No. 85–ASW–13, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101.

The official docket may be examined in the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX.

The informal docket may also be examined during normal business hours at the Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX.

FOR FURTHER INFORMATION CONTACT:

David J. Souder, Airspace and Procedures Branch, ASW–534, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101; telephone (817) 877–2463.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 85–ASW–13." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Office of the Regional Counsel, 4400 Blue Mound Road, Fort Worth, TX, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, P.O. Box 1689, Fort Worth, TX 76101. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to reconfigure both the control zone and transition area at Killeen, TX. This will provide the necessary controlled airspace for the benefit of aircraft conducting instrument flight rules (IFR) activity at Killeen Municipal, Hood, and Robert Gray Airports. Sections 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations were republished in Handbook 7400.6A dated January 2, 1985.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Transition areas, Control zones.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Section 71.171

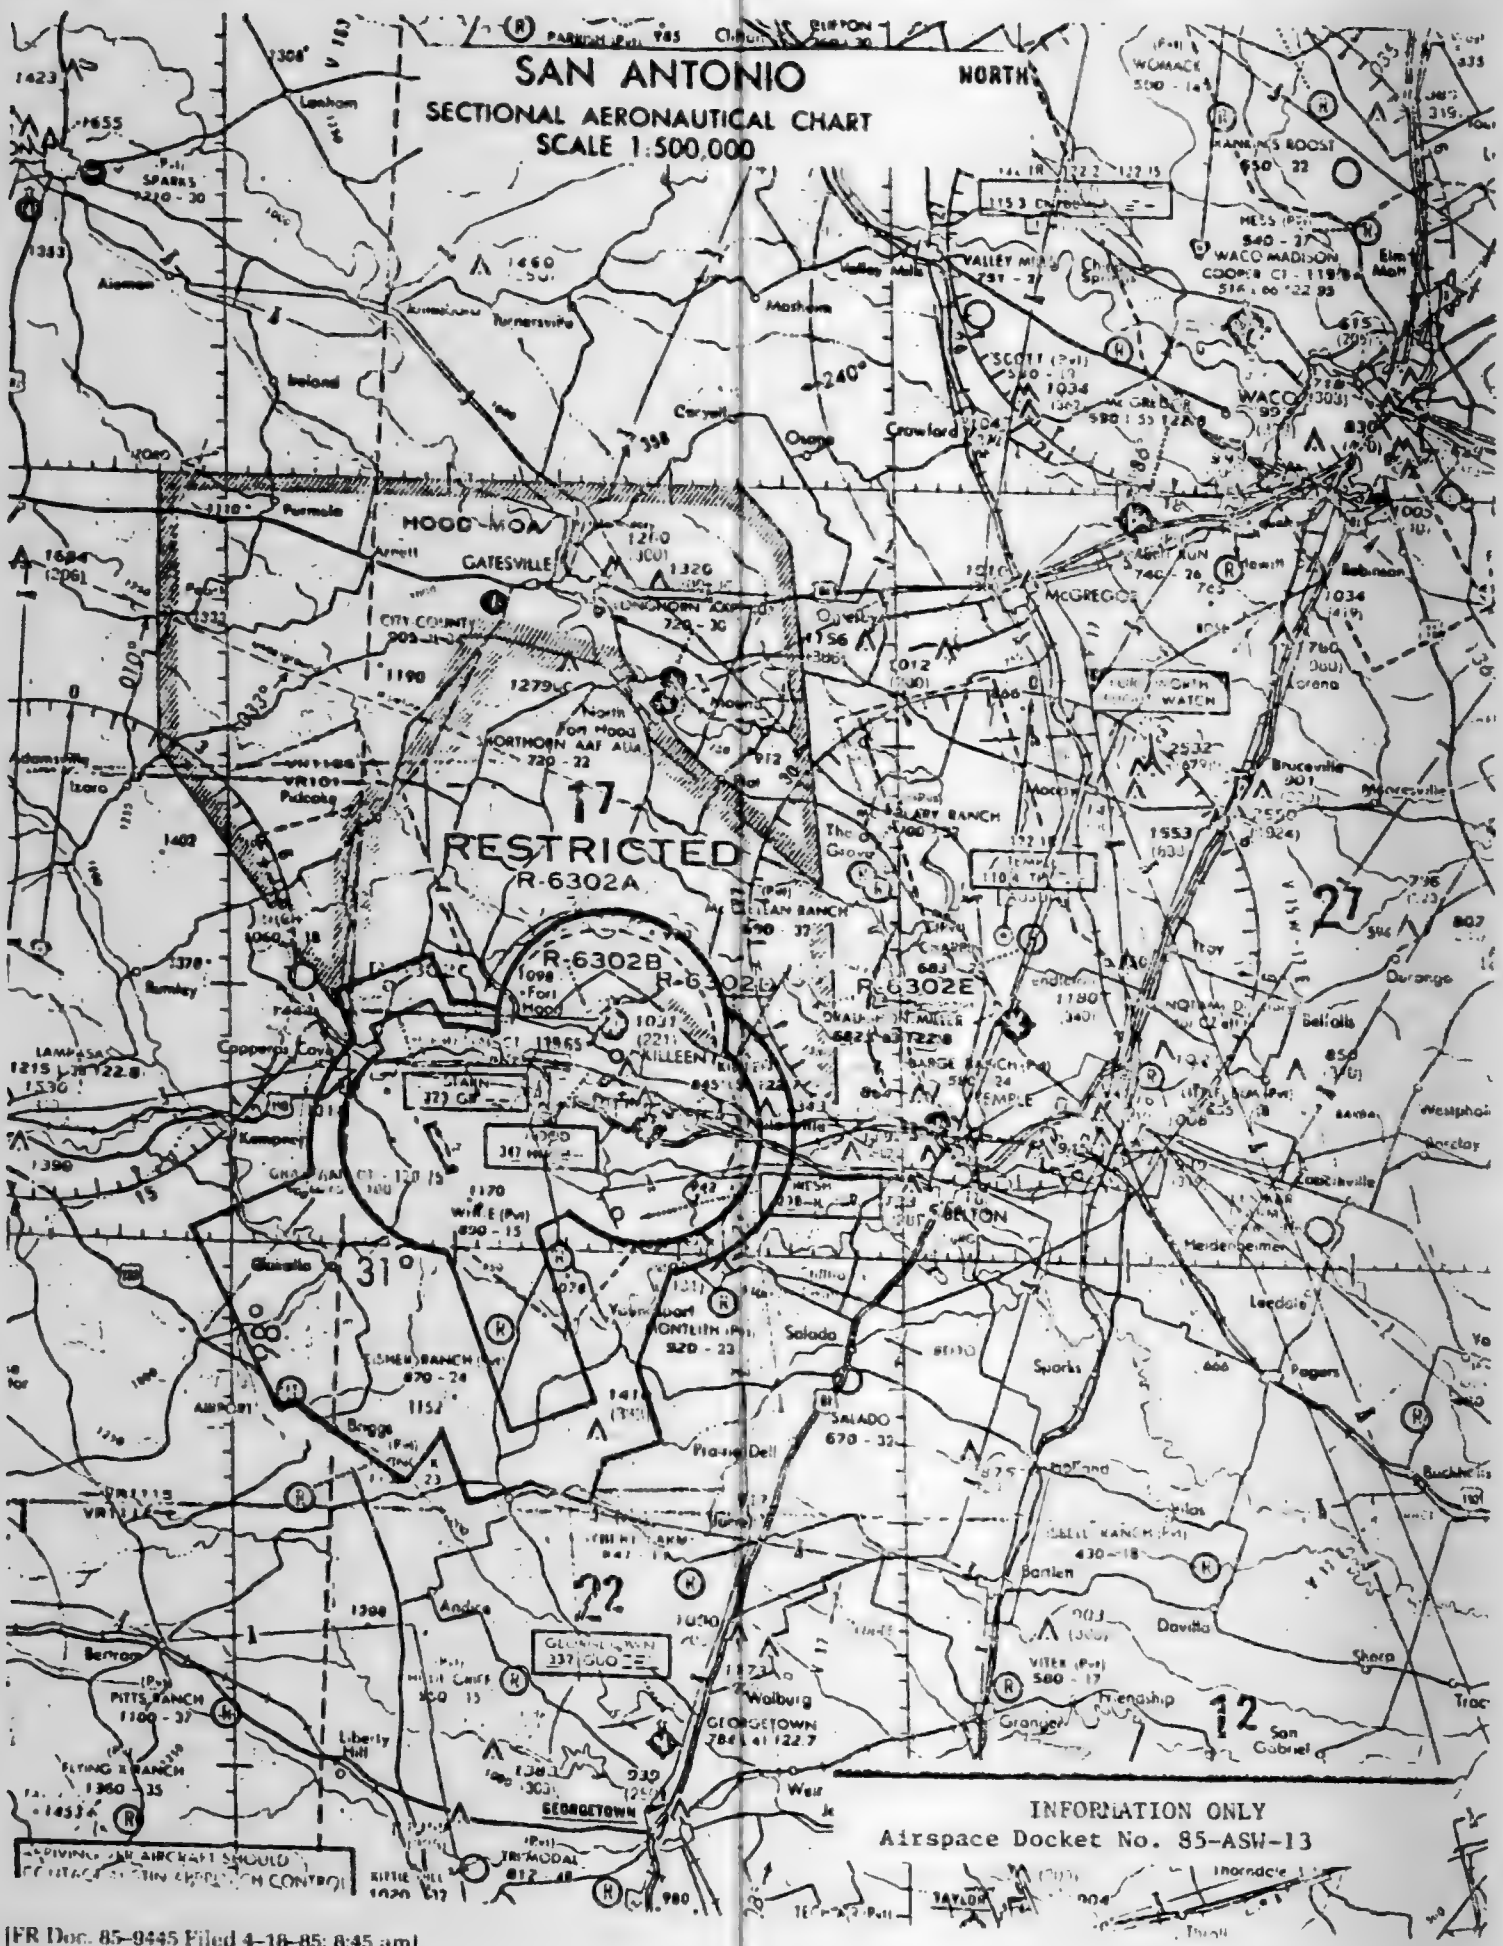
Killeen, TX Revised

Within a 5-mile radius of the Killeen Municipal Airport (latitude 31°05'09" N., longitude 97°41'10" W.), and within a 5-mile radius of the Hood Army Air Field (latitude 31°08'13" N., longitude 97°42'49" W.), and within a 5-mile radius of the Robert Gray Army Air Field (latitude 31°04'04" N., longitude 97°49'45" W.), and within 1.5 miles each side of the north localizer course extending from the 5-mile radius area to 7 miles north of the Robert Gray Army Air Field, and within 2 miles each side of the 160-degree bearing from the Robert Gray Army Air Field extending from the 5-mile radius area to 11 miles south of the airport.

Section 71.181

Killeen, TX Revised

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Hood Army Air Field (latitude 31°08'13" N., longitude 97°42'49" W.), and within 4.5 miles each side of the 217-degree bearing from the airport extending from the 5-mile radius area to 21 miles southwest of the airport, and within a 6.5-mile radius of the Killeen Municipal Airport (latitude 31°05'09" N., longitude 97°41'10" W.), and within 3 miles each side of the south localizer course extending from the 6.5-mile radius area to 15.5 miles south of the airport and within 4.5 miles each side of the 244-degree bearing from the airport extending from the 6.5-mile radius area to 20 miles southwest of the airport, and within a 6.5-mile radius of the Robert Gray Army Air Field (latitude 31°04'04" N., longitude 97°49'45" W.), and within 2.5 miles each side of the north localizer course extending from the 6.5-mile radius area to 7.5 miles north of the airport and within 4.5 miles each side of the 160-degree bearing from the airport extending from the 6.5-mile radius area to 14 miles south of the airport.



(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983)); and 14 CFR 11.65)

Issued in Fort Worth, TX, on April 5, 1985.

F.E. Whitfield,

Acting Director, Southwest Region.

[Airspace Docket No. 85-AAL-4]

Proposed Alteration of Colored Federal Airway R-39—AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to realign Colored Federal Airway R-39 over the recently commissioned Ice Pool, AK Nondirectional Radio Beacon (NDB) which enhances efficiency and air navigation aid coverage in the affected area. The affected airway is currently aligned with Julius, AK, NDB, which is being decommissioned.

DATES: Comments must be received on or before June 4, 1985.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA, Alaskan Region, Attention: Manager, Air Traffic Division, Docket No. 85-AAL-4, Federal Aviation Administration, 701 C Street, Box 14, Anchorage, AK 99513.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Burton Chandler, Airspace and Air Traffic Rules Branch (ATO-230), Airspace—Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 85-AAL-4." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The proposal

The FAA is considering an amendment to § 71.107 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to realign Federal Airway R-39. Due to the commissioning of the Ice Pool, AK, NDB (lat. 64°32'46" N., long. 149°04'28" W.), and the planned decommissioning of the Julius NDB, the FAA is proposing to route R-39 over the new Ice Pool NDB rather than the Julius NDB. This will reduce high maintenance costs associated with the Julius NDB, and have no negative effect on air navigation. Section 71.107 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6A dated January 2, 1985.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Airspace Docket No. 85-AAL-5]

Proposed Revocation of Control Zones at Aniak, Nenana, Umiat and Fort Yukon, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking

SUMMARY: This notice proposes to revoke control zones at Aniak, Nenana, Umiat and Fort Yukon, AK. This action is proposed to allow more efficient use of the airspace, and to reduce the constraints and impact on the public in the affected airspace. The circumstance which creates the need to revoke the control zones is that weather reports at these airports are provided only on an hourly basis without special observations taken and disseminated when significant changes in weather occur. This creates an undue restriction on the users when: (1) The last report indicates the weather is below basic visual flight rules (VFR) minimums, (2) the weather is actually above basis VFR minimums, and (3) the next weather report will not be available until on the hour. This proposal will provide

airspace for VFR aircraft to depart and arrive at the above airports with 1 mile flight visibility and clear of clouds below 700 feet above the surface.

DATES: Comments must be received on or before May 31, 1985.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Alaskan Region, Attention: Manager, Air Traffic Division, Docket No. 85-AAL-5, Federal Aviation Administration, 701 C Street, Box 14, Anchorage, AK 99513-0087.

The official docket may be examined in the FAA Rules Docket, Office of the Regional Counsel, Third Floor, Module F, Federal Building U.S. Courthouse, 701 C Street, Anchorage, AK.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division, Third Floor, Module B, Federal Building U.S. Courthouse, 701 C Street, Anchorage, AK.

FOR FURTHER INFORMATION CONTACT: Robert C. Durand, Procedures and Airspace Specialist, (AAL-536), Air Traffic Division, Federal Aviation Administration, 701 C Street, Box 14, Anchorage, AK 99513-0087, telephone (907) 271-5902.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particulary helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped post card on with the following statement is made: "Comments to Airspace Docket No. 85-AAL-5." The post card will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Regional Air Traffic Division, Third Floor, Module B, Federal Building U.S. Courthouse, 701 C Street, Anchorage, AK, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking by submitting a request to the Federal Aviation Administration, Manager, Operations, Procedures, and Airspace Branch, Air Traffic Division, Alaskan Region, 701 C Street, Box 14, Anchorage, AK 99513-0087, or by calling (907) 271-5902. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revoke the control zones at Aniak, Nenana, Umiat and Fort Yukon, AK. Weather reports at the above locations are being taken once an hour and do not include specials. This can result in weather conditions which unduly restrict users. Transition areas are published to provide controlled airspace to protect the instrument approaches at the above locations. The revocation of the control zones will allow VFR aircraft to depart and arrive at the above airports with 1 mile flight visibility and clear of clouds below 700 feet above the surface. Section 71.171 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6 dated January 3, 1984. The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Polices and Procedures (44 FR 11034; Februry 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Control zones.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Aniak, Ak [Removed]

Within a 5-mile radius of the Aniak Airport (lat. 61°35'N., long. 159°32'W.); within 3 miles each side of the 114°T(094°M) bearing from Aniak NDB, extending from the 5-mile radius zone to 8 miles SE of the NDB, and within 2 miles each side of the Aniak localizer (lat.61°35'02"N., long. 159°33'01"W.) west course extending from the 5-mile radius zone to 8.5 miles west of the localizer. This control zone is effective during the specific dates and times estabished in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Flight Information Publication Supplement Alaska.

Nenana, AK [Removed]

Within a 5-mile radius of the Nenana Airport (lat. 64°31'56" N., long. 149°04'24" W.), and within 4 miles each side of the 132° bearing from the Julius RBN extending from the 5-mile radius zone to 8.5 miles southeast of the RBN. This control zone is effective during the specific days and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Flight Information Publication Supplement Alaska.

Umiat, AK [Removed]

Within a 5-mile radius of the Umiat Airport, (lat. 69°22'17" N., long. 152°08'00" W.), within 3 miles each side of the 079° bearing from the Umiat NDB extending from the 5-mile radius zone to 8 miles east of the NDB; and within 3 miles each side of the 259° bearing from the Umiat NDB extending from the 5-mile radius zone to 8 miles west of the NDB.

Fort Yukon, AK [Removed]

Within a 5-mile radius of Fort Yukon Municipal Airport (lat. 66°34'16" N., long. 145°14'59" W.), and within 3 miles south and 4 5 miles north of the Fort Yukon 076° radial extending from the 5-mile radius zone to 10.5 miles east of the Fort Yukon VORTAC and within 3 miles each side of the Fort Yukon VORTAC 214° radial extending from the 5-mile radius zone to 8.5 miles southwest of the VORTAC. This control zone is effective from 0800 to 1700 hours local time daily or during the specific days and times established in advance by a Notice to Airmen. The effective dates and time will thereafter be continuously published in the Flight Information Publication Alaska.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983)); and 14 CFR 11.65)

Issued in Anchorage, Alaska, on April 5, 1985.

Franklin L. Cunningham,

Director, Alaskan Region.

14 CFR Part 71

[Airspace Docket No. 85-AAL-6]

Proposed Revision of Transition Area and Revocation of Control Zone at Valdez, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to revise the transition area and revoke the control zone at Valdez, AK. This action is proposed to allow more efficient use of the airspace, and to reduce the constraints and impact on the public in the affected airspace. The circumstance which creates the need to revoke the control zone is that weather reports at the airport are provided only on an hourly basis without special observations taken and disseminated when significant changes in weather occur. This creates an undue restriction on the users when: (1) The last report indicates the weather is below basic visual flight rules (VFR) minimums, (2) the weather is actually above basic VFR minimums, and (3) the next weather report will not be available until on the hour. The circumstance which created the need to revise the transition area is the revocation of the control zone. The revised transition area will provide controlled airspace below 1,200 feet down to 700 feet above the surface for the microwave landing system (MLS) approach to Valdez, AK, Airport. Revocation of the control zone will provide airspace for VFR aircraft to depart and arrive at the Valdez Airport with 1 mile flight visibility and clear of clouds below 700 feet above the surface.

DATES: Comments must be received on or before May 31, 1985.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Alaskan Region, Attention: Manager, Air Traffic Division, Docket No. 85-AAL-6, Federal Aviation Administration, 701 C Street, Box 14, Anchorage, AK 99513-0087.

The official docket may be examined in the FAA Rules Docket, Office of the Regional Counsel, Third Floor, Module F, Federal Building U.S. Courthouse, 701 C Street, Anchorage, AK.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division, Third Floor, Module B, Federal Building U.S. Courthouse, 701 C Street, Anchorage, AK.

FOR FURTHER INFORMATION CONTACT: Robert C. Durand, Procedures and Airspace Specialist (AAL-536), Air Traffic Division, Federal Aviation Administration, 701 C Street, Box 14, Anchorage, AK 99513-0087, telephone (907) 271-5902.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped post card on which the following statement is made: "Comments to Airspace Docket No. 85-AAL-6." The post card will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Regional Air Traffic Division, Third Floor, Module B, Federal Building U.S. Courthouse, 701 C Street, Anchorage, AK, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking by submitting a request to the Federal Aviation Administration, Manager, Operations, Procedures, and Airspace Branch, Air Traffic Division, Alaskan Region, 701 C Street, Box 14, Anchorage, AK 99513-0087, or by calling (907) 271-5902. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.171 and § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish the base of controlled airspace at 700 feet above the surface within a 5-mile radius of the Valdez, AK, Airport and revoke the controlled airspace within a 3-mile radius of the Valdez, AK, Airport from the surface up to 700 feet above the surface. These airspace designations will allow VFR aircraft to depart and arrive at Valdez, AK, Airport with 1 mile flight visibility and clear of clouds below 700 feet above the surface and provide controlled airspace between 700 feet and 1,200 feet above the surface for the MLS approach. Sections 71.171 and 71.181 of Part 71 of the Federal Aviation Regulation were republished in Handbook 7400.6 dated January 3, 1984.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Transition areas; Control zones.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.171 and § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Valdez, AK § 71.171 [Removed]

Within a 3-mile radius of the Valdez Municipal Airport, (lat. 61°07'58"N, long. 146°14'24"W.). This control zone is effective from 0800 to 1600 local time daily from mid-October to mid-May, and from 0600 to 2200 local time daily from mid-May to mid-October or during specific dates and times established in advance by a Notice to Airmen. The effective date and time will

thereafter be continuously published in the U.S. Government Flight Information Publication Supplement Alaska.

Valdez, AK § 71.181 [Amended]

By removing the words "That airspace extending upward from" and substituting the words "That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Valdez Airport (lat. 61°07'58"N., long 146°14'24"W.); and from * * *"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); (49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983)); and 14 CFR 11.65.)

Issued in Anchorage, Alaska, on April 5, 1985.

Franklin L. Cunningham,

Director, Alaskan Region.

BILLING CODE 4910-13-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Part 208

Debarment, Suspension and Ineligibility

AGENCY: Agency for International Development.

ACTION: Proposed rule.

SUMMARY: The Agency for International Development proposes to amend Part 208 to include AID procurement contracts and subscontracts and direct AID and AID-financed agreements (e.g., grants, cooperative agreements, and host country contracts) and subagreements. Part 208 currently applies to debarment and suspension of AID-financed suppliers of commodities and commodity-related services. The amendment expands the coverage to include direct AID agreements (e.g. grants and cooperative agreements) and all AID-financed agreements (e.g., host county contracts). The amendment also implements and supplements 48 CFR Subpart 709.4 (49 FR 13240, April 3, 1984) with respect to procurement contracts and subcontracts.

DATES: Comments must be submitted on or before May 20, 1985.

Comments: Comments may be mailed to Mr. Jan W. Miller, Office of the General Counsel, Room 6943 N.S., Agency for International Development, Washington, D.C. 20523. Telephone: (202) 632-8874.

FOR FURTHER INFORMATION CONTACT: Jan Miller (202) 632-8874.

SUPPLEMENTARY INFORMATION:

Regulatory Flexibility and Impact Analysis

This action will not have a significant economic impact on a substantial number of small entities including small businesses, small organizational units and small governmental jurisdictions.

This action does not constitute a "major rule" under Executive Order No. 12291.

Administrative Procedures Act

This is not a rule subject to rulemaking under the Administrative Procedures Act. However, in order to afford interested parties with an opportunity to comment, the regulation is being published as a proposed rule. The regulation will be published as a final rule following the comment period.

Environmental Impact

This action does not constitute a major Federal action significantly affecting the quality of the human environment.

List of Subjects in 22 CFR Part 208

Foreign aid, Government procurement, Government contracts, Grant programs—foreign relations, Grants administration.

Accordingly, AID proposes to revise 22 CFR Part 208 to read as follows:

PART 208—DEBARMENT, SUSPENSION AND INELIGIBILITY

Subpart A—General

Sec.

208.1 Scope.
208.2 Policy.
208.3 Definitions.
208.4 GSA Notification.
208.5 AID Consolidated List of Debarred, Suspended and Ineligible Awardees.

Subpart B—Effect of Being Listed on the AID and GSA Lists

208.6 GSA List.
208.7 AID List.
208.8 Waiver.

Subpart C—Debarment

208.9 General.
208.10 Causes for debarment.
208.11 Procedures.
208.12 Period of debarment.
208.13 Scope of debarment (imputed conduct).

Subpart D—Suspension

208.14 General.
208.15 Causes for suspension.
208.16 Procedures.
208.17 Period of suspension.
208.18 Scope of suspension.

Authority: Sec. 621 of the Foreign Assistance Act of 1961, 22 U.S.C. 2381; 48 CFR Subpart 9.4.

Subpart A—General

§ 208.1 Scope.

(a) This part:

(1) Prescribes policies and procedures for the Agency for International Development (AID) governing the debarment and suspension of organizations and individuals from participating in AID agreements, including contracts, grants, cooperative agreements, AID-financed host country contracts, AID-financed commodity transactions under 22 CFR Part 201, and reimbursement for overseas freight charges under 22 CFR Part 202;

(2) Sets forth the causes, procedures and requirements for determining the scope, duration and effect of AID debarment and suspension actions; and

(3) Implements and supplements 48 CFR Subpart 709.4 with respect to suspension, debarment and ineligibility for Goverment procurement contracts.

§ 208.2 Policy.

(a) AID shall not solicit bids and proposals from, award agreements to, or finance or consent to agreements with, organizations and individuals that are suspended, proposed for debarment, debarred, or ineligible as indicated on the AID List or that are debarred, suspended or ineligible as indicated on the GSA List.

(b) The serious nature of debarment and suspension requires that they be imposed only in the public interests, for the Government's protection and not for purposes of punishment. Debarment and suspension shall be imposed to protect the Government's interest, and only for the causes and in accordance with the procedures set forth in this part.

(c) Offices responsible for the award and administration of agreements are responsible for reporting to the Inspector General, AID, information about possible fraud, waste, abuse, or other wrongdoing which may constitute or contribute to a cause for debarment or suspension under this Part.

§ 208.3 Definitions.

For purposes of this Part—

(a) "Adequate evidence" means information sufficient to support the reasonale belief that a particular act or omission has occurred.

(b) "Affiliates." Organizations or individuals are affiliates if, directly or indirectly, (1) either one controls or can control the other; or (2) a third controls or can control both.

(c) "Agency" means an executive department, military department or defense agency, or other agency or

independent establishment of the executive branch.

(d) "AID agreement" means a contract, grant, cooperative agreement, loan, loan guarantee, sales agreement, donation agreement or any other agreement to which AID is a party or which AID finances or approves. It also means any subagreement under an AID agreement. It includes AID Government procurement contracts, grants and cooperative agreements, AID-financed host country contracts, AID-financed commodity transactions under 22 CFR Part 201, reimbursement of freight charges under 22 CFR Part 202, and transactions under Title II of the Agricultural Trade Development and Assistance Act of 1954, as amended (Pub. L. 480).

(e) "AID List" means the AID Consolidated List of Debarred, Suspended or Ineligible Awardees maintained by AID in accordance with this Part.

(f) "Authorized representative" means an official who has been designated by and authorized to act on behalf of the Administrator of AID for the purposes of this part including, but not limited to, acting as a debarring or suspending official.

(g) "Awardee" means any individual or legal entity that submits offers for, is awarded or performs services under, or reasonably may be expected to be awarded or perform services under an AID agreement. It includes an employee of an awardee and any person who conducts business with AID as an agent or representative of an awardee. It also includes AID contractors.

(h) "Contractor" means any individual or legal entity that submits offers for or is awarded, or reasonably may be expected to submit offers for or be awarded, a Government procurement contract or conducts business with the Government as an agent or representative of another contractor.

(i) "Conviction" means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or plea, and includes a conviction entered upon a plea of nolo contendere.

(j) "Debarment" means action taken by a debarring official to exclude an organization or individual from receiving Government procurement contracts or AID agreements for a reasonable, specified period. An organization or individual so excluded is "debarred".

(k) "Debarring Official" means an agency head or an official authorized by an agency head to impose debarment. The AID debarring official is the Associate Assistant to the Administrator for Management (M/AAA-SER).

(l) "Government procurement contract" means (1) an agreement to which a Federal agency is a party for the acquisition of supplies or services (including construction) for the direct benefit or use of the Federal Government or (2) a Government-approved or financed subcontract under a Government procurement contract.

(m) "GSA List" means the Consolidated List of Debarred, Suspended and Ineligible Contractors maintained by the General Services Administrator.

(n) "Indictment" means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

(o) "Ineligible" means excluded from Government contracting (and subcontracting, if appropriate) under statutory, Executive Order, or regulatory authority other than this regulation or subpart 9.4 of the Federal Acquisition Regulation. For example, contractors excluded under the Davis-Bacon Act and its related statutes and implementing regulations, the Service Contract Act, the Equal Employment Opportunity Acts and Executive Orders, the Walsh-Healey Public Contract Act, the Buy American Act, and the Environment Protection Acts and Executive Orders are ineligible.

(p) "Legal proceedings" mean any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term also includes appeals from such proceedings.

(q) "Preponderance of the evidence" means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

(r) "Suspending official" means an agency head or an official authorized by an agency head to impose suspension. The AID suspending official is the Associate Assistant to the Administrator for Management (M/AAA/SER).

(s) "Suspension" means action taken by a suspending official to exclude an organization or individual temporarily from receiving Government procurement contracts or AID agreements. An organization or individual so excluded is "suspended".

§ 208.4 GSA Notification.

The Agency shall—

(a) Notify GSA, within 5 working days after debarring or suspending a contractor or modifying or rescinding such an action, of the information set forth in § 208.5;

(b) Notify GSA of the names and addresses of the organizations within the Agency that are to receive the consolidated list and the number of copies to be furnished to each; and

(c) Direct inquiries concerning listed contractors to the agency or other Governmental authority that took the action.

§ 208.5 AID Consolidated List of Debarred, Suspended and Ineligible Awardees.

The agency shall compile and maintain a list of awardees and affiliates who are proposed for debarment or who are curently debarred or suspended under this part. At a minimum, the AID List shall contain the following information:

(a) The awardee's name and address;

(b) The cause(s) for the action;

(c) The effect of the action;

(d) The effective date of the action and, in the case of debarments, the termination date for each listing; and

(e) The name and telephone number of AID's point of contact for the action.

Subpart B—Effect of Being Listed on the AID and GSA Lists

§ 208.6 GSA List.

AID shall not—

(a) Solicit or consider a bid or proposal for a Government procurement contract from;

(b) Award, extend or renew any Government procurement contract with; or

(c) Approve or consent to the award, extension or renewal of a Government procurement contract with—

A contractor on the GSA List.

§ 208.7 AID List.

AID shall not—

(a) Solicit or consider a bid or proposal for an agreement from;

(b) Award, extend, or renew any agreement with;

(c) Finance, approve or consent to the award, extension, or renewal of any agreement—

An awardee on the AID LIST.

§ 208.8 Waiver.

(a) The Associate Assistant to the Administrator for Management may waive the prohibitions of §§ 208.6 and 208.7 by issuing a written determination setting forth the compelling reasons justifying the waiver.

(b) Some examples of circumstances that may constitute a compelling reasons include: (1) The property or services to be acquired are available only from the listed awardee or contractor; (2) the urgency of the requirement dictates that AID deal with

the awardee or contractor; (3) the contractor or awardee and AID have entered an agreement covering the same events which resulted in the listing and the agreement includes a decision by AID not to debar or suspend the awardee or contractor; and (4) for such other reasons related to U.S. foreign assistance activities which require continued business dealing with the listed awardee or contractor.

Subpart C—Debarment

§ 208.9 General.

(a) The debarring official may, in the public interest, debar an awardee for any of the causes contained in § 208.10, using the procedures in § 208.11. The existence of a cause for debarment under § 208.10, however, does not necessarily require that the awardee be debarred; the seriousness of the awardee's acts or omissions and any mitigating factors should be considered in making any debarment decision.

(b) Debarment of an awardee constitutes debarment of all divisions or other organizational elements of the awardee, unless the debarment decision is limited by its terms to specific divisions, organizational elements, or commodities. Debarment extends to affiliates of the awardee, only if they are (1) specifically named and (2) given written notice of the proposed debarment and opportunity to respond (see § 208.11).

§ 208.10 Causes for debarment.

The debarring official may debar an awardee for:

(a) Conviction of or civil judgment for—

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public agreement or subagreement;

(2) Violation of Federal or State antitrust statutes relating to the submission of bids or proposals: or

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the present responsibility of an awardee.

(b) Violation of the terms of an agreement or subagreement so serious as to justify debarment, such as—

(1) Willful failure to perform in accordance with the terms of one or more agreements or subagreements; or

(2) A history of failure to perform, or of unsatisfactory performance of, one or mroe agreements or subagreements.

(c) Any other cause of so serious or compelling a nature that it affects the present responsibility of an AID contractor or awardee. Such cause may include but is not limited to:

(1) Failure to furnish information in accordance with the terms of one or more agreements or subagreements;

(2) Violation of AID regulations in a substantial manner; or

(3) Offer or acceptance of a bribe or other illegal payment or credit or commission of a fraud in connection with any AID-financed transaction.

(d) On the basis of a debarment for any of the above causes by another agency.

§ 208.11 Procedures.

(a) *Notice of proposal to debar.* Debarment shall be initiated by sending the awardee or affiliates, a notice containing, as appropriate, the following information:

(1) That debarment is being proposed.

(2) The reasons for the proposed debarment in terms sufficient to put the awardee or affiliate on notice of the conduct or transaction(s) upon which it is based.

(3) The cause(s) relied upon under § 208.10 for the proposed debarment, and, if applicable, under FAR Subpart 9.4.

(4) That, within 30 days after the receipt of the notice, the awardee or affiliate may (i) submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment, including any additional specific information that raises a genuine dispute over the material facts; and (ii) request in writing a hearing.

(5) The effects of the proposed debarment and the effects of a final debarment. If a notice of proposed debarment is issued to an awardee or affiliate who is not suspended, the notice shall state that, for purposes of AID agreements, the proposed debarment shall have the effect of a suspension.

(6) The awardee's or affiliate's name and address have been placed on the AID List.

(b) *Hearing.*—(1) *Appointment.* Upon receipt of a timely request for a hearing, the debarring official will appoint a hearing officer.

(2) *Purpose.* The purpose of the hearing is to provide the awardee or affiliate an opportunity to dispute material facts, present evidence of any mitigating factors, present arguments concerning the imposition, scope, duration or effects of a proposed debarment or debarment and to provide the debarring official with proposed findings of fact.

(3) *Evidence and argument.* The awardee or affiliate shall have the opportunity to appear with counsel, to submit documentary evidence, to examine and cross-examine witnesses and to present argument.

(4) *Transcript.* The hearing officer shall make a transcribed record of the hearing and make it available at cost to the awardee of affiliate. The requirement for a transcript may be waived by mutual agreement.

(5) *Report.* Within 30 days after the hearing record is closed, the hearing officer will transmit to the debarring official and the awardee or affiliate a written report setting forth proposed findings of fact as to disputed material facts. The awardee or affiliate shall have 30 days from receipt of the report to submit written exceptions to the debarring official.

(c) *Debarring official's decision.* (1) The debarring official shall make a decision on the basis of all the information in the administrative record, including any submission made by the awardee or affiliate, the hearing report and any exceptions. The debarring official may set aside findings of fact only after specifically determining them to be aribitrary and capricious or clearly erroneous.

(2) In any action in which the proposed debarment is not based upon a conviction or civil judgment, the cause for debarment must be established by a preponderance of the evidence.

(d) *Notice of debarring official's decision.* (1) If the debarring official decides to impose debarment, the awardee or affiliate shall be sent a notice with the following information as appropriate;

(i) A reference to the notice of proposed debarment.

(ii) Any findings of fact and conclusion of law.

(iii) The reasons for the debarment.

(iv) The period of debarment, including effective dates.

(v) The type of agreements and subagreements covered by the debarment.

(vi) If the debarment is based on one or more causes in FAR Subpart 9.4, a statement that the debarment is effective throughout the Executive Branch as provided in FAR Subpart 9.4, and that the awardee's or affiliate's name will be added to the GSA List.

(vii) The awardee's or affiliate's name and address will be or have been placed on the AID List.

(2) If debarment is not imposed, the debarring official shall so notify the awardee or affiliate.

§ 208.12 Period of debarment.

(a) Debarment shall be for a period sufficient to protect the Government's interest. Generally, a debarment should not exceed 3 years. If suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(b) The debarring official may extend the debarment for an additional period, if that official determines that an extension is necessary to protect the Government's interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of § 208.11 above shall be followed to extend the debarment.

(c) At any time, an awardee or affiliate may submit a written request to the debarring official for review of the period or extent of debarment because of new information or changed circumstances, such as—

(1) Newly discovered material evidence;

(2) Reversal of the conviction or judgment upon which the debarment was based;

(3) Bona fide change in ownership or management;

(4) Elimination of other causes for which debarment was imposed; or

(5) Other reasons such as restitution and other actions in mitigation.

§ 208.13 Scope of debarment (imputed conduct).

(a) The fraudulent, criminal, or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with an awardee may be imputed to the awardee when the conduct occurred in connection with the individual's performance of duties for or on behalf of the awardee, or with the awardee's knowledge, approval, or acquiescense. The awardee's acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

(b) The fraudulent, criminal, or other seriously improper conduct of an awardee may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the awardee who participated in, knew of, or had reason to know of, the awardee's conduct.

(c) The fraudulent, criminal, or other seriously improper conduct of one awardee participating in a joint venture or similar arrangement or with the knowledge, approval, or acquiescence of the organizations or individuals. Acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

Subpart D—Suspension

§ 208.14 General.

(a) The suspending official may, in the public interest, suspend an awardee for any of the causes in § 208.15, using the procedures in § 208.16.

(b) Suspension is a serious action to be imposed on the basis of adequate evidence, pending the completion of an investigation or legal proceedings, when it has been determined that immediate action is necessary to protect the Government's interest. In assessing the adequacy of the evidence, consideration should be given to how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as contracts, inspection reports, and correspondence.

(c) Suspension constitutes suspension of all divisions or other organizational elements of the awardee, unless the suspension decision is limited by its terms to specific divisions, organizational elements, or commodities. The suspending official may extend the suspension decision to include any affiliates of the awardee if they are (1) specifically named and (2) given written notice of the suspension and an opportunity to respond (see § 208.16).

§ 208.15 Causes for suspension.

The suspending official may suspend an organization or individual:

(a) Indicted for or suspected, upon adequate evidence, of the causes in paragraphs (a) and (c) of § 208.10.

(b) On the basis of a suspension or debarment by another agency.

(c) On the Basis of the causes, upon adequate evidence, set forth in paragraphs (a), (b), and (c) of § 208.10.

§ 208.16 Procedures.

(a) *Notice of suspension.* When a decision to suspend has been made the awardee or any affiliates shall be sent a notice of suspension containing, as appropriate, the following information.

(1) That the decision to suspend has been made.

(2) The reasons for the suspension in terms sufficient to place the awardee or affiliate on notice of the causes upon which suspension is based, except the notice shall omit any information which would prejudice an ongoing criminal or civil investigation or a pending contemplated legal proceeding.

(3) The cause(s) relied upon under § 208.15 and, if applicable, under FAR Subpart 9.4 for imposing suspension.

(4) The effects of the suspension.

(5) That, within 30 days after receipt of the notice, the awardee or affiliate may submit, in person, in writing or through a representative, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over material facts.

(6) That, within 30 days after receipt of the notice, the awardee or affiliate may request a hearing; unless (i) the action is based on an indictment or (ii) a determination is made, on the basis of Department of Justice advice, that the substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(7) The suspension is effective as of the date of the notice.

(8) The awardee's or affiliate's name and address have been placed on the AID List.

(9) If suspended for one or more of the causes in FAR Subpart 9.4, that the awardee's or affiliate's name will be added to the GSA List.

(b) *Hearing.* When the awardee or affiliate has been given an opportunity to request a hearing under paragraph (a)(6) of this section and upon receipt of a timely request for a hearing, the provisions for debarment hearings in paragraph (b) of § 208.11 will be followed.

(c) *Suspending officials decision.* The suspending official shall make a decision based on all the information in the administrative record, including any submission made by the awardee or affiliate, the hearing report and any exceptions. The suspending official may set aside findings of fact only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(d) *Notice of suspending official's decision.* (1) If the suspending official decides to sustain the suspension, the awardee or affiliate shall be sent a notice with the following information, as appropriate:

(i) A reference to the notice of suspension.

(ii) Any findings of fact and conclusion of law.

(iii) The reasons for sustaining the suspension.

(iv) The type of agreements and subagreements covered by the suspension.

(v) If the suspension is based on one or more of the causes in FAR Subpart 9.4, a statement that the suspension is effective throughout the Executive Branch as provided in FAR Subpart 9.4.

(vi) Modifications, if any, of the terms of the suspension.

(vii) The awardee's or affiliate's name and address will be or have been placed on the AID List.

(2) If the suspension is terminated, the suspending official shall notify the awardee or affiliate of that decision.

§ 208.17 Period of suspension.

(a) Suspension shall be for a temporary period pending the completion of investigation and any ensuing legal proceedings; unless sooner terminated by the suspending official or as provided in this section.

(b) If legal proceedings are not initiated within 12 months after the date of suspension notice, the suspension shall be terminated unles the Department of Justice requests its extension, in which case it may be extended for an additional 6 months. If legal proceedings are initiated before the period of suspension expires, the suspension may continue until legal proceedings are conducted.

(c) The suspending official shall notify the Department of Justice of the proposed termination of the suspension at least 30 days before the 12 month period expires to give it an opportunity to request an extension.

(d) At any time, an awardee or affiliate may submit a written request to the suspending official for a review of the period or extent of suspension because of new information or changed circumstances such as those listed in paragraph (c) of § 208.12.

§ 208.18 Scope of suspension.

The scope of suspension shall be the same as that for debarment (see § 208.13), except that the procedures of § 208.16 shall be used in imposing the suspension.

Dated, January 22, 1985.

R.T. Rollis,

Assistant to the Administrator for Management.

[FR Doc. 85-9206 Filed 4-18-85; 8:45 am]

BILLING CODE 4116-01-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[Notice No. 562]

South Coast Viticultural Area; Establishment

AGENCY: Bureau of Alcohol, Tobacco and Firearms.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Bureau of Alcohol, Tobacco and Firearms (ATF) is considering the establishment of a viticultural area in California to be known as "South Coast." This proposal is the result of a petition submitted on behalf of the South Coast Vintners Association, a group of grape growers in the proposed area. The establishment of viticultural areas and the subsequent use of viticultural area names in wine labeling and advertising will enable winemakers to label wines more precisely and will help consumers to better identify the wines they purchase.

DATE: Written comments must be received by June 3, 1985.

ADDRESSES: Send written comments to: Chief, FAA, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, P.O. Box 385, Washington, DC 20044-0385 (Notice No. 562).

Copies of the petition, the proposed regulations, the appropriate maps, and the written comments will be available for public inspection during normal business hours at: ATF Reading Room, Office of Public Affairs and Disclosure, Room 4407, Federal Building, 1220 Pennsylvania Avenue, NW, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Steve Simon, FAA, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania, NW, Washington, DC 20226 (202-566-7626)

SUPPLEMENTARY INFORMATION:

Background

ATF regulations in 27 CFR Part 4 provide for the establishment of definite viticultural areas. The regulations also allow the name of an approved viticultural area to be used as an appellation of origin on wine labels and in wine advertisements.

Part 9 of 27 CFR provides for the listing of approved American viticultural areas, the names of which may be used as appellations of origin.

Section 3.25a(e)(1), Title 27 CFR, defines an American viticultural area as a delimited grape-growing region distinguishable by geographical features. Section 4.25a(e)(2) outlines the procedures for proposing an American viticultural area. Any interested person may petition ATF to establish a grape-growing region as a viticultural area. The petition should include—

(a) Evidence that the name of the proposed viticultural area is locally and/or nationally known as referring to the area specified in the petition;

(b) Historical or current evidence that the boundaries of the viticultural area are as specified in the petition;

(c) Evidence relating to the geographical features (climate, soil, elevation, physical features, etc.) which distinguish the viticultural features of the proposed area from surrounding areas;

(d) A description of the specific boundaries of the viticultural area, based on features which can be found on United States Geological Survey (U.S.G.S.) maps of the largest applicable scale; and

(e) A copy of the appropriate U.S.G.S. map(s) with the boundaries prominently marked.

Petition

ATF has received a petition from the South Coast Vintners Association, proposing an area south of Los Angeles, California, as a viticultural area to be known as "South Coast." The area contains about 1,800 square miles. It is located along the Pacific coastline between Los Angeles and the Mexican border. There are about 3,000 acres of grapes currently planted in the proposed area. The petitioner states that at least 15 wineries are operating within the area.

The petitioner claims that the proposed viticultural area is known by the name of "South Coast." To support this, he submitted the following evidence:

(a) *Wine Maps*, published in 1984 by The Wine Spectator, designates various coastal grape-growing areas of California. One such area is identified on both a "Key Map" and a more detailed map as "South Coast." The area shown on these maps corresponds generally to the petitioned area.

(b) The South Coast Vintners Association, which is the only association of vintners in existence in the proposed area, was incorporated in the State of California on January 31, 1984. Prior to incorporation, this association existed informally for several years. Its membership includes most of the wineries in the proposed area. While in existence, the petition states, this association "has created

publications featuring 'South Coast' wines, has held joint tastings and public relations functions, and generally has sought to create name and location identification in the wine industry for 'South Coast' fine wines." As evidence of this effort, the petitioner submitted a booklet published by it, titled "South Coast Wineries." This booklet features a map showing the locations of the association's winery members, and also contains this description: "The wineries are located in the foothills and valleys of the coastal region, most, less than thirty miles from the ocean. Here the combination of higher elevations, well drained soils, and cooling Pacific breezes produce an ideal environment for growing the finest European grape varieties."

The proposed viticultural area is distinguished geographically from the surrounding areas as follows:

(1) To the north, the area is set off by the predominant urbanization of Los Angeles County, which makes grape-growing there unfeasible. The petition explains this as follows: "No doubt portions of Los Angeles County would qualify [with respect to name] as 'South Coast.' However, as a practical matter the entire Los Angeles County coastal area is urbanized and no present or potential grape growing areas exist. Since no grapes come from Los Angeles County and it is very unlikely that any ever will, it was considered confusing to include the County in 'South Coast'."

(2) To the west, the area is bounded by the Pacific Ocean.

(3) The southern boundary of the area, the Mexican-American border, does not correspond to a geographical distinction. However, since 27 CFR Part 9 is titled "American Viticultural Areas," and since "American" is defined in 27 CFR 9.11 as "Of or relating to the several States, the District of Columbia, and Puerto Rico," it is evident that an American viticultural area must not extend into Mexico.

(4) To the east, the proposed area is distinguished geographically by the limit of "coastal influence." This distinction is described in the petition as follows: "Applicant believes that 'coast' infers some substantial coastal influence on the grape growing areas involved, resulting in classification of same as Zones I through III of the Davis scale. While many grapes are grown in San Bernardino, eastern Riverside, eastern San Diego and Imperial Counties, they are grown in Zones IV or V, and are primarily table grapes rather than wine grapes."

The boundaries of the proposed viticultural area may be found on three U.S.G.S. maps of the 1:250,000 series, titled Long Beach, Santa Ana, and San Diego; and on one U.S.G.S. map of the 7.5 minute series, titled Wildomar. The boundaries would be as described in the proposed § 9.104. ATF has slightly modified these proposed boundaries from the boundaries originally proposed by the petitioner, so as to include all of the approved Temecula viticultural area, since evidence submitted in conjunction with the approval of that area showed that all of the Temecula area is influenced by coastal climate factors.

Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to an initial and final regulatory flexibility analysis (5 U.S.C. 603, 604) are not applicable to this proposal because the notice of proposed rulemaking, if promulgated as a final rule, will not have a significant economic impact on a substantial number of small entities. The proposal is not expected to have significant secondary or incidential effects on a substantial number of small entities. Further, the proposal will not impose, or otherwise cause, a significant increase in the reporting, recordkeeping, or other compliance burdens on a substantial number of small entities.

Accordingly, it is hereby certified under the provisions of Section 3 of the Regulatory Flexibility Act (5 U.S.C. 605(b)) that this notice of proposed rulemaking, if promulgated as a final rule, will not have a significant economic impact on a substantial number of small entities.

Executive Order 12291

In compliance with Executive Order 12291 of February 17, 1981, the Bureau has determined that this proposal is not a major rule since it will not result in:

(a) An annual effect on the economy of $100 million or more;

(b) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographical regions; or

(c) Significant adverse effects on competition, employment, investment, productivity, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Paperwork Reduction Act

The provisions of the Paperwork Reduction Act of 1980, Pub. L. 96–511, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR Part 1320, do not apply to this notice because no requirement to collect information is proposed.

Public Participation—Written Comments

ATF requests comments concerning this proposed viticultural area from all interested persons. Furthermore, while this document proposes possible boundaries for the South Coast viticultural area, comments concerning other possible boundaries for this viticultural area will be given consideration.

Comments received before the closing date will be carefully considered. Comments received after the closing date and too late for consideration will be treated as possible suggestions for future ATF action.

ATF will not recognize any material or comments as confidential. Comments may be disclosed to the public. Any material which the commenter considers to be confidential or inappropriate for disclosure to the public should not be included in the comment. The name of the person submitting a comment is not exempt from disclosure.

Any person who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his or her request, in writing, to the Director within the 45-day comment period. The request should include reasons why the commenter feels that a public hearing is necessary. The Director, however, reserves the right to determine, in light of all circumstances, whether a public hearing will be held.

List of Subjects in 27 CFR Part 9

Administrative practice and procedures, Consumer protection, Viticultural areas, Wine.

Drafting Information

The principal author of this document is Steve Simon, FAA, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms.

Authority

Accordingly, under the authority in 27 U.S.C. 205, the Director proposes the amendment of 27 CFR Part 9 as follows:

PART 9—AMERICAN VITICULTURAL AREAS

Paragraph 1. The table of sections in 27 CFR Part 9, Subpart C, is revised to add the title of § 9.104, to read as follows:

* * * * *

Subpart C—Approved American Viticultural Areas

Sec.

* * * * *

9.104 South Coast.

Par. 2. Subpart C of 27 CFR Part 9 is amended by adding § 9.104, which reads as follows:

§ 9.104 South Coast.

(a) *Name.* The name of the viticultural area described in this section is "South Coast."

(b) *Approved maps.* The appropriate maps for determining the boundaries of South Coast viticultural area are four U.S.G.S. maps. They are titled:

(1) San Diego, 1:250,000 series, 1958 (revised 1978).

(2) Santa Ana, 1:250,000 series, 1959 (revised 1979).

(3) Long Beach, 1:250,000 series, 1957 (revised 1978).

(4) Wildomar Quadrangle, 7.5 minute series, 1953 (photorevised 1973).

(c) *Boundary*—(1) *General.* The South Coast viticultural area is located in California. The starting point of the following boundary description is the northern intersection of the Orange County line with the Pacific Ocean (on the Long Beach map).

(2) *Boundary Description*—(i) From the starting point generally northeastward, eastward, and southeastward along the Orange County line, to the intersection of that county line with the township line on the northern border of Township 7 South (on the Santa Ana map).

(ii) From there eastward along that township line to its intersection with the portion of the Temecula viticultural area boundary described in § 9.50, paragraphs (c)(1), (c)(2), (c)(23), and (c)(24) (on the Wildomar Quadrangle map).

(iii) From there following that portion of the boundary of the Temecula viticultural area generally northeastward, eastward, and southeastward until it again intersects the township line on the northern border of Township 7 South.

(iv) From there eastward along that township line to the San Bernardino Meridian (on the Santa Ana map).

(v) Then southward along the San Bernardino Meridian to the Riverside County-San Diego County line.

(vi) Then westward along that county line for about 7½ miles, to the western boundary of the Cleveland National Forest (near the Pechanga Indian Reservation).

(vii) Then generally southeastward along the Cleveland National Forest boundary to where it joins California Highway 76.

(viii) From there, generally southeastward along Highway 76, to the township line on the northern border of Township 12 South.

(ix) Then eastward along that township line to its intersection with the range line on the eastern border of Range 3 East.

(x) From there southward along that range line to the U.S.-Mexico international border.

(xi) Then westward along that international border to the Pacific Ocean.

(xii) Then generally northwestward along the shores of the Pacific Ocean to the starting point.

Approved: April 5, 1985.

Stephen E. Higgins,

Director.

BILLING CODE 4810-31-M

DEPARTMENT OF THE INTERIOR

Minerals Management Service

30 CFR Ch. II

Leasing of Nonenergy Minerals in the Outer Continental Shelf

AGENCY: Minerals Management Service, Interior.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Department of the Interior (Department) is considering the desirability of issuing new regulations to govern leasing in the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act (OCSLA). Comments and recommendations are requested from interested parties. The Minerals Management Service (MMS) will consider relevant comments in determining the conditions, benefits, costs, and probable consequences of such regulations.

This request is made in response to comments received from industry, environmental groups, interested parties, States, and Federal Agencies on the draft Environmental Impact Statement (EIS) for the Gorda Ridge and from the Federal /State Task Forces which have been formed to evaluate the environmental, economic, developmental, and operational aspects of various areas.

DATE: Comments in response to this request should be postmarked or hand-delivered no later than close of business August 19, 1985.

ADDRESS: Comments may be mailed or delivered to Reid T. Stone, Program Director for Strategic and International Minerals, Minerals Management Services, Department of the Interior, 11 Golden Shore, Suite 260, Long Beach, California 90802, telephone (213) 548-2901.

FOR FURTHER INFORMATION CONTACT: Andrew V. Bailey, Minerals Management Service, Office of Strategic and International Minerals, 12203 Sunrise Valley Drive, Mail Stop 642, Reston, Virginia 22091, telephone (703) 860-6823

SUPPLEMENTARY INFORMATION:

Background

Pursuant to section 8(k) of the OCSLA, the Secretary of the Interior "is authorized to grant to the qualified persons offering the highest cash bonuses on a basis of competitive bidding leases of any mineral other than oil, gas, and sulphur in any area of the Outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease."

The OCS includes areas that may be favorable for a variety of strategic and critical materials including phosphates and minerals contining copper, lead, zinc, cobalt, nickel, silver, cadmium, titanium, and manganese. Recognizing the potential for the development of these domestic resources, the President declared in his State of the Union Address on January 26, 1984, that the Department will encourage careful, selective exploration and production of our vital resources in the Exclusive Economic Zone within the 200-mile limit off our coasts but with strict adherence to environmental laws and with full State and public participation.

The Department published an Advance Notice of Proposed Rulemaking in the **Federal Register** on December 7, 1984 (49 FR 47871), requesting comments on the desirability of using the regulations at 30 CFR Part 251 to govern strategic, critical, and other minerals exploration activities.

To aid in the evaluation of the environmental and management aspects of leasing for strategic, critical, and other minerals in the OCS, the Department is reviewing the desirability of promulgating new regulations to govern these activities.

Although the regulations in 30 CFR Part 256 now govern leasing activities for nonenergy minerals as well as oil, gas, and sulphur, separate regulations

may better enable the Department, industry, and the public to evaluate the environmental, economic, and management implications of exploration for nonenergy minerals in the OCS. Recommendations to prepare such clarifying regulations were made in the public hearings on the Gorda Ridge draft EIS by individuals, environmental organizations, and State and Federal Agencies.

Consequently, comments are requested as to whether regulations separate from those in 30 CFR Part 256 should be developed for leasing strategic, critical, and other minerals in the OCS, and if so, how such regulations should differ from those in 30 CFR Part 256. In particular, comments, suggestions, data, and recommendations are requested with respect to the inclusion and treatment in such regulations of the following:

Resource Management

Identification of tracts to be offered
Size of tracts
Duration of lease
Exploration and development requirements
Assignment of leases

Fiscal Considerations

Rentals and royalties
Bonus bids
Alternative bidding systems
Joint bidding
Bonus
Application fees

Protection of Health, Safety, and Environment

Qualifications of lessee
Suspension of operations
Termination of leases
Control of operations
Inspections

Multiple-Use Aspects

Public notice and participation
State and local government involvement
Coastal zone management considerations

Other Considerations

Lease form
Release of information to States and to the public

Any other ideas considered to be relevant to the leasing of minerals other than oil, gas, and sulphur.

Dated: April 12, 1985.

Thomas M. Gernhofer,

Acting Director, Minerals Management Service.

[FR Doc. 85-9456 Filed 4-18-85; 8:45 am]

BILLING CODE 4310-MR-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

46 CFR Part 154

[CGD 77-069]

Proposed Safety Standards for Existing Self-Propelled Vessels Carrying Bulk Liquefied Gases

Correction

In FR Doc. 85-6100, beginning on page 10264 in the issue of Thursday, March 14, 1985, make the following corrections:

1. On page 10270, in the second column, in § 154.7, in the definition for "Existing gas vessel", paragraphs (a) and (b) should have been designated (1) and (2).

2. On page 10270, in the third column, in § 154.7, in the definition for "Gas-dangerous space", paragraphs (a) through (m) should have been designated (1) through (13) and subparagraphs (1) and (2) under misdesignated paragraph (k) should have been designated (i) and (ii).

3. On page 10271, in the first column, in § 154.7, in the definition for "IMO Certificate", paragraphs (a) through (c) should have been designated (1) through (3).

4. On page 10271, in the second column, in § 154.7, in the third line of the definition for "Membrane tank", the word "membrance" should have read "membrane".

5. On page 10271, in the second column, in § 154.7, in the definition for "New gas vessel", paragraphs (a) through (d) should have been designated (1) through (4) and subparagraphs (1) through (3) of misdesignated paragraph (d) should have been designated (i) through (iii).

6. On page 10271, in the second column, in § 154.7, in the definition for "Service space", the word "gallery" in the third line should have read "galley".

7. On page 10272, in the first column, in § 154.12, the semi-colon at the end of paragraph (b)(2) should have been a period.

8. On page 10272, in the first column, in § 154.12, the third line of paragraph (c)(1) should have read "the Coast Guard issued the original".

9. On page 10272, in the second column, in § 154.12, the last line of paragraph (e)(26) should have read "154.1120(b), and 154.1125 (c), (e), and (f)."

10. On page 10273, in the first column, in § 154.22, the second word in the first line of paragraph (a)(9)(ii) should have read "vessel's".

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 85-73; RM-4850]

TV Broadcast Stations in Pendleton, OR; Missoula, Havre, MT

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the assignment of VHF TV Channel 11 to Pendleton, Oregon, as that community's first commercial television service, at the request of Terrell Communications. In order to accomplish the assignment the offsets of unused Channel *11 at Missoula, Montana, and unused Channel 11 at Havre, Montana must be changed.

DATES: Comments must be filed on or before May 28, 1985, and reply comments on or before June 12, 1985.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Patricia Rawlings, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

Proposed Rule Making

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Pendleton, Oregon; Missoula, and Havre, Montana); MM Docket No. 85-73, RM-4850.

Adopted: March 11, 1985.
Released: April 9, 1985.

By the Chief, Policy and Rules Division.

1. A petition for rule making was filed by Terrell Communications ("petitioner"), requesting the assignment of VHF Television Channel 11 to Pendleton, Oregon, as that community's first commercial television service. Petitioner stated an intention to apply for the channel, if assigned. The assignment can be made in compliance with the minimum distance separation requirements. However, in order to accomplish the assignment, the offsets of unused Channel *11- at Missoula, Montana, and an used Channel 11+ at Havre, Montana must be reversed.

2. Pendleton (population 14,521)[1] seat of Umatilla County (population 58,861) is

[1] Population figures are from the 1980 U.S. Census.

located in northeastern Oregon approximately 290 kilometers (180 miles) east of Portland, Oregon.

3. Since Missoula and Havre, Montana and Pendleton are all located within 400 kilometers (250 miles) of the common U.S.-Canadian border, the proposal requires concurrence by the Canadian government.

4. In view of the fact that the proposed assignment could provide a first local television service to Pendleton, the Commission believes it is in the public interest to seek comments on the proposal to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules for the following communities:

City	Channel No.	
	Present	Proposed
Havre, MT	9+, 11+, and *18–	9+, 11–, and *18–
Missoula, MT	8–, *11–, 13–, 17–, and 23–	8–, *11+, 13–, 17–, and 23–
Pendleton, OR		11–

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.— A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before May 28, 1985, and reply comments on or before June 12, 1985, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: Gary D. Terrell, 2420 Belair, Magnolia, AR 71753.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Patricia Rawlings, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contract is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(c)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or person acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

47 CFR Part 76

[MM Docket No. 85–38]

Review of Technical and Operational Requirements of the Cable Television Service Rules; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of reply comment period.

SUMMARY: This Order extends the time for filing reply comments in BC Docket

No. 85-38 concerning the technical and operational Requirements of the Cable Television Service Rules in response to a Motion for Extension of Time filed by the National Cable Television Association, Inc. ("NCTA").

DATES: Reply comments must be filed on or before May 15, 1985.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Bernard Gorden, Policy and Rules Division, Mass Media Bureau, (202) 632-9660.

SUPPLEMENTARY INFORMATION: The proposed rule in this proceeding was published in the **Federal Register** on February 26, 1985, 50 FR 7301.

Order Extending Time for Filing Reply Comments

In the matter of Review of Technical and Operational Requirements of Part 76, Cable Television, MM Docket No. 85-38.

Adopted: April 11, 1985.

Released: April 15, 1985.

By the Chief, Mass Media Bureau.

1. The Commission has before it for consideration a Motion for Extension of Time to file reply comments, filed by the National Cable Television Association, Inc. ("NCTA"), in the above-captioned proceeding. NCTA requests a fourteen day extension, however we believe a thirty day extension would afford all parties sufficient time for commentary.

2. Accordingly, it is ordered, that the date for filing reply comments in BC Docket No. 85-38, is extended to May 15, 1985.

Federal Communications Commission.

James C. McKinney,

Chief, Mass Media Bureau.

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

49 CFR Part 215

[FRA Docket No. RSFC-6, Notice 12]

Railroad Freight Car Standards

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Announcement of change in hearing schedule.

SUMMARY: FRA announces that the public hearing scheduled for April 25, 1985 in Washington, D.C., regarding thermal abuse of freight car wheels, has been rescheduled to May 13, 1985 and may be extended for an additional day (through May 14, 1985) if necessary.

DATES: The public hearing previously announced as beginning at 10:00 a.m. on Thursday, April 25, 1985, will not be convened until 10:00 a.m. on May 13, 1985 and, if necessary to assure adequate time for the presentation of information or views, may be reconvened at 10:00 a.m. on May 14, 1985.

ADDRESS: The public hearing will be held in Room 8334 of the Nassif Building located at 400 Seventh Street SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Philip Olekszyk, Office of Safety, Federal Railroad Administration, Washington, D.C. 20590, telephone (202) 426-0897.

SUPPLEMENTARY INFORMATION: On December 17, 1984 FRA published in the **Federal Register** (49 FR 48952) an announcement that it was scheduling additional dates for public hearings regarding its proposal to amend FRA's regulatory provision defining freight car wheels as defective because of thermal abuse. The hearing scheduled for April 25, 1985 was focused on the concern raised by a commenter that FRA's current regulatory approach to thermally abused freight car wheels is intrinsically flawed because it continues to rely on a scientifically unjustified detection methodology.

Due to unforeseen scheduling conflicts, FRA has decided to reschedule this hearing until 10:00 a.m. on May 13, 1985. Based on the information FRA has received concerning this hearing, FRA believes that it may be necessary to extend the hearing until the following day so as to permit all interested parties to fully explain their views. Therefore, FRA is tentatively scheduling an additional day for the conduct of this hearing. If appropriate, FRA will reconvene the hearing on May 14, 1985 at 10:00 a.m. in the same location.

FRA believes that interested parties may want to review notices published in the **Federal Register** concerning specific waiver requests received from various individual railroads since FRA anticipates that individuals planning to appear at this hearing will discuss these individual waiver requests. The **Federal Register** issues of March 1, March 6, and March 11, 1985 contain descriptions of the waiver requests received from six railroads. *See* 50 FR 8432, 9146, 9753. In addition, FRA has just received two more requests that will appear in the **Federal Register** in the near future.

To assist FRA in conducting this hearing, any individual or organization desiring to present testimony is requested to notify FRA prior to the hearing and to provide FRA with the name and title of the person expected to testify as well as an estimate of the amount of time required for the presentation.

Issued in Washington, D.C., on April 12, 1985.

John H. Riley,

Administrator.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

Forest Service

[Docket No. 85-327]

Gypsy Moth Suppression and Eradication Projects; Final Environmental Impact Statement as Supplemented—1985; Decision

AGENCY: Animal and Plant Health Inspection Service and Forest Service, USDA.

ACTION: Notice of decision.

SUMMARY: This gives notice that based on the environmental analysis as documented in the Final Environmental Impact Statement, (FEIS), as Supplemented consideration of comments made at public meetings, and comments received on the draft supplement, a decision has been made to adopt Alternative 4 as identified in the FEIS as Supplemented. Alternative 4 provides for an integrated pest management (IPM) approach for gypsy moth suppression and eradication projects and is environmentally preferable to the other alternatives identified in the FEIS as Supplemented.

FOR FURTHER INFORMATION CONTACT: Gary Moorehead, Staff Officer, Field Operations Support Staff, Plant Protection and Quarantine, APHIS, USDA, Room 663, Federal Building, Hyattsville, MD 20782, (301) 436–8295; or Thomas N. Schenarts, Area Director, Insect Disease Management Staff, Northeastern Area, State and Private Forestry, Forest Service, U.S. Department of Agriculture, 370 Reed Road, Broomall, PA 19008, (215) 461–3158.

SUPPLEMENTARY INFORMATION: The 1984 final EIS on gypsy moth suppression and eradication projects was filed with the U.S. Environmental Protection Agency and made available to the public on March 16, 1984. Since the issuance of the 1984 final EIS, the Department received additional comments and obtained additional information concerning health risks of the insecticides discussed in that document. As a result of those comments and information, the Forest Service and Animal and Plant Health Inspection Service (APHIS) published a notice in the **Federal Register** on August 23, 1984 (49 FR 33471) announcing their intent to prepare a supplement to the 1984 final EIS.

On December 14, 1984, the draft Supplement to the final Environmental Impact Statement was filed with the Environmental Protection Agency (EPA). The four alternatives considered were: (1) No action; (2) Chemical insecticide treatment; (3) Biological insecticide treatment; and (4) Integrated pest management. A notice was published on December 21, 1984, (49 FR 49649) announcing the availability and requesting comments on the draft Supplement to the EIS. The official comment period ended on February 4, 1985. However, comments on the draft were accepted and responded to through February 21, 1985. The EIS as Supplemented significantly revised Appendix F with regard to an analysis of the human health risks of using acephate, carbaryl, diflubenzuron and trichlorfon insecticides in gypsy moth suppression and eradication projects.

In preparing the FEIS, as Supplemented comment letters were reviewed in detail to determine if any concerns, issues or data were presented that would alter or revise the assumption or conclusions drawn from the risk analysis or influence the adoption of Alternative 4. No information was presented that would alter the selection of this Alternative for implementation in proposed cooperative gypsy moth suppression or eradication projects.

Subsequent to publishing the FEIS as Supplemented we learned that the U.S. Environmental Protection Agency developed a list of pesticides "possibly contaminated with dioxin." Diflubenzuron was on the list of pesticides which was published in the February 20 issue of Pesticide and Toxic Chemical News. We have subsequently discussed the possible diozin contamination of diflubenzuron with both EPA and the registrant, Uniroyal Inc. EPA concluded that the list was only speculative and 2,3,7,8-tetrachlorodibenzo-p-dioxin was not an anticipated contaminant. Moreover, the registrant has found no chlorinated dibenzo-p-dioxins or dibenzofurans in analysis of technical grade diflubenzuron run at 0.01 ppm sensitivity. Therefore, we conclude that diflubenzuron is not contaminated with detectable levels of dioxin, and the possibility of dioxin contamination is not an issue needing further discussion in the FEIS, as Supplemented.

Implementation of Alternative 4, IPM, an integrated pest management alternative in gypsy moth suppression and eradication projects will provide for mitigation and monitoring measures to minimize environmental impacts of the techniques utilized, while maximizing established natural controls in the majority of areas affected by the insect. Biological and chemical insecticides registered pursuant to the Federal Insecticide Fungicide and Rodenticide Act will be applied according to label directions. Appropriate public involvement, public notification, and utilization of mitigating measures for insecticide treatments will further reduce human exposure during periods of application. Specific mitigation and monitoring measures, and public involvement and notification procedures will be identified and addressed in site-specific environmental analyses.

Alternative 4, IPM, will be carried out by the USDA Forest Service and APHIS through technical and financial assistance to cooperating State and Federal agencies. Decisions on granting such assistance will be made on the basis of site-specific environmental analyses conducted in accordance with the National Environmental Policy Act (NEPA) regulations, agency operating procedures, and other applicable laws.

The decision to adopt Alternative 4 conforms with the Forest Service mission as defined in the Cooperative Forestry Assistance Act of 1978 (Public Law 95–313) to suppress or prevent pest population outbreaks by methods that will restore, maintain, and enhance the quality of the environment through cooperative efforts with Federal land managers, State Foresters, or equivalent State officials.

The decision also conforms with the Animal and Plant Health Inspection Service mission as outlined in the Plant

Quarantine Act of August 20, 1912 (7 U.S.C. 151–165 and 167), the Organic Act of September 21, 1944 (7 U.S.C. 147a), and the Federal Plant Act of May 23, 1957 (7 U.S.C. 150aa—150jj). These authorities direct APHIS cooperative State regulatory programs to retard the artificial, long-range spread of the gypsy moth and to eradicate isolated infestations of the pest.

Dated: April 15, 1985.

R. Max Peterson,

Chief, Forest Service.

Bert W. Hawkins,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–11–M

Forest Service

Alaska Region, Chugach National Forest; Intent To Prepare an Environmental Impact Statement

The Chugach National Forest will prepare an environmental impact statement to disclose the environmental consequences of developing winter recreation facilities.

Four sites on the Kenai Peninsula portion of the Forest are being considered for a variety of winter recreation uses and development. The sites include Glacier/Winner Creek in Girdwood Valley, Seattle Creek south of Girdwood Valley across Turnagain Arm, Tincan Mountain at Turnagain Pass and Manitoba Mountain near Summit Lake.

A wide range of alternatives will be considered including development of facilities to serve a variety of winter recreation users at one or more of the sites being evaluated. The type of development and/or allocation being considered includes alpine ski area development (2500 to 7500 skiers at one time), nordic skiing, snowmachining and other winter recreation uses (sledding, dog mushing, etc.).

We invite other Federal, State, and local agencies, and interested individuals and groups to participate in the project, including the initial scoping which will continue through June 15, 1985.

The Final EIS should be finished by April 15, 1987, with the Draft EIS out during the early fall of 1986. If development of facilities at one or more of the locations is approved a developer(s) will be chosen using a competitive process.

Written comments and questions should be directed to Jim Tallerico, Recreation Specialist, Chugach National Forest, 201, E. 9th Avenue, Suite 206, Anchorage, Alaska 99501. His phone number is 261–2510.

Dalton Du Lac,

Forest Supervisor, Chugach National Forest.

Georgia Advisory Committee; Agenda and Public Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Georgia Advisory Committee to the Commission will convene at 3:30 p.m. and will end at 6:00 p m. on June 21, 1985, at the Marriott Hotel Downtown, Courtland & International Boulevard, the Thornwood Room, Atlanta, Georgia. The purpose of the meeting is to discuss program plans for 1985.

Persons desiring additional information, or planning a presentation to the Committee, should contact Advisory Committee Chairperson John Ruffin, or Bobby Doctor in the Southern Regional Office, (404) 221–4391.

The meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., April 8, 1985.

Bert Silver,

Assistant Staff Director for Regional Programs.

BILLING CODE 6335–01–M

Kentucky Advisory Committee; Agenda For Public Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Kentucky Advisory Committee to the Commission will convene at 1:00 p.m. and will end at 4:00 p.m. on June 18, 1985, at the Brown Hotel, 4th and Broadway, The Louisville Room, Louisville, Kentucky. The purpose of the meeting is for an orientation of the newly rechartered advisory committee members and discussion of the housing forum and Commissioners' briefing memorandum.

Persons desiring additional information, or planning a presentation to the Committee, should contact Advisory Committee Chairperson Paul Oberst, or Bobby Doctor of the Southern Regional Office at (404) 221–4391.

The meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C. April 5, 1985.

Bert Silver,

Assistant Staff Director for Regional Programs.

DEPARTMENT OF COMMERCE

International Trade Administration

Applications for Duty-Free Entry of Scientific Instruments; Children's Hospital of San Francisco et al.

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897; 15 CFR Part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with § 301.5(a) (3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C.

Docket No. 85–080R. Applicant: Children's Hospital of San Francisco, 3700 California Street, San Francisco, CA 94118. Instrument: Electron Microscope, Model EM 109 with Accessories. Manufacturer: Carl Zeiss, West Germany. Intended use: The instrument is intended to be used for research which includes but is not limited to the following:

(1) Morphometric analysis of ultrastructural changes in the tumor, Kaposi's sarcoma, prior to and after treatment.

(2) Examination of peripheral neuropathy syndrome.

(3) Study of the ultrastructure of muscle biopsy material from a newly described myopathic syndrome.

(4) Study of the localization and nature of membrane antigens on lymphocytes reacting with antilymphocyte antibiodies employing immunoelectron microscopy.

(5) Examination and morphological analysis of nerve biopsies in order to increase diagnostic sensitivity as well as providing further information about basic mechanisms in acute Guillain-Barre syndrome.

(6) Muscle fatigue study.

(7) Morphometric Analysis of lung cancer with respect to progression and prognosis.

(8) Determination of in vitro hormonal response to human carcinomas of breast and prostate.

Original application received by Commissioner of Customs: January 29, 1985.

Docket No. 84–294R. Applicant: University of Maryland, Baltimore, MD 21201. Instrument: Time-resolved Spectrofluorometer, Model 199S. Original notice of this resubmitted application was published in the Federal Register of October 5, 1984.

Docket No. 85–119. Applicant: Auburn University, Department of Chemical Engineering, 230 Ross Hall, Auburn, AL 36849. Instrument: Turbomolecular Pumps. Manufacturer: Leybold Heraeus GmbH and Company, West Germany. Intended use: Studies of surfaces, thin films, organic/inorganic compounds and absorbed gases. Speciments of particular interest include heterogeneous catalysts and multilayered thin films. The experiments to be conducted include: reaction of multicomponent thin films in selected gaseous atmospheres followed by surface characterization and depth profiling using secondary ion mass spectroscopy, electron energy loss spectroscopy, electron spectrosocopy for chemical analysis, and other available techniques. The primary educational function of the instrument will be in the training of M.S. and Ph.D. students during the course of their thesis research. Application received by Commissioner of Customs: March 15, 1985.

Docket No. 85–122. Applicant: David Taylor Naval Ship Research and Development Center, Annapolis, MD 21402–1198. Instrument: Electron Microscope, Model EM 420. Manufacturer: N.V. Philips, The Netherlands. Intended use: Studies of a variety of metals and alloys systems. Investigations will be conducted to evaluate new alloys and determine the effects of variations in the composition, manufacturing processes or environment on the various metals and alloys. Application received by Commissioner of Customs: March 15, 1985.

Docket No. 85–127. Applicant: Richard L. Roudebush VA Medical Center, 1481 West 10th Street, Indianapolis, IN 46202. Instrument: Electron Microscope, Model H–300 with Accessories. Manufacturer: Hitachi, Ltd., Japan. Intended use: The instrument will be used for experiments conducted to assess the effects of disease on the ultrastructural morphology of human and animal tissues for the purpose of discovering new medical knowledge consonant with the research programs of the Veterans Administration. Application received by Commissioner of Customs: March 13, 1985.

Docket No. 85–129. Applicant: Rensselaer Polytechnic Institute, Eight Street, Troy, NY 12180–3590. Instrument: Microscope Stage System. Manufacturer: Autoscan Systems Pty., Ltd., Australia. Intended use: Fission track analysis of several minerals to determine geological history. Application received by Commissioner of Customs: March 18, 1985.

Docket No. 85–130. Applicant: University of California, San Diego, Central Purchasing, Q–026, La Jolla, CA 92093. Instrument: Laser Doppler Flowmeter, Model Periflux. Manufacturer: PERIMED, K.B., Sweden. Intended use: Study of skin blood flow to develop diagnostic criteria for a variety of diseases e.g. Raynaud's syndrome, amputation level determination, diabetic vasomotor disturbances. A number of vasomotor responses will be studied to identify the potency of the cutaneous vascular bed as well as the responsiveness of the skin circulatory system to sympathomimetic stimuli. The instrument will also be used for laboratory training of undergraduate and graduate bioengineering students. The objective is to familiarize the students with the Doppler principal and modern non-invasive modalities to examine skin blood flow. Application received by Commissioner of Customs: March 18, 1985.

Docket No. 85–131. Applicant: Rutgers-The State University of New Jersey, Waksman Institute of Microbiology, P.O. Box 759, Piscataway, NJ 08854. Instrument: Refrigerated Microcentrifuge with Accessories. Manufacturer: Sigma Laborzentrifugen GmbH, West Germany. Intended Use: Research to determine if the genes of plastids are regulated by transcription, translation, at some other level or if it is unregulated. Application received by Commissioner of Customs: March 18, 1985.

Docket No. 85–132. Applicant: University of Colorado, Boulder, Department of Molecular, Cellular & Developmental Biology, Box 347, Boulder, CO 80309. Instrument: High Pressure Freezing Apparatus (Prototype). Manufacturer: Balzers AG, Switzerland. Intended use: Study of the basic organization of cells, and how cell architecture is changed by disease. Work will also include basic testing of the usefulness of the instrument for biological research, development of application procedures, and testing of design modifications. The instrument will also be used to train undergraduate and graduate students as well as postdoctoral fellows in the use of the most advanced techniques in structural

cell biology. Application received by Commissioner of Customs: March 18, 1985.

Docket No. 85–133. Applicant: Department of the Interior, U.S. Geological Survey, National Mapping Division, Box 25046, MS 509, Denver Federal Center, Denver, CO 80225. Instrument: Automatic Geodetic Level, Model NI 002 with Accessories. Manufacturer: aus JENA, East Germany. Intended use: Long-term monitoring designed to reveal crustal motion which may be detrimental to underground hazardous nuclear waste disposal sites and to support geologic and hydrologic investigations to suspected crustal movements, within the Long Valley Caldera, California. Application received by Commissioner of Customs: March 20, 1985.

Docket No. 85–135. Applicant: Montana State University, Bozeman, MT 59717. Instrument: Electron Microscope, Model EM 10 CA with Accessories. Manufacturer: Carl Zeiss, Inc., West Germany. Intended use: Studies of bacteria, fungi, viruses, and animal and plant tissues in a biomedical research project. Plant tissues, viruses, bacteria, and fungi will be studied in an agricultural research project. In addition, the instrument will be used for educational purposes in the courses "Biological Electron Microscopy" PLP 520 and "Plant Virology" PLP 530. Application received by Commissioner of Customs: March 20, 1985.

Docket No. 85–136. Applicant: National Institutes of Health, Building 36, Room 4A29, 9000 Rockville Pike, Bethesda, MD 20205. Instrument: Electron Microscope, Model EM 410 with Accessories. Manufacturer: N.V. Philips Electronic Instruments, The Netherlands. Intended use: Research on the cellular mechanisms of myelin formation, maintenance and breakdown in the nervous system of normal and diseased humans and experimental animals. The material to be studied includes myelinated tracts or nerves obtained surgically which may be frozen or chemically fixed, embedded and sectioned for electron microscopic examination. Application received by Commissioner of Customs: March 22, 1985.

Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee; Partially Closed Meeting

A meeting of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee will be held May 7, 1985, at 11:30 p.m., Herbert C. Hoover Building, Room 3708, 14th Street and Constitution Avenue, NW., Washington, D.C. The Committee advises the Office of Export Administration with respect to technical questions which affect the level of export controls applicable to computer peripherals, components and related test equipment or technology.

General Session

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. Discussion of the status on the technical data regulations.
4. Report of the Joint Technical Advisory Committee Meeting.
5. Report on membership by the Chairman.
6. Items for decontrol.
7. DOC response to the letter from the Committee to the Under Secretary for International Trade concerning CCL 1565.
8. Discussion of the proposed foreign availability regulations.

Executive Session

9. Discussions of matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The general session will be open to the public with a limited number of seats available. A Notice of Determination to close meetings or portions of meeting of the Committee to the public on the basis of 5 U.S.C. 552b(c)(1) was approved on February 6, 1984, in accordance with the Federal Advisory Committee Act. A copy of the Notice is available for public inspection and copying in the Central Reference and Records Inspection Facility, 6628, U.S. Department of Commerce, (202) 377–4217.

For further information or copies of the minutes contact Margaret A. Cornejo (202) 377–2583.

Dated: April 16, 1985.

Milton M. Baltas,

Director, Technical Programs Staff, Office of Export Administration.

[C–351–020]

Non-Rubber Footwear From Brazil; Final Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of Final Results of Administrative Review of Countervailing Duty Order.

SUMMARY: On March 9, 1983, the Department of Commerce published the preliminary results of its administrative review of the countervailing duty order on non-rubber footwear from Brazil. The review covers the period December 7, 1979, through December 31, 1980.

We gave interested parties an opportunity to comment on the preliminary results. After review of all comments received, the Department has determined the net subsidy to be 11.03 percent *ad valorem* for the period December 7, 1979, through December 31, 1979, and 8.84 percent *ad valorem* for 1980.

EFFECTIVE DATE: April 19, 1985.

FOR FURTHER INFORMATION CONTACT: Lorenza Olivas or Peggy Clarke, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On March 9, 1983, the Department of Commerce ("the Department") published in the **Federal Register** (48 FR 9901) the preliminary results of its administrative review of the countervailing duty order on non-rubber footwear from Brazil (39 FR 32903, September 12, 1974). The Department has now completed that administrative review in accordance with section 751 of the Tariff Act of 1983 ("the Tariff Act").

On June 2, 1983, the International Trade Commission ("the ITC") published its determination that an industry in the United States would not be materially injured, or threatened with material injury, by reason of imports of Brazilian non-rubber footwear if the order were revoked (48 FR 24796). Consequently, the Department published in the **Federal Register** (48 FR 28310, June 21, 1983) a revocation of the order with respect to all merchandise entered, or withdrawn from warehouse, for consumption on or after October 29, 1981.

Scope of the Review

Imports covered by the review are shipments of Brazilian non-rubber footwear currently classifiable under Part 1A of Schedule 7 of the Tariff Schedules of the United States Annotated, excluding items 700.5100 through 700.5400, 700.5700 through 700.7100, and 700.9000. The preliminary results notice erroneously included items 700.5400 and 700.9000; these items are not within the scope of the order and are not covered by these final results.

The review covers the period December 7, 1979, through December 31, 1980, and twelve programs: (1) Preferential financing for exports through CECEX; (2) an income tax exemption for export earnings; (3) the export credit premium for the Goods Circulation Tax ("ICM"); (4) the export credit premium for the Industrial Products Tax ("IPI"); (5) tax reductions on equipment used in export production ("CIEX"); (6) preferential financing under CIC–CREGE 14–11; (7) incentives for trading companies (Resolution 643); (8) the Fundo de Democratizacao do Capital das Empresas; (9) fiscal benefits for special export programs ("BEFIEX"); (10) preferential financing for the storage of merchandise destined for export (Resolution 330); (11) Gold Draft of Exportation; and (12) preferential export financing under Resolution 68 ("FINEX").

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results. We received written comments from the petitioner, Footwear Industries of America, Inc., and from the Volume Footwear Re'ailers of America ("VFRA"), a group of importers.

Comment 1: The petitioner argues that the appropriate benchmark for short-term export financing is not the discount rate for sales of domestic cruzeiro-denominated accounts receivable, used by the Department in reaching its preliminary results, but rather the "Advance Over the Exchange Contract." In an advance over the exchange rate transaction, the exporter assigns its foreign account receivable to a Brazilian bank and receives the discounted dollar value of the export shipment in cruzeiros. The petitioner believes that these foreign currency transactions are the most common form for raising working capital for export financing and, therefore, should be the basis for the benchmark. The advance benchmark properly reflects the fact that common Brazilian commercial practice places the risk of depreciation of the cruzeiro against the foreign currency receivable on the borrower.

Department's Position: In choosing the benchmark for countervailable short-term loans, we seek instruments commonly used that are most similar to the loan we are countervailing. A borrower under Resolution 674 receives cruzeiros today and repays cruzeiros in the future. The discounting of cruzeiro-denominated accounts receivable is also an exchange of current cruzeiros for future cruzeiros. While a discount of dollars receivable can be converted into an exchange of current of cruzeiros for furture cruzeiros, something is added in the conversion, the exchange rate. Since exchange rates fluctuate, the cost of discounting dollars receivable must differ from the cost of discounting cruzeiros receivable. Therefore, discounting of dollar-denominated accounts receivable is not an appropriate benchmark for short-term cruzeiro-denominated loans.

Comment 2: The Petitoner argues that, even if the Department were to use the discount of cruzeiro-denominated accounts receivable as the commercial benchmark for short-term loans, the benchmark used in the preliminary calculations, was incorrect for three reasons: (1) The Department use the official rate established by the Banco do Brasil, which cannot be regarded as a commercial institution, rather than a weighted-average of the discount rates from banks other than the Banco do Brasil; (2) the Department calculated a simple annual rate rather than a compounded annual rate; and (3) the department did not consider the effect of compensating balances on the discount rate.

Department's Position: We agree that the rate offered by the Banco do Brasil alone does not accurately reflect the national average for discounting of cruzeiro accounts receivable. Rates established solely by banks other than Banco do Brasil also do not. We are therefore using a national average rate of both.

We agree that a simple annual rate for discounts of accounts receivable is inappropriate. We have now calculated our benchmark from the national average nominal rate for 30-day discounts of accounts receivable as found in *Analise/Business Trends*. From this rate, we then calculated the compounded annual commercial benchmark.

Concerning the argment that the Department must account for compensating balances in establishing the benchmark, Department officials met with representatives of four privately-owned Brazilian banks in connection with a recent verification concerning pig iron from Brazil. All of the bank representatives indicated that they do not uniformly require either compensating balances or minimum deposits. In many cases, the banks lend only to a few favored clients, and the banks do not require compensating balances since the clients maintain a sufficient volume of business overall. When such balances are required, the size and terms of the requirement may vary widely. Because the Department has no evidence of a uniform requirement for compensating balances nor a reliable measure of the extent to which compensating balances are actually used, we have decided not to use compensating balances in calculating our benchmark interest rate. (*see also*, our final affirmative countervailing duty determination on oil country tubular goods from Brazil, 49 FR 46570, November 27, 1984.)

For our preliminary results, we calculated the benefit from a loan by prorating the loan amount over the portion of the review period during which the loan was outstanding irrespective of the timing of the interest payment. We not believe that the benefit occurs when the cash flow effect occurs. For loans under Resolution 515, 602, 641 and 643, and for CIC–CREGE 14–11 loans, that effect occurred when the borrower made the preferential interest payments. We calculated the benefit based on the date of payment. We divided the total number of days the loan was outstanding by 365 days and applied the resulting ration to the interest differential (the difference between the annual commercial benchmark and the preferential interest rate at the time of drawdown). Then we multiple the result by the affected loan principal.

Based on our recalculations, we determine the benefit from Resolutions 514, 602 and 641 financing to be 10.20 percent *ad valorem* for the period December 7, 1979, through December 31, 1979, and 7.62 percent *ad valorem* for 1980; for CIC–CREGE 14–11, 0.35 percent *and valorem* for the period of review; and for Resolution 643, 0.02 percent *ad valorem* for the period of review.

Comment 3: The petitioner argues that, for the income tax exemption for export earnings, the Department should not reduce the benefit by the amount of potentially owed taxes that corporate taxpayers may direct into various specified investment funds.

Department Position: We agree and we have not made such a reduction.

Comment 4: The petitioner contends that the Department should assess a countervailing duty on exports during 1981 to compensate for the delay until 1982 of payment of the export tax offsetting the IPI credit premium. The petitioner has particular criticisms of our method of calculation of the benefit in other cases.

Department's Position: The petitioner's contentions are premature. The Department will address this issue in the next administrative review.

Comment 5: The petitioner argues that the Department should determine the extent to which the Brazilian government collected an additional offsetting export tax of 8 percent. This tax was allegedly imposed by the Brazilian government on July 28, 1982, on exports of non-rubber footware to the United States to offset the remaining potential subsidy calculated by the Department.

Department's Position: The issue is irrelevant. The Department revoked the order effective October 29, 1981, on the basis of the ITC's negative determination under section 104(b) of the Trade Agreements Act of 1979 (the "TAA") (48 FR 28310, June 21, 1983). Even so, the Department has verified that the Brazilian government collected the export tax.

Comment 6: VFRA argues that the results of section 751 reviews of countervailing duty orders issued under section 303 of the Tariff Act are to be applied prospectively. There is no authority in the law permitting suspension of liquidation pending the completion of administrative reviews or the retroactive assessment of countervailing duties. VFRA cites the decision of *Florsheim Shoe Company* v. *United States*, 577 F. Supp. 196 (Ct. Int'l Trade 1983), as support for its position.

Department's Position: In *Ambassador Division of Florsheim Shoe* v. *United States*, Appeal No. 84–819 (Fed. Cir. Nov. 19, 1984), the Court of Appeals for the Federal Circuit (the "CAFC") reversed the CIT decision. The CAFC ruled that the ITA has the authority to suspend liquidation of entries and to retroactively assess duties on those entries based on a section 751 review.

Comment 7: VFRA states that, even if the law permits suspension of liquidation pending completion of reviews, it does not authorize continued suspension if the Department fails to complete a review by the time limits set forth in section 751 of the Tariff Act. Since the Department did not complete its administrative review by the anniversary date of the order, entries made during the review period should automatically be liquidated in accordance with section 504(a) of the Tariff Act.

Department's Position: In *Florsheim Shoe, supra*, the CAFC concluded that the statutory scheme permits suspension of liquidation of entries and the later assessment of duties on those entries based on a section 751(a) review. It does not follow that, if the ITA does not complete the review within the time specified by section 751(a), the ITA may never complete the review and never order assessment of any countervailing duties on the merchandise covered by that 751 review. No provision of the Tariff Act specifies a consequence for failure to complete a review within the 12-month period beginning on the anniversary of the date of publication of an outstanding countervailing duty order specified in section 751(a). The statutory period referred to in section 751(a) for conducting a periodic review is merely directory, not mandatory (see *Alberta Gas Chemicals, Inc.* v. *Unites States*, 1 CIT 312, 315–316, 515 F. Supp. 780, 785 (1981), and the cases there cited).

Comment 8: VFRA claims that section 104(b)(4)(B) of the TAA refers to *any* countervailing duties collected since the TAA became effective. VFRA argues that the revocation of the order should apply to entries made since January 1, 1980 (not just those since the date of ITC notification to the Department of the section 104(b) injury request, *i.e.*, October 29, 1981) and that all estimated countervailing duties collected since the earlier date should be refunded without interest.

Department's Position: We do not agree. Under the transition provisions of the TAA, section 104(b) provides that revocations resulting from negative injury determinations apply retroactively to the date of the ITC's notification to the administering authority. The law is explicit in its instruction concerning this issue and we have followed that practice in all revocations under section 104(b) by the Department.

Final Results of the Review

Based on our analysis of the comments received and our recalculation of the benefits from the preferential financing programs, we determine the aggregate net subsidy to be 11.03 percent for the period December 7, 1979, through December 31, 1979, and 8.84 percent for the period January 1, 1980, through December 31, 1980. Accordingly, the Department will instruct the Customs Service to assess countervailing duties of 11.03 percent of the f.o.b. invoice price on all shipments of Brazilian non-rubber footwear exported on or after December 7, 1979, and on or before December 31, 1979. The Department will instruct the Customs Service to assess countervailing duties of 8.84 percent of the f.o.b. invoice price on all shipments exported on or after January 1, 1980, and on or before December 31, 1980.

All unliquidated entries of this merchandise that were exported from Brazil before December 7, 1979, shall be liquidated at the applicable rates set forth in **Federal Register** notices dated May 17, 1979 (44 FR 28791), July 3, 1979 (44 FR 38839), September 28, 1979 (44 FR 55825) and February 26, 1980 (45 FR 12413).

The Department still must review the period January 1, 1981, through October 28, 1981, and is immediately beginning that review. The Department encourages interested parties to review the public record and submit applications for protective order, if desired, within ten days of the date of publication of this notice.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: April 14, 1985.

Alan F. Holmer,

Deputy Assistant Secretary, Import Administration.

BILLING CODE 3510–DS–M

Technical Regulations Subcommittee of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee; Partially Closed Meeting

A meeting of the Technical Regulations Subcommittee of the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee will be held May 7, 1985, at 9:00 a.m., Herbert C. Hoover Building, Room 3708, 14th Street and Constitution Avenue NW., Washington, D.C. The Technical Regulations Subcommittee was formed to review the procedural aspects of export licensing and recommend areas where improvements can be made.

General Session

1. Opening remarks by the Subcommittee Chairman.

2. Presentation of papers or comments by the public.

3. Review of Committee Chairman's letter to the Under Secretary for International Trade concerning CCL

1565 proposed revisions (embedded and incorporated).

4. Secretary Baldrige comments on decontrol—a focus for our Committee: What do these remarks mean? (General Discussion)

5. Foreign availability and areas where decontrol is obvious.

6. Magnetic media—where does hardware capacity obviate decontrol of media for example, personal computers and 5¼" floppy discs.

7. Recommendations for specific commodities for decontrol. What are the mechanics to accomplish this?

8. Action items underway.

9. Action items due at next meeting.

Executive Session

10. Discussion of matters properly classified under Executive Order 12356, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting will be open to the public and a limited number of seats will be available. To the extent time permits, members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on February 6, 1984, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government in the Sunshine Act, Pub. L. 94–409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1) and are properly classified under Executive Order 12356.

A copy of the Notice of Determination to close meetings or portions thereof is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 6628, U.S. Department to Commerce, Telephone: 202–377–4217. For further information or copies of the minutes contact Margaret A. Cornejo, (202) 377–2583.

Dated: April 16, 1985.

Milton M. Baltas,

Director, Technical Programs Staff, Office of Export Administration.

National Bureau of Standards

[Docket No. 41044–4144]

Proposed Federal Information Processing Standard; Videotex/ Teletext Presentation Level Protocol Syntax (North American PLPS)

Correction

In FR Doc. 85–8541, beginning on page 14128 in the issue of Wednesday, April 10, 1985, make the following corrections.

On page 14129, first column:

1. In the eighth line from the bottom of the page, "could" should have read "would".

2. In the fifteenth line from the bottom of the page, "X3.100–1983" should have read "X3.110–1983".

BILLING CODE 1505-01-M

National Oceanic and Atmospheric Administration

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The North Pacific Fishery Management Council's Permit Review Committee will meet May 1, 1985, at 1:30 p.m. in Room 337 in the Federal Building in Juneau, AK. They will discuss the types of conditions and restrictions that should be placed on joint ventures and foreign fishing permit applications, and review the Council's Interim Policy on Joint Ventures and Allocations.

Dated: April 15, 1985.

Richard B. Roe,

Director, Office of Protected Species and Habitat Protection, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing an Import Restraint Level for Certain Cotton Textile Products Produced or Manufactured in Bangladesh

April 15, 1985.

On February 26, 1985, a notice was published in the **Federal Register** (50 FR 7811) announcing that, on January 29, 1985, the United States Government, under Article 3 of the Arrangement Regarding International Trade in Textiles, had requested the Government of Bangladesh to enter into consultations concerning exports to the United States of men's and boys' other cotton coats in Category 334, produced or manufactured in Bangladesh.

The United States Government has decided, inasmuch as consultations with the Government of Bangladesh held April 2–5, 1985 failed to reach a mutually satisfactory solution concerning this category, to control imports of cotton textile products in Category 334, produced or manufactured in Bangladesh and exported during the twelve-month period which began on Janaury 29, 1985 and extends through January 28, 1986 at a level of 31,068 dozen.

Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton textile products in Category 334 exported during the twelve-month period which began on January 29, 1985, in excess of the designated level of restraint.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Effective Date: April 19, 1985.

For Further Information Contact: Diana Solkoff, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. (202/377–4212).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

April 15, 1985.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles: done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; and in accordance with the provision of Executive Order 11651 of March 3, 1972, as amended, you are directed effective on April 19, 1985, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 334,

produced or manufactured in Bangladesh and exported during the twelve-month period which began on January 29, 1985, in excess of 31,068 dozen.[1]

Textile products in Category 334 which have been exported to the United States prior to January 29, 1985 shall not be subject to this directive.

Textile products in Category 334 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this actions falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 85-9468 Filed 4-18-85; 8:45 am]

BILLING CODE 3510-DR-M

Requesting Public Comment on Bilateral Consultations With the Government of the People's Republic of China Concerning Category 359pt. (Infants' Sets)

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on April 19, 1985. For further information contact Diana Solkoff, International Trade Specialist (202) 377-4212.

Background

On March 29, 1985, pursuant to the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 19, 1983 between the Governments of the United States and the People's Republic of China, the Government of the United States requested consultations concerning imports into the United States of infants' sets in Category 359pt. (only TSUSA numbers 383.0339, 383.0341, 383.0342, 383.0344, 383.0856, 383.0857, 383.0858, 383.0859, 383.0861, 383.3045, 383.3046, 383.3047, 383.3048, 383.5062, 383.5063, 383.5067, 383.5069 and 383.5072, produced or manufactured in China and exported to the United States. A summary market disruption statement concerning this category follows this notice.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Anyone wishing to comment or provide data or information regarding the treatment of this category under the agreement with the People's Republic of China, or on any other aspect thereof, or to comment on domestic production or availability of textile products included in the category, is invited to submit such comments or information in ten copies to Mr. Walter C. Lenahan, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230. Because the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 3100, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C., and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

Pursuant to the terms of the bilateral agreement, the People's Republic of China is obligated under the consultation provision to limit its exports to the United States of this product during the ninety-day period which began on March 29, 1985 and extends through June 26, 1985 to 351,541 pounds.

The People's Republic of China is also obligated under the bilateral agreement, if no mutually satisfactory solution is reached during consultations, to limit its exports to the United States during the twelve-months following the ninety-day consultation period to 1,112,732 pounds (June 27, 1985–June 26, 1986).

The United States Government has decided, pending a mutually satisfactory solution, to control imports of textile products in Category 359pt., exported during the ninety-day period at the level described above. The United States remains committed to finding a solution concerning this category. Should such a solution be reached in consultations with the Government of the People's Republic of China, further notice will be published in the **Federal Register.**

In the event the limit established for Category 359pt. for the ninety-day period is exceeded, such excess amounts, if allowed to enter at the end of the restraint period, shall be charged to the level (described above), defined in the agreement for the subsequent twelve-month period.

SUPPLEMENTARY INFORMATION: On December 28, 1984 a letter to the Commissioner of Customs was published in the **Federal Register** (49 FR 50432) from the Chairman of the Committee for the Implementation of Textile Agreements which established restraint limits for certain categories of cotton, wool and man-make fiber textile products, produced or manufactured in the People's Republic of China and exported during 1985. The notice document which preceded that letter referred to the consultation mechanism which applies to categories of textile products under the bilateral agreement, such as Category 359pt. which is not subject to a specific ceiling and for which a level may be established during the year. In the letter published below, pursuant to the bilateral agreement, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of apparel products in Category 359pt., produced or manufactured in the People's Republic of China and exported during the

[1] The level of restraint has not been adjusted to reflect any imports exported after January 28, 1985.

indicated ninety-day period, in excess of the designated level.

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

China—Market Statement

Category 359 Pt.—Infant's Sets Up to and Including 24 Months

March 1985.

Summary and Conclusions

United States imports of Category 359 infant's sets from China increased from 298,000 pounds in 1982 to 344,000 in 1983 and to 963,000 pounds in 1984. Imports from China in 1984 were up 180 percent from the same period in 1983. China is the third largest supplier of these sets, accounting for 11 percent of the total imports.

The substantial increase in imports of Category 359 infants' sets from China was a major factor in the disruption occurring in the U.S. market for these items. Continuation of the increases in imports threaten to increase the market disruption.

The U.S. industry producing these infants' sets is highly fragmented with three largest firms accounting for only about 15 percent of total production. These three major manufacturers report substantial unit declines in production due to increased imports. Their representatives report that the smaller firms are experiencing production declines equal or more serious than those experienced by the three major firms.

The market disruption for Category 359 infants' sets which has occurred for several years intensified in 1984 as imports surged. Over the years, production declined, imports increased, and the domestic producer's share of the market decreased. In 1983, the domestic share was 60.5 percent, down from 67.0 in 1981. It is anticipated that the 1984 share will decline to 44.0 percent. This decline is based on a projection that the market will increase by 2 percent and on 1984 imports and assuming no change in inventories.

U.S. Production

Production of Category 359 infants' sets declined from 2,569,000 dozens in 1981 to 2,469,000 dozen in 1983. With an anticipated market growth of two percent, domestic production likely totaled only 1,831,000 dozens in 1984.

U.S. Imports and Import Ratios

Imports increased from 1,264,000 dozens (4.3 million pounds) in 1981 to 1,610,000 dozens (5.5 million pounds) in 1983. Imports in 1984 were 2,330,000 dozens (8.6 million pounds). Imports were equal to 49.2 percent of the 1982 production, 65.2 percent of the 1983 production, and an estimated 127.3 percent in 1984.

During 1984, 47 percent of the Category 359 infants' sets imports from China entered under TSUSA No. 383.3060 and 46 percent under TSUSA No. 383.5075. These imports were valued well below the U.S. producer prices for comparable garments.

April 15, 1985.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 19, 1983, between the Governments of the United States and the People's Republic of China; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on April 19, 1985, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 359 pt.[1] produced or manufactured in the People's Republic of China and exported during the ninety-day period which began March 29, 1985 and extends through June 26, 1985, in excess of 351,541 pounds.[2]

Textile products in Category 359pt.[1] which have been exported to the United States prior to the first day of the indicated ninety-day period shall not be subject to this directive.

Textile products in Category 359pt.[1] which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this action falls within foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

DEPARTMENT OF DEFENSE

Office of the Secretary

Annual Review of the Manual for Courts-Martial

SUMMARY: The Department of Defense is considering recommending changes to the Manual for Courts-Martial, Exec. Order No. 12473, as amended by EO 12484. The proposed changes are part of the annual review required by the Manual for Courts-Martial and DoD Directive 5500.17, "Review of the Manual for Courts-Martial," January 23, 1985. The proposed changes have not been coordinated within the Department of Defense under DoD Directive 5500.1, "Preparation and Processing of Legislation, Executive Orders, Proclamations, and Reports and Comments Thereon," May 21, 1964, and do not constitute the official position of the Department of Defense, the Military Departments, or any other government agency.

The proposed changes include modifications to the Rules for Courts-Martial relating to the competency of an accused to stand trial, the defenses of lack of mental responsibility and partial mental responsibility, speedy trial, punitive separations prescribed for noncommissioned warrant officers, advice concerning post-trial and appellate rights, and instructions regarding lesser included offenses which are barred by the statute of limitations. They also include modifications to the Military Rules of Evidence relating to confessions and admissions, searches and seizures, and admissibility of expert testimony with respect to the mental state or condition of an accused.

This notice is provided in accordance with DoD Directive 5500.17, "Review of the Manual for Courts-Martial," January 23, 1985. It is intended only to improve the internal management of the federal government. It is not intended to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or any person.

ADDRESS: Copies of the proposed changes, and the accompanying Discussion and Analysis, may be examined at the Military Law Branch, Room 1004, Federal Building No. 2 (Navy Annex), Judge Advocate Division, Headquarters, United Sates Marine Corps, Washington, D.C. A copy of the proposed changes and accompanying Discussion and Analysis may be obtained by mail upon request from the following address: Headquarters, U.S. Marine Corps (JAM), Washington, D.C. 20380–0001, Attn: Major D.P. O'Neil.

DATE: Comments on the proposed changes must be received not later than July 3, 1985 for consideration by the Joint-Service Committee on Military Justice.

FOR FURTHER INFORMATION CONTACT: Major D.P. O'Neil, (202) 694–4197.

Dated: April 15, 1985.

BILLING CODE 3810–01–M

Department of the Navy

Chief of Naval Operations; Executive Panel Advisory Committee; Anti-Submarine Warfare Task Force; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app.), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel Advisory Committee Anti-Submarine Warfare Task Force will meet May 9, 1985, from 9 a.m. to 5 p.m., at 2000 North Beauregard Street, Alexandria, Virginia. All sessions will be closed to the public.

The purpose of this meeting is to evaluate U.S. Navy anti-submarine warfare long term strategies. The entire agenda for the meeting will consist of discussions of key issues related to anti-submarine warfare and related intelligence. These matters constitute classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting, contact Lieutenant Thomas E. Arnold, Executive Secretary of the CNO Executive Panel Advisory Committee, 2000 North Beauregard Street, Room 392, Alexandria, Virginia 22311. Phone (703) 756–1205.

Dated: April 16, 1985.

Naval Research Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app.), notice is hereby given that the Naval Research Advisory Committee Panel or Joint C^3 Interoperability will meet on May 6–8, 1985, at the Headquarters of USCINCEUR, Vaihingen, Germany; CINCUSAREUR, Heidleberg, Germany; and CINCUSAFE, Ramstein, Germany. The agenda will include operation briefings from these U.S. Commands on their respective command and control systems, requirements, and infrastructure capability. Each session will commence at 8:30 A.M. and terminate at 4:30 P.M. daily on May 6, 7, and 8, 1985. All sessions of the meeting will be closed to the public.

The purpose of the meeting is to examine the quality of joint command and control systems and assess future requirements and infrastructure capability. The entire meeting will consist of classified information that is specifically authorized under criteria established by Executive order to be kept secret in the interest of national defense and is in fact properly classified pursuant to such Executive order. The classified and nonclassified matters to be discussed are so inextricably intertwined as to preclude opening any portion of the meeting. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting contact: Commander M.B. Kelley, U.S. Navy, Office of Naval Research (Code 100N), 800 North Quincy Street, Arlington, VA 22217, Telephone number (202) 696–4870.

Naval Research Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committeee Act (5 U.S.C. app.), notice is hereby given that the David W. Taylor Naval Ship Research and Development Center (DTNSRDC) Review Team of the Naval Research Advisory Committee Panel on Laboratory Oversight will meet on May 7, 1985, at the David W. Taylor Naval Ship Research and Development Center, Carderock, Maryland. The first and only session of the meeting will commence at 8:30 a.m. and terminate at 5:00 p.m. on May 7. This meeting session will be closed to the public.

The purpose of the meeting is to examine the scientific, technical, and engineering health of DTNSRDC. The agenda for the meeting will consist of technical briefing by the Review Team to the DTNSRDC management and discussion among the Review Team members to begin consolidating a draft report. The entire meeting will consist of classified information that is specifically authorized under criteria established by Executive order to be kept secret in the interest of national defense and is in fact properly classified pursuant to such Executive order. The classified and nonclassified matters to be discussed are so inextricably intertwined as to preclude opening any portion of the meeting. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of Title 5, United States Code.

DEPARTMENT OF ENERGY

Intent To Grant Exclusive Patent License; Acctek Associates Inc.

Notice is hereby given of an intent to grant to Acctek Associates Inc. of La Grange, Illinois, an exclusive license to practice in the United States the invention described in U.S. Patent No. 3,986,026, entitled "Apparatus for Proton Radiography." The patent is owned by the United States of America, as represented by the Department of Energy (DOE).

The proposed license will be exclusive, subject to a license and other rights retained by the U.S. Government. DOE intends to grant the license, upon a final determination in accordance with 35 U.S.C. 209(c), unless within 60 days of this notice the Assistant General Counsel for Patents, Department of Energy, Washington, D.C. 20585, receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reasons why it would not be in the best interests of the United States to grant the proposed license; or

(ii) An application for a nonexclusive license to the invention in the United States, in which applicant states that he has already brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The Department will review all written responses to this notice, and will grant the license if, after expiration of the 60-day notice period, and after consideration of written responses to this notice, a determination is made, in accordance with 35 U.S.C. 209(c), that the license grant is in the public interest.

Issued in Washington, D.C. on April 10, 1985.

Eric J. Fygi,

Acting General Counsel.

BILLING CODE 6450–01–M

Intent To Grant Exclusive Patent License; ETS Inc.

Notice is hereby given of an intent to grant to ETS Inc. of Roanoke, Virginia, an exclusive license to practice in the United States the invention described in U.S. Patent No. 3,976,747, entitled "Modified Dry Limestone Process for Control of Sulfur Dioxide Emissions." The patent is owned by the United States of America, as represented by the Department of Energy (DOE).

The proposed license will be exclusive, subject to a license and other rights retained by the U.S. Government. DOE intends to grant the license, upon a final determination in accordance with 35 U.S.C. 209(c), unless within 60 days of this notice the Assistant General Counsel for Patents, Department of Energy, Washington, D.C. 20585, receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reasons why it would not be in the best interests of the United States to grant the proposed license; or

(ii) An application for a nonexclusive license to the invention in the United States, in which applicant states that he has already brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The Department will review all written responses to this notice, and will grant the license if, after expiration of the 60-day notice period, and after consideration of written responses to this notice, a determination is made, in accordance with 35 U.S.C. 209(c), that the license grant is in the public interest.

Issued in Washington, D.C. on April 10, 1985.

BILLING CODE 6450–01–M

Economic Regulatory Administration

[ERA Docket No. 85–10–NG]

Czar Resources Inc.; Application To Import Natural Gas From Canada

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Application for Authorization to Import Natural Gas from Canada.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of receipt on April 8, 1985, of an application filed by Czar Resources Inc. (Czar Inc.) to import on a best-efforts, interruptible basis, up to 5,800 Mcf per day of Canadian natural gas from Czar Resources Ltd. (Czar Ltd.) for resale to the Weyerhaeuser Company (Weyerhaeuser). The maximum volume sought to be imported is 3.4 Bcf over a period of two years beginning on the date of first delivery. During the initial three-month term, the price of the gas at the international border would be $2.75 (U.S.) per MMBtu; $3.70 (U.S.) delivered to Weyerhaeuser. Thereafter, the proposed contract would permit pricing adjustments on a quarterly basis to reflect prevailing market conditions.

The application was filed with the ERA pursuant to Section 3 of the Natural Gas Act. Protests or petitions to intervene are invited.

DATES: Protests, motions to intervene or notices to intervene, as applicable, and written comments are to be filed no later than 4:30 p.m., May 20, 1985.

FOR FURTHER INFORMATION CONTACT:

Olga T. Ronkovich (Natural Gas Division, Office of Fuels Programs),

Economic Regulatory Administration, Forrestal Building, Room GA–007, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252–9482

Diane J. Stubbs (Office of General Counsel, Natural Gas and Mineral Leasing), Forrestal Building, Room 6E–042, 1000 Independence Avenue, SW., Washington, D.C 20585, (202) 252–6667

SUPPLEMENTARY INFORMATION: On April 8, 1985, Czar Inc. filed an application to import from Czar Ltd. on an interruptible, best-efforts basis, up to 5,800 Mcf per day of Canadian natural gas for resale to Weyerhaeuser. Czar Inc. is a wholly owned U.S. subsidiary of Czar Ltd., a Canadian-based natural gas producer. The maximum volume sought to be imported is 3.4 Bcf over a period of two years beginning on the date of first delivery at an average daily rate of 4,600 Mcf per day. Following the initial two-year term, the arrangement is to continue on a month-to-month basis until terminated by any party or until a maximum of 3.4 Bcf of gas has been delivered, whichever occurs first. The imported gas is intended to displace No. 6 fuel oil used a Weyerhaeuser's Longview, Washington, fiber manufacturing facility.

In accordance with the draft sales contract dated April 1, 1985, the gas would enter the U.S. at a point near Dumas, Washington, where the existing pipeline facilities of Westcoast Transmission Company Limited interconnect with those of Northwest Pipeline Corporation (Northwest). Northwest would then transport the gas to the facilities of Cascade Natural Gas Corporation which would complete delivery to the Longview facility. At this time, no final transportation agreements have been reached by the parties.

The sales contract provides that, during the first three months, the price Czar Inc. would pay Czar Ltd. for the gas is $2.75 (U.S.) per MMBtu. The delivered cost to Weyerhaeuser during that period would be $3.70 (U.S.) per MMBtu. Thereafter, price redeterminations may be made quarterly, subject to mutual agreement, to reflect prevailing market conditions. Any party may terminate the arrangement if agreement on an acceptable import or delivered price cannot be reached. In the absence of a minimum purchase obligation or take-or-pay requirement, Weyerhaeuser has agreed that all of the natural gas needed for fuel oil displacement at its facility would be supplied by Czar Ltd., provided the volumes requested can be delivered and the price is competitive. Under the contract Weyerhaeuser is entitled to determine, at its sole discretion, the amount of gas required daily for its facility on the basis of operating, economic, or any other consideration.

In support of the application, Czar Inc. asserts that the imported gas would provide Weyerhaeuser with a cost-effective means of improving the manufacturing facility's operating economics because the offered gas supply can be delivered at a significant saving over Weyerhaeuser's cost for No. 6 fuel oil of approximately $4.25 (U. S.) per MMBtu. According to the applicant, the import is in the public interest because it would (1) provide an environmental advantage compared to burning fuel oil; (2) reduce or eliminate Weyerhaeuser's requirement for fuel oil, thus freeing that oil for use by other domestic purchasers; (3) reduce reliance on imported foreign crude oil; (4) serve an incremental market which the existing transmission and distribution systems have not been able to serve under similar competitive conditions; and (5) increase revenues for the transporting pipelines which will benefit their residential and industrial customers.

The decision on this application will be made consistent with the Department of Energy's gas import policy guidelines, under which the competitiveness of an import arrangement in the markets served is the primary consideration in determining whether it is in the public interest. Parties who may oppose this application should comment in their responses on the issue of competitiveness as set forth in the policy guidelines. The applicant has asserted that this import arrangement is competitive. Parties opposing the arrangement bear the burden of overcoming this assertion.

Other Information

In response to this notice, any person may file a protest, motion to intervene or notice of intervention, as applicable, and written comments. Any person wishing to become a party to the proceeding and to have the written coments considered as the basis for any decision on the application must, however, file a motion to intervene or notice of intervention. The filing of a protest with respect to this application will not serve to make the protestant a party to the proceeding, although protests and comments received by persons who are not parties will be considered in determining the appropriate procedural action to be taken on the application. All protests, motions to intervene, notices of intervention, and written comments must meet the requirements that are specified by the regulations in 10 CFR Part 590. They should be filed with the Natural Gas Division, Office of Fuels Programs, Economic Regulatory Administration, Room GA–033, RG–43, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585. They must be filed no later than 4:30 p.m., May 20, 1985.

A decisional record on the application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues.

A party seeking intervention may request that additional procedures be provided, such as additional written comments, an oral presentation, a conference, or a trial-type hearing. Any request to file additional written comment should explain why they are necessary. Any request for an oral presentation should identify the substantial question of fact, law, or policy at issue, show that it is material and relevant to a decision in the proceeding, and demonstrate why an oral presentation is needed.

Any request for a conference should demonstrate why the conference would materially advance the proceeding. Any request for a trial type hearing must show that there are factual issues genuinely in dispute that are relevant and material to a decision and that a trial-type hearing is necessary for a full and true disclosure of the factds.

If an additional procedure is scheduled, the ERA will provide notice to all parties. If no party requests additional procedures, a final opinion and order may be issued based on the official record, including the application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

A copy of Czar Inc.'s application is available for inspection and copying in the Natural Gas Division Docket Room, GA–033–B, at the above address. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on April 15, 1985.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

Energy Information Administration

Proposed Form EIA–846, Manufacturing Energy Consumption Survey

AGENCY: Office of Energy Markets and End Use, Energy Information Administration, DOE.

ACTION: Extension of date for receipt of written comments, rescheduling of public hearings, and corrections to original notice.

SUMMARY: The Department of Energy recently published a notice (50 FR 11486, March 21, 1985) of public hearings and requests for comments on the proposed Form EIA–846, Manufacturing Energy Consumption Survey. Notice is hereby given that the period for receiving written comments on the questionnaire has been extended from 30 days after publication of the original notice (March 21, 1985) to 45 days after publication. The public hearings are rescheduled as follows: Washington, DC, May 6, 1985; Denver, Colorado, May 9, 1985. The location and time of the public hearings are unchanged from the original notice.

In addition, the following corrections to the original notice should be incorporated:

- Page 11487, second column, Question J, change "IEA to EIA."
- Page 11488, first column, ITEM 4, change "Item 2" to "Item 3."
- Page 11488, first column, add the following general instruction:

"G. When is the report due? The completed Form EIA–846 is due 60 days after receipt."

For further information, contact John L. Preston, Energy End Use Division, Office of Energy Markets and End Use, (202) 252–1128.

Issued in Washington, DC, April 15, 1985.

Albert H. Linden, Jr.,

Deputy Administrator, Energy Information Administration.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. GP85–22–000]

Natural Gas Policy Act Jurisdictional Determinations; Colorado; Petition To Reopen and Vacate Final Well Category Determinations and Request To Withdraw

April 16, 1985.

In the matter of State of Colorado; Section 107 NGPA Determinations; Amoco Production Co., State of Colorado "Z" No. 1 Well, FERC JD No. 84–38919, UPRR 41 Pan Am "A" No. 1 Well, FERC JD No. 84–16312.

On February 11, 1985, Amoco Production Company (Amoco) filed with the Federal Energy Regulatory Commission (Commission) a petition to reopen and vacate and a request to withdraw its applications for final well category determinations that natural gas from the State of Colorado "Z" No. 1 Well and the UPRR 41 Pan Am "A" No. 1 Well, both located in Weld County, Colorado, qualify as tight formation gas under section 107(c)(5) of the Natural Gas Policy Act of 1978 (NGPA).[1] These determinations by the Colorado Oil and Gas Conservation Commission became final with respect to the State of Colorado "Z" No. 1 Well and the UPRR 41 Pan Am "A" No. 1 Well on August 5, 1984 and February 27, 1984, respectively.[2]

Amoco states that it made NGPA section 107 filings because it inadvertently failed to consult the appendix of an Errata Notice, pertaining to Commission Order No. 124, which showed that the two captioned wells were excluded from the Wattenberg "J" Sand tight formation, notwithstanding the State of Colorado's original recommendation that the captioned wells be included within the aforesaid tight sand formation. Also Amoco states that it has not collected, with respect to the two captioned wells, the maximum lawful price permitted for tight formation gas.

Although Amoco states that refunds will not be required for the subject wells, the Commission gives notice that the question of whether refunds plus interest as computed under § 154.102(c) will be required is a matter which is subject to the review and final determination of the Commission.

Within 30 days of publication in the **Federal Register**, any person may file a protest to Amoco's petition or a petition to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. If you wish to become a party to this proceeding, you must file a petition to intervene. *See* Rules 214 or 211.[3]

[Project No. 8053–001]

City of Newaygo, MI; Surrender of Preliminary Permit

April 16, 1985.

Take notice that the City of Newaygo, Michigan, Permittee for the proposed Newaygo Hydro Project No. 8053, requested by letter dated March 4, 1985, that its preliminary permit be terminated. The preliminary permit was issued on August 20, 1984, and would have expired on January 31, 1986. The project would have been located on the Muskegon River in Newaygo County, Michigan.

The Permittee filed the request on March 20, 1985, and the preliminary permit for Project No. 8053 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday or holiday as described in 18 CFR 385.2007, in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR Part 4, may be filed on the next business day.

Kenneth F. Plumb,

Secretary.

Liberty Natural Gas Co.; Petition for Adjustment

April 16, 1985.

On March 26, 1985, Liberty Natural Gas Company (Liberty) filed with the Federal Energy Regulatory Commission a petition for an adjustment under section 502(c) of the Natural Gas Policy Act, wherein Liberty sought relief from the Commission's regulations governing rates for the transportation of gas by intrastate pipelines as set forth in 18 CFR 284.123(b)(2). Liberty seeks such an adjustment to permit Liberty to use an existing rate charged to Intratex Gas Company for intrastate transportation service, which rate is on file with the Railroad Commission of Texas. Liberty proposes to charge this rate for transportation service rendered to Tennessee Gas Pipeline Company, United Gas Pipe Line Company, Transcontinental Gas Pipe Line Corporation, Transwestern Pipeline Company, Neches Gas Distribution Company, and Industrial Natural Gas Company through Liberty's Linc System facilities in Loving and Ward Counties.

Texas pursuant to section 311(a) of the NGPA. Liberty's application is on file with the Commission and is available for public inspection.

The procedures applicable to the conduct of this adjustment proceeding are found in Subpart K of the Commission's Rules of Practice and Procedure.

Any person desiring to participate in this adjustment proceeding shall file a motion to intervene in accordance with the provisions of such Subpart K. All motions to intervene must be filed within 15 days after publication of this notice in the **Federal Register.**

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. GP83-61-000]

State of Texas NGPA Section 108 Determination, Sun Exploration and Production Co.; Frost National Bank-C-No. 2U FERC JD No. 82-28865; Petition To Reopen Final Determination and Request To Withdraw

Issued April 16, 1985.

On September 18, 1983, Sun Exploration and Production Company (Sun) filed with the Federal Energy Regulatory Commission (Commission) a petition to reopen and a request to withdraw its application for a final well category determination that natural gas from the Frost National Bank–C–No. 2U Well, located in the Cortez Field, Starr County, Texas, qualifies as stripper well natural gas under section 108 of the Natural Gas Policy Act of 1978 (NGPA).[1] The affirmative determination was made by the Railroad Commission of the State of Texas.

Although Sun gave no reason for its petition to reopen and its request to withdraw the subject well, it is assumed that the subject well does not meet the section 118 stripper well natural gas requirements.

Within thirty days of publication in the **Federal Register,** any person may file a protest to Sun's petition or a petition to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. If you wish to become a party to this proceeding, you must file a petition to intervene. See Rules 214 or 211.[2]

BILLING CODE 6717-01-M

[Docket Nos. CP85-386-000, et. al.]

Northwest Central Pipeline Corporation et al.; Natural Gas Certificate Filings

April 12, 1985.

Take notice that the following filings have been made with the Commission:

1. Northwest Central Pipeline Corporation

[Docket No. CP85-386-000]

Take notice that on March 25, 1985, Northwest Central Pipeline Corporation (Applicant), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP85-386-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a pipeline tap, measuring station, regulator and appurtenant facilities and a sale of gas to Public Service Company of Colorado for resale in and about the City of Merino, Colorado, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the proposed tap, measuring station, regulator and appurtenant facilities would cost approximately $43,110, which would be paid from treasury cash. Applicant further estimates that the gas required for the first three years of operation would be 15,554 Mcf, 17,604 Mcf and 20,161 Mcf, respectively. Applicant states that such sale would not significantly affect its overall gas supply and that the proposed sale would not adversely affect any of its existing customers.

Comment date: May 3, 1985, in accordance with Standard Paragraph F at the end of this notice.

2. Arkla Energy Resources, a Division of Arkla, Inc.

[Docket No. CP85-384-000]

Take notice that on March 25, 1985, Arkla Energy Resources, a division of Arkla, Inc. (AER), P.O. Box 21734 Shreveport, Louisiana 71151, filed in Docket No. CP85-384-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain pipeline and related metering and regulating facilities in Texarkana, Texas-Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

AER proposes to construct and operate 29 miles of 12-inch pipeline along with related metering and regulating facilities in order to ensure an adequate gas supply to the Arkansas Louisiana Gas Company division (ALG) which serves the Taxarkana metropolitan area located on the state line in northeast Texas and southwest Arkansas, and also to permit service to two of AER's new industrial customers in the surrounding area. More specifically, AER proposes to

1. Transfer from distribution investment to transmission investment 3,076 feet of 10¾ inch O.D. pipeline, originating at Nash Town Border Station, Bowie County, Texas. This transfer would permit AER to integrate better the operation of those facilities servicing ALG's Taxarkana town borders into AER's redesigned Taxarkana supply system, it is explained.

2. Construct 19.5 miles of 12-inch new pipeline from the existing Line LT–1 to the junction of Line A and Lines AM–45 and AM–129 located in Miller and Lafayette Counties, Arkansas.

3. Construct a west loop pipeline around the west side of Taxarkan a from near the #1 town border station to the town of Nash. This west loop line would be 9.5 miles of 12-inch pipeline located in Miller County in Arkansas and Bowie County in Texas.

4. Upgrade the pressure rating of Line AM–45 in Miller County, Arkansas, by performing hydrostatic pressure tests. AER proposed to increase the operating pressure rating from the existing 300 psig to about 500 psig, maximum allowable operating pressure.

5. Upgrade the existing pressure rating of 12¾ inch Line LT–1 in Columbia and Lafayette Counties, Arkansas, by performing hydrostatic pressure tests to 800 psig maximum allowable operating pressure.

6. Install metering and regulating facilities at six locations.

AER estimates the cost of the proposed facilities to be $8,524,931, which would be financed initially out of funds on hand and short-term financing and then converted to long-term financing at a later date.

Comment date: May 3, 1985, in accordance with Standard Paragraph F at the end of this notice.

---

[2] 18 CFR 385.214 or 385.211 (1985)

3. Transcontinental Gas Pipe Line Corporation

[Docket No. CP79-230-005]

Take notice that on March 12, 1985, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP79-230-005, a petition to amend the order issued June 7, 1979, in Docket No. CP79-230, as amended pursuant to section 7(c) of the Natural Gas Act so as to authorize the establishment of additional delivery points, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Transco states that it transports for El paso Natural gas Company (El Paso) quantities of natural gas up to a contract demand quantity of 54,600 Mcf per day. It is explained that the gas which El Paso purchases in various blocks in the High Island area, offshore Texas, is received by Transco at the point of interconnection of its Southwest Louisiana Gathering System and the tailgate of the separation plant of U-T Offshore System at Johnson's Bayou, Cameron Parish, Louisiana. Transco states that it delivers or causes to be delivered, on a firm basis, thermally equivalent quantities, less quantities retained for compressor fuel and line loss make-up and less adjustments for variations in thermal content, if any, to Houston Pipeline Company (HPL) and/or for HPL's affiliate, Oasis Pipe Line Company, at (1) the existing point of interconnection between the facilities to Transco and the katy plant of Exxon Company, U.S.A., in Waller County, Texas (Katy delivery point), (2) the existing point of interconnection between the facilities of HPL and Transco near Fulshear, Fort Bend County, Texas (Fulshear delivery point), and (3) the existing point of interconnection between the facilities of HPL and Transco near Bammel, Harris County, Texas (Bammel delivery point).

Transco states that by amendatory agreement dated August 28, 1984, new points of delivery to or for the account of El Paso have been added at (1) the existing interconnection between the facilities of Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), and Transco at Starks, Calcasieu Parish, Louisiana (Starks delivery point), (2) the existing interconnection between the facilities of Florida Gas Transmission Company and Transco near Vinton, Calcasieu Parish, Louisiana (Vinton delivery point), and (3) the existing interconnection between the facilities of Louisiana Resources Company and Transco at Transco's Johnson's Bayou plant, Cameron Parish, Louisiana (Johnson's Bayou delivery point). Transco states further that deliveries to the Starks, Vinton and Johnson's Bayou delivery points would be made on an interruptible basis upon mutual agreement of the parties and that Transco would continue to deliver gas on a firm basis at the Katy, Fulshear and Bammel delivery points.

It is further stated that Transco would charge El Paso a monthly demand charge of $78,624.00 for the delivery to any of the delivery points of quantities of gas within El Paso's contract demand quantity of 54,600 Mcf per day, the demand charge provided in Transco's FERC Rate Schedule X-198. It is explained that for quantities of gas delivered to any delivery point which exceed the contract demand quantity, Transco would initially charge El Paso a rate of 4.7 cents per dt equivalent. It is asserted that such rate is based on a rate of 2.8 cents per dt per 25 miles with a minimum charge of 5.6 cents per dt pursuant to Transco's July 31, 1984, filing in Docket No. RP83-30. Transco states that such rate has been reduced to reflect the one-third conversion to a fully rolled-in rate for agreements executed prior to October 31, 1983, pursuant to the Commission's letter order dated April 5, 1984, approving the interim settlement agreement in Docket No. RP83-30. It is explained that such rate is subject to refund pending the outcome in Docket No. RP83-30 and that for all quantities of gas which Transco transports for El Paso, 0.6 percent would be retained for compressor fuel and line loss make-up.

Comment date: May 3, 1985, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motin to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear of be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. ER85-421-000, et al.]

Electric Rate and Corporate Regulation Filings; Southern California Edison Co. et al.

April 16, 1985.

Take notice that the following filings have been made with the Commission:

1. Southern California Edison Company

[Docket No. ER85-421-000]

Take notice that on April 9, 1985, Southern California Edison Company (Edison) tendered for filing a notice of change of rates for transmission service as embodied in Edison's agreements with the following entities:

	Rate schedules FERC No
Contract Rate TN	FPC Electric Tariff, Original Volume No. 1
City of Riverside	165.
City of Anaheim	164

The rate changes are proposed to become effective on minimum statutory notice, i.e., 60 days after receipt for filing by the Commission.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: May 1, 1985, in accordance with Standard Paragraph E at the end of this notice.

2. Florida Power & Light Company

[Docket No. ER85-418-000]

Take notice that on April 8, 1985, Florida Power & Light Company (FP&L) tendered for filing a document entitled "Amendment Number One to Contract for Interchange Service Between FP&L and Orlando Utilities Commission."

FP&L states that under the Amendment FP&L and Orlando Utilities Commission (OUC) utilize the provisions of the existing Contract for Interchange Service between FP&L and OUC, the parties to establish additional service schedules. FP&L further states that the additional Service Schedule X provides the parties with the necessary vehicle to better maximize the overall economy of power production in the State of Florida.

FP&L requests waiver of the Commission's notice requirements to allow the proposed Amendment be made effective no later than 60 days from the date of filing.

According to FP&L, a copy of this filing was served upon Orlando Utilities Commission.

Comment date: April 30, 1985, in accordance with Standard Paragraph E at the end of this notice.

3. Tucson Electric Power Company

[Docket No. ER85-419-000]

Take notice that on April 9, 1985, Tucson Electric Power Company (Tucson) tendered for filing a letter agreement supplementing Service Schedule B of the Tucson—M-S-R Interconnection Agreement between Tucson and M-S-R Public Power Agency ("M-S-R"). The primary purpose of this letter agreement is to clarify certain understandings between Tucson and M-S-R in connection with Tucson's sale of its ownership interest in Springerville Generating Station Unit 1 and San Juan Unit 3 to Alamito Company and how such sale will affect the arrangement under which Tucson provides M-S-R with coal-fired energy costs.

Comment date: May 1, 1985, in accordance with Standard Paragraph E at the end of this notice.

4. Tampa Electric Company:

[Docket No. ER84-422-000]

Take notice that on April 9, 1985, Tampa Electric Company (Tampa) tendered for filing an Agreement for Interchange Service between Tampa and the City of Lake Worth, Florida (Lake Worth). The Agreement was supplemented with Service Schedules, A, B, C, D, and X, providing for emergency, scheduled, (short-term) economy, long-term, and extended economy interchange service, respectively. Tampa states that the Agreement and accompanying schedules supersede Tampa's Rate Schedule FERC No. 8.

Tampa proposes an effective date of April 1, 1985, and therefore requests waiver of the Commission's notice requirements.

Copies of the filing have been served on Lake Worth and the Florida Public Service Commission.

Comment date: May 1, 1985, in accordance with Standard Paragraph E at the end of this notice.

5. Central Hudson Gas & Electric Corporation

[Docket No. ER85-420-000]

Take notice that on April 9, 1985, Central Hudson Gas & Electric Corporation (Central Hudson) tendered for filing a rate schedule an executed agreement dated March 13, 1985 between Central Hudson and the New York Power Authority (NYPA). The proposed rate schedule provides for electric transmission service and standby electric service for generation associated with NYPA's Ashokan Hydro Electric Generating Plant.

Central Hudson states that the rate schedule provides for a monthly transmission charge of $1.69 per kilowatt and a standby charge of $8.51 per kilowatt per month during the summer and winter peak periods.

Central Hudson requests an effective date of November 1, 1984.

Copies of this filing were served on NYPA.

Comment date: May 1, 1985, in accordance with Standard Paragraph E at the end of this notice.

6. Southern California Edison Company

[Docket No. ER85-423-000]

Take notice that on April 10, 1985, Southern California Edison Company (Edison) tendered for filing a notice of change of rates for transmission service as embodied in Edison's agreements with the following entities:

	Rate schedules FERC No
City of Anaheim	130
City of Azusa	160
City of Banning	159
City of Colton	162
City of Riverside	129
City of Vernon	149 and 172

Edison requests waiver of the Commission's prior notice requirements and an effective date of January 1, 1985, for these rate changes.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: May 1, 1985, in accordance with Standard Paragraph E at the end of this notice.

7. PacifiCorp doing business as Pacific Power & Light Company

[Docket No. ER85-37-000]

Take notice that on April 11, 1985, PacifiCorp doing business as Pacific Power & Light Company (Pacific) filed an application with the Federal Energy Regulatory Commission, pursuant to section 204 of the Federal Power Act, seeking an order authorizing it to issue and sell not more than $60,000,000 of Serial Preferred Stock.

Comment date: May 10, 1985, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-9517 Filed 4-18-85; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 7802-002, et al.]

Hydroelectric Applications (Natural Energy Resources Co. et al.); Notices of Applications Filed With the Commission

Take notice that the following hydroelectric applications have been filed with the Federal Energy Regulatory Commission and are available for public inspection:

(1)(a) Type of Application: Amendment of Preliminary Permit.

(b) Project No.: 7802-002.

(c) Date Filed: January 28, 1985.

(d) Applicant: Natural Energy Resources Company.

(e) Name of Project: Union Park Pumped Storage Project.

(f) Location: Taylor Park Reservoir, Gunnison County, Colorado.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Alvin L. Steinmark, President, Natural Energy Resources Company, Greeley, Colorado 80631.

(i) Comment Date: May 28, 1985.

(j) Description of Project: A 36-month preliminary permit for the Union Park Pumped Storage Project No. 7802 was issued to Natural Energy Resources Company (Permittee) on August 15, 1984. The proposed project under the preliminary permit would consist of a 900 MW capacity pumped storage facility utilizing the U.S. Bureau of Reclamation's Taylor Park Reservoir as lower reservoir, and a proposed impoundment to be constructed on Loth's Creek as upper reservoir.

Since the issuance of the preliminary permit, the Permittee has identified an alternate location for the upper reservoir in an area outside the present project boundary. By using the alternate upper reservoir location, the project capacity would be 1,000 MW, with an estimated average annual power production of 1,400 GWh. The Permittee seeks an amendment of the preliminary permit that would change the project boundary to include lands within Gunnison National Forest to accommodate the alternate upper reservoir.

(k) This notice also consists of the following standard paragraphs' A6, A7, A9, B, C, and D2.

(2) (a) Type of Application: Major License.

(b) Project No: 5797–002.

(c) Date Filed: April 30, 1984.

(d) Applicant: B & C Energy, Inc.

(e) Name of Project: Star Falls.

(f) Location: At Star Falls on the Snake River in Jerome and Twin Falls Counties, Idaho on lands of the United States administered by the Bureau of Land Management.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. C. B. Beymer, Jr., 188 Blair Drive, Twin Falls, ID 83301.

(i) Comment Date: June 17, 1985.

(j) Description of Project: The proposed project would consist of: (1) a 20-foot-high, 500-foot-long gravity arch concrete dam with crest elevation 3,930 feet creating an impoundment with a 161-acre normal maximum water surface area and having a 2,780-acre-foot gross storage capacity; (2) a 2,200-foot-long power canal; (3) an enclosed penstock intake; (4) a 21-foot-diameter, 190-foot-long buried penstock; (5) a 66-foot-wide, 114-foot-long, 95-foot-high powerhouse containing a generating unit rated at 29.7 MW and producing an average annual energy output of 90.4 GWh; (6) a 200-foot-long tailrace with normal tailwater elevation 3,853 feet; (7) a 138–kV, 4.75-mile-long transmission line; and (8) a 2,500-foot-long access road from the canyon rim to the powerhouse and a roadway along the power canal embankment. Proposed recreational facilities include picnic and boating access facilities upstream of the project dam, public access to the tailrace and powerhouse area with parking and picnic facilities in the construction staging area, and whitewater boating access immediately upstream of the Murtaugh Bridge. The total estimated project cost is $45,575,000 in 1987 dollars. This application was filed pursuant to a preliminary permit.

(k) This notice also consists of the following standard paragraphs: A3, A9, B, and C.

(3) (a) Type of Application: Minor License.

(b) Project No.: 7890–001.

(c) Date Filed: January 30, 1985.

(d) Applicant: Matthew J. Bonaccorsi.

(e) Name of Project: Wendell Dam.

(f) Location: On the Sugar River near the Town of Sunapee, Sullivan County, New Hampshire.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Matthew J. Bonaccorsi, Box 206 RFD 3, Newport, New Hampshire 03773.

(i) Comment Date: June 14, 1985.

(j) Description of Project: The proposed project would consist of: (1) the existing 8-foot-high, 56-foot-long concrete gravity Wendell Dam; (2) the installation of 1.25-foot-long flashboards; (3) a reservoir having a surface area of 11.4 acres, a storage capacity of 20 acre-feet, and normal water surface elevation of 978.4 feet m.s.l.; (4) the existing gate house; (5) a proposed 180-foot-long, 5-foot-diameter steel penstock; (6) a proposed powerhouse containing two generating units having a total installed capacity of 140kW; (7) a proposed 100-foot-long tailrace; (8) a proposed 300-foot-long 12-kV transmission line; and (9) appurtenant facilities. The existing dam and project facilities are owned by the State of New Hampshire Fish and Game Department. The Applicant estimates the average annual generation of 610,000 kWh. The Applicant filed this license application during the term of his preliminary permit.

(k) Purpose of Project: All power would be sold to the Public Service Company of New Hampshire.

(l) This notice also consists of the following standard paragraphs: A3, A9, B, C, and D1.

(4) (a) Type of Application: Preliminary Permit.

(b) Project No.: 9016–000.

(c) Date Filed: March 11, 1985.

(d) Applicant: Feather River Improvement Company.

(e) Name of Project: Serpentine Canyon.

(f) Location: East Branch of the North Fork Feather River, near Belden, in Plumas County, CA.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Daniel L. Ostrander, Feather River Improvement Company, 12750 Quail Run Drive, Chico, CA 95928.

(i) Comment Date: July 17, 1985.

(j) Description of Project: The proposed run-of-the-river project would consist of: (1) a 15-foot-high, 150-foot-long concrete diversion weir and intake tunnel structure located on the East Branch of the North Fork Feather River at elevation 2,560 feet msl; (2) a 12,500-foot-long, 8-foot-diameter steel lined and rock tunnel; (3) a 350-food-long, 8-foot-diameter steel penstock; (4) a powerhouse located in Section 20, T25N, R7E, MDB&M, with an estimated installed capacity of 7.4 MW and an average annual energy generation of 40 GWh; and (5) a 1,000-foot-long, 60-kV transmission line connecting the project to an existing Pacific Gas and Electric Company (PG&E) line. Project power would be sold to PG&E. The project would be partially located on Plumas National Forest lands.

A preliminary permit, if issued, does not authorize construction. The Applicant seeks a 24-month permit to study the feasibility of constructing and operating the project and estimates the cost of the studies at $175,000.

(k) This notice also consists of the following standard paragraphs: A6, A7, B, C, and D2.

(5) (a) Type of Application: Amendment of a Major License.

(b) Project No.: 2299–007.

(c) Date Filed: January 7, 1985.

(d) Applicant: Turlock and Modesto Irrigation Districts.

(e) Name of Project: Don Pedro.

(f) Location: On San Joaquin River in Tuolumne County, California.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Ernest Geddes, General Manager, Turlock Irrigation District, P.O. Box 949, Turlock, CA 95381.

(i) Comment Date: June 12, 1985.

(j) Description of Project: The proposed amendment would consist of: (1) a powerhouse containing a single generating unit with a total installed capacity of 28,000 kW to be constructed in an excavation site adjoining the left wall of the existing licensed powerhouse of Don Pedro Project No. 2299; (2) a power transformer; (3) switchyard; (4) a 13-food-diameter tailrace; and (5) appurtenant facilities. No recreational facilities are proposed by the Applicant.

(k) Purpose of Project: The power produced by the project would provide additional capacity during systems peak demand.

(l) This notice also consists of the following standard paragraphs: B and C.

(6) (a) Type of Application: Preliminary Permit.

(b) Project No.: 8977–000.

(c) Date Filed: February 26, 1985.

(d) Applicant: Golden Hydro Limited Partnership.

(e) Name of Project: Golden Hydro.

(f) Location: On North Fork Clearwater Creek, within the Clearwater National Forest, near Pierce, in Clearwater County, Idaho.

(g) Filed Pursuant to: Federal Power Act 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Raymond T. Michener, P.E., Michener Associates, Inc., P.O. Box 2176, Tri-Cities, WA 99302.

(i) Comment Date: June 17, 1985.

(j) Description of Project: the proposed project would consist of: (1) a 40-foot-diameter, 10-foot-deep, 250-foot-long screened flume intake; (2) an 8-mile-long, 15-foot-diameter tunnel; (3) four 7-foot-diameter, 1000-foot-long penstocks; (4) a powerhouse containing four 7,000 kW turbines; and (5) a 28-mile-long, 69-kV transmission line. The Applicant estimates the average annual energy production to be 139,424 MWh.

A preliminary permit, if issued, does not authorize construction. The Applicant seeks a 36-month preliminary permit to conduct engineering, economic and environmental studies to ascertain project feasibility and to support an application for a license to construct and operate the project. A ¼-mile long access road will be required at the powerhourse site and drilling will also be required. The estimated cost of permit activities is $185.000.

(k) Purpose of Project: The project power would be sold to Washington Water Power Company of Spokane, Washington.

(l) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, and D2.

(7) (a) Type of Application: Preliminary Permit.

(b) Project No.: 9025–000.

(c) Date Filed: March 4, 1985.

(d) Applicant: Weyerhaeuser Company.

(e) Name of Project: Hancock Creek.

(f) Location: Near North Bend, King County, Washington on Hancock Creek.

(g) Filed Pursuant to: Federal Power Act 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Horbert E. Methven, Weyerhaeuser Company, Tacoma WA 98477.

(i) Comment Date: June 14, 1985.

(j) Description of Project: the proposed project would consist of: (1) a 10-foot-high diversion weir; (2) a 42-inch-diameter, 8,000-foot-long penstock; (3) a powerhouse containing a generating unit rated at 6,800 kW; and (4) a 1½ mile-long transmission line. The Applicant estimates the average annual energy production to be 29,500 MWh.

A preliminary permit does not authorize construction. Applicant seeks issuance of a preliminary permit for a term of 24 months during which it would conduct engineering and environmental feasibility studies and prepare an FERC license application at a cost of $50,000. No new roads would be constructed or drilling conducted during the feasibility study.

(k) Purpose of Project: Applicant proposes to use the output or sell to a utility.

(l) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, and D2.

(8)(a) Type of Application: Preliminary Permit.

(b) Project No: 9006–000.

(c) Date Filed: March 7, 1985.

(d) Applicant: Mutual Energy Co., Inc.

(e) Name of Project: Tumalo Creek.

(f) Location: On lands located in the Deschutes National Forest, near the City of Bend, in Deschutes County, Oregon.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Bart M. O'Keeffe, Mutual Energy Co., Inc., 3451 Longview Drive, Suite 130, North Highlands, CA 95660.

(i) Comment Date: June 10, 1985.

(j) Description of Project: The proposed project would consist of: (1) the existing Columbia Southern Diversion Dam; (2) a 72-inch-diameter, 16,500-foot-long low pressure pipeline; (3) a 66-inch-diameter, 5,800 foot-long penstock; (4) a powerhouse containing one generating unit rated at 7,300 kW; (5) a four-mile long, 69–kV transmission line; and (6) a 2,000-foot-long access road. The Applicant estimates that the average annual energy production to be 29,000 MWh.

A preliminary permit, does not authorize construction. Applicant seeks issuance of a preliminary permit for a term of 36 months during which it would conduct engineering and environmental feasibility studies and prepare an FERC license application at a cost of $125,000. No new roads would be constructed or drilling conducted during the feasibility study.

(k) Purpose of Project: Applicant proposes to sell the power to a local privately owned utility in the Pacific Northwest.

(l) This notice also consists of the following standard paragraphs: A5, A7, A9, B, C, and D2.

(9)(a) Type of Application: Preliminary Permit.

(b) Project No: 8817–000.

(c) Date Filed: December 24, 1984.

(d) Applicant: Gainesville Hydro Associates.

(e) Name of Project: Gainesville Hydro Project.

(f) Location: On the Tombigbee River near Gainesville, Greene County, Alabama.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Casey Cummings, 410 Severn Avenue, Suite 409, Annapolis, Maryland 21403.

(i) Comment Date: June 3, 1985.

(j) Competing Application: Project No. 8812–000, Date Filed: December 24, 1984. Comment Due Date: April 1, 1985.

(k) Description of Project: The proposed project would utilize the U.S. Army Corps of Engineers' Gainesville Lock and Dam, a 875-foot-long and 50-foot-wide diversion channel, and would consist of: (1) a new powerhouse located on the east side of the river in the diversion channel housing two 7.5-MW generators for a total installed capacity of 15 MW; (2) a proposed 44-kV transmission line approximately 12 miles long interconnecting with Alabama Power Company's transmission system; and (3) appurtenant facilities. The Applicant estimates that the average annual generation would be 52 GWh. All project energy would be sold to Alabama Power Company.

(l) This notice also consists of the following standard paragraphs: A8, A9, B, C, and D2.

(m) Proposed Scope of Studies under Permit: A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 24 months during which time Applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, the Applicant

would decide whether to proceed with an application for FERC license. Applicant estimates that the cost of the studies under permit would be $30,000.

(10) (a) Type of Application: Major License (Under 5MW).

(b) Project No.: 6867–001.

(c) Date Filed: October 26, 1984.

(d) Applicant: Daniel J. Horrall.

(e) Name of Project: Williams Dam Project.

(f) Location: On East Fork of White River in Lawrence County, IN.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Robert W. Everett, W.M. Lewis & Associates, Inc., 740 Fifth Street, P.O. Box 1383, Portsmouth, Ohio 45662, and Daniel J. Horrall R R. #2, Washington, IN 47501.

(i) Comment Date: June 24, 1985.

(j) Description of Project: The Williams dam is owned by the state of Indiana, Department of Natural Resources. The proposed project would consist of: (1) the existing reinforced concrete dam, approximately 300 feet long and 20 feet high; (2) the existing resevoir with a surface area of 200 acres and a storage capacity of 1,000 acre-feet at powerpool elevation of 476 feet m.s.l.; (3) an existing powerhouse which would be rehabilitated and would contain four generating units rated at 470 kW each for a total installed capacity of 1,880 kW; (4) a proposed 150-foot-long, 12.47-kV transmission line; and (5) appurtenant facilities. The estimated average annual energy generation for the project is 10,660,000 kWh.

(k) Purpose of Project: The energy generated at the project would be sold to a utility company.

(l) This notice also consists of the following standard paragraphs: A3, A9, B, C, & D1.

(11) (a) Type of Application: Revised Application for Minor License.

(b) Project No: 8600–001.

(c) Dated Filed: February 19, 1985.

(d) Applicant: Boulder Hydro, A Limited Partnership.

(e) Name of Project: Little Gold.

(f) Location: On Little Gold Creek in Granite County, Montana, within Deerlodge National Forest.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 792(a)–825(r).

(h) Contact Person: F. Lee Tavenner, Star Route, Hall, MO 59837.

(i) Comment Date: June 20, 1985.

(j) Description of Project: The proposed project would consist of: (1) a 4-foot-high, 20-foot-long wooden diversion dam with a 3-foot-deep, 8-foot-long overflow notch, crest elevation 6,405 feet USGS datum; (2) an integral intake in the southern end of the dam; (3) a 15-inch-diameter, 3,880-foot-long low-pressure PVC pipeline; (4) a 12-inch-diameter, 3,000-foot-long steel penstock; (5) a 16-foot-wide, 20-foot-long concrete block powerhouse at elevation 5,520 feet containing a generating unit with a rated capacity of 450 kW producing an average annual energy output of 1.90 GWh; (6) a corrugated pipe tailrace; (7) a 200-foot-long, 25-kV transmission line from the transformer adjacent to the powerhouse to an existing Montana Power Company transmission line; and (8) 400-foot of new access road. The estimated cost of the project is $230,000 as of October, 1984.

(k) Purpose of Project: To produce electricity to sell to Montana Power Company.

(l) This notice also consists of the following standard paragraphs: A3, A9, B, C and D1.

(12)(a) Type of Application: Minor License.

(b) Project No.: 8515–000.

(c) Date Filed: August 13, 1984 as amended on January 16, 1985.

(d) Applicant: Louis J. Travis.

(e) Name of Project: Hope Creek Water Power.

(f) Location: On Hope Creek, Tributary to Freezout Creek, near Imnaha, in Wallowa County, OR.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Al Peters, Energy Planning Associates, 3182 SE Timberlake Drive, Hillsboro, OR 97123.

(i) Comment Date: June 24, 1985.

(j) Description of Project: The proposed project would consist of: (1) a 4-foot-high, 15-foot-long concrete diversion structure at an elevation of 3,665; (2) a 4000-foot-long, 8-inch-diameter penstock; (3) an 8-foot by 8-foot powerhouse containing one generating unit with an installed capacity of 115 kW at an operating head of 560 feet; and (4) a 3000-foot-long, 19.6-kV transmission line to Applicant's farm house for connection to a Pacific Power and Light Company transmission line. The Applicant estimates that the average annual energy production would be 354,000 kWh. The cost to construct the project would be $100,000 in 1984 dollars.

(k) Purpose of Project: The project power would be sold to the Pacific Power and Light Company.

(l) This notice also consists of the following standard paragraphs: A3, A9, B and C.

(13)(a) Type of Application: New Major License.

(b) Project No.: 2305–002.

(c) Date Filed: December 27, 1984.

(d) Applicant: Central Maine Power Company.

(e) Name of Project: Williams.

(f) Location: Kennebec River in Somerset County, Maine.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Ralph L. Bean, Vice President, Engineering, Central Maine Power Company, Edison Drive, Augusta, Maine 04336.

(i) Comment Date: June 24, 1985.

(j) Description of Project: The existing operating project commenced operation in 1939 and was issued an initial license in 1964, which will expire in 1987. The Licensee has filed for a new license for the continued operation of the project with a change in the operating head from 43 feet to 45 feet. The existing project consists of: (1) a concrete core earth dike, approximately 202 feet long with a crest elevation of 325.0 feet USGS datum consisting of: (a) a 75.5-foot-long concrete core with an elevation of 323.0 feet USGS datum; (b) a 15-foot-long concrete core and; (c) a 111.5-foot-long retaining wall with an elevation of 325.0 feet USGS datum; (2) a reinforced concrete gate section 243.5 feet long consisting of 5 taintor gates and one vertical lift wheel gate, each 32.5 feet wide by 20.5 feet high with a spillway crest of 300.0 feet USGS datum which includes a 203-foot-long stanchion and timber panel section; (3) a reservoir with a normal water surface area of 446 acres, and storage capacity of 3,650 acre-feet at elevation 320.0 feet USGS datum; (4) an intake located at the west bank of the retaining wall; (5) a concrete powerhouse containing one unit with a capacity of 8,040 kW and one unit with a capacity of 6,460 kW for a total installed capacity of 14,500 kW; (6) a 6,000-foot-long tailrace; (7) a transmission line 3,900 feet long; and (8) appurtenant facilities. The Applicant proposes to increase the timber panel and gate section by 2 feet, and therefore increase the normal water surface area of the reservoir to 448 acres and the storage capacity to 4,475 acre-feet at elevation 322.0 feet USGS datum. The Applicant estimates the increased average annual generation would be 99,000,000 kWh. The dam is owned by Central Maine Power Company. The existing project would also be subject to Federal takeover under Sections 14 and 15 of the Federal Power Act. The cost of the existing project is $3,500,000.

(k) Purpose of Project: Project power would continue to be sold to the customers of Central Maine Power Company.

(l) This notice also consists of the following standard paragraphs: B and C.

14 (a) Type of Application: Conduit Exemption.

(b) Project No.: 8930–001.

(c) Date Filed: February 15, 1985.
(d) Applicant: County of Tuolumne.
(e) Name of Project: Columbia Ditch Hydroelectric Project.
(f) Location: On Columbia Ditch, part of the Applicant's existing water supply system, in Tuolumne County, California.
(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).
(h) Contact Person: Mr. Billy H. Marr, Water Supervisor, Tuolumne County Administration Center, 2 South Green Street, Sonora, CA 95370.
(i) Comment Date: June 3, 1985.
(j) Description of Project: The proposed project would comprise three sites. The Site #1 at Yankee Hill would consist of a 12-inch-diameter, 1,750-foot-long pipeline/penstock and a powerhouse containing a single generating unit with a rated capacity of 118 kW to operate under a head of 450 feet. The Site #2 at Ridge Road would consist of a 12-inch-diameter, 520-foot-long pipeline/penstock and a powerhouse containing a single generating unit with a rated capacity of 45 kW to operate under a head of 141 feet. The Site #3 at Old Oak Ranch would consist of a 12-inch-diameter, 310-foot-long pipeline/penstock and a powerhouse containing a single generating unit with a rated capacity of 32 kW to operate under a head of 86 feet. Three short 12.5-kV transmission lines will connect the powerhouses with an existing Pacific Gas and Electric Company (PG&E) line south of the sites.
(k) Purpose of Project: The project's estimated annual generation of 1.72 million kWh would be sold to PG&E.
(l) This notice also consists of the following standard paragraphs: A3, A9, B, C, & D3b.
15 (a) Type of Application: Application for License (over 5 MW).
(b) Project No.: 5081–001.
(c) Date Filed: September 23, 1983.
(d) Applicant: Utah Board of Water Resoruces.
(e) Name of Project: White River Dam Hydro Project.
(f) Location: On White River in Unitah County, Utah.
(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. §§ 791(a)–825(r).
(h) Contact Person: Dennis J. Strong, Division of Water Resources, State of Utah, 1636 West North Temple, Salt Lake City, UT 84116.
(i) Comment Date: June 7, 1985.
(j) Description of Project: The proposed unconstructed project would affect lands of the United States under the jurisdiction of the Bureau of Land Management (BLM) and would consist of: (1) a multi-zoned earth and rockfill dam, 136 feet high and approximately 2,500 feet long, having a crest elevation at 5,026 feet m.s.l.; (2) a service spillway consisting of a fantail inlet, a box culvert conduit and stilling basin, along with an auxilliary fuse plug type spillway extending from the left dam abutment; (3) a reservoir impounding approximately 109,250 acre-feet of water and covering 1,982 acres at service spillway crest elevation 5,017 feet m.s.l.; (4) outlet works consisting of a multi-level intake structure, a 10-foot-diameter pressure conduit and a 36-inch-diameter bypass pipe with gated outlet; (5) a 10-foot-diameter penstock trifurcating into 6-foot-6-inch diameter penstocks; (6) a powerhouse to contain 3 turbine generator units rated as 3,000 kW each for a total rated capacity of 9,000 kW; (7) a tailrace returning flow to the river just below the toe of the dam; (8) a 500-foot-long, 138-kV transmission line; and (9) appurtenant facilities. The applicant estimates that the average annual energy output would be 39.6 million kWh.
(k) Purpose of Project: The applicant intends to market the power on the open market for regional power needs.
(l) This notice also consists of the following standard paragraphs: A3, A9, B, C.
16 (a) Type of Application: Preliminary Permit.
(b) Project No.: 9001–000.
(c) Date Filed: March 5, 1985.
(d) Applicant: China Flat Company.
(e) Name of Project: China Creek Power Project.
(f) Location: On China Creek, near Willow Creek, within Six Rivers National Forest, in Humboldt County, California.
(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).
(h) Contact Person: Mr. Albert E. Hodgson, Chairman, China Flat Company, P.O. Box 536, Willow Creek, California 95573.
(i) Comment Date: June 7, 1985.
(j) Description of Project: The proposed project would consist of: (1) a 4-foot-high, 30-foot-long diversion dam at elevation 1,400 feet; (2) a 24-inch-diameter, 1,500-foot-long diversion conduit; (3) a 20-inch-diameter, 2,500-foot-long steel penstock; (4) a powerhouse with a total installed capacity of 640 kW operating under a head of 815 feet; and (5) a 300-foot-long, 12.5-kV transmission line from the powerhouse to connect to an existing Pacific Gas and Electric Company (PG&E) transmission line. The Applicant estimates the average annual energy generation at 4.6 million kWh to be sold to PG&E.
A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a 36-month preliminary permit to conduct technical, environmental and economic studies, and also prepare an FERC license application at an estimated cost of $15,000.
(k) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C and D2.
17 (a) Type of Application: Preliminary Permit.
(b) Project No.: 9012–000.
(c) Date Filed: March 11, 1985.
(d) Applicant: Salt Lake City Corporation.
(e) Name of Project: Little Cottonwood Power Project.
(f) Location: On Little Cottonwood Creek in Salt Lake County, Utah.
(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).
(h) Contact Person: Mr LeRoy Hooton, Director, Department of Public Utilities, 1530 South West Temple, Salt Lake City, UT 84115.
(i) Comment Date: June 10, 1985.
(j) Description of Project: The proposed project would be located entirely within the Wasatch National Forest and would consist of: (1) a new low intake structure across Little Cottonwood Creek near Red Pine Creek; (2) a new penstock, 36 inches in diameter and 10,500 feet long; (3) a new powerhouse to contain turbine-generator units having a total rated capacity of 4,290 kW; (4) a short tailrace returning flow to the creek; (5) a new buried transmission line, about 3 miles long, connecting to an existing Utah Power and Light Company 25 kV line; and (6) appurtenant facilities. The Applicant estimates that the average annual energy output would be 14,572,000 kWh.
(k) Purpose of Project: Project energy would be utilized by the Salt Lake City Corporation.
(l) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, D2.
(m) Proposed Scope of Studies under Permit: A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months during which time Applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, the Applicant would decide whether to proceed with an application for FERC license. Applicant estimates that the cost of the studies under permit would be $13,000.
(18) (a) Type of Application: License (5 MW or Less).

(b) Project No: 8160–000.
(c) Date Filed: March 7, 1984.
(d) Applicant: Mr. Dale L.R. Lucas.
(e) Name of Project: Lewis Fork Creek.
(f) Location: On Lewis Fork Creek in Madera County, California; within Sierra National Forest.
(g) Filed Pursuant to: Federal Power Act 16 U.S.C. 791(a)–825(r).
(h) Contact Person: Mr. Dale L.R. Lucas, 36600 Orange Grove Avenue, Madera, California 93638.
(i) Comment Date: June 6, 1985.
(j) Description of Project: The proposed project would consist of: (1) a 3-foot-high diversion dam and intake at elevation 4,680 feet; (2) a 48 inch-diameter, 6,000-foot-long pipeline; (3) a 48-inch-diameter, 1,000-foot-long steel penstock; (4) a powerhouse containing a single impulse turbine-generator with a total installed capacity of 3,700 kW; and (5) a 12-kV, 1,000-foot-long transmission line connecting with an existing transmission line owned and operated by Pacific Gas and Electric Company (PG&E). No recreational facilities are proposed by the Applicant.
(k) Purpose of Project: The estimated 9.3 million kWh generated annually by the proposed project would be sold to PG&E.
(l) This notice also consists of the following standard paragraph: A3, A9, B, C and D1.
(19) (a) Type of Application: Preliminary Permit.
(b) Project No.: P–9011–000.
(c) Date Filed: March 11, 1985.
(d) Applicant: Independence Electric Corporation.
(e) Name of Project: Taylorsville Dam.
(f) Location: On Salt River in Spencer County, Kentucky.
(g) Filed Pursuant to: Federal Power Act, 16 U.S C. 791(a)–825(r).
(h) Contact Person: Mr. G. William Miller, President, Independence Electric Corporation, 919 18th Street NW., Washington, DC 20006.
(i) Comment Date: June 10, 1985.
(j) Description of Project: The proposed project would utilize the existing U.S. Army Corps of Engineers Taylorsville Dam and Reservoir and would consist of: (1) a proposed power tunnel and penstock 10 feet in diameter and 1,600 feet long; (2) a proposed powerhouse containing two double regulated propeller turbine/generators each rated at 2,000 kW; (3) a proposed tailrace channel 100 feet and 400 feet long; (4) a new 69-kV transmission line 4 miles long; and (5) appurtenant facilities. The estimated average annual energy produced by the project would be 10,700,000 kWh operating under a net hydraulic head of 62 feet. Project power would be sold to a utility company in the project area.
(k) This notice also consists of the following standard paragraphs: A5, A7, A9, B, C, D2.
(l) Proposed Scope under this Permit: A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit is 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $125,000.
(20) (a) Type of Application: Preliminary Permit.
(b) Project No.: 8996–000.
(c) Date Filed: March 4, 1985.
(d) Applicant: Streamline Hydro, Inc.
(e) Name of Project: Bighorn Creek.
(f) Location: On Bighorn Creek in Eagle County, Colorado on lands administered by the White River National Forest.
(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).
(h) Contact Person: Mr. Robert Stout, 6565 South Dayton, Suite 1100; Englewood, CO 80111
(i) Comment Date: June 10, 1985.
(j) Description of Project: The proposed project would consist of: (1) a 6 to 10–foot-high and 60–foot-long proposed dam including spillway at elevation 9,040 feet U.S.G.S. datum; (2) a proposed reservoir with a storage capacity of 3000 cubic feet and a surface area of 1500 square feet at elevation 9,046 feet U S.G.S. datum; (3) a proposed penstock 2500 feet long, approximately 10 inches in diameter; (4) a proposed powerhouse 15 feet long and 15 wide containing one proposed turbine/generator with a rated capacity of 100 kW; (5) a proposed closed channel conduit tailrace 18 inches in diameter and 20 feet long; (6) a new three phase 25–kV transmission line 200 feet long; and (7) appurtenant facilities. The estimated average annual energy produced by the project would be .14 million kWh operating under a net hydraulic head of 315 feet. Project power would be sold to the Holy Cross Electric Company of Glenwood, Springs, Colorado.
(k) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, D2.
(l) Proposed Scope under this Permit: A preliminary permit if issued, does not authorize construction. The term of the proposed preliminary permit is 24 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $3,000.
(21) (a) Type of Application: Preliminary Permit.
(b) Project No.: P–8995–000
(c) Date Filed: March 4, 1985.
(d) Applicant: Streamline Hydro, Inc.
(e) Name of Project: Booth Creek.
(f) Location: On Booth Creek in Eagle County, Colorado on lands administered by the White River National Forest.
(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).
(h) Contact Person: Mr. Robert Stout, 6565 South Dayton, Englewood, CO 80111.
(i) Comment Date: June 10, 1985.
(j) Description of Project: The proposed project would consist of: (1) a 6 to 10–foot-high and 60–foot-long proposed dam including spillway at elevation 8,766 feet U.S.G.S. datum; (2) a proposed reservoir with a storage capacity of 5,400 cubic feet and surface area of 1800 square feet at elevation 8,760 feet U S.G.S. datum; (3) a proposed penstock 2,200 feet long, approximately 10 inches in diameter; (4) a proposed powerhouse 15 feet long and 15 wide containing one proposed turbine/generator with a rated capacity of 130 kW; (5) a proposed closed channel conduit tailrace 18 inches in diameter and 20 feet long; (6) a new three phase 25–kV transmission line 200 feet long; and (7) appurtenant facilities. The estimated average annual energy produced by the project would be .4 million kWh operating under a net hydraulic head of 280 feet. Project power would be sold to the Holy Cross Electric Company of Glenwood, Springs, Colorado.
(k) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, D2.
(l) Proposed Scope under this Permit: A preliminary permit if issued, does not authorize construction. The term of the proposed preliminary permit is 24 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based

on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $2,000.

(22) (a) Type of Application: Preliminary Permit.

(b) Project No.: P–8994–000.

(c) Date Filed: March 4, 1985.

(d) Applicant: Streamline Hydro, Inc.

(e) Name of Project: Buffehr Creek.

(f) Location: On Buffehr Creek in Eagle County, Colorado on lands administered by the White River National Forest.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Mr. Robert E. Stout, 6565 South Dayton, Suite 1100, Englewood, CO 80111.

(i) Comment Date: June 10, 1985.

(j) Description of Project: The proposed project would consits of: (1) a 6- to 10-foot-high and 60-foot-long proposed dam including spillway at elevation 8760 feet U.S.G.S. datum; (2) a proposed reservoir with a storage capacity of 3000 cubic feet and surface area of 1500 square feet at elevation 8766 U.S.G.S. datum; (3) a proposed penstock 2500 feet long, approximately 12 inches in diameter; (4) a proposed powerhouse 15 feet long and 15 feet wide containing one proposed turbine/generator with a rated capacity of 150 kW; (5) a proposed closed channel conduit tailrace 18 inches in diameter and 20 feet long; (6) a new three-phase 25-kV transmission line 3400 feet long; and (7) appurtenant facilities. The estimated average annual energy produced by the project would be .5 million kWh operating under a net hydraulic head of 360 feet. Project power would be sold to the Holy Cross Electric Company of Glenwood Springs, Colorado.

(k) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, D2.

(l) Proposed Scope under this Permit: A preliminary permit if issued, does not authorize construction. The term of the proposed preliminary permit is 24 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $40,000.

(23) (a) Type of Application: Preliminary Permit.

(b) Project No.: P–8993–000.

(c) Date Filed: March 4, 1985.

(d) Applicant: Streamline Hydro, Inc.

(e) Name of Project: Pitkin Creek.

(f) Location: On Pitkin Creek in Eagle County, Colorado on lands administered by the White River National Forest.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(i) Comment Date: June 10, 1985.

(j) Description of Project: The proposed project would consits of: (1) a 6- to 10-foot-high and 60-foot-long proposed dam including spillway at elevation 9,000 feet U.S.G.S. datum; (2) a proposed reservoir with a storage capacity of 5,400 cubic feet and surface area of 1,800 square feet at elevation 9,006 feet U.S.G.S. datum; (3) a proposed penstock 2,000 feet long, approximately 10 inches in diameter; (4) a proposed powerhouse 15 feet long and 15 feet wide containing one proposed turbine/generator with a rated capacity of 130 kW; (5) a proposed closed channel conduit tailrace 18 inches in diameter and 20 feet long; (6) a new three-phase 25-kV transmission line 200 feet long; and (7) appurtenant facilities. The estimated average annual energy produced by the project would be .5 million kWh operating under a net hydraulic head of 384 feet. Project power would be sold to the Holy Cross Electric Company of Glenwood Springs, Colorado.

(k) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, D2.

(l) Proposed Scope under this Permit: A preliminary permit if issued, does not authorize construction. The term of the proposed preliminary permit is 24 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $3,000.

(24) (a)Type of Application: Preliminary Permit.

(b) Project No.: P–8992–000.

(c) Date Filed: March 4, 1985.

(d) Applicant: Streamline Hydro, Inc.

(e) Name of Project: Gore Creek.

(f) Location: On Gore Creek in Eagle County, Colorado on lands administered by the White River National Forest.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r)

(h) Contact Person: Mr. Robert E. Stout, 6565 South Dayton, Englewood, CO 80111.

(i) Comment Date: July 10, 1985.

(j) Description of Project: The proposed project would consist of: (1) a 6 to 10-foot-high and 50-foot-long proposed dam including spillway at elevation 9,200 feet U.S.G.S. datum; (2) a proposed reservoir with a storage capacity of 4,000 cubic feet and a surface area of 2,000 square feet at elevation 9,204 feet U.S.G.S. datum; (3) a proposed penstock 3,200 feet long, approximately 10 inches in diameter; (4) a proposed powerhouse 30 feet long and 15 feet wide containing two proposed turbine/generators with a total capacity of 200 kW; (5) a proposed closed channel conduit tailrace 18 inches in diameter and 20 feet long; (6) a new three phase 25-kV transmission line 1,600 feet long; and (7) appurtenant facilities. The estimated average annual energy produced by the project would be .8 million kWh operating under a net hydraulic head of 300 feet. Project power would be sold to the Holy Cross Electric Company of Glenwood Springs, Colorado.

(k) This notice also consists of the following standard paragraphs: A6, A7, A9, B, C, D2.

(l) Proposed Scope under this Permit: A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit is 24 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies Applicant would decide whether to proceed with more detailed studies, and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $4,000.

(25) (a) Type of Application: Preliminary Permit.

(b) Project No: 8945–000.

(c) Date Filed: February 11, 1985.

(d) Applicant: Richard D. Ely.

(e) Name of Project: Natchaug River 1.

(f) Location: On the Natchaug River in Tolland and Windham Counties, Connecticut.

(g) Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

(h) Contact Person: Richard D. Ely, P.O. Box 474, Storrs, Connecticut 06268–0474.

(i) Comment Date: June 13, 1985.

(j) Description of Project: The proposed run-of-river project would consist of two independent developments and would utilize two existing U.S. Army Corps of Engineers' dams.

Site 1 Development would utilize the Mansfield Hollow Dam and outlet works and would consist of a new powerhouse at the downstream end of the existing outlet works with three new turbine generator units with a total installed capacity of 234 kW. Interconnection to distribution lines is available at the site.

Site 2 Development would utilize a small dam and existing headrace canal about 300 feet downstream from the Site 1 Development and would consist of: (1) a new short pensock; (2) a new powerhouse with three turbine-generator units with a total installed capacity of 234 kW; (3) a short tailrace; and (4) other appurtenances. Interconnection to distribution lines is available at the site.

Applicant estimates a total average annual generation of 2,000,000 kWh.

(k) Purpose of Project: Project energy would be sold to Northeast Utilities.

(l) This notice also consists of the following standard paragraphs: A5, A7, A9, B, C & D2.

(m) Proposed Scope of Studies under Permit: A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months during which time Applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, the Applicant would decide whether to proceed with an application for FERC license. Applicant estimates that the cost of the studies under permit would be $68,000.

Competing Applications

(A1) Exemption for Small Hydroelectric Power Project under 5MW Capacity—Any qualified license or conduit exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license or conduit exemption application that proposes to develop at least 7.5 megawatts in that project, or a notice of intent to file such an application. Any qualified small hydroelectric exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing small hydroelectric exemption application or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing license, conduit exemption, or small hydroelectric exemption application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permit will not be accepted in response to this notice.

(A2) Exemption for Small Hydroelectric Power Project under 5MW Capacity—Any qualified license or conduit exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license or conduit exemption application that proposes to develop at least 7.5 megawatts in that project, or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing license or conduit exemption application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permit and small hydroelectric exemption will not be accepted in response to this notice.

(A3) License or Conduit Exemption—Any qualified license, conduit exemption, or small hydroelectric exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license, conduit exemption, or small hydroelectric exemption application, or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing license, conduit exemption, or small hydroelectric exemption application no later than 120 days after the specified comment date for the particular application. Applications for preliminary permit will not be accepted in response to this notice.

This provision is subject to the following exception: if an application described in this notice was filed by the preliminary permittee during the term of the permit, a small hydroelectric exemption application may be filed by the permittee only (license and conduit exemption applications are not affected by this restriction).

(A4) License or Conduit Exemption—Public notice of the filing of the initial license, small hydroelectric exemption or conduit exemption application, which has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, any competing application for license, conduit exemption, small hydroelectric exemption, or preliminary permit, or notices of intent to file competing applications, must be filed in response to and in compliance with the public notice of the initial license, small hydroelectric exemption or conduit exemption application. No competing applications or notices of intent may be filed in response to this notice.

(A5) Preliminary Permit: Existing Dam or Natural Water Feature Project—Anyone desiring to file a competing application for preliminary permit for a proposed project at an existing dam or natural water feature project, must submit the competing application to the Commission on or before 30 days after the specified comment date for the particular application (see 18 CFR 4.30 to 4.33 (1982)). A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

A competing preliminary permit application must conform with 18 CFR 4.33(a) and (d).

(A6) Preliminary Permit: No Existing Dam—Anyone desiring to file a competing application for preliminary permit for a proposed project where no dam exists or where there are proposed major modifications, must submit to the Commission on or before the specified comment date for the particular application, the competing application itself, or a notice of intent to file such an application. Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 60 days after the specified comment date for the particular application.

A competing preliminary permit application must conform with 18 CFR 4.33(a) and (d).

(A7) Preliminary Permit—Except as provided in the following paragraph, any qualified license, conduit exemption, or small hydroelectric exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing license, conduit exemption, or small hydroelectric exemption application or a notice of intent to file such an application. Submission of a timely notice of intent to file a license, conduit exemption, or small hydroelectric exemption application allows an interested person to file the

competing application no later than 120 days after the specified comment date for the particular application.

In addition, any qualified license or conduit exemption applicant desiring to file a competing application may file the subject application until: (1) a preliminary permit with which the subject license or conduit exemption application would compete is issued, or (2) the earliest specified comment date for any license, conduit exemption, or small hydroelectric exemption application with which the subject license or conduit exemption application would compete; whichever occurs first.

A competing license application must conform with 18 CFR 4.33(a) and (d).

(A8) Preliminary Permit—Public notice of the filing of the initial preliminary permit application, which has already been given, established the due date for filing competing preliminary permit applications on notices of intent. Any competing preliminary permit application, or notice of intent to file a competing preliminary permit application, must be filed in response to and in compliance with the public notice of the initial preliminary permit application. No competing preliminary permit applications or notices of intent to file a preliminary permit may be filed in response to this notice.

Any qualified small hydroelectric exemption applicant desiring to file a competing application must submit to the Commission, on or before the specified comment date for the particular application, either a competing small hydroelectric exemption application or a notice of intent to file such an application. Submission of a timely notice of intent to file a small hydroelectric exemption application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application.

In addition, any qualified license or conduit exemption applicant desiring to file a competing application may file the subject application until: (1) a preliminary permit with which the subject license or conduit exemption application would compete is issued, or (2) the earliest specified comment date for any license, conduit exemption, or small hydroelectric exemption application with which the subject license or conduit exemption application would compete; whichever occurs first.

A competing license application must conform with 18 CFR 4.33(a) and (d).

(A9) Notice of intent—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, include an unequivocal statement of intent to submit, if such an application may be filed, either (1) a preliminary permit application or (2) a license, small hydroelectric exemption, or conduct exemption application, and be served on the applicant(s) named in this public notice.

(B) *Comments, Protests, or Motions to Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 C.F.R. §§ 385.210, .211, .244. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

(C) *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST" or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing is in response. Any of the above named documents must be filed by providing the original and the number of copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Project Management Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

(D) *Agency Comments*—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the Federal Power Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historic and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88–29, and other applicable statutes. No other formal requests for comments will be made.

Comments should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the Applicant. If an agency does not file comments with the Commission within the time set for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

(D2) *Agency Comments*—Federal, State, and local agencies are invited to file comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

(D3a) *Agency Comments*—The U.S. Fish and Wildlife Service, the National Marine Fisheries Service, and the State Fish and Game agency(ies) are requested, for the purposes set forth in Section 408 of the Energy Security Act of 1980, to file within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

(D3b) *Agency Comments*—The U.S. Fish and Wildlife Service, the National Marine Fisheries Service, and the State Fish and Game agency(ies) are requested, for the purposes set forth in Section 30 of the Federal Power Act, to file within 45 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or otherwise carry out the provisions of the Fish and Wildlife

Coordination Act. General comments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 45 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Dated: April 16, 1985.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-9516 Filed 4-18-85; 8:45 am]

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Implementation of Special Refund Procedures; Blex Oil, Inc., et al.

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of implementation of special refund Procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy announces the procedures for disbursement of $44,314.31 (plus accrued interest) obtained as a result of Consent Orders which the DOE entered into with Blex Oil, Inc. of Minneapolis, Minnesota (Case No. HEF-0038), Cross Oil Company of Wellston, Missouri (Case No. HEF-0058), and Independent Oil & Tire Company of Elyria, Ohio (Case No. HEF-0094). The funds will ba available to customers who purchased refined petroleum products from one of the consent order firms during the relevant consent order period.

DATE AND ADDRESS: Applications for refund of a portion of one of the consent order funds must be postmarked within 90 days of publication of this notice in the **Federal Register** and should be addressed to: Blex Consent Order Proceeding, Cross Consent Order Proceeding, or Independent Consent Order Proceeding, Officer of Hearings and Appeals, Department of Energy, 1000 Independence Avenue SW., Washington, D.C. 20585. All applications should conspicuously display a reference to the appropriate case number.

FOR FURTHER INFORMATION CONTACT: Richard W. Dugan, Associate Director, Office of Hearings and Appeals, 1000 Independence Avenue SW., Washington, D.C. 20585, (202) 252-2860.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(c) of the procedural regulations of the Department of Energy, 10 CFR 205.282(c), notice is hereby given of the issuance of the Decision and Order set out below. The Decision and Order relates to Consent Orders entered into by Blex Oil, Inc. (Blex), of Minneapolis, Minnesota, Cross Oil Company (Cross) of Wellston, Missouri, and Independent Oil and Tire Company (Independent) of Elyria, Ohio (hereinafter collectively referred to as the consent order firms). These Consent Orders settled possible pricing and allocation violations with respect to the consent order firms' sales of refined petroleum products during the relevant consent order periods. Under the terms of the Consent Orders, the products covered, the consent order periods, and the consent order amounts are as follows:

Products covered	Consent order period	Consent order amount
Blex: Motor gasoline	1/1/79-6/30/80	$7,100.00
Cross:		
Premium gasoline	1/1/73-5/7/75	13,384.69
Regular gasoline	1/1/73-7/31/75	
No. 2 heating oil	1/1/73-1/8/75	9,658.65
Independent: Motor gasoline	1/1/79-12/31/79	14,170.97

The consent order amounts are being held in separate interest-bearing escrow accounts pending determination of their proper distribution.

The Office of Hearings and Appeals previously issued a Proposed Decision and Order which tentatively established a two-stage refund procedure and solicited comments from interested parties concerning the proper disposition of the three consent order funds. The Proposed Decision and Order discussing the distribution of the consent order funds was issued on December 10, 1984. 49 FR 48978 (December 17, 1984).

As the Decision and Order indicates, applications for refunds from the consent order funds may now be filed. Applications will be accepted provided they are postmarked no later than 90 days after publication of this Decision and Order in the **Federal Register**.

Applications will be accepted from customers who purchased refined petroleum products from one of the consent order firms during the relevant consent order period. The specified information required in an application for refund is set forth in the Decision and Order. The Decision and Order reserves the question of the proper distribution of any remaining consent order funds until the first-stage claims procedure is completed.

Dated: April 10, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals.

Decision and Order of the Department of Energy

Special Refund Procedures

April 10, 1985.

Names of Firms: Blex Oil, Inc., Cross Oil Company, Independent Oil and Tire Company.

Date of Filing: October 13, 1983.

Case Numbers: HEF-0038, HEF-0058, HEF-0094.

In accordance with tfhe procedural regulations of the Department of Energy (DOE), 10 CFR Part 205, Subpart V, the Economic Regulatory Administration (ERA) of the DOE filed a Petition for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals (OHA) on October 13, 1983. The petition requests that the OHA formulate and implement procedures for the distribution of funds received pursuant to Consent Orders entered into by the DOE and the following parties: Blex Oil, Inc. (Blex) of Minneapolis, Minnesota, Cross Oil Company (Cross) of Wellston, Missouri, and Independent Oil and Tire Company (Independent) of Elyria, Ohio (hereinafter collectively referred to as the consent order firms).[1]

I. Background

Each of the consent order firms is a "reseller-retailer" of "refined petroleum products," as these terms were defined in 10 CFR 212.31. ERA audits of the consent order firms revealed possible violations of the Mandatory Petroleum Price Regulations. Subsequently, each of these firms entered into a separate Consent Order with the DOE in order to settle its disputes with the DOE concerning certain sales of refined petroleum products. Each Consent Order refers tro the ERA allegations of overcharges, but notes that no findings of violation were made. In addition, each Consent Order states that the consent order firm does not admit that it committed such violations.

[1] The Cross Consent Order covers sales of motor gasoline and No. 2 heating oil by Cross Oil Company and its five subsidiaries: Kirby Oil Company, Automatic Heat, Wiesehan Oil Company, Marvel Fuel Oil and Gas Company (from February 1975), and Froesel Oil Company (from December 1973).

Pursuant to these Consent Orders, the firms agreed to pay to the DOE specified amounts in settlement of their potential liability regarding sales to their repective customers during the consent order periods. The firms' payments are currently being held by the DOE in separate interest-bearing escrow accounts pending distribution by the DOE. The names and locations of the firms, the settlement amounts, the products covered by the Consent Orders, and the dates of the consent order periods are set forth in Appendices A–C to this Decision and Order.

On December 10, 1984, we issued a Proposed Decision and Order (PD&O) setting forth a tentative plan for the distribution of the consent order funds. 49 FR 48978 (December 17, 1984). We stated in the PD&O that the basic purpose of a special refund proceeding is to make restitution for injuries that were suffered as a result of alleged or adjudicated violations of the DOE regulations. In order to effect restitution in this proceeding, we proposed to establish a claims procedure whereby applications for refund would be accepted from customers who can demonstrate that they were injured as a result of the pricing practices of one of the consent order firms during the relevant consent order period.

A copy of the PD&O was published in the **Federal Register** on December 17, 1984, and comments were solicited regarding the proposed refund procedures. While none of the consent order firms' customers filed comments on the proposed procedures, comments were filed on behalf on the State of New Mexico. These comments, however, discuss the distribution of any residual funds that might remain after refunds have been made to first stage claimants. The purpose of this Decision and Order is limited to establishing procedures to be used for filing and processing claims in the first stage of the present refund proceeding. This Decision sets forth the information that a purchaser of petroleum products from one of the consent order firms should submit in an Application for Refund in order to establish eligibility for a portion of the consent order funds. The formulation of procedures for the final disposition of any remaining funds will necessarily depend on the size of the fund. *See Office of Enforcement,* 9 DOE ¶ 82,508 (1981). Therefore, it would be premature for use to address at this time the issues raised by New Mexico's comments concerning the disposition of any funds remaining after all the meritorious first stage claims have been paid.[2] Since we have received no other comments regarding issues raised in the PD&O, we will adopt the proposed refund procedures.

II. Jurisdiction

The procedural regulations of the DOE set forth general guidelines by which the Office of Hearings and Appeals may formulate and implement a plan of distibution for funds received as a result of an enforcement proceeding. 10 CFR Part 205, Subpart V. The Subpart V process may be used in situations where the DOE is unable to readily identify persons who may have been injured by alleged or adjudicated violations, or unable to ascertain the amounts of such persons' injuries. For a more detailed discussion of Subpart V and the authority of the Office of Hearings and Appeals to fashion procedures to distribute refunds obtained as part of settlement agreement, *see Office of Enforcement,* 9 DOE ¶82,553 (1982); *Office of Enforcement,* 9 DOE ¶82,508 (1981); *Office of Enforcement,* 8 DOE ¶ 82,597 (1981) *(hereinafter cited as Vickers).* As we stated in the PD&O, we have reviewed the record in the present case and have determined that a Subpart V proceeding is an appropriate mechanism for distributing the three consent order funds. We will therefore grant the ERA's petition and assume jurisdiction over the distribution of these funds.

III. Determination of Injury and Refund Amounts

As proposed in the PD&O, reseller claimants will be required to demonstrate that they did not pass on to their customers the price increases implemented by one of the consent order firms. *See, e.g., Vickers.* Accordingly, in order to qualify for a refund, resellers of refined petroleum products purchased from one of the consent order firms must show that during the consent order period market conditions would not permit them to increase their prices to pass through the additional costs associated with the alleged overcharges. In addition, resellers must show that they maintained a "bank" of unrecovered costs in order to demonstrate that they did not subsequently recover these costs by increasing their prices.[3] As we noted in the PD&O, however, the maintenance of a bank will not, automatically establish injury. *See Tenneco Oil Co. / Chevron U.S.A., Inc.,* 10 DOE ¶ 85,014 (1982); *Vickers Energy Crop. /Standard Oil Co.,* 10 DOE ¶ 85,036 (1982); *Vickers Energy Corp. /Koch Industries, Inc.,* 10 DOE ¶ 85,038 (1982).

We will also adopt certain presumptions proposed in the PD&O which have been used in many prior refund cases. First, we will adopt a presumption that the alleged overcharges were dispersed equally in all sales of refined petroleum products made by the consent order firms during the relevant consent order period. The OHA has referred to this presumption in the past as a volumetric refund amount. Second, we will adopt a presumption of injury with respect to small claims.

Presumptions in refund cases are specifically authorized by applicable DOE procedural regulations. Section 205.282(e) of those regulations states that:

> In establishing standards and procedures for implementing refund distributions, the Office of Hearings and Appeals shall take into account the desirability of distributing the refunds in an efficient, effective and equitable manner and resolving to the maximum extent practicable all outstanding claims. In order to do so, the standards for evaluation of individual claims may be based upon appropriate presumptions.

10 CFR 205.282(e). The presumptions we will adopt in this case are used to permit claimants to participate in the refund process without incurring disproportionate expense, and to enable the OHA to consider the refund applications in the most efficient way possible in view of the limited resources available.

The volumetric refund presumption assumes that alleged overcharges were spread equally over all gallons of product marketed by a particular firm. In the absence of better information, this assumption is sound because the DOE price regulations generally required a regulated firm to account for increased costs on a firm-wide basis in determining its prices.

In the PD&O, we stated that the information available in the ERA audit files is insufficient to base refunds on the amount each individual applicant was allegedly overcharged. Although the Cross and Independent audit files identify a number of customers who purchased petroleum products directly

---

[2] It is not clear, however, that New Mexico and its citizens have a legitimate interest in this proceeding, since none of the sales involved were made in the state of New Mexico.

[3] Some of the petroleum product sales covered by the Consent Orders occurred subsequent to the amendment of the retailer price rule that eliminated the banking provision for retailers of motor gasoline. *See* 10 CFR 212.93(a)(2), 44 FR 42542 (July 19, 1979) (effective July 15, 1979). Accordingly, retailers will not be required to submit bank information concerning any purchases of motor gasoline they may have made after July 15, 1979.

from the consent order firms, those files do not provide individual alleged overcharge amounts. The Blex audit file does not identify any customers who may have been injured by Blex's pricing practices nor any alleged overcharged amounts.[4] Accordingly, we will use the volumetric method to allocate the consent order funds.[5] The volumetric refund amounts, determined by dividing each consent order fund by the estimated total volume of petroleum products sold by the consent order firm during the relevent consent order period, are set forth in the Appendices.[6] In each case, a successful applicant will receive a refund amount for each gallon of petroleum products which it purchased from the consent order firm.[7] The interest which has accrued on the money in each escrow account will be added to the refund of each successful claimant in proportion to the size of its refund.

The presumption that claimants seeking smaller refunds were injured by the pricing practices settled in each Consent Order is based on a number of considerations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 (1982). As we have noted in many previous refund decisions, there may be considerable expenses involved in gathering the types of data needed to support a detailed claim of injury. In order to prove such a claim, an applicant must compile and submit detailed factual information regarding the impact of alleged overcharges which took place many years ago. This procedure is generally time-consuming and expensive, and in the case of small claims, the cost to the firm of gathering this factual information and the cost to the OHA of analyzing it may be many times the expected refund amount. Failure to allow simplified application procedures for small claims could therefore operate to deprive injured parties of the opportunity to obtain a refund. The use of presumptions is also desirable from an administrative standpoint, because it allows the OHA to process a large number of refund claims quickly, and use its limited resources more efficiently. Finally, we know that these smaller claimants did purchase covered products from one of the consent order firms and were in the chain of distribution where the alleged overcharges occurred. Therefore, they bore some impact of the alleged overcharges, at least initially. The presumption eliminates the need for a claimant to submit and the OHA to analyze detailed proof of what happened downstream of that initial impact.

Under the presumptions we are adopting, a reseller or retailer claimant will not be required to submit any additional evidence of injury beyond purchase volumes if its refund claim is based on purchases below a threshold level.[8] Previous OHA refund decisions have expressed the threshold either in terms of a ceiling on purchases from the consent order firm, or as a dollar refund amount. However, in *Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984), we noted that describing the threshold in terms of a dollar amount rather than a purchase volume figure would better effectuate our goal of facilitating disbursements to applicants seeking relatively small refunds. *Id.* at 88,210. As proposed in the PD&O, the same approach will be followed in this case. The adoption of a threshold level below which a claimant is not required to submit any further evidence of injury beyond volumes purchased is based on several factors. As noted above, we are especially concerned that the cost to the applicant and the government of compiling and analyzing information sufficient to show injury not exceed the amount of the refund to be gained. Since the per gallon refund amount is fairly low in the case of Blex and Independent, and the time period of the Consent Order is quite distant in the case of Cross, we believe that the establishment of a presumption of injury for all claims of $5,000 or less is reasonable in the present proceeding.[9] *See, id.; Marion Corp.*, 12 DOE ¶ 85,014 (1984).

In addition to the presumptions we are adopting, we are making a finding that end-users or ultimate consumers, including businesses that are unrelated to the petroleum industry, were injured by the alleged overcharges settled in the Consent Orders. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the consent order period, and they were not required to keep records which justified selling price increases by reference to cost increases. For these reasons, an analysis of the impact of the alleged overcharges on the final prices of non-petroleum goods and services would be beyond the scope of a special refund proceeding. *See Office of Enforcement, Economic Regulatory Administration: In the Matter of PVM Oil Associates, Inc.*, 10 DOE ¶ 85,072 (1983); *See also Texas Oil & Gas Corp.*, 12 DOE at 88,209, and cases cited therein. We have therefore concluded that end-users of petroleum products purchased from one of the consent order firms need only document their purchase volumes from the firm to make a sufficient showing that they were injured by the alleged overcharges.[10]

We shall also adopt our proposal to establish a minimum amount of $15 for

---

[4] Although the ERA audit files pertaining to Blex identify two retail outlets which sold motor gasoline supplied by Blex, these outlets appear to be consignees of Blex Oil, rather than independently operated retail outlets. As in previous cases, we will adopt a rebuttable presumption that consignees of a consent order firm experienced no injury as a result of the consent order firm's pricing practices. *See Aztex Energy Co.*, 12 DOE ¶ 85,116 (1984). Accordingly, in order to be eligible for a refund, these two outlets must either rebut this presumption or show that they operated as independent retailers during Blex's consent order period.

[5] We recognize, however, that the impact of a firm's pricing practices on an individual purchaser could have been greater, and any purchaser is allowed to file a refund application based on a claim that it suffered a disproportionate injury as a result of the pricing practices of one of the consent order firms during the relevent audit period. A refund application for an amount greater than that calculated using the volumetric presumption must document the disproportionate impact of the alleged overcharges. *See, e.g., Amtel, Inc.*, 12 DOE ¶ 85,073 at 88,233–34 (1984).

[6] Because the ERA audit files provide only partial sales volume data regarding the petroleum products sold by Cross during the Cross consent order period, we have extrapolated volume figures from the available sales volume data.

[7] The Cross Consent Order designates $12,553.29 of the $12,611.99 consent order fund for distribution to dealers of Cross motor gasoline and $9,058.70 for distribution to jobbers of Cross #2 heating oil. In order to carry out the mandate of the Consent Order and to fashion a refund plan which is likely to correspond closely to the injuries experienced, we have calculated a separate volumetric amount for each portion of the consent order fund as set forth in the Appendices.

[8] Resellers who made only spot purchases from the consent order firms will be presumed to have suffered no injury. Accordingly, these resellers will be ineligible for any refund, even a refund at or below the threshold level. As we have previously stated with respect to spot purchasers:

> [T]hose customers tend to have considerable discretion in where and when to make purchases and would therefore not have made spot market purchases of [the firm's product] at increased prices unless they were able to pass through the full amount of [the firm's] quoted selling price at the time of purchase to their own customers.

Vickers, 8 DOE at 85,398–97. *See Office of Special Counsel*, 10 DOE ¶ 85,048 at 88,270 (1982). The same rationale holds true in the present case. Accordingly, in order to overcome the rebuttable presumption that they were not injured, in addition to the proof of injury required of those resellers claiming more than the threshold amount, any reseller claimants who were spot purchasers must submit additional evidence to establish that they were unable to exercise considerable discretion as to where and when they made the purchase(s) on which their refund claims are based.

[9] Any reseller whose potential refund exceeds the threshold level may elect to apply for a refund based on the threshold amount.

[10] End-user customers who purchased motor gasoline from Cross during the consent order period should have received a direct refund from Cross, as mandated by the Cross Consent Order. Accordingly, end-users of Cross motor gasoline will not be eligible to apply for a refund in this proceeding, unless they can show that they did not receive a direct refund from Cross.

refund claims. We have found through our experience in prior refund cases that the cost of processing claims in which refunds are sought for amounts less than $15 outweighs the benefits of restitution in those situations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 at 85,225 (1982). *See also* 10 CFR 205.286(b).

IV. Application for Refund Procedures

We have determined that the procedures described in the PD&O are the most equitable and efficacious means of distributing the two consent order funds. Accordingly, we shall now accept applications for refunds from customers who purchased motor gasoline from Blex, Cross, or Independent, or No. 2 heating oil from Cross during the relevant consent order period.

In order to receive a refund, each applicant will be required to report the monthly volume of motor gasoline or No. 2 heating oil purchased from one of the consent order firms for which it is claiming a refund. The applicant must also state how it used the motor gasoline or No. 2 heating oil, i.e., whether it was a reseller or an ultimate consumer. Retailers and resellers who request refunds in excess of the $5,000 threshold amount must submit evidence to establish that they did not pass on the alleged overcharges to their customers. In addition, each applicant must state whether there has been a change in ownership of the firm since the relevant audit period and must provide the names and addresses of any other owners. If there has been a change in ownership, the applicant should either state the reasons why the refund should be paid to the applicant rather than the other owners or provide a signed statement from the other owners indicating that they do not claim a refund. Applicants should also report any past or present involvement as a party in DOE enforcement proceedings. If these proceedings have terminated, the applicant should furnish a copy of the final order issued in the matter and indicate the status of any remedial action required by the order. If the proceeding is ongoing, the applicant should briefly describe the proceeding and its current status. The applicant is under a continuing obligation to keep the OHA informed of any change in status while its refund application is pending. *See* 10 CFR 205.9(d).

All applications must be filed in duplicate and must be received within 90 days after publication of this Decision and Order in the **Federal Register**. Each application must be in writing, signed by the applicant, and specify that it pertains to either the Blex Consent Order Fund, Case No. HEF-0038, the Cross Consent Order Fund, Case No. HEF-0058, or the Independent Consent Order Fund, Case No. HEF-0094. A copy of each application will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals. Any applicant who believes that its application contains confidential information must so indicate and submit two additional copies of its application from which the information that the applicant claims is confidential has been deleted. Each application must also include the following statement: "I swear (or affirm) that the information submitted is true and accurate to the best of my knowledge and belief." *See* 10 CFR 205.283(c); 18 U.S.C. 1001. In addition, the applicant should furnish us with the name and telephone number of a person who may be contacted by this Office for additional information concerning the application. All applications should be sent to: Office of Hearings and Appeals, Department of Energy, 1000 Independence Ave., S.W., Washington, D.C. 20585.

It Is Therefore Ordered That:

(1) Applications for refunds from funds remitted to the Department of Energy by the consent order firms listed in Appendices A–C to this Decision and Order may now be filed.

(2) All applications must be filed no later than 90 days after publication of this Decision and Order in the **Federal Register**.

Dated: April 10, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals.

Appendix A

Blex Oil, Inc., 1010 Washington Avenue, Minneapolis, MN

Consent Order Period: 1/1/79–6/30/80
Product Covered: Motor gasoline
Consent Order Amount: $7,100.00
Volumetric Amount: $0.0009964.

No identified non-consignee customers.

Appendix B

Cross Oil Company, 6291 Suburban, Wellston, Mo

Products Covered:
Motor gasoline (premium and regular)
No. 2 heating oil
Consent Order Periods
Premium motor gasoline: 11/1/73–5/7/75
Regular motor gasoline: 11/1/73–7/31/75
No. 2 heating oil: 11/1/73–1/8/75
Consent Order Amount: $23,043.34
$9,658.65 to jobbers of No. 2 heating oil*
$13,384.69 to dealers of motor gasoline*
Volumetric Amounts:
$0.009924 for No. 2 heating oil
$0.003895 for motor gasoline**

*Includes interest that accrued on the consent order amount prior to payment to the DOE.

**We have calculated the volumetric refund factor for service station dealers on the basis of an extrapolated total volume figure for gallons sold to dealers during the consent order period. *See* footnote 6. In the PD&O, we calculated a volumetric refund factor of $0.01539 on the basis of an extrapolated total volume figure of 869,548 gallons. Upon closer examination of the Cross audit file, we have determined that an extrapolated total volume figure of 3, 436,114 gallons is more accurate. Accordingly, we have adjusted the volumetric refund factor to $0.0003895 ($13,384.69 divided by 3,436,114 gallons).

BILLING CODE 6450–01–M

Implementation of Special Refund Procedures; Columbia Oil Co. and Empire Oil Co.

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of Implementation of Special Refund Procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy announces the procedures for disbursement of $17,179.41 (plus accrued interest) obtained as the result of Consent Orders which the DOE entered into with Columbia Oil Company (Columbia) of Hamilton, Ohio and Empire Oil Company (Empire) of Bloomington, California. The funds will be available to customers who purchased motor gasoline from Columbia or Empire during the relevant consent order period.

DATE AND ADDRESS: Applications for refund of a portion of one of the consent order funds must be postmarked within 90 days of publication of this notice in the **Federal Register** and should be addressed to either Columbia Consent Order Refund Proceeding (Case No. HEF-0052) or Empire Consent Order Refund Proceeding (Case No. HEF-0068), Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585. All applications should conspicuously display a reference to the appropriate case number.

FOR FURTHER INFORMATION CONTACT: Richard W. Dugan, Associate Director, Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-2860.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(c) of the procedural regulations of the Department of Energy, 10 CFR 205.282(c), notice is hereby given of the issuance of the Decision and Order set out below. The Decision and Order relates to Consent Orders entered into by Columbia Oil Company (Columbia) of Hamilton, Ohio and Empire Oil Company (Empire) of Bloomington, California (hereinafter referred to as the consent order firms). These Consent Orders settled possible pricing and allocation violations with respect to the consent order firms' sales of motor gasoline during the following consent order periods: April 1, 1979 through September 30, 1979 for sales by Columbia; March 1, 1979 through July 31, 1979 for sales by Empire. Under the terms of the Consent Orders, $4,871.59 was remitted to the DOE by Columbia, and $12,307.82 was remitted to the DOE by Empire. These amounts are being held in separate interest-bearing escrow accounts pending determination of their proper distribution.

The Office of Hearings and Appeals previously issued a Proposed Decision and Order which tentatively established a two-stage refund procedure and solicited comments from interested parties concerning the proper disposition of the two consent order funds. The Proposed Decision and Order discussing the distribution of the consent order funds was issued on January 9, 1985. 50 FR 4586 (January 31, 1985).

As the Decision and Order indicates, applications for refunds from the consent order funds may now be filed. Applications will be accepted provided they are postmarked no later than 90 days after publication of this Decision and Order in the **Federal Register**.

Applications will be accepted from customers who purchased motor gasoline from Columbia or Empire during the relevant consent order period. The specific information required in an application for refund is set forth in Section IV of the Decision and Order. The Decision and Order reserves the question of the proper distribution of any remaining consent order funds until the first-stage claims procedure is completed.

Dated: April 10, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals.

Decision and Order of the Department of Energy

Special Refund Procedures

April 10, 1985.

Names of Firms: Columbia Oil Company, Empire Oil Company.

Date of Filing: October 13, 1983.

Case Numbers: HEF-0052, HEF-0068.

In accordance with the procedural regulations of the Department of Energy (DOE), 10 CFR Part 205, Subpart V, the Economic Regulatory Administration (ERA) of the DOE filed a Petition for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals (OHA) on October 13, 1983. The petition requests that the OHA formulate and implement procedures for the distribution of funds received pursuant to Consent Orders entered into by the DOE and the following parties: Columbia Oil Company (Columbia) of Hamilton, Ohio and Empire Oil Company (Empire) of Bloomington, California (hereinafter collectively referred to as the consent order firms).

I. Background

Each of the consent order firms is a "reseller-retailer" of motor gasoline, as this term was defined in 10 CFR 212.31. ERA audits of the consent order firms revealed possible violations of the Mandatory Petroleum Price Regulations. Subsequently, each of these firms entered into a separate Consent Order with the DOE in order to settle its disputes with the DOE concerning certain sales of motor gasoline. Each Consent Order refers to the ERA allegations of overcharges, but notes that no findings of violation were made. In addition, each Consent Order states that the consent order firm does not admit that it committed any such violations.

Pursuant to these Consent Orders, the firms agreed to pay to the DOE specified amounts in settlement of their potential liability for alleged overcharges in sales of motor gasoline to their respective customers during the consent order periods. The firms' payments are currently being held by the DOE in separate interest-bearing escrow accounts pending distribution by the DOE. The names and locations of the firms, the settlement amounts, and the dates of the consent order periods are set forth in Appendix A to this Decision and Order.

On January 9, 1985, we issued a Proposed Decision and Order (PD&O) setting forth a tentative plan for the distribution of the consent order funds. 50 FR 4586 (January 31, 1985). We stated in the PD&O that the basic purpose of a special refund proceeding is to make restitution for injuries that were suffered as a result of alleged or adjudicated violations of the DOE regulations. In order to effect restitution in this proceeding, we proposed to establish a claims procedure whereby applications for refund would be accepted from customers who can demonstrate that they were injured as a result of any alleged overcharges made by one of the consent order firms during the relevant consent order period.[1]

A copy of the PD&O was published in the **Federal Register** on January 31, 1985, and comments were solicited regarding the proposed refund procedures. In addition, a copy of the PD&O was sent to those purchasers whose names and addresses were listed in the Empire audit file (*see* Appendix B). Since we have received no comments from any

[1] The ERA audit of Empire took place in two stages: the first examined sales to end-users from retail stations owned and operated by Empire; the second examined Empire's sales of motor gasoline to independently operated retail stations, other resellers, and direct purchase end-users. Although the consent order amount appears to have been based upon the first stage of the audit, the language of the consent order indicates that it settles the DOE enforcement proceeding with respect to both stages of the Empire audit. Therefore, all purchasers of Empire motor gasoline during the consent order period are eligible to apply for a refund.

customers or interested parties, we will adopt the proposed refund procedures.

II. Jurisdiction

The procedural regulations of the DOE set forth general guidelines by which the Office of Hearings and Appeals may formulate and implement a plan of distribution for funds received as a result of an enforcement proceeding. 10 CFR Part 205, Subpart V. The Subpart V process may be used in situations where the DOE, is unable to readily identify persons who may have been injured by alleged or adjudicated violations, or unable to ascertain the amounts of such persons' injuries. For a more detailed discussion of Subpart V and the authority of the Office of Hearings and Appeals to fashion procedures to distribute refunds obtained as part of settlement agreements, *see Office of Enforcement*, 9 DOE ¶ 82,553 (1982); *Office of Enforcement*, 9 DOE ¶ 82,508 (1981); *Office of Enforcement*, 8 DOE ¶ 82,597 (1981) (hereinafter cited as *Vickers*). As we stated in the PD&O, we have reviewed the record in the present case and have determined that a Subpart V proceeding is an appropriate mechanism for distributing the two consent order funds. We will therefore grant the ERA's petition and assume jurisdiction over these funds.

III. Determination of Injury and Refund Amounts

As proposed in the PD&O, reseller claimants will be required to demonstrate that they did not pass on to their customers the price increases implemented by the consent order firms. *See, e.g., Vickers*. Accordingly, in order to qualify for a refund, resellers of a consent order firm's motor gasoline must show that during the consent order period market conditions would not permit them to increase their prices to pass through the additional costs associated with the alleged overcharges. In addition, resellers must show that they maintained a "bank" of unrecovered costs in order to demonstrate that they did not subsequently recover these costs by increasing their prices.[2] As we noted in the PD&O, however, the maintenance of a bank will not automatically establish injury. *See Tenneco Oil Co./Chevron U.S.A., Inc.*, 10 DOE ¶ 85,014 (1982); *Vickers Energy Corp./Standard Oil Co. (Indiana)*, 10 DOE ¶ 85,036 (1982); *Vickers Energy Corp./Koch Industries, Inc.*, 10 DOE ¶ 85,038 (1982).

We will also adopt certain presumptions proposed in the PD&O which have been used in many prior refund cases. First, we will adopt a presumption that the alleged overcharges were dispersed equally in all sales of motor gasoline made by the consent order firms during the relevant consent order period. The OHA has referred to this presumption in the past as a volumetric refund amount. Second, we will adopt a presumption of injury with respect to small claims.

Presumptions in refund cases are specifically authorized by applicable DOE procedural regulations. Section 205.282(e) of those regulations states that:

> In establishing standards and procedures for implementing refund distributions, the Office of Hearings and Appeals shall take into account the desirability of distributing the refunds in an efficient, effective and equitable manner and resolving to the maximum extent practicable all outstanding claims. In order to do so, the standards for evaluation of individual claims may be based upon approrpriate presumptions.

10 CFR 205.282(e). The presumptions we will adopt in this case are used to permit claimants to participate in the refund process without incurring disproportionate expenses, and to enable the OHA to consider the refund applications in the most efficient way possible in view of the limited resources available.

The volumetric refund presumption assumes that alleged overcharges were spread equally over all gallons of product marketed by a particular firm. In the absence of better information, this assumption is sound because the DOE price regulations generally required a regulated firm to account for increased costs on a firm-wide basis in determining its prices.

In the PD&O, we stated that the information available in the ERA audit files is insufficient to base refunds on the amount each individual applicant was allegedly overcharged. In the case of Columbia, the ERA audit files do not identify any customers who purchased motor gasoline from Columbia during the consent order period. In the case of Empire, the ERA audit files identify a number of customers who purchased motor gasoline directly from Empire during the audit period, but do not set forth any specific alleged overcharge amounts for these customers. Accordingly, we will use the volumetric method to allocate the consent order funds.[3] The volumetric refund amounts, determined by dividing each consent order fund by the estimated total volume of motor gasoline sold by the consent order firm during the relevant consent order period, are set forth in Appendix A.[4] In each case, a successful applicant will receive a volumetric refund amount for each gallon of gasoline which is purchased from the consent order firm. The interest which has accrued on the money in each escrow will be added to the refund of each successful applicant in proportion to the size of its refund

The presumption that reseller claimants seeking refunds were injured by the pricing practices settled in each Consent Oder is based on a number of considerations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 (1982). As we have noted in many previous refund decisions, there may be considerable expenses involved in gathering the types of data needed to support a detailed claim of injury. In order to prove such a claim, an applicant must compile and submit detailed factual information regarding the impact of alleged overcharges which took place many years ago. This procedure is generally time-consuming and expensive, and in the case of small claims, the cost to the firm of gathering this factual information, and the cost to the OHA of analyzing it, may be many times the expecting refund amount. Failure to allow simplified application procedures for small claims could therefore operate to deprive injured parties of the opportunity to obtain a refund. The use of presumptions for small claims is also desirable from an administrative standpoint because it allows the OHA to process a large number of refund claims quickly and use its limited resources more efficiently. Finally, we know that these smaller claimants purchased motor gasoline from one of the consent order firms and were in the chain of distribution where the alleged overcharges occurred. Therefore, they bore some impact of the alleged overcharges, at least initially.

---

[2] Some of the motor gasoline sales covered by the Consent Orders occurred subsequent to the amendment of the retailer price rule that eliminated the banking provision for retailers. *See* 10 CFR 212.93(a)(2), 44 FR 42542 (July 19, 1979) (effective July 15, 1979). Accordingly, retailers will not be required to submit bank information concerning any purchases of gasoline they may have made after July 15, 1979.

[3] We recognize, however, that the impact of a firm's pricing practices on an individual purchaser could have been greater, and any purchaser will therefore be allowed to file a refund application based on a claim that it suffered a disproportionate injury as a result of the pricing practices of one of the consent order firms during the relevant audit period. A refund application for an amount greater than the amount calculated using the volumetric presumption must document the disproportionate impact of the allleged overcharges. *See, e.g., Arthur, Inc.*, 12 DOE ¶ 85,073 at 88,233–34 (1984).

[4] Because the avilable ERA audit file provide only partial sale volume data regarding the motor gasoline sold by Columbia and Empire during the relevant consent order period, we have extrapolated sales volume figures or these firms from the available audit data.

The small claims presumption eliminates the need for a claimant to submit and the OHA to analyze detailed proof of what happened downstream of that initial impact.

Under the presumptions we are adopting, a reseller or retailer claimant will not be required to submit any additional evidence of injury beyond purchase volumes if its refund claim is based on purchases below a threshold level.[5] Previous OHA refund decisions have expressed the threshold either in terms of a ceiling on purchases from the consent order firm, or as a dollar refund amount. However, in *Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984), we noted that describing the threshold in terms of a dollar amount rather than a purchase volume figure would better effectuate our goal of facilitating disbursements to applicants seeking relatively small refunds. *Id.* at 88,210. As proposed in the PD&O, the same approach will be followed in this case. The adoption of a threshold level below which a claimant is not required to submit any further evidence of injury beyond volumes purchased is based on several factors. As noted above, we are especially concerned that the cost to the applicant and the government of compiling and analyzing information sufficient to show injury not exceed the amount of the refund to be gained. In the present case, where the volumetric refund amounts are fairly low, we believe that the establishment of a presumption of injury for all claims of $5,000 or less is reasonable.[6] *See id.; Marion Corp.*, 12 DOE ¶ 85,014 (1984).

In addition to the presumptions we are adopting, we are making a finding that end-users or ultimate consumers, including businesses that are unrelated to the petroleum industry, were injured by the alleged overcharges settled in the consent orders. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the consent order period, and they were not required to keep records which justified selling price increases by reference to cost increases. For these reasons, an analysis of the impact of the alleged overcharges on the final prices of non-petroleum goods and services would be beyond the scope of a special refund proceeding. *See Office of Enforcement, Economic Regulatory Administration: In the Matter of PVM Oil Associates, Inc.*, 10 DOE ¶ 85,072 (1983); *see also Texas Oil & Gas Corp.*, 12 DOE at 88,209, and cases cited therein. We have therefore concluded that end-users of motor gasoline purchased from one of the consent order firms need only document their purchase volumes from the firm to make a sufficient showing that they were injured by the alleged overcharges.[7]

We shall also adopt our proposal to establish a minimum amount of $15 for refund claims. We have found through our experience in prior refund cases that the cost of processing claims in which refunds are sought for amounts less than $15 outweighs the benefits of restitution in those situations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 at 85,225 (1982). *See also* 10 CFR 205.286(b).

IV. Application for Refund Procedures

We have determined that the procedures described in the PD&O are the most equitable and efficacious means of distributing the two consent order funds. Accordingly, we shall now accept applications for refunds from customers who purchased motor gasoline from one of the consent order firms during the relevant consent order period.

In order to receive a refund, each claimant will be required to report the monthly volume of motor gasoline purchased from one of the consent order firms for which it is claiming a refund. It must also state how it used the motor gasoline, i.e., whether it was a reseller or an ultimate consumer. Retailers and resellers who request refunds in excess of the $5,000 threshold amount must submit evidence to establish that they did not pass on the alleged overcharges to their customers. In addition, each applicant must state whether there has been a change in ownership of the firm since the relevant audit period and must provide the names and addresses of any other owners. If there has been a change in ownership, the applicant should either state the reasons why the refund should be paid to the applicant rather than the other owners or provide a signed statement from the other owners indicating that they do not claim a refund. Applicants should also report any past or present involvement as a party in DOE enforcement proceedings. If these proceedings have terminated, the applicant should furnish a copy of the final Order issued in the matter and indicate the status of any remedial action required by the Order. If the proceeding is ongoing, the applicant should briefly describe the proceeding and its current status. The applicant is under a continuing obligation to keep the OHA informed of any change in status while its refund application is pending. *See* 10 CFR 205.9(d).

All applications must be filed in duplicate and must be received within 90 days after publication of this Decision and Order in the **Federal Register**. Each application must be in writing, signed by the applicant, and specify that it pertains to either the Columbia Consent Order Fund, Case No. HEF–0052, or the Empire Consent Order Fund, Case No. HEF–0068. A copy of each application will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals. Any applicant who believes that its application contains confidential information must so indicate and submit two additional copies of its application from which the information that the applicant claims is confidential has been deleted. Each application must also include the following statement: "I swear (or affirm) that the information submitted is true and accurate to the best of my knowledge and belief." *See* 10 CFR 205.283(c); 18 U.S.C. 1001. In addition, the applicant should furnish us with the name and telephone number of a person who may be contacted by this Office for additional information concerning the application. All applications should be sent to: Office of Hearings and Appeals, Department of Energy, 1000 Independence Ave., S.W., Washington, D.C. 20585.

It is Therefore Ordered That:

(1) Applications for refunds from the funds remitted to the Department of

---

[5] Resellers who made only spot purchases from the consent order firms will be presumed to have suffered no injury. They will therefore be ineligible for any refund, even a refund at or below the threshold level. As we have previously stated with respect to spot purchasers:

> [T]hose customers tend to have considerable discretion in where and when to make purchases and would therefore not have made spot market purchases of [the firm's product] at increased prices unless they were able to pass through the full amount of [the firm's] quoted selling price at the time of purchase to their own customers.

Vickers, 8 DOE at 85,396–97. *See Office of Special Counsel*, 10 DOE ¶ 85,048 at 88,200 (1982). The same rationale holds true in the present case. Accordingly, in order to overcome the rebuttable presumption that they were not injured, in addition to the proof of injury required of those resellers claiming more than the threshold amount, any reseller claimants who were spot purchasers must submit additional evidence to establish that they were unable to exercise considerable discretion as to where and when they made the purchase(s) on which their refund claims are based.

[6] As in prior refund cases, resellers whose potential refund exceeds the threshold amount may elect to apply for a refund based on the threshold amount.

[7] The Columbia Consent Order required the firm to refund $6,467.85 directly to its end-user customers. The $4,871.59 which the firm paid to the DOE is therefore primarily intended for distribution to the firm's reseller and retailer customers. Accordingly, an end-user of Columbia's motor gasoline will not be eligible to apply for a refund in this proceeding unless it did not receive a direct refund from Columbia.

Energy by the consent order firms listed in Appendix A to this Decision and Order may now be filed.

(2) All applications must be filed no later than 90 days after publication of this Decision and Order in the **Federal Register.**

Date: April 10, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals.

APPENDIX A

Name of firm	Consent order period	Consent order amount	Products covered	Volumetric amount
Columbia Oil Co., 4311 Hamilton-Middleton Rd., Hamilton, OH 45011.	4/1/79–9/30/79	[1]$4,871.59	Motor gasoline	$0.003822
Empire Oil Co., 2307 South, Riverside Ave., Bloomington, CA 92316.	3/1/79–7/31/79	12,307.82	....do....	0.003756

[1] The Columbia Consent Order required the firm to pay $13,532.15 to the DOE, but provided that this payment could be reduced by amounts owed to Columbia by customers whose debts to Columbia were discharged in bankruptcy proceedings. In accordance with this provision, the amount that Columbia was required to deposit was reduced by $8,660.56; Columbia therefore paid only $4,871.59 to the DOE.

BILLING CODE 6450-01-M

Implementation of Special Refund Procedures; Cosby Oil Co.

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of Implementation of Special Refund Procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy announces the procedures for disbursement of $47,616.73 (plus accrued interest) obtained as the result of a Consent Order which the DOE entered into with Cosby Oil Company (Cosby) of Santa Fe Springs, California. The funds will be available to customers who purchased motor gasoline from Cosby during the period November 1, 1973 through April 30, 1974.

DATE AND ADDRESS: Applications for refund of a portion of the Cosby consent order funds must be postmarked within 90 days of publication of this notice in the **Federal Register** and should be addressed to: Cosby Consent Order Refund Proceeding, Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585. All applications should conspicuously display as reference to Case Number HEF–0056.

FOR FURTHER INFORMATION CONTACT: Richard W. Dugan, Associate Director, Office of Hearings and Appeals, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 252–2860.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(c) of the procedural regulations of the Department of Energy, 10 CFR 205.282(c), notice is hereby given of the issuance of the Decision and Order set out below. The Decision and Order relates to a Consent Order entered into by Cosby Oil Company (Cosby) of Santa Fe Springs, California. The Consent Order settled possible pricing and allocation violations with respect to the firm's sales or motor gasoline during the period November 1, 1973 through April 30, 1974. Under the terms of the Consent Order, $47,616.73 has been remitted by

Cosby and is being held in an interest-bearing escrow account pending determination of its proper distribution.

The Office of Hearings and Appeals previously issued a Proposed Decision and Order which tentatively established a two-state refund procedure and solicited comments from interested parties concerning the proper disposition of the Cosby consent order funds. The Proposed Decision and Order discussing the distribution of the Cosby consent order funds was issued on December 12, 1984. 49 FR 49885 (December 24, 1984).

As the Cosby Decision and Order indicates, applications for refunds from the consent order funds may now be filed. Applications will be accepted provided they are postmarked no later than 90 days after publication of this Decision and Order in the **Federal Register.**

Applications will be accepted from customers who purchased motor gasoline from Cosby during the period November 1, 1973 through April 30, 1974. The specific information required in an application for refund is set forth in the Decision and Order. the Decision and Order reserves the question of the proper distribution of any remaining consent order funds until the first-stage claims procedure is completed.

Dated: April 10, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals

Decision and Order of the Department of Energy

Special Refund Procedures

April 10, 1985.

Name of Firm: Cosby Oil Company.
Date of Filing: October 13, 1983.
Case Number: HEF-0056.

In accordance with the procedural regulations of the Department of Energy (DOE), 10 CFR Part 205, Subpart V, the Economic Regulatory Administration (ERA) of the DOE filed a Petition for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals (OHA) on October 13, 1983. The petition requests that the OHA formulate and implement procedures for the distribution of funds received pursuant to a Consent Order entered into by the DOE and Cosby Oil Company (Cosby) of Santa Fe Springs, California.[1]

I. Background

Cosby Oil Company is a "reseller-retailer" of motor gasoline, as this term was defined in 10 CFR 212.31. An ERA audit of Cosby's operations during the period November 1, 1973 through April 30, 1974 (the audit period) revealed possible violations of the Mandatory Petroleum Pricing Regulations. In a Proposed Remedial Order (PRO) issued to Cosby on February 12, 1979, the ERA alleged that during the audit period Cosby overcharged its motor gasoline customers by $103,734.61. In order to settle all claims and disputes between Cosby and the DOE regarding Cosby's compliance with the DOE price regulations in sales of motor gasoline during the audit period, the firm entered into a Consent Order with the DOE on September 10, 1979. Cosby thereby agreed to remit $35,000, plus interest for the period November 1, 1973 through July 31, 1979, to the DOE for deposit in an interest-bearing escrow account.[2] The Consent Order refers to the ERA allegations of overcharges, but notes that no findings of violation were made Additionally, the Consent Order states that Cosby does not admit that it committed any such violations.

On December 12, 1984, we issued a Proposed Decision and Order (PD&O) setting forth a tentative plan for the distribution of the consent order funds. 49 FR 49885 (December 24, 1984). We stated in the PD&O that the basic purpose of a special refund proceeding is to make restitution for injuries that were suffered as a result of alleged or adjudicated violations of the DOE regulations. In order to effect restitution in this proceeding, we tentatively determined to rely, in part, on the information contained in the Cosby PRO. We observed that this approach was warranted based on our experience in prior Subpart V cases where the audit period was coterminous with the consent order period, all or most of the purchasers of the firm's products were identified by the ERA, and specific alleged overcharge amounts for individual customers were calculated in the ERA audit files. *See, e.g., Marion Corp.*, 12 DOE ¶ 85,014 (1984). We therefore proposed to establish a claims procedure whereby the identified customers of Cosby could apply for a refund.[3]

A copy of the PD&O was published in the **Federal Register** on December 24, 1984, and comments were solicited regarding the proposed refund procedures. In addition, a copy of the PD&O was sent to those purchasers whose names and addresses we obtained from the Cosby PRO. Those firms, as well as firms for whom we do not have addresses, are listed in the Appendix to this Decision and Order. While none of Cosby's customers filed comments on the proposed procedures, comments were filed on behalf of the States of California, New Mexico, North Carolina, Arkansas, Delaware, Kansas, Iowa, Louisiana, North Dakota, Rhode Island, and West Virginia. Most of these comments, however, discuss the distribution of any residual funds that might remain after refunds have been made to first stage claimants. The purpose of this Decision and Order is limited to establishing procedures to be used for filing and processing claims in the first stage of the present refund proceeding. This Decision sets forth the information that a purchaser of motor gasoline from Cosby should submit in an Application for Refund in order to establish eligibility for a portion of the consent order fund. The formulation of procedures for the final disposition of any remaining funds will necessarily depend on the size of the fund. *See Office of Enforcement*, 9 DOE ¶ 82,508 (1981). Therefore, it would be premature for us to address at this time the issues raised by the states' comments concerning the disposition of any funds remaining after all the meritorious first stage claims have been paid.[4]

II. Jurisdiction

The procedural regulations of the DOE set forth general guidelines by which the OHA may formulate and implement a plan of distribution for funds received as a result of an enforcement proceeding. 10 CFR Part 205, Subpart V. The Subpart V process may be used in situations where the DOE is unable to readily identify persons who may have been injured by alleged or adjudicated violations, or unable to ascertain the amounts of such persons' injuries. For a more detailed discussion of Subpart V and the authority of the OHA to fashion procedures to distribute refunds obtained as part of settlement agreements, *see Office of Enforcement*, 9 DOE ¶ 82,553 (1982); *Office of Enforcement*, 9 DOE ¶ 82,508 (1981);

---

[1] During the period covered by the Consent Order, Cosby was located in Whittier, California

[2] On the date it signed the Consent Order (September 5, 1979), Cosby remitted $47,616.73 ($35,000 plus interest) to the DOE. We note that the PD&O erroneously stated that the consent order amount was $46,616.73. We have adjusted the figures used in the PD&O to calculate the potential refund amounts. *See* Section IV and the Appendix.

[3] We recognized, however, that there may have been other purchasers of Cosby motor gasoline who were not identified in the PRO and who may have been injured as a result of Cosby's pricing practices during the consent order period. As we stated in the PD&O, such customers will also be eligible to apply for refunds in the present proceeding.

[4] It is not clear, however, that any of the states except California have a legitimate interest in this proceeding, since all of the motor gasoline sales involved were made in California.

Office of Enforcement, 8 DOE ¶ 82,597 (1981) (hereinafter cited as *Vickers*). We have received no comments challenging our authority to fashion special refund procedures in this case. We will therefore grant the ERA's petition and assume jurisdiction over distribution of the Cosby consent order fund.

III. Determination of Injury

In the PD&O, we proposed that retailer and reseller claimants (including refiners acting as resellers) be required to demonstrate that they did not pass on to their customers the price increases implemented by Cosby. *See, e.g., Vickers*. We have received no comments objecting to our proposal. Accordingly, in order to qualify for a refund, resellers of Cosby motor gasoline must show that during the consent order period market conditions would not permit them to increase their prices to pass through the additional costs associated with the alleged overcharges. In addition, resellers must show that they maintained a "bank" of unrecovered costs in order to demonstrate that they did not subsequently recover these costs by increasing their prices. As we noted in the PD&O, however, the maintenance of a bank will not automatically establish injury. *See Tenneco Oil Co./Chevron U.S.A., Inc.*, 10 DOE ¶ 85,014 (1982); *Vickers Energy Corp./Standard Oil Co.*, 10 DOE ¶ 85,036 (1982); *Vickers Energy Corp./Koch Industries, Inc.*, 10 DOE ¶ 85,038 (1982).

We also proposed to adopt a presumption of injury with respect to small claims. Specifically, we proposed that a reseller or retailer claimant whose refund claim is below a threshold amount of $5,000 not be required to submit any additional evidence of injury beyond purchase volumes.

We have received comments from the State of North Carolina and the State of California regarding the use of a small claims presumption. North Carolina argues that the use of a presumption for reseller claimants is inappropriate in the present proceeding. First, North Carolina objects to the statement in the PD&O that a small claims presumption is necessary to insure administrative efficiency and reasonable cost to the claimant, stating that "it is incongruous to believe that resellers would retain the necessary records of purchases—and yet not retain records of their sales and associated prices." Comments at 2. North Carolina then asserts that only end-users should be entitled to refunds based on a presumption of injury.

California does not challenge the use of a presumption for reseller claimants, but objects to the proposed threshold of $5,000. California argues that the threshold level in the present case should be based on a proportion of the consent order amount which is no larger than the proportion established in *Wisconsin Industrial Fuel Oil, Inc.*, 12 DOE ¶ 85,099 (1984). In that case, a $5,000 threshold was established for use in procedures involving the distribution of a $286,885.14 consent order fund. Applying the same proportion to the Cosby consent order fund, California asserts that the threshold in the present case should be no more than $801.

After careful consideration, we find these arguments to be unpersuasive. For the reasons stated below, we have determined that resellers and retailers of Cosby motor gasoline should receive refunds based on a presumption of injury for all claims of $5,000 or less. *See White Petroleum Co.*, 12 DOE ¶ 85,161 (1985) ($5,000 threshold established in case involving $42,325.95 consent order fund).

As we stated in the PD&O, presumptions in refund cases are specifically authorized by applicable DOE procedural regulations. Section 205.282(e) of those regulations states that:

> In establishing standards and procedures for implementing refund distributions, the Office of Hearings and Appeals shall take into account the desirability of distributing the refunds in an efficient, effective and equitable manner and resolving to the maximum extent practicable all outstanding claims. In order to do so, the standards for evaluation of individual claims may be based upon appropriate presumptions.

10 CFR 205.282(e).

As we pointed out in the PD&O, The presumption that claimants seeking smaller refunds were injured by the pricing practices settled in the Cosby Consent Order is based on a number of considerations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 (1982). First, there may be considerable expenses involved in gathering the types of data needed to support a detailed claim of injury. In order to prove such a claim, an applicant must compile and submit detailed factual information regarding the impact of alleged overcharges which took place many years ago. As we noted in the PD&O, this procedure is generally time-consuming and expensive, and in the case of small claims, the cost to the firm of gathering this factual information and the cost to the OHA of analyzing it may be many times the expected refund amount. In the present case, the transactions involved in the Cosby audit took place 11 years ago, and we recognize that obtaining even just purchase records may be difficult for some of the claimants. We reject North Carolina's unsubstantial assertion that small claimants who have purchase records from 11 years ago would necessarily also have the type of data required to show that they did not pass through the price increases implemented by Cosby. The type of data required to make a detailed showing of cost absorption, including data showing banks of unrecouped costs, is much more difficult to extract or derive from a firm's accounting records than are purchase volume figures that are readily available from copies of invoices the firm may have retained. Therefore, as we stated in the PD&O, we are convinced that failure to allow this type of simplified application procedure for small claims could operate to deprive injured parties of the opportunity to obtain a refund.

Secondly, as we stated in the PD&O, the use of presumptions is desirable from an administrative standpoint, because it allows the OHA to process a large number of refund claims quickly and use its limited resources more efficiently. As of March 20, 1985, the Office of Hearings and Appeals was evaluating 2,363 applications for first-stage refunds in 77 proceedings. In addition, there were 237 pending refund proceedings in which applications for refund will be accepted in the near future. In order to expeditiously process this case load, it is essential to use a small claims presumption like that proposed in the Cosby PD&O.

Finally, as we noted in the PD&O, it is clear that claimants seeking smaller refunds in the Cosby proceeding did purchase covered products from Cosby and were in the chain of distribution where the alleged overcharges occurred. Therefore, they bore some impact of the alleged overcharges, at least initially. The use of a small claims presumption eliminates the need for a claimant to submit and the OHA to analyze detailed proof of what happened downstream of that initial impact.

Under the small claims presumption, a reseller or retailer claimant will not be required to submit any additional evidence of injury beyond purchase volumes if its refund claim is based on purchases below a threshold level.[1]

---

[1] Resellers who made only spot purchases from Cosby will be presumed to have suffered no injury. These resellers will therefore be ineligible for any refund, even a refund at or below the threshold level. As we have previously stated with respect to spot purchasers:

> [T]hose customers tend to have considerable discretion in where and when to make purchases and would therefore not have made spot market purchases of [the firm's product] at increased prices unless they were able to pass through the full

(Continued)

Previous OHA refund decisions have expressed the threshold either in terms of a ceiling on purchases from the consenting firm, or as a dollar refund amount. However, the *Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984), we noted that describing the threshold in terms of a dollar amount rather than a purchase volume figure would better effectuate our goal of facilitating disbursements to applicants seeking relatively small refunds. *Id.* at 88,210. In the PD&O, we proposed that the same approach be followed in this case. The adoption of a threshold level below which a claimant is not required to submit any further evidence of injury beyond volumes purchased is based on several factors. As noted above, we are especially concerned that the cost to both the applicant and the government of compiling and analyzing information sufficient to show injury not exceed the amount of the refund to be gained. In its objection to the threshold level proposed in the present case, California appears to ignore these factors. The size of the individual refund amounts, the amount of time that has passed since the consent order period, and the difficulty of compiling the necessary information are more relevant in establishing a threshold level than the size of the total consent order fund. In this case, where the refund amounts are fairly low and the time period of the Consent Order is quite distant, we believe that the establishment of a presumption of injury for all claims of $5,000 or less is reasonable.[6] *See id.; Marion Corp.*, 12 DOE ¶ 85,014 (1984). Accordingly, we reject the comments of North Carolina and California on this issue.

In addition to the presumption for small claims, we are making a finding that end-users or ultimate consumers, including businesses that are unrelated to the petroleum industry, were injured by the alleged overcharges settled in the Consent Order. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the consent order period, and they were not required to keep records which justified selling price increases by reference to cost increases. For these reasons, and analysis of the impact of the alleged overcharges on the final prices of non-petroleum goods and services would be beyond the scope of a special refund proceeding. *See Office of Enforcement, Economic Regulatory Administration: In the Matter of PVM Oil Associates, Inc.*, 10 DOE ¶ 85,072 (1983); *See also Texas Oil & Gas Corp.*, 12 DOE at 88,209 and cases cited therein. Since we have received no comments challenging our finding regarding end-users, we have concluded that end-users of Cosby gasoline need only document their purchase volumes from Cosby to make a sufficient showing that they were injured by the alleged overcharges.

IV. Calculation of Refund Amounts

In the PD&O, we proposed that the maximum refund for the firms listed in the Appendix be based on the amount they were allegedly overcharged, as indicated by the Cosby PRO. Although we recognize that the PRO does not provide conclusive evidence as to the identity of all allegedly overcharged parties or the amount of money they should receive in a Subpart V proceeding, we believe it is appropriate to use this information in the present case. As we noted in the PD&O, the ERA audit was very narrow in scope, the Consent Order was limited to the same products and time period as the audit, and Cosby had a relatively small number of customers. Because of these factors, the information contained in the PRO can be used to fashion a refund plan which will correspond closely to the injuries experienced. *See, e.g., Marion.* Since we have received no comments regarding our proposed method of distribution, we will adopt the procedures set forth in the PD&O. To calculate the size of each applicant's potential refund, we will multiply the alleged overcharge amounts for each eligible claimant by 0.4590, a pro rata factor determined by dividing the consent order amount ($47,616.73) by the total alleged overcharges ($103,734.61). [7]

The alleged overcharge amount and the maximum potential refund for each of the identified customers are listed in the Appendix. In addition, successful refund applicants will receive a pro rata share of the interest which has accrued since the deposit of the funds into the escrow account.

We will also adopt our proposal to establish a minimum amount of $15 for refund claims. We have found through our experience in prior refund cases that the cost of processing claims in which refunds are sought for amounts less than $15 outweighs the benefits of restitution in those situations. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 at 85,225 (1982). *See also* 10 CFR 205.286(b).

V. Application for Refund Procedures

We have determined that the procedures described in the PD&O are the most equitable and efficacious means of distributing the Cosby consent order fund. Accordingly, we shall now accept applications for refunds from the 15 customers listed in the Appendix. We will also accept claims from any customers not listed in the Appendix who can show that they were injured by Cosby's pricing practices during the consent order period.

In order to receive a refund, each applicant will be required to report the monthly volume of Cosby motor gasoline for which it is claiming a refund. The applicant must also state how it used the motor gasoline, i.e., whether it was a reseller or an ultimate consumer. Retailers and resellers who request refunds in excess of the $5,000 threshold amount must submit evidence to establish that they did not pass on the alleged overcharges to their customers. In addition, each applicant must state whether there has been a change in ownership of the firm since the audit period and must provide the names and addresses of any other owners. If there has been a change in ownership the applicant should either state the reasons why the refund should be paid to the applicant rather than the other owners or provide a signed statement from the other owners indicating that they do not claim a refund. Applicants should also report any past or present involvement as a party in DOE enforcement proceedings. If these proceedings have terminated, the applicant should furnish a copy of the final order issued in the matter and indicate the status of any remedial action required by the order. If the proceeding is ongoing, the applicant should briefly describe the proceeding and its current status. The applicant is under a continuing obligation to keep the OHA informed of any change in

---

amount of [the firm's] quoted selling price at the time of purchase to their own customers

Vickers, 8 DOE at 85,396–97. *See Office of Special Counsel*, 10 DOE ¶ 85,048 at 88,200 (1982). The same rationale holds true in the present case. Accordingly, in order to overcome the rebuttable presumption that they were not injured, in addition to the proof of injury required of those resellers claiming more than the threshold amount, any reseller claimants who were spot purchasers must submit additional evidence to establish that they were unable to exercise discretion as to where and when they made the purchase(s) on which their refund claim is based.

[6] Any reseller whose potential refund exceeds the threshold amount may elect to apply for a refund based on the threshold amount.

[7] In the event that there are customers not listed in the Appendix who file a successful application for refund, we will use the volumetric approach to determine their refund amounts. If such applications are granted under this approach, we may have to reduce the level of refunds proposed for the firms listed in the Appendix. Because of this possibility, we do not intend to issue final determinations on any refund claims in this proceeding until the deadline for applications has passed

status while its refund application is pending. *See* 10 CFR 205.9(d).

All applications must to be filed in duplicate and must be received within 90 days after publication of this Decision and Order in the **Federal Register.** Each application must be in writing, signed by the applicant, and specify that it pertains to the Cosby Consent Order Fund, Case No. HEF-0056. A copy of each application will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals. Any applicant who believes that its application contains confidential information must so indicate and submit two additional copies of its application from which the information that the applicant claims is confidential has been deleted. Each application must also include the following statement: "I swear (or affirm) that the information submitted is true and accurate to the best of my knowledge and belief." *See* 10 CFR 205.283(c); 18 U.S.C. 1001. In addition, the applicant should furnish us with the name and telephone number of a person who may be contacted by this Office for additional information concerning the application. All applications should be sent to: Office of Hearings and Appeals, Department of Energy, 1000 Independence Ave., S.W., Washington, D.C. 20585.

It Is Therefore Ordered That:

(1) Applications for refunds from the consent order fund remitted to the Department of Energy by Cosby Oil Company may now be filed.

(2) All applications must be filed no later than 90 days after publication of this Decision and Order in the **Federal Register.**

George B. Breznay,

Director, Office of Hearings and Appeals.

April 10, 1982.

APPENDIX

Names and address	Alleged overcharges	Potential refund [1]
Automat Oil Company, 200 West Willow Street, Long Beach, CA 90806	$9,067.98	$4,162.00

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-51567; FRL-2820-6]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of the final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). This notice announces receipt of thirty-eight PMNs and provides a summary of each.

DATES: Close of Review Period:

P 85-762, 85-763, 85-764, 85-765, 85-766, 85-767, 85-768, 85-769, 85-770, 85-771, 85-772, 85-773, 85-774, 85-775, 85-776, 85-777, 85-778, and 85-779—July 3, 1985.

Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.

Toxicity Data. No data submitted.

Exposure. Processing: Dermal, a total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.

Environmental Release/Disposal. No release.

P 85–774

Importer. EM Industries.

Chemical. (G) 4-(Trans-4-n-aklylcyclohexyl)-n-alkyl'benzene.

Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.

Toxicity Data. No data submitted.

Exposure. Processing: Dermal, a total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.

Environmental Release/Disposal. No release.

P 85–775

Importer. EM Industries.

Chemical. (G) 5-n-alkyl-2-[4-n-alkoxyphenyl]-1,3-pyrimidine.

Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.

Toxicity Data. No data submitted.

Exposure. Processing: Dermal, total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.

Environmental Release/Disposal. No release.

P 85–776

Importer. EM Industries.
Chemical. (G) 5-n-alkyl-2-[4-n-alkoxyphenyl]-1,3-pyrimidine.
Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.
Toxicity Data. No data submitted.
Exposure. Processing: Dermal, total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.
Environmental Release/Disposal. No release.

P 85–777

Importer. EM Industries.
Chemical. (G) Trans-5-n-alkyl-2-[4-cyanobiphenyl]-1,3-dioxane.
Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.
Toxicity Data. No data submitted.
Exposure. Processing: Dermal, total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.
Environmental Release/Disposal. No release.

P 85–778

Importer. EM Industries.
Chemical. (G) 5-n-alkyl-2-[4-n-alkoxyphenyl]-1,3-pyrimidine.
Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.
Toxicity Data. No data submitted.
Exposure. Processing: Dermal, a total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.
Environmental Release/Disposal. No release.

P 85–779

Importer. EM Industries.
Chemical. (G) 5-n-alkyl-2-[4-n-alkoxyphenyl]-1,3-pyrimidine.
Use/Import. (S) The new chemical substance is part of a liquid crystal mixture used to manufacture displays (watches, instruments, calculators, computers, etc.). Import range: 5–10 kg/yr.
Toxicity Data. No data submitted.
Exposure. Processing: Dermal, a total of 20–50 workers, up to 8 hrs/da, up to 240 da/yr.
Environmental Release/Disposal. No release.

P 85–780

Manufacturer. SecoDyne, Inc.
Chemical. (G) Condensed aminomethylated tannins.
Use/Production. (G) A destabilization charge carrier in settling of colloidal suspensions; a crystal-lattice distorter in removal of $CaCo_3$ and $CaSO_4$ scales; and assists with autoflocculation of biomass polysaccharides by zoogloearamigera for cell surface binding and removal. Prod. range: Confidential.
Toxicity Data. Acute oral: Male—84 g/kg, female—92 g/kg; LC_{50} 24 hr (Ranibow Trout): 100 parts per million (ppm).
Exposure. Confidential.
Environmental Release/Disposal. Confidential.

P 85–781

Manufacturer. The Dow Chemical Company.
Chemical. (G) Substituted polyglycol.
Use/Production. (S) Industrial polyol for use in polyurethane resins. Prod. range: Confidential.
Toxicity Data. Acute oral: >2,000 mg/kg; Irritation: Skin—Non-irritant, Eye—Non-irritant.
Exposure. Manufacture: Dermal, a total of 48 workers.
Environmental Release/ Disposal. Release to air and vapor. Disposal by incineration.

P 85–782

Manufacturer. The Dow Chemical Company.
Chemical. (G) Substituted polyglycol.
Use/Production. (S) Industrial polyol for use in polyurethane resins. Prod. range: Confidential.
Toxicity Data. Acute oral: >2,000 mg/kg; Irritation: Skin—Non-irritant, Eye—Non-irritant.
Exposure. Manufacture: Dermal, a total of 48 workers.
Environmental Release/ Disposal. Release to air and vapor. Disposal by incineration.

P 85–783

Manufacturer. Confidential.
Chemical. (G) Chlorinated cyclic olefin/ polydiene adduct.
Use/Production. (G) Adhesives for open, non-dispersive use. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/ Disposal. Confidential.

P 85–784

Manufacturer. The Dow Chemical Company.
Chemical. (G) Substituted polyglycol.
Use/Production. (S) Industrial polyol for use in polyurethane resins. Prod. range: Confidential.
Toxicity Data. No data on the PMN substance submitted.
Exposure. Manufacture: Dermal, a total of 48 workers.
Environmental Release/ Disposal. Release to air. Disposal by incineration.

P 85–785

Manufacturer. Confidential.
Chemical. (G) Copolyacrylate.
Use/Production. (G) Industrial polymer for specialty coating. Prod. range: 20,000–100,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture and processing: Dermal, a total of 28 workers, up to 8 hrs/da, up to 136 da/yr.
Environmental Release/ Disposal. 6 to 65 kg/batch released to land. Disposal by incineration and landfill.

P 85–786

Manufacturer. Confidential.
Chemical. (G) Fatty dibasic acids, amides from polyoxyalkylene amines.
Use/Production. (G) Lubricant additive and wetting agent. Prod. range: 14,600–44,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture: Dermal, a total of 6 workers, up to 8 hrs/da, up to 3 da/yr.
Environmental Release/ Disposal. 299 kg/batch released to water. Disposal by POTW.

P 85–787

Manufacturer. Confidential
Chemical. (G) Urea derivative.
Use/Production. (S) Site-limited intermediate for latex polymers. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture: Dermal, a total of 18 workers, up to 5 hrs/da, up to 150 da/yr.
Environmental Release/ Disposal. Less than 0.5 to 1–2 kg/batch released to water with 0 to 1 kg/batch to land. Disposal by POTW.

P 85–788

Manufacturer. General Electric Company.
Chemical. (G) Substituted benzoate ester of polyphenylene oxide.
Use/Production. (S) Industrial automotives, E/E and appliances and fluid handling components. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture: Dermal and inhalation, a total of 40 workers, up to 10 hrs/da, up to 100 da/yr.

Environmental Release/Disposal. 100 kg released to air and water. Disposal by incineration and on-site waste treatment—the Hudson River.

P 85–789

Manufacturer. Confidential.
Chemical. (G) Polyester resin.
Use/Production. (G) Electrical insulation intermediate. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/Disposal Confidential.

P 85–790

Manufacturer. Confidential.
Chemical. (G) Polyester resin.
Use/Production. (G) Electrical insulation intermediate. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/Disposal Confidential.

P 85–791

Manufacturer. Confidential.
Chemical. (G) Haloborane-aromatic phosphate ester complex.
Use/Production. (G) Modifier. Prod range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture, processing and use: Dermal, total of 7 workers, up to 0.1 hr/da, up to 32 da/yr.
Environmental Release/Disposal. No release.

P 85–792

Manufacturer. Confidential.
Chemical. (G) Indole.
Use/Production. (G) Captive intermediate used in manufacturing a minor component for paper coatings. Prod. range: Confidential.
Toxicity Data. Ames Test: Negative.
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by POTW.

P 85–793

Manufacturer. Confidential.
Chemical. (G) Carboxyphenylcarbonylindole [I].
Use/Production. (G) Captive intermediate used in manufacturing a minor component for paper coatings. Prod. range: Confidential.
Toxicity Data. Ames Test: Negative.
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by POTW.

P 85–794

Manufacturer. Confidential.
Chemical. (G) Carboxyphenylcarbonylindole [II].
Use/Production. (G) Captive intermediate used in manufacturing a minor component for paper coatings. Prod. range: Confidential.
Toxicity Data. Ames Test: Negative
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by POTW.

P 85–795

Manufacturer. Confidential.
Chemical. (G) Isobenzofuranone [I].
Use/Production. (G) Minor color-forming component in paper coatings. Prod. range: Confidential.
Toxicity Data. Ames Test: Negative.
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by POTW.

P 85–796

Manufacturer. Confidential.
Chemical. (G) Isobenzofuranone [II].
Use/Production. (G) Minor color-forming component in paper coatings. Prod. range: Confidential.
Toxicity Data. Ames Test: Negative.
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by POTW.

P 85–797

Manufacturer. Confidential.
Chemical. (G) Diamino-polydimethyl siloxane.
Use/Production. (G) Organosilicon polymer intermediate. Prod. range: Confidential.
Toxicity Data. Acute oral: Male—1.107 mg/kg, female–602 mg/kg, combined—726 mg/kg; Irritation: Skin—Irritant.
Exposure. Confidential.
Environmental Release/Disposal. Confidential.

P 85–798

Manufacturer. Confidential.
Chemical. (G) Polyimide siloxane.
Use/Production. (G) Open, non-dispersive use coating. Prod. range: Confidential. kg/ lbs/yr.
Toxicity Data. Irritation: Skin—Slight, Eye—Slight/severe; Ames Test: Non-mutagenic.
Exposure. Confidential.
Environmental Release/Disposal. Confidential.

P 85–799

Manufacturer. Rohm and Haas Company.
Chemical. (G) Modified polyacrylate polymer.
Use/Production. (G) Polymeric dispersant. Prod. range: Confidential
Toxicity Data. Acute oral: >5.0 g/kg; Acute dermal: >5.0 g/kg; Irritation: Skin—Non-irritant, Eye—Slight; LC_{50}96 hr (Rainbow trout): >1,000 mg/L; LC_{50}96 hr (Bluegill sunfish): >1,000 mg/L; LC_{50} 48 hr (Daphnia magna): >1,000 mg/L.
Exposure. Manufacture: Dermal, a total of 8 workers, up to 3.0 hrs/da, up to 48 da/yr.
Environmental Release/Disposal. Release to water. Disposal by POTW and navigable waterway.

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of the final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). In the **Federal Register** of November 11, 1984, (49 FR 46066) (40 CFR 723.250), EPA published a rule which granted a limited exemption from certain PMN requirements for certain types of polymers. PMNs for such polymers are reviewed by EPA within 21 days of receipt. This notice announces receipt of twelve such PMNs and provides a summary of each.

DATES: Close of Review Period:
Y 85–43—April 25, 1985.
Y 85–44, 85–45 and 85–46—April 28, 1985.
Y 85–47, 85–48, 85–49, 85–50 and 85–51—April 29, 1985.
Y 85–52, 85–53, and 85–54—April 30, 1985.

FOR FURTHER INFORMATION CONTACT: Wendy Cleland-Hamnett, Chemical Control Division (TS–794), Office of Toxic Substances, Environmental Protection Agency, Rm. E–611, 401 M Street SW., Washington, DC 20460 (202–382–3725).

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission by the

manufacturer on the exemption received by EPA. The complete non-confidential document is available in the Public Reading Room E–107 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

Y 85–43

Manufacturer. Allied Corporation.
Chemical. (G) Modified polyamide.
Use/Production. (S) Fiber for apparel applications. Prod. range: Confidential.
Toxicity Data. Skin sensitization: Non-sensitizer.
Exposure. No data submitted.
Environmental Release/Disposal. No data submitted.

Y 85–44

Manufacturer. Confidential.
Chemical. (G) Dimer acids, monocarboxylic acids, polymaines polyamide resin.
Use/Production. (S) Industrial binder resin in high solids, solvent based flexographic printing inks. Prod. range: Confidential.
Toxicity Data. No data on the PMN substance submitted.
Exposure. Manufacture: Dermal and inhalation, a total of 4 workers.
Environmental Release/Disposal. Less than 0.1 kg/batch released to water with less than 2 kg/batch to land. Disposal by sanitary landfill and to the receiving stream.

Y 85–45

Manufacturer. Enterprise Companies.
Chemical. (S) Polymer of soybean oil, pentaerythritol, phthalic anhydride, intermediate, 1,2 propanediol, 1,3-diisocyanato-methylbenzene and dipropylene glycol monomethyl ether.
Use/Production. (S) Commercial and consumer binder in urethane varnishes and paints, primarily in aerosol spray cans, possibly as floor sealer. Prod. range: 75,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. No data submitted.
Environmental Release/Disposal. No data submitted.

Y 85–46

Manufacturer. Enterprise Companies.
Chemical. (S) Polymer of phthalic anhydride, trimethylolpropane and tone 0200 polycaprolactone diol.
Use/Production. (S) Industrial and commercial cross linking agent for urethane type coatings, primarily but not exclusively for concrete floors. Prod. range: 2,000–6,000 kg/yr.
Toxicity Data. No data submitted.
Exposure. No data sumitted.
Environmental Release/Disposal. No data submitted.

Y 85–47

Manufacturer. S. C. Johnson & Son, Inc.
Chemical. (G) Alkali soluble styrene-acrylate ranom copolymer.
Use/Production. (G) Open, non-dispersive use. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by publicly owned treatment works (POTW).

Test Marketing Exemption Application; N,N,-Diallyltartardiamide

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA may upon application exempt any person from the premanufacturing notification requirements of section 5 (a) or (b) of the Toxic Substances Control Act (TSCA) to permit the person to manufacture or process a chemical for test marketing purposes under section 5(h)(1) of TSCA.

Requirements for test marketing exemption (TME) applications, which must either be approved or denied within 45 days of receipt, are discussed in EPA's final rule published in the **Federal Register** of May 13, 1983 (48 FR 21722). This notice, issued under section 5(h)(6) of TSCA, announces receipt of one application for an exemption, provides a summary, and requests comments on the appropriateness of granting the exemptions.

DATE: Written comments by: May 6, 1985.

ADDRESS: Written comments, identified by the document control number "[OPTS-59191]" and the specific TME number should be sent to: Document Control Officer (TS-793), Chemical Information Branch, Information Management Division, Office of Toxic Substances, Environmental Protection Agency, Rm. E-4201, 401 M Street SW., Washington, DC 20460 (202-382-3532).

FOR FURTHER INFORMATION CONTACT: Wendy Cleland-Hamnett, Premanufacture Notice Management Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-611, 401 M Street SW., Washington, DC 20460 (202-382-3725).

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission provided by the manufacturer on the TME received by EPA. The complete non-confidential document is available in the Public Reading Room E-107 at the above address.

Water Quality Criteria Request for Comments

AGENCY: Environmental Protection Agency.

ACTION: Notice of request for comments on ambient water quality criteria document for dissolved oxygen.

SUMMARY: EPA announces the availability for public comment and provides a summary of an ambient water quality criteria document for dissolved oxygen. These criteria are published pursuant to section 304(a)(1) of the Clean Water Act. EPA water quality criteria documents may form the basis for enforceable standards.

DATES: Written comments should be submitted to the person listed directly below on or before July 18, 1985.

FOR FURTHER INFORMATION CONTACT: Dr. Frank Gostomski, Criteria and Standards Division (WH-585), U.S. Environmental Protection Agency, 401 M Street, SW. Washington, D.C. 20460. (202) 245-3030.

Availability of Document

This notice contains a summary of a criteria document containing proposed ambient water quality criteria for dissolved oxygen for the protection of aquatic life. Copies of the complete criteria document may be obtained upon request from the person listed above. This document is also available for public inspection and copying during normal business hours at: Public Information Reference Unit, U.S. Environmental Protection Agency, Room 2404 (rear), 401 M Street, SW. Washington, D.C. 20460. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying services. Copies of this document are also available for review in the EPA Regional Office libraries.

SUPPLEMENTARY INFORMATION:

Background

Section 304(a)(1) of the Clean Water Act (33 U.S.C. 1314(a)(1)) requires EPA to publish and periodically update ambient water quality criteria. These criteria are to reflect the latest scientific knowledge on the identifiable effects of pollutants on public health and welfare, aquatic life and recreation.

EPA has periodically issued ambient water quality criteria, beginning in 1973, with publication of the "Blue Book" (Water Quality Criteria 1972). In 1976, the "Red Book" (Quality Criteria for Water) was published. On November 28, 1980, (45 FR 79318) and February 15, 1984, (49 FR 5831), EPA announced the publication of 65 individual ambient water quality criteria documents for pollutants listed as toxic under section 307(a)(1) of the Clean Water Act.

Today EPA is announcing the availability for public comment of a water quality criteria document for dissolved oxygen which, upon final publication, will update and revise criteria for dissolved oxygen previously published in the "Red Book" in 1976.

Criteria Implementation Guidance

The proposed dissolved oxygen criteria provide separate criteria for coldwater and warmwater aquatic life. This separation provides for less stringent criteria for warmwater species than for coldwater species. Most of the data for coldwater species are from research on the effects of low dissolved oxygen on salmonid fish. Some other species (often termed coldwater species) appear to be closer to salmonids in their dissolved oxygen requirements than to the warmwater nonsalmonid species. For implementation of the proposed dissolved oxygen criteria, it is important that further clarification be obtained of the species considered to require the coldwater criteria. EPA specifically requests comments on the procedures (species lists, water temperature ranges applicable to each category, or other) that should be used in implementing the new coldwater/warmwater dissolved oxygen criteria.

A similar question involves the identification of times and places where the more stringent criteria for early life stages should be used, or conversely, when and where the less stringent criteria for other life stages should be used. EPA specifically requests comment in this area.

EPA is also interested in obtaining comment on the appropriate water temperatures in modeling dissolved oxygen for each category of dissolved oxygen criteria. For example, what procedures should be used to determine the appropriate water temperature in models used in conjunction with coldwater criteria, both for early life stages and for other life stages? Do all life stages occur during critical high temperature conditions frequently used in modeling?

Dated: April 11, 1985.

Henry L. Longest II,

Acting Assistant Administrator for Water.

BILLING CODE 6560-50-M

[ER-FRL-2822-2]

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared April 1, 1985 through April 5, 1985 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382-5075/76. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated October 19, 1984 (49 FR 41108).

Draft EISs

ERP No. D-AFS-E65030-MS. Rating Alt. #1 and 4=LO; #5=EC2. Mississippi Nat'l Forests Land and Resource Magmt. Plan, MS. Summary: EPA identified either Alternative 1 or 4 as having less impact on the overall environment and water quality than the preferred Alternative 5. Additional discussion of erosion control measures, harvesting, road building, soil preparation and planting operations were requested.

ERP No. D-AFS-K61082-AZ. Rating EC2. Bill Williams Mtn. Ski Area, Mgmt. Plan Kaibab Nat'l Forest, AZ. Summary: EPA requested that the FEIS discuss the following: impacts of erosion on water quality; sources of water for the project, including ground water withdrawal; and impacts of chemicals used to control vegetation on ground water.

ERP No. D-APH-K82003-HI. Rating EU3, Tri-Fly Complex Eradication Program Elimination, HI. Summary: EPA rated the DEIS environmentally unsatisfactory because the program as proposed would be a violation of FIFRA since certain crops will be treated with insecticides that do not have current tolerances or tolerance exemptions. EPA also believes the analysis in the DEIS did not adequately cover the impacts to surface water bodies, ground water resources and the unique Hawaiian flora and fauna. EPA suggested that the DEIS be revised or supplemented.

ERP No. D-BIA-G08009-NM. Rating LO, Norton-Tesuque 115 kV Overhead Transmission Line and Substation, Right-of-Way Permit and Approval, NM. Summary: EPA has not identified any potential environmental impacts requiring changes to the proposal

ERP No. D-BLM-G08008-NM. Rating LO, El Paso 345 kV, Springerville to Deming, Transmission Line, Construction, Operation and Maintenance, Right-of-Way Permit, NM. Summary: EPA has not identified any potential environmental impacts requiring changes to the proposal.

ERP No. D-COE-G32050-AR, Rating LO, Pine Bluff Harbor Expansion, AR. Summary: EPA has not identified any potential environmental impacts requiring substantive changes to the proposal.

ERP No. D-MMS-A02211-AK, Rating EO3, 1985 N. Aleutian Basin OCS Oil and Gas Lease Sale No. 92, Leasing, Offshore AK. Summary: EPA recommended that MMS revise the EIS and reconfigure the lease sale in order to provide a more environmentally protective buffer zone for the Alaska Peninsula. EPA's detailed comments pointed out where data gaps should be filled and analytical techniques strengthened in order to adequately assess the effects of oil spills in the N. Aleutian Basin. EPA recommends that a revised or supplemental DEIS be prepared and and circulated for comment.

Final EISs

ERP No. F-BLM-J65026-CO, Piceance Basin Mgmt. Plan, White R. Resource Area, CO. The FEIS responded adequately to EPA concerns. EPA remains supportive of BLM's carrying capacity study efforts prior to leasing and will assist BLM on air quality study efforts. EPA continues, however, to have environmental reservations about any new oil shale leasing since the prototype oil shale leasing program has not yet produced an industry to provide environmental baseline data.

ERP No. FS-COE-G30009-LA, Larose to Golden Meadow, Hurricane Protection Project, LA. Summary: The FEIS responded adequately to EPA's comments issued on the DEIS. EPA did not identify any new issues of concern with regard to the proposed action.

ERP No. F-FHW-E40200-NC, US 264, NW Bypass Improvement, US 264 (Relocated) to Greenville Blvd./NC-1590 at US 13/NC-11/Memorial Drive, NC. Summary: EPA expressed environmental objections to the FEIS due to acreage deduction methods of wetland mitigation proposed in the FEIS. It is EPA's belief that acquired "replacement" wetlands should only be used as a last resort, and typically should only be seriously considered if it is shown that the acquired wetlands would otherwise imminently be developed or that enhancement, restoration, or creation of wetlands is infeasible.

ERP No. F-FHW-L40135-OR, Salmon R. Highway Widening, E. McMinnville Interchange to Airport Road, OR. Summary: EPA made no formal comments. EPAs review found the project to be satisfactory and the FEIS to be responsive to the comments issued on the DEIS.

Dated: April 16, 1985.

Allan Hirsch,

Office of Federal Activities.

BILLING CODE 6560–50–M

FEDERAL COMMUNICATIONS COMMISSION

A&M Broadcasting and Good Christian Radio Broadcasting Inc.; Applications for Consolidated Hearing

1. The Commission has before it the following mutually exclusive applications for a new FM station:

	Applicant, city, and State	File No	MM Docket No
A	A&M Broadcasting, Whitneyville, PA	BPH–840516IC	85–108
B	Good Christian Radio Broadcasting, Inc., Whitneyville, PA	BPH–840723IA	

2. Pursuant to section 309(e) of the Communications Act of 1934, as amended, the above applications have been designated for hearing in a consolidated proceeding upon issues whose headings are set forth below. The text of each of these issues has been standardized and is set forth in its entirety in a sample standardized Hearing Designation Order (HDO) wich can be found at 48 FR 22428, May 18, 1983. This issue headings shown below correspond to issue headings contained in the referenced sample HDO. The letter shown before each applicant's name, above, is used below to signify whether the issue in question applies to that particular applicant.

Issue Heading and Applicant(s)

1. Air Hazard, B
2. Comparative, A & B
3. Ultimate, A & B

3. If there is any non-standardized issue(s) in this proceeding, the full text of the issue and the applicant(s) to which it applies are set forth in an Appendix to this Notice. A copy of the complete HDO in this proceeding may be obtained, by written or telephone request, from the Mass Media Bureau's Contact Representative, Room 242, 1919 M Street, NW Washington, D.C. 20554. Telephone (202) 632–6334.

W. Jan Gay,

Assistant Chief, Audio Services Division, Mass Media Bureau.

BILLING CODE 6712–01–M

Charles Ray Shinn, et al.; Hearing Designation Order; Construction Permit, Pine Bluff, AR

In re applications of Charles Ray Shinn, Robin C. Brandt, and Elmer Montgomery d/b/a Montgomery Broadcasting, MM Docket No. 85–97; File No. BPCT–840813KN; File No. BPCT–841005KQ; File No. BPCT–841005LF.

Adopted: March 28, 1985.

Released: April 5, 1985.

By the Chief, Video Services Division.

1. The Commission, by the Chief, Video Services Division, acting pursuant to delegated authority, has before it the above-captioned mutally exclusive applications of Charles Ray Shinn (Shinn), Robin C. Brandt (Brandt), and Elmer Montgomery d/b/a Montgomery Boradcasting (Montgomery) for authority to construct a new commercial television station on Channel 25, Pine Bluff, Arkansas.

2. The effective radiated visual power, antenna height above average terrain and other technical data submitted by each applicant indicate that there would be a significant difference in the size of the areas and populations that each proposes to serve. Consequently, the areas and populations which would be within the predicted 64 dBu (Grade B) contour, together with the availability of other television service of Grade B or greater intensity, will be considered under the standard comparative issue for the purpose of determining whether a comparative preference should accrue to any of the applicants.

3. Applicants for new broadcast stations are required to give local notice of the filing of their applications, in accordance with § 73.3580 of the Commission's Rules. They must then file proof of publication of such notice or certify that they have or will comply with the public notice requirement. We have no evidence, however, that Brandt has done either. If he has not already done so, Brandt will be required to file a statment that he has or will comply with the public notice requirement with the Administrative Law Judge within 20 days of the release of this Order.

4. No determination has been made that the tower height and location proposed by each of the applicants would not constitute a hazard to air navigation. Accordingly, an apporpriate issue will be specified.

5. Shinn's proposed site is 50 miles from the site of co-channel station KRZB–TV, Hot Springs, Arkansas, whereas Section 73.610(c)(1) of the Commission's Rules requires a minimum separations of 55 miles. The applicant, therefore, would be short-spaced 5 miles to Station KRZB–TV. An issue will be specified to determine whether circumstances exist warranting a waiver. In assessing the circumstances to determine whether a waiver of the rule is warranted, the Administrative Law Judge will consider the fact that the other applicants in this proceeding have specified fully-spaced sites.

6. Since grant of Montgomery's application would constitute a major environmental action as defined by § 1.1305(a) of the Commission's Rules, Montgomery is required to submit the environmental impact information described in § 1.1311. Accordingly, Montgomery will be required to file, within 20 days of the release of this Order, an environmental narrative statement with the presiding Administrative Law Judge. In addition, a copy shall be filed with the Chief, Video Services Division, who will then proceed in accordance with the provisions of § 1.1313(b). Accordingly, § 1.1317 of the Rules will be waived to the extent that the comparative phase of the case will be allowed to begin before the environmental phase is completed. See *Golden State Broadcasting Corp.*, 71 F.C.C. 2d 229 (1979) *recon. denied sub nom. Old Pueblo Broadcasting Corp.*, 83 F.C.C. 2d 337 (1980).

7. The technical data provided by Montgomery in response to Section V–C, item 15, FCC Form 301 appears to be incorrect, thereby leading to an improper calculation of predicted contours. For example, the height above the 225 degree radial is shown to be 505 feet and the height above the 180 degree radial is shown to be 490 feet. Thus, the distance of the Grade B contour along the 225 degree radial should be greater than the distance along the 180 degree radial, but the applicant shows it to be one mile less. Additionally, the area within the proposed Grade B contour is shown to be 630 square miles, which would indicate a Grade B radius of about 14 miles. This radius is much less than the distances shown in response to Section V–C, item 15 and the applicant's Exhibit 3. Montgomery will be required to furnish proper figures by amendment submitted to the presiding Administrative Law Judge within 20 days after the date of release of this Order.[1]

8. The vertical tower sketch submitted by Montgomery is patently incorrect (two different dimensions are labeled 510 feet; heights are not identified) and does not agree with the figures appearing in Section V–C, item 5, FCC Form 301. Montgomery will be required to submit a new vertical tower sketch showing the correct height to the Administrative Law Judge within 20 days after this Order is released.

9. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since these applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues specified below.

10. Accordingly, it is ordered, that pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, to be held before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether there is a reasonable possibility that the tower height and location proposed by each of the applicants would constitute a hazard to air navigation.

2. To determine whether the proposal of Charles Ray Shinn is consistent with the minimum mileage separation requirements of Section 73.610 of the Commission's Rules and if not, whether circumstances exist which would warrant a waiver of the Rule.

3. If a final environmental impact statement is issued with respect to Elmer Montgomery d/b/a Montgomery Broadcasting, which concludes that the proposed facilities are likely to have an adverse effect on the quality of the environment,

(a) To determine whether the proposal is consistent with the National Environmental Policy Act, as implemented by § 1.1301–1319 of the Commission's Rules; and

(b) Whether, in light of the evidence adduced pursuant to (a) above, the applicant is qualified to construct and operate as proposed.

4. To determine which of the proposals would, on a comparative basis, best serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted

11. It is further ordered, that Robin C. Brandt, shall file a certification with the presiding Administrative Law Judge, within 20 days after this Order is released, that he has or will comply with § 73.3580 of the Commission's Rules.

12. It is further ordered that the Federal Aviation Administration is made a party respondent to this proceeding with respect to issue 1.

13. It is further ordered, that § 1.1317 of the Commission's Rules IS WAIVED to the extent indicated herein. Within 20 days of the release of this Order, Elmer Montgomery d/b/a Montgomery Broadcasting, shall submit an environmental narrative statement required by § 1.1311 of the Rules to the presiding Administrative Law Judge with a copy to the Chief, Video Services Division.

14. It is further ordered, that Elmer Montgomery d/b/a Montgomery Broadcasting, shall submit an amendment to the presiding Administrative Law Judge, within 20 days after the release date of this Order correcting the information discussed in paragraphs 7 and 8 *supra*, and any other engineering information required by the correction.

15. It is further ordered, that, to avail themselves of the opportunity to be heard, the applicants and party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

16. It is further ordered, that the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934 as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commision.

Roy J. Stewart,

Chief, Video Services Division, Mass Media Bureau.

[FR Doc. 85–9528 Filed 4–18–85; 8:45 am]

BILLING CODE 6712–01–M

[1]The applicant should note that the corrections in item 15, Section V–C will also require adjustments in the maps required by Section V–C, item 10(b) and the area and population figures required by Section V–C, item 10(e).

FEDERAL EMERGENCY MANAGEMENT AGENCY

Anti-Arson Program Grants; Solicitation for Award of Cooperative Agreement

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

Notice of Solicitation is hereby given that the Federal Emergency Management Agency, under the Fire Prevention and Control Act of 1974, will issue a Request for Assistance (RFA), EMW–85–S–1977 on May 1, 1985 regarding the design and implementation of an anti-arson strategy program for Community-Based Anti-

Arson Programs. This program is limited to Community Based Organizations.

The purpose of this assistance is to focus on nationwide efforts to reduce the number of arson related fires that occur every year throughout this country. Some broad objectives of the program are: (a) To increase involvement and interaction between community groups and fire service organizations; (b) to build a comprehensive community anti-arson program; and, (c) to encourage community participation and responsibility in reducing arson-related fires.

Applications for Assistance must be requested in writing and addressed as follows:

Federal Emergency Managment Agency, Office of Acquisition Management, 500 C Street SW., Room 728, Washington, D.C. 20472, Attn: Victory Long, Contract Specialist, Request for Assistance No. EMW–85–S–1877.

Please include a self-addressed mailing label with the request.

Cooperative Agreements are anticipated to be awarded as a result of this request for assistance. It is anticipated that a minimum of five (5) and a maximum of thirty (30) assistance awards will be made. The anticipated funding levels for this program are between $5.000.00 to $25.000.00 based on the criteria shown in Attachment C of the solicitation package.

Edward M. Hall,

Acting Administrator, U.S. Fire Administration.

BILLING CODE 6718–01–M

FEDERAL RESERVE SYSTEM

First Virginia Banks, Inc., et al.; Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than May 10, 1985.

A. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701 East Byrd Street, Richmond, Virginia 23261:

1. *First Virginia Banks, Inc.*, Falls Church, Virginia; to acquire 100 percent of the voting shares of the Citizens Bank, Inc., South Hill, Virginia.

B. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Romy Hammes, Inc.*, South Bend, Indiana; to acquire an additional 9.6 percent of the voting shares of Peoples Bank Marycrest, Kankakee, Illinois.

C. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *GCB Bancorp, Inc.*, Princeton, Indiana; to become a bank holding company by acquiring 100 percent of the voting shares of Gibson County Bank, Princeton, Indiana.

D. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Med Center Bancshares, Inc.*, Houston, Texas; to merge with United Bancshares, Inc., Rosenberg, Texas, thereby indirectly acquiring Rosenberg Bank and Trust, Rosenberg, Texas.

2. *Iowa Park Bancshares, Inc.*, Iowa Park, Texas; to acquire 100 percent of the voting shares of Windthorst National Bank, Windthorst, Texas, a *de novo* bank.

Board of Governors of the Federal Reserve System, April 15, 1985.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 85–9478 Filed 4–18–85; 8:45 am]

BILLING CODE 6210–01–M

Valley Bancorporation; Formation of, Acquisition by, or Merger of Bank Holding Companies; and Acquisition of Nonbanking Company

The company listed in this notice has applied under § 225.14 of the Board's Regulation Y (12 CFR 225.14) for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) to become a bank holding company or to acquire voting securities of a bank or bank holding company. The listed company has also applied under § 225.23(a)(2) of Regulation Y (49 FR 794) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies, or to engage in such an activity. Unless otherwise noted, these activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the office of the Board of Governors. Interested persons may express their views in writing on the

question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Covenors not later than May 14, 1985.

A. **Federal Reserve Bank of Chicago** (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *Valley Bancorporation*, Appleton, Wisconsin; to acquire 100 percent of the voting shares of United Banks of Wisconsin, Inc., Madison, Wisconsin, thereby indirectly acquiring United Bank, Madison, Wisconsin, Farmers & Citizens United Bank in Sauk City, Suak City, Wisconsin, United Bank in Menomie, Menomie, Wisconsin and United Bank in Sun Prairie, Sun Prairie, Wisconsin. In addition, Valley Bancorporation has applied to acquire United Mortgage of Wisconsin, Inc., Madison, Wisconsin, thereby engaging in making, acquiring or servicing loans or other extensions of credit (including issuing letters of credit and accepting drafts) for the company's account or for the account of others, such as would be made by a mortgage company. These activities will be conducted in the Madison, Wisconsin area.

Board of Governors of the Federal Reserve System, April 15, 1985.

James McAfee,

Associate Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Deparment of Health and Human Services (HHS) publishes a list of Information collection packages it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). The following are those packages submitted to OMB since the last list was published on April 12, 1985.

Human Development Services

Subject: Part IV Narrative Application Instructions-Revision (0980-0016)
Respondents: Applicants for grants from HDS programs
Subject: Interim Final Rule to Implement Provisions of the Older Americans Act as Amended-45 CFR 1321 and 1328—Revision
Respondents: States, Indian Tribes
OMB Desk Officer: Judy A. McIntosh

Health Care Financing Administration

Subject: Billing Form for the Alcoholism Services Coverage Demonstration—Extension—(0938-0259)
Respondents: Businesses or other for-profit
Subject: Modification to National (Rural) Swing-Bed Evaluation—HCFA-415-Revision (0938-0290)
Respondents: Individuals, households, State/local governments, businesses or other for-profit, non-profit institutions, small businesses or organizations
Subject: Medicaid Quality Control Disposition List—HCFA-321—Revision (8938-0173)
Respondents: State/local governments
Subject: Request to Adjust Customary Charge Screen—HCFA-455—Reinstatement—(0938-0206)
Respondents: Businesses or other for-profit
OMB Desk Officer: Fay S. Iudicello

Social Security Administration

Subject: Report of Continuing Disability Interview—SSA-454-BK-Revision (0960-0072)
Respondents: Individuals
Subject: Request to be Selected as Payee-SSA-11BK—Extension—(0960-0014)
Respondents: Individuals
Subject: Information Collection Requirements in Regulations on Services to Non-AFDC Individuals 45 CFR 312—New
Respondents: State/local governments
OMB Desk Officer: Judy A. McIntosh

Public Health Service

Health Resources and Services Administration

Subject: Project Proposal for Provision of Sanitation Services—Extension (0915-0018)
Respondents: Indian tribes

National Institutes of Health

Subject: Piedmont Health Survey of the Elderly—New
Respondents: Individuals

Office of the Assistant Secretary for Health

Subject: President's Council on Physical Fitness and Sports School Population Survey—New
Respondents: Students
Subject: National Survey of Worksite Health Promotion Program—New
Respondents: Businesses
OMB Desk Officer: Fay S. Indicello

Copies of the above information collection clearance packages can be obtained by calling the HHS Reports Clearance Officer on 202-245-6511.

Written comments and recommendations for the proposed information collections should be sent directly to the appropriate OMB Desk Officer designated above at the following address: OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, D.C. 20503. Attn: (name of OMB Desk Officer).

Dated: April 15, 1985.

Wallace O. Keene,

Acting Deputy Assistant Secretary for Management Analysis and Systems.

BILLING CODE 4150-04-M

Food and Drug Administration

Advisory Committees; Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also summarizes the procedures for the meetings and methods by which interested persons may participate in open public hearings before FDA's advisory committees.

Meetings: The following advisory committee meetings are announced:

Dental Devices Panel

Date, time, and place. May 3, 9 a.m. to 4:30 p.m., Rm. 337A-339A, 200 Independence Ave. SW., Washington, DC.

Type of meeting and contact person. Open public hearing, 9 a.m. to 10 a.m.; open committee discussion, 10 a.m. to 12 m. and 2 p.m. to 4:30 p.m.; Gregory Singleton, Center for Devices and Radiological Health (HFZ-470), Food and Drug Administration, 8757 Georgia

Ave., Silver Spring, MD 20910, 301–427–7555.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of devices and makes recommendations for their regulation.

Agenda—Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the contact person before April 24, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. The committee will discuss premarket approval applications for a surgical dressing material and for a wound dressing material.

Radiopharmaceutical Drugs Advisory Committee

Date, time, and place. May 10, 8:45 a.m. Conference Rms. G and H, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.

Type of meeting and contact person. Open committee discussion, 8:45 a.m. to 11 a.m.; open public hearing, 11 a.m. to 12 m.; open committee discussion, 12:45 p.m. to 4:30 p.m.; Neil M. Abel, Center for Drugs and Biologics (HFN–150), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4260.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of marketed and investigational prescription drugs for use in diagnostic and therapeutic procedures using radioactive pharmaceuticals and contrast media used in diagnostic radiology.

Agenda—Open public hearing. Interested persons requesting to present data, information, or views, orally or in writing, on issues pending before the committee should communicate with the committee contact person.

Open committee discussion. The committee intends to discuss: (1) The proposed labeling for Amersham's NDA 19–044 "Indium In 111 Oxine"; (2) the summary basis of approval and proposed labeling for Squibb's NDA 18–735 "Iopamidol"; (3) the review of submitted clinical data and proposed indication for use for Cadema's NDA 19–180 "Kit for the Preparation of Technetium Tc 99m Antimony Trisulfide Colloid"; and (4) pediatric dosage recommendations for radiopharmaceuticals.

Veterinary Medicine Advisory Committee

Date, time, and place. May 22, 23, and 24; May 22, 1 p.m., Conference Rm. 17–09B, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD; May 23 and 24, 8:30 a.m., Conference Rm. E, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.

Type of meeting and contact person. Open committee discussion, May 22, 1 p.m. to 4:30 p.m., May 23, 8:30 a.m. to 3:45 p.m.; open public hearing, May 23, 3:45 p.m. to 4:30 p.m.; open committee discussion, May 24, 8:30 a.m. to 12 m.; Bert L. Schrivener, Center for Veterinary Medicine (HFV–400), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4557.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of marketed and investigational new animal drugs, feeds, and devices for use in the treatment and prevention of animal diseases and increased animal production.

Agenda—Open public hearing. Interested persons requesting to present data, information, or views, orally or in writing, on issues pending before the committee should communicate with the contact person.

Open committee discussion. The committee will discuss: (1) The results of its internal study panels, (2) the low level antibiotics issue, (3) the sulfa residue problem, (4) grants application process, and (5) second generation and prescription guidelines.

Science Advisory Board to the National Center for Toxicological Research

Date, time, and place. May 30 and 31, 9 a.m., Director's Conference Rm., Bldg. 13, National Center for Toxicological Research, Jefferson, AR.

Type of meeting and contact person. Open pubic hearing, May 30, 9 a.m. to 10 a.m.; open committee discussion, May 30, 10 a.m. to 6 p.m., and May 31, 9 a.m. to 1 p.m., Ronald F. Coene, National Center for Toxicological Research (NCTR), Food and Drug Administration 5600 Fishers Lane, Rm. 14–101, Rockville, MD 20857, 301–443–3155.

General function of the board. The board advises the Director, NCTR, in establishing and implementing a research program that will assist the Commissioner of Food and Drugs in fulfilling his regulatory responsibilities. The board provides the extra-agency review in ensuring that research programs and methodology development at NCTR are scientifically sound and pertinent to its stated goals and objectives.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

Open board discussion. The board will continue discussions on research initiatives for the NCTR in areas of the evaluation of the assumptions underlying risk assessment, and modulating factors in toxicology. Additional items are being considered for review by the board and final agenda will be available on May 15, 1985, by contacting the contact person.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Public hearings are subject to FDA's guideline concerning the policy and procedures for electronic media coverage of FDA's public administrative proceedings. This guideline was published in the **Federal Register** of April 13, 1984 (49 FR 14723). These procedures are primarily intended to expedite media access to FDA's public proceedings, including hearings before a public advisory committee conducted pursuant to Part 14 of the agency's regulations. Under this guideline, representatives of the electronic media may be permitted, subject to certain limitations, to videotape, film, or otherwise record FDA's public administrative proceedings, including the presentation of participants at a public hearing. Accordingly, all interested persons are directed to the guideline, as well as the **Federal Register** notice announcing issuance of

the guideline, for a more complete explanation of the guideline's effect on public hearings.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this **Federal Register** notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be requested from the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under section 10(a)(1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), and FDA's regulations (21 CFR Part 14) on advisory committees.

Dated: April 15, 1985.

Mervin H. Shumate,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

DEPARTMENT OF THE INTERIOR

National Park Service

Bering Land Bridge National Preserve; Availability of a Draft General Management Plan/Environmental Assessment, Land Protection Plan, and Wilderness Suitability Review

AGENCY: National Park Service, Alaska Regional Office, Interior.

ACTION: Notice.

SUMMARY: This notice announces the availability of the draft general management plan/environmental assessment, land protection plan, and wilderness suitability review for Bering Land Bridge National Preserve, Alaska. The document will be available for public review and comment for 60 days, and public meetings will be held in Anchorage, Nome, and local communities (see schedule below).

This document proposes management actions addressing issues and problems facing Bering Land Bridge National Preserve for the next 10 years. There are three major elements within this document. The first element is the draft general management plan, which includes proposals for managing natural and cultural resources and visitor uses, general development within and adjacent to the preserve, and National Park Service facilities and level of operations. The draft general management plan also includes alternatives considered and environmental consequences of the proposal and alternatives. The second element is the land protection plan, which discusses nonfederal lands and other interests in and around the unit and methods to protect the resource values for which the unit was created. The third element is the wilderness suitability review which evaluates the suitability of nonwilderness lands within the preserve for designation as wilderness.

Following consideration of public comments, a final general management plan, land protection plan, and wilderness suitability review will be developed.

DATES AND ADDRESSES: Comments on the draft document should be received no later than June 19, 1985, and should be submitted to: Regional Director, National Park Service, Alaska Regional Office, 2525 Gambell, St., Rm 107, Anchorage, Alaska 99503-3982.

Public reading copies of the draft document will be available for review at the following locations:

Office of Public Affairs, National Park Service, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240
Alaska Resources Library, Federal Building, 701 C Street, Anchorage, AK 99502
Alaska Regional Office, National Park Service, 2525 Gambell Street, Anchorage, AK 99503-2892
Consortium Library, University of Alaska, 3211 Providence Ave., Anchorage, AK 99507
Loussac Library, 525 W. 6th Avenue, Anchorage, AK 99502
Northwest Areas Office, National Park Service, Eskimo Building, Kotzebue, AK
Noel Wien Library, 1215 Cowles, Fairbanks, AK
CIty Office, Shishmaref, Alaska
City Office, Deering, AK
Bering Land Bridge National Preserve Headquarters, Nome, Alaska 99762
Juneau Memorial Library, 114 W. 4th Juneau, AK
Elmer Rasmuson Library, University of Alaska, Fairbanks, AK
City Office, Wales, Ak
City Office, Buckland, AK.

Public Meetings: Public meetings will be held at the following locations:

NANA Museum, Kotzebue, AK, May 6, 1985, 7:00 p.m.
School, Wales, AK, May 9, 1985, 7:00 p.m.
City Offices, Deering, AK, May 28, 1985, 7:00 p.m.
Noel Wien Library, Fairbanks, AK, May 22, 1985, 6:30 p.m.
Community Hall, Shishmaref, AK, May 8, 1985, 7:00 p.m.
Buckland, AK, May 28, 1985, 1:00 p.m.
City Council Chambers, Nome, AK, May 29, 1985, 7:00 p.m.
Regional Office, National Park Service, 2525 Gambell St., Rm 110, Anchorage, AK, Thursday, May 23, 1985, 7:00 p.m.

Copies of a summary and a limited number of copies of the full document are available upon request from: Chief of Planning, National Park Service, Alaska Regional Office, 2525 Gambell St., Room 107, Anchorage, Alaska 99503-3892, (907) 271-4366.

For further information contact Larry Beal at the above address and telephone number.

Bureau of Land Management

[F-14929-A]

Alaska Native Claims Selection; Askinuk Corp.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice is hereby given that the decision to issue conveyance (DIC) to Askinuk Corporation, notice of which was published in the **Federal Register** (50 FR 6397) on February 15, 1985, is modified by deleting the Airport Lease M-186-YD third-party interest.

A notice of the modified DIC will be published once a week, for four (4) consecutive weeks, in THE TUNDRA DRUMS. Copies of the modified DIC may be obtained by contacting the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513. ((907) 271-5960.)

Any party claiming a property interest which is adversely affected by the decision shall have until May 20, 1985 to file an appeal on the issue in the modified DIC. However, parties receiving service by certified mail shall have 30 days from the date of receipt to file an appeal. Appeals must be filed in the Bureau of Land Management, Division of Conveyance Management (960), address identified above, where the requirements for filing an appeal may be obtained. Parties who do not file an appeal in accordance with the requirements in 43 CFR Part 4, Subpart E (1983) (as amended, 49 FR 6371, February 21, 1984) shall be deemed to have waived their rights.

Except as modified, the decision, notice of which was given February 15, 1985, is final.

Ruth Stockie,

Section Chief, Branch of ANCSA Adjudication.

Bureau of Land Management

Bureau of Indian Affairs

Draft Environmental Impact Statement for the Jackpile-Paguate Uranium Mine Reclamation Project; Extension of Public Comment Period and Cancellation of Public Hearings

AGENCIES: Bureau of Land Management and Bureau of Indian Affairs, Interior.

ACTION: Amendment to notice published March 18, 1985 (50 FR 10864); extension of public comment period and cancellation of public hearings.

SUMMARY: The Bureau of Land Management and the Bureau of Indian Affairs have extended the comment period on the Draft Environmental Impact Statement (DEIS) for the Jackpile-Paguate Mine Reclamation Project to October 4, 1985. The purpose of the 120-day extension is to give more time for the public, the Pueblo of Laguna, and Anaconda Minerals Company to study the reclamation proposals contained in the DEIS. The public hearings scheduled for April 23 in Albuquerque and April 24 in Laguna have been cancelled. Public hearings and/or meetings will be rescheduled for late summer. Announcement of the new dates and locations will be made later.

DATE: Written comments on the DEIS will be accepted up to and including October 4, 1985. Oral and written comments will also be received at the public hearings and/or meetings to be rescheduled at a later date.

ADDRESS: Written comments should be addressed to: Mike Pool, EIS Team Leader, Bureau of Land Management, Rio Puerco Resource Area, 3550 Pan American Freeway NE., P.O. Box 6770, Albuquerque, NM 87197-6770.

FOR FURTHER INFORMATION CONTACT: Mike Pool, Rio Puerco Resource Area, (505) 766-3114.

Dated: April 15, 1985.

L. Paul Applegate,

District Manager, Bureau of Land Management.

Fish and Wildlife Service

Receipt of Applications for Permit

The following applicants have applied for permits to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*):

APP No. 692369

Applicant: William E. Hodson, Montebello, CA

The applicant requests a permit to import a sport-hunted male bontebok (*Damaliscus d. dorcas*) trophy culled from the herd of John Pohl, Shenfield, South Africa, for enhancement of propagation.

APP No. 692412

Applicant: A.T. McQueen, Livington, TX

The applicant requests a permit to import a sport-hunted male bontebok (*Damaliscus d. dorcas*) trophy culled from the captive herd of Frank Bowker, Thorn Kloof, Grahamstown, South Africa, for enhancement of propagation.

APP No. 692403

Applicant: Florida Game and Freshwater Fish Commission, Tallahassee, FL

The applicant requests a permit to take 2 female Florida panthers (*Felis concolor coryi*) from the wild (Collier Co., FL) for purposes of enhancement of of propagation through use in a captive-breeding program at the White Oak Plantation, Yulee, FL.

APP No. 692538

Applicant: USFWS/National Museum of Natural History, Washington, DC

The applicant requests a permit to reexport the preserved remains of 4 Mexican wolves (*Canis lupus baileyi*) to La Coleccion Maztozoologica de la Universidad, Mexico City, Mexico, for scientific research purposes.

APP No. 692693

Applicant: Thomas A. Gavin, Cornell University, Ithaca, NY

The applicant requests a permit to obtain small amounts of muscle tissue and/or blood for genetic analysis from captured or dead Colombian white-tailed deer (*Odocioleus virginianus leucurus*) for scientific purposes.

Documents and other information submitted with these applications are available to the public during normal business hours (7:45 am to 4:15 pm) Room 611, 1000 North Glebe Road, Arlington, Virginia 22201, or by writing to the Director, U.S. Fish and Wildlife Service of the above address.

Interested persons may comment on any of these applications within 30 days

of the date of this publication by submitting written views, arguments, or data to the Director at the above address. Please refer to the appropriate PRT number when submitting comments.

Dated: April 11, 1985.

BILLING CODE 4310-55-M

Minerals Management Service

Development Operations Coordination Document; Conoco Inc.

AGENCY: Minerals Management Service Interior.

ACTION: Notice of the receipt of a Proposed Development Operations Coordination Document (DOCD).

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a DOCD describing the activities it proposes to conduct on Lease OCS-G 2127, Block 33, East Cameron Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from onshore bases located at Cameron and Morgan City, Louisiana.

DATE: The subject DOCD was deemed submitted on April 10, 1985. Comments must be received within 15 days of the date of this Notice or 15 days after the Coastal Management Section receives a copy of the DOCD from the Minerals Management Service.

ADDRESSES: A copy of the subject DOCD is available for public review at the Office of the Regional Director, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday). A copy of the DOCD and the accompanying Consistency Certification are also available for public review at the Coast Management Section Office located on the 10th floor of the State Lands and Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana (Office Hours: 8 a.m. to 4:30 p.m., Monday through Friday). The public may submit comments to the Coastal Management Section, *Attention OCS Plans*, Post Office Box 44396, Baton Rough, Louisiana 70805.

FOR FURTHER INFORMATION CONTACT: Ms. Angie D. Gobert; Minerals Management Service; Gulf of Mexico OCS Region; Rules and Production; Plans, Platform and Pipeline Section; Exploration/Development Plans Unit; Phone (504) 838-0876.

SUPPLEMENTARY INFORMATION: The purpose of this Notice is to inform the public, pursuant to section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review. Additionally, this Notice is to inform the public, pursuant to Section 930.61 of Title 15 of the CFR, that the Coastal Management Section/Louisiana Department of Natural Resources is reviewing the DOCD for consistency with the Louisiana Coastal Resources Program.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected states, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in revised § 250.34 of Title 30 of the CFR.

Dated: April 10, 1985

BILLING CODE 4310-MR-M

Alaska Offshore; Reschedule of Dates of Public Hearings for Proposed Oil and Gas Lease Sale 100 in the Norton Basin Area

On March 19, 1985, a notice appeared in the **Federl Register** (Vol. 50, No. 53, Page 11016) announcing the availability of the draft environmental impact statement and the location and dates of public hearings for proposed oil and gas lease Sale 100 in the Norton Basin area.

The Alaska Legal Services Corporation, on behalf of the residents of St. Lawrence Island, has requested that the hearing scheduled for April 24, 1985, in Savoonga, Alaska, and April 25, 1985, in Gambell, Alaska, be rescheduled to a later date. The reason for a delay is that the majority of the residents of St. Lawrense Island will be engaged in subsistence activities in April and will not be available to attend the hearings.

In order to be responsive to the needs of the residents of St. Lawrence Island, the hearings in Savoogna and Gambell have been rescheduled for the following dates:

May 7, 1985:

City Hall, Savoogna, Alaska (7:00 p.m.)

May 8, 1985:

Municipal Building, Gambell, Alaska (7:00 p.m.)

The dates and times of the hearings scheduled in Emmonak, Nome, and Anchorage are not changed.

Interested individuals, representatives of organizations, and public officials wishing to testify at the hearings in Savoogna or Gambell are asked to contact the Alaska Regional Office, 949 E. 36th Avenue, Anchorage, Alaska 99510, by telephone, (907) 261–4080, by Friday, May 3, 1985. An oral statement may be supplemented by a more completed written statement which may be submitted to a hearing official at the time of oral presentation or by mail until May 14, 1985.

Dated: April 16, 1985.

William D. Bettenberg,

Director, Minerals Management Service.

National Park Service

Cape Krusenstern National Monument; Availability of Draft General Management Plan

AGENCY: National Park Service, Alaska Regional Office, Interior.

ACTION: Notice of availability of a Draft General Management Plan/Environmental Assessment, Land Protection Plan, and Wilderness Suitability Review.

SUMMARY: This notice announces the availability of the draft general management plan/environmental assessment, land protection plan, and wilderness suitability review for Cape Krusenstern National Monument. The document will be available for public review and comment for 60 days, and public meetings will be held in Anchorage, Fairbanks, and local communities (dates, locations and times to be announced locally).

This document proposes management actions addressing issues and concerns facing Cape Krusenstern National Monument for the next 10 years. There are three major elements within this document. The first element is the draft general management plan, which includes proposals for managing cultural and natural resources, subsistence and visitor uses, and for determining the National Park Service's staff, equipment and facility requirements. The second element is the land protection plan which explains options and recommendations, priorities and methods for protection of federal lands within the monument from activities that might take place on private lands, within or adjacent to the monument that could cause harm or threaten the monument's resources. The third element is the wilderness suitability review which evaluates the suitability of nonwilderness lands within the monument for inclusion in the National Wilderness System.

Following consideration of public comments, a final general management plan, land protection plan, and wilderness suitability review will be developed.

DATES AND ADDRESSES: Comments on the draft document should be received no later than June 19, 1985, and should be submitted to: Regional Director, National Park Service, Alaska Regional Office, 2525 Gambell Street Room 107, Anchorage, Alaska 99503–2892.

BILLING CODE 4310-70-M

Kobuk Valley National Park; Availability of Draft General Management Plan

AGENCY: National Park Service, Alaska Regional Office, Interior.

ACTION: Notice of availability of a Draft General Management Plan/Environmental Assessment, Land Protection Plan, and Wilderness Suitability Review.

SUMMARY: This notice announces the availability of the draft general management plan/environmental assessment, land protection plan, and wilderness suitability review of Kabuk Valley National Park. The document will be available for public review and comment for 60 days, and public meetings will be held in Anchorage, Fairbanks, and local communities (dates, locations and times to be announced locally).

This document proposes management actions for Kobuk Valley National Park for approximately the next 10 years. There are three major elements within this document. The first element is the draft general management plan, which includes proposals for managing cultural and natural resources, subsistence and visitor uses, and for determining the National Park Service's staff and facility requirements. The second element is the land protection plan which explains options and recommendations, priorities and methods for protection of federal lands within the park from activities that might take place on private lands, within or adjacent to the monument that could cause harm or threaten the park's resources. The third element is the wilderness suitability review which evaluates the suitability of non-wilderness lands within the park for inclusion in the National Wildeness Preservation System.

Following consideration of public comments, a final general management plan, land protection plan, wilderness suitability review will be developed.

DATES AND ADDRESSES: Comments on the draft document should be received no later than June 19, 1985, and should be submitted to: Regional Director, National Park Service, Alaska Regional Office, 2525 Gambell Street, Room 107, Anchorage, Alaska 99503–2892.

Public reading copies of the draft document will be available for review at the following locations:

Office of Public Affairs, National Park Service, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240.
Alaska Resources Library, Federal Building, 701 C Street, Anchorage, Alaska 99513.
Loussac Library, 524 W. 6th Avenue, Anchorage, Alaska 99502

Noatak National Preserve; Availability of Draft General Management Plan

AGENCY: National Park Service, Alaska Regional Office, Interior.

ACTION: Notice of availability of a Draft General Management Plan/ Environmental Assessment, Land Protection Plan, and Wilderness Suitability Review.

SUMMARY: This notice announces the availability of the draft general management plan/environmental assessment, land protection plan, and wilderness suitability review for Noatak National Preserve. The document will be available for public review and comment for 60 days, and public meetings will be held in Anchorage, Fairbanks, and local communities (dates, locations and times to be announced locally).

This document proposes management actions addressing issues and problems facing Noatak National Preserve for the next 10 years. There are three major elements within this document. The first element is the draft general management plan, which includes proposals for managing natural and cultural resources, subsistence and visitor uses, and for determining the National Park Service's staff and facility requirements. The draft general management plan also includes one alternative and environmental consequences of the proposal and alternative. The second element is the land protection plan which explains options and recommendations, priorities, and methods for protection of federal lands within the preserve from activities that might take place on private lands, within or adjacent to the preserve that could cause harm or threaten the preserve's resources. The third element is the wilderness suitability review which evaluates the suitability of non-wilderness lands within the preserve for inclusion in the National Wilderness System.

Following consideration of public comments, a final general management plan, land protection plan, and wilderness suitability review will be developed.

DATES AND ADDRESSES: Comments on the draft document should be received no later than June 19, 1985, and should be submitted to: Regional Director, National Park Service, Alaska Regional Office, 2525 Gambell Street Room 107, Anchorage, Alaska 99503–2892.

BILLING CODE 4310-70-M

Office of Surface Mining Reclamation and Enforcement

[Federal Coal Lease No. M-46292]

Availability of the Draft Environmental Impact Statement on and Intent To Hold a Public Hearing for the Proposed CX Ranch Mine, Bighorn County, MT.

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of availability of a draft environmental impact statement and the intent to hold a public hearing (OSM-EIS-20).

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) and the Montana Department of State Lands (DSL) are making available a jointly prepared draft environmental impact statement (EIS) on the proposed CX Ranch mine. The EIS has been prepared to assist the Department of the Interior and Montana DSL in making a decision on the Consolidation Coal Company (Consol) application to surface mine coal approximately 2 miles northwest of Decker, Montana. OSM and Montana DSL are requesting that any interested party submit written comments on the draft EIS to assist with the preparation of the final EIS. OSM and Montana DSL will hold a public hearing in the vicinity of the mine to receive oral comments.

DATES: .

Comment period: Written comments on the draft EIS must be received by 4 p.m., MDT, June 11, 1985, at the location listed below, under **ADDRESSES**.

Public hearing: One public hearing on the EIS will be held at 7 p.m., May 22, 1985, at the Sheridan Junior College, Room 124, Whitney Building, Sheridan, Wyoming.

Additional hearings: Expressions of interest in additional hearings should be submitted by the public at the location listed below, under **ADDRESSES**, not later than May 3, 1985.

ADDRESSES: Written comments and/or expressions of interest for additional public hearings: Hand deliver or mail to the attention of Kit Walther, Environmental Analysis Bureau, Montana DSL, Capitol Station, Helena, Montana 59620.

Availability of copies: Copies of the draft EIS may be obtained from Allen D. Klein, Administrator, Attn: Charles Albrecht, OSM, Western Technical Center, Second Floor, Brooks Towers, 1020 Fifteenth Street, Denver, Colorado 80202, or from Kit Walther, Environmental Analysis Bureau, Montana DSL, Capitol Station, Helena, Montana 59620.

FOR FURTHER INFORMATION CONTACT: Charles Albrecht, Chief, Environmental Analysis Branch (telephone: 303-844-5656) at the Denver, Colorado, location given under **ADDRESSES**.

SUPPLEMENTARY INFORMATION: Consol's proposed CX Ranch mine would be a new surface mine located in Big Horn County, Montana, 2 miles west of Decker, Montana, and 22 miles north of Sheridan, Wyoming. The mine would lie along the lower reaches of Squirrel Creek, just north of the Tongue River.

Consol is currently seeking approval to mine 46.9 million tons of coal over a 12 year period at an average rate of approximately 8 million tons per year. It would disturb 974 acres of the 1,905-acre application area, which includes all or part of secs. 14, 15, 23, 25, and 26 of T.9 S., R.39 E., Montana principal meridian, and secs. 29, 30, and 31 of T.9 S., R.40 E., Montana principal meridian.

Should Consol acquire additional coal leases adjacent to the current application area, it would extend the life of the mine by 21 years, eventually increase production to approximately 16 million tons per year, disturb 2,200 acres more for mining, and expand the mine area by 3,720 acres. A total of 322 million tons of coal would be excavated from this 33-year, extended life-of-mine area; 3,174 acres of a total 5,694-acre mine area would be disturbed in the process.

The draft EIS analyzes the 12-yer operation proposed for the application area, the 33-year operation proposed for the life-of-mine area, and a cumulative scenario of the full development of all mines formally proposed in Montana. This scenario, analyzed to show the impacts of the maximum projected growth, assumes that development in the Decker area of Montana would include three new mines: CX Ranch, Youngs Creek/Tanner Creek (about 5 miles east of the CX Ranch mine), and Wolf Mountain (1 mile north of the CX Ranch mine). Five alternatives that treat the available range of decision are evaluated in the EIS. These include: approve the application as proposed, reject the application, selectively reject approval of the application, approve the application with special conditions, and no action. OSM and Montana DSL have identified "approve the application with special conditions" as their preferred alternative.

Dated: April 11, 1985.

Jerry R. Ennis,

Acting Assistant Director, Technical Services and Research.

[FR Doc. 85-9561 Filed 4-18-85; 8:45 am]

BILLING CODE 7035-01-M

[Finance Docket No. 30480 (Sub-2)]

Rail Carriers; Missouri Pacific Railroad Co. & Seaboard System Railroad, Inc.—Trackage Rights Exemption—Over New Orleans Terminal Co.; Notice of Exemption

On March 5, 1985, Missouri Pacific Railroad Company (MoPac), Seaboard System Railroad, Inc. (Seaboard), and New Orleans Terminal Company (NOT) jointly filed a notice of exemption under 49 CFR 1180.4(g) for an extension of a trackage rights agreement under 49 CFR 1180.2(d)(4). The notice of exemption was supplemented by letters received March 8 and April 1, 1985, respectively.

MoPac and Seaboard maintain rail lines in New Orleans that pass through the site of the 1984 World's Fair. To avoid the use of these lines during the Fair and for a short time afterwards, MoPac and Seaboard obtained temporary trackage rights over a nearby line of NOT extending 7.14 miles between Shrewsbury and N.O. Junction, LA. Pursuant to 49 CFR 1180.2(d)(5), a notice of exemption pertaining to this temporary relocation of the lines of MoPac and Seaboard was served on May 29, 1984, in Finance Docket No. 30480. These trackage rights were extended by agreement of the parties through March 12, 1985, and, pursuant to 49 CFR 1180.2(d)(4), a notice of exemption pertaining to the extension was served on December 5, 1984, in Finance Docket No. 30480 (Sub-No. 1).

The parties now have reached an agreement for MoPac and Seaboard to gain permanent trackage rights over the same line of NOT. Although this transaction does not constitute a "renewal" or extension of trackage rights within the meaning of 49 CFR 1180.2(d)(4), it does meet the definition of a joint relocation project under 49 CFR 1180.2(d)(5) since the project will not disrupt service to shippers and the existing lines of MoPac and Seaboard are abandonable. In *D.T.&I.R.—Trackage Rights*, 363 I.C.C. 878 (1981), the Commission determined that line relocations include trackage rights in circumstances such as are involved here.

As a condition to the use of this exemption, any employees affected by the trackage rights agreement shall be protected pursuant to *Norfolk and Western Ry. Co.—Trackage Rights-BN*, 354 I.C.C. 605 (1978), as modified by *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Decided: April 16, 1985.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

James H. Bayne,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Gilberto Vila-Balzac, M.D.; Denial of Application

On January 22, 1985, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA) issued to Gilberto Vila-Balzac, M.D. of 8000 E. Girard Avenue, Suite 608, Denver, Colorado 80231 (Respondent), an Order to Show Cause proposing to deny his application for a DEA Certificate of Registration, executed on November 30, 1984, for registration as a practitioner under 21 U.S.C. 823(f). The statutory predicate for the proposed action is that granting such a registration would be inconsistent with the public interest as defined in 21 U.S.C. 823(f) as amended by Pub. L. 98-473. In a correspondence dated February 5, 1985, Respondent specifically waived his opportunity for a hearing and instead, filed a written statement regarding his position on the matters of fact and law involved. 21 CFR 1301.54(c). The Acting Administrator has considered the entire record in this matter, including Respondent's written statement, and hereby issues this final order based upon findings of fact and conclusions of law as hereinafter set forth.

The Acting Adminstrator finds that Respondent previously possessed DEA Certificate of Registration AV8789452 issued to him at a Georgia address. Effective June 21, 1984, the Composite State Board of Medical Examiners of the State of Georgia suspended Dr. Vila-Balzac's license to practice medicine in the State of Georgia for a period of three years to be followed by a period of probation of three years during which the doctor will not be allowed to possess, dispense, distribute, order or prescribe any controlled susbstances. This action was taken after a hearing before a hearing officer for the Board found that Dr. Vila-Balzac excessively dispensed Schedule II controlled substances outside the scope of legitimate medical practice. As a result of this suspension, DEA issued an Order to Show Cause on October 24, 1984, seeking to revoke Respondent's DEA Certificate of Registration at his Georgia address, based upon Respondent's lack of authority to prescribe, administer or dispense controlled substances in the State of Georgia. Respondent waived his right to a hearing in the matter. As a result, the then Administrator of DEA entered a final order revoking DEA Certificate of Registration AV8789452 previously issued to Dr. Vila-Balzac in the State of Georgia. The final order was printed in the **Federal Register** on December 14, 1984. (49 FR 48815).

Respondent now wants to be registered by DEA to possess, dispense, distribute, order and prescribe controlled susbstances in the State of Colorado where he presently possesses a valid medical license. The Acting Administrator finds that the magnitude of Respondent's past illicit prescribing practices in Georgia was so great that to register him anywhere at this time would be a threat to the public health and safety and therefore would not be consistent with the public interest.

The Acting Administrator finds that Respondent practiced medicine at Physicians Consulting Services, P.C., also known as Physical Examinations, P.C. in Atlanta, Georgia. This practice was a stress clinic through which substantial quantities of controlled substances were prescribed. A review of prescription records at three pharmacies in the area around the clinic at which Respondent practiced revealed that during the period January 1982 to November 1982, Dr. Vila-Balzac issued 1,870 prescriptions for methaqualone, then a Schedule II controlled substance but since transferred to Schedule I. The same review revealed 853 prescriptions written by Dr. Vila-Balzac for the Schedule II drug Tuinal for the period January 1982 to June 1983.

At the hearing which resulted in the suspension of Respondent's Georgia medical license, the Hearing Officer for the Composite Board of Medical Examiners for the State of Georgia concluded that there was a pattern and practice to the prescribing of controlled substances outside of the scope of legitimate medical practice. The Board also found in its final decision that "even questionable psychological testing, physical examinations and lab analysis cannot mask the fact that one-half of Dr. Vila-Balzac's patients received prescriptions for methaqualone or Tuinal from January to June, 1983." The Acting Administrator concurs in these findings.

In Respondent's correspondence dated February 5, 1985, in which he waived his right to a hearing in this matter, Dr. Vila-Balzac presented certain issues for the consideration of the Acting Administrator. The Respondent indicated that the action of the Georgia Composite State Board of Medical Examiners suspending his medical license in that state is currently under appeal to the Superior Court of Fulton County, Georgia. The Acting Administrator notes that in spite of the appeal, Respondent has been without a medical license in the State of Georgia since June of 1984, and that since July 5, 1983 he has been without authority to prescribe controlled substances in Georgia. The suspension of Respondent's medical license in the State of Georgia was based entirely upon Respondent's prescribing of controlled substances. Respondent further contends that the Georgia Medical Board disregarded his evidence and based its decision upon only five patients. The Acting Administrator has reviewed the lengthy record which was before the Georgia Board and notes that the Board found a pattern and practice of prescribing "highly abused drugs for willng users" under the guise of treatment of stress. The Respondent indicated in his letter that, "under no circumstances will I prescribe any medication to any patient except if the medication is actually needed by the patient." The Acting Administrator is not assured by Respondent's statement. The Georgia Medical Board concluded that Dr. Vila-Balzac had a practice of prescribing methaqualone and Tuinal to patients for no legitimate medical purpose. The Acting Administrator agrees with the conclusion of the Georgia Board. Respondent apparently does not believe that his activity in Georgia was outside the scope of medical practice and therefore that those patients needed the methaqualone and Tuinal. The Respondent contends that he has a new practice in Colorado with a different type of patient than he treated in the past, and that he needs a DEA number in order to practice. The Acting Administrator notes that if Respondent had a DEA registration his practice might again change to one such as he had in Georgia. The Acting Administrator finds Respondent's arguments to be unpersuasive in light of his past conduct.

Unlike the preceding revocation action against Dr. Vila-Balzac, in the matter now before the Acting Administrator, Respondent *is* licensed to practice medicine and authorized to handle controlled substances by the State of Colorado where he is currently practicing medicine. However, the facts clearly indicate that Dr. Vila-Balzac was willing to ignore his professional responsibility to protect the public health and safety and instead, directed large quantities of controlled substances

into the illicit market. The Administrator of DEA is charged with protecting the public health and safety. Conduct such as that exhibited by Respondent is precisely what Congress sought to address by adding public interest as a ground for the revocation or denial of a DEA Certificate of Registration in Public Law 98–473. The extent of Respondent's prescription-writing practices in Georgia leads the Acting Administrator to conclude that registration of Dr. Vila-Balzac would be contrary to the public interest wherever he may practice medicine.

In consideration of the foregoing, and having a lawful basis for such action, (21 U.S.C. 823(f) as amended by Public Law 98–473), it is the decision of the Acting Administrator that Dr. Vila-Balzac's application for registration should be denied. Accordingly, pursuant to the authority vested in him by 21 U.S.C. 823 and 28 CFR 0.100(b), the Acting Administrator hereby orders that the application for a DEA Certificate of Registration executed on November 30, 1984 by Gilberto Vila-Balzac, M.D., and any other applications executed by Respondent which may exist, be, and are hereby denied.

Dated: April 11, 1985.

John C. Lawn,

Acting Administrator.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Labor Research Advisory Council Committees; Meetings and Agenda

The regular spring meetings of committees of the Labor Research Advisory Council will be held on May 15, 16, and 17. The meetings will be held in Room N–5437, B&C, of the Frances Perkins Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

The Labor Research Advisory Council and its committees advise the Bureau of Labor Statistics with respect to technical matters associated with the Bureau's programs. Membership consists of union research directors and staff members.

The schedule and agenda of the meetings are as follows:

Wednesday, May 15

9:30 a.m.—Committee on Productivity, Technology and Economic Growth

1. Discussion of the update of the 1995 projections of economic growth.
2. Extension of multifactor productivity measures to two-digit manufacturing industries.
3. Impact of R and D on productivity.
4. Capacity utilization change and productivity change.
5. Current results of survey of hours worked and hours paid.

11:15 a.m.—Committee on Foreign Labor and Trade

1. Alternative unemployment rates abroad—U1 through U7.
2. International comparisons of employment by sector.
3. New GNP benchmarks for international comparisons.

1:30 p.m.—Committee on Occupational Safety and Health Statistics

1. Recordkeeping guidelines.
2. Work injury reports and the development of standards.
3. National Academy of Sciences, Committee on National Statistics: study of survey quality.
4. Recordkeeping case studies project.

Thursday, May 16

9:30 a.m.—Committee on Wages and Industrial Relations

1. Review of work in progress.
2. Special research from the Professional, Administrative, Technical, and Clerical pay survey.
3. New data on collective bargaining settlements for State and local governments.
4. New data on labor organizations membership.
5. Comparison of union/nonunion earnings data derived from Current Population Survey.
6. Status report on treatment of lump-sum payments

1:30 p.m.—Committee on Prices and Living Conditions

1. Review of Consumer Expenditure Surveys, 1980/81.
2. Status report on International Price Program.
3. Status report on Consumer Price Indexes and Consumer Price Index Revision.
4. Other business.

Friday, May 17

9:30 a.m.—Committee on Employment Structure and Analysis

1. Status reports on:

(a) Local area unemployment statistics methodology review.

(b) Establishment survey modernization program.

2. Discussion of:

(a) Dislocated worker/mass layoff data system.

(b) Census/BLS report on trade and employment.

(c) Report of earnings of workers and their families.

3. Review of:

(a) May 1985 CPS supplement on work schedules.

(b) Statistics on temporary help industry.

The meetings are open. It is suggested that persons planning to attend as observers contact Joseph P. Goldberg, Executive Secretary, Labor Research Advisory Council on (Area Code 202) 523–0001.

Signed at Washington, D.C. this 10th day of April 1985.

Janet L. Norwood,

Commissioner of Labor Statistics.

BILLING CODE 4510–24–M

Employment and Training Administration

[TA–W–15,214 and 15,215]

Amax Specialty Metals Corp., Newark, NJ, Florham Park, NJ; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on July 17, 1984, applicable to all workers at Amax Specialty Metals Corporation, Newark, New Jersey and Florham Park, New Jersey. The Notice of Certification was published in the **Federal Register** on July 31, 1984 (49 FR 30607).

On the basis of additional information, furnished by a corporate official on the scheduled closure of the Florham Park plant, the Office of Trade Adjustment Assistance reviewed the termination date in the subject certification. The May 3, 1984 termination date in the certification was predicated upon the scheduled purchase of the company by another firm. Because the purchase never materialized as scheduled, workers were retained at Florham Park until July 31, 1984 to close down the plant. It was the Department's intent to include all workers as eligible to apply for adjustment assistance who were laid off from the Amax Specialty Metals Corporation plant in Florham Park, New Jersey.

The amended certification for TA–W–15,214 and 15,215 is hereby issued as follows:

All workers of the Newark, New Jersey plant of Amax Specialty Metals Corporation who became totally or partially separated from employment on or after February 6, 1983 and before May 4, 1984 and all workers of the Florham Park, New Jersey plant who became totally or partially separated from employment on or after February 6, 1983 and before September 1, 1984 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C., this 4th day of April 1985.

Stephen A. Wandner,

Deputy Director, Office of Legislation and Actuarial Services, UIS.

[FR Doc. 85–9547 Filed 4–18–85; 8:45 am]

BILLING CODE 4510–30–M

[TA–W–15,598]

The Biltrite Corp., Chelsea, MA; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on March 15, 1985, applicable to all workers of the Chelsea, Massachusetts plant of The Biltrite Corporation. The Notice of Certification was published in the **Federal Register** on March 26, 1985 (50 FR 11951).

The certification document issued in response to this worker petition improperly reported the impact date as November 9, 1984. The certification document is amended to show the correct impact date of November 8, 1983.

The amended notice applicable to TA–W–15,598 is hereby issued as follows:

All workers of the Chelsea, Massachusetts plant of The Biltrite Corporation who became totally or partially separated from employment on or after November 8, 1983 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C., this 4th day of April 1985.

Robert A. Schaerfl,

Director, Office of Program Management, UIS.

[TA–W–15,738]

Tecumseh Products, Marion, OH; Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on February 4, 1985 in response to a petition received on January 25, 1985 which was filed by the United Auto Workers of America on behalf of workers at Tecumseh Products, Marion, Ohio.

The production workers at the subject plant were laid off when the plant closed in July 1984. Workers were certified for trade adjustment assistance under an earlier certification (TA–W–13,435) wich expired on February 17, 1985. Since all production workers were covered by this certification and since the maintenance workers at the Marion plant have not been laid off yet, further investigation in this case would serve no purpose; and the investigation has been terminated.

Signed at Washington, D.C., this 9th day of April 1985.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510–30–M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administation, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than April 29, 1985.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than April 29, 1985.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street, NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 8th day of April 1985.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510–30–M

Occupational Safety and Health Administration

[V–85–3]

St. Regis Corp.; Application for Variance and Interim Order

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Notice of application for variance and interim order; Grant of interim order.

SUMMARY: The notice announces the application of St. Regis Corporation for a variance from the part of 29 CFR 1910.261(c)(9)(i) which requires that the flagman must always remain in sight of the operator when the crane or locomotive is in motion. It also announces the granting of an interim order until a decision is rendered on the application for variance.

DATE: The effective date of the interim order is April 19, 1985. The last date for affected employers and employees to request a hearing on the application is May 20, 1985.

ADDRESSES: Send comments and requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third Street & Constitution Avenue NW., Room N–3656, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

Mr. James J. Concannon, Director, Office of Variance Determination at the above address, Telephone: 202–523–7193

or the following Regional and Area Offices:

U.S. Department of Labor—OSHA, Federal Building, Room 1554, 1961 Stout Street, Denver, Colorado 80294

U.S. Department of Labor—OSHA, Petroleum Building, Suite 210, 2812 1st Avenue North, Billings, Montana 59101.

I. Notice of Application

Notice is hereby given that St. Regis Corporation, Post Office Box V–X, Libby, Montana 59923–1284, has made application pursuant to section 6(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1590; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance from the part of 29 CFR 1910.261(c)(9)(i) which requires that the flagman must always remain in sight of the operator when the crane or locomotive is in motion.

The place of employment that will be affected by the application is the plant of the applicant.

The applicant certifies that employees who would be affected by the variance have been notified of the application by presenting a copy of it to the authorized employee repesentative and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that the radio communications between the railroad crew is as safe and healthful as visual contact between the railroad crew as required by § 1910.261(c)(9)(i). The applicant proposes that their railroad crew use portable radios to relay verbal instructions in directing movement of the locomotives rather than using visual observation of hand signals. The railroad crew would thus be able to maintain voice contact when throwing switches, coupling, uncoupling or spotting rail cars within the applicant's railroad system. The applicant contends that constant visual contact while the locomotive is in motion is not the exclusive means of achieving the safe operation.

This variance is requested from St. Regis Corporation, Lumber and Plywood Division, Plywood/Sawmill Complex, Libby, Montana. The applicant contends that products in its railroad operations are lumber, plywood and wood chips.

The applicant further states that the operating area of the locomotive encompasses approximately two miles of track, all within the confines of the company's property. The applicant has submitted written operations procedures for its employees involved in railroad duties.

The applicant maintains that a variance from the requirement that the railroad crew be in visual contact with the locomotive engineer at all times should be granted because the use of radios in conjunction with written operations procedures provides an operation which is as safe as, or safer than the outdated method of hand signals.

Specifically,

(a) Without the visual contact requirement, crew members' mobility will be enhanced and will be able to position themselves at the safest possible location during train movement;

(b) Radios will provide a means of communication instantaneously, whereas hand signals must await visual contact between the parties; and

(c) Radios improve communication under adverse weather conditions and after nightfall.

The applicant contends that its request for a variance should be granted because the OSHA requirement for visual contact applies only to the pulp and paper and paperboard mill industry. Locomotives routinely operate in other industries using radio communication in lieu of visual contact. There is nothing unique about the pulp, paper and paperboard mill industry which justifies a visual contact requirement.

The applicant contends that it has taken the following steps to assure that the system of radio communication will work safely and efficiently:

(a) The applicant has purchased a sufficient number of radios and microphones to supply all required employees;

(b) The radios purchased are a 2 watt FM system providing a clear and audible signal;

(c) The applicant has obtained a separate radio frequency from the Federal Communications Commission. The frequency will be used solely among members of the train crew to direct the movement of the locomotive.

(d) The radios, when not in use, will be maintained in a secure place under the control of St. Regis Corporation supervision; employees will be responsible for the security of radios which have been issued to them;

(e) The radios will be checked regularly and recharged when appropriate; and,

(f) Employees will be trained in the use of the radios as well as in the operational procedures which apply during the use of radios. The locomotive engineer will be under instruction not to move the train until given a radio signal from the crew. Should radio failure or interference occur after an order to move has been given, the locomotive engineer will stop. The engineer will not move the train again until radios are repaired, replaced or until interference has cleared. Established operational procedures will be followed.

The Occupational Safety and Health Administration conducted an onsite variance investigation at the applicant's facility on December 18, 1984 to examine plant and railroad operations and procedures. The conditions at the facility were found to be as stated in the variance application.

The applicant also contends that its alternative method as described above is as safe and healthful as the requirements of the standard from which a variance is sought.

All interested persons, including employers and employees who believe they would be affected by the grant or denial of the application for variance, are invited to submit written data, views, and arguments relating to the pertinent application no later than May 20, 1985. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than May 20, 1985, in conformance with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Variance Determination at the above address.

Grant of Interim Order

The applicant also requested an interim order to be effective until a decision is made on the application for variance.

It has been determined that an interim order from 29 CFR 1910.26(c)(9)(i) shall be issued. Therefore, it is ordered, pursuant to the authority in section (6)(d) of the Occupational Safety and Health Act of 1970, in 29 CFR 1905.11(c) and in Secretary of Labor's Order No. 9–83 (48 FR 35736) that St. Regis Corporation is hereby subject to the following conditions in lieu of complying with 29 CFR 1910.261(c)(9)(i) of the Occupational Safety and Health standards:

(a) Institute a radio control program for assignment, storage, security, recharging and periodic maintenance of the radio equipment.

(b) Clearly designate the area where the two-way radio communications may be conducted.

(c) Develop safe operating procedures in the use of the radio communications system and provide a copy to each employee required to work with a two-way radio.

(d) Instruct and thoroughly train each employee who is authorized to use the two-way radio in the proper methods for using the radio communications.

(e) Assure testing of the radio before and at least once during each railroad crew shift to verify that the radio is operating properly. The test at a minimum shall consist of an exchange of voice transmissions.

(f) Immediately remove from service all improperly functioning radios until they have been repaired.

(g) Assure that when radio communication is used in lieu of hand signals in connection with the switching, backing or pushing of a train, engine, or car, the employee directing the movement shall give complete instructions or keep continuous radio contact with the employees receiving

the instructions. When backing or pushing a train, engine or cars, the distance of the movement must be specified, and the movement must stop in one-half the remaining distance unless additional instructions are received. If the instructions are not understood or continuous radio contact is not maintained, the movement shall be stopped immediately and may not be resumed until the misunderstanding has been resolved, radio contact has been restored, or communication has been achieved by hand signals.

(h) Assure that a traffic pattern across and on the railroad tracks be well defined and a safe operating procedure established.

(i) Install and maintain appropriate and practical warning signs at each vehicular and pedestrian crossing of the railroad track and the blind areas of the track.

(j) Require that an audible signal be given when approaching a crossing. The sound of the engine whistle or horn shall be distinct, with intensity and duration proportionate to the distance the signal is to be conveyed.

(k) Assure that when outside railroad company operators are on the premises, operations of the applicant's crew shall be fully coordinated with those of the outside railroad company to assure a safe joint operation. Crews of one company shall be informed of the operating procedures of the other company.

(l) Allow OSHA to inspect its premises in connection with this order.

This interim order becomes effective on April 19, 1985, and shall remain in effect until a decision is rendered on the application for a variance.

Signed at Washington, D.C. this 10th day of April 1985.

Robert A. Rowland,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

Office of Pension and Welfare Benefit Programs

[Prohibited Transaction Exemption 85-69; Exemption Application No. D-4990 et al.]

Grant of Individual Exemptions; San Francisco Photographers Supply, Inc., et al.

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Grant of Individual Exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, D.C. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of pendency were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

San Francisco Photographers Supply, Inc. Defined Benefit Pension Plan and San Francisco Photographers Supply, Inc. Money Purchase Pension Plan (the Plans) Located in San Francisco, California

[Prohibited Transaction Exemption 85-69; Exemption Application No. D-4990 and D-4991]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply, for a period of five years, to the proposed loans by the Plans of up to 25% of each Plan's assets to San Francisco Photographers Supply, Inc., provided that the terms of the transactions are not less favorable to the Plans than those obtainable in an arm's-length transaction with an unrelated party at the time of consummation of each transaction.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on January 2, 1985 at 50 FR 189.

Temporary Nature of Exemption

This exemption is temporary and will expire five years after the date of grant with respect to the making of any loan.

Subsequent to the expiration of this exemption, the Plans may hold loans originated during this five year period for an additional five years. Should the applicant wish to continue entering into loan transactions beyond the five year period, that applicant may submit another application for exemption.

For Further Information Contact: Mr. Alan H. Levitas of the Department, telephone (202) 523-8971. (This is not a toll-free number.)

Bryce Corporation Pension Plan and Trust and Bryce Corporation Profit Sharing Plan and Trust (Together, the Plans) Located in Memphis, Tennessee

[Prohibited Transaction Exemption 85-70; Exemption Application Nos. D-5123 and D-5124]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975 (c)(1) (A) through (E) of the

Code, shall not apply to (1) the lease by the Plans to Bryce Corporation (Bryce) of certain real property (the Land) located at 3861 Delp Street, Memphis, Tennessee, which was entered into on August 1, 1974, provided the terms of the lease were not less favorable to the Plans than those obtainable in an arm's-length transaction with an unrelated party; and (2) the sale of the Land by the Plans to Bryce or parties related to Bryce for $98,000 in cash, or the fair market value of the Land on the date of sale, whichever amount is greater.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 11, 1985 at 50 FR 5689.

Effective Date: The exemption for the lease is effective from January 1, 1975 through June 30, 1984.

For Further Information Contact: Mr. Gary Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Midelfort Clinic, Ltd. Profit Sharing Plan (the Plan) Located in Eau Claire, Wisconsin

[Prohibitied Transaction Exemption 85–71; Exemption Application No. D–5163]

Exemption

The restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the proportionate distribution of the assets of a corporation (Building, Inc.) to parties in interest with respect to the Plan, in connection with the liquidation and dissolution of Building, Inc., provided that the terms and conditions of the transaction are at least as favorable to the Plan as those obtainable in similar transactions between unrelated parties.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption published on February 11, 1985, at 50 FR 5690.

For Further Information Contact: Ms. Katherine D. Lewis of the Department, telephone (202) 523–8882. (This is not a toll-free number.)

Lone Star Company Profit Sharing Trust and the Lone Star Company Pension Plan (the Pension Plan; Collectively, the Plans) Located in Dallas, Texas

[Prohibited Transaction Exemption 85–72; Exemption Application Nos. D–5208 and D–5209]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the continuation, past June 30, 1984, of: (1) A loan (the New Loan) in the amount of $3,042,000 by the Plans to Lone Star Company (the Employer); and (2) a lease (the New Lease) of certain improved real property (the Real Property) by the Pension Plan to the Employer, provided the terms and conditions of the New Loan and the New Lease are at least as favorable to the Plans as those obtainable in an arm's length transaction with an unrelated party.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 11, 1985 at 50 FR 5692.

Effective Date: This exemption is efective July 1, 1984.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 523–8971. (This is not a toll-free number.)

Mid-Continent Mud Sales, Inc. Pension Plan and Profit-Sharing Plan (the Plans) Located in Oklahoma City, Oklahoma

[Prohibited Transaction Exemption 85–73; Exemption Application No. D–5374]

Exemption

The restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the proposed loan of $100,000 by the Plans to B&N Development Company, a party in interest with respect to the Plans, provided the terms of this transaction are not less favorable to the Plans than those obtainable in an arm's-length transaction with an unrelated party at the time of the consummation of the transaction.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 11, 1985 at 50 FR 5694.

For Further Information Contract: Ms. Linda Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Kerr Glass Manufacturing Corporation Retirement Trust Fund (the Plans) Located in Los Angeles, California

[Prohibited Transaction Exemption 85–74; Exemption Application No. D–5454]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the continuation, past June 30, 1984, of a lease (the Amended Lease) of certain improved real property (the Real Property) between the Plans and Kerr Glass Manufacturing Corporation (the Employer), provided the terms and conditions of the Amended Lease are at least as favorable to the Plans as those obtainable in an arm's length transaction with an unrelated party

Effective Date of Exemption: If granted, this exemption will be effective July 1, 1984.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on December 14, 1984 at 49 FR 48824.

Written Comments: The Department received three written comments to the proposed exemption which were submitted by certain participants of the Plans. Two participants, who questioned whether the proposed transactions would adversely affect their pensions, withdrew their comments after a Department representative explained that the exemption would have no detrimental effect on the participant's pensions. The third participant objected to the proposed exemption as not being in the best interests of employees participating in the Plans. The commentator requested that the Department deny the exemption for two reasons. Firstly, the participant felt that the proposed exemption represented an attempt by the Employer to abrogate the leasing of the Real Property for its sole benefit and not for the benefit of those retirees or future retirees under the Plans. Secondly, the participant thought that the proceeds obtained from a potential sale of the Real Property to unrelated parties could not be invested at a return equal to the rate of return obtained by the Plans from the Amended Lease.

The applicant responded to the first issue raised by the objecting participant by stating that the Employer's obligations under the Amended Lease would continue until its expiration thereof in 1990 or until the trustee of the

Plans, Fulton Bank of Lancaster, Pennsylvania (Fulton), terminated the lease. The applicant explained that the Employer would have no right to terminate the Amended Lease and its obligations thereunder at any time prior to the expiration date of the lease. Thus, the applicant concluded, instead of being an attempt by the Employer to abrogate its rights to lease the Real Property, the Amended Lease would continue to obligate the Employer for the remainder of the lease term.

With respect to the second issue raised by the objecting participant, the appplicant thought the proposed sale of the Real Property by the Plans to unrelated parties was of no relevance to the subject exemption inasmuch as it related to the continued leasing of the Real Property. However, if the Real Property were sold by Fulton, either in its own discretion or upon the direction of a committee for the Plans, the applicant noted that the decision would have to be made in accordance with Fulton's fiduciary duties and obligations under the Act. The applicant asserted that Fulton would have to consider such factors as the sales price for the Real Property, the return it obtained, its appreciation in value while held by the Plans and the return anticipated to be received by the Plans from the sale proceeds.

After consideration of the entire record, the Department has made a decision to grant the requested exemption.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 523–8971. (This is not a toll-free number.)

Retirement Plan for Employees of National Bank of Commerce (the Plan) Located in Memphis, Tennessee

[Prohibited Transaction Exemption 85–75 Exemption Application No. D–5564]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the lease of real property by the Plan to the National Bank of Commerce, a party in interest with respect to the Plan, provided that such lease is on terms and conditions at least as favorable to the Plan as those obtainable by the Plan in an arm's-length transaction with an unrelated person.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 11, 1985 at 50 FR 5695.

For Further Information Contact: Mr. Alan Levitas of the Department, telephone (202) 523–8971. (This is not a toll-free number.)

Shelly's Tall Girl Shops, Inc. Defined Benefit Pension Plan (the Plan) Located in Los Angeles, CA

[Prohibited Transaction Exemption 85–76; Exemption Application No. D–5587]

Exemption

The restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the loan by the Plan of amounts not to exceed 25% of its total assets to Shelly's Tall Girl Shops, Inc., the sponsor of the Plan, on a recurring basis over a five-year period, and the guarantee of repayment of those loans by Messrs. Sheldon Kort, Irving Kellogg, and Sherman Andelson, parties in interest with respect to the Plan, provided the terms of the loans are not less favorable to the Plan than those obtainable in an arm's-length transaction with an unrelated party.

Temporary Nature of Exemption: This exemption will be effective for five years from the date a grant of an individual exemption is published in the **Federal Register** on behalf of the transaction. Subsequent to the expiration of the exemption, the Plan may hold the loans provided they were made during the five-year period.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on January 29, 1985 at 50 FR 3999.

For Further Information Contact: Ms. Linda Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

McKay of California, Inc. Defined Benefit Pension Plan (the Plan) Located in Los Angeles, California

[Prohibited Transaction Exemption 85–77; Exemption Application No. D–5602]

Exemption

The restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the loan by the Plan of amounts not to exceed 25% of its total assets to McKay of California, the sponsor of the Plan, on a recurring basis over a five-year period, and the guarantee of repayment of these loans by Messrs. Sherman L. Andelson, Irving Kellogg, and Sherman Kort, parties in interest with respect to the Plan, provided the terms of the loans are not less favorable to the Plan than those obtainable in an arm's-length transaction with an unrelated party.

Temporary Nature of Exemption: This exemption will be effective for five years from the date a grant of an individual exemption is published in the **Federal Register** on behalf of the transactions. Subsequent to the expiration of the exemption, the Plan may hold the loans provided they were made during the five-year period.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on January 29, 1985 at 50 FR 4000.

For Further Information Contact: Ms. Linda Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Drs. Meara and Pansino, Oral and Maxillofacial Surgery, P.C. Employees' Pension Plan (the Plan) Located in Lansing, Michigan

[Prohibited Transaction Exemption 85–78; Exemption Application No. D–5799]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the purchase of a diamond (the Diamond) by Dr. John W. Meara, Jr. (Dr. Meara), for the cash consideration of $11,200 plus carrying costs, from Dr. Meara's individual account in the Plan, provided the price paid for the Diamond is not less than its fair market value at the time the transaction is consummated.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 11, 1985 at 50 FR 5701.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 523–8971. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a

fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 16th day of April, 1985.

Elliot I. Daniel,

Acting Assistant Administrator for Regulations and Interpretations, Office of Pension and Welfare Benefit Programs, U.S Department of Labor.

[FR Doc. 85-9553 Filed 4-18-85; 8:45 am]

BILLING CODE 4510-29-M

[Application No. D-5151 et al.]

Proposed Exemptions; University Avenue Orthopaedic Medical Group, Inc., et al.

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of Proposed Exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code.)

Written Comments and Hearing Requests.

All interested persons are invited to submit written comments or requests for a hearing on the pending exemptions, unless otherwise stated in the Notice of Pendency, within 45 days from the date of publication of this **Federal Register** Notice. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216. Attention: Application No. stated in each Notice of Pendency. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue NW., Washington, D.C. 20216.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of pendency are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for complete statement of the facts and representations.

University Avenue Orthopaedic Medical Group, Inc. Profit Sharing Plan (the Profit Sharing Plan) and University Avenue Orthopaedic Medical Group, Inc. Money Purchase Pension Plan (the Pension Plan; Together, the Plans) Located in San Diego, California

[Application Nos. D-5151 and D-5152]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the purchase from James E. Schultz, M.D. (Dr. Schultz) by his individual accounts (the Accounts) in the Plans of a farm located in Harrison County, Iowa (the Property), for $144,000 in cash, provided such amount is not greater than the fair market value of the Property at the time of its acquisition, and the lease of the Property to Dr. Schultz by the Accounts under the terms set forth in this notice of proposed exemption, provided such terms are not less favorable to the Accounts than those obtainable in an arm's-length transaction with an unrelated party.

Summary of Facts and Representations

1. The Plans are defined contribution plans which provide for individually directed accounts. The Plans each have approximately 20 participants. Dr. Schultz is the President and a director of University Avenue Orthopaedic Medical Group, Inc. (the Employer), the Plans' sponsor. Dr. Schultz is also a 25% shareholder of the Employer. Dr. Schultz currently has total assets in the Accounts of approximately $671,570, of which $274,740 is in his Account in the Pension Plan, and $396,830 is in his Account in the Profit Sharing Plan.

2. The Property consists of a 160 acre farm located in Harrison County, Iowa. Dr. Schultz believes that the Property should appreciate and provide a good investment for the Accounts. The investment will provide diversification since the Accounts currently hold no real estate. In addition, the lease will provide a good return to the Accounts. The investment will be earmarked for the Accounts of Dr. Schultz and thus no other participant in the Plans will be affected. The sale will be for cash, and an existing mortgage on the Property,

held by an unrelated party, will be paid off as part of the transaction.

3. The sales price for the Property to the Accounts will be $144,000. Mr. Kenneth L. Beckstrom (Mr. Beckstrom) of Farmers National Company, an independent appraiser in Omaha, Nebraska, has appraised the Property as having a fair market value of $144,000 as of January 30, 1985. The Account in the Pension Plan will acquire a 41% interest in the Property for $59,040, and the Account in the Profit Sharing Plan will acquire a 59% interest in the Property for $84,960. The Property will thus represent approximately 21% of the assets of each of the Accounts.

4. Dr. Schultz then proposes to lease the Property from the Accounts. The lease will be for a period of 10 years. Mr. Beckstrom has appraised the Property, as of January 30, 1985, as having a fair market rental value of $15,100 per year, and that will be the initial rental which Dr. Schultz will pay to the Accounts. The proposed lease provides that on the last day of each calendar year during the term of the lease, the annual rental will be adjusted by a percentage equal to the percentage increase from the base period of the Department's Consumer Price Index. The Index published for the calendar year in which the Property is initially leased shall be the base period. The annual rental for the Property will not fall below $15,100. The Accounts shall have the right to terminate the lease upon 90 days notice to Dr. Schultz or at any time during the term of the lease if the Accounts dispose of their interests in the Property.

5. In summary, the applicant represents that the proposed transactions satisfy the criteria contained in section 408(a) of the Act because: (1) The Property represents approximately 21% of each of the Accounts' assets; (2) the purchase price of the Property and the annual rental amount for the Property have both been determined by a qualified, independent appraiser; and (3) Dr. Schultz is the only participant in the Plans to be affected by the proposed transactions, and he has determined that the transactions are in the best interests of the Accounts.

Notice to Interested Persons: Because Dr. Schultz is the only participant in the Plans to be affected by the proposed transactions, it has been determined that there is no need to notify interested persons. Comments and requests for a public hearing are due 30 days from the date of publication of this proposed exemption in the **Federal Register.**

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523-8881. (This is not a tool-free number.)

Littonian Shoe Company Profit Sharing and Retirement Plan (the Littonian Plan) and the Employees Retirement Income Plan of the Community National Bank of Southern Pennsylvania (the Community Plan; Collectively, the Plans) Located in Gettysburg, PA

[Application No. D-5837]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to: (1) The sale, on June 8, 1984, by the Littoinian Plan and the Community Plan of certain real estate mortgage participations (the Participation Interests) to Community National Bank (Community); and (2) the proposed sale by the Community Plan to Community of two other Participation Interests, provided the total price paid for the participation Interests was not or will not be less than their fair market value at the time of sale.

Effective Date: This exemption, if granted, will be effective June 8, 1984.

Summary of Facts and Representations

1. The Plans consist of the Littonian Plan and the Community Plan, both of which were administered by Community, as trustee, prior to June 8, 1984. At that time, Littonian Shoe Company (Littonian), the sponsor of the Littonian Plan, decided to change trustees and liquidate that Plan's assets. On March 30, 1984, the last date for which a full financial report is available, the Littonian Plan had total assets of $1,363,561 and approximately 80 participants. On June 28, 1984, the Community Plan had total assets of $607,377 and an estimated 38 participants. Until the liquidation, Community made investment decisions for the Littonian Plan. It continues to make them for the Community plan.

2. Community, the sponsor of the Community Plan, is a national banking association chartered under the laws of the State of Pennsylvania. Community maintains its principal place of business in Littletown, Pennsylvania. Littonian, the sponsor of the Littonian Plan, is a manufacturer of baby shoes. Its principal place of business is also located in Littletown, Pennsylvania.

3. Among the assets of the Plans were twelve participation interests in ten real estate mortgages (the Mortgages) that were originated by Community between August 2, 1973 and August 29, 1979 in the ordinary course of its business.[1] The Mortgages were "new" mortgages representing first lien interests on residential property. The Mortgages carried interest at fixed rates ranging between 8 percent and 10.75 percent per annum and the loan amounts were between $9,322 and $30,698. All were for a 20 year term. None of the Mortgagors were parties in interest with respect to either Plan.

4. Littonian Plan acquired ten Participation Interests in the Mortgages during the six year origination period. It paid a total purchase price of $142,100. The Community Plan acquired two Participation Interests in the Mortgages, also during the origination period. The Community Plan paid a total of $11,700 for the participation Interests. On June 8, 1984, the Participation Interests held by the Littonian Plan and the Community Plan had outstanding principal balances of $105,277 and $11,700, respectively. The exemption application states that the Participation Interests held by the Community Plan were not amortized because of Community's policy against amortizing more than one Participation Interest at a time. However, the Community Plan received interest payments based on the full amount of each Participation Interest for the entire period these interests were held by the Community Plan.

5. In May 1984, Littonian notified Community that it wished to terminate the Littonian Plan's account and liquidate certain of the Plan's assets in order to facilitate a transfer to a successor trustee. To comply with this request, Community decided to purchase the Participation Interests held by the Littonian Plan. Community also decided to purchase the Participation Interests held by its own Plan. The Participation Interests were then purchased for their total par value or total outstanding principal balance as of June 8, 1984, the date of sale. (These amounts are noted above.) Community paid cash for the Participation Interests.

6. According to Community, the Participation Interests, if sold to a third party, would have been sold at a

[1] In this proposed exemption, the Department expresses no opinion on whether the acquisition and holding by the Plans of the Participation Interests violated any provision of Part 4 of Title I of the Act.

discount because of the increase in prevailing interest rates since the Mortgages were originated. To support these facts, Community obtained documentation from three independent competitor banks as to the going rate of interest for the Participation Interests on the date of transfer. On January 21, 1985, Mr. Jeffrey K. Dice (Mr. Dice), Assistant Vice President of Bank of Hanover and Trust Company of Hanover, Pennsylvania (Hanover), provided information on the interest rate for fixed and one year adjustable rate mortgages as of June 5, 1984. Depending on the loan duration, Mr. Dice represented that fixed interest rates ranged between 13.5 percent and 14.5 percent while the interest for an adjustable rate mortgage of 1–30 year's duration was 11.5 percent. Mr. Dice further asserted that the loans would be subject to service fees of 2–3 points, again depending on the loan duration.

Also on January 21, 1985, Mr. John E. Kashner (Mr. Kashner), Assistant Vice President of the Commercial Loan Department of Hamilton Bank (Hamilton) of Hanover, Pennsylvania, stated that Hamilton's interest rate for residential mortgages was 14.75 percent for loan of up to 30 years' duration.

Finally, on January 24, 1985, Mr. William H. Kiick (Mr. Kiick), Executive Vice President of Farmers Bank and Trust Company (Farmers) of Hanover, Pennsylvania stated that Farmer's interest rate for a fixed mortgage loan as of June 8, 1984 was between 14.75 percent and 15 percent for a period not exceeding 30 years. Mr. Kiick also represented that the loan would be subject to a 3 point service fee.

7. In addition to the transactions described above, Community requests an exemption in order to purchase two other Participation Interests held by the Community Plan for cash for their total outstanding principal balance. The Participation Interests were also acquired by the Community Plan at the time Community originated the underlying first Mortgages.[2] The Mortgages were made to unrelated parties in 1973 and 1976 for $17,083 and $79,930. They carry interest at the fixed rates of 8 percent to 9.5 percent per annum and they are of 20 years' duration.

8. The Community Plan paid $7,000 for one Participation Interest and $23,000 for other. As of December 12, 1984, the Participation Interests had a total outstanding principal balance of approximately $29,026 or $6,383 and $22,643 individually. In their January 1985 appraisals, Messrs. Kashner and Kiick represented that the two Participation Interests would also be subject to discounted purchase prices.

9. In summary, it is represented that the transactions satisfy the statutory criteria for an exemption under section 408(a) of the Act because: (a) The sales were or will be one-time transactions for cash; (b) the Participation Interests were or will be sold at their aggregate outstanding principal balance or par value which would be in excess of their fair market value as established by independent appraisers; and (c) the Littonian Plan and the Community Plan were or will be able to divest themselves of mortgage investments generating little income.

Notice to Interested Persons: Notice of the proposed exemption will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 30 days of the date of publication of the proposed exemption in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and/or to request a hearing. Comments are due within 60 days of the date of publication of the proposed exemption.

For Further Information Contact: Ms. Jan D. Broady of the Department, telephone (202) 523–8971. (This is not a toll-free number).

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory of administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describe all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 16th day of April 1985.

Elliott I. Daniel,

Acting Assistant Administrator for Regulations and Interpretations, Office of Pension and Welfare Benefit Programs, U.S. Department of Labor.

[FR Doc. 85–9554 Filed 4–18–85; 8:45 am]

BILLING CODE 4510–29–M

[2] Supra, note 1.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–317]

Baltimore Gas and Electric Co.; Consideration of Issuance of Amendment to Facility Operating License and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR–53 issued to Baltimore Gas and Electric Company (the licensee), for operation of the Calvert Cliffs Nuclear Plant Unit No. 1 located in Calvert County, Maryland.

The amendment would revise provisions in Technical Specification (TS) 4.10.1.2 "Shutdown Margin" to allow an increase from 24 hours to 7 days for the time period within which a scram test must be performed prior to reducing the shutdown margin below specified limits during preoperational testing at 5% power or less. This proposed action is in response to the licensee's application for amendment dated February 26, 1985.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability of consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The purpose of TS 4.10.1.2 is to assure the reliability of the reactor control rod insertion capability (reactor trip verification) prior to reducing the shutdown margin below specified levels during preoperational testing or when the plant is operating at 5% power or less. This reduction in shutdown margin is required to perform special tests that are normally performed following a refueling outage at power levels less than or equal to 5% power (Mode 2). At the present time, TS 4.10.1.2 requires a reactor trip verification within 24 hours prior to reducing the shutdown margin below specified levels. The licensee has requested that the reactor trip verification be performed within 7 days in order to achieve a more expeditious startup following a refueling outage.

In Chapter 14 of the Calvert Cliffs FSAR, the licensee has considered all potential accidents where control rods (CEAs) fail to insert. The only accidents impacted by a stuck CEA are those that may result in positive reactivity addition after a reactor trip (i.e., an overcooling event) and thus no new types of accidents will be created by the proposed change. Based on probabilistic risk assessment analysis performed by the licensee the probability of an overcooling event with a stuck CEA increases insignificantly (1.1×10^{-7} to 4.8×10^{-7}), when the requirement for trip verification is increased from 24 hours to seven (7) days during low power testing. Finally, since no system modifications, operating modes, or safety system setpoints have been changed, the consequences of previously analyzed accident will not be increased and no reduction in a margin of safety will result from the proposed TS change.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Comments should be addressed to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Docketing and Service Branch.

By May 20, 1985, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the result of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendment under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceedings, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish a notice is issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a peition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, or may

be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by toll-free telephone call to Western Union at (800) 325—6000 (Missouri (800) 342–6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to James R. Miller: petitioner's name and telephone number; date petition was mailed; plant name; and publication date and page number of this **Federal Register** notice. A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to D.A. Brune, Jr., General Council, G&E Building, Charles Center, Baltimore, Maryland 21203, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or request for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR 2.714(a)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated February 26, 1965 which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Calvert County Library, Prince Frederick, Maryland.

Dated at Bethesda, Maryland, this 15th day of April 1985.

For the Nuclear Regulatory Commission.

Charles M. Trammell,

Acting Branch Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50–461]

Illinois Power Co. et. al.; Preparation of Environmental Assessment and Findings of No Significant Impact

The U.S. Nuclear Regulatory Commission (The Commission) is considering issuance of an amendment to Construction Permit CPPR–137 to Illinios Power Company, (the permittee) on behalf of itself and as agent for Soyland Power Cooperative, Inc. and Western Illinois Power Cooperative, Inc. for the Clinton Power Station Unit 1, located in DeWitt County, Illinois.

Environmental Assessment

Identification of Proposed Action

The NRC staff has prepared an Environmental Assessment dated April 15, 1985, supporting the proposed amendment of Construction Permit No. CPPR–137 for Clinton Power Station, Unit 1. The amendment would modify two conditions in section 3E (conditions 3E(1) and 3E(3)) of the Construction Permit (CP) and delete six conditions in section 3E (conditions 3E (2), (4), (5), (6), (7) and (8)) of the CP. The modifications and deletions update the CP to reflect changes related to environmental programs that have been approved by various agencies since the CP was originally granted, and to reflect the current policies of agencies responsible for the various aspects of environmental protection addressed by the CP.

Summary of Environmental Assessment

As described in the environmental Assessment the proposed wording change in paragraph 3E(1) would delete (1) the requirement for the permittee to conduct peroperational environmental monitoring programs; (2) the restrictions on the use of herbicides during the establishment and maintenance of transmission line rights-of-way; and (3) the requirement for additional monthly wather chemistry sampling in the preoperational phase.

Based on the assessments of the staff contained in an expedited review sent to the permittee on April 30, 1980 and in the FES–OL dated May 1982, the change in the requirements for preoperational monitoring that would result from the proposed rewording of paragraph 3E(1) of Construction Permit CPPR–137 will not result in any significant additional environmental impact. The staff concludes that the environmental impacts associated with construction of the station described in the FES–CP and FES–OL are not affected by the proposed rewording of paragraph 3E(1).

The wording change proposed for paragraph 3E(3) would make this requirement coincide with that of the Illinois Pollution Control Board (IPCB) as approved for Clinton Power Station Unit 1 on May 28, 1981. Based on the assessments by the staff in the FES–OL it is concluded that the proposed rewording of paragraph 3E(3) of Construction Permit CPPR–137 will not result in any additional environmental impact or result in environmental impacts not already considered. Additionally, the staff concludes that the environmental impacts associated with construction of the station as described in the FES–CP and FES–OL are not affected by the proposed rewording of paragraph 3E(3).

The proposed deletion of paragraph 3E(2) will not cause additional environmental impact, either as related to cooling lake or downstream Salt Creek water quality or as related to aquatic biota. The staff has assessed the likely environmental impact associated with the alternate thermal standards approved by the Illinois Pollution Control Board (IPCB).

The approval of the alternate thermal standards by the IPCB supercedes the specification of thermal limits and supplemental cooling by the NRC in paragraph 3E(2). Therefore the staff concludes that the environmental impacts associated with the construction and operation of the station as described in the FES–Cp and the FES–OL are not affected by the proposed deletion of paragraphs 3E(2).

The proposed deletion of paragraphs 3E(4), 3E(5), 3L(6), 3E(7), and 3E(8) are not likely to result in additional environmental impacts as a result of Clinton Power Station Unit 1 construction or operation because the provisions of these paragraphs remain as conditions to the Water Quality Certification pursuant ot section 401 of the Clean Water Act issued to Illinois Power Company on August 25, 1975 (FES–OL Section 1.2); these same requirements are included in Part IV.B of the National Pollutant Discharge Elimination System Permit No. IL–0036919, issued to Illinois Power Company for Clinton power Station on October 21, 1977. Water quality limitations and monitoring programs are under the jurisdiction of the U.S. Environmental Protection Agency.

Based on the above considerations regarding the permittee's NPDES permit, and the staff's assessments in the FES–OL, the Environmental Assessment concluded that the proposed deletion of paragraphs 3E(4) through 3E(8) of Construction Permit CPPR–137 will not result in any additional environmental impact nor will the environmental impacts associated with construction and operation for the station as described in the FES–CP and FES–OL be affected by the proposed deletions of these paragraphs.

Findings of No Significant Impact

The staff has reviewed the proposed amendment to Construction Permit CPPR–137. Based upon the environmental assessment, the staff has

concluded that there are no significant radiological or non-radiological impacts associated with the proposed action and that the proposed CP amendment will not have a significant effect on the quality of the human environment. Therefore, the Commission has determined, pursuant to 10 CFR 51.31, not to prepare an environmental impact statement for the proposed amendment.

For further details with respect to this action, see: (1) The application for amendment by Illinois Power Company by letters dated August 31, 1981, March 29, 1982, and August 22, 1984 and subsequently modified by letters dated October 29, 1984 and December 4, 1984. (2) the Final Environmental Statement for the Construction Permit (FES–CP) dated October 1974, (3) the Final Environmental Statement for the Operating License (FES–OL) dated May 1982, (4) the expedited staff review of monitoring inspectional programs dated April 30, 1980, and (5) the Environmental Assessment dated April 15, 1985.

These documents are available for public inspection at the Commission's Public Document Room 1717 H Street, NW., Washington, D.C. 20555 and at the Warner Vespasian Library, 120 West Johnson Street, Clinton, Illinois 61727.

Dated at Bethesda, Maryland, this 15th day of April 1985.

For the Nuclear Regulatory Commission.

Thomas M. Novak,

Assistant Director for Licensing, Division of Licensing, Office of Nuclear Reactor Regulation.

[Docket No. 50–387]

Pennsylvania Power and Light Co.; Consideration of Issuance of Amendment To Facility Operating License and Proposed No Significant Hazards Consideration Determination

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF–14 issued to Pennsylvania Power and Light Company (the licensee) for operation of the Susquehanna Steam Electric Station, Unit 1 located in Luzerne County, Pennsylvania.

The proposed amendment change to the Technical Specifications would permit Susquehanna SES refueling operations (fuel loading and unloading) to take place without using Fuel Loading Chambers (FLCs). This change would allow up to eight fuel assemblies to be loaded in order to attain the required Technical Specification count rate on the source range monitors (SRMs) without creating any safety concern. Another Technical Specification change currently before the NRC (proposed Amendment 43 to NPF–14) would reduce Unit 1's required count rate from 3.0 to 0.7 counts per second (cps) (Section 3.9.2 and Table 3.3.6–2), which will make Unit 1 Technical Specifications consistent with Unit 2.

During the Susquehanna SES Unit 1 end-of-cycle defueling the FLCs, which were being used to provide neutron monitoring, produced anomalous readings which were attributed to a detector saturation condition caused by the high gamma flux from the irradiated fuel. The FLCs are B–10 lined proportional detectors which are connected to the SRM circuitry, while the SRMs are miniature fission chambers. The B–10 lined detectors are prone to degraded and unpredictable response in a high gamma flux, whereas the SRMs are not as susceptible to the same phenomena. Furthermore, although the energy deposited by a gamma in a B–10 detector is less than that deposited by a neutron, in a large gamma flux a pulse "pile-up" condition occurs which results in several gammas being counted together thereby producing about the same signal as a neutron; and if the detector electronics are set to reduce the pulse pile-up effect, a reduction in neutron detection efficiency occurs. In comparison the energy deposited by a neutron in a fission chamber is much greater than that of a gamma, thus making the neutron counts easily distinguished from the gammas. Therefore the SRM circuitry can more easily discriminate the gamma flux and thus the SRMs provide a more reliable, well characterized signal than the FLCs in a high gamma environment (i.e., in the presence of irradiated nuclear fuel).

The licensee has stated that based on previous SRM response calculations one irradiated fuel assembly adjacent to a SRM should provide at least 0.7 cps, and two assemblies around a SRM would assure at least 0.7 cps. Therefore although the proposed Technical Specification changes will allow loading of up to eight fuel assemblies before requiring the necessary SRM counts, no loss of neutron monitoring capability is expected to occur.

In order to assure a safe subcritical condition during the loading of the first eight fuel assemblies the licensee performed calculations assuming maximum reactivity conditions (i.e., cold, clustered, uncontrolled, peak reactivity) which concluded that eight fuel assemblies, as analyzed, would remain subcritical. These calculations were bounding for all the fuel to be used during Susquehanna SES Unit 1 Cycle 2.

The licensee has stated that during a typical core reloading, two irradiated fuel assemblies will be loaded around each SRM to produce greater than the minimum required count rate. In addition the loading schemes will be selected to provide for a continuous multiplying medium to be established between the required operable SRMs and the location of the core alteration to enhance the ability of the SRMs to respond to the loading of each fuel assembly. During a core unloading, the last fuel to be removed is that fuel adjacent to the SRMs.

These revisions to the technical specifications would be made in response to the licensee's application for amendment dated April 9, 1985. Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

A review of the licensee's submittal dated April 9, 1985 in accordance with the standard of 10 CFR 50.92 provides sufficient information to conclude that the proposed amendment to allow up to eight fuel assemblies to be loaded to attain the requested Technical Specification count rate on the SRMs does not involve a significant hazards consideration. Based on the above safety assessment the Commission agrees with the licensee that the proposed Technical Specification change will result in improved safety because: the SRMs are more reliable in detecting neutrons than the FLCs in the presence of irradiated nuclear fuel; conservative analyses have shown that criticality is not a problem during the loading of the first eight fuel assemblies; and the risk of dropping loose objects into the reactor is reduced by eliminating the use of the FLCs. The proposed change does not involve a significant increase in the probability of consequences of a previously analyzed accident, does not create the possibility

of a new or different kind of accident from any accident previously evaluated, and does not significantly reduce a safety margin. Therefore, based on these considerations and the three criteria given above, the Commission has made a proposed determination that the amendment request involves no significant hazards consideration.

The Commission has determined that failure to act on this license amendment request in a timely way would result in extending the shutdown of the facility. In addition, the Commission finds that the licensee has adequately explained the reason for the exigency and why the licensee could not avoid it. Specifically the condition which prompted the requested Technical Specification change was first discovered by licensee in early March 1985, and the licensee's investigation and analysis to provide a basis for the proposed change was promptly completed and submitted. Therefore, because of this exigency and in order to avoid extending the shutdown of the facility, the Commission has insufficient time to issue its usual 30-day notice of the proposed action for public comment

If the proposed determination becomes final, an opportunity for a hearing will be published in the **Federal Register** at a later date and any hearing request will not delay the effective date of the amendment.

If the Commission decides in its final determination that the amendment does involve a significant hazards consideration, a notice of opportunity for a prior hearing will be published in the **Federal Register** and, if a hearing is granted, it will be held before any amendment is issued.

The Commission is seeking public comments on this proposed determination of no significant hazards consideration. Comments on the proposed determination may be telephoned to A. Schwencer, Chief of Licensing Branch No. 2, by collect call to 301–492–7435 or submitted in writing to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attn: Docketing and Service Branch. All comments received at least 15 days after the notice is published in the **Federal Register** will be considered in reaching a final determination. A copy of the application may be examined at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Osterhout Free Library, Reference Department, 71 South Franklin Street, Wilkes-Barre, Pennsylvania 18701.

Dated at Bethesda, Maryland, this 17th day of April 1985.

For the Nuclear Regulatory Commission

A. Schwencer,

Chief, Licensing Branch No. 2, Division of Licensing.

BILLING CODE 7590–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35–23663; 31–810]

Cuivre River Electric Cooperative, Inc., Application for Exemption Pursuant to Section 3(a)(1)

April 15, 1965.

Cuivre River Electric Cooperative, Inc., ("Cooperative"), P.O. Box 160, Troy, Missouri 63379, a Missouri rural electric distribution cooperative, has filed an application for exemption pursuant to section 3(a)(1) of the Public Utility Holding Company Act of 1935 ("Act").

Cooperative is incorporated under the Missouri Rural Electric Cooperative Act and is a non-profit rural electric cooperative, serving approximately 19,000 retail customers. Its operations are confined to Lincoln, Warren, Pike and St. Charles counties, all in Missouri. It is a REA financed cooperative designated, MISSOURI 57 Lincoln. It sells electric energy to its consumer members. It generates no power of its own, purchasing power from Central Electric Power Cooperative, Jefferson City, Missouri. It owns 100% of the stock in its subsidiary, Cuivre River Electric Service Company ("Service"). Service, a Missouri, corporation, is an "electric utility company" under section 2(a)(3) of the Act.

Missouri law limits the service area of rural electric cooperatives to communities having a population of less than 1500 persons. Cooperative constructed electric facilities in Lincoln, Warren, Pike, and St. Charles counties in Missouri which were annexed by municipalities that have populations in excess of 1500. Service was created as a wholly owned subsidiary of Cooperative to quality under Missouri law to serve Cooperative member in these annexed areas. Cooperative intends, subject to approval of the Missouri Public Service Commission, and the Rural Electrification Administration ("REA"), to transfer to Service facilities and members of Cooperative which are in the areas annexed by municipalities. Service will generate no power. Cooperative will be its sole power supplier. All of its sales will be made to consumers within the State of Missouri.

Cooperative states that the public interest does not demand its registration as a "holding company". Cooperative is owned by the several thousand consumer members of the rural electric cooperative. These consumer members elect from their own members those persons who serve on the Board of Directors of Cooperative. In turn the Board of Directors of Cooperative elect the persons who serve on the Board of Directors of Service. The election of directors, and the management of the affairs of the Cooperative and Service are effectively audited and regulated by REA. Cooperative has also requested that it not be required to make the annual filings required by 17 CFR 250.2.

The application and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by May 9, 1985, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant at the address specified above. Proof of service (by affidavit or, in case of attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application, as filed or as it may be amended, may be authorized.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Shirley E. Bollis,

Assistant Secretary

BILLING CODE 8010–01–M

[Release No. 35–23664; 70–7100]

Massachusetts Electric Co.; Notice of Proposed Increase in Authorized Short-Term Unsecured Indebtedness and Order Authorizing Solicitation of Proxies in Connection Therewith

April 15, 1985.

Massachusetts Electric Company ("Mass Electric"), 25 Research Drive, Westborough, Massachusetts 01582, an electric utility subsidiary company of New England Electric System, a registered holding company, has filed a declaration with this Commission pursuant to sections 6(a), 7, and 12(e) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 62 promulgated thereunder.

The terms of Mass Electric's Cumulative Preferred Stock, as set forth in the By-Laws, provide that, without the vote of the holders of a majority of said stock, the short-term unsecured indebtedness of the company shall not exceed 10% of total capitalization. At special meetings of the holders of the company's Cumulative Preferred Stock held on August 1, 1975, and August 1, 1980, the stockholders approved a proposal authorizing Mass Electric to incur short-term unsecured indebtedness not exceeding 20% of total capitalization. (See HCAR No. 19097 (July 29, 1975) and HCAR No. 21663 (July 22, 1980).) The most recent of these authorizations expires on July 31, 1985.

Mass Electric proposes to submit to its preferred stockholders at a special meeting scheduled to be held on June 27, 1985, a proposal to extend until July 31, 1992, its authority to issue short-term unsecured debt up to 20% of its total capitalization. The continuation of the 20% permitted amount of short-term unsecured debt requires the favorable vote at a meeting called for that purpose of a majority of the Cumulative Preferred Stock of all series now outstanding, voting as a single class. In connection therewith, Mass Electric proposes to solicit proxies from the holders of such stock. The favorable vote would renew the authorization for Mass Electric to issue short-term unsecured indebtedness in excess of the 10% limitation provided (i) such indebtedness shall be issued not later than July 31, 1982, (ii) such indebtedness shall have a maturity not later than July 31, 1993, and (iii) all unsecured indebtedness of the company not exceed 20% of total capitalization.

Mass Electric states that it is seeking this authorization to finance initially construction expenditures, estimated at $253 million for 1985–1989, and to be prepared for unforeseen events.

The declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by May 13, 1985, to the Secretary, Securities and exchange Commission, Washington, D.C. 20549, and serve a copy on the declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the declaration, as filed or as it may be amended, may be permitted to become effective.

It appearing to the Commission that the declaration, insofar as it relates to the proposed solicitation of proxies, should be permitted to become effective forthwith pursuant to Rule 62:

It is ordered that the declaration regarding the proposed solicitation of proxies be, and it hereby is, permitted to become effective forthwith pursuant to Rule 62 and subject to the terms and conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No 34-21947; SR-MSRB-85-4]

Self-Regulatory Organizations; Municipal Securities Rulemaking Board; Order Approving Rule Change

The Municipal Securities Rulemaking Board, ("MSRB") Suite 800, 1818 N. Street, NW., Washington, D.C. 20036–2491 on February 5, 1985 submitted copies of a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 and rule 19b–4 thereunder. This rule change is intended to indicate clearly that good delivery of a municipal security for which a notice of call applicable to the entire issue of securities has been published on or prior to the trade date has not been effected unless the security was identified as called at the time of trade.

At present, MSRB rules G–12 and G–15 provide that a delivery of a municipal security that has been called under an "in part" call published on or before the delivery date does not constitute good delivery if the certificate was not identified as called at the time of trade. The MSRB is of the view that a seller should not be allowed to deliver "called" securities in satisfaction of a contract if the bond's called status is not satisfied at the time of the trade. MSRB rules G–12 and G–15 at present provide that delivery of a municipal security subject to an "in whole" call notice (applicable to the entire issue) published on or prior to the delivery date is a good delivery. The MSRB believes that the risk of ownership passes to the purchaser as the time of trade, and thus the risk of an "in whole" called announced after the trade date but prior to delivery should be borne by the purchaser. The proposed rule change is designed to make clear, however, that where an "in whole" call for an issue of municipal securities has taken place on or before the trade date, the security must be identified as "called" at the time of the trade for there to be good delivery. A similar clarification is made in the parallel reclamation provisions of rule G–12(g).

Notice of the proposed rule change was given in Securities Exchange Act Release No. 21746, published in the **Federal Register** (50 FR 9923, March 12, 1985). No comments on the proposed rule change were received.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB, and in particular, the requirements of Section 15B and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority. 17 CFR 200.30–3(a)(12).

Shirley E.Hollis,

Assistant Secretary.

April 15, 1985.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petitions for Exemption or Waiver of Compliance

In accordance with 49 CFR 211.9 and 211.41, notice is hereby given that the Federal Railroad Administration has received requests for an exemption from or waiver of compliance with certain requirements of its safety standards. The individual petitions are described below, including the party seeking relief, the regulatory provisions involved, and the nature of the relief being requested.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate Docket Number (e.g., waiver petition Docket Number HS–85–2) and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street SW., Wahington, D.C. 20590. Communications received before June 4, 1985, will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) in Room 8201, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

The individual petitions seeking an exemption or waiver of compliance are is follows:

Petition for Exemption From the Hours of Service Act

Petitioners' name	Waiver petition docket No
Texas South-Eastern Railroad Company	HS-85-2
The Cape Cod and Hyannis Railroad, Inc	HS-85-3

Grand Trunk Western Railroad Company

Waiver Petition Docket Number RSOR–85–1

Blue Signal Protection for Workmen

The Grand Trunk Western Railroad Company (GT) has petitioned the FRA seeking relief from the requirements of 49 CFR § 218.29(c). Section 218.29(c), in part, requires a minimum of 150 feet distance to clear equipment for the installation of a derail mechanism. Because of the very constricted area of the two loading tracks at the reactivated General Motors Plant at Pontiac, Michigan, the GT cannot comply with this distance requirement, given the five car per track placement need. The GT believes that placement of the derails at a reduced distance of 50 feet from the protected equipment will provide the desired level of protection. Other factors that improve the level of protection at this location include: (1) the fact that the tracks are stub ended; (2) only one crew is working at any given time; and (3) operating speed is limited to five mph.

Issued in Washington, D.C. on April 8, 1985

Joseph W. Walsh,

Associate Administrator for Safety.

TENNESSEE VALLEY AUTHORITY

Meeting No. 1348

TIME AND DATE: 10:15 a.m. (EST), Tuesday, April 23, 1985.

PLACE: TVA West Tower Auditorium 400 West Summit Hill Drive, Knoxville, Tennessee.

STATUS: Open.

Agenda

Approval of minutes of meeting held on April 3, 1985.

Discussion Item

1. Progress report on the first-year implementation of the Valley-wide Existing Industries Program.

Action Items

Purchase Awards

B1. Proposal J3–716522—Conversion of lease contract with Control Data Corporation to a purchase contract for hardware and services.

B2. Proposal 56–942518—Total ash management program at Bull Run Fossil Plant.

C—Power Items

C1. Letter agreement with Department of Energy covering arrangements for satisfaction of obligations under construction power contract for the Clinch River Breeder Reactor project.

E—Real Property Transactions

E1. Sale of permanent sewerline easement to the Metropolitan Government of Nashville and Davidson County to accommodate the installation of 324 feet of a 15-inch sanitary sewerline affecting 0.2 acre of TVA's Cockrill Bend property located in Nashville, Tennessee—Tract No. XNTPSC–1S.

E2. Sale of permanent easement to the Georgia Department of Transportation to accommodate an extension of State Route 2A affecting 6.68 acres of the Oglethorppe 161-kV Substation spur track property located in Walker County, Georgia—Tract No. OPSS–6.

E3. Sale of permanent highway easement to the Kentucky Department of Transportation to accommodate a highway improvement project affecting a 0.28 acre portion of the Summer Shade 161-kV Substation site located in Metcalfe County, Kentucky—Tract No. XSSSS–1H.

E4. Grant of permanent easement to Bedford County, Tennessee, for the construction, operation, and maintenance of a highway and appurtenances affecting approximately 0.68 acre of land acquired for Normandy Reservoir downstream from the dam located in Bedford County, Tennessee—Tract No. XTNRMRD–1E.

E5. Grant of permanent easement to the State of Alabama for the construction, operation, and maintenance of a highway affecting approximately 0.4 acre of Wheeler Reservoir land in Limestone County, Alabama—Tract No. XTWR-93H.

E6. Proposed abandonment of certain rights affecting 0.10 acre of Chickamauga Reservoir land located in Rhea County, Tennessee—Tract No. XCR-170.

E7. Filing of condemnation cases.

F—Unclassified

F1. Supplement to Memorandum of Understanding No. TV-56700A with the State of Tennessee renewing the recognition of TVA as a water quality management agency as defined under the Clean Water Act.

CONTACT PERSON FOR MORE INFORMATION: Craven H. Crowell, Jr., Director of Information, or a member of his staff can respond to requests for information about this meeting. Call (615) 632-8000, Knoxville, Tennessee. Information is also available at TVA's Washington, Office, (202) 245-0101.

Dated: April 16, 1985.

W.F. Willis,

General Manager.

List of Libraries That Have Announced Availability of Federal Register and Code of Federal Regulations

LIST OF LIBRARIES THAT HAVE ANNOUNCED AVAILABILITY OF FEDERAL REGISTER AND CODE OF FEDERAL REGULATIONS

In order to better serve the public the Office of the Federal Register is publishing a list of libraries where the *Federal Register* and *Code of Federal Regulations* are available for examination free of charge. This list contains only those Government depository libraries and other libraries that specifically have chosen to be included. A complete listing of *Government Depository Libraries* is available without charge from The Library, U.S. Government Printing Office, 5236 Eisenhower Avenue, Alexandria, VA 22304.

The Office of the Federal Register's list will be updated annually unless public interest requires more frequent publication. Any library that maintains these publications, makes them available to the public, and wishes to be included on future lists should write to the Director of the Federal Register, National Archives and Records Service, GSA, Washington, DC 20408, or phone (202) 523–5227 giving the name and address of the library. (*FR only. †CFR only.)

Part III

Department of Labor

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions; Notice

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 5.1 (including the statutes listed at 36 FR 306 (1970) following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations Procedure for Predetermination of Wage Rates, 48 FR 19533 (1983) and of Secretary of Labor's Orders 9–83, 48 FR 35736 (1983), and 6–84, 49 FR 32473 (1984). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 5.1 (including the statutes listed at 36 FR 306 (1970) following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations Procedure for Predetermination of Wage Rates, 48 FR 19533 (1983) and of Secretary of Labor's Orders 6–84, 49 FR 32473 (1984). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Program Operations, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

Modifications to General Wage Determination Decisions

The numbers of the decisions being modified and their dates of publication in the **Federal Register** are listed with each State.

Supersedeas Decisions to General Wage Determination Decisions

The numbers of the decisions being superseded and their dates of publication in the **Federal Register** are listed with each State. Supersedeas decision numbers are in parentheses following the number of the decisions being superseded.

Delaware: DE82-3015 (DE85-3021)	June 4, 1982
Georgia: GA83-1002 (GA85-3022)	Jan. 21, 1983.

Signed at Washington, D.C., this 12th day of April 1985.

James L. Valin,

Assistant Administrator.

DECISION NO. AR84-4111
MOD # 1 (49 FR 50556-
December 28, 1984)
Sebastian, Crawford and
Washington Counties,
Arkansas

	Basic Hourly Rates	Fringe Benefits
CHANGE		
Sebastian & Crawford Counties		
POWER EQUIPMENT OPERATORS		
Group I	$14.55	$1.40
Group II	13.18	1.40
Group III	12.56	1.40
Group IV	10.34	1.40

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP I - Cranes, draglines, shovels and piledrivers with a lifting capacity of 50 tons or over, and operators of all towers, climbing cranes, and derricks required to work 25 feet or over from the ground, blacksmith, mechanics and/or welders

GROUP II - Hydraulic cranes, cherry pickers, backhoes and all derricks with a lifting capacity less than 50 tons, as specified by the manufacturers, all backhoes, tractor or truck type, all overhead and traveling cranes, or tractors with swinging boom attachments, gradalls, all above equipment irrespective of motive power, leverman (engineer), hydraulic or bucket dredges, irrespective of size

GROUP III - HEAVY EQUIPMENT OPERATORS: All bulldozers, all front end loaders, all sidebooms, skytracks, all push tractors, all pull scrapers, all motor graders, all trenching machines, regardless of size or motive power, all back fillers all central mixing plants, 10S and larger, finishing machines, all boiler firemen high or low pressure, all asphalt spreaders, hydro truck crane, multiple drum hoist, irrespective of motive power, all rotary, cable tool core drill or churn drill, water well and foundation drilling machines regardless of size, regardless of motive power and dredge tender operator

GROUP IV - LIGHT EQUIPMENT OPERATORS: Oilerdriver motor crane, single drum hoists, winches and air tuggers, irrespective of motive power, winch or A-frame trucks, forklifts, rollers of all types and pull tractors, regardless of size, elevator operators inside and outside when used for carrying workmen from floor to floorand handling building material. Lad-A-Vator, conveyor, batch plant, and mortar or concrete mixers, below 10S, end dump Euclid, pumpcrete, spray machine andpressure grout machine, air compressors, regardless of size, all equipment, welding machines light plants, pumps, all well point system de-watering and portable pumps, space heater, irrespective of size, and motive power, equipment greaser, oiler, asphalt distributor, and like equipment, safety boat operator and deckhand.

DECISION NO. CA84-5007 - MOD #9 (49 FR 21245 - May 18, 1984) Imperial, Inyo, Kern, etc., Counties, California	Basic Hourly Rates	Fringe Benefits

CLASSIFICATION DESCRIPTIONS

POWER EQUIPMENT OPERATORS (BUILDING CONSTRUCTION)

GROUP 1: All boom type equipment (100 ft. or less), all pan and carry-all operators, archer hoist, back and pull hoe operator, blast or rotary drill (track or cat mounted), boiler (when used for power, boom trucks, cableway operator, concrete paver machine, crane operator, derrick operator, dragline, elevating grader (self-propelled), head tower operator, hot roller (finish course), hydraulic booms, hydro crane, maintenance engineer, mucking machine operator, multiple drum hoist (more than 1 drum in use), Peine crane, pile driving machine operator, power grader machine operator, scoopmobile, shovel operator, skimmer operator, test core drill machine, tractor shovel operator, vertical caisson auger drill, well drilling machine.

GROUP 2: Back filing machine operator, Kolman loader, roller machine operator, snatch and pusher cats, stone crusher, towed or self-propelled rollers, trenching machine operator.

GROUP 3: Air hoist operator, cage hoist operator, conveyor operator, conveyor system (belt-crete or similar), hoisting engine operator, house elevator (when used for hoisting), industrial tractor, locomotive operator (irrespective of power), push button hoist operator, Strato tower, tractors (when using winch power).

GROUP 4: Concrete mixer operator (½ c.y. or over), gasoline driven boring machine, hydraulic system pumps, hydro hammer, finishing machine operator (asphalt spreader), finishing machine operator, bulldozer (over 50 h.p.), monorail.

DECISION NO. NY84-3019 -
MOD. #1 (CONT'D)

CLASS B: Air hoist, asphalt curb and gutter machines, automatic fine grade machine (CMI and similar type) (second operator), backhoe and pullhoe (tractor mounted, rubber-tired), back filling machine, bending machine (pipe), bituminous spreader and mixer, blacktop plant (non-automated), blower for burning brush, boiler (when used for power), boom truck, boring machine, cage hoist, cherry picker (5 tons and under), chipping machine and chip spreader, concrete curb and gutter machine, concrete curing machine, concrete mixer (over ½ cu. yd.), concrete pavement spreader and finishers, concrete paver, concrete pump, conveyor, core drill, crusher, drill rig (tractor mounted), electric pump used in conjunction with well point systems, elevator, farm tractor with accessories, fine grade machine, forklift, grout or gunite machine, hoist (one drum), hoisting engine, hydraulic hammer (self-propelled), hydraulic pipe jack machine (or similar type machine), hydraulic rock expander (or similar type machine), Hydraulic system pumps, hydro hammer (or similar type), industrial tractor, jersey spreader, Kolman plant loader (and similar type loaders), locomotive, mixer for stabilized base (self-propelled), monorail, mortorized hydraulic pin puller, motorized hydraulic seeder, mulching machine, plant engineer, pneumatic mixer, post hole digger and post driver, pump crete, push button hoist, road widener, rock bit sharpener (all types), roller (all above sub-grade), roller (grade and fill), rolling machine (pipe), side boom, slip form paver (CMI and similar type) (second operator), snorkel, srato-tower, stump chipping machine, towed roller, tractor with towed accessories, tractors (using winch power), trencher, tube finisher (CMI and similar type) vibratory compactor, vibro tamp, well drilling machine, well point, winch, winch truck with A frame.

CLASS C: Aggregate bin, aggregate plant, boiler (used in conjunction with production, cement bin, concrete mixer (½ cu. yd. and under), concrete saw (self-propelled), fireman, form tamper, fuel truck, heating boiler (used for temporary heat), jeep trencher, power broom, Revinius Widener, steam cleaner, tractor.

CLASS D: Compressors (4 or less), helper on lubrication unit or truck, power heaterman, power plant in excess of 10 K.W., pump (4" or over), welding machine (1 machine over 300 amps or 2 or 3 machines regardless of amps).

CLASS E: Crane with boom over 100 ft.

CLASS F: Crane with boom over 200 ft.

CLASS G: Crane with boom over 300 ft.

DECISION NO. NY84-3018 -
MOD. #1 (CONT'D)

GROUP 5: Grout machine operator, heating boiler operator (used for temporary heat), lubrication units on truck, pneumatic mixer operator.

GROUP 6: Bulldozer & tractor (50 h.p., drawbar or under), jeep trencher, mulchers, power brooms and rakes, seeders.

GROUP 7: Aggregate bin operator, cement bin operator, concrete mixer operator (under ½ c.y.), tractor machines.

GROUP 8: Pump operator (4" or over), pump operator (2-3 in a battery).

GROUP 9: Air compressor operator, generator, mechanical heater (when 3 are in a battery), power plant (in excess of 10KW), welding machine operator (to and including 3 machines).

GROUP 10: Fireman.

GROUP 11: Truck crane driver.

GROUP 12: Oiler, mechanical heaters (when 1 or 2 are used), pump operators (one inch), pump operators (2 inches), pump operators (3 inches).

GROUP 13: Crane with boom over 100 feet.

GROUP 14: Crane with boom over 200 feet.

GROUP 15: Crane with boom over 300 feet.

POWER EQUIPMENT OPERATORS (HEAVY & HIGHWAY CONSTRUCTION)

CLASS A: All boom type equipment, all pans and carry-alls, asphalt roller, asphalt spreader or paver, automatic fine grade machine, (CMI and similar type), backhoe and pullhoe, belt palcer (CMI and similar type), black top plant (automated), blast or rotary drill (truck or track mounted), bull-dozer, cableway, caisson auger, central mix plant (and all concrete batching plants), cherry picker (over 5 tons capacity), crane, derrick, dragline, dredge, dual drum paver, elevating grader (self-propelled or towed), excavator (all purpose, hydraulically operated), front end loader, gradall, grader, head tower, hydraulic boom, hydro crane, maintenance engineer, maintenance lubrication unit or truck, mine hoist, mucking machine, multiple drum hoist (more than 1 drum in use), overhead crane, Paine crane (or similar type), pile driver, push or snatch cat, quarry master or equivalent, scoopmoble, shovel, skimmer, slip form paver (CMI and similar type), tire truck & repair, tractor drawn belt-type grader/loader, tractor shovel, truck crane, tunnel shovel.

LABORERS - CLASSIFICATION DEFINITIONS
BUILDING CONSTRUCTION

CLASS 1 - Laborers, general and construction, dumpmen and truck spotters

CLASS 2 - Caulkers; operators of pneumatic and electric tools; vibrating machines; concrete saws and pumps (which shall include the hook-up of hose and/or pipe); pot tenders; and sewer pipe layers; demolition (where walls are required to be ridden down by hand tools). Driller (except Core, Diamond, or Multiple Wagon); Gunite material and rebound workers; mason and plasterer tenders; and cement workers; mobile buggy operators; operators of power saws (portable) power and sewing machines; scaffold builders, shoring; hookup men; including when working with digging and grading equipment; stripping of flat arch and form work; and cleaning and oiling thereof, and tool room attendant

CLASS 3 - Burners and welders; caisson workers, top men (when excavations for caissons are dug eight feet or more below the nature grade level adjacent to the starting point of the caisson hole, the rate shall apply at the ground level); driller (core, diamond, or multiple wagon); gunite industrial fume stack, nozzle, and rod workers; sandblaster (nozzleman): tunnelling - Underpinning excavation (when an underpinning excavation is dug eight feet or more below the natural grade, or when an excavation for a pier hole of five feet square or less and eight feet or more deep is dug, the rate shall apply only when a depth of eight feet is reached): working under compressed air

CLASS 4 - Caisson workers, bottom men

CLASS 5 - Blaster; laborers engaged in unloading, placing, and assisting in the installation of well point systems or deep well systems as long as needed on the job for such work

POWER EQUIPMENT OPERATORS
CLASSIFICATIONS

GROUP 1 - Machines with booms doing hook work, any machine handling machinery, cable spinning machines, helicopter and similar machines

GROUP 2 - All types of cranes, all types of backhoes, cableway, draglines, keystones, all types of shovels, derricks, trench shovels, trenching machines, hoists with 2 towers, pavers 21½ and over, all types overhead cranes, building hoists (double drum), gradalls, mucking machines, in tunnel, all front end loaders 3-¼ c.y., and over, tandem scrapers, pipin type backhoes, boat captains, batch plant operators (concrete), drills, self contained rotary drill, fork lifts (20' lift & over), and similar machines

GROUP 3 - Conveyors, building hoist (single drum), scrapers, tournapulls, spreaders (asphalt), high or low pressure boilers, concrete pumps, well drillers, bulldozers, tractors, asphalt plant engineers, rollers (high grade finishing), ditch witch type trenchers, all loaders under 3¼ c.y., mechanic-welders, motorpatrols, core drill operator, forklift trucks under 20' lift, similar machines

GROUP 4 - Welding machines, well points, compressors, pumps, heaters, farm tractors, form line graders, fine grade machines, road finishing machines, concrete breaking machines, rollers, seaman pulverizing mixer, power boom, seeding spreader, tireman (for power equipment), and similar machines

GROUP 5 - Fireman, grease trucks

GROUP 6 - Oilers and deck hands (personnel boats), core drill helper

CLASSIFICATION DEFINITIONS
TRUCK DRIVERS

GROUP 1 - Euclid type or similar off highway equipment (where not self loaded), off highway tandem back-dump, specialized earth moving equipment, truck mechanic (first class), twin engine equipment & double-hitched equipment (where not self-loaded).

GROUP 2 - A-frames, agitators or mixers, asphalt distributors, dispatchers, low-boys, semi-trailers, tandems, batch trucks & truck mechanics (second class).

GROUP 3 - Dumps (single axle), dumpsters, escort & pilot vehicles, flat body material trucks (straight job), greasers, material checkers & receivers, panel trucks, pick-ups rubber-tired (towing & pushing vehicles), tiremen & truck mechanic helpers, truck helpers.

CLASSIFICATION DEFINITIONS
TRUCK DRIVERS
HEAVY CONSTRUCTION

GROUP 1 - Euclid type or similar off highway equipment (where not self loaded), specialized earth moving equipment, truck mechanics (first class), twin engine equipment & double-hitched equipment (where not self-loaded.)

GROUP 2 - A-frames, agitators or mixers, asphalt distributors, dispatchers, low-boys, semi-trailers, tandems, batch trucks, truck mechanics (second class).

GROUP 3 - Dump trucks (single axle), dumpsters, escort & pilot vehicles, flat body material trucks (straight jobs), greasers, material checkers & receivers, panel trucks, pick-ups, rubber-tired (towing or pushing flat body vehicles), tiremen, truck mechanic helpers, truck helpers.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Paid Holidays: Good Friday, Memorial Day, Washington's Birthday, Labor Day, Presidential Election Day; Veteran's Day, Thanksgiving Day; Christmas Day.

b. Employer contribution of 8% of the basic hourly rate for 5 years or more of service and 5% of the basic hourly rate for 6 months to 5 years of service for Vacation Pay Credit.

c. Paid Holidays: A through F

d. Paid Holidays: New Year's Day; Declaration Day; Independence Day; Labor Day; Thanksgiving Day; Christmas Day and Good Friday.

FOOTNOTES: Cont'd

e. Paid Holidays: Washington's Birthday; Good Friday; Memorial Day; Independence Day; Presidential Election Day; Veterans Day; and Thanksgiving Day.

f. Paid Holiday: Labor Day provided the employee is currently on the payroll and would be scheduled to work the holiday also employee must work the day prior to and after the holiday.

g. Paid Holidays: A through F; provided the employee worked the scheduled work day preceeding and following the holiday.

h. Paid Holidays: A through F; plus Election Day provided the employee works the scheduled work day before and after the holiday.

j. Paid Holiday: Election Day.

k. Paid Holidays: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day and Christmas Day provided the employee has worked the scheduled workdays preceding and following the holiday.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR 5.5 (a)(1)(ii)).

WELDERS - Receive rate prescribed for craft performing operations to which welding is incidental.

Part IV

Department of Transportation

Federal Aviation Administration

14 CFR Part 65

Issuance and Renewal of Inspection Authorization; Final Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 65

[Docket No. 24233; Amdt. No. 65–30]

Issuance and Renewal of Inspection Authorization

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment permits persons who have had their mechanic certificates or ratings suspended to be eligible for issuance or renewal of inspection authorizations (IA's) if their mechanic certificates or ratings have been reinstated. This amendment will remove a requirement that is unnecessary as a means of ensuring that only responsible persons exercise IA privileges.

EFFECTIVE DATE: April 19, 1985.

FOR FURTHER INFORMATION CONTACT: Leo Weston, General Aviation and Commercial Branch, AWS–340, Aircraft Maintenance Division, Office of Airworthiness, Federal Aviation Administration, 800 Independence Ave., SW., Washington, D.C. 20591, Telephone (202) 426–8205.

SUPPLEMENTARY INFORMATION:

Background

Section 65.93 of the Federal Aviation Regulations (FAR) provides that to be eligible for the renewal of an IA an applicant must present evidence that, among other things, he or she still meets the requirements of § 65.91(c) (1) through (4) for the original issuance of an IA. Before Amendment 65–22 (42 FR 46278; September 15, 1977), § 65.91(c)(1) provided that to be eligible for an IA, an applicant has to be "a certificated mechanic who has held both an airframe and a powerplant rating for at least 3 years before the date he applies." Amendment 65–22 revised paragraph (c)(1) to require that the applicant hold "a currently effective mechanic certificate with both an airframe rating and a powerplant rating, each of which is currently effective *and has been continuously in effect* for not less than the 3-year period immediately before the date of application." (Emphasis added.)

When renewal was sought under the old rule, the holder of an IA whose mechanic certificate or rating was suspended could still be said to have "held" that certificate during the time of suspension. However, the certificate could not be said to be "in effect" while it was suspended. Accordingly, after Amendment 65–22, the IA could not be renewed at the end of the year because at renewal time (authorization expires on March 31) the mechanic certificate or rating would not have been continuously in effect during the preceding 3 years. Therefore, the mechanic would not be eligible again for an IA until 3 years after the end of the suspension of the mechanic certificate. Moreover, because the eligibility requirements for issuance of a certificate are considered to be continuing requirements which must be met as long as certificate is held, an IA does not "become effective" again under § 65.91 at the end of the suspension of the mechanic certificate.

At the time Amendment 65–22 was adopted, the FAA was aware that adding the words "continuously in effect" to § 65.91(c)(1) would have this result. It was considered appropriate because the privileges and responsibilities that a person is charged with while holding the IA are greater than those of a certificated mechanic. Under § 65.95, the holder of an IA may inspect and approve for return to service certain aircraft or related parts or appliances after a major repair or major alteration to it in accordance with Part 43 of the FAR and perform annual and progressive inspections. Although a mechanic is authorized to perform much of the associated maintenance work underlying these functions, the IA holder is ultimately responsible for ensuring that the work is done in accordance with the FAR.

This 3-year-long period of ineligibility, however, has had an unintended inhibiting effect on the FAA's enforcement program. Amendment 65–22 has had a significant impact on the action taken against a mechanic for relatively minor to moderate violations. As a result of Amendment 65–22, a short-term suspension of a certificate or rating for a relatively minor offense effectively revokes an IA for a period of 3 years. Further, this creates the unusual situation where an action for revocation of an IA could have less of an impact on the mechanic involved than a 5-day suspension of a single rating on his or her mechanic certificate. (In most cases, a mechanic whose IA has been revoked may reapply after 1 year.) Not every action that warrants the suspension of a mechanic certificate evidences a lack of responsibility sufficient to justify such a long-term ineligibility for an IA. As a result, enforcement personnel have been reluctant in some cases to produce such results.

In attempting to resolve this problem, the FAA has reviewed the requirement of § 65.91(c)(1) and has determined that it is unnecessary as a means of ensuring that only responsible persons continue to exercise IA privileges. First, the suspension or revocation of a mechanic certificate or rating does result in loss of IA privileges. Section 65.92(a) provides that the holder of an IA may exercise the privileges of that authorization only while he or she holds a currently effective mechanic certificate with both a currently effective airframe rating and a currently effective powerplant rating. In addition, the cause that gave rise to suspension of the IA holder's mechanic certificate or rating may also warrant suspension of an IA for a longer period of time and may even justify revocation of the IA. Revocation of the IA may be justified when the person's actions evidence a lack of responsibility indicating that the mechanic should not be allowed to exercise the inspection and other privileges prescribed by § 65.95. Also, section 609 of the Federal Aviation Act of 1958, as amended (FAAct), provides that the FAA may reexamine any civil airman, including the holder of an IA. The FAA may reexamine, for instance, when there is reason to believe that the holder of an IA may not be qualified to exercise his or her privileges. If, as a result of this reexamination, the FAA determines that safety in air commerce or air transportation and the public interest require, the FAA may issue an order suspending or revoking the IA. Thus, the cause that gave rise to the suspension of the IA holder's mechanic certificate may also warrant reexamination to determine his or her qualification to hold an IA. The results of this reexamination may warrant suspending or revoking the IA.

Discussion of the Comments

Interested persons were afforded the opportunity to participate in the making of this amendment by Notice 84–16 (49 FR 35652; September 11, 1984). Due consideration has been given to all comments presented in response to this notice.

Sixteen of the 19 public comments received are favorable. Many of these favorable commenters agree that the proposal would reduce an unfair penalty imposed on any IA holder who has had his or her mechanic certificate or rating temporarily suspended by removing the requirement that the certificate and ratings be continuously in effect for 3 years at the time of the IA renewal.

Three commenters who are not in favor of this notice state that any time a certificated mechanic holding an IA has violated the regulations to such an extent as to cause a suspension of the mechanic certificate, that suspension

should also affect his or her IA privileges. Two of these commenters state that a mechanic having his or her certificate or a rating suspended should have to prove his or her competency again to the satisfaction of the Administrator.

The FAA agrees, in part, with the above commenters that there are enforcement cases where suspensions or revocations of IA's or reexaminations of IA holders may be necessary. Under the authority of Section 609 of the FAAct, the FAA may reexamine an airman, including an IA. Therefore, when there is a question of an IA holder's qualification to exercise the privileges of the authorization, the FAA may reexamine the airman. Based on this reexamination or any other investigation, the FAA may suspend or revoke the airman's IA. The FAA has determined that its continued ability to suspend or revoke an IA or to reexamine an IA holder, when circumstances warrant, provides adequate protection against unqualified persons exercising IA privileges, without imposing an undue burden on mechanics for minor violations.

One commenter states that this NPRM is a timely response by the FAA to an unintended result of the rulemaking process and that it will relieve a significant burden to both individual certificate holders and the Administrator's enforcement personnel without derogation in air safety.

A professional organization states that the present regulations pose an unnecessary secondary penalty on any holder of an IA who is punished for a slight infraction of the regulations by suspension of either or both of the airframe and powerplant ratings. The organization believes that the public interest will not be compromised and that the economic impact will be positive because a highly trained individual will be returned to the wage-earning rolls more quickly.

Accordingly, the FAA is amending § 65.91 to return to the requirements which existed prior to Amendment 65–22 and is clarifying these requirements to provide that an otherwise eligible applicant need only hold a currently effective mechanic certificate with both an airframe rating and a powerplant rating which have been in effect for a total of at least 3 years. This revision will remove any inequity associated with the renewal process and will provide more flexible and fair enforcement program for IA holders, without derogation of the original certification standards.

Regulatory Assessment

This rule will relax an unnecessary requirement for original issuance or renewal of an IA. It also will eliminate a double penalty currently imposed on any IA holder who, as a result of a suspension, becomes ineligible for renewal solely because his or her mechanic certificate or ratings were not continuously in effect during the 3-year period preceding the annual IA renewal.

This rule will not impose any costs, other than the cost of publishing the rule. Benefits of the proposed rule will accrue from the elimination of income loss due to an individual's not being permitted to renew an IA for 3 years from the date of a suspension. The actual benefits will be inconsequential because, once the full impact of the current rule was fully realized, the FAA imposed few suspensions on IA holders. Thus, very few IA holders actually will be affected by this rule. Comments to the NPRM did not disclose any data or facts to contradict this position. In light of the lack of costs and benefits, the FAA finds that a regulatory evaluation is not warranted.

Trade Impact Assessment

This rule will have no impact on trade opportunities for either U.S. firms doing business overseas or foreign firms doing business in the United States.

Regulatory Flexibility Determination

The Regulatory Flexibility Act of 1980 (RFA) was enacted by Congress in order to ensure, among other things, that small entities are not disproportionately affected by Government regulations. The RFA requires agencies to review rules which may have "a significant economic impact on a substantial number of small entities."

This amendment will relax requirements for issuance and renewal of an IA and will impose no additional burden. Further, the number of persons who would be unable to renew their IA's if the current rule is not changed is minimal compared with the total number of IA holders.

The FAA finds that this rule will not have a significant economic impact, either beneficial or detrimental, on a substantial number of small entities. Therefore, a regulatory flexibility determination is not required.

Need for Immediate Adoption

This amendment will provide immediate relief and reduce a regulatory burden on persons who have had their mechanic certificates or ratings suspended by permitting them to be eligible for issuance or renewal of their IA's provided their mechanic certificate or ratings have been reinstated.

Immediate adoption will permit persons who have had their mechanic certificates or ratings suspended since the last IA renewal date (March 31) to be eligible again on the following year's renewal date provided they meet all of the requirements of §§ 65.91, 65.92, and 65.93 of the FAR.

This amendment will also permit persons who had previously become ineligible for a 3-year period, because of suspension of their mechanic certificates or ratings, to immediately become eligible for issuance of IA's provided that their mechanic certificates or ratings have been reinstated and they meet the requirements of § 65.91 of the FAR.

Finally, adoption of this amendment will not impose any burden on persons affected. Therefore, for these reasons, I find that good cause exists for making this amendment effective in fewer than 30 days.

Conclusion

This amendment will relax the requirements for initial issuance and renewal of an inspection authorization and thus will not impose an additional burden on any person. Accordingly, it has been determined that this action is not a major rule under Executive Order 12291, and it is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). For these reasons and because the number of persons who would be unable to renew their IA's if the current rule is not changed is minimal in comparison to the total number of IA holders, I certify that under the criteria of the Regulatory Flexibility Act, this proposal will not have a significant economic impact, positive or negative, on a substantial number of small entities. In addition, the FAA has determined that the expected economic impact of this proposal is so minimal that a full regulatory evaluation is not required.

List of Subjects in 14 CFR Part 65

Airmen other than flight crewmembers, Inspection authorization, Mechanic certification, Aircraft, Aviation safety.

Adoption of the Amendment

Accordingly, § 65.91 of the Federal Aviation Regulations (14 CFR 65.91) is amended as follows, effective April 19, 1985.

PART 56—CERTIFICATION: AIRMEN OTHER THAN FLIGHT CREWMEMBERS

By revising § 65.91(c)(1) to read as follows:

§ 65.91 Inspection authorization.

* * * * *

(c) * * *

(1) Hold a currently effective mechanic certificate with both an airframe rating and a powerplant rating, each of which is currently effective and has been in effect for a total of at least 3 years;

* * * * *

(Secs. 313(a), 314(a), 601, 602, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1355(a), 1421, 1422, and 1423); 49 U.S.C. 106(g) (Revised, Pub. L. 97-499, January 12, 1983))

Issued in Washington, D.C., on April 1, 1985.

Donald D. Engen,

Administrator.

Part V

General Services Administration

Changes to Federal Travel Regulations; Notice

GENERAL SERVICES ADMINISTRATION

[GSA Bulletin FPMR A–40, Supp. 14]

Changes to Federal Travel Regulations

AGENCY: Office of Federal Supply and Services, GSA.

ACTION: Notice of changes to Federal Travel Regulations (FTR).

SUMMARY: GSA has issued GSA Bulletin FPMR A–40, Supplement 14, to transmit a change to the Federal Travel Regulations (FTR), FPMR 101–7, implementing new provisions authorizing payment of a relocation income tax (RIT) allowance for reimbursement of additional Federal, State, and local income taxes incurred by transferred Federal employees as a result of certain relocation expense reimbursements.

EFFECTIVE DATE: The new provisions transmitted by Supplement 14 are effective for transferred employees whose effective date of transfer is on or after November 14, 1983, or on or after October 12, 1984, for certain specified provisions. The effective date of transfer means the date on which the employee reports for duty at the new official station.

FOR FURTHER INFORMATION CONTACT: Staff members, Travel and Transportation Regulations Division (FTA), Office of Transportation, (703) 557–1253 and 557–1256 or FTS 557–1253 and 557–1256.

SUPPLEMENTARY INFORMATION: The General Services Administration (GSA) has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and consequences of, this rule; has determined that the potential benefits to society from this rule outweigh the potential costs and has maximized the net benefits; and has chosen the alternative approach involving the least net cost to society.

Authority

1. Section 118 of Pub. L. 98–151 (97 Stat. 977), November 14, 1983, amended the statutory authority for the Federal employee relocation allowances contained in subchapter II of chapter 57, title 5, United States Code by adding new section 5724b authorizing reimbursement of "all or part" of the additional Federal, State, and "city" income taxes incurred by a transferred employee as a result of reimbursement for certain defined moving expenses.

2. Section 120 of Pub. L. 98–473 (98 Stat. 1968), October 12, 1984, amended the authority in 5 U.S.C. 5724b for the relocation income tax (RIT) allowance to (1) authorize reimbursement of "substantially all" (rather than all or part) of the additional Federal, State, and "local" (rather than only city) income taxes and (2) redefine the types of moving expenses covered by section 5724b to specifically include relocation services under 5 U.S.C. 5724c and to exclude expenses for nontemporary storage of household goods.

3. By Executive Order No. 12466, February 27, 1984, which amended Executive Order No. 11609, July 22, 1971, the President delegated authority to the Administrator of General Services to, among other things, prescribe regulations, in consultation with the Secretary of the Treasury, to implement 5 U.S.C. 5724b relating to reimbursement of additional income taxes incurred by transferred employees resulting from reimbursement for relocation expenses.

Guidelines to Agencies

1. The provisions of Part 11 to Chapter 2, FTR, give the agency the discretion to determine whether the actual calculation of the new allowance should be done by the employee or by an appropriate official. However, agencies are encouraged, at least during the initial implementation period, to either calculate the allowance for employees based on employee furnished information or provide as much assistance to employees as may be necessary to expedite payments or preclude erroneous claims.

2. Agencies should insure that employees understand that the statutory authority (Public Laws 98–151 and 98–473) for the RIT allowance as prescribed in the attached FTR change did not make changes to the Internal Revenue Code or State or local tax codes. Consequently, the authority for reimbursement of additional income taxes incurred as a result of moving expense reimbursements shall not be construed as changing or limiting the employee's income tax obligations in any way or as authorizing a refund of these taxes when filing a return with the IRS or other recognized tax authority. The RIT allowance must be claimed and paid on the SF 1012 (Travel Voucher) or other authorized travel voucher form, the same as other moving expense allowances.

Explanation of Changes

The attachment to GSA Bulletin FPMR A–40, Supplement 14, amends the FTR by adding Part 11 to Chapter 2, implementing policies and procedures for payment of a relocation income tax (RIT) allowance. Supplement 14 also transmits a change to Part 12, Chapter 2 (paragraph 2–12.7) by deleting the exclusion of certain payments to relocation companies from coverage by the RIT allowance.

Accordingly, the Federal Travel Regulations (FTR) are amended as follows:

CHAPTER 2—RELOCATION ALLOWANCES

1. **Authority:** (Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c)); 5 U.S.C. 5707; Executive Order No. 11609, July 22, 1971 and No. 12466, February 27, 1984.)

2. Chapter 2 of the FTR is amended by adding Part 11 to read as follows:

PART 11—RELOCATION INCOME TAX (RIT) ALLOWANCE

2–11.1. Authority.

Payment of a relocation income tax (RIT) allowance is authorized to reimburse eligible transferred employees for substantially all of the additional Federal, State, and local income taxes incurred by the employee, or by the employee and spouse if a joint tax return is filed, as a result of certain travel and transportation expenses and relocation allowances which are furnished in kind, or for which reimbursement or an allowance is provided by the Government (5 U.S.C 5724b, as amended). The RIT allowance shall be calculated and paid as provided in this Part 11.

2–11.2. Coverage.

a. *Eligible employees.* Payment of a RIT allowance is authorized for employees transferred on or after November 14, 1983, in the interest of the Government from one official station to another for permanent duty. The effective date of an employee's transfer is the date the employee reports for duty at the new official station as provided in paragraph 2–1.4j.

b. *Individuals not covered.* The provisions of this Part 11 are not applicable to the following individuals or employees:

(1) New appointees as defined in 2–1.5e, including those covered under 2–1.5f (i.e., new appointees to shortage category or Senior Executive Service positions, and new Presidential appointees) and 2–1.5g(2) (i.e., new appointees to overseas posts of duty);

(2) Employees assigned under the Government Employees Training Act (see 5 U.S.C. 4109); or

(3) Employees returning from overseas assignments for the purpose of separation.

2–11.3. Types of moving expenses or allowances covered and general limitations.

The RIT allowance is by law limited as to the types of moving expenses that can be covered. The law authorizes reimbursement of additional income taxes resulting from certain moving expenses furnished in kind or for which reimbursement or an allowance is provided to the transferred employee by the Government. However, such moving expenses are covered by the RIT allowance only to the extent that they are (1) actually paid or incurred, and (2) are not allowable as a moving expense deduction for tax purposes. The types of expenses or allowances listed in a through i, below, are covered by the RIT allowance within the limitations discussed.

a. *En route travel.* Travel (including per diem) and transportation expenses of the transferred employee and immediate family for en route travel from the old official station to the new official station. (See FTR Part 2–2.)

b. *Household goods shipment.* Transportation (including temporary storage) expenses for movement of household goods from the old official station to the new official station. (See FTR Part 2–8.)

c. *Nontemporary storage expenses.* Allowable expenses for nontemporary storage of household goods belonging to an employee transferred on or after November 14, 1983, through October 11, 1984, to an isolated location in the conterminous United States. (See FTR 2–9.1.) Nontemporary storage expenses are not covered by the RIT allowance for transfers on or after October 12, 1984. (See 2–11.4c).

d. *Mobile home movement.* Expenses for the movement of a mobile home for use as a residence when movement is authorized instead of shipment and temporary storage of household goods. (See FTR Part 2–7.)

e. *Househunting trip.* Travel (including per diem) and transportation expenses of the employee and spouse for one round-trip to the new official station to seek permanent residence quarters. (See FTR Part 2–4.)

f. *Temporary quarters.* Subsistence expenses of the employee and immediate family during occupancy of temporary quarters. (See FTR Part 2–5.)

g. *Real estate expenses.* Allowable expenses for the sale of the residence (or expenses of settlement of an unexpired lease) at the old official station and for purchase of a home at the new official station for which reimbursement is received by the employee. (See FTR Part 2–6.)

h. *Miscellaneous expense allowance.* A miscellaneous expense allowance for the purpose of defraying certain expenses associated with discontinuing a residence at one location and establishing a residence at the new location in connection with an authorized or approved permanent change of station. (See FTR Part 2–3.)

i. *Relocation services.* Payments, or portions thereof, made to a relocation service company for services provided to a transferred employee (see FTR Part 2–12), subject to the conditions stated below and within the general limitations of this paragraph applicable to other covered expenses.

(1) *For employees transferred on or after November 14, 1983, through October 11, 1984.* The amount of a broker's fee or real estate commission or other real estate sales transaction expenses which normally are reimbursable to the employee under 2–6.2 but have been paid by a relocation service company incident to an assigned sale from the employee, provided that such payments constitute income to the employee. For the purposes of this regulation, an assigned sale occurs when an employee obtains a binding agreement for the sale of his/her residence and assigns the inherent rights and obligations of that agreement to a relocation company that is providing services under contract with the employing agency. For example, if the employee incurs an obligation to pay a specified broker's fee or real estate commission under the terms of the sales agreement, this obligation along with the sales agreement is assigned to the relocation company and may, upon payment of the obligation by the relocation company, constitute income to the employee. (See 2–12.7 entitled "Income tax consequences of using relocation companies.")

(2) *For employees transferred on or after October 12, 1984.* Expenses paid by a relocation company providing relocation services to the transferred employee pursuant to a contract with the employing agency to the extent such payments constitute income to the employee. (See 2–12.7.)

Note.—See FTR reference shown in parentheses for reimbursement provisions for each allowance listed in a through i, above. See Section 217 of the Internal Revenue Code (IRC) and Internal Revenue Service (IRS) Publication 521 entitled "Moving Expenses" and appropriate State and local tax authority publications for additional information on the taxability of moving expense reimbursements and the allowable tax deductions for moving expenses.

2–11.4. Exclusions from coverage.

The provisions of this Part 11 are not applicable to the following:

a. Any tax liability that may result from payments by the Government to relocation companies on behalf of employees transferred on or after November 14, 1983, through October 11, 1984, other than the payments for those expenses specified in 2–11.3i(1).

b. Any tax liability incurred for local income taxes other than city income tax as a result of moving expense reimbursements for employees transferred on or after November 14, 1983, through October 11, 1984. (See definition in 2–11.5b.)

c. Any tax liability resulting from reimbursed expenses for any nontemporary storage of household goods except as specifically provided for in 2–11.3c.

d. Any tax liability resulting from paid or reimbursed expenses for shipment of a privately owned automobile.

e. Any tax liability resulting from an excess of reimbursed amounts over the actual expense paid or incurred. For instance, if an employee's reimbursement for the movement of household goods is based on the commuted rate schedule and his/her actual moving expenses are less than the reimbursement, the difference is not covered by the RIT allowance. (See 2–11.8c(2)(a).)

f. Any tax liability resulting from an employee's decision not to deduct moving expenses for which a tax deduction is allowable under the Internal Revenue Code or appropriate State and local tax codes. (See 2–11.8b(1) and 2–11.8c(2).)

2–11.5. Definitions and discussion of terms.

For purposes of this part, the following definitions will apply:

a. *State income tax.* A tax, imposed by a State tax authority, that is deductible for Federal income tax purposes as a State income tax under section 164(a)(3) of the IRC. "State" means any one of the several States of the United States and the District of Columbia.

b. *Local income tax.* A tax, imposed by a recognized city or county tax authority, that is deductible for Federal income tax purposes as a local (city or county) income tax under section 164(a)(3) of the IRC; except that, for employees transferred on or after November 14, 1983, through October 11, 1984, local income tax shall be

construed to mean only city income tax. For purposes of this regulation:

(1) "City" means any unit of general local government which is classified as a municipality by the Bureau of the Census, or which is a town or township that in the determination of the Secretary of the Treasury possesses powers and performs functions comparable to those associated with municipalities, is closely settled, and contains within its boundaries no incorporated places as defined by the Bureau of the Census (31 CFR 215.2(b)(1)).

(2) "County" means any unit of local general government which is classified as a county by the Bureau of the Census (31 CFR 215.2(e)).

c. *Covered moving expense reimbursements or covered reimbursements.* As used herein, these terms include those moving expenses listed in 2–11.3 which may be furnished in kind, or for which reimbursement or an allowance is provided by the Government.

d. *Covered taxable reimbursements.* Covered moving expense reimbursements minus the allowable tax deductions for moving expenses. (See determination in 2–11.8c.)

e. *Year 1 or reimbursement year.* The calendar year in which reimbursement or payment for moving expenses is made to, or for, the employee under the provisions of the FTR, Chapter 2. All or part of these reimbursements (see 2–11.6) are reported as income (wages, salary or other compensation) to the employee for that tax year under the provisions of the IRC and IRS regulations, and an obligation for Federal tax withholding is incurred. The withholding tax allowance (WTA) (see 1, below) is calculated in Year 1, to cover the employee's Federal tax withholding obligations each time reimbursements are made that result in a withholding obligation. For purposes of this regulation, an advance of funds for any of the covered moving expenses is not considered to be a reimbursement or a payment until the travel voucher settlement for such expenses takes place. If an employee's reimbursement for moving expenses is spread over more than one year, he/she will have more than one Year 1.

f. *Year 2.* The calendar year following Year 1 in which the employee files a tax return reflecting his/her tax liability for income received in Year 1. The RIT allowance is calculated in Year 2 and paid to cover the additional tax liability (resulting from moving expense reimbursements received in Year 1) not covered by the WTA paid in Year 1. If an employee's covered taxable reimbursements are spread over more than one year, he/she will have more than one Year 2.

g. *Federal withholding tax rate (FWTR).* The tax rate applied to incremental income to determine the amount to be withheld from salary or other compensation such as moving expense reimbursements. Because moving expense reimbursements constitute supplemental wages for Federal income tax purposes, the 20 percent flat rate of withholding is generally applicable to such reimbursements (see 2–11.7c). Agencies should refer to the Treasury Fiscal Requirements Manual, ITFRM 3–5000, and applicable IRS regulations for complete information on this subject.

h. *Earned income.* For purposes of the RIT allowance, "earned income" shall include only the gross compensation (salary, wages, or other compensation such as moving expense reimbursements and the WTA) that is reported as income on IRS Form W–2 for the employee (employee and spouse, if filing jointly), and if applicable, the net earnings (or loss) from self-employment income shown on Schedule SE of IRS Form 1040. Earned income may be from more than one source. (See 2–11.8d.)

i. *Marginal tax rate (MTR).* The tax rate (for example 40%) applicable to a specific increment of income. The Federal and State marginal tax rates to be used in calculating the RIT allowance are provided in appendices 2–11.A and B. See 2–11.8e(3) for instructions on lcoal marginal tax rate determinations.

j. *Combined marginal tax rate (CMTR).* A single rate determined by combining the applicable margin tax rates prescribed herein for Federal, State and local income taxes, using the formula provided in 2–11.8e(4).

k. *"Gross-up."* Payment for the estimated additional income tax liability incurred by an employee as a result of reimbursements or payments by the Government for the covered moving expense reimbursements listed in 2–11.3. (See total RIT allowance in m, below.)

l. *"Gross-up" formula.* The formula used to determine the amount of the "gross-up". The formula used herein (see 2–11.7d and 2–11.8f) compensates the employee for the initial tax, the tax on tax, etc. The formula assumes that the combined marginal tax rate for Year 2 and subsequent tax years will be the same as the one for Year 1 (see 2–11.8b(1)(c)).

m. *Total RIT allowance or "gross-up."* The amount of payment, computed in Year 2 by applying the "gross-up" formula, required to cover substantially all of the estimated additional tax liability incurred as a result of the covered moving expense reimbursements received in Year 1. (See k and l, above, and 2–11.8f.)

n. *Final RIT allowance or final "gross-up."* The total RIT allowance or "gross-up" less the WTA (see o, below). The final RIT allowance or final "gross-up" is calculated and paid in Year 2. (See 2–11.8f.)

o. *Withholding tax allowance (WTA).* The withholding tax allowance (WTA) is an estimated partial payment of the total RIT allowance. The WTA covers the employee's Federal tax withholding liability on covered taxable reimbursements. The amount is computed by applying the "gross-up" formula (using the Federal withholding tax rate) each time that a Federal withholding obligation is incurred on moving expense reimbursements in Year 1. "Grossing-up" the Federal withholding amount protects the employee from having to use part of his/her moving expense reimbursement to pay Federal withholding taxes. The amount of the WTA is considered income to the employee. (See 2–11.7.)

2–11.6. Procedures in general.

a. This regulation sets forth procedures for the computation and payment of the RIT allowance and defines agency and employee responsibilities. This regulation does not require changes to those internal fiscal procedures established by individual agencies pursuant to IRS regulations, or the Treasury Fiscal Requirements Manual, provided that the intents of the statute authorizing the RIT allowance and this regulation are not disturbed.

b. The total amount reimbursed or paid to the employee, or on his/her behalf, for travel, transportation and other relocation expenses and allowances is includable in the employee's gross income pursuant to the Internal Revenue Code (IRC) and certain State and local government tax codes. Some expenses for which reimbursements are received may be deducted from income by the employee as moving expense deductions, subject to certain limitations prescribed by the IRS or pertinent State or local tax authorities. Reimbursements for nondeductible moving expenses are subject to income tax. (See IRS Publication 521 entitled "Moving Expenses" and the appropriate State and local tax codes for detailed information.)

c. Usually, if the employee is reimbursed for nondeductible moving expenses, the amount of these reimbursements is subject to withholding of Federal income tax at the

time of reimbursement. Under existing fiscal procedures, the amount of the employee's withholding obligation is usually deducted either from reimbursements for the moving expenses at the time of reimbursement or from the employee's salary. Procedures prescribed herein are not intended to change ongoing fiscal procedures in this area. (See Treasury Fiscal Requirements Manual for Federal Agencies.)

d. Payment of a withholding tax allowance (WTA) established herein will offset deductions for the Federal withholding taxes, on moving expense reimbursements and on the WTA itself, from the employee's moving expense reimbursements or from salary. The amount of the WTA is then deducted from the total RIT allowance computed the following year to arrive at the final RIT allowance.

e. The total amount of the RIT allowance can be computed after the end of Year 1 as soon as gross compensation and total covered taxable reimbursements can be determined.

f. Procedures are prescribed in 2–11.7 and 2–11.8 for computation and payment of the WTA and the final RIT allowance. These procedures are intended to build on existing fiscal procedures regarding reporting of employee income from reimbursements and withholding of taxes on supplemental wages.

2–11.7. Procedures for determining the withholding tax allowance (WTA) in Year 1.

a. *General rules.* The withholding tax allowance (WTA) is an estimated partial payment of the RIT allowance designed to cover the employee's Federal withholding tax obligation resulting from moving expense reimbursements. Withholding tax obligations, if any, for State and/or local income taxes on moving expense reimbursements are not covered by the WTA. The WTA will be calculated by the agency as provided below and credited to the employee on the travel voucher at the time reimbursement is made for certain moving expenses. The amount of the WTA is equal to the Federal withholding tax obligation incurred by the employee on covered moving expense reimbursements (which are not offset by deductible moving expenses) and on the WTA itself. The amount of the WTA is considered to be income to the employee and should, along with the amount of moving expense reimbursements, be reported on IRS Form W–2 and furnished to the employee on IRS Form 4782 (Employee Moving Expense Information) or another itemized listing of moving expense reimbursements. The total amount of all WTA's paid during Year 1 shall be deducted from the total RIT allowance calculated after the end of Year 1. The agency shall advise the employee that if the total amount of all WTA's paid in Year 1 exceeds the total RIT allowance which the employee is entitled to in Year 2, he/she is obligated to repay the excess amounts as a debt due the Government as provided in 2–11.9b(3). The WTA shall be calculated, accounted for, and reported as provided in b through f, below.

b. *Determination of amount of reimbursement subject to withholding.* Each time that moving expenses are reimbursed to the employee, or paid on behalf of the employee, IRS regulations require that the agency determine the amount of those reimbursements that it reasonably believes will be deductible moving expenses. Reimbursements for nondeductible moving expenses are then subject to withholding of Federal income tax. Since there are some relocation expenses which may be reimbursed but are not covered reimbursements under the RIT allowance, such as nontemporary storage of household goods (HHG) (see exclusions in 2–11.4), the amount of the nondeductible moving expenses may be different than the actual amount of covered taxable reimbursements which is subject to withholding. Because the difference in these amounts should not be substantial and the WTA is an estimated partial payment of the RIT allowance, the amount of nondeductible moving expenses subject to Federal withholding tax, as determined by the agency pursuant to IRS regulations, may be used in computing the WTA.

c. *Determination of Federal withholding tax rate (FWTR).* Because moving expense reimbursements constitute supplemental wages for Federal income tax purposes, the 20 percent flat rate of withholding is generally applicable to income generated by such reimbursements. The 20 percent rate shall be used in calculating the WTA unless under an agency's internal fiscal (withholding) procedures a different withholding rate is normally used pursuant to IRS tax regulations. In such cases, the applicable withholding rate shall be substituted for the 20 percent rate in the calculation shown in d, below.

d. *Calculation of withholding tax allowance (WTA).*

(1) The WTA is calculated by substituting the amounts determined in 2–11.7 b and c, above, into the gross-up formula shown below. The amount of nondeductible moving expenses (from 2–11.7b) is multiplied by the fraction of the FWTR (from 2–11.7c; generally 20 percent) over 1 minus the FWTR.

These calculations are expressed in the "gross-up" formula as follows:

Formula:

$$Y = \frac{X}{1 - X} (N)$$

where

Y = WTA

X = FWTR (generally, 20 percent)

N = nondeductible moving expenses

Example: If

X = 20 percent

N = $21,800

Then

$$Y = \frac{.20}{1.00 - .20} ($21,800)$$

Y = .25 ($21,800)

Y = $5,450

(2) The WTA may be calculated several times within Year 1 if reimbursements for nondeductible moving expenses are made on more than one travel voucher. Each time an employee is reimbursed for nondeductible moving expenses which are subject to Federal tax withholding, the WTA will be calculated and shown on the employee's travel voucher as an estimated allowance paid to cover the Federal tax withholding amount and its subsequent tax impact.

e. *Determination of employee's Federal withholding tax on WTA.* Since the amount of the WTA is considered income to the employee, it is subject to Federal tax withholding (generally at the 20 percent rate). The Federal tax withholding on the WTA should be calculated and handled in the same manner as withholding on nondeductible moving expenses. (Note: As a cross-check on the accuracy of the WTA computation, the withholding amount on the nondeductible moving expenses plus the withholding on the WTA should equal the WTA amount calculated in d, above.) After deducting all withholding amounts (withholding on the WTA and withholding on the nondeductible moving expenses) from the amount of the employee's reimbursements (including the WTA), the balance of the amount due the employee as shown on the travel voucher should be the original amount of reimbursement for the moving expenses.

f. *End of year reporting.* At the end of the year, agencies generally are required to issue IRS Forms W–2 for each employee showing total gross compensation (including moving

expense reimbursements) and the applicable amount of Federal taxes withheld. For tax reporting purposes, the WTA is to be treated as a moving expense reimbursement. The total amount of the employee's WTA's calculated during the year should be reflected, along with the applicable Federal withholding amount, on the employee's Form W–2. The total amount of the WTA's will also be furnished to the employee on IRS Form 4782 or another itemized listing provided for the employee's use in preparing his/her tax return and in claiming the RIT allowance as provided in 2–11.8.

2–11.8. Rules and procedures for determining the RIT allowance in Year 2.

a. *Summary/overview of procedures.* The RIT allowance will be calculated and claimed in Year 2. This can be accomplished as soon as the employee can determine earned income (as defined herein), income tax filing status, and covered taxable reimbursements for the Year 1. The RIT allowance is then calculated using the appropriate tax tables and the "gross-up" formula under procedures prescribed herein. The total amount of all WTA's paid in Year 1 is deducted from the RIT allowance yielding the final amount of the RIT allowance due the employee in Year 2. This final amount also is considered income. The appropriate amount of withholding taxes on the final RIT allowance is deducted and the balance constitutes the net payment to the employee. Rules, procedures, examples, and prescribed tax tables for these calculations are provided in b through h, below, and in the figures and appendices to this Part 11.

b. *General rules and assumptions.*

(1) The procedures prescribed herein for calculation and payment of the RIT allowance are based on certain assumptions jointly developed by GSA and IRS, and tax tables developed by IRS. This approach avoids a potentially controversial and administratively burdensome procedure requiring the employee to furnish extensive documentation, such as certified copies of actual tax returns and reconstructed returns, in support of a claim for a RIT allowance payment. Specifically it has been assumed that:

(a) the employee will claim moving expense deductions for the same tax year in which the corresponding moving expense reimbursements are reflected as income;

(b) the employee will claim the maximum amount of deductible moving expenses allowable under the IRS tax rules when filing his/her tax return; and

(c) the employee's (and spouse's, if a joint return is filed) earned income, combined marginal tax rate, and filing status for Year 1, used to determine the amount of the RIT allowance, will remain the same or will not be substantially different in the second and subsequent tax years.

(2) The prescribed procedures which yield an estimate of an employee's additional tax liability due to moving expense reimbursements are to be used uniformly. They are not to be adjusted to accommodate an employee's unique circumstance which may differ from the assumed circumstances stated in (1), above.

(3) An adjustment of the final RIT allowance paid in Year 2 for the covered taxable reimbursements received in Year 1 is required if the tax information certified to on the RIT allowance claim is different than that shown on the actual Federal tax return filed with IRS for Year 1 or changed for any reason after filing of the tax return, so as to affect the combined marginal tax rate used in the RIT allowance calculation. (See 2–11.10 for claims procedures.)

c. *Determination of amount of covered taxable reimbursements.*

(1) Generally, the amount of the covered taxable reimbursements is the difference between (a) the amount of covered moving expense reimbursements for the allowances listed in 2–11.3 that was included in the employee's income in Year 1, and (b) the maximum amount of allowable moving expenses that may be claimed by the employee on his/her Federal tax return under IRS tax regulations to offset the income resulting from moving expense reimbursements for Year 1.

(2) For purposes of the RIT allowance, the following special rules apply to the determination of moving expense deductions to offset moving expense reimbursements reported as income:

(a) The total amount of reimbursement (which was reported as income) for the expenses of en route travel for the employee and family (see 2–11.3a) and transportation (including up to 30 days temporary storage) of household goods (see 2–11.3b) to the new official station shall be used as a moving expense deduction.

(b) The total amount of reimbursement for a househunting trip, temporary quarters (up to 30 days at new station) and real estate transaction expenses (see 2–11.3e, f, g, and i), up to the maximum allowable deduction under IRS tax regulations, shall be used as a moving expense deduction. For example, an employee and spouse filing a joint return for the 1984 tax year and residing in the same household at the end of the tax year may deduct up to $3,000 for these expenses. (No more than $1,500 of the $3,000 may be claimed for househunting trips and temporary quarters expenses combined). If the employee was reimbursed $1,350 for the househunting trip and temporary quarters expenses and $9,000 for real estate expenses, the moving expense deductions would be $1,350 for the househunting trip and temporary quarters expenses and $1,650 for real estate expenses. If the employee's reimbursement was $1,850 for the househunting trip and temporary quarters expenses and $9,000 for real estate expenses, the moving expense deductions would be $1,500 for the househunting trip and temporary quarters expenses and $1,500 for real estate expenses. If the employee had no reimbursement for the househunting trip and temporary quarters, the full $3,000 would be applied to the $9,000 reimbursement for real estate expenses. (See IRS Publication 521, "Moving Expenses," for these and other maximums which vary by situation and filing status.)

(3) Procedures and examples are provided herein as if all moving expense reimbursements are received in one year with all moving expense deductions applied in that same year to arrive at the covered taxable reimbursements. However, when reimbursements span more than one year, the amount of covered taxable reimbursements must be determined separately for each reimbursement year (Year 1). The maximum moving expense deductions apply to the entire move. Under IRS tax regulations the employee has some discretion as to when he/she claims these deductions (e.g., in the year of the move when the expenses was paid or in the year of reimbursement, if these actions do not occur in the same year). However, for purposes of the RIT allowance procedures, the moving expense deductions will be applied in the year that the corresponding expense reimbursement is made. For example, if an employee incurred and was reimbursed $1,000 for a househunting trip and temporary quarters in 1984 and an additional $1,000 for temporary quarters in 1985, this employee, according to his/her particular situation and tax filing status, may deduct $1,500 of these expenses in moving expense deductions. In calculating the RIT allowance for 1984, $1,000 of the $1,500 deduction is used to offset the $1,000 reimbursement in 1984 resulting in zero covered taxable reimbursements for the househunting trip and temporary quarters for 1984.

The remaining $500 (balance of the $1,500 not used in determining covered taxable reimbursements for 1984) will be used to offset the $1,000 temporary quarters reimbursement in 1985 (second Year 1), leaving $500 of the temporary quarters reimbursement as a covered taxable reimbursement for 1985.

(4) Although the WTA amount is included in income (see 2–11.7), it shall not be included in the amount of covered taxable reimbursements. Under the procedures and formulas established herein, the proper amount of the RIT allowance is calculated using the gross-up formula with covered taxable reimbursements without the WTA included.

(5) Agencies are cautioned that there may be moving expenses reimbursed to the employee that are not covered by the RIT allowance. (See exclusions in 2–11.4; also see discussion in 2–11.7 regarding covered taxable reimbursements versus nondeductible expenses.)

(6) An example showing how to calculate covered taxable reimbursements is illustrated in Figure 2–11.8a. Also, Figures 2–11.8b. and 2–11.8c show an example of completed IRS Form 4782 (Employee Moving Expense Information) and of IRS Form 3903 (Moving Expense Adjustment) with dollar amounts which correspond to those shown in Figure 2–11.8a.

d. *Determination of income level and filing status.* In order to determine the combined marginal tax rate (CMTR) needed to calculate the RIT allowance, the employee must determine the appropriate amount of earned income (as prescribed herein) that was or will be reported on his/her Federal tax return for the tax year in which the covered taxable reimbursements were received (Year 1). Such amount will also include the spouse's earned income if a joint filing status is claimed. For purposes of this regulation, appropriate earned income shall include only the amount of gross compensation reported on IRS Form(s) W–2, and, if applicable, the net earnings (or loss) from self-employment income as shown on Schedule SE of IRS Form 1040. (Note that moving expense reimbursements including the WTA amounts are to be included in earned income and should be shown as income on the Form W–2; if they are not, other appropriate documentation shall be furnished by the agency.) The earned income level as determined under this provision and the tax filing status (for example, from lines 1 through 5 on the 1984 IRS Form 1040) shall be contained in a certified statement on, or attached to, the voucher claiming the RIT allowance (see 2–11.10).

e. *Determination of the combined marginal tax rate (CMTR).* The gross-up formula used to calculate the RIT allowance in f, below, requires use of a single tax rate which represents the Federal, State and/or local tax rates applicable to the income determined in d, above, for Year 1 for the employee (or employee and spouse). This single tax rate is referred to as a combined marginal tax rate (CMTR). The CMTR will be determined as provided in (1) through (4), below. Note that the marginal tax rates determined below, as well as the income level and filing status, must be furnished by the employee in a certified statement in support of the RIT allowance claim (see 2–11.10).

(1) *Federal marginal tax rate.* The Federal marginal tax rate is determined by using the income level and filing status determined under 2–11.8d and contained in the certified statement by the employee on his/her RIT allowance claim, and applying the prescribed Federal tax tables contained in appendix 2–11.A. For example, if the income level (from 2–11.8d) was $65,000 for a married employee filing a Federal joint return, the Federal marginal tax rate would be 38 percent. This rate would be used regardless of how much of the $65,000 was attributable to reimbursement for the employee's relocation expenses. (Note that this marginal rate is different from the withholding tax rate used for the WTA.) If the employee incurs only Federal income tax (i.e., there are no State or local taxes), the Federal marginal tax rate determined from appendix 2–11.A is the CMTR to be used in the gross-up formula provided in 2–11.8f. In such cases, the provisions of (2) and (3), below, do not apply.

(2) *State marginal tax rate.*

(a) If the employee incurs an additional State income tax (see definition in 2–11.5a) liability as a result of moving expense reimbursements, the State tax table in appendix 2–11.B is to be used to determine the applicable State marginal tax rate that will be substituted into the formula for determining the CMTR. The income level determined in 2–11.8d for Federal taxes shall be used to identify the appropriate income bracket in the State tax table. The applicable State marginal tax rate is obtained from the selected income bracket column for the State where the employee is required to pay State income tax on moving expense reimbursements. The tax rates shown in the table apply to all employees regardless of filing status, except where a separate rate is shown for single filing status.

(b) The lowest income bracket shown in the State tax table in appendix 2–11.B is $20,000–$24,999. In cases where the employee's (employee's and spouse's, if filing jointly) earned income as determined under 2–11.8d is less than this income bracket, an appropriate State marginal tax rate shall be established by the employing agency from the applicable State tax code or regulations issued pursuant thereto. Such State marginal tax rate shall be representative of the earned income level in question but in no case more than the marginal tax rate established in appendix 2–11.B for the $20,000–$24,999 income bracket for the particular State in which an additional income tax obligation has been incurred.

(c) The prescribed State marginal tax rates generally are expressed as a *percent* of *taxable income*. However, if the applicable State marginal tax rate is stated as a *percentage* of the *Federal income tax liability*, the State tax rate must be converted to a percent of taxable income to be used in the CMTR formula in 2–11.8e(4). This is accomplished by multiplying the applicable Federal tax rate by the applicable State tax rate. For example, if the Federal tax rate is 38 percent and the State tax rate is 25 percent of the Federal tax liability, the State tax rate stated as a percent of income would be 9.5 percent.

(d) An employee may incur a State income tax liability on moving expense reimbursements in more than one State at the same or different marginal tax rates. Nevertheless, a single State marginal tax rate must be determined for use in the CMTR formula in 2–11.8e(4). The following general rules shall be applied in determining the applicable single rate.

(i) In the tax year during which the transfer actually takes place, the employee may incur a State income tax obligation at both the old and the new location. However, most moving expense reimbursements will be taxed at the new location. Although the employee may receive some reimbursements (e.g., for a househunting trip, possibly household goods shipment) prior to the actual transfer which would be credited as income at the old location, these types of expenses generally are tax deductible and would not generate an additional State tax liability for the employee. In addition, procedures inherent in the travel voucher reimbursement system tend to cause most reimbursements which may

be taxable to occur after the actual transfer. Therefore, the State marginal tax rate determined under 2–11.8e(2)(a) through (c) for the new location will be used in the CMTR formula.

(ii) There may be instances where the employee is subject to taxes on moving expense reimbursements in two States, in one State because of State residency and in another because a particular State taxes income earned within its jurisdiction irrespective of whether the employee is a resident. If the States recognize such situations by allowing an adjustment or credit for taxes paid to another State, the State marginal tax rate for the State where income tax on moving expense reimbursements is actually paid will be determined and used in the CMTR formula. However, in those situations where there is in fact double taxation on income from moving expense reimbursements and the taxes imposed by both States qualify as a State income tax (as defined in 2–11.5a), the sum of the State marginal tax rates for the two States as determined under 2–11.8e(2)(a) through (c) shall be used in the CMTR formula.

(3) *Local marginal tax rate.* Because of the impracticality of establishing a single marginal tax rate table for local income taxes that could be applied uniformly on a nationwide basis, appropriate local marginal tax rates shall be determined as provided in (a) through (c), below.

(a) If the employee incurs an additional local income tax (see definition 2–11.5b) liability as a result of moving expense reimbursements, he/she shall certify to such fact when claiming the RIT allowance (see certification statement in 2–11.10) by specifying the name of the locality imposing the income tax and the applicable marginal tax rate determined from the actual marginal tax rate table or schedule prescribed by the taxing locality. The marginal tax rate shall be applicable to the taxable income portion of the amount of earned income determined under 2–11.8d for the employee (and spouse, if filing jointly). The employing agency shall establish procedures to determine whether the employee certified local marginal tax rate is appropriate for the employee's income level and filing status and approve its use in the CMTR formula. (See also 2–11.10b(2).)

(b) If the local marginal tax rate is stated as a percentage of Federal or State income tax liability, such rate must be converted to a percent of income for use in the CMTR formula. This is accomplished by multiplying the applicable Federal or State tax rate determined in 2–11.8e(1) or (2) by the applicable local tax rate. For example, if the State tax rate is 6 percent and the local tax rate is 50 percent of State tax liability, the local tax rate stated as a percentage of income would be 3 percent.

(c) The situations described in 2–11.8e(2)(d) with respect to State income taxes may also be encountered with local income taxes. If such situations do occur, the rules prescribed for determining the single State marginal tax rate shall also be applied to determine the single local marginal tax rate for use in the CMTR formula.

(4) *Calculation of the combined marginal tax rate (CMTR).* As stated above, the gross-up formula for calculating the RIT allowance is designed for use with a single combined tax rate. However, the required CMTR cannot be calculated by merely adding the Federal, State and local marginal tax rates together because of the deductibility of State and local income taxes from income for Federal income tax purposes. The State tax tables prescribed in appendix 2–11.B are designed to use the same income amount as that determined for the Federal taxes, which reflects, among other things, State and local tax deductions. The formula prescribed below for calculating the CMTR is designed to adjust the State and local tax rates to compensate for their deductibility from income for Federal tax purposes.

(a) *Both State and local taxes incurred.* If the employee incurs both State and local income taxes on moving expense reimbursements, the following formula shall be used to determine the CMTR:

Formula: $X = F + (1 - F)S + (1 - F)L$

where
X = CMTR
F = Federal tax rate
S = State tax rate
L = local tax rate
Example: If

F = 38 percent of income
S = 6 percent of income
L = 2 percent of income

Then

$X = .38 + (1.00 - .38).06 + (1.00 - .38).02$
$X = .4296$

(b) *State income tax incurred but no local income tax.* If the employee incurs tax liability on moving expense reimbursements for State income tax but none for local income tax, the value of "L" is zero and the formula in (a), above, may be solved as follows:

Formula:
$X = F + (1 - F)S + (1 - F)L$
Example: If

F = 38 percent of income
S = 6 percent of income
L = Zero

Then

$X = .38 + (1.00 - .38).06$
$X = .4172$

(c) *Local income tax incurred but no State income tax.* If the employee incurs a tax liability on moving expense reimbursements for local income tax but none for State income tax, the value of "S" is zero and the formula in (a), above, may be solved as follows:

Formula:
$X = F + (1 - F)S + (1 - F)L$
Example: If

F = 38 percent of income
S = Zero
L = 2 percent of income

Then

$X = .38 + (1.00 - .38).02$
$X = .3924$

f. *Determination of the RIT allowance.* The total RIT allowance for the covered taxable reimbursements received in Year 1 and the final amount of the allowance due the employee are calculated in Year 2 as provided below:

(1) The total RIT allowance is calculated by substituting the amount of covered taxable reimbursements for Year 1 (see 2–11.8c) and the CMTR (see 2–11.8e) attributable to the employee's (employee's and spouse's, if filing jointly) earned income level and filing status (see 2–11.8d) into the "gross-up" formula. The amount of covered taxable reimbursements is multiplied by the fraction of the CMTR over 1 minus the CMTR. For example, if the employee's CMTR was .4296 and the amount of covered taxable reimbursement was $21,800, the total RIT allowance would be $16,419.76.

(2) The employee usually will have been paid one or more WTA's during Year 1 to cover the Federal withholding tax on the reimbursements. Since the WTA is an estimated partial payment of the RIT allowance, the total amount of all WTA's paid during Year 1 shall be deducted from the total RIT allowance to determine the final amount of the RIT allowance payable to the employee in Year 2.

(3) Calculation of the final RIT allowance as provided in (1) and (2), above, may be stated in a final "gross-up" formula as follows:

Formula:

$$Z = \frac{X}{1-X}(R) - Y$$

where
Z = final RIT allowance payable in Year 2
X = CMTR

R = covered taxable reimbursements
Y = total WTA's paid in Year 1

Example: If

X = .4296
R = $21,800
Y = $5,450

Then

$$Z = \frac{.4296}{1.00 - .4296}(\$21,800) - \$5,450$$

Z = .7532 ($21,800) − $5,450
Z = $16,419.76 − $5,450
Z = $10,969.76

(4) There may be instances when a WTA was not paid in Year 1 at the time moving expense reimbursements were made. For example, for those employees whose effective date of transfer was on or after November 14, 1983, through December 31, 1984, and whose reimbursements were received in 1983 or 1984, a WTA would not have been paid. In cases where there is no WTA to be deducted, the value of "Y" is zero and the formula stated in (3), above, for calculating the final amount of the RIT allowance (= Z) due the employee in Year 2 may be solved as follows:

Formula:

$$Z = \frac{\times}{1-\times}(R) - y$$

Example: If

× = .4296
R = $21,800
Y = Zero

Then

$$Z = \frac{.4296}{1.00 \times .4296}(\$21,800)$$

Z = .7532 ($21,800)
Z = $16,419.76

(5) If the final amount of the RIT allowance is greater than zero, it is payable to the employee on the travel voucher as a relocation or moving expense allowance. The final RIT allowance amount is included in the employee's gross income for Year 2 and, therefore, subject to appropriate withholding taxes (see net payment to employee in 2-11.8g). The final RIT allowance amount will be reported on IRS Form W–2 for Year 2 and on IRS Form 4782 for the employee's information.

(6) If the final amount of the RIT allowance shown on the travel voucher is less than zero (negative amount) because the WTA amount paid in Year 1 exceeds the total RIT allowance, the employee shall repay the excess amount to his/her agency (see also 2–11.7a and 2–11.9b).

(7) Any changes to the employee's income level or filing status for Year 1 that would affect the marginal tax rates (Federal, State, or local) used in calculating the RIT allowance must be reported to the agency by the employee as provided in 2–11.9b(2). (See also 2–11.10 for certified statement regarding these changes.)

g. *Determination of the net payment due employee in Year 2.* Since the final amount of the RIT allowance is income to the employee in Year 2, it is subject to Federal tax withholding. It is also subject to appropriate State and local tax withholding if the employing agency normally withholds for State and local taxes on moving expense reimbursements. Agencies should determine the appropriate amounts of withhold taxes under their internal tax withholding procedures. The amount of withholding taxes is deducted from the final RIT allowance to arrive at the net payment to the employee.

h. *Summary example.* The procedures provided in a through g, above, for calculating the RIT allowance and in 2–11.7 for calculating the WTA are summarized and illustrated for a hypothetical situation in Figure 2–11.8d.

2–11.9. Responsibilities.

a. *Agency.* Finance offices will calculate the amount of the gross-up for the withholding tax allowance (WTA) in Year 1 in accordance with procedures outlined herein and credit this amount to the employee on the travel voucher at the time of reimbursement. The WTA will be reflected on the employee's Form W–2 for Year 1. The RIT allowance may be calculated in Year 2 either by the employee, or by the agency finance office based on information provided by the employee on the voucher, as directed by the agency's implementing policies and procedures. In addition, agencies shall prescribe appropriate and necessary implementing procedures as provided elsewhere in this Part 11.

b. *Employee.*

(1) The employee is required to file the tax information for Year 1 specified in 2–11.10 with his/her agency in Year 2, regardless of whether any additional reimbursement for the RIT tax allowance is owed the employee.

(2) If any action occurs (i.e., amended tax return, tax audit, etc) that would change the information provided in Year 2 by the employee to his/her agency for use in calculating the total RIT allowance due the employee for Year 1 taxes, this information must be provided by the employee to his/her agency under procedures prescribed by the agency. (See 2–11.10.)

(3) If the total amount of all WTA's paid by the Government in Year 1 is more than the total RIT allowance computed in Year 2, the employee is obligated to repay the excess amounts as a debt due the Government. (See also 2–11.7a and 2–11.8f(6).)

2–11.10. Claims for payment and supporting documentation and verification.

a. *Claims forms.* Claims for payment of the RIT allowance shall be submitted by the employee in Year 2 on SF 1012 (Travel Voucher) or other authorized travel voucher form. When claiming payment for the RIT allowance, the employee shall furnish and certify to certain tax information that has been or will be shown on his/her actually prepared tax returns. This information shall be contained in a certified statement on, or attached to, the SF 1012 reading essentially as follows:

I certify that the following information, which is to be used in calculating the RIT allowance to which I am entitled, has been (or will be) shown on the income tax returns filed (or to be filed) by me (or by my spouse and me) with the applicable Federal, State, and local (specify which) tax authorities for the 198__ tax year.

—Gross compensation as shown on attached IRS Form(s) W–2 and, if applicable, net earnings (or loss) from self-employment income shown on attached Schedule SE (Form 1040):

Employee.....	$_____	$_____
Spouse (if filing jointly)..	$_____	$_____
Total (Both columns).....	$_____	

—Filing status: _____

(Specify one of the five filing status items that was (or will be) claimed on IRS Form 1040.)

—Marginal tax rates from FTR appendices 2–11.A and B and local tax tables derived under procedures prescribed in FTR Part 2–11:

Federal _____
State (specify which): _____
Local (specify which): _____

The above information is true and accurate to the best of my knowledge. I (we) agree to notify the appropriate agency official of any changes to the above (i.e., from amended tax returns, tax audit, etc.) so that appropriate adjustment to the RIT allowance can be made. The required supporting documents are attached. Additional documentation will be furnished if requested.

Employee's Signature _____
Date _____
Spouse's signature (if joint filing status) _____
Date _____

b. *Supporting documention/ verification.* The claim for the RIT allowance shall be supported by documentation attached to the voucher

and by verification of State and local tax obligations as provided below:

(1) Copies of the appropriate IRS Forms W–2 and, if applicable, the completed IRS Schedule SE (Form 1040) shall be attached to the voucher to substantiate the income amounts shown in the certified statement. Employee and/or spouse must agree to provide additional documentation to verify income amounts, filing status, and State and local income tax obligations if requested by the agency.

(2) In order to determine or verify whether a particular State or locality imposes a tax on moving expense reimbursements, it is incumbent upon the appropriate agency officials to become familiar with the State and local tax laws that affect their transferring employees. In cases where the taxability of moving expense reimbursements is not clear, an agency may pay a RIT allowance which reflects only those State and local tax obligations that are clearly imposed under State and local tax law. Once the questionable State or local tax obligations are resolved, agencies may recompute the RIT allowance and make appropriate payment adjustments.

c. *Fraudulent claims.* A claim against the United States is forefeited if the claimant defrauds or attempts to defraud the Government in connection therewith (28 U.S.C. 2514). In addition, there are two criminal provisions under which severe penalties may be imposed on an employee who knowingly presents a false, fictitious, or fraudulent claim against the United States (18 U.S.C. 287 and 1001). The employee's claim for payment of the RIT allowance shall accurately reflect the facts involved in every instance so that any violation of these provisions will be avoided.

2–11.11. Violation of service agreement.

In the event the employee violates the terms of the agreement required under 2–1.5a(1), no part of the RIT allowance will be paid, and any amounts paid prior to such violation shall be a debt due the United States until they are repaid by the employee.

2–11.12. Advance of funds.

No advance of funds is authorized in connection with the allowance provided in this part.

2–11.13. Source references.

The following references or publications have been used as source material for this Part 11.

a. Internal Revenue Code (IRC), section 164(a)(3) (26 U.S.C. 164(a)(3)) pertaining to the deductibility of State and local income taxes, and section 217 (26 U.S.C. 217), pertaining to moving expenses.

EXAMPLE 1. CALCULATION OF COVERED TAXABLE REIMBURSEMENTS

The following example shows how to calculate covered taxable reimbursements as provided in FTR 2-11.8. Column (a) shows hypothetical moving expense reimbursements. Column (b) shows Federal moving expense deductions for employee and spouse filing a joint return and residing together at the end of the tax year (see footnote 5/, below). Column (c) shows the balance of the covered reimbursements in column (a) which have not been offset by moving expense deductions in column (b). Amounts shown are for illustration purposes only and should not be construed in any way to represent actual, average, or typical moving costs.

	Covered Allowances (FTR 2-11.3)		Amount Paid/ Reimbursed (a) 1/	Maximum Moving Exp. Deduction (b) 2/	Amount of Covered Taxable Reimbursements (c)=(a)-(b) 3/
1.	Travel and transportation expenses between duty stations.		$ 1,150 4/	$ 1,150 4/	$ -0- 4/
2.	Transportation and 30 days temporary storage of household goods (HHG's).		$ 5,100 4/	$ 5,100 4/	$ -0- 4/
3.	Temporary storage of HHG's not included on line 2, and/or nontemporary storage (see (2-11.3c).		$ 1,100	$ -0-	$ 1,100
4.	Mobile home movement instead of HHG's.		$ -0-	$ -0-	$ -0-
5.	Miscellaneous expense allowance.		$ 700	$ -0-	$ 700
6.	Househunting trip.	$1,550			
7.	Temporary quarters, 30 days, new station.	$2,550			
8.	Total lines 6 and 7.		$ 4,100		
9.	Enter lesser of line 8 or $1,500 as deductible amount in col. b; 5/			$ 1,500	
10.	Enter balance of line 8 minus line 9.				$ 2,600
11.	Temporary quarters in excess of line 7.		$ 1,900	$ -0-	$ 1,900
12.	Real estate transactions resulting from:				
	(a) Sale expenses.	$13,500			
	(b) Purchase expenses.	$ 3,500			
	(c) Unexpired lease.	$ -0-			
	(d) Relocation services. 6/	$ -0-			
13.	Total of items (a) through (d), line 12.		$17,000		
14.	Enter lesser of line 13 or $3,000 less deductible amount used on line 9. 5/			$ 1,500	
15.	Balance of line 13 minus line 14.				$15,500
16.	Relocation services not included on line 12(d). 6/		$ -0- 6/	$ -0- 6/	$ -0- 6/
17.	Total column (a), (b), and (c).		$31,050	$ 9,250 7/	$21,800 8/
18.	Total amount of WTA's paid in Year 1.		$ 5,450 9/		
19.	Total lines 17 and 18, column (a).		$36,500 10/		

Figure 2-11.8a. Illustration of Example for Calculation of Covered Taxable Reimbursements in Year 2.
(Part 1 of 2)

1/ Enter in column (a) the amounts of reimbursed expenses for the allowances listed in FTR 2-11.3.

2/ Enter in column (b) the maximum amounts of the reimbursed expenses in column (a) which are deductible moving expenses. (See FTR 2-11.8c(2); also see footnote 4/.)

3/ Enter in column (c) the balance of column (a) minus column (b). (See FTR 2-11.8c.)

4/ The amount entered in column (b) for lines 1 and 2 should be the same as that entered in column (a). (See FTR 2-11.8c(2)(a).) Column (c) will be zero.

5/ Limits may vary according to filing status, etc. See page 5 of IRS Publication 521, Moving Expenses.

6/ In this example, relocation services were not used--employee declined (see FTR 2-12 and employing agency policy). However, if relocation services were used, any amounts paid to the relocation service company that are determined to be income to the employee (see FTR 2-11.3i, 2-11.4a, and 2-12.7) and covered by the RIT allowance would be entered on lines 12(d) and 16, column (a), as appropriate. In such cases, the amount shown in column (c) as a covered taxable reimbursement would depend on whether any part of the amount in column (a) is a moving expense deduction in column (b). All amounts included in column (a) may not be deductible and there are limitations as to what can be included as a covered reimbursement under 2-11.3i.

7/ In this example, total moving expense deductions on line 17, column (b), equate to the amount shown on line 11 on IRS Form 3903 in Figure 2-11.8c. Amounts on those lines for an actual situation may not be the same because of relocation expenses incurred which are not paid for or reimbursed by the Government but which may be claimed as a moving expense deduction for Federal tax purposes, such as extra valuation insurance for household goods shipments.

8/ The amount on line 17, column (c), is the amount of covered taxable reimbursements to be used in the gross-up formula for the RIT allowance.

9/ Enter total amount of all WTA's paid in Year 1 on line 18, column (a) only. This amount is an estimated partial payment of the RIT allowance. It is not included in the amount of covered taxable reimbursements determined for calculation of the RIT allowance. (See FTR 2-11.8c(4).)

10/ In this example, the total amount shown on line 19, column (a), equates to the amount shown on line 7 on IRS Form 4782 in Figure 2-11.8b. Amounts on those lines for an actual situation may differ because of relocation allowances paid or reimbursed which are not covered by the RIT allowance. (See exclusions in FTR 2-11.4.)

Moving Expense Adjustment

▶ Attach to Form 1040.

OMB No 1545 0062
1984
52

Name(s) as shown on Form 1040: I. M. Employee

Your social security number: 000 00 0000

a What is the distance from your **old** residence to your **new** work place? 1500 miles

b What is the distance from your **old** residence to your **old** work place? 20 miles

c If the distance in **a** above is 35 or more miles farther than the distance in **b** above, complete the rest of this form. If the distance is less than 35 miles, you may not take a deduction for moving expenses. This rule does not apply to members of the armed forces.

1 Transportation expenses in moving household goods and personal effects			1 5,100 00
2 Travel, meal, and lodging expenses in moving from old to new residence			2 1,150 00
3 Pre-move travel, meal, and lodging expenses in looking for a new residence after getting your job	3 1,550 00		
4 Temporary living expenses in new location or area during any 30 days in a row after getting your job	4 2,550 00		
5 Add lines 3 and 4	5 4,100 00		
6 Enter the smaller of line 5 or $1,500 ($750 if married, filing a separate return, and, at the end of the tax year, you lived with your spouse who also started work during the tax year)		6 1,500 00	
7 Expenses of (check one): a ☑ selling or exchanging your **old residence**; or b ☐ if renting, settling an unexpired lease on your old residence		7 13,500 00	
8 Expenses of (check one): a ☑ buying your new residence; **or** b ☐ if renting, getting a lease **on your** new residence		8 3,500 00	
9 Add lines 6, 7, and 8		9 18,500 00	
10 Enter the smaller of line 9 or **$3,000** ($1,500 if married, filing a separate return, and, at the end of the tax year, you lived with your spouse who also started work during the tax year)			10 3,000 00

Note: *Use any amount on line **7a** not deducted because of the $3,000 (or $1,500) limit to decrease the gain on the sale of your residence. Use any amount on line **8a** not deducted because of the limit to increase the basis of your new residence. See **No Double Benefit** in the instructions.*

11 Add lines 1, 2, and 10. This is your moving expense deduction. Enter here and on Form 1040, line 24 ▶	11 9,250 00

Note: *If your employer paid for any part of your move (including the value of any services furnished in kind), report that amount on **Form 1040, line 7**. See **Reimbursements** in the instructions.*

Figure 2-11.8c. Illustration of completed Example IRS Form 3903

EXAMPLE 4. Summary of RIT Procedures

Year 1: In 1984, the employee received $31,050 in covered moving expense reimbursements. After subtracting $9,250 of deductible moving expenses, $21,800 of the reimbursements (nondeductible moving expenses) were subject to Federal tax withholding. (No State or local tax withholding in this case.)

Apply WTA formula: $Y = \frac{X}{1-X} (N)$

Where Y = WTA
X = Federal withholding tax rate (.20)
N = nondeductible moving expenses ($21,800)

Then $Y = \frac{.20}{1-.20} ($21,800)$
$Y = $5,450$

Compute net payment to employee in Year 1:

Total moving expense reimbursements in Year 1	$31,050
Less deductible moving expenses	- 9,250
Nondeductible moving expenses subject to withholding	$21,800
Plus WTA on $21,800	+ 5,450
Amount subject to withholding	$27,250
Less Federal tax withholding ($27,250 X .20)	- 5,450
Balance after withholding	$21,800
Plus deductible moving expenses	+ 9,250
Net payment to employee in Year 1	$31,050

Year 2: In 1985, the amount of the RIT allowance is determined on the basis of covered reimbursements in Year 1. Assume that $21,800 of nondeductible moving expenses is the same as the covered taxable reimbursements. Also, assume that employee and spouse (married, filing jointly) have combined earned income of $65,000. Thus, the Federal marginal tax rate would be 38%. Also, assume the applicable State and local marginal tax rates are 6% and 2%, respectively, of taxable income.

Apply CMTR formula: $X = F + (1-F)S + (1-F)L$

Where X = CMTR
F = Federal tax rate
S = State tax rate
L = local tax rate

Then $X = .38 + (1-.38).06 + (1-.38).02$
$X = .38 + .0372 + .0124$
$X = .4296$

Figure 2-11.8d. Summary Example of RIT Allowance Procedures (Part 1 of 2)

Example 4. Summary of RIT Allowance Procedures (continued)

Apply final gross-up formula: $Z = \frac{X}{1-X}(R) - Y$

Where Z = final RIT allowance
X = CMTR (.4296)
R = covered taxable reimbursements ($21,800)
Y = WTA paid in Year 1 ($5,450)

Then $Z = \frac{.4296}{1-.4296}$ ($21,800) - $5,450

Z = .7532 ($21,800) - $5,450
Z = $16,419.76 - $5,450
Z = $10,969.76

Compute net payment to employee in Year 2:

Total RIT allowance	$16,419.76
Less WTA's paid in Year 1	- 5,450.00 1/
Final RIT allowance payable	$10,969.76
Less Federal withholding tax	- 2,193.95
Less State and local withholding	N/A
Net amount paid to employee	$ 8,775.81

1/ If no WTA's had been paid in this example, the final RIT allowance would be the same as the total RIT allowance ($16,419.76). The Federal withholding tax would be $3,283.95, leaving a net payment to the employee of $13,135.81.

Figure 2-11.8d. Summary Example of RIT Allowance Procedures (Part 2 of 2)

FEDERAL MARGINAL TAX RATES BY EARNED INCOME LEVEL AND FILING STATUS - TAX YEARS 1983/1984

The following table is to be used to determine the Federal marginal tax rate for computation of the RIT allowance as prescribed in FTR 2-11.8e(1).

Marginal Tax Rate	Single Taxpayer		Heads of Household		Married Filing Jointly/Qualifying Widows & Widowers		Married Filing Separately	
	Over	But not over	Over	But not over	Over	But not over	Over	But not over
11 %	$3,519	$4,692	$5,742	$7,845	$8,265	$10,356	$4,017	$5,220
12 %	4,692	5,812	7,845	9,830	10,356	12,587	5,220	6,514

Appendix 2-11.A. Federal Tax Table for RIT Allowance

STATE MARGINAL TAX RATES BY EARNED INCOME LEVEL - TAX YEARS 1983/1984

The following table (pages 1 thru 3) is to be used to determine State marginal tax rates for calculation of the RIT allowance as prescribed in FTR 2-11.8e(2).

State (or district)	Marginal tax rates (stated in percents) for the earned income amounts specified in each column. 1/ 2/ $20,000-24,999	$25,000-49,999	$50,000-74,999	$75,000 & OVER
1. Alabama	5	5	5	5
2. Alaska	0	0	0	0
3. Arizona	8	8	8	8
4. Arkansas	6	7	7	7
5. California	3	7	11	11
if single status 3/	8	11	11	11
6. Colorado	8	8	8	8
7. Connecticut	0	0	0	0
8. Delaware	8.4	11	13.5	13.5
if single status 3/	8.8	12.2	13.5	13.5
9. District of Columbia	10	11	11	11
10. Florida	0	0	0	0
11. Georgia	6	6	6	6
12. Hawaii	8.5	10	10.5	11
if single status 3/	10.5	11	11	11
13. Idaho	7.5	7.5	7.5	7.5
14. Illinois	2.5	2.5	2.5	2.5
15. Indiana	3	3	3	3
16. Iowa	8	11	12	13
17. Kansas	7.5	9	9	9
18. Kentucky	6	6	6	6
19. Louisiana	4	4	6	6
20. Maine	8	9.2	10	10
if single status 3/	9.2	10	10	10
21. Maryland	5	5	5	5
22. Massachusetts	5.375	5.375	5.375	5.375

Appendix 2-11.B. State Tax Table for RIT Allowance

STATE MARGINAL TAX RATES BY EARNED INCOME LEVEL - TAX YEARS 1983/1984 (cont'd.)

State (or district)	Marginal tax rates (stated in percents) for the earned income amounts specified in each column. 1/ 2/			
	$20,000-24,999	$25,000-49,999	$50,000-74,999	$75,000 & OVER

Appendix 2-11.8

BILLING CODE 6820-24-C

STATE MARGINAL TAX RATES BY EARNED INCOME LEVEL - TAX YEARS 1983/1984 (cont'd.)

State (or district)	Marginal tax rates (stated in percents) for the earned income amounts specified in each column. 1/ 2/ $20,000-24,999	$25,000-49,999	$50,000-74,999	$75,000 & OVER
47. Virginia	5.75	5.75	5.75	5.75
48. Washington	0	0	0	0
49. West Virginia	3.5	7.4	10.5	13
if single status 3/	8.2	12.6	13	13
50. Wisconsin	8.7	9.5	10	10
51. Wyoming	0	0	0	0

1/ Earned income amounts that fall between the income brackets shown in this table (e.g., $24,999.45, $49,999.75, etc.) should be rounded to the nearest dollar to determine the marginal tax rate to be used in calculating the RIT allowance.

2/ If the earned income amount is less than the lowest income bracket shown in this table, the employing agency shall establish an appropriate marginal tax rate as provided in FTR 2-11.8e(2)(b).

3/ This rate applies only to those individuals certifying that they will file under a single status within the States where they will pay income taxes. All other taxpayers, regardless of filing status, will use the other rate shown.

4/ Rates shown as a percent of Federal income tax liability must be converted to a percent of income as provided in FTR 2-11.8e(2).

Appendix 2-11.B

PART 12—USE OF RELOCATION SERVICE COMPANIES

3. Part 12 of Chapter 2 of the FTR is amended by revising paragraph 2–12.7 to read as follows:

2–12.7. Income tax consequences of using relocation companies.

In entering into contracts with relocation companies, agencies should consider the income tax consequences for the employee. Certain payments on behalf of the employee to a relocation company may constitute taxable income to the employee, depending on the specific terms of the contract. Under the provisions of 5 U.S.C. 5724b, additional taxes resulting from such income would be covered by the relocation income tax allowance as provided in 2–11. For further information relating to the income tax consequences of payments to relocation companies, agencies should contact the Internal Revenue Service, 1111 Constitution Avenue, NW., (CC: IND:I) Room 5019, Washington, D.C. 20224.

Dated: April 1, 1985.

Dwight Ink,

Acting Administrator of General Services.

National Archives and Records Administration

36 CFR Ch. XII

41 CFR Parts 101-11, 101-13, 105-60, 105-61, 105-65

Establishment of Chapter and Redesignation of Regulations; Final Rule

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

41 CFR Parts 101–11, 101–13, 105–60, 105–61, and 105–65

Establishment of Chapter XII and Redesignation of Regulations

AGENCY: National Archives and Records Administration.

ACTION: Final rule.

SUMMARY: This document establishes Chapter XII in Title 36 for regulations of the National Archives and Records Administration, an independent executive branch agency established by Public Law 98–497. It also redesignates certain regulations concerning NARA programs that now appear in Title 41, and makes minor technical changes in organizational references.

EFFECTIVE DATE: April 1, 1985.

FOR FURTHER INFORMATION CONTACT: Adrienne C. Thomas, Director, Program Policy and Evaluation Division, National Archives (NAA), Washington, DC 20408, (202) 523–3214.

SUPPLEMENTARY INFORMATION: The National Archives and Records Administration Act of 1984, Public Law 98–497, established the National Archives and Records Administration (NARA) as an independent agency in the executive branch, and transferred the National Archives and Records Service of the General Services Administration to the agency. Regulations concerning National Archives and Records Service programs relating to disposition of Federal records; vital records during an emergency; preservation of records by war contractors; public availability and use of records, donated historical materials and facilities; and National Historical Publications and Records Commission programs were contained in Title 41 CFR Parts 101–11, 101–13, 105–60, 105–61, and 105–65, and were issued under the authority of the Administrator of General Services.

This document establishes the National Archives and Records Administration regulations in Title 36, Chapter XII of the Code of Federal Regulations. The table of contents for Chapter XII set forth below includes regulations which are issued in this final rule, as well as the part titles of other material which NARA intends to issue in the future after notice of proposed rulemaking. The regulations redesignated in this document were originally issued in Title 41 after providing the public an opportunity to comment. Only nomenclature changes and technical amendments to the redesignated regulations are made: changing references from GSA organizations and officials to NARA organizations; clarifying citations and language where necessary; and in Part 1253, adding the location and hours of use of additional NARA facilities not previously included in the regulations.

Within the next month, NARA intends to issue a notice of proposed rulemaking that would establish regulations implementing the Privacy Act and Freedom of Information Act and other general agency regulations. NARA intends to issue another notice of proposed rulemaking that would incorporate provisions of 41 CFR Part 101–11 relating to adequacy of documentation and records disposition in records management programs. Provisions in 41 CFR Part 101–11 and Chapter 105 as they relate to NARA will continue to remain in those CFR units during the interim period that the two notices of proposed rulemaking are issued. NARA intends to issue the final regulation rewriting and transferring these provisions to Chapter XII of Title 36 by June 30, 1985. GSA is issuing regulations in its FIRMR (41 CFR Chapter 201) incorporating provisions of 41 CFR 101–11 which promote economy and efficiency in records management (50 FR 14220, April 11, 1985). NARA will have sole signatory authority over its regulations.

This rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981. As required by the Regulatory Flexibility Act, it is hereby certified that this rule will not have a significant economic impact on small business entities.

List of Subjects in 36 CFR Chapter XII

Archives and records, Classified information, Reporting and recordkeeping requirements, Freedom of information, Research.

Title 36—[Amended]

For the reasons set forth above, Title 36 of the Code of Federal Regulations is amended as follows:

1. The authority for Chapter XII reads as follows:

Authority: 44 U.S.C. 2104(a), as added by sec. 102(a)(2) of Pub. L. 98–497.

2. Title 36 of the Code of Federal Regulations is amended by establishing Chapter XII to read "Chapter XII—National Archives and Records Administration." The general organization of the chapter is as follows:

CHAPTER XII—NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

SUBCHAPTER A—GENERAL RULES

Part
1200 Official seal
1202 Regulations implementing the Privacy Act of 1974
1204 Standards of Conduct
1206 National Historical Publications and Records Commission
1208 Regulations implementing Section 504 of the Rehabilitation Act of 1973
1209–1219 [Reserved]

SUBCHAPTER B—RECORDS MANAGEMENT

1220 Federal Records; General
1222 Creation of Records; Adequacy of Documentation
1224 Files Management
1228 Disposition of Federal Records
1230 Micrographics
1232 Audiovisual Records Management
1234 ADP Records Management
1236 Vital Records During an Emergency
1238 Technical Assistance
1239 Preservation of Records by War Contractors
1240–1249 [Reserved]

SUBCHAPTER C—PUBLIC AVAILABILITY AND USE

1250 Public Availability of NARA Agency Records and Information Materials
1252 Public Use of Records, Donated Historical Materials, and Facilities; General
1253 Location of Records and Hours of Use
1254 Availability of records and donated historical materials
1256 Restrictions on the Use of Records
1258 Fees

SUBCHAPTER D—DECLASSIFICATION

1260 Declassification of and Public Access to National Security Information

SUBCHAPTER E—PRESIDENTIAL RECORDS

1270 Presidential Records

SUBCHAPTER F—NIXON PRESIDENTIAL MATERIALS

1275 Preservation and Protection of and Access to the Presidential Historical Materials of the Nixon Administration

SUBCHAPTER G—NARA FACILITIES

1280 Public Use of Facilities
1281–1299 [Reserved]

3. Title 36 of the Code of Federal Regulations is amended by transferring certain regulations appearing in 41 CFR Chapters 101 and 105 and redesignating the provisions accordingly. The following table shows the relationship of the former CFR Part, subpart and section numbers under 41 CFR Chapters 101 and 105 and new part, subpart and section numbers in 36 CFR Chapter XII.

1228.100 Responsibilities.
1228.102 Penalties.
1228.104 Reporting.
1228.106 Exclusions.

Subpart G—Transfer of Records from the Custody of One Executive Agency to Another

Sec.
1228.120 Authority.
1228.122 Approval.
1228.124 Agency request.
1228.126 Agency concurrences.
1228.128 Records of terminated agencies.
1228.130 Equipment.
1228.132 Costs of transfers.
1228.134 Restrictions on use of records.
1228.136 Exceptions.

Subpart H—Transfer of Records to Federal Records Centers

1228.150 Authority.
1228.152 Procedures for transfers to Federal records centers.
1228.154 Transfers to the National Personnel Records Center.
1228.156 Transferring vital records to Federal records centers.
1228.158 Surveying records for transfer to records center.
1228.160 Release of equipment.
1228.162 Use of records in Federal records centers.
1228.164 Disposal clearance for records in Federal records centers.

Subpart I—Transfer of Records to the National Archives

1228.180 Authority.
1228.182 Types of records to be transferred.
1228.184 Audiovisual records.
1228.186 Cartographic and architectural records.
1228.188 Machine-readable records.
1228.190 Transfer of records listed in records control schedules.
1228.192 Transfer of unscheduled records.
1228.194 Records subject to the Privacy Act of 1974.
1228.196 Release of equipment.
1228.198 Use of records transferred to the National Archives.
1228.200 Disposal clearances.

Subpart J—Agency Records Centers

1228.220 Authority.
1228.222 Facility standards for agency records centers.
1228.224 Requests for authority to establish or relocate records centers.

Authority: 44 U.S.C. 2104(a).

10. Part 1228 is amended by removing the word "(NCD)" whenever it appears and inserting the word "(NIR)".

§ 1228.1 [Amended]

11. Section 1228.1 is amended by removing the word "subpart" appearing in the section title and text and inserting the word "part."

§ 1228.2 [Amended]

12. The definitions formerly appearing in 41 CFR 101-11.405-2 (permanent records), 101-11.406-2 (temporary records), and 101-11.411-1 (National Archives) and redesignated into § 1228.2 are arranged in alphabetical sequence.

§ 1228.22 [Amended]

13. Section 1228.22 is amended by removing the words "General Services Administration (NARS)" and inserting the words "National Archives and Records Administration".

§ 1228.72 [Amended]

14. Section 1228.72 is amended by removing "(NC)" whenever it appears and inserting "(NI)".

§ 1228.74 [Amended]

15. Section 1228.74 is amended by adding "41 CFR" before the reference "Part 101–45" in the last sentence in paragraph (b) and by removing "(NC)" in paragraph (c)(2) and inserting "(NI)".

§ 1228.92 [Amended]

16. Section 1228.92 is amended by removing "GSA" in paragraph (e) and inserting "NAR".

§ 1228.104 [Amended]

17. Section 1228.104 is amended by removing "GSA" in paragraph (b) and inserting "NAR".

§ 1228.106 [Amended]

18. Section 1228.106 is amended by removing the word "Section" at the beginning of the second sentence and inserting "41 CFR".

19. Section 1228.150 is amended by revising the table to read as follows:

§ 1228.150 Authority.

* * * * *

Areas served	Federal records center

Nevada except Clark County, California except southern California, American Samoa.	Federal Records Center, 1000 Commodore Drive, San Bruno, CA 94066.
Arizona; Clark County, Nevada, and southern California (counties of San Luis Obispo, Kern, San Bernadino, Santa Barbara, Ventura, Orange, Los Angeles, Riverside, Inyo, Imperial, and San Diego).	Federal Records Center, 24000 Avila Road, Laguna Niguel, CA 92677.
Washington, Oregon, Idaho, Alaska, Hawaii, and Pacific Ocean area (except American Samoa).	Federal Records Center, 6125 Sand Point Way, Seattle, WA 98115

§ 1228.152 [Amended]

20. Section 1228.152(c) is amended by changing the words "in the GSA region" to read "serving the area".

§ 1228.158 [Amended]

21. Section 1228.158 is amended by changing the words "regional National Archives and Records Service" to read "NARA field".

§ 1228.164 [Amended]

22. Section 1228.164 is amended by removing in paragraph (b) the words "GSA Form 3165" and inserting the words "NA Form 1300" and by removing in paragraph (c) the words "GSA Form 3170" and inserting the words "NA Form 1301".

§ 1228.180 [Amended]

23. Section 1228.180 is amended by removing in the second sentence of paragraph (b) the words "the Administrator," and by removing paragraph (c).

24. Section 1228.182 is amended by removing the words "regional archives" whenever they appear in paragraph (b) and inserting the words "National Archives Field Branches"; by adding at the end of paragraph (b)(2)(i) the words ", except for records of agency field offices located in the Washington, DC area"; and by revising paragraph (b)(3)(i), removing paragraph (b)(3)(ii), and redesignating paragraph (b)(3)(iii) as paragraph (b)(3)(ii), to read as follows:

§ 1228.182 Types of records to be transferred.

* * * * *

(b) * * *

(3) * * *

(i) Records of Washington, DC area field offices of Federal agencies and other records relating to the District of Columbia and the Washington, DC area, such as records of the National Capital Planning Commission.

* * * * *

§ 1228.190 [Amended]

25. Section 1228.190 is amended by inserting the word "Legal" before the word "custody" at the beginning of the last sentence of paragraph (a) and at the beginning of the last sentence of paragraph (b).

§ 1228.192 [Amended]

26. Section 1228.192 is amended by inserting the word "legal" before the word "custody" at the beginning of the last sentence of paragraph (a) and in the last sentence of paragraph (b).

27. The table of contents for the newly redesignated Part 1236 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1236—VITAL RECORDS DURING AN EMERGENCY

Sec.

1236.1 Purpose.
1236.2 Background.
1236.4 Categories of vital records.
1236.6 Program considerations.
1236.8 Vital records storage at Federal records centers.

Authority: 44 U.S.C. 2104(a); Executive Order 11490 of October 28, 1969 as amended (3 CFR 1966–1970 Comp., p. 820.)

§ 1236.1 [Amended]

28. Section 1236.1 is amended by removing "§ 101–11.701" and inserting the word "part".

§ 1236.4 [Amended]

29. Section 1236.4 is amended by revising the title to read "§ 1236.4 Categories of vital records."

§ 1236.6 [Amended]

30. Section 1236.6 is amended by revising the title to read § 1236.6 Vital records storage at Federal records centers." and by removing in paragraph (b) the words ", NARS Regional Commissioner,".

31. The table of contents for the newly redesignated Part 1239 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1239—PRESERVATION OF RECORDS BY WAR CONTRACTORS

Sec.
1239.1 Scope of regulation.
1239.2 Responsibility of the war contractor.
1239.4 Records not to be destroyed for stated period.
1239.6 Partial settlements, exclusions, or exceptions.
1239.8 Exemptions.
1239.10 Duplicate copies.
1239.12 Authorization to destroy if photographs are retained.
1239.14 Features which photography would not clearly reflect.
1239.16 Arrangements, classification and self-identification of records.
1239.18 Minimum standards for film and processing.
1239.20 Certificate of authenticity.
1239.22 Additional special requirements for microfilm.
1239.24 Indexing and retention of photographs.

Authority: 18 U.S.C. 443.

32. Table of contents for the newly redesignated Part 1252 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1252—PUBLIC USE OF RECORDS, DONATED HISTORICAL MATERIALS, AND FACILITIES; GENERAL

Sec.
1252.1 Scope.
1252.2 Definitions.

Authority: 44 U.S.C. 2104(a).

33. In Part 1252, remove the word "part" wherever it occurs, and replace it with the word "subchapter".

§ 1252.2 [Amended]

34. The definitions formerly appearing in 41 CFR 105–61.001–1 through 105–61.001–7 and redesignated into § 1252.2 are arranged in alphabetical sequence after the existing text of § 1252.2 and the definitions of "Director" and "Federal records centers" are revised to read as follows:

§ 1252.2 Definitions.

* * * * *

"Director" means the head of a Presidential library, the head of an Office of the National Archives division, branch, or unit responsible for servicing records, or the head of a Federal center.

"Federal records center" include the Washington National Records Center, National Personnel Records Center, and the Federal Records Centers located at National Archives Centers listed in § 1253.6.

* * * * *

35. The table of contents for the newly redesignated Part 1253 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1253—LOCATION OF RECORDS AND HOURS OF USE

Sec.
1253.1 National Archives Building.
1253.2 Pickett Street facility.
1253.3 Presidential libraries.
1253.4 Washington National Records Center.
1253.5 National Personnel Records Center.
1253.6 National Archives Centers.

Authority: 44 U.S.C. 2104(a).

36. § 1253.2 is added to read as follows:

§ 1253.2 Pickett Street facility.

Nixon Presidential materials (see Subchapter F) and holdings of the Cartographic and Architectural Branch are located at the Pickett Street facility, 881 S. Pickett Street, Alexandria, VA. Mailing address: National Archives (NLN) or National Archives (NNSC), Washington, DC 20408. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

§ 1253.6 [Amended]

37. Section 1253.6 is amended by revising the section title, by redesignating paragraphs (d) through (k) as (f) through (m), by adding new paragraph (d), by removing "2306" appearing in newly designated paragraph (h) and inserting "2312", and by removing the words "Federal Archives and Records Center" appearing in newly redesignated paragraphs (i) and (j) and inserting the words "National Archives Center" as follows:

§ 1253.6 National Archives Centers.

* * * * *

(d) National Archives Field Archives Branch: 9th and Market Streets, Room 1350, Philadelphia, PA 19107. Hours: 8 a.m. to 5 p.m., Monday through Friday; 9 a.m. to 1 p.m., first and third Saturdays of the month.

* * * * *

38. The table of contents for the newly redesignated Part 1254 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1254—AVAILABILITY OF RECORDS AND DONATED HISTORICAL MATERIALS

Subpart A—General

Sec.
1254.1 General provisions.
1254.2 Location of records and hours of use.
1254.4 Research procedures.
1254.6 Researcher identification card.
1254.8 Subpoenas and other legal demands for records transferred to the National Archives and Records Administration.

Subpart B—Research Room Rules

1254.10 Registration.
1254.12 Researcher's responsibility for records.
1254.14 Restrictions on using microfilm readers.
1254.16 Prevention of damage to records.
1254.18 Removal or mutilation of records.
1254.20 Conduct.
1254.22 Keeping records in order.
1254.24 Locker use policy.

Subpart C—Access to Unclassified Records and Donated Historical Materials

1254.30 Archives.
1254.32 FRC records.
1254.34 Records of defunct agencies.
1254.36 Donated historical materials.

Subpart D—Access to National Security Information

1254.40 Access to national security information.
1254.42 Freedom of Information Act requests.
1254.44 Declassification responsibility.
1254.46 Public requests for mandatory review of classified information under Executive Order 12356.
1254.48 Mandatory review of classified U.S. Government originated information and foreign government information provided to the United States in confidence.
1254.50 Mandatory review of information originated by a defunct agency or received by a defunct agency from a foreign government.
1254.52 Mandatory review of classified White House originated information and foreign government information received or classified by the White House less than 30 years old.
1254.54 Mandatory review of classified White House originated information and foreign government information received or classified by the White House more than 30 years old.
1254.56 Access by historical researchers and former Presidential appointees.
1254.58 Fees.

Subpart E—Information, Reproduction, and Authentication Services

1254.70 Copying services.
1254.72 Information about records.
1254.74 Information from records.
1254.76 Authentication of copies.

Authority: 44 U.S.C. 2101–2118.

§ 1254.1 [Amended]

39. Section 1254.1 is amended by revising the title to read "§ 1254.1 General provisions."

37. Section 1254.8 is revised to read as follows:

§ 1254.8 Subpoenas and other legal demands for records transferred to the National Archives and Records Administration.

(a) Access to records transferred to a Federal records center is controlled by the instructions and restrictions imposed on NARA by the Federal agency that transferred the records to the Federal records center. NARA will honor a subpoena duces tecum or other legal demand for the production of these records, to the extent required by law, if the transferring agency has imposed no restrictions. When the transferring agency has imposed restrictions, NARA will notify the authority issuing the subpoena or other legal demand that NARA must abide by the agency-imposed restrictions and will request the authority to pursue the matter directly with the transferring agency.

(b) The Archivist of the United States, the Director of the Legal Services Staff (NSL) or his designee, and the Director of the Federal Records Center in which the records are stored are the only NARA officials authorized to accept a subpoena or other legal demand for records transferred to a Federal records center.

(c) A subpoena duces tecum or other legal demand for the production of records designated as "archives" or "donated historical materials" administered by NARA may be served only on the Archivist of the United States, the Director of the Legal Services Staff (NSL) or his designee, the appropriate Assistant Archivist, Director of a National Archives Field Archives Branch, or Director of a Presidential Library.

§ 1254.30 [Amended]

41. Section 1254.30 is amended by removing in the first sentence of paragraph (a) the word "44 U.S.C. 2104" and inserting the word "44 U.S.C. 2108" and by removing in the fourth sentence the words "and the GSA Business Service Center reading rooms set forth in § 105–60.303."

§ 1254.70 [Amended]

42. Section 1254.70 is amended by removing the words "the Service" wherever they appear, and inserting the word "NARA".

43. The table of contents for the newly redesignated Part 1256 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1256—RESTRICTIONS ON THE USE OF RECORDS

Sec.
1256.1 Scope of part.
1256.2 Restrictions on access.

Subpart A—General Restrictions

1256.10 National security information.
1256.12 Information exempted from disclosure by statute.
1256.14 Trade secrets and commercial or financial information.
1256.16 Information which would invade the privacy of an individual.
1256.18 Information related to law enforcement investigations.

Subpart B—Specific Restrictions

1256.40 Agency-imposed restrictions.

Authority: 44 U.S.C. 2108.

44. Part 1256 is amended by removing the words "44 U.S.C. 2104" whenever they appear and inserting the words "44 U.S.C. 2108".

§ 1256.1 [Amended]

45. Section 1256.1 is amended by removing in the section title and the text the word "subpart" and inserting the word "part".

46. Section 1256.40 is added to read as follows:

§ 1256.40 Agency-imposed restrictions.

Some records in NARA legal custody are covered by restrictions imposed by the agency of origin that are in conformance with the Freedom of Information Act.

47. The table of contents for the newly redesignated Part 1258 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1258—FEES

Sec.
1258.1 Authority.
1258.2 Applicability.
1258.4 Color reproductions.
1258.6 Copy negatives.
1258.8 Mail orders.
1258.10 Fee schedule.
1258.12 Payment of fees.
1258.14 Effective date.

Authority: 44 U.S.C. 2116(c).

§ 1258.1 [Amended]

48. Section 1258.1 is amended in the first sentence by removing the words "44 U.S.C. 2112c" and inserting the words "44 U.S.C. 2116(c)" and by removing the words ", not in excess of 10 percent more than the costs or expenses,".

§ 1258.2 [Amended]

49. Section 1258.2(c)(1) is amended by removing the word "GSA".

50. The table of contents for the newly redesignated Part 1260 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1260—DECLASSIFICATION OF AND PUBLIC ACCESS TO NATIONAL SECURITY INFORMATION

Sec.
1260.1 Scope of part.
1260.2 Public requests for mandatory review of classified U.S. Government originated information under Executive Order 12356.
1260.4 Agency liaison.

Subpart A—Mandatory Review of Classified U.S. Government Originated Information

1260.10 NARA action.
1260.12 Agency action.

Subpart B—Mandatory Review of Foreign Government Information Provided to the United States in Confidence

1260.20 NARA action.
1260.22 Agency action.

Subpart C—Mandatory Review of Classified Information Originated by a Defunct Agency or Received by a Defunct Agency From a Foreign Government

1260.30 NARA action.
1260.32 Agency action.

Subpart D—Mandatory Review of Classified White House Originated Information and Foreign Government Information Received or Classified in the White House Less Than 30 Years Old

1260.40 NARA action.
1260.42 NARA appellate action.
1260.44 Agency action.

Subpart E—Mandatory Review of Classified White House Information More Than 30 Years Old

1260.50 Mandatory review of classified White House originated information and foreign government information received or classified in the White House more than 30 years old.

Subpart F—Other Mandatory Review

1260.60 Mandatory review of classified White House information in the custody of other agencies.

Subpart G—Requests for Reclassification of Information

1260.70 Information originated by or under the declassification jurisdiction of Federal agencies.
1260.72 Information originated in the White House and under the declassification jurisdiction of the Archivist.
1260.74 Appeals.

Authority: 44 U.S.C. 2104(a); Executive Order 12356 of April 2, 1982 (3 CFR 1982 Comp., p. 166).

§ 1260.1 [Amended]

51. The title for §1260.1 is revised to read "§ 1260.1 Scope of part."

§ 1260.2 [Amended]

52. Section 1260.2 is amended by removing in the fourth sentence the word "NARS' " and inserting the word "NARA's".

§ 1260.40 [Amended]

53. The title for § 1260.40 is revised to read "§ 1260.40 Information subject to mandatory review."

54. The table of contents for the newly redesignated Part 1280 is set forth below. All internal references appearing in the newly redesignated part are revised as appropriate.

PART 1280—PUBLIC USE OF FACILITIES

Sec.
1280.1 General provisions.

Subpart A—National Archives Building

1280.10 Admittance of visitors to National Archives Exhibition Hall.
1280.12 Photographing documents in exhibit areas.
1280.14 Artificial lighting in public areas.
1280.16 National Archives Library.
1280.18 National Archives Theater and conference rooms.
1280.20 Application for outside use of National Archives Theater and conference rooms.

Subpart B—Facilities in Presidential Libraries

1280.40 Museum areas.
1280.42 Auditoriums and other public spaces.
1280.44 Supplemental rules.
1280.46 Book collections.
1280.48 Photographing documents.

Subpart C—National Archives Centers

1280.60 Use of conference rooms.
1280.62 Restrictions on use.

Authority: 44 U.S.C. 2104(a).

§ 1280.1 [Amended]

55. Section 1280.1 is amended by revising the title for § 1280.1 to read "§ 1280.1 General provisions." and by removing the words "Federal records center" and inserting the words "National Archives Center".

§ 1280.10 [Amended]

56. The title for § 1280.10 is revised to read "§ 1280.10 Admittance of visitors to the National Archives Exhibition Hall."

§ 1280.14 [Amended]

57. The title for § 1280.14 is revised to read "§ 1280.14 Artificial lighting in public areas."

§ 1280.18 [Amended]

58. The title for § 1280.18 is revised to read "§ 1280.18 National Archives Theater and conference rooms."

§ 1280.20 [Amended]

59. The title for § 1280.20 is revised to read "§ 1280.20 Application for outside use of National Archives Theater and conference rooms."

§ 1280.60 [Amended]

60. Section 1280.60 is amended by adding the section title to read "§ 1280.60 Use of conference rooms" and by removing in the first sentence the words "Federal records center" and inserting the words "National Archives Center".

§ 1280.62 [Amended]

61. Section 1280.62 is amended by adding the section title to read "§ 1280.62 Restrictions on use."

62. In Chapter XII, remove the words "Administrator of General Services" whenever they appear and insert the words "Archivist of the United States".

63. In Chapter XII, remove the word "Administrator" whenever it appears and insert the word "Archivist".

64. In Chapter XII, remove the words "National Archives and Records Service" whenever they appear and insert the words "National Archives and Records Administration".

65. Except in §§ 1254.52(a)(6)(iv) and 1260.44(d), remove the words "General Services Administration" whenever they appear in Chapter XII and insert the words "National Archives".

66. Except in §§ 1228.188(c) and the note to § 1288.222(b)(11), remove the word "GSA" and the word "NARS" whenever they appear in Chapter XII and insert the word "NARA".

67. In Chapter XII, remove the words "Part 101–11" whenever they appear and insert the words "Subchapter B".

68. In Chapter XII, remove the words "Part 105–61" whenever they appear and insert the words "Subchapter C".

69. In Chapter XII, remove the words "Subpart 101–20.3" whenever they appear and insert the words "41 CFR 101–20.3".

70. In Chapter XII, remove the words "Subpart 101–20.7" whenever they appear and insert the words "41 CFR 101–20.7".

Title 41—[Amended]

71. The following sections are removed from 41 CFR Parts 101–11, 105–61, and 105–65:

Section 101–11.701
Section 101–11.701–2
Section 105–61.000
Section 105–61.000–2
Section 105–61.106
Section 105–61.108
Section 105–61.108–2
Section 105–61.109
Section 105–61.201
Section 105–61.5100
Section 105–61.5101–6(a)
Section 105–65.103
Section 105–65.104
Section 105–65.203
Section 105–65.302.

Dated: March 27, 1985.

Robert M. Warner,

Archivist of the United States.
